STATE OF MISSOURI

VS.

DARREN WILSON

GRAND JURY

AUGUST 20, 2014

VOLUME I

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

IN THE CIRCUIT COURT OF ST. LOUIS COUNTY

STATE OF MISSOURI

21ST JUDICIAL CIRCUIT

STATE OF MISSOURI,

vs.

DARREN WILSON,

The following is a transcript of the Grand Jury proceedings, at the offices of St. Louis County Prosecuting Attorney's Office, 100 South Central Avenue, in the City of Clayton, State of Missouri, on the 20th day of August, 2014, before

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

APPEARANCES OF COUNSEL:

FOR THE STATE:

Mr. Robert McCulloch, Ms. Kathi Alizadeh and Ms. Sheila Whirley

Prosecuting Attorney's Office

100 South Central Avenue, 2nd Floor

Clayton, MO 63105

(314) 615-2600

INTRODUCTION

MR. MCCULLOCH: Thank you. I'm Bob McCulloch, the Prosecutor, for the record. I want to talk to you a little bit about this. As you are well aware of what we are here about and that is the shooting death of Michael Brown.

I want to tell you how this is going to proceed. Obviously, it is going to be different from a lot of the other cases that you've heard, that you've heard during your term.

First things first. Let me introduce, I say a lot of this you already know. These two ladies, for the record, Kathi Alizadeh, Shelia Whirley, they will be the primary, if not the exclusive attorneys working in the grand jury on this case.

Obviously, I hope, obviously, there be a lot of other people working on things outside of us getting it ready for the presentation that will be made by Kathi and/or Sheila.

Kathi was the prosecutor I have on call for the month of August for all homicide calls. So she received the call about this shooting within minutes of the time the County Police were notified by the Ferguson Police. So she has been working

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

with the police and lots of other things on this since the very beginning.

My procedure is always that I have a prosecutor on call solely for homicide cases and they stay with that case from start to finish, whatever that ultimately may be.

Sheila, as you know, has been assigned to the grand jury for this term and so she will continue with this grand jury on this case for as long as it does take.

There are a few things I do want to go over, first and foremost, to tell you that this is the first, last and probably the only time I think that you will see me in relation to this case. Certainly in the grand jury. Everything that we do, everything that you do, will be recorded with the court reporter, who is under the same oath, essentially, as all the witnesses.

As I said, Kathi and Sheila will be the primary attorneys, the attorneys responsible for presenting everything to the grand jury.

Really, I'm going to go over just a few things to make sure that we have kind of the ground rules, but the procedure covered.

As you know, your term ends on the 10th of

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

September. You also have dockets, there is no docket next week, but on the 3rd and 10th, we have dockets. Those dockets will be adjusted, but they won't be canceled. But they will be adjusted to accommodate whatever time that we need for presentations on this case.

This case is still in the middle of an investigation, there is a lot going on and certainly you are well aware of what's going on in the evenings and during the day and even out in front of the courthouse here on occasions.

So there is a lot that is still going on with the officers gathering the evidence, evidence is being tested, being evaluated. I say evaluated, it is being looked at, firearms evidence, the firearms people are looking at that, DNA evidence, the DNA are examining that.

In addition, the federal government, U.S. Department of Justice, is doing a parallel, but an independent investigation of the same thing.

So a lot of, actually everything pretty much that the County Police or any other state or local department is doing is being replicated by the U.S. Attorney, by the FBI, or by the Justice Department, they are all part of the Justice

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Department.

As that is going back and forth and there is some witnesses they will be talking to that the County Police may not necessarily be talking to. Some that the County had talked to that they haven't or won't talk to. And so, but all of that will be traded. We're giving them all the statements we have, they are passing statements and any other information that they have on this matter back to us.

So it is still independent of one another, but sharing the information because what is significant to this case is also significant to theirs. They are looking at different possibilities.

The federal government and the state government are not the same. We have these criminal charges, they look at potential civil rights violations, but for the same conduct that we are looking at for any potential criminal violations.

So that may add a little bit, a little bit of a delay. I really don't want to say a delay, but kind of giving things to you out of order here somewhat. Like a trial, lots of information is going to come to you and it is going to come out of

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

chronological order. We will kind of go through that just as a schedule. The schedule is just that.

There will be time if we have a particular area, just for example, the DNA evidence. If that is available or when that is available and all of it is available, not just part of it, we will have the time that is in the next two weeks to present that to you all at once. If it is a number of witness statements, we will present all of those to you. We will have it all organized and bring it in.

By the time everything is finished, you will have heard everything, you will have every statement, there will be as many witnesses to come in and testify.

If they made statements, you will not only get the statements they made, whether they are to police, FBI, or television or on the internet or anything else. If we've got those statements, you will have those statements. You will also have the witness who will come in and testify as to that.

Some certainly might be they are just statements that are floating around on the internet and nobody knows who is making that statement, but everybody is doing that and the FBI is doing what they can to locate any of those or the source of

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

them.

So the schedule though after September 10th, your term is extended, and the only matter that you will hear anything on will be this Michael Brown case, the Michael Brown shooting. All you get is that so you won't have the docket. There will be another grand jury that starts the week after that who will be doing what you have been doing for the past four months.

By the way, greatly appreciate your service on that. I don't want to lose that in the message here. You have done a great job, a great service for the people of this county.

But the schedule will then, it is as flexible as flexible can be. It is the only matter that you have and so there is no requirement that you meet on Wednesdays. So whenever all 12 people are available, because all the evidence will be presented to all 12, so we get all 12 of you together, we will work with everybody's schedule.

Obviously, we want to be as expeditious as possible, but not rush through it. If that means we are meeting four hours in the morning and whatever works is what we are going to do. Saturdays, evenings, however it works for everybody's schedule,

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

and as long as you get it. If all 12 of you have an entire day, we will have an entire day.

If you have four hours sometime, we will work all of that out, but we will work, obviously, around your schedules and you know how that's been. It is a little easier, I suppose, when you could tell family and employers and the like every Wednesday you had to be gone. So this will be a little different, so we will have to coordinate all of that.

Also, not necessarily a requirement, we do want to meet here, but there is no requirement of that. If it turns out to be a Wednesday, then we'll figure out something on that.

Everything will be recorded. Starting with the oath by the court reporter and everything that I'm saying now and everything that anybody says, whether it is a witness, whether it is one of the attorneys, or one of the jurors, will be recorded as we are going along.

The value in the court reporter is that we're getting at least a rough transcript as we are going along. So that will, we won't have to wait six months for all of these tapes to be typed up if we did it in some other fashion.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

The other is that the questions, you know, unlike a trial jury, you know, you can and have been discussing what you've heard on perhaps between witnesses or during breaks and the like. Remind you that's part of your deliberation and so none of that happens while there is anybody else in the room and that includes, of course, the attorney and the court reporter.

At the end of every witness, the reporter will make an announcement that essentially he is going to finalize the disc. For every witness who testifies and every session of their testimony, there will be a separate disc made so that when he finalizes that, what it does is it finalizes the disc.

After that, it can't be altered, nothing can be added, nothing can be deleted. And so if that witness comes back at some other time, there will be a separate disc for that and we will do the same. We will do that with every person who comes in and testifies.

You will have presented to you every bit of evidence from the photos, from the scene of the shooting, diagrams of that, the physical evidence that was seized at the time, at the location, the

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

DNA evidence, anything and everything that pertains to this case will be presented to the grand jury. It will all be available to you for your review as it is coming in.

Sheila, primarily, will be at least getting things started in terms of asking the witness questions, much as you've seen her for the whole summer doing that.

Jurors, and you're experienced enough now that you can ask whatever questions you want to ask. Any item, anything you want to ask any witness, absolutely ask that information.

If something occurs to you sometime after that witness is gone, we will get the witness back at some point and ask those questions again. If somebody else says something, you need to clarify it, we will get witnesses back to do whatever it is that you need done.

The one thing we can't do in terms of questions, let me back up a little bit on that while we are talking about the records on that.

Just remember that it is going to take a few minutes to finalize this disc once that witness is finished testifying. So if you have discussion, you want to talk or ask each other questions,

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

anything at all about that, make sure you wait long enough that that is finalized and they understand is out of here and the attorneys out of here. They will stick around long enough to remind you of that, wait until everybody is gone before you talk about it because that's, that's not something that anybody but the jurors hear.

If you have a question about procedure, the attorneys will answer that. Who is coming in next, you know, we are taking a break now or can we take a break now, anything along the procedure the attorneys will certainly answer that.

If you have a question about what a witness said or what is going on or did this witness say this, they're not going to answer those questions. If anything, we will get the witness back to answer any more questions that you asked, but we are not going to answer those questions.

Just a couple other things. I assume the judge talked to you this morning, of course, about your oath, of course, both very similar to what just took, whatever the witness will take, that these are confidential proceedings, that nothing leaves this room unless and until ordered by the court or some other legal method. I will talk

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

about those in just a second.

The other is the confidentiality and the oath and the anonymity. You are anonymous. You are protected by law from all, your names are not public, your addresses, no information about you is public.

There may be some, the demographics of it, I think that is information that can be passed out in terms of, you know, race, gender.

MS. ALIZADEH: Age.

MR. MCCULLOCH: I won't say the age. The general location that we have. Say, I don't know, three grand jurors who live in municipalities and 12 who live in unincorporated or nine live in unincorporated. We have X number who are outside of the 270 loop, X number inside. So many above 70, below 70, all of that demographic information, but nothing that would, anybody would ever be able to identify any individual from just that no matter how they try to put it together.

And that is, I just want to share, that's protected by law that's been litigated and those names, the information does not get released.

So the other is with the parking. We are trying to arrange the parking very similar to what

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

we had today so that you are inside. Once we're past September 10th, you are meeting on a different schedule, on your schedule, that makes things a lot easier because, you know, everybody knows that the grand jury meets on Wednesday.

So if you are meeting some other day, you know, there may be media around, but the good thing about construction going on next door is we can kind of work around the visibility of it, particularly with the parking that we had. We will have all of that arranged.

And the media, you know, the media kind of comes and goes around here. I did a number of interviews with local people today for a couple reasons, one is to get it all out of the way. So we're finished with, for the most part, with any kind of interviews with that.

I can't control whether anybody shows up outside and just hangs outside the doors and all of that. If there is a protest scheduled or the media is going to be here. We will work with that again. We will know who is there and what's there and all of that. If need be, get you in and get you out of the building without worrying about any of that.

The only other thing I'd say when you are

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

coming in, don't wear the grand jury badge and that will, won't tip anybody off that you are on the grand jury, we will have all of that stuff.

Am I missing anything?

MS. WHIRLEY: Note taking.

MR. MCCULLOCH: Oh, you are right. Note taking. You take, as you know, all the notes that you want. Write down anything and everything. If a thought occurs to you, you want to talk to the witness, take all the notes that you want. The notes, of course, can't leave here. They are your notes and your notes alone.

Fellow grand jurors won't see your notes and you won't see their notes. At the end of the day or end of the session, the notes will be collected and they will be secured. Any evidence that is presented to you, physical evidence, of course, also will be collected and it will be secured. We have highly secure evidence lockers within the complex here. All of that will be that.

At the end of that, you can use your notes for any deliberation when everything is finished. At the end, just so you know, there are going to be massive amounts of information and physical items that are coming here in the next month. You're not

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

going to remember everything. The witness today testifies, you're not going to remember that a month from now, but all of that and the transcripts will all be available and you'll have as long as you need, as long as you want to go through everything again before you start your deliberations. While you are doing deliberations, all of that is available.

Unlike a trial jury where you have to send a note out to the judge and the judge would decide if you get something or you don't get something, that rule doesn't apply here. Everything will be here in the room with you and you will have access to all of it. You, of course, have access to your notes throughout all of that.

At the end of all of that, you won't have access to those notes, is that it?

MS. ALIZADEH: I want to say that what Bob said, everything is going to be recorded in this room while we're presenting this case. That, of course, doesn't include your deliberations, those will not be recorded. And when we have juries who are hearing evidence in trial, typically the jury, not typically, always the jury is told prior to trial to keep an open mind throughout the entire

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

process, don't form any opinions until you've heard all of the evidence.

There's no requirement that you all can't talk about things amongst yourselves. So if there is something that you all talk about and decide, we would like to hear from this person or you have a question about us bringing another witness in, you all can discuss that amongst yourselves so long as you are not deliberating and starting to form opinions until you have heard everything, okay.

So there will be times for you all when there is no recording going on, where you all can discuss your schedule, you know, when we might meet again, and if there's any questions that you have that you want us to try to provide the answer for.

Again, as Bob said, Sheila and I can't answer other than just procedural things or questions of law. But if there is some question that you have, if we can find somebody who can answer that question for you, we will do so, we'll try to bring somebody in to answer those questions, okay?

MR. MCCULLOCH: I'm glad she said it. You do need, and I know you will keep an open mind on everything. You haven't heard a single thing yet

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

other than what has been in the media, believe me that's not evidence. Don't form any opinion on anything that you've heard, good, bad or ugly in the media.

Everything that's been collected, every statement that has ever been made, it will all be here for you. You need to keep that open mind to give everybody, including the entire community, a full and as open as it can be, but certainly as thorough and as expedient of all the evidence that you can.

I know people keep talking about the transparency, at the end of all of this, depending on your determination, as other cases, if there are charges that you find should be lodged and are lodged, then all of that information will come out pursuant to the course of the case. There are rules that apply then as to how things are handled and all of that. It doesn't come out right away because you can't prejudice a potential jury panel. So all of that evidence, just like here, is presented to a trial jury in the courtroom and not put out in the media. So everybody can see it and then make their mind up before they ever come into a courtroom.

If your determination is that there are no

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

charges to be filed, then everything will be released immediately or as close to immediately as we can get, and that's everything. Your deliberations aren't, as I said, your deliberations are not recorded and never will be recorded, notes won't be released, but every bit of evidence that you have, the testimony of the witnesses who come in, the statements of the witnesses, the physical evidence, the photographs, everything that you have seen and heard will be released to the public. That is as transparent as we can get short of putting a pool TV camera in here and that's not going to happen.

It is, obviously, an awesome burden, but it is going to be an awful lot of work and we will make it as orderly and organized as we can to you.

As I said, if there is anything at all that we can do to do that, working with your schedules, work longer, we have no set hours. So whatever it takes, we will get that to you. We don't want to rush through anything, but we also don't want to drag it out.

I'm anticipating, in all honesty, without basing it on a whole lot, that we hope to have this completed by the middle of October. It doesn't mean

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

every day that you will be here from September 10th until then, but the more days we can have some session, the more expedient this will get out there and that's important to everybody, of course.

The most important thing that you get all the information and all of the evidence and make your determination on that.

Any questions now, procedure that I can answer?

Alternate jurors, do we have them?

MR. MCCULLOCH: We are in the hope that all 12 of you are perfect, healthy specimens, who have no plans to leave town or go on vacation for two months. All 12 will hear everything and the only way we have alternates is to have them in here at the time and we do that at a trial, but here it is just, it doesn't work in the grand jury. So we have all 12 when we can get all 12 of you together.

If we can only get 11 together, we are going to have to find a different time. I hope everybody can be as flexible as possible, and again, we will be as flexible as possible. We have no set hours. Every day is Monday, weekends, whatever works for you is when we are going to be here.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Morning, noon or night, or any day.

Thank you. As I said, this is probably the last time you will see me. I can't imagine what it would be unless there is something that came up that you wanted to see me, so thanks.

MS. ALIZADEH: As Bob said, Sheila and I are both going to be presenting this case to you and there may be times where I know Sheila has a case set for trial next week and it might just be, of course, we don't have next week. There might be days where you are only go to see me, only go to see Sheila, we are trying to split up the work as much as we can just to make it easier for the both of us, but there is no, don't read into anything about why is Sheila only having this witness or Kathi is presenting this witness because we are just trying to split it up.

And so on days when Sheila might be presenting somebody, if I can be, I will also be here in the room, but I won't be commenting, I won't be asking any questions, it will be Sheila presenting, and the same thing on a day where I might be presenting a witness, Sheila may be here, but it is just for our benefit. We both want to see as much and as hear as much as we can, but there

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

might be times when we are not available.

MR. MCCULLOCH: Good thing about being the boss is I have a lot of flexibility in adjusting their schedules, so that will happen, but we will keep that to a minimum because we want to, in addition to all 12 of you hearing here, and the two of them here as much as possible. You will hear everything, they will hopefully hear everything.

MS. WHIRLEY: I am Sheila Whirley. Present in the room is Kathi Alizadeh and the witness, is with the Medical Examiner's Office. He is the investigator, he is going to take the oath in a minute and also present are Jurors 1 through 12.

would you approach to take the oath?

THE WITNESS: Yes, ma'am.

MS. WHIRLEY: And, of course, the court reporter, is here.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

MS. WHIRLEY: This proceeding involves the shooting of Michael Brown.

BY MS. WHIRLEY:

Q All right. you've stated your name. What is your occupation?

A Medical legal investigator.

Q And where are you employed?

A The St. Louis County Medical Examiner's Office.

Q How long?

A Approximately 25 years.

Q Now, what does a medical investigator do?

A We investigate the deaths that occur in St. Louis County.

Q You investigate deaths that occur in St. Louis County?

A Correct.

Q Do you require any special training for

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

your job? Let me rephrase that, have you had any training?

A Yes, I have on-the-job training and courses that we take.

Q What kind of courses do you take?

A There is a medical legal death investigating courses, approximately last all week and --

Q So about 40 hours?

A 40 hours.

Q What kind of things are you taught?

A Just how to investigate, what to look for, what changes in the body after death.

Q You have been doing this for 25 years?

A Yes, ma'am.

Q Okay. What kind of schedule do you work now?

A I work 32 hours a week.

Q And do you work throughout the week or weekends?

A Just weekends.

Q Only weekends?

A Yes, ma'am.

Q So how many hours, you said 32, so 16 on Saturday?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A 16 on Saturday and 16 on Sunday.
Q And you were called this particular Saturday?
A Correct.
Q What was the date of the occurrence?
A I'm not sure.
Q I'm going to give you what's marked for purposes of identification State's Exhibit Number 1. And you can refer to this through this proceeding if you need to tell me what the date was?
A It was the 9th.
Q Okay. The 9th of?
A August.
Q Okay. And I want to talk a little bit more about your background before we get into the crux of this.
A Yes, ma'am.
Q What is the purpose of a medical investigator at a Medical Examiner's Office, why have you?
A We are the eyes and ears of our pathologist. The person who is conducting the autopsy. They don't go to the scenes, we go to the scenes for them.
Q Okay.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A And bring back information for them so they can properly do the autopsy.

Q I see. When you go to the scene, do you have any special tools that you take with you?

A We have cameras and things to establish the time of death, and other equipment that we collect evidence.

Q Okay. So tell us what a medical examiner does once, well, first of all, how do you get the call?

A Usually a police officer or hospital or paramedic will call us and let us know there is a deceased person.

Q Do you have a certain timeframe that you must follow? I know the person is always deceased by the time you are called, correct?

A Correct.

Q Are there some time parameters when you need to arrive to the scene?

A No, ma'am.

Q Okay. So you go by yourself?

A Yes, ma'am.

Q Okay. Do you call anyone to come?

A We do have a delivery service that we call.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q What is a delivery service?
A Delivery service is the person who picks up the body.
Q Do you call the delivery service when you get the call?
A Correct.
Q Once you get there?
A No, once I get the call, I call them to let them know what is going on, where it is at.
Q They meet you there?
A Right.
Q So at the scene once you arrive, what do you do? Like take us through an investigation.
A I try to meet the reporting officer, speak to him, find out what happened. They go and look at the body and see if everything is consistent with what he told me or whatever witnesses told him, and then I come back and I would talk to the family or one of the witnesses if they were there.
Q So when you talk to people, it is not necessarily the people who directly saw the incident?
A Correct.
Q You are getting kind of hearsay information?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Yes, ma'am.
Q And you don't necessarily see what is occurring yourself any of these times?
A Correct.
Q By the time you get there, it has happened?
A After the fact, correct.
Q Why do you talk to the officers?
A Because the first responding officer makes contact with the person who called the police to find out what's going on.
Q Why do you need to know what's going on. I mean, there is a deceased body, why do you need to know more?
A To see if the story is consistent with his death, as opposed to suicide or a homicide, just trying to establish a timeline.
Q But you are not the one who makes the call as to what the cause of death is?
A Correct.
Q Or the manner of death?
A Correct.
Q Or whether or not it is a homicide or a suicide, you don't make that call?
A Correct.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q You just gather it for the pathologist?
A Yes, ma'am.
Q All right. Do you write a report?
A Yes, ma'am.
Q Okay. How long generally does your investigation take?
A It can take anywhere from several minutes to an hour or two.
Q Okay. And what's included in your report?
A My initial contact with the reporting officer, the reporting person, the location, what I saw when I got there, the condition of the body, and a paragraph or two on witness statements.
Q Who is your supervisor, who do you report to?
A Chief Investigator
Q Who would approve your report, is that the same person?
A He would.
Q All right. Do you generally take photographs?
A Yes.
Q Okay. And let's talk specifically about the case involving the shooting of Michael Brown. Did you take photographs?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A No, ma'am.
Q Why not?
A My battery in my camera died.
Q Were photographs being taken?
A Yes, ma'am.
Q By whom?
A St. Louis County Police Department.
Q Like their identification unit?
A Their identification unit, correct.
Q You saw them taking photographs?
A Yes, ma'am.
Q Do you have access to those photographs?
A If we need them, we can get them.
Q Is that something you would want, photographs?
A Sometimes the pathologist asks for them.
Q Okay. Do you know if they were asked for in this case?
A I don't know.
Q Okay. I thought I heard you say, or if you didn't, let me ask the question, did you take measurements of anything?
A Yes, we can if we need to, yes.
Q Did you in this case?
A No, ma'am.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q Because you didn't need to?
A Correct.
Q Why not?
A I got there, it was self-explanatory what happened. Somebody shot somebody. There was no question as to any distances or anything of that nature at the time I was there.
Q Okay. And if it turns out there was some concern about the distances, that's not something that you would be qualified to tell us about?
A If I took the measurements I could tell you about them.
Q What kind of distances when you say distance?
A Like for the Brown case?
Q Uh-huh.
A Maybe like if he was close enough to leave stippling on his clothing, things of that nature.
Q So you didn't take any measurements though?
A Correct, I didn't see no stippling, no indication how close he actually was going to be.
Q Did you look for stippling?
A Yes, ma'am.
Q Where did you look for it at?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Around the wounds.
Q Wounds?
A Yes.
Q When you say stippling, what is stippling?
A It is gunpowder, burning of the gun powder.
Q You say you looked for it around his wounds?
A Correct.
Q And what did you see?
A I didn't see any.
Q Okay. So this occurred on, tell us the date again?
A Uh --
Q I'm sorry?
A The 9th.
Q The 9th of?
A August.
Q Of August?
A August 9th.
Q What time were you told this occurred?
A Our office got the initial call at 1:30.
Q Did you get information that it occurred earlier than 1:30?
A Yes, ma'am.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q What time is that?
A Around noon time.
Q Okay. So it occurred around noon time. You get the call around 1:30?
A Correct.
Q And the call comes from St. Louis County?
A Yes, ma'am.
Q Do you know who called?
A Sergeant.
Q Or whom?
A
Q Did you talk to that person?
A No, I didn't.
Q So someone gave you the assignment?
A Correct. No wait, I'm sorry, I did talk to him.
Q You did?
A Yeah, the initial call came into our on duty investigator, he gave me the information and I called the sergeant.
Q What did you call him for?
A To set up a time when they need me, when to actually be out there.
Q Okay.
A Go ahead.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q Why did you need to set up a time?

A Because other officers are responding to the scene, St. Louis County detectives, their ID unit, that may take anywhere from 30 minutes to several hours before I could actually get in and actually see the body.

Q So you don't want to be there when they are doing their thing?

A Correct.

Q Okay. And so you were called at 1:30. And what time did you arrive?

A Approximately 1430, 2:30.

Q That's 2:30. In about an hour. Is there any reason why it took you an hour to arrive?

A No, ma'am, just waited. I called them about 2:15, they said they were showing up, the ID people were there showing up. So I went ahead and responded to the scene.

Q You were giving them time to do what they needed to do?

A Correct.

Q So describe the scene to us when you arrived. I mean, like were there a lot of people out?

A It was an apartment complex where crime

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

scene tape up, and a crowd has gathered, quite a few people there. He was deceased, was laying in the middle of the street. There was already some orange barriers around him to keep the crowd from seeing him.

Q Was the crowd saying anything?

A They were just, I don't know how to explain it. I guess voicing their concerns at what is going on, why is this taking so long, things of that nature.

Q Why is it taking so long?

A Correct.

Q And you could discern what they were saying?

A I hear them, but I don't listen.

Q But you did know they were asking why it's taking so long?

A Yes.

Q Do you know what that meant?

A I assume the body was laying out there too long, they didn't like the body being out there.

Q When you arrived, tell us what it looked like, the body, was it covered, uncovered?

A He was covered with several white sheets laying in the prone position.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q Prone means?

A Face down. There is a double yellow line, I guess it is east and west traffic, he was right in the middle of the roadway.

Q Okay. What did you do?

A When I was able to go to the body?

Q Yes.

A I went over there with the police officers, the ID officers, we removed the sheets, took photographs of his back, lifted up the shirt, took more photographs. Then we rolled him over, I placed white clean sheets down on the ground and rolled him over onto those. Took more photographs, documented the injuries, looked through his pockets, looked through his pants for any weapons or anything of that nature.

And then got some clean paper bags, placed them on his hands and then we put him back on the sheet and into a white bag and sealed it up.

Q How long were you on the scene?

A Probably a couple hours.

Q And when you left, the body left, the deceased left; is that right?

A Correct.

Q You --

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A I was actually with the body for about 15, 20 minutes by the time I was waiting to get to the body.

Q You were there, you think, a total of a couple hours?

A Correct.

Q Did you talk to any of the bystanders or people that were not police officers?

A Just his grandmother.

Q Tell us about that.

A I was walking back to my vehicle to make some phone calls and a lady came up and she asked me if I was a medical examiner, I told her I was. She asked me why the body was still on the street, why is it taking so long.

I explained to her, you know, it takes a thorough investigation and crowd control, just getting everybody into the scene was taking time to do that and once everybody is here, we can get our information that we need and the evidence collected and then we can be out of here. Once everything starts, it doesn't take long.

Q Okay.

A She seemed to be fine with that, and she said she is going to walk around the crowd and try

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

to get people to move back.

Q She did?

A Yes, ma'am.

Q She was very pleasant --

A Yes, ma'am.

Q -- with you? Did you notice his mother there?

A The officer pointed his mother out in the crowd.

Q Did you have any conversation with her?

A No, ma'am.

Q Did she do anything or say anything that you overheard?

A Not really, just crying hysterically and oh, my God, and stuff like that.

Q Was there anything about his tattoo?

A There was an officer stated that she said he had a tattoo on his arm, Big Mike, that is one of the things we need to do is get him identified.

I actually didn't know if she actually walked over there and actually seen him, or she just knows that's him and explained the tattoo. When we rolled him over, we saw the tattoo and knew it was him.

Q You overheard, or an officer told you that

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

that's what she said?
A Correct.
Q That he had a tattoo Big Mike?
A Correct.
Q Then you verified the tattoo?
A Correct. We can use tattoos for identification in our office.
Q Now, when you said you rolled over the body and you checked the body for injuries and photos were taken, you didn't take those photos, you know photos were taken?
A Yes, ma'am.
Q Can you describe the injuries as you saw them?
A I saw one in the top of the head, several on his right eye, a bunch of blood, dried up blood. I guess road material, there was one here, there was an injury here, an injury on his side right here, two in the arm and one in here and a wound on his hand.
Q Did you see any wounds to his back?
A No, ma'am.
Q When you say he was laying prone, which is face down, where was his hands and that kind of thing?

Electronically signed b d5c6c720-281b-4bd3-b556-f277df197ecc

A He was prone and his left hand was under him and his right arm was slightly out to his side.
Q Could you stand up for me?
A If I stood up and I was laying down it would be like this. (indicating)
Q So his right hand was where?
A On the ground, slightly away from his back.
Q Okay. And his left hand was where?
A More like by his waistband, in front of him.
Q On his side as he is laying, not outside his body?
A No, like he fell on it, right.
Q Okay. Did he have any weapons?
A No, ma'am.
Q You checked him for weapons; is that right?
A Correct.
Q Did you happen to speak to the officer who was charged, who is not charged, but who is alleged who did the shooting?
A No, ma'am.
Q Okay. He wasn't at the scene when you got there?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Correct.
Q Okay. Any other bystanders come up to you or say anything?
A No, ma'am.
Q Okay. Were you frightened or afraid?
A No, ma'am.
Q Okay. Now, you said you talked to the police, they gave you information about what happened?
A Correct.
Q And this isn't any firsthand account that you have, you did ask them what happened?
A Correct.
Q Who did you talk to?
A Detective , was one of the detectives.
Q And what did he say?
A That there was a, that Officer Wilson was driving down the roadway, he encountered the two individuals in the street, asked them to exit the street and an altercation started from there. And the decedent ran away from the vehicle, the officer gave chase. They met up again in the middle of the roadway and shots were fired.
Q Okay. And did Detective

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

represent to you that he actually saw this occur?
A No, ma'am, he wasn't there.
Q I'm sorry?
A No, he did not see it.
Q He is telling you what he heard?
A Correct, information he received from whoever he ended up hearing it.
Q Do you know who that was?
A No, ma'am.
Q Were there any paramedics at the scene when you arrived?
A No, ma'am, they were already gone.
Q And when discussing the body again, Michael Brown, was it like firm or hard, or tell us about rigor mortis, what is rigor mortis?
A Rigor mortis is hardening of the muscles after death.
Q Okay. When does that set in?
A It starts immediately, but you actually, full rigor mortis about 12 hours after death.
Q Okay.
A Then it goes away and it comes back. Many different variables, different size of people, where they're at, location of the body, what they were doing prior.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q Weather?
A Medications, weather, drugs, everything.
Q Did you notice any rigor mortis on Michael Brown?
A It was starting to set in, correct.
Q Where?
A I felt it in his arms, his hands.
Q Okay. Do you know whether or not he had been moved or anything when you arrived?
A It didn't look like he was moved from the position that he was --
Q You don't ask that question?
A We do ask that question. Sometimes we can tell if the body has been moved.
Q How?
A By livor mortis.
Q What is that?
A Settling of the blood.
Q How can you tell by the livor mortis? Explain.
A Actually, with light skin people you can see it, in dark skin people it is hard to see.
Q Okay.
A That's why I didn't put that in the report as to livor mortis.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q What do you see? I don't understand.

A It is when your blood starts, all the blood just settles at the lowest part and gravity takes over and all the blood comes down here and this would be like discolored.

Q Okay.

A Anywhere from like a light pink to a dark blue, and that sets in about 12 hours. If you move somebody, it will change position.

Q Oh. And it was based on your training and experience and your discussion with the officers he had not been moved?

A Correct.

Q All right. When you got there, did the police delay you or tell you, you know, they weren't ready for you to do your part or did you get right in?

A No, I didn't get right in, they still had some photographs to take and evidence to collect and document.

Q So once you got there, I know you said it took you about 15 minutes to do what you needed to do, but once you got there, how long did you wait before you were able to do what you needed to do would you say?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A I would guess about an hour.
Q Okay. Is that unusual?
A No, ma'am, not for homicides, no.
Q Okay. Now, did you take any notes regarding what was occurring?
A Yes, ma'am.
Q Okay. Is that your regular system that you take notes as you are out on the scene?
A Yes, ma'am.
Q And you use those notes to write your report?
A Correct.
Q How soon do you write your report?
A As soon as I get back to the office.
Q Is that what you did in this case?
A Yes, ma'am.
Q Okay. What do you do with those notes?
A I usually destroy them after the report is completed.
Q You shred them?
A Yes.
Q Did you do that in this case?
A Yes, ma'am.
Q Why do you shred them?
A Everything in my report is going to be

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

from my notes.

Q Okay. Is there stuff that you did not put in your notes that you want to tell us about or that you did not put in the report?

A Other than?

Q Anything?

A In looking at the report, I would like to clarify, the east and west position of the body may not be accurate, may not be correct. I was just going by the street that I came in on, that I came down. It should have been an east and west street. So that should have been west and his feet should have been east.

Sometimes in a subdivision the streets, they curve, so his head may be a little bit off. Like southwest, and his feet may be northeast or something in a different report, but I should say that the head was pointing towards Florissant and his feet was, what's the name of the other street, the other main intersection that I came in on to get to Canfield.

Q Okay.

A I can't think of the street right now.

Q Okay. Is there anything else looking at your report that you need to modify or add?

Electronically signed b d5c6c720-281b-4bd3-b556-f277df197ecc

A Not that I can think of.
Q When you are writing your report, if there is something that you discover later, do you write a supplemental?
A Yes, ma'am.
Q Can you recall an instance where you did write a supplemental? You don't have to tell us the name of the case or anything.
A Cases like, maybe on this kind of case like this, maybe the doctor asked us what was he doing before this happened. I would have to go back, contact an officer, maybe his family and find out why he was with so and so doing something or you know, whatever he was doing prior to his death. I may have to go back and get that information.
They may call me, the doctor may ask me, can you call the family to see if they have any kind of medical history, and things of that nature.
Q Okay. And getting back again because one other thing I want to ask you about the injuries, did you count the gunshot wounds?
A Yes, ma'am, what I thought was gunshot wounds.
Q Clarify what you mean?
A Just because there is a hole in a person

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

doesn't actually mean it came from a bullet.

Q Okay.

A It could be a stabbing, could have fallen on a rock, could be a laceration.

Q But you counted a certain amount of wounds that may or may not have been gunshot wounds?

A Correct.

Q How many did you count?

A I think nine altogether, nine.

Q Where were they located, you can tell us? Refer to your report.

A One on top of the head, one to the right forehead, one around the eye, and then one in the neck, close to the neck/chest area, one on the right side and the rest in the arm and one in the hand.

Q Okay. You said total like nine?

A Correct, nine injuries.

Q Did he have any other abrasions to his body?

A He had abrasions on the back of his hand, left hand and abrasion on the right side of his face.

Q What is an abrasion?

A Several scratches.

Q And when you were done, you said you

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

wrapped him up in a clean sheet?

A Yes, ma'am.

Q And then you told delivery person, what did you tell them to do?

A We work as a team. And I roll them over and I put them in a sheet, we tie them up and lift him up, put him in bag, seal up the bag. Actually, just zip it. We have a lock that we put on there and the lock stays on there until the next day.

Q Okay.

A And then the delivery service, the two people will pick up the body, put it on a cot and transport it back to the facility.

Q To the Medical Examiner's Office?

A Correct.

Q Did you go back to the office too?

A Yes, ma'am.

Q When they were packaging Michael Brown and putting him in the delivery, the car, I guess it is like a hearse or something?

A It is an Escalade.

Q An Escalade. Did anybody say anything as you are leaving or did the mom come up to you?

A No, we were inside the crime scene tape, nobody was actually able to come up to the vehicle.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

Q Okay. All right. Questions?

MS. ALIZADEH: Can I ask a couple?

Q (By Ms. Alizadeh) Shortly after, at some point, and I assume quickly you learned that this was a police officer shooting, correct?

A Correct.

Q Do you handle those any differently than you do other scene shootings?

A No, ma'am.

Q The entire time you were there, there was police officers present, correct?

A Correct.

Q From St. Louis County?

A Yes, ma'am.

Q Were there any Ferguson officers present?

A There was multiple different jurisdictions there.

Q Okay. At any time did anyone, whether it is a police officer or anyone else, did you feel that they were preventing you from doing your job the way you thought it should be done?

A No, ma'am.

Q Did anybody suggest that you do something that you would not have normally done?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A No, ma'am.
Q Did, and you said that this was obviously a shooting, you would not have handled this any differently if it was a nonpolice related shooting?
A Correct.
Q And then also you said that you checked the body of Michael Brown and you checked in his pockets and you were looking for weapons, a weapon?
A Correct.
Q Did you have reason to believe that there was a weapon or is that a standard thing?
A Standard procedures.
Q Okay. Did you find anything in his pockets?
A We found two lighters, two $5 bills and a small little bag of marijuana, or what appeared to be marijuana. It was a green substance, grass, looks like marijuana to me.
Q Okay.
A That was it.
Q And when you say we found, who is the we?
A Actually, it was me taking the stuff out of the pockets, detectives were standing there taking notes, the ID people were standing there, they should have taken photographs of it. After we

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

were done, I put it back in the pocket.

Q You were the one who actually reached into the pockets?

A Yes, ma'am.

Q To your knowledge, were you the first person to go into those pockets or do you know if there was anybody else?

A I couldn't answer that one.

Q You don't ask or make any attempt to ask if someone --

A We do, we do ask if anybody went in there and got his cell phone out. Sometimes they take the wallet out to get his ID out or take the cell phone to get information off the phone, and that wasn't done.

Q To your knowledge?

A To my knowledge it wasn't done.

MS. ALIZADEH: Okay, that's it.

When you got there, you said you were taking photographs and I understand you weren't actually taking them, were you directing the police on what photographs to take?

A No, ma'am.

You were relying on them to take the actual photographs?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Correct.

You said injuries, how many were down the right side?

A Just one injury on the right side, right below his nipple, one right here, clavicle area.

You said the forehead, the eye, the neck, the side, the hand, the arm and the hand?

A Correct. And one in the top of the head too.

And the position of the body, I didn't quite hear because I'm opposite from you. When looking at you, you said one arm was out, was that the right arm?

A Right arm was out.

Right arm was out and the left arm was against his waistband?

A Correct, yes, ma'am.

And you modified the direction of the body. Can you say again was it east or the west or the west to east?

A I'm going to assume his head was west and his feet was east.

His head was west and his feet were east and that's the modification?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A That's what I have in my report, I just want to make sure I clarify that his head actually faced West Florissant and his feet was Glen Oak, Glen Oak was the other street.

So his face was at West Florissant?

A Correct.

And his feet were at Glen Oak?

A Correct.

Was he face down?

A Yes, ma'am.

MS. WHIRLEY: When you say modify, this is Sheila Whirley, you are talking about your report, not that you did anything to that body to change the position of the body?

A No, ma'am.

MS. WHIRLEY: Your modification is to make a correction in your report?

A Yes. Like an officer comes up with a compass, it is northwest by southeast or it is east and west, you know, or south and north, I just want to clarify myself. I was trying to figure out where I was at by the street location.

MS. WHIRLEY: Okay, I see.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Came down Chambers, which is east and west and Glen Oak is going north and south and right back onto Campfield.

MS. WHIRLEY: Okay yes, ma'am.

.

A Yes, ma'am.

I'm trying to get a clarification. You said that the police officers had already examined the body, photoing the body, taking pictures of everything on the body.

Let me understand, when you examined the body, you searched the pockets and you found the marijuana, the two $5 bills and the two lighters. Why wouldn't those objects be outside the pockets if they had already examined the body?

A They don't actually examine, they just take photographs. They don't touch the body until I get there and I can't touch the body until the detectives get there. We kind of do it in tandem. We don't want to disturb the scene. They come in and they photograph everything like it is. I come in, if I move anything, then they photograph it again.

MS. WHIRLEY: What's the purpose of doing it in tandem and not the police?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A That way the scene doesn't get contaminated, things get moved around or kicked around and we all have different information then.

MS. WHIRLEY: There is information that the body may be able to tell the medical examiner or should be able to tell a medical examiner?

A Right.

MS. WHIRLEY: And if it is tampered with, that information --

A Correct.

MS. WHIRLEY: May not be accurate?

A May be important information.

MS. WHIRLEY:

. I just need a clarification here. This is in regards to your conversation with Sergeant ?

A Correct.

Approximately 1:30 p.m.

you had a conversation with him to set up a time when you were to arrive at the scene?

A Yes, ma'am.

Q Okay. And you said approximately, he said you called within an hour of that time?

A Correct.

Q So approximately 1:30 p.m. to 2:30 p.m.,

Electronically signed b d5c6c720-281b-4bd3-b556-f277df197ecc

you called, but you said you arrived at the scene at about 2:30 approximately your time. Now, I understand you stated that after you got to the scene then you had to wait another hour, is that my understanding?

A Yes, ma'am, approximately about another hour.

So actually your investigation didn't start until about 3:30 p.m. that day?

A Correct.

MS. WHIRLEY: So what was happening in that hour?

A What happens, the crime scene unit they show up, they have to get their cameras ready to make their placards, grab all of their little place cards and find evidence on the scene, mark the evidence, lay it there, take photographs of it.

A lot of time you have to clear out a way, a path for me to get to the body. I'll be walking through there kicking shell casings and different evidence around.

MS. WHIRLEY: So all of that was occurring?

A That was going on then, correct. Like I

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

said, they just got there, they are talking amongst themselves on what they are going to do. There is several officers. Some transcribe, some give out measurements, some photograph, you have a transcriber with the photographer.

MS. WHIRLEY: This was St. Louis County on the scene?

A Correct, yes, ma'am.

MS. WHIRLEY: It is your understanding that Ferguson was on the scene first?

A Correct.

MS. WHIRLEY: And then the scene was turned over to St. Louis County?

A Yes, ma'am.

MS. WHIRLEY: Yes, sir.

: . Were paramedics called initially do you know to, you know, the first instance, did they do anything to the body?

A I don't know if they were called or not. I know they arrived on scene shortly after it happened. I looked at the body, they didn't have no leads, any kind of what they usually do is put a lead on their body for EKGs to see if there is any kind of heartbeats. None of that was placed on there. Everything from there on is going to be

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

assumption. I don't want to assume what they did. Who would determine before you got there this person was deceased?

A The paramedics or police officer, I don't know.

MS. WHIRLEY: When you got there, the body was deceased?

A Correct.

MS. WHIRLEY: Michael Brown was deceased?

A Yes, ma'am.

To just continue that, to put the EKG on to determine that, do they typically have to move the body?

A No. I guess from the wounds that they observed was actually a fatal wound.

MS. WHIRLEY:

: . So in 25 years of work, how common when you have responded at the scene for a shooting involved an officer and another civilian, is that something that happens often?

A I have been on several of them.

So several of them in 25 years?

A Several police shootings.

So in this case, did it

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

seem peculiar or out of the ordinary that the shooting officer was not present?

A No, not at all.

Not at all?

A No.

Do you know what the protocol is for that?

A They probably took him to the hospital or back to the police station interviews. Majority of the time, they're not there.

MS. WHIRLEY:

MS. ALIZADEH: Could I make a suggestion? I know you all aren't used to this, but when you do ask a question because we don't know how well this is all picking up until we listen to this later or have an opportunity to check it, so if you would make, you don't have to get right up on it, but make an effort to kind of speak into the microphone so that we can be sure that your questions are recorded, that would be great. If I see you not doing that because you are not used to it, I might say, could you get close to the mike, okay.

MS. WHIRLEY: Let me just say, this is your mike, we are kind of sharing it, just to let you know.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

: . You said, I guess, you looked for gun powder on the body?

A Yes, sir.

And you didn't find any?

A Correct.

If you would have found some, what does that determine?

A That tells me that the weapon was fired at a certain distance from the body.

So usually you can tell the closeness, I guess?

A Correct. If the altercation was maybe 12 inches or less when the gun fired.

MS. ALIZADEH: Just for the sake of clarification, you're not a ballistics expert?

A Correct, I'm not a ballistics expert.

MS. ALIZADEH: There if you would like, we anticipate you may hear evidence as this goes along about that, but he's not an expert in ballistics.

A Depends on weapon, age of the weapon.

MS. ALIZADEH: He can talk about his experiences and what he knows from his personal and professional training, but he's not really a ballistics expert.

He asked a question that

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

led to another question.

A Sure.

You said there were no leads on the body by paramedics?

A Correct.

Are you able to see that after they leave?

A Yes, ma'am, they are small stickers.

So they don't take those off?

A No.

They would be on there?

A Correct.

You were able to see?

A I didn't see any on there.

They didn't even --

A Correct.

MS. ALIZADEH: One other suggestion, try to refrain from using each other names just for again, for your sakes and for the anonymity part of it.

We can have the court reporter redact that out. But of course, you know, it is on disc. This is all new to us, so we are learning as we go.

MS. WHIRLEY: Anything else?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

MS. ALIZADEH: Don't be afraid to ask a question because I've been kind of making suggestions. I don't want to intimidate anybody into, I don't want to ask a question because I think Kathi might yell at me. But if there is any, any other questions for this witness.

You don't see any gun power or anything on his clothes, that doesn't mean when the gun went off, he couldn't find, he couldn't find that?

A Correct.

He could find that on other clothes?

A Correct. He may find some and he may not find some.

: Will we get a copy of your report? I'd like to see the report.

MS. WHIRLEY: Yes. It is Exhibit Number 1. We will have that with your notes whenever you are ready to look at it, you can.

Anything else?

: . Are there any other things besides the wounds that you are looking at or documenting as you are looking at this particular body before you transport it or is it

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

just the wounds itself you are looking at?

A I look at the whole body overall.

Okay.

A Position of the clothing, wounds, if it's a female, fingernails, everything from the top of the head down to the bottom of his feet we look at.

Typically do you, when you file a report outside of this prior to this particular case, would you typically file photographs with your report?

A Yes, sir.

And then with regard to this specific case, are you anticipating getting those photos and filing with your report?

A My own photos that I would take on the scene I would print out and be with my report.

Okay.

A But the police photos, the police have those, but we can request those if we need them.

Okay. Are you anticipating --

A Or pathologist, I don't know the pathologist --

MS. WHIRLEY: You will see those photos.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

I'm just wondering is he anticipating to get those photos to file with your report?

A They don't get filed with our report.

Okay, all right.

: . Now, you said that you didn't take photos yourself, you said that you didn't take photos yourselves?

A Correct.

Upon arriving at the scene as the batteries had died in your camera?

A Yes, ma'am.

All right. So I mean, is there some protocol with your department that you have to have your camera charged up all times?

A No, ma'am.

Just to alleviate this type of thing happening?

A No, ma'am.

So right now we only have the photos that St. Louis County or whatever --

A Correct.

-- did? Okay.

A Correct. My photographs would have been him laying on the ground with the sheets over him,

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

removing the sheets and his back, you know, the whole body.

Uh-huh.

A And maybe that's it.

Okay.

A Anywhere from two to four pictures, no more than that. Just trying to give the pathologist a picture of what's going on when this person died.

Okay.

: Did you notice any other wounds on the body hands wise?

A Just the abrasion on the back of the left hand and abrasion on his face and nothing really obvious.

MS. ALIZADEH: And just to clarify, you said your job is to document the body?

A Correct.

MS. ALIZADEH: As you find it and you also make a determination if you believe the body has been moved, was there any reason for you to believe that the body was moved in this case?

A No, ma'am.

MS. ALIZADEH: Now is it your job to look at anything around the body, whether it be blood splatters or shell casings?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Yes, ma'am.
MS. ALIZADEH: Do you make notes of that?
A Yes.
MS. ALIZADEH: Okay. And in your report, did you make those notes?
A No, ma'am.
MS. ALIZADEH: All right. But did you, do you recall making notes about any blood around the body?
A Nothing in the reports, no.
MS. ALIZADEH: Okay.
MS. WHIRLEY: Did you see any shell casing?
A There were numerous shell casings on the scene.
MS. WHIRLEY: But you didn't put that in your report?
A Correct.
MS. WHIRLEY: Why not?
A At the time where they were at and they were still being processed, I guess let the police take care of that part. They are trying to figure out what shots were fired and what order, I didn't see no reason to see where they were at.
. Wouldn't the

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

shells kind of determine how the body was shot, what angle, how far, the distance?

A They could at times.

MS. WHIRLEY: That's not what you are qualified to figure out?

A Correct. I don't know if they were moved, kicked around, people trampled through there, things of that nature. And the semiautomatic weapon, are the shell casings going to go out to the right side and eject.

MS. ALIZADEH: And so your purpose in being there and your function is to assist the medical examiner in doing their job?

A Yes, ma'am.

MS. ALIZADEH: You're not there as a police agent or an agent of any police department?

A Correct. As a matter of fact, my mission is just for the body.

MS. ALIZADEH: Just for the medical examiner?

A Correct.

: . Whose responsibility is it to write the whole report overview of that at the scene, is that the police department? Obviously, it is not this individual.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Police department.

MS. ALIZADEH: I anticipate you will be hearing testimony from the investigators who do document the crime scene in any kind of crime scene and especially such as this, there is going to be probably a number of officers who were doing different things at the crime scene to process the scene.

A This crime scene, can I say something? The crime scene was huge, he's here, some of his shoes are farther away from him. You have a vehicle and his hat, it may stretch out 100 yards. I'm just there for the body. Just trying to let our pathologist know he's here, there are other things there, this is what's going on with the body.

MS. WHIRLEY: It is your job to take the body when you leave?

A Correct. And the police will come in and photograph everything else, document it where it is at and take their notes.

MS. WHIRLEY:

: . You mentioned before that when you arrived at the scene and you saw the body for the first time, he was in the middle of the road, is that my understanding?

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Yes, ma'am.

This road that he's on, is this like one lane each direction?

A Two lanes.

Two lanes each side. Okay. So you have the center yellow dividing line?

A Yes, ma'am.

Where was he in conjunction to that dividing line, was he right on it?

A Yeah, right on the line.

Was it bisecting him or dissecting?

A It was dissecting.

MS. WHIRLEY: The cars were able to drive around him?

A I'm sorry?

MS. WHIRLEY: Were cars able to drive around him?

A I would think so. By the time I got there, crime scene tape was already up.

MS. WHIRLEY: Preventing anyone from driving?

A Correct.

I hate to

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

keep going back to the injuries. I want to make sure I got this right, top of head, forehead, eye, neck, arm, side and hand, that's not nine.

A One on top of the head, two in the eyes, three in the head.

Three in the head?

A Yes, three in the head. I'm calling the face the head.

Okay. So top of the head, forehead and eye are three.

A Two in the chest.

Two in the chest.

A Which I'm calling from the neckline down to the waistline and his arm had one in the upper bicep.

Okay.

A One closer to the middle of the arm --

There were two in the arm?

A Actually three, and then one in the forearm.

Three in the arm and one in the hand.

A Correct.

So a total of four in

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

this extremity?

A Correct.

. You don't say there were nine, it could be come in here and come out here?

A Correct, it is nine wounds.

It is nine wounds.

A Correct.

No nine shots?

A No, nine wounds.

MS. WHIRLEY: And just to be clear, you don't know whether those are entrance, exit, abrasions, you can't say?

A At the time I couldn't say, correct.

MS. WHIRLEY: Can you say now?

A The medical report is done.

MS. WHIRLEY: I mean, that's not your report though?

A Correct. The doctor report is completed and he determined exits and entrances.

MS. WHIRLEY: A medical examiner could say?

A Correct.

MS. WHIRLEY: You can't say?

A I could say.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

MS. WHIRLEY: From firsthand experience can you tell us?

A I can tell an entrance and exit.

MS. WHIRLEY: Can you tell us what the wounds were.

A But on these I couldn't, that's why I didn't.

MS. WHIRLEY: Okay.

: . The abrasions that you noticed, were they consistent with where he would have made contact when he hit the ground with his forehead and left hand or could that have been caused by some earlier altercation or something.

A To me it looked like it came from the ground, that is more of an assumption.

MS. WHIRLEY: Why does it look like it came from the ground?

A Because it looked more like a road rash abrasion as opposed to an altercation abrasion, like somebody scratching him.

MS. WHIRLEY: What's an altercation abrasion.

A Like somebody punches you in the eye, you may get a slight, like somebody's knuckles sliding across your face.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

MS. WHIRLEY: Okay.

A As opposed to your face sliding across the concrete. We rolled him over, there is a little bit of gravel embedded in the wound.

MS. WHIRLEY: Okay.

MS. ALIZADEH: you testified that the body was prone, what about his face because I mean, was his head turned to one side or the other?

A It was turned facing the left side.

MS. ALIZADEH: Okay. So it would have been the right side of his face was against the pavement when you saw it?

A Yes, ma'am.

MS. WHIRLEY: And that's where the abrasion was?

A Correct.

MS. WHIRLEY: Or the injuries?

A Yes, ma'am.

MS. WHIRLEY: Okay.

The hand on the top of the head is away resting?

A Yes, sir.

MS. WHIRLEY: Anything else? If need be if you think of something else, we can always and it

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

is directed for we can always bring him back once you have looked at his report, okay?

MS. ALIZADEH: Or at any time if there is other questions down the road, all you have to do is ask for us to locate a witness.

MS. WHIRLEY: Did you have something?

: Just to be clear, the fact that you didn't take pictures, you feel like the county covered whatever pictures you would have supplied yourself?

A Correct.

There is not a hole here because you didn't have the pictures?

A All pictures are taken by the police. I would have taken them too. A lot of times we direct them, you know, to take a picture of the back, lift up the shirt, take another picture, roll him over, let's take a picture of the front, lift up the shirt, can you take another picture for me, things of that matter.

MS. WHIRLEY: But in this case you did not do that or did you?

A We did.

MS. WHIRLEY: Oh, you did.

Electronically signed by d5c6c720-281b-4bd3-b556-f277df197ecc

A Correct.

MS. WHIRLEY: Ask them to take certain pictures?

A Yes, ma'am.

MS. WHIRLEY: Oh, okay. All right, anything else?

A They would have done those pictures anyway, it is protocol.

MS. WHIRLEY: Okay, well, thank you very much. That's it for today.

GRAND JURY HEARING

MS. ALIZADEH: Good morning. Today's date is September 3rd, 2014 and it is about, I can't see my watch, a little before 9:00, 9:55. (sic) This is Kathy Alizadeh with the Prosecutor's Office and also present in the room are the 12 jurors and Sheila Whirley with the Prosecutor's Office and the court reporter who is taking down everything that's being said at this point.

Just some preliminary things. First of all, did everybody get in okay, was there any confusion, you all got in okay?

Well, did give you menus for today?

(All jurors indicate yes.)

MS. ALIZADEH: What I would like to at least begin explaining, and we talked to you about when you want to meet in the future. And we are going to accommodate you whatever time or date you would like to meet. Whatever you decide, if you want to meet, to continue to meet on Wednesdays because that's what you're used to, we will make this room available for you on Wednesdays, okay. We'll do something else with the new grand jury, they'll meet elsewhere.

So I would suggest that possibly over the

0cf60cba-a00f-4859-9745-afcc42b4708c

lunch break today maybe talk amongst yourselves. During your lunch break it is not going to be recorded, you all can talk about amongst yourselves about future days.

And then maybe at the end of the day today or after the lunch, we are going to need a list of some dates. Those dates are not going to be made public, we're never going to discuss on the record in advance what dates, you know, you're going to be meeting, but we'll need to know so we can start scheduling people.

Keep in mind that unlike typical grand jury days, we cannot present evidence on this matter unless all 12 of you are present.

I know you all have the phone number for the grand jury. If you all make arrangements to meet on a particular day and then, you know, somebody gets up in the morning and they're sick, they've got the flu, you're going to need to call as soon as possible so we can try to call people and head them off if they haven't already left their homes if one of you can't make it, then we're not going to be able to hear anything that day, okay?

: . So the alternates, alternates will not be called in on

0cf60cba-a00f-4859-9745-afcc42b4708c

this, is that my understanding?

MS. ALIZADEH: That's correct, they're not going to have heard everything that you would have heard.

Okay.

MS. ALIZADEH: Typically the grand jury will hear a whole case in a matter of 15 minutes maybe, but that's not the case here, so there won't be any alternates that are going to be seated.

All right.

MS. ALIZADEH: So the way I would like to progress is that each day when we meet, we're going to try to be on time and start on time. I think that's respectful of everybody else. We know you are dedicating a lot of your time to do this, so we'll try to be more punctual on future dates.

I also want to tell you as you notice we have some additional equipment in this room, there is probably more people in this room than ever before. I'm probably going to bring in some additional fans because it will heat up and get warm in this room.

If anybody at any point feels like they're feeling, you know, a little overheated, please let me know because we'll take a break. With this door

0cf60cba-a00f-4859-9745-afcc42b4708c

open when I walk out here it is way cooler out here than it is in here. If ever you feel like you're, you know, not being able to be attentive because of the heat, stop us, okay.

And what I would also like to do is every, the beginning of every time you meet is to give you an overview of what to expect for that day. This is not in the form of like an opening statement where I'm going to talk about what the evidence is going to be, I'm just going to give you the names of the witnesses that we expect to call and who they are and what we anticipate the content of the topic they're testifying about.

As you have seen in the past, the witness will take the stand, be sworn, take the stand and then I will begin or Sheila will begin by asking the witness questions.

And I'm not trying to say, I don't want to discourage anybody from asking any question that they want to ask, but what I would like to see if possible, because your questions might be answered later on in the testimony. Some of these witnesses are going to have lengthy testimony and at some point, you know, you might ask a question that I'll say he's going to talk about that in a minute.

0cf60cba-a00f-4859-9745-afcc42b4708c

If you don't understand something that's being said at the time, raise your hand, identify yourself by your juror number and say excuse me, I'm not understanding what you're saying right now. But if you have a question that he hasn't, the witness hasn't seemed to answer yet, if you want to jot that down in your notes then, you know, at the end, of course, you know, I will open it up to questions and Sheila may have additional questions or vice versa because we are taking turns on putting on different witnesses because one person can't do all of this.

Are there any questions so far?

There will be times when I'm going to hand out things to you like maps or reports of other people just so you can have them for your reference while you're hearing the testimony. I would encourage you to still pay attention to the testimony.

It can be distracting if you are reading something that's in front of you while a witness is testifying, you are going to be missing something that's being said on the stand. Anything that we give you will be available to you at any time during the time you're sitting. Certainly for your deliberations if you wish to have items back that

0cf60cba-a00f-4859-9745-afcc42b4708c

you've seen before, we'll get those to you.

When you do get maps or reports or anything of that nature, what I would like you to do is to just write your juror number on the corner of it, but I don't want you to put any other writing on it.

If you have notes you want to take, put them in your notebook because as we've explained to you your notebooks are going to be private, they're locked up, nobody is looking at them and they will be destroyed at the end of the process here. I don't want you making notes on anything that is, you know, not your notebooks, okay. Can we agree with that?

After our last session Sheila and I sat down and listened to some parts of the testimony, the mikes pick up very well. Remember last time I said I wasn't sure how that was going to go? So I was kind of encouraging people to lean forward. I think we're not going to have any problem as long as people keep their voices up, we should be able to hear everybody that wants to speak.

And if at all, you know, you cannot hear a witness as usual, you know, you need to raise your hand, I can't hear you or I didn't hear what you

0cf60cba-a00f-4859-9745-afcc42b4708c

said.

Any questions about that so far?

Sheila, one other thing I forgot. So the next time we meet, we will need for you to be on time because Judge who is the grand jury judge, is going to be here before we start that day and she's going to read to you another charge. When I say charge, it is like she's charging you with an oath, I guess.

That is having to do with the fact that you're session is being extended. So I told her, you know, what time I thought we wanted to get started. You know she's going to be here a little before that. So if we can make sure that everybody is here on time so, you know, she doesn't have to wait around for us.

MS. WHIRLEY: What time we talking, 8:00 or 8:30.

MS. ALIZADEH: I think we were talking about 8:30.

MS. WHIRLEY: So 8:30.

MS. ALIZADEH: You all can be here by 8:30?

MS. WHIRLEY: You actually prefer 8:30?

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. WHIRLEY: Okay. Because 8:00 worked well. I think they prefer 8:00 to bring them in the way they did today, they prefer 8:00.

MS. ALIZADEH: So what time do you all think you can be here and seated for Judge

(All indicate 8:00.)

MS. ALIZADEH: I will tell her to be here at 8:00 for the next time you meet.

You have a question?

I know she spoke a lot about secrecy and we all take that very seriously.

MS. ALIZADEH: I don't know the answer to that question. I do know what that is, so I will have to check with our people and see what they say about that.

Okay.

MS. ALIZADEH: I can't imagine there would be a problem with that.

MS. WHIRLEY: I didn't hear over here, I'm

0cf60cba-a00f-4859-9745-afcc42b4708c

sorry.

MS. ALIZADEH: You want to go ahead and restate it?

MS. WHIRLEY:

MS. WHIRLEY:

Because of what we are going to be doing.

MS. WHIRLEY: Okay, I didn't hear you.

MS. ALIZADEH: As we mentioned before, people in your lives know you are on a grand jury and have been. Of course, we're not going to disclose to any media outlet or the public in general your identities, but your families and your employers know that you are on the grand jury.

But more importantly, what you are charged with is that you cannot discuss anything that you hear in here. So, you know, if you have conversations with your family or your employers about, you know, your meeting times and your meeting dates, how long this is going to take, that's up to you and I understand that that's something that you all need to work out with the people in your lives.

0cf60cba-a00f-4859-9745-afcc42b4708c

We would like to get this done as quickly as possible, but then again, we are not going to rush anything.

If there is a need to meet until after the first of the year, that's what we are going to do. I don't anticipate that, but there is no way after this whole process is over that anybody is going to say we rushed anything, okay. I want you to have as much time as you need, hear as much evidence as you think you need to hear. If we don't call somebody that you want to hear from, we'll get them here, okay.

So for the next meeting we'll start at 8:00, the Judge will give you a charge. Today we're going to have testimony on the investigation into the shooting of Michael Brown in the morning session, hopefully we can get done by lunch time. In the afternoon today you are going to hear a regular docket of cases that we need to move through the grand jury.

After that, we anticipate that all of your, everything you will hear every time you sit will just be evidence on the investigation into the shooting of Michael Brown.

I know this is different than other cases

0cf60cba-a00f-4859-9745-afcc42b4708c

because normally when we've charged somebody with an offense, you have the charge in front of you, you can read what the charge is, you can read what maybe the elements are and you don't have that in this case.

I understand that that kind of leaves you not sure how you are supposed to look at this evidence.

So after this morning session, Sheila and I will sit down and we will come up with statutes for you on the various degrees of homicide and there will be some other relevant statutes on the use of lethal or deadly force when, and possibly self-defense statutes, so you will have by the time you are here next time. We'll have that for you so you can kind of at least understand the law as you are hearing this evidence.

We're putting on witnesses in a certain order because we're trying to make this easier for you to digest and understand the evidence as it comes in because unlike a trial, I'm not making an opening statement. I can't outline for you what all the evidence is. In a trial, you know, a jury gets to hear that, that's not going to happen here because I'm not making an opening statement.

0cf60cba-a00f-4859-9745-afcc42b4708c

So we're trying to put the evidence on in a more logical order so you can kind of understand as the witnesses progress, oh yeah, I remember hearing about that the other day. Um, but as it happens, sometimes we have scheduling issues with witnesses, and sometimes things might be out of order.

There might be an occasion where you hear testimony from a witness and then you say to me or Sheila, well, you know, what about that, was that found at the scene? Well, you're just, I can't answer those kind of questions for you, you're just going to have to hope you are going to hear evidence about that and at the conclusion of all of this, if you have additional questions and you give us those questions, we will see if we can get those answered through witness testimony, okay.

I think the best thing for every day is for us to tell you how your day is going to go. So today you are going to hear from two witnesses. The first witness is St. Louis County Detective, Detective He is a crime scene investigator. He will testify about what he did in relation to his investigation into the incident that occurred involving the shooting of

0cf60cba-a00f-4859-9745-afcc42b4708c

Michael Brown, okay.

We're going to see pictures, and some of them are going to be graphic and disturbing and I have to just get that out there in the beginning.

The next witness we're going to hear from is going to be I will have him spell that for you. I don't want to misspell it.

He is the medical examiner who conducted the autopsy on the body of Michael Brown and he's going to describe his job and what his findings were, okay.

So with that, are we ready to get started? : . Now, on the times for next week, we want to be in the garage at 8:00 so we can be here at 8:30, or we want to be at the room at 8:00?

MS. WHIRLEY: I think you want to be in the garage at 8:00, that way you can come through the way you did. That seemed to work very well according to So be at the garage at 8:00, unless you hear differently. I will call you if something changes, but 8:00 in the garage. That will probably put us at 8:30, ready for Judge

MS. ALIZADEH: And that's kind of what I

0cf60cba-a00f-4859-9745-afcc42b4708c

told her earlier this week, 8:30, I thought. From a frequency or time allotment standpoint for future weeks, what is your anticipation from a need, eight hours per week, two days per week if we can do it, how do we balance with what you have available to present to us.

MS. ALIZADEH: That's going to depend a lot on your schedule. Sheila and I have talked about this. It would be great if we could go five days a week for as long as it takes to get this done. As I said to Sheila yesterday, we're not going to be able to do that.

In a typical case we have a year to prepare to put on evidence and we don't have that here. And so, and as you may, you know, find out as the testimony comes in, we may have additional witnesses that we don't even know about today that we will have to, you know, present evidence on.

So that's going to be up to you. If you guys decide well, we'd like to meet for, you know, an afternoon on a certain day of the week and all day on Saturday, you know, or we'd like to meet two evenings during the week, whatever you all think is best. Understanding that the more often we meet,

0cf60cba-a00f-4859-9745-afcc42b4708c

the quicker this will go, but I don't think it is realistic for either side, our side as well as your side to think that we're going to have, be able to put this case on Monday through Friday until we get done. I just don't think we could do it.

All right, you can talk about that during lunch what everybody kind of feels comfortable with as far as a schedule, okay.

: . As far as my job, I know my session is to end next Wednesday, so will we get a letter stating the fact that it has been extended?

MS. ALIZADEH: We can provide that for you.

MS. WHIRLEY: will take care of that.

Thank you.

0cf60cba-a00f-4859-9745-afcc42b4708c

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Can you state your name and spell it, please?

A Good morning everybody. My name is

Q And where are you employed?

A I am a crime scene detective with St. Louis County Police.

Q Are you a police officer?

A Yes, ma'am.

Q And can you briefly describe for the jurors what training you went through to become a police officer?

A After receiving a bachelor's degree, you attend the police academy. You start as a police officer like everyone does on the street in a patrol car. After different various assignments and training and interviews, I was accepted into the crime scene unit about five years ago. Once in the

0cf60cba-a00f-4859-9745-afcc42b4708c

crime scene unit, here again, subjected to another 10 to 12 weeks of field training and ongoing classes and training after that.

Q What does a crime scene investigator, what is your job, what do you do?

A Primarily our number one job is evidence at various crime scenes that we are requested to, photographing evidence, collecting evidence, diagramming scenes, videotaping various scenes.

Q And so you say that you have been a crime scene investigator now for approximately five years?

A Yes, ma'am. I was assigned to this unit in January of 2009.

Q And during the time you have been a crime scene investigator, have you also received any additional training either through course work or attending conferences or seminars that are particularly directed toward crime scene investigations?

A Yes, ma'am. Everything from interviewing interrogation techniques, to scene photography, setting up death cases, forensic anthropology courses, several things.

Q So as a general rule, before we get into the particulars of this investigation, it is fair to

0cf60cba-a00f-4859-9745-afcc42b4708c

say that you have to be called to a crime scene by other police departments or agencies; is that correct?

A Yes, ma'am.

Q So you're not driving around in a van looking for crime scenes?

A Not at all.

Q So you have a van that you use?

A I do.

Q And it has all kinds of things in there that you use during your investigation; is that right?

A Equipment, tools, supplies, those sorts of things.

Q And so when you are called, are you on-call, like you could be called in at any time?

A There are 17 of us in the unit and we work, we cover 24 hour shifts. So at any given time there is a minimum of two of us St. Louis County crime scene detectives on duty, 24 hours a day.

Q When you receive a call to go to a crime scene, you get your stuff, go, and you drive your van to the crime scene; is that right?

A Yes, ma'am.

Q Now, typically when you arrive at a crime

0cf60cba-a00f-4859-9745-afcc42b4708c

scene, what's the first thing you do?

A First thing I would do is contact either the person in charge of the scene or an officer that knows what's going on. They would typically give me a rundown what they know at that time and walk me through the scene to show me, again, what they know, what occurred and where it occurred.

Q And so it's, you are not the first officer arriving at a crime scene, other officers are always there before you; is that right?

A Correct, yes, ma'am.

Q And so you talk with them about what they know, what they might have already found, correct?

A Yes.

Q Okay. Um, and so after you get that information, is that necessary for you to then decide what you are going to document, what you are going to search for and so forth?

A Yes, it helps greatly knowing what they know and then I can take my time and start digging further into finding evidence and stuff like that. But knowing what they know prior to my arrival helps me establish a starting point for my investigation.

Q And I would imagine every crime scene is going to be unique, correct?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Every one.

Q And whether it is a shooting or a burglary or sexual assault, those are all different crime scenes, correct?

A Yes, ma'am.

Q So after you have spoken with the officers there and gotten some information, what's the next thing you typically do?

A I would walk through the scene with them, they typically would point out evidence that they've already found or stuff that may have obvious to them, stuff that other witnesses or victims may have shown them already. From that point, for homicide scenes and other death investigation scenes, the first thing that we would do is videotape a walk-through from my own perspective. Not with anyone narrating it or with anyone particularly in front of the camera, it would typically be just my point of view walking through the scene from what I know from that initial contact with the officer.

Q And in these cases given that other officers are already there before you, is it usual that whatever they have determined the scene to be has been taped off with police tape, that yellow tape that keeps people out of the scene?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Yes, ma'am, generally that's the case. Oftentimes through the course of an investigation we may find something, obviously, that's outside the crime scene tape initially, but typically the crime scene tape is already up, a scene has been established for us and then we start our investigation.

Q And I would imagine that, you know, what you were hoping for is to have a crime scene that is undisturbed, uncontaminated by anyone from the outside who is not involved in the incident itself, would that be fair to say?

A In an ideal world, yes, that would be perfect.

Q Does it occur that there is contamination of a scene either because of police officers being there, other pedestrians being there, emergency personnel, first responders being there?

A Yes, absolutely, that's one of the tenets of crime scene work. That's a theory that anyone or any person that comes in contact with a crime scene you can either take something away, but you will always leave something there, be it footprint, steps, anything.

Q And so after you have done your video

walk-through then, what's the next thing that you do?

A The next thing we do is after we capture video, we take overall scene photographs. And again, it is photographs from my perspective of what is in place when I show up.

If there is a police car that's shown up or crime scene tape, everything is left in place from when I get there and I take my overall photographs from what is in place when I get there. There is no way I can photograph stuff that happened before I get there or try to guess what it looked like before, so the photographs that I take from the crime scene are actually what I see when I show up.

Q So it would be against protocol to try to rearrange things so that they were the way somebody thought they were before you arrived?

A Yes, ma'am, correct.

Q So nobody touches anything once you get there and you then go through it, photograph everything as you see it; is that right?

A Yes.

Q And then after you have completed photographing a scene, what do you do next?

A Once we do the overall photos, we would

0cf60cba-a00f-4859-9745-afcc42b4708c

typically walk through and place down our number of placards to mark the known piece of evidence that we have recognized or determined at that point.

After that, we'll start photographing those pieces of evidence individually and then once those things are documented, we'll then start moving things, looking for more pieces of evidence. We always want to be able to show stuff that was in place, how you would normally just walk in and see, there is always going to be hidden pieces of evidence that we need to move, either a car, you know, a couch, move cushions on stuff and start looking for additional pieces of evidence.

And then we just restart the same process. Photographing it where we found it, putting a placard in place where we found it and then collecting it.

Q And then when you collect evidence after you photograph that evidence, you referenced a placard, is that, explain for the jurors what a placard is?

A A placard, I'm sure you have all seen them, they come in various shapes and colors. There is typically a hard plastic, for lack of a better term, with a number on it. And the only purpose

0cf60cba-a00f-4859-9745-afcc42b4708c

that it truly serves is for primarily me to recognize a photograph, what number of evidence that I'm picking up.

Any given scene shell casing or a blood drop somewhere. If you find a picture of this shell casing 100 pictures later of a separate shell casing, it would be nearly impossible for you to determine which was number one and which was number 200.

So a numbered placard is just a reference for my report writing and my evidence collection of what I've just took a picture of and I can reference that in my evidence.

Q So after you have placed your placard and photograph the evidence items with their placards, you begin collecting pieces of evidence, correct?

A Yes, ma'am.

Q And you always have with you in your van envelopes, plastic bags, swabs, all kind of things that you might need in order to properly package pieces of evidence?

A Yes, ma'am.

Q And you do that personally yourself?

A I do. Typically in larger scenes there is always two of us there. One is keeping notes, one

0cf60cba-a00f-4859-9745-afcc42b4708c

is getting the piece of equipment for someone else. We are working together doing that, but yes, we all do pick up our own evidence and place it in individual bags and envelopes.

Q So if it is a particularly large scene, it is more than one crime scene detective present at the scene. Is there one of you that takes over that that is your scene?

A Correct, yes, ma'am.

Q And so the other detectives that are there are assisting you?

A Correct.

Q So when you package evidence, do you mark the packages or envelopes or bags with your own handwriting and your notes denoting what it is inside and where?

A As far as the labeling on front of the various different envelopes that we have. One person may write that. The one thing if it is your case, in particular the Ferguson case was mine, some envelopes I filled out the front information, but on every envelope we seal it with a piece of evidence tape so it is closed and that is my initials and DSN on the back of every evidence seal.

Q Each individual piece of evidence would be

0cf60cba-a00f-4859-9745-afcc42b4708c

packaged separately, is that protocol?

A Yes.

Q So after you have filled out the evidence envelope and sealed it with tape and placed your initials and DSN on the envelope, do you prepare an evidence sheet?

A Yes.

Q A receipt?

A Every piece of evidence has a paper trail, it has a receipt that denotes not only what the evidence item is, where it was found, but it also goes to a different part of our crime lab and/or property control. Our crime lab has three or four different wings to it, be it firearms lab, the chemistry lab, the DNA lab, any piece of evidence that goes to any part of those labs has to have its own individual receipt.

Q So this receipt that is with this packaged evidence stays with that item; is that right?

A Yes, not only is the evidence receipt, but also serves as the chain of custody but everyone that picks that item up has to sign off on it as the chain of custody.

Q And it is not unusual for items that you may have collected to go through a number of

0cf60cba-a00f-4859-9745-afcc42b4708c

different hands to get to its final destination, whether it be the lab, whether it be the fingerprint section, whether it be the medical examiner's office and so forth, several people may have handled this package, is that fair to say?

A Yes, ma'am.

Q And those people have to sign off on that package?

A Yes.

Q And then when they give it to somebody else, they have to sign that they gave it, and the person they gave it to then signs?

A Yes.

Q And until the evidence reaches a destination where it is going to be examined or tested, does anyone open that package while they're handling it?

A No.

Q Would you agree that it is the general policy of whether it is the St. Louis County Crime Lab or any other place, that if they were eventually to receive one of your evidence envelopes and the envelope tape has been torn or tampered with or in any way changed from when you initially sealed that envelope, do they notify you?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Typically. For instance, if I, when I package a piece of evidence, I would put it into our vault, especially if it is overnight. Typically these things happen at night or when the crime lab is closed. Whoever takes that piece of evidence out of the vault or in the lab, they are going to open it.

So they will cut my evidence tape. When they're done with it and seal it back up, they put a piece tape over top of it.

Q Let me stop you, you are talking about a vault that's at the lab?

A Yes, ma'am.

Q So that's after the evidence has arrived at the lab?

A Correct.

Q But the people that may handle it before it gets to the lab aren't to open that evidence, correct?

A No, typically I would be the only person that would handle that before it gets to the lab.

Q Okay. So once it is at the lab and you said sometimes if it is overnight, they have an overnight vault?

A Yes, ma'am.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q You can drop evidence in?
A Correct.
Q And so you know no one else from the outside except the lab people are going to be able to get to that?
A Actually, myself, not myself, but crime scene detectives and our property control director are the only people that have access to it.
Q So once the lab people come in, they have one of you guys have to open the vault for them to get the evidence out?
A Yes, ma'am.
Q And then, of course, if they have to examine it for whatever testing or examination they are going to do, that's when the first time this evidence envelope is opened?
A Yes. If at any time there is a problem with the receipt, be it if you missed a signature on a receipt or if you have 30 envelopes of evidence and one of them does not have the seal on it, you'll get a call, a page, an email, they won't touch anything until you respond back down there to fix it before they will accept it as evidence.
Q So the lab is charged with the duty of checking the chain of custody making sure that is

0cf60cba-a00f-4859-9745-afcc42b4708c

all copesetic?

A Yes.

Q Making sure the envelope is sealed and has not been tampered with?

A Yes, ma'am.

Q And then after you have delivered your evidence items to wherever they're going to go, the lab, property control, and property control for the sake of explaining to the jurors, what is property control?

A Property control, obviously, the name explains a lot, they control the property. But they primarily take pieces of evidence that are not going to be tested by the forensic lab and fingerprints for that matter.

If it is a recovered stolen bicycle from the back of someone's yard, that's not going to go to our lab for DNA testing, that's going to sit in property.

Q It is what we would think of as an evidence room?

A Exactly, yes.

Q So after you have delivered the items of evidence to wherever you are going to send them to and let me ask you this, at some point there is

0cf60cba-a00f-4859-9745-afcc42b4708c

another officer who is in charge of the investigation, would that be fair to say?

A Yes.

Q And do you also take instruction from that officer on various parts of what you're doing?

A I'm assuming you are referring to like a detective that's doing the lead part of the investigation.

Q Right.

A They are oftentimes given more information, especially throughout the course of an investigation than what we would typically have at the scene. They are initially outside interviewing witnesses and other people, be it even a suspect and/or victim.

At times what they will do because I'm given basic information when I show up to the scene, I'm typically not privy to the ongoing active investigation.

So other detectives, be it homicide detectives or anybody else would come into the scene and go hey, we just found out this. Can you look for this.

And then I may have a piece of evidence that I already collected that I deemed

important to the case, or I assumed it might have something to do with it, and I would think to send it to the DNA lab.

Well, they may find out something and say can you go ahead and send that to firearms first before it goes to DNA, can you send this to fingerprints before going to DNA or vice versa.

So they come in and ask certain things or ask that things be sent or certain things be collected that I may not have known about initially.

Q So, for example, while you are on the scene, a detective may come up and say, hey, the guy just told us he threw the knife in the sewer, now he is going to cause you to go look in the sewer to see if you can find the knife?

A Yes, ma'am.

Q After you delivered all your items of evidence, then do you make a report?

A I do.

Q And your report is documenting what, everything you have done at the crime scene; is that correct?

A My reports are not narrative filled, like typically police report it is basically an inventory

0cf60cba-a00f-4859-9745-afcc42b4708c

list. It is three sections or sometimes four, depending on what I do at different scenes. The first section is an inventory of the photographs that I took and what they show.

The second section if I took latent fingerprints or developed prints, I would list where I found each print, the third section is just a list of the evidence I collected and where it was collected, what the evidence item is and where it was collected and the fourth list, the fourth section would be if I took video or did diagrams of the scene, which is me listing those things as pieces of evidence.

Q Okay. And so lets get to the investigation that occurred at the scene of the shooting of Michael Brown. And so you were on duty on August 9th of 2014; is that right?

A Yes, ma'am.

Q And about what time did you receive a call that you were needed to respond to the scene?

A Shortly after 1:00 p.m.

Q And where were you when you got that call?

A I was actually northbound on I-270 around Highway 40.

Q So how long did you go directly to the

0cf60cba-a00f-4859-9745-afcc42b4708c

scene?

A Um, I switched my radio over to the muni north radio, which dispatches for the Ferguson area, not for Ferguson, but for the munis in that area. And I heard several reports of gunshots being fired near the crime scene, so I stopped and put my vest on.

Q Okay. What was the call involved in the shooting, what information were you given when you first got the call?

A I was told that it was an officer involved shooting with a Ferguson officer and Ferguson had requested St. Louis County Crime Scene to respond.

Q So this incident happened within the city limits of the municipality of Ferguson, correct?

A Yes, ma'am.

Q And typically that would not be a jurisdiction that you would investigate in, they would have their own police department, correct?

A They do. They handle burglaries and stuff like that. We typically do not go in there for property crimes.

Q But in this case being an officer involved shooting, was it unusual for a municipality to reach out to the County and ask for their assistance or

0cf60cba-a00f-4859-9745-afcc42b4708c

ask them to take over the investigation?

A No, ma'am. We handle those type of calls for any municipality that ask. We also handle those calls for any department that uses the Major Case Squad.

Q So when you said that you, on your way, heard on the municipal radio channels that there were shots fired, are you talking about shots that were being fired after the officer involved shooting occurred?

A Correct.

Q So that caused you to decide to stop and put on your Kevlar vest?

A Yes, ma'am. I stopped almost immediately, once I got it put on, I drove directly to the scene.

Q And so what was the location of the scene?

A I was given the address Canfield.

Q So how is it that from where you were driving you eventually travel onto West Florissant; is that correct?

A Yes, that's the round I took.

Q And then from West Florissant you turn onto what street to get?

A You can turn directly onto Canfield and West Florissant.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So from West Florissant when you turn into Canfield, that's a residential area, isn't it?

A Yes.

Q And after you travel some distance, not terribly far, you reach an apartment complex, correct?

A Yes, ma'am.

Q What's the name of that apartment complex?

A I honestly can't tell you. I would just assume it was the name Canfield apartment complex.

Q So when you arrived, turned onto Canfield, did you notice a crowd?

A Immediately. The distance from West Florissant to the scene, if I can recollect, is probably less than half a mile. And it is a residential street, all the houses have driveways, I have been on that street before. There is typically not a bunch of cars parked on the side streets and stuff like that, but as soon as I turned onto Canfield, I encountered traffic basically at a standstill.

There was some officers that were directing traffic near the first cross street because people were pulling in, being told they can't drive through, trying to turn around and it

0cf60cba-a00f-4859-9745-afcc42b4708c

was a little bit of a mess when I showed up.

Q Were there also a number of first responders there?

A Several.

Q Police cars?

A Yes, ma'am.

Q Ambulances or were they already gone?

A I can't testify to that. I don't remember if they were there or not. I know there were several police cars and hundreds of pedestrians.

Q Hundreds of pedestrians outside of the police?

A Yes, ma'am.

Q This is in the middle of day, correct?

A Yes, ma'am.

Q Daylight hours?

A Yes, ma'am.

Q Was it raining?

A Sunny, nice weather.

Q So after you made your way through that initial crowd, did you arrive at an area that was taped off and you determined to be the scene of the crime?

A Yes, ma'am.

Q And so, what is it that you first did when

0cf60cba-a00f-4859-9745-afcc42b4708c

you arrived?

A I first sought out whoever it was in charge. I saw some other officers and sergeants from my own department and I obviously made my way over to a group of people that were talking. They were expecting me and I just asked, simply asked can you tell me what's going on.

Q What information, when you say a group of people, you talking about police officers?

A Yes, ma'am.

Q You didn't talk to any witnesses?

A No, ma'am.

Q Or anybody in the crowd?

A No.

Q And so what did the officers tell you?

A They told me that they had an officer involved shooting. They were pretty brief with me initially stating that the officers car is down there and at the other end of the street is the victim.

Q When you, now, the initial call that came out for this, do you recall was this, how is this determined initially?

A I was told officer involved shooting, that would be the typical term they would use when

0cf60cba-a00f-4859-9745-afcc42b4708c

talking to me on the phone.

Q Now, several of the items that you have packaged and also marked, you write or have indicated assault on LEO?

A Correct.

Q What does that mean?

A At my point in the investigation it is obviously right when everything starts and charges, determinations, names assigned to things aren't necessarily set in stone. So during my initial investigation, we are investigating an assault on a law enforcement officer.

Q Were you told when you initially arrived at the scene that there was some type of altercation involving an officer and the deceased?

A Yes, ma'am.

Q And was that described as an assault?

A Correct.

Q So when you began this investigation, you were characterizing this as an assault of a law enforcement officer, correct?

A Yes.

Q Is that in any way meant to be your opinion of what happened or who was a victim in this case?

0cf60cba-a00f-4859-9745-afcc42b4708c

A No, ma'am. Any time I'm involved in an officer involved shooting, be it a fatal one or nonfatal, it is always during my initial investigation listed as an assault on law enforcement.

Q And so on various evidence items that you package on these sheets, you list a victim name?

A Correct.

Q And when you began this investigation, who was your victim name on these packages?

A Officer Wilson.

Q That would be the Ferguson officer?

A Yes, ma'am.

Q Again, is that in any way supposed to be some kind of comment on whether you think who was the victim of this incident?

A No, ma'am. That's how, when we list assault on law enforcement, he was the victim of the assault that we were initially investigating.

Q Okay. So did you immediately learn the identity of the deceased?

A We had a preliminary ID. There was no form of positive investigation when I started my investigation.

Q Okay. And so after having talked to the

0cf60cba-a00f-4859-9745-afcc42b4708c

officers about what happened, what's the first thing you did in this case?

A One of the sergeants with Ferguson give me a brief walk-through to start my investigation so I can have a logical starting point from where I would start my video, photographs and looking for evidence.

Q So eventually you did a diagram of the crime scene is that correct?

A Yes, ma'am that's the last thing we do before we leave.

Q So given that it is the last thing, but I'm going to use it initially as one of my first things to help the jurors understand what is going on, but as I turn off of, as you enter the apartment complex and at the point where the crime scene is, Canfield is basically a straight street, correct?

A Yes, ma'am. Where this entire scene occurred is a straight stretch of road.

Q And is it a paved road?

A Yes.

Q Is it marked with any paint or lane parkers?

A It has a center lane marker, yes.

Q And is that a double yellow line?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Yes, ma'am.

Q And is this a street where there's a single lane of traffic that proceeds in opposite directions?

A Correct.

Q And Canfield is a street that goes east and west?

A Yes, at that point.

Q Okay. It is a curvy street?

A Yes.

Q But at the point where your crime scene was, it is straight and it pretty much is an east to west street?

A Yes, ma'am.

Q And when you started your walk-through with the Ferguson officer, did he direct your attention to Officer Wilson's vehicle?

A Yes.

Q And where, in relation to the deceased body, was the vehicle, was it --

A The west end of the crime scene.

Q Okay. And then further east down Canfield then was the deceased?

A Correct.

Q And so when you began your walk-through,

0cf60cba-a00f-4859-9745-afcc42b4708c

did you start on, what end of this crime scene did you start at?

A Everyone that I spoke with, the Ferguson officers and my own department, we were on the east end of the crime scene near the victim or the deceased as it were.

Q Yeah, because I don't want to get confused using the term victim because some of your things are --

A Yes, ma'am, they are.

Q Marked victim is Officer Wilson. So let's talk about deceased or Michael Brown in that term.

A Okay.

Q And then any officer, the Ferguson officer by his name, okay?

A Okay.

Q If everybody doesn't know as of yet, the officer that was identified to you as being involved in this shooting was Darren Wilson; is that correct?

A Correct.

Q

A Okay.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So the vehicle was on the west end of the crime scene, Michael Brown's body was on the east end of the crime scene?

A Yes.

Q So when you began your initial walk-through, you started where the body was?

A Yes, ma'am.

Q Are you videotaping at this point?

A No, ma'am.

Q When you are doing the walk-through then, did you notice that there were already items of apparent evidence or things of interest that had already been marked?

A Yes, ma'am. There are a lot of times classes that are offered at their own police academy, basically road officers responding to homicide scenes.

It is not only training, a lot of times kind of fall backs on common sense. If there is something, be it a shell casing or piece of clothing that you know is part of evidence or evidentiary value, most anyone will typically mark that, be it with a piece of crime scene tape or traffic cones, they will set stuff near items just so one, it is marked and they know where it is at.

0cf60cba-a00f-4859-9745-afcc42b4708c

Two, so someone doesn't accidently step on it or kick it or move it.

Q So did you notice that there were a number of traffic cones that were already in this scene?

A Yes, as part of the walk-through they would say that cone over there is marking what we think is a projectile or that traffic cone is marking a shell casing and they would just point things out to me as we were walking through.

Q All right. And so after you did this walk-through, did you walk the length of the crime scene going then west and then returning east to where the deceased was?

A Yes, ma'am.

Q And also, just for the record, the street of Canfield at this point, are there sidewalks on either side of the street?

A Yes.

Q And there are apartment buildings, this is a complex that has a number of apartment buildings, correct?

A Yes, ma'am.

Q And the apartment buildings have parking lots?

A Yeah.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q And there is entrances to the parking lots, there are streets that are coming off of Canfield, correct?

A Yes, ma'am.

Q So after you did your walk-through, what's the next thing you did?

A Um, typically at that point we would go back, my van was parked on the west end of the crime scene just west of where Darren Wilson's vehicle was at. We would go back there, I would prepare my video camera, you know, get a new memory card put in, write some notes down and at that point typically start my video walk-through of the scene.

Q Is that what you did in this case?

A No, ma'am.

Q Why not?

A As far as the exact times, I couldn't tell you, but during this time when we were heading back to my car, another round of gunshots were fired and extremely close proximity to the crime scene. There was obviously a large crowd reacting to that as well as a police reaction to it.

And the decision was made almost immediately to kind of hold, make sure that our crime scene is secured. I have to be able to

0cf60cba-a00f-4859-9745-afcc42b4708c

concentrate what I'm looking at and trying to collect, versus trying to watch the crowd behind me that's growing ever bigger and more angry by the minute.

Q And so there was a break in your investigation until you were comfortable that the crime scene was secured; is that right?

A Yes, ma'am.

Q Is anyone else processing the crime scene or do anything else or touching in the crime scene while you take that break?

A No, ma'am. All the manpower there was utilized to try to secure the crime, just secure the perimeter of the crime scene. We had officers 10 feet apart, 5 feet apart every inch of the crime scene tape trying to keep people out of it.

Q These were county officers, were there Ferguson officers?

A County officers, Ferguson officers, I guarantee you there were other neighboring municipality officers that were there.

Q Approximately if you had to guess, how many police officers were on the scene?

A 50, 50.

Q Is that unusual in your experience?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Very unusual.
Q Had you ever had a scene like this before?
A Never.
Q And so after this break until you were comfortable about the crime scene was secure, did you begin your video walk-through?
A I did.
Q And so are you the one who operates the camera?
A Yes, ma'am.
Q And do you shoot the video continuously during your walk-through or do you stop it at certain points?
A Once I start the actual scene video, I do continue one continuous video.
Q Did you do that in this case?
A Yes, ma'am.
Q Now, you mentioned that typically as you are going, is there audio on the video?
A There is.
Q You are not narrating anything?
A No, ma'am.
Q And so you can hear things in the background, but you're not speaking on the video?
A Correct.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q Any other officers that are narrating what's going on?

A No, ma'am.

Q And so after you did this video walk-through, again, where did you start the video walk-through?

A I believe if you want to look at the picture of the crime scene as a rectangle, I started at the southwest corner, moved east to northeast to northwest in a counter clockwise motion.

Q Okay. I'm going to hand you what we have marked, and I want to make something clear on the record, I believe the last time we met there was one item that was marked as an evidentiary item, it was a report for that witness. Just because to make it clear, that was, I think, marked State's Exhibit 1, which is typically what we do in cases. But because this is a grand jury exhibit, we're going to use different, call it something different.

So we will at some point re-mark that report, which was State's Exhibit 1 and that will be Grand Jury Exhibit 1. Okay, it is State's Exhibit, it has the typical red sticker that has State's Exhibit, but it will say GJ 1. We are going to mark all of ours GJ and then a sequential number.

0cf60cba-a00f-4859-9745-afcc42b4708c

So I'm going to hand you what I have marked as GJ 2.

(Grand Jury Exhibit 2 marked for identification.)

Q (By Ms. Alizadeh) That's a two page document. Do you recognize that?

A Yes, ma'am.

Q Is that your diagram of the crime scene?

A It is.

Q And that's the top page, correct?

A Yes.

Q And then the second page, what is that?

A Page two is a legend and it has measurement details and starting points and measurements.

Q Okay. And does this represent the crime scene that you diagrammed on that day?

A Yes.

Q As I'm not offering a piece of evidence like I would in trial, I'm just going to put it up here for your benefit. And I'm going to have to move this for a second. I'm also at this time going to pass out copies of this diagram and the legend that's attached to it. And as I said, if you would just put your on it somewhere in the

0cf60cba-a00f-4859-9745-afcc42b4708c

corner and try to avoid making any marks on it or notes.

These numbers, these things are kind of tiny, it might help if you can look at your own version, your own copy.

Can you see okay from where you are sitting?

A I cannot see the left-hand side of it.

Q Okay. If you would bring your chair, maybe sit next to here. I don't want you to block the view, I'm going to get out of the way too once I get this situated.

As best I can show that, can everybody see it? I'm going to move out of the way.

So I put GJ 2 up on a projector so it is displayed on the wall. I have a laser pointer and so do you, Detective

A Yes.

Q Can you describe, this is the street you are talking about Canfield, correct?

A Yes, ma'am.

Q And we see a directional arrow at the corner at the top right?

A Yes, indicating north.

Q Okay. And so if you were to drive in this

0cf60cba-a00f-4859-9745-afcc42b4708c

direction, you are going west?
A Correct.
Q Toward West Florissant?
A Yes, ma'am.
Q As you drive in this direction, you are driving east, deeper into the apartment complex?
A Yes.
Q And it eventually comes out and goes?
A A subdivision, I think it goes into another apartment complex and then into a subdivision.
Q Okay. And so when you arrived, you have listed or diagrammed here what is a vehicle?
A Yes, that is Darren Wilson's police car.
Q And then you also diagrammed what appears to be a body?
A Yes, that is Michael Brown's body.
Q And then these boxes that are here that have numbers, it says Canfield?
A Those are the two apartment buildings that we used as reference points for areas that we collected items of evidence. I can note out the addresses on here, I have it listed and , from west to east. They are actually descending, so both of these buildings, while they are one

0cf60cba-a00f-4859-9745-afcc42b4708c

building, it contains two addresses.

So the first address, this side off the left hand or west end would be , the east end would be . So it is descending from west to east.

Q Okay. So now what is this object here that you've drawn?

A This is an entrance to a parking lot and this is actually kind of a grassy hill.

Q So a vehicle could pull into this area here and enter a parking lot?

A Yes, ma'am.

Q And then what about this right here?

A Same thing, this is a, this is an entrance to a parking lot for this building, this is an entrance to the parking lot for this building, and this right here is another entrance to a parking lot for a building.

Q So where you've got an arrow points to Copper Creek Court, that is a driveway that enters a parking area?

A Yes, ma'am.

Q That residents would park?

A Correct.

Q And so when you are beginning to process

0cf60cba-a00f-4859-9745-afcc42b4708c

your crime scene, you start, do you start by taking measurements?

A No, measurements are the last thing that we do.

Q Okay. And so in this particular case after you completed the video walk-through, what do you do next?

A Um, after we do the video walk-through, I would take overall scene photos of exactly how the scene is when you arrived before placing down placards or anything that I would do to assist in my investigation.

Q And so you take those photographs yourself?

A I do.

Q And is that, do you use a department issued digital camera to do that?

A Yes, ma'am.

Q Does that camera have a memory card?

A It does.

Q And after you take these photos, what do you do with the memory card?

A The memory card is placed into a photo envelope and then taken to our departments photo lab.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q Now, when you're processing the crime scene and you are taking photographs, do you ever delete a photograph like if you take it and you look at it and you see that's blurry or doesn't show what you wanted it to show?

A No, ma'am. When the flash goes off, that picture is what it is.

Q And so if you hit that shutter button 300 times, you have 300 pictures that you send to the photo lab?

A Yes, ma'am.

Q Whether it comes out blurry or unrecognizable, it is going to be printed, correct?

A Right.

Q So after the photo lab, and then let me ask you this, do you edit those photos in any way, do you on your camera, do you use color contrast or do anything to edit the image that you are taking?

A No, ma'am, I do not.

Q And after that card then goes to the lab, does the lab print up your photos?

A Yes.

Q Do they call you up and say hey, Matt, photos are ready?

A For homicide scenes, part of our protocol

0cf60cba-a00f-4859-9745-afcc42b4708c

is we stamp each individual photo as an official photograph, but yes, they download our photographs from our memory card to their servers and then for homicide scenes and other various scenes where stuff is requested they print out 8 X 10s that we come down and stamp.

(Deposition Exhibit Number 3 marked for identification.)

Q (By Ms. Alizadeh) Okay. So I'm going to hand you what I've marked as GJ 3, which is a yellow envelope. Do you recognize your handwriting on that?

A Yes, ma'am.

Q And when you received that, did that envelope contain photographs?

A I filled out this envelope and I put the photographs in here.

Q And the photographs that you put in there, were they the photographs that you took on the scene at Canfield that day?

A Yes, ma'am.

Q And you looked at each photograph individually?

A I did.

Q And stamped them with your stamp?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Correct.
Q And initialed them and number each one individually, correct?
A Yes.
Q On the outside of that envelope, does it say how many photographs you took?
A 161.
Q Did you go through those photographs and assure yourself that there are 161 photographs in there?
A Yes, ma'am.
Q I'm going to remove these photographs. And these photographs are not individually marked with stickers. So I'm just going to hand you the stack first and you had indicated that you put your stamp on the back?
A Yes, ma'am.
Q And typically write the number and your initials, you didn't on that one?
A I didn't put the initial on that one.
Q Okay. Let's look at the first one and this is depicting what?
A This would typically be your first and last picture and anything that's seen, it is crime scene information board.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q And so I'm going to put this up there. This has the date, the complaint number, which is what, what's the complaint?

A Complaint number is basically your report number. I particularly put the county complaint number, which is denoted by our municipal code, which is 99, so our report number would be 99-14-43984. The smaller number you see lower right is Ferguson's complaint number, their mini code is 33-14-12391.

Q The 99 is for county number?

A That denotes county number.

Q 33 is Ferguson?

A Yes.

Q And 14 is 2014?

A Correct.

Q Whatever sequential number is the next one up in the hopper is the number you get?

A Yes, ma'am.

Q So you've indicated the incident assault on LEO?

A Correct.

Q And then detective DSN, that stands for?

A Departmental serial number, which is slang for badge number.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q Each officer has their own DSN?

A Yes, ma'am.

Q You are ?

A Correct.

Q Now, just so the jurors can see, I'm going to turn this over and you said that you stamp each photograph with your stamp and it says initial photograph St. Louis County Police Department Detective and your DSN, correct?

A Yes, ma'am.

Q And then it says badge number?

A Image number.

Q Image, okay, and then your initials?

A Correct.

Q So there you have written the number one?

A Yes.

Q And neglected to put your initialed on there?

A I did.

Q But you recall taking this photo of the placard, correct?

A Yes, ma'am.

Q Now, I want to draw your attention also because this will become information later, there's some printing on the back of this photo that looks

0cf60cba-a00f-4859-9745-afcc42b4708c

like it is computer generated?

A Yes.

Q I'm going to turn it around because it is upside down. Does this printing print out on each photograph as it comes out of the printer at the lab?

A It does.

Q So it says on there SLCPD, that's St. Louis County Police Department, correct?

A Yes, ma'am.

Q And then it says DCS, and then there's a four digit number?

A Correct.

Q And on this photograph it says 0001?

A Yes, ma'am.

Q And the one is circled, did you circle that?

A I did.

Q And then it says dot JPG?

A Yes.

Q And then it says 0001 again; is that right?

A Yes.

Q So the printing that appears on the back of each photo, does it sequentially number these as

0001 and then the next one in order would be 0002 and so forth?

A As far as the DSC number, that's the number of the photograph on the file card. So this picture is number one, the next picture would be number two.

Q Okay.

A The second number that you see 0001, those are not always going to be in sequential order for this stack. Different things number, this one printed up three separate copies. So while this picture will always be number one, the next picture may have number four or number eight, whatever number that photo was print off.

If they printed up four photos of that one, it would also be DSC1, the second set of numbers could be 001 through 4, depending on which number it was in the stack.

Q Okay. So the number that you circled, which is the first number, that's what we are talking about, this is your first photo?

A Yes, ma'am. There are several ways to stamp the back of these. Some officers just use the official photograph stamp and would just circle that number as the image number.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So when you went through each of these photographs, did you check to make sure you had each of the 161 photos in sequential order?

A Yes, ma'am.

Q And then after determining that, you put your initials typically and you write the number on the photograph?

A Yes, ma'am.

Q Not every detective does that?

A No.

Q So we're just going do go through these. That was Image Number 1, which was your placard that you do at the beginning of every?

A And the first and last photographs.

Q Okay. So I'm going to put up here, I'm not going to do this on everyone, but just to show you guys there's the number two, correct?

A Yes.

Q And then again on this photo it has got 0002 on there?

A Yes.

Q This is the second picture you took, correct?

A Yes, ma'am.

Q And after having looked at all of these

0cf60cba-a00f-4859-9745-afcc42b4708c

photos, do you feel that these photos accurately depicted the scene as you saw it that day?

A For the most part, yes, ma'am.

Q Okay. I want to make sure I get the whole photo. There we go.

And so in Image Number 2, can you describe what is depicted there? And you can use your pointer if you want.

A Okay.

Q I'm going to get out of the way.

A This would be the first photo that we took after the initial walk-through and the walk-through with the video. Some of the things that this video shows overall number one, here is where my crime scene van is parked. The traffic cones that you see are things that were set in place prior to my arrival.

Different pieces of evidence, Ferguson officers or anyone else officer wise that were there that knew part of the story of the scene would denote that, you know, just kind of make sure hey, this is where this is at or make sure no one steps on it or moves it.

Q Let me stop you here, Detective.

A Yes, ma'am.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q I know some of you on the end may not be able to see the entire image because of the way that screen is recessed into the wall. So first of all, these photos will all be available to you to handle and look at at any time you want to see them, but if you feel that you can't see, you want to move your chair around here and again, if you are asking questions, just state your juror number, it doesn't matter if you are in order, just as long as you state your juror number.

A So this perspective where I'm standing is also where I started the video walk-through. It is the southwest corner of the scene.

You can see this is Officer Wilson's car, down here you can see another Ferguson vehicle and another Ferguson vehicle down at the eastern end. Those are cars that were there when I showed up to start my investigation. So again, when I show up, I try not to move anything because I photograph how I come into a scene.

Those vehicles were not there at the time of the incident, they were placed there by Ferguson officers to help secure a crime scene and to block views of Michael Brown's body.

Q So Michael Brown's body is in between

0cf60cba-a00f-4859-9745-afcc42b4708c

those two Ferguson police cars and those are SUVs, correct?

A Yes, ma'am. And you can see the corner of an orange body screen between the two cars, that is something that I set up after my arrival to assist in blocking views.

Q Why do you do that?

A A number of reasons one, privacy. Two, seeing a dead body in the middle of the street is often disturbing to a lot of people. It is out of respect for the victim, out of respect for the family, out of respect for everyone to just kind of take away a visual sign of stress more than anything.

Q You learned at some point that family members of Michael Brown had arrived at the scene, correct?

A Yes, ma'am.

Q Were they allowed to enter the crime scene?

A Initially, no. I think towards the end, not towards the end, but when the medical examiner had arrived and were getting ready to move the body, I believe Michael Brown's father, I think, but a family member was allowed to step inside while we,

0cf60cba-a00f-4859-9745-afcc42b4708c

the crime scene, while we removed his body as part of the investigation.

Q So keeping anyone out, including family members, that's all because you want this crime scene to be as pristine and undisturbed as possible, correct?

A That's our goal, yes.

Q And so at this point, about how long into you being on the scene are we now?

A If I arrived 1:15 or so, probably find the time stamp on this photo, it is no less than an hour after I arrived just because in between this photo being taken and my arrival was when the gunshots were fired a second time close to the crime scene and everything was put on hold.

Q Now, this shooting occurred at approximately what time?

A I think I was told 12:14, 12:15.

Q A little after noon?

A Yes, ma'am.

Q And were you present when the body was removed?

A Yes.

Q And would it be fair to say that it was almost four hours later before the body was removed?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Yes.

Q Is that unusual that a deceased person would be left at the scene for that long of period of time?

A No, ma'am, that is fairly common, almost routine.

Q And in this case, you mentioned that there were a number of times where everybody had to kind of stop what they were doing because the scene was becoming dangerous?

A Yes, ma'am. Not only do you have to take into the fact what we were dealing with at the scene security and personal safety, but St. Louis County, who was requested to the scene to investigate, we were not notified until almost an hour afterwards. If you look at the time of four hours as a whole, we only got there a little after 1:00 to start our investigation.

Q Okay. So now in the photograph, I would imagine it is fairly clear to everyone, this is the driver's side of this vehicle, correct?

A Yes, ma'am.

Q And it is facing west, towards West Florissant, correct?

A Correct.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q If everyone can look at your diagram, you diagram that as the vehicle, the rear left tire is over the double yellow lines; is that right?

A Yes, ma'am.

Q Now, this tape that's wrapped around this vehicle, did you put that tape on there?

A No, ma'am.

Q All right. Would you have typically done that?

A No.

Q So that was done before your arrival?

A Yes.

Q Okay. And so you left it there and that's how you photographed it?

A Correct.

Q That's how it was when you got there?

A Yes.

Q And then these cones you talked about, these were placed before you got there?

A Yes, ma'am.

Q And during your walk-through with the Ferguson officer as you said, would you say why these cones were placed in various locations?

A Yes, ma'am.

Q If you all have a question about a

0cf60cba-a00f-4859-9745-afcc42b4708c

particular photograph, rather than having to say can we see that one again that had the blank, blank, blank, ask it now, probably make this go smoother. Yes?

: , this may be answered later, I don't know. I just want to know why is the door closed, do we have any idea why the door of the SUV was closed or was it reentered?

MS. ALIZADEH: That will probably be addressed by other people. This detective wasn't present beforehand and as he had said, his statement is this is how it was when he got there. So there will be other witnesses who are going to be called to testify being first on the scene, what they saw, whether they photographed anything, but that's the way he observed it.

Any other questions about Image Number 2?

Q (By Ms. Alizadeh) Image Number 3, again, it has got your three on there. Describe what that image shows?

A This is kind of, I moved slightly east from the first viewpoint, and typically what I would do when I'm photographing an overall scene photograph, I would stand in one spot and just pan my camera taking this angle, I twist, this angle,

0cf60cba-a00f-4859-9745-afcc42b4708c

twist, twist. So if you can picture laying four pictures out side by side, you would get, in essence, a panoramic view of the scene.

And I would do this at this point, in the middle of the side of street, at the other end, go to the other side and just do the same thing. It is called bracketing photos.

Q Okay. And so this is just a slightly different angle from the previous image. You see your that's your van there?

A Yes, ma'am.

Q On the left side of the image, correct?

A Correct.

MS. ALIZADEH: Okay. Anyone have any questions about this?

Q (By Ms. Alizadeh) Image Number 4.

A Again, this would be, the left side of this picture would be the tail end of Darren Wilson's car, again, looking farther east.

Q Okay. Now, I think if you can see, this is crime tape; is that right?

A Yes, ma'am.

Q Police tape, and does it appear that there is police tape back there as well?

A Yes, initially when we arrived, this first

0cf60cba-a00f-4859-9745-afcc42b4708c

piece of crime scene tape was the barrier to the crime scene. After several people had torn down the crime scene tape, run onto the scene, the gunshots being fired, the crowd would run from this building in particular from this side of the crime scene, around this building, through the parking lot to this side of the crime scene, depending on what was happening.

We had an opening where the crowd had run to the eastern end of the crime scene. So several people moved or put up a new set of crime scene tape farther back into the parking lot to try to keep people farther away from the crime scene.

Q Okay. So that was done not because you determined that somehow this area was now a part of the crime scene, it was done to keep the crowd from encroaching upon the crime scene?

A Yes, ma'am.

Q So there's no particular processing of this scene, you didn't suddenly say I'm going to go and photograph and walk around this area?

A No, ma'am. The only thing I think that we did in that area was film a witness' perspective with our video cameras and that is even farther back from where that crime scene tape is set.

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. ALIZADEH: Anyone have any questions about this image?

Q (By Ms. Alizadeh) And this is image number five. Can you describe for them what you're seeing, what this image depicts?

A From this angle, I think you are going to start to see that I am in the middle of what I would deem the crime scene looking east on the south side, I'm sorry, looking west from the south side of the road, and I will start kind of a pan from my left to my right.

Again, you can see Darren Wilson's police car, the cone that had been set up, my crime scene van and then I had mentioned before my crime scene van was just inside the initial crime scene tape. You can see a crowd of people gathering there on top of this hill and, of course, you can see the amount of vehicle traffic that is now blocking Canfield.

Q Okay. So the first series of photos you were closer to this area to where this police officer is, and you walk down here and take another series of bracketing photographs?

A Yes, ma'am.

MS. ALIZADEH: Any questions about that?

0cf60cba-a00f-4859-9745-afcc42b4708c

Q (By Ms. Alizadeh) Number 6.

A Similar image as before, I had just tilted a little bit so now you can see Darren Wilson's car is on the left side of the photo and I'm panning to my right, or to the east.

Q Image Number 7?

A The center of the crime scene. I am basically in the middle looking from south to the north across Canfield.

MS. ALIZADEH: Any questions?

Q (By Ms. Alizadeh) Image Number 8. Can you describe what you see in there?

A Same scene or same location, I've now turned further to the east. This is, I believe this is Caddiefield, at the intersection of Canfield and Caddiefield. A Ferguson police car, an SUV was not described to me, was not there at the scene, it was put in place to block the body.

Where the white sheet is laying between this police car and the orange body screens is Michael Brown's body.

I'm not sure what department vehicle that is, again, it is a police SUV used to block this street and to assist with security at the crime scene.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So the two vehicles you see in this picture as far as you know had nothing to do with the incident?

A Yes, ma'am.

Q Image Number 9.

A Now, I'm now standing, if you get the perspective, the Ferguson SUV that was in the middle of the street is directly to my right now. I'm looking back west on Canfield. This is Officer Wilson's SUV.

MS. ALIZADEH: Any questions?

Q (By Ms. Alizadeh) Number 10?

A Same view, I've stepped into the street a little farther this time. You can see this is the back of the vehicle that was blocking Michael Brown's body.

Q 11?

A Standing in the same place looking east. I turned my camera to the north, that's the tail end of the same vehicle that you saw in the previous picture.

Q So this is looking north as you are standing on Canfield?

A Correct.

Q And so Michael Brown's body would be

0cf60cba-a00f-4859-9745-afcc42b4708c

outside of the frame on the right?

A Yes, ma'am.

Q Image Number 12.

A I've now turned, same viewpoint looking to the east. You can see the Ferguson police vehicle blocking this end of the crime scene, several cones that were placed out prior to my arrival marking evidence that they had located. Under the sheet is where Michael Brown's body is located. The sheet was also placed there prior to my arrival.

The orange body screens are things that I added to the scene when I arrived to assist in our investigation.

Q From your perspective, the other Ferguson vehicle that was blocking the scene was in this direction; is that correct?

A Yes, ma'am, it would be over my left shoulder.

Q That hasn't been removed from the scene?

A No, ma'am, it is still there.

Q Number 13.

A Same standard view, I've moved from the street level back across the sidewalk to show a wider perspective. Again you see, you get a better look at the different cones were set up marking the

0cf60cba-a00f-4859-9745-afcc42b4708c

evidence around it.

Q And just to clarify, this here is that Copper Creek Court on your diagram?

A Yes, ma'am.

Q So vehicles can drive up here and park back here, right?

A Yes.

Q Number 14?

A Standing further east looking back west you can see now that there is crime scene tape between this, my viewpoint and Michael Brown, give you a wider, overall perspective of the crime scene.

Q You are still looking west on Canfield towards West Florissant?

A Yes, ma'am.

Q So this vehicle, again, is not involved in the crime scene, it is blocking?

A Correct. The vehicle that you see in the far end of this photograph that's angled is Officer Darren Wilson's car.

Q Now, in the image, what is this thing right here on the ground?

A This is a sand weight that is used to weigh down these body screens. They are made out of extreme light PVC and cloth, so any type of breeze

0cf60cba-a00f-4859-9745-afcc42b4708c

would move them. You can see that there are several weights holding down the feet of the body screens that are up. This is one that was just left there while we were there.

Q That is yours?

A It is.

Q But not part of the crime scene?

A Correct.

Q Number 15?

A Same viewpoint. I think I just turned a little bit to the north side again because in the last picture, you could see Officer Darren Wilson's car to the far end, I'm just panning to my right.

Q 16?

A I've now moved to the north side of the street and I'm looking south. This is the car that was used to block the view of the body, the body screens that I assembled and set up. Again, the body screen weight that was left at the scene, Michael Brown's body is behind these screens, this is Caddiefield that you can probably see in your diagram, I think.

Q And now we see the crime scene tape along here and running across here. These people back here are just a part of the crowd that's gathered?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Yes, ma'am.

Q Approximately how many people, if you had to guess, bystanders that were just there?

A In that photograph?

Q Just overall?

A Altogether, 3 to 400.

Q I'm going to show you Image Number 17.

A Same viewpoint, on the north side of the street looking south. Again, the body screens and then this vehicle here is Darren Wilson's police car.

Q Now, at any time during the time you were processing the scene, did you feel that anybody, whether it was a police officer or a citizen in any way suggested that you not perform your duties the way you thought they should be performed?

A No.

Q Were you ever told don't photograph this or in any way did you feel that someone was trying to influence you to do something other than what you felt you would typically do?

A No, ma'am, not at all.

Q Looking at Number 18.

A Same viewpoint, I've now turned almost completely east. This is the vehicle blocking

0cf60cba-a00f-4859-9745-afcc42b4708c

Michael Brown's body. His body would be just to the left out of frame and this is Darren Wilson's police car.

: . I have a question, are you by yourself as you are walking around doing these photographs or anybody with you?

A During the video process of it, since it is a continuous video, at this particular scene I typically would have one person, another crime scene detective that is assisting me walk with me, basically with a hand on my shoulder making sure I don't trip over something in a hallway or a street, because I'm looking directly at that view finder so I can get the perspective I want to.

This particular case there was, I was running the video and I had three other crime scene, two other detectives and my detective sergeant. One was guiding me so I didn't trip or step on anything, the other two to get the perspective for the video. I had to get very close to the crowd. So the two people that were assisting him were making sure the crowd wasn't going to grab, push, throw, do something to us.

Okay.

A Short answer no, I don't do videos by

0cf60cba-a00f-4859-9745-afcc42b4708c

myself, photographs I do, I do by myself.

Q (By Ms. Alizadeh) You make the determination in what's being photographed, nobody says take a picture of this, don't take a picture of this?

A Correct.

Q They might point out?

A They can point out something that they would like to have a photograph of as part of their investigation. But never have I been told don't photograph this.

Q Okay. Number 19?

A This is from the same view point as the previous picture. We use 18 to 35 millimeter lenses. I just zoomed in to the 35 millimeter to show perspective of Darren Wilson's police car.

Q Number 20?

A Yes. From the last perspective I have was standing here looking almost directly east. I've now moved to the center of the north side of Canfield looking back east. Again, Caddiefield is, that's the street sign for Copper Creek Court and then Michael Brown's body.

Q So Darren Wilson's vehicle is down this street to the right?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Yes, ma'am.

Q And that's 21, I believe, let me look.

A Yes.

Q Yes, 21?

A Same perspective. I've now twisted to my right. Caddiefield Court would be to your left. You can no longer see the street sign just looking to my right.

Q Number 22. You want to hand them to me?

A I can, I can probably put them up on this.

Q You want to do that?

A I can.

Q This is number?

A 22.

Q 22. That will make it easier.

A Same perspective. The vehicle that was in view in the previous photograph is partially cut off. I'm panning farther to my right showing my bracketed part of the scene. Any questions?

Photo Number 23. Same as before, turning farther to my right. Now you can see Darren's police car within the scene and the cones marking different pieces of evidence.

Number 24. Almost the exact same photo as before. I think I may have zoomed in to

0cf60cba-a00f-4859-9745-afcc42b4708c

show the area which we were looking at.

Number 25. I didn't initial it. As the perspective goes from the diagram, I'm now standing on the northwest corner of the crime scene looking east, Caddiefield is on your right, Copper Creek Court is here on your left, and then the two vehicles that were blocking Michael Brown's body.

Number 26. Same perspective just, turning to my right bracketing the photo.

Number 27. Turning farther to my right, you can no longer see the two vehicles that were blocking the body and this is the center of Canfield.

Number 28. I'm on the north side of the road facing almost directly south in the middle of the crime scene. You can see on the right-hand side of this photograph, the back end of Darren Wilson's police car that has the crime scene tape applied directly to it. The crime scene tape that you see on the ground again from one of the earlier photos, that was one of the crime scene tape officially put after the crowd moved. They were able to take that down and move that crime scene perimeter back.

Number 29. Panning to my right

0cf60cba-a00f-4859-9745-afcc42b4708c

further, the previous picture you could see the tail end of the car. Here again is the police car in its entirety and the tape had been torn down.

Number 30. I've now moved farther to the west. Still on the north side of the street, this is the front end of Darren Wilson's police car.

Q Now, let me stop you here. As a part of the scene like this type of scene, if you had noted or scene, for example, tire marks, whether they are skid marks or marks in the grass indicating possibly, you know, the travel of the vehicle, the speed it was traveling and so forth, and you're not an accident reconstruction person, correct?

A No, ma'am.

Q If you had seen tire tracks, like skid marks around this vehicle, would you have documented those?

A Yes, that would have been something that I would have recognized as probably important to the scene. No tire tracks of any sort, any skid marks or I didn't notice any and none were brought to my attention and I didn't document anything.

Q And in preparation for your testimony today, did you and I look in these photographs and did you look to see if you could see in those

0cf60cba-a00f-4859-9745-afcc42b4708c

photographs?

A We did, yes.

Q Did you see any type of tire marks or skid marks?

A No, it was images that we looked at that had closer views of the tires on his police car that were actually focused on pieces of evidence, and we could not see any type of skid or tread mark anywhere.

Q And those pictures are included in your batch of pictures?

A Yes, ma'am.

MS. WHIRLEY: Was it brought to your attention, this is Sheila Whirley, was it brought to your attention that you should look for skid marks.

A At the scene?

MS. WHIRLEY: Yes.

A No, ma'am.

MS. WHIRLEY: Okay.

A Number 31. Same perspective where I had moved, I could see in front of Darren Wilson's police car. Now looking back farther to the east, kind of bracketing photos from my right to my left this time.

Number 32. Same perspective. Turned

0cf60cba-a00f-4859-9745-afcc42b4708c

from the northwest corner looking almost directly east.

Number 33. Same perspective again, 18 to 35 millimeter lenses. I just zoomed in that perspective to give you an idea what we were looking at farther down the street.

Q (By Ms. Alizadeh) So you didn't actually walk closer to that scene?

A No, ma'am. Just zoomed in from the previous perspective.

Number 34, the first group of pictures were what we refer to as my overall photos of everything. Now is when I would typically start taking my individual photos of items of evidence.

Q Okay. So can you describe what number is this, 34?

A This is number 34, yes.

Q What is this picture and why you took it?

A Okay. As a procedural thing, if I'm going to do my evidence in order, you can see now you will see the yellow evidence tents are placed down throughout the scene. In particular number one. In a perfect world, you would take a photograph of evidence number one, you move to number two, number three just to keep everything in order and that's

0cf60cba-a00f-4859-9745-afcc42b4708c

the order that we find things. There is not necessarily a rule or law that says the item that you see first has to be number one and everything has to go in order.

It could very well, for instance, in this scene, if I marked number one and number three, or that's number two there, I could mark 1 through 30 and then when we're getting ready to go find a shell casing on the other side of number one and have that be evidence item number 31. So it is not necessarily in the physical space things are numbered, they are numbered how we find them.

Q So during the first series of photographs that we've seen and that was kind of your walk-through of the scene?

A Yes, ma'am.

Q Did you take a break and then place placards in areas or were those placards visible in your earlier photographs?

A No, they are not visible in the overall photographs. The overall photographs I take right after the video is done to show an overall view in pictures, not just video, of what the scene looks like when I arrived.

Q So after you've got done with the overall

0cf60cba-a00f-4859-9745-afcc42b4708c

walk-through photographs.

A Yes, ma'am.

Q Is that when you then go through the scene and put placards down?

A At that point I would walk through and placard items that I know our evidence. Things that are pointed out to me that were noted by the traffic cones first responding officers put down that they saw, and I would put my placards there on those pieces of items.

During that time you may notice another shell casing or something else and, of course, we would placard that. Once those things are placard, we start taking our overall photos and close-up of each placard.

Q These items that have a placard, and I think maybe you can see that that is number one there, does that correspond with your diagram where you have a number one with a circle on it?

A Yes, ma'am.

Q At this point after having documented these placards and you said you took measurements at a later time, those items that are numbered are depicted on the diagram?

A Correct, on the diagram. All the little

0cf60cba-a00f-4859-9745-afcc42b4708c

bubbles you see, and that's not the best copy of it, but all the small circles that you see have a number inside of them denoting that item of evidence and its location at the scene.

Q And then the legend that's attached to that diagram would tell you what number one is?

A Correct.

Q Okay. And so number one here by the tire, of the front left tire of Darren Wilson's vehicle, what is that?

A I don't have my list. I'm not sure, is it a bracelet?

Q Here, is this yours?

A It is a black and yellow bracelet.

Q And then this thing right here, number two, what is that?

A A red baseball cap.

Q Number three?

A A spent .40 caliber shell casing.

MS. ALIZADEH: Any questions so far?

: . Number five is another black bracelet?

A Yes, ma'am.

Thank you.

A Okay.

0cf60cba-a00f-4859-9745-afcc42b4708c

:

A Yes, sir.

When you, I guess, put the placards down.

A Correct.

Was there anything that you found on your own or was everything already marked?

A No, there were several items that I found on my own afterwards.

.

A Yes.

You said that three and four were .40 caliber spent casings, on the list it says Federal, what is meant by Federal?

A Federal is a brand name. Federal is the name of the brand that is actually stamped on the tail end of the bullet.

Okay.

MS. ALIZADEH: Any others? Okay.

A Image 35.

MS. ALIZADEH: Any time you want to take a break or stand up, feel free to do so.

A The previous image was kind of an overall view of the several placards that you could see. So

0cf60cba-a00f-4859-9745-afcc42b4708c

in the previous image you saw what I would term overall view. This would be an intermediate view kind of referencing where in space placard number one is, you can still see the driver's front wheel of that.

Image 36. This would be the close-up view of item number one. This is a hard plastic placard that's number one, that has a scale printed on it to show size. And that's the black and yellow white bracelet.

Q (By Ms. Alizadeh) Now at this time, do you know if that bracelet has anything to do with your scene or the incident?

A No.

Q You are photographing things, you're not sure what involvement they may, they may have direct relation to the incident, they may have no relation to the incident?

A Correct.

Image 37.

Q Can you twist it?

A Yes. This would be the overall view that I would show starting to zoom in on item number two, again, giving reference in space how it is located to Darren Wilson's vehicle.

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. ALIZADEH: I will tell all of you that when it comes time to you actually looking at the photos, they are not as blurry as what you are seeing up here.

A Thank you for clarifying that. I do take better photographs than that.

Image 38. This would be the intermediate view of evidence item number two.

Image 39. I think we spoke about this yesterday, the evidence item placard number two has an asphalt mark, tar mark in the middle of the placard. Has nothing to do, this is showing evidence item number two, just happened to be there in the photograph.

Q (By Ms. Alizadeh) This thing here to the right?

A That is the traffic cone that was in place prior to my arrival marking the location of that piece of evidence.

Q So you don't remove the traffic cones when you are doing this?

A No, ma'am.

. Had that traffic cone not been there, would have placed that placard to the right side of the cap then?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Probably.

Okay

A I try not to move anything when I'm placing my placards.

Okay.

A Image Number 40. We were going towards, I think that's item number three, again, my overall view showing space where it is located on the driver's side.

Image 41, intermediate view of item number three.

Image 42, would be my close-up view of item number three, which again is the spent .40 caliber Federal shell casing.

Q (By Ms. Alizadeh) Now, let me ask you a question. I want to clear up something, some people might perceive, are you in any way saying that that was the third shot fired by giving that number three?

A No, ma'am.

Q Are you able to determine when you are collecting these shell casings in what order these shell casings were fired out of a weapon?

A No, ma'am.

Q So each little shell casing doesn't come

0cf60cba-a00f-4859-9745-afcc42b4708c

with a number on it that you put in your magazine in a numeric way?

A No, they do not.

Q It would help you if they did, correct?

A Tremendously so. These things, the numbers, the placards in any of my photos and most anyone they have nothing to do with the order in which things were done during a crime. They are specifically the order in which we found that piece of evidence, and the number that's assigned to it is just to help us determine which piece of evidence it is. Has no other chronological significance.

Q So in your report you refer to that this is evidence item number three in the envelope it is packaged in, it is denoted as evidence item number three?

A Yes, ma'am.

Q With a description?

A Correct.

Q So it keeps that number?

A Yes.

Q This shell casing that you photographed is still number three, your evidence item number three?

A It is my evidence item number three.

Q Okay.

0cf60cba-a00f-4859-9745-afcc42b4708c

: I don't know too much about guns and stuff like that, so from that shell casing, where is the front of the bullet, where is the back of the bullet, can you tell me what direction it is facing?

MS. ALIZADEH: Let me clarify something here. We will have ballistics people, let me ask you detective, are you trained in firearms?

A Yes, I am a firearms instructor for our police department.

Q (By Ms. Alizadeh) So you feel that it is within your expertise to talk about, this is called a cartridge; is that right?

A Casing.

Q A casing. You are able to answer her question, you feel comfortable doing that?

A Yes, ma'am, I can do that.

Q Okay.

A As far as the direction the bullet is facing, I can't tell you, but as far as what you would determine the front would be where the actual bullet itself would come from, would be this hollow end of the shell casing.

: . You talked a second about how that happens, how a

0cf60cba-a00f-4859-9745-afcc42b4708c

handgun goes through that process, how casings are ejected, it doesn't happen every time they fire a bullet. How far do you think they might travel, anything about that for people that are not familiar with that? You might want to address that.

MS. ALIZADEH: You know what, I would like to talk about in answer to your question is his familiarity with cartridges and shell casings and projectiles and firing pins because he can testify about that, but as far as like how they're ejected from a particular gun, how far they travel, I believe we had this conversation before today, you feel that is outside of your area of expertise?

A Far outside.

MS. ALIZADEH: If you want to ask him questions about how, what the components what we normally think of is a bullet what are the components, what happens to it when it is fired, I think he can answer that.

Just to rephrase, one of these casings is ejected every time this weapon is fired, this particular weapon is fired, correct?

A If it functions properly, correct.

All right.

MS. ALIZADEH: Any other questions?

0cf60cba-a00f-4859-9745-afcc42b4708c

. Are we also to expect all of these listings for a casing are from Officer Wilson's gun at the time.

MS. ALIZADEH: We will have testimony that will talked about their comparison. As you recall he talked about taking items of evidence to the lab and our laboratory has a ballistics section. So at some point you will hear about the testing that they did and they will refer to this as evidence item three, but to make it even more confusing for you, the lab will give it it's own number. It will be like Q7 or something.

But there will always be paperwork to show that this shell casing right there was picked up by this officer and put in an envelope and it is forever his evidence item number three. It might have another lab number that the lab uses and then someone who is going to testify about what they did with this and what conclusions they draw from their examination.

Okay, thank you.

A Image 43. This would be my overall view of evidence item number four, which is down here in the lower part of the photo.

Q (By Ms. Alizadeh) This is Darren Wilson's

0cf60cba-a00f-4859-9745-afcc42b4708c

vehicle?

A Correct, you can still see the placards for one, two and three.

Q Okay.

A Image 44. In the previous image I was standing on the southern side of the road looking north, and you can see item number four.

What they typically will do again in a perfect world is you always try to angle your placards all facing the same direction. So if you are standing in the middle of the road, you can see the number of each one because they are basically a triangle. And turned to the side you can't see what number it is on.

So in this photo all I did was turn or moved to my left a little bit so you can see the front of the evidence placard.

Q Can I ask you, and you can see it also in Image Number 43, and you can kind of see it in this image, but there is a thing that's down here that's yellow?

A I believe that is actually a knotted up piece of crime scene tape.

Q So that's not a placard?

A No, ma'am, it is not a placard. I believe

0cf60cba-a00f-4859-9745-afcc42b4708c

initially that was laying down somewhere around here near this item number four, which is another shell casing. When and/or something moved or threw it down on the sidewalk.

Q So that yellow thing right there has no, as far as you know, no evidentiary value?

A Correct.

Q You didn't seize it or package it?

A No, ma'am.

Q Okay.

A Image 45. Close-up view of item number four, another spent shell casing.

Image 46. I've now moved over to the northern side of the street and this is my overall view of evidence item number five.

Again, in a perfect world, the attempt is made to photograph items of evidence in the order that I find them.

Image 47. Intermediate view of placard number five.

Image 48. Clarify this as again another intermediate view. You can still see part of Darren Wilson's police car, be it that may be a running board somewhere at the bottom of his vehicle, again, placard number five.

0cf60cba-a00f-4859-9745-afcc42b4708c

Image 49. Close-up view of the vehicle, the bottom of the vehicle can no longer be seen. My evidence placard and then a black beaded bracelet.

Image Number 50. This, looking at the next photo, this is an overall view of evidence item number eight, I think the last one we had was number five. Again, the ideal world you can photograph everything in sequential order. I believe items number six and seven were farther down the street. So at the time that this photo was taken, I didn't want to move down the street and then move back. Eight and nine were right in front of the car.

I stayed in this area to continue with the photograph, this overall view. What we are looking at here is a red stain on the driver's door.

Image 51. You can see this is what we would use as a placard. There is some adhesive removable stickers that are numbered one through zero or one through nine and zero that we can make combination of numbers. Obviously, this is something that we would typically stick on a vehicle or a window or something that we can't stick a placard onto, just to number in our photographs as

0cf60cba-a00f-4859-9745-afcc42b4708c

evidence item number eight. It is denoting a red stain below that.

52, Image 52. This would be the close-up view and again, it is not in focus with the projector, but you can see that the placard number eight is there, it has a small scale and items of this nature. We would typically insert my own visual scale in the photo to show size and shape of whichever item I'm photographing at that time.

Q Now, Detective all of these systems so far that you've testified about are all things that you at some point picked up and put them in an envelope and packaged them, correct?

A Yes, ma'am.

Q So this is a red stain that is on the side of a vehicle, correct?

A Yes.

Q Did you seize that?

A I did.

Q And how do you seize something like that?

A This particular piece of evidence, we call it a red stain, it was actually kind of, I don't want to use the term fleshy, but it wasn't like a liquid. I was actually able to seize that with a pair of tweezers.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So that red thing just kind of peeled off the car?

A It came off completely, yes.

Q And you packaged that substance or whatever it was?

A Yes, ma'am.

Q Was, in your experience with working with, for example, you know, blood stains or blood spatters, did it appear as if it was a blood droplet or spatter?

A No.

Q So it was something else?

A Something else.

Q All right.

A Image 53. Overall view, what this is looking at this is obviously, not obviously, still the driver's side of the vehicle, rear passenger door, the rear tire here. You can see the placard I put on there. Again, was an adhesive sticker for number nine. It is covered up partially by the police crime scene tape that was applied by Ferguson prior to our arrival.

Q So to find that item number nine, you actually lifted up the crime scene tape to look at the vehicle, but then once you placed a placard on

0cf60cba-a00f-4859-9745-afcc42b4708c

the car, you put the crime scene tape back where it was?

A Yes, ma'am.

Q So you did move something on the crime scene, but only to search for evidence?

A Yes, ma'am.

Image 54. You can see this photograph, crime scene tape is no longer there and basically what's happening is I am holding the crime scene tape up with my left hand and taking the picture with my right hand.

Q And what is Exhibit 9 or what is your item number?

A Number 9 is a red stain on the exterior of the driver's side rear door.

Q Okay. On the driver's side rear door?

A Yes, ma'am.

Q It is a four door vehicle?

A Correct. A lot of times people use left, right sided vehicle, that often still confuses me. I use driver and passenger side.

This would be a close-up view of the red stain on the driver's side rear door. Again, adhesive sticker, and the evidence below it.

Image 56, this would be the previous

0cf60cba-a00f-4859-9745-afcc42b4708c

photo was shot more at an angle or somewhat of an angle. This you can see the crime scene tape, I can no longer hold it up with my left hand and hold my scale and tape. So I pushed it down below the item of evidence so I can again put my scale into the photograph so you can show the size and shape of the red stain.

Q Now, did you seize that item number nine?

A Yes, this particular piece of evidence appeared to be some type of dried liquid. I was able to collect it with a DNA swab.

Q So do you have swabs that you carry in your van?

A Yes, ma'am, sterile swabs from the manufacturer, sterilized water that we use to wet it. It is oversized professional Q-Tips. We wet the end of it, that piece of evidence we were able just to collect it with a Q-Tip and put it into a package and submit it.

Q The entire time you are at the crime scene, are you wearing latex gloves?

A Yes, 90, 95 percent of the time if I'm at my van doing paperwork, it is not always easy to write paperwork, but any time I leave my van, majority of the time between collecting different

0cf60cba-a00f-4859-9745-afcc42b4708c

items of evidence, you change gloves between those items.

Q So the tools that you use to collect this are in a kit that the police department purchases from a company, correct?

A Our crime lab.

Q Your crime lab?

A Yes.

Q They are sterile?

A Yes.

Q They are specifically for the purpose of collecting items that might be analyzed for DNA at a future time?

A Yes, ma'am.

Q So no one else's DNA would have been on that Q-Tip prior to you opening that package and then rubbing, you said wet the Q-Tip with sterile water?

A Yes, ma'am.

Q And then you basically rub it on that stain?

A Correct.

Q In essence, is it somewhat, it then changes that stain, correct?

A It does. Generally the stains that are

that small, the stain is gone when we collect it.

Q Okay.

A Obviously outside of microscopic traces that would still be left on there, to the naked eye I took that stain off of there.

Q And then regarding evidence item number eight, the substance that you removed with tweezers?

A Yes, ma'am.

Q The tweezers that you use, are those also --

A Again, supplied by our crime lab, sterilized individually packaged, they came out of the same DNA kit.

Q You open up those?

A One time use.

Q You throw them away when you're done?

A Yes, ma'am.

MS. WHIRLEY: Sheila Whirley. What do you do with those items like number eight and number nine that you seize once you seize them, what do you do with them?

A Number eight, since I was able to take it off with as a whole with tweezers, it was put on a piece of what we refer to as way paper, kind of wax paper. This is in our sterilized kit. It is folded

0cf60cba-a00f-4859-9745-afcc42b4708c

so it doesn't get lost. And that folded piece of wax paper is then placed inside of a coin envelope and that envelope is sealed.

Item number nine, since we use Q-Tips, we have these basically long Q-Tip boxes and again, they are provided by our crime lab. They come from a sterile environment, they are inside our DNA kit. You don't handle them without gloves. Each individual swab, be it a touch DNA swab or swabbing of a red stain or buccal swab to collect someone's DNA goes into its own individual swab box.

MS. WHIRLEY: And then what do you do with it?

A Once they are in the swab box, they go in an evidence envelope.

MS. WHIRLEY: For the purpose of?

A Sealing that as my piece of evidence and taking it to the crime lab and keeping it as sterile as I can.

MS. WHIRLEY: Thank you. That was all.

MS. ALIZADEH: Okay.

A 57. This is a series of photos that I'm attempting to show the driver's side mirror being pushed outside of its natural position. This is something that was brought up as part of the

0cf60cba-a00f-4859-9745-afcc42b4708c

investigation just because we were told that there was a struggle in and/or around the police car. This was an item of evidence like hey, that mirror may have been pushed during the struggle. You make sure to note that in your photos.

Q (By Ms. Alizadeh) So this would be an example that somebody had pointed out this may have some relevance to the actual incident and so go ahead and photograph that and document it?

A Yes, ma'am.

Q So the mirror on that police car, is it a mirror that can move? You don't break it by moving it?

A No, it is not broken, it is like many new cars nowadays, it swivels and moves front to back.

Q If you are sitting in the driver's seat, the mirror is pushed forward to the front of the vehicle?

A Correct.

Q If you are sitting in the driver's seat, you can't use that side mirror at that point to check?

A No, you would not be able to see that.

Q All right.

A Image 58. Intermediate view, same

0cf60cba-a00f-4859-9745-afcc42b4708c

driver's side mirror pushed to the front.

Q And this thing right here, what's that?

A That would be the spotlight that's accessible from the driver's side you operate with your left hand.

Is that mirror intact or is it broken?

A It is intact. The next photo is a little bit closer up so you can it.

: . Is the driver's side window open or closed, I've haven't been able to tell in the photos?

A It is not there right now, it is down.

It is open.

MS. ALIZADEH: Did you determine that the window was broken?

A It had been broken out.

Q (By Ms. Alizadeh) The driver's side window is broken and there is no glass in the door frame of the driver's side window; is that correct?

A Correct.

Q And then --

A Actually, the glass, the broken glass is still within the door frame itself, but as far as intact window that would be able to roll up and roll

0cf60cba-a00f-4859-9745-afcc42b4708c

down or be halfway up is not there.

To clarify there is no glass fragments outside the car or inside the car, it was all contained within the vehicle.

A No, we talked about this. There is definitely glass inside the car. You can see broken glass in the seat and the floorboard. To my knowledge, I do not remember glass outside of the car.

Image 59, it is much clearer than the actual photograph, it is a closer up view of that mirror. You can also see item number eight is still on the car as of this time.

Image Number 60. Several things you can see in this video again, it is still --

Q (By Ms. Alizadeh) Photograph?

A I did say video. Image, you can see in this image, you can still see the crime scene tape is there. Evidence item number eight with the placard or sticker is still next to it. Nine, I believe, is now underneath this crime scene tape. What we are focusing on in this photograph is a defect to the exterior side of this door.

Image 61, intermediate view of the same defect. This would be the handle to the

0cf60cba-a00f-4859-9745-afcc42b4708c

driver's side front door. It is just below.

Image 62, a view straight on to the defect with my scale in the photo to show size and shape.

Q (By Ms. Alizadeh) Let's back up here for a second. I think you need a break, he's the one whose fingers are flying a million miles an hour. Let me just finish up talking about this and we can take a little break for sure and everybody else can get up and take a break.

So this defect that's on the outside of the driver's door or Officer Darren Wilson's vehicle.

A Yes, ma'am.

Q And so this door is metal, correct?

A Yes.

Q Can you describe what that defect appears or looks like to you, not what you concluded it is, but describe it?

A For lack of a better term, this is convex, it is coming out of the vehicle. It is not a dent in the vehicle. And it is also, it is hard to tell again what you are seeing up there.

It is not a stain that's on the vehicle, you can tell that paint has come off of the

0cf60cba-a00f-4859-9745-afcc42b4708c

vehicle. Something from the outside or from the inside coming out made that defect to the exterior.

Q And is there a hole, is there a hole in what you are looking at there?

A From the outside of the vehicle?

Q From the outside of the car?

A No.

MS. ALIZADEH: Okay. Any questions about this. Okay.

MS. WHIRLEY: Is there a hole from the inside looking out?

A There is.

: Why is it not notated on here?

A It is not a piece of evidence.

It isn't.

A The vehicle was taken as a piece of evidence and processed at the crime lab by another detective, but at the scene that's just a visual note that I was taking. It wasn't a piece of evidence that I could collect.

Okay. It is notated in your paperwork?

A Yes, ma'am.

Okay.

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. ALIZADEH: Okay. We'll take a break here. Let me check on the timing of your lunch.

(Recess)

MS. ALIZADEH: This is Kathy Alizadeh. It is 11:30, we just took about a ten minute break. Detective is still testifying. Sheila Whirley, she's left the room but everyone else that was present when we began is still present in the room.

I want to tell you that your food is scheduled to be here at noon. is just going to knock on the door when the food is here. At that point, I will try to kind of finish up, if he's not done, we're going to get to a part where I can make a logical pause and you will be given your lunch.

It might seem like oh, let's go ahead and eat while we are hearing testimony. One, you need a break, I think it is good that you take a little time for lunch, whether it is 30 minutes or an hour, that's up to you.

Also, some of these photographs are not going to be things you want to see when you are eating lunch, of course. Ready to get started?

Officer , what is your next photograph?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Next photograph is Image Number 63. This is again, what I took an overall photo and what we are going to zoom in on is hand impression that is on the rear of Darren Wilson's police car. This is from east looking west on Canfield. This is my crime scene van at the edge of the crime scene.

Q (By Ms. Alizadeh) Okay.

A Image 64, rear of the vehicle, the rear glass of the vehicle. This would be kind of the left side or driver's side of the vehicle on the rear lift gate.

Again, it is hard to see from this, not only this photograph but kind of this angle it looks like a couple handprint impressions kind of on the glass.

65. What I did in this image is I moved just to my left a little bit to combat the reflection of the sunlight, daylight that was there to get a better image of what I was seeing in person to describe what this is. It is not a bloody handprint, it is not a muddy handprint, it would be if the window was clean and somebody slapped a wet hand on there and went down a dusty road, all it is is a dust impression of a hand.

After I photographed this, almost

0cf60cba-a00f-4859-9745-afcc42b4708c

immediately a Ferguson officer, I don't know who, came up to me because they noticed me photographing this and were trying to figure out does this apply to the scene? Does it not apply to the scene? I had noticed it and considered I better document it. After I photographed it, somebody came up to me from the department and goes hey, just so you know, Darren was told during roll car to get his car washed because the sergeant saw the handprints on the back window.

It was obviously deemed at that point not of evidentiary value to us, but I had already photographed it, so the picture shows what I took.

Q So had you thought that might have some relevance, you would have maybe tried to lift a print off of there?

A I would have done a number of things.

Q I don't want you to belabor it, you didn't act any further on this handprint because it was told to you it was there earlier in the morning?

A Correct. We did nothing other than the three photos that you just saw.

Q Okay.

A Image 66, this is just an overall view of the vehicle itself. I think if I remember the time

0cf60cba-a00f-4859-9745-afcc42b4708c

limit correctly, we were told that the tow truck was close trying to gets its way down Canfield so we can tow the vehicle away.

Image 67. Same thing. Just overall image of the vehicle before we were getting ready to tow it.

Image 68. Right before this image was taken, my chain of events kind of got scattered. I would have typically have continued photographing the vehicle and then once it was towed I would have taken a picture of where the vehicle was at right after it had been removed.

Someone, I'm not sure who, be it family member or someone in the crowd, had tore down some crime scene tape and a few people ran into near the crime scene. The decision was made then that we needed to stop our order of events, how we typically process a scene and we needed to get the body photographed and get the body moved immediately.

Typically what you would see in the beginning of the photographs were I had the overall, the intermediate and close-up view of each individual piece of evidence, that got thrown out the window.

We not quickly ran down, but we had a

0cf60cba-a00f-4859-9745-afcc42b4708c

large crowd that had gathered now at the end of the crime scene near Michael Brown. The apartment buildings that you can see on either side, one in the front, there is one obviously behind me where I'm taking this picture. Those were filled with residents on the three stories of the stairwells. There were people on roofs, people had started to line the crime scene from the side not being blocked.

What we decided on doing is the medical examiner, I think the fire department that was there had sheets and some tarps that we were going to use because the crowd at this point were starting to chant, kill the police, numerous other derogatory things towards everything about us. And we fully expected another, I don't want to use the term riot, but an outburst once we did uncover the body and begin to move it.

We made the decision to use the sheets and tarps the best we could to block the view of everybody that was trying their best to get in the crime scene and see what was going on.

Several officers that were there, I would say probably 10 to 15 officers grabbed the body screens, sheets, and tarps, and not just held

0cf60cba-a00f-4859-9745-afcc42b4708c

them on the ground, but held them up above their heads because the apartment buildings were very close to where we were at.

It is hard to really get a perspective from this view how close those buildings were to the scene. We had people on the third floor apartments that could see straight down, and people on roofs that could see straight down.

So we had people in close proximity of the perimeter of that body holding screens to try to block us while we're working and still trying to protect the crime scene as well.

Q So this blocking maneuver I'll call it that you did, was this done so that you were hiding some of the things that you were doing or was this done so you could avoid inciting the crowd with what they see when you remove the sheet?

A It was strictly done to avoid any type of emotional response that we were expecting to happen when the body was uncovered.

Q You also refer to the medical examiner being there?

A It was medical examiner field investigator, not one of the pathologists.

Q Do you know which one it was?

A

Q So after this photograph, and you said that you, it disrupted your normal course of order?

A Yes, ma'am.

Q So you can go ahead and talk about the next image.

A 69. The first, the previous photo would be the overall view, this would be just the intermediate view of me stepping closer to the body. Again, just kind of drawing your attention to what we are getting ready to photograph.

Image 70. This image, obviously, Michael Brown has been uncovered, the sheets have been moved from here to this end of the body, you can see now people's feet, which I would typically just out of habit try to keep people out of my photographs, but again, I'm standing in between policemen now, kind of my back against, with the scene secured and kind of collapsed down on top of us to shield the public's eye.

Image 71.

Q Can you turn it?

A Yes, I'm sorry. Just like I would normally do at the beginning of the scene taking overall views from all the way around what I'm

0cf60cba-a00f-4859-9745-afcc42b4708c

trying to show you. I do the same thing with a victim or Michael Brown.

So before I was standing over here on the right side of the picture looking this way, now I'm looking at his feet, I'm standing on the eastern end looking to the west.

Image 72. Same thing, the previous image I was standing probably on the double yellow line, now I've moved slightly to the south and again you can see the feet of the policemen that are standing around holding the screens.

Image 73. I'm on the south side of the street looking north and again just kind of an overall intermediate view. This picture in particular you can see that I cut off part of his foot in the photograph.

Q You mean out of the frame of the photograph?

A Out of frame, I did not cut part of his foot off. In the photograph his foot is out of the frame.

Q You see the white sheet is still above his head?

A Yes. Image 74. Corrected the previous photo by including his entire foot in the frame.

Image 75. An overall view, again, I put in the center of the overall view kind of where I'm going with the next information so this would be in our processing of the scene. We do as many face shots and identification shots as the body is found.

Q Now, when you are processing a death scene, is it common place when you first see the body and document it that there might be evidence of medical intervention, people that might have been to a scene and tried to provide medical aid to a victim?

A Yes, ma'am, anything from people being intubated with a breathing device, to clothes being removed for CPR purposes, to just the simple EKG type of devices attached to the feet to check to see if there is a heartbeat.

Q In your experience in those circumstances that when there is some type of medical intervention, when the medical personnel are done, they leave those devices at the scene?

A They do, yes.

Q Did you see any evidence of medical intervention?

A No.

Q And his clothes didn't appear to have been

0cf60cba-a00f-4859-9745-afcc42b4708c

cut off or in any way moved or removed that you could see where there would be leads placed on his body?

A No, ma'am.

Q Okay.

A Image 76. Intermediate view Michael Brown's shoulders and face.

Image 77. This would be the close-up view.

Image 78. Again, an overall view and in the center of the screen I see his right hand and injury defect to it.

Image 79, what I would determine an intermediate view of his right hand and the defect.

Image 80. Moving farther up the right arm, that would be a defect injury to his right forearm.

Image 81. This would be kind of moving back again, as far as my perspective because I'm starting to show the tattoo and injury to the inside part of his right arm.

Image 82, image of the defect to the inside of his right arm, all of these series of photos I'm showing you. It is the body as it is uncovered to me. He has not been moved, manipulated

0cf60cba-a00f-4859-9745-afcc42b4708c

with me or by any of the medical examiner investigators.

Image 83. Photo of right arm again showing visible tattoos that we can use for a positive identification. If we have family members that are there that can say oh, yeah, he has a tattoo of this on his arm or this on his leg, stuff they told us to look for that we can use for identification purposes.

Image Number 84. Overall view and what we're looking at here is tattoo on his left arm.

Image Number 85. Tattoo on the inside of his left arm.

Image Number 86. This would be a view of Michael Brown's back. This is a standard photograph that we take as part of every death investigation, be it an overdose or child death or anything else, we always show lack of injury as well. So this is the medical examiner investigator lifted up the back of his shirt just to show no injuries were present there.

Image 87. This image is showing an overall view specifically as to the location of Michael Brown's left hand. These are again a set of

0cf60cba-a00f-4859-9745-afcc42b4708c

images that were requested by the detectives after they had spoken with Darren Wilson and we kind of had a brief, we had his first initial statement they requested these photos as part of his statement. He had said that Michael Brown had come back towards his direction with a hand stuck into his waist band, as if --

Q Don't speculate about what as if, this was information that you got, not directly, from an officer?

A I did not speak to Officer Wilson, I still have not to this day.

Q This was a third hand?

A A detective that had spoken with him that was now back at the scene giving us things to look for.

Q This is the reason for the photograph, you are not drawing any conclusions or assumptions from that information, correct?

A Yes.

Q Now, in this photograph you can see yellow lines that are around his extremities?

A Yes.

Q What's that for?

A As part of any scene, we talked about the

0cf60cba-a00f-4859-9745-afcc42b4708c

diagram that you guys have the placards are always left in place even after we collect the evidence. The last thing we do is diagram the scene part of the diagramming of any death scene is where the body position was.

Everyone has seen the old fashion silhouette still laying on the ground, those are paper and they move, particularly outdoor scenes. We take chalk and we outline the location of the feet, hands and head where we have those permanent chalk marks, not permanent, but chalk marks on the ground while we were there to measure his location from after he is removed.

Q Those are marks that you make?

A Yes.

MS. WHIRLEY: And this is Sheila Whirley, was Darren Wilson on the scene when you arrived?

A He was not.

MS. WHIRLEY: Okay, okay. You said you investigated several police shootings?

A Yes, ma'am.

MS. WHIRLEY: Is that unusual for the officer who is involved in the shooting to not be on the scene?

A No, ma'am.

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. WHIRLEY: That is pretty customary?

A It is a lot of protocol from many departments is the officer that is involved typically leaves almost immediately once they are able to.

MS. WHIRLEY: Okay.

A Image Number 88. Intermediate view of the location of his left hand and arm, or the position.

Q (By Ms. Alizadeh) This yellow right here, that's not your chalk mark, is it?

A No, ma'am, that's the inside, that's the yellow dividing line for the road. There should be a chalk mark that we can kind of see here denoting where his hand is.

Q Okay.

A Image 89. Outside of his shirt being lifted up in the back by the medical examiner investigator, this is the first time Michael Brown had been moved. He was rolled onto his right shoulder, again, showing the positioning of his left arm.

Q And you were there when the medical examiner rolled him onto his shoulder?

A Yes, ma'am.

Q Are you familiar with what rigor mortis

0cf60cba-a00f-4859-9745-afcc42b4708c

is?

A Correct.

Q Did you, do you believe that rigor mortis had set in on the body of Michael Brown at this point?

A Yes, ma'am.

Q And when the medical examiner --

MS. WHIRLEY: Medical investigator.

Q (By Ms. Alizadeh) Medical examiner investigator turned him over, did his limbs stay in the positions that they were when he was on his front?

A They did, and you can see that not only from the position of his arm, his leg is still up and his head is not moved down.

Q So this is hand?

A I believe, is the blue glove.

Q Okay.

A The white glove is an employee of the St. Louis Delivery Service, which is the company the medical examiner's office uses to transport Michael Brown.

Q So is this officer trying to place his arm in a particular position by, in this photograph or is that the way his arm was when he was rolled over?

0cf60cba-a00f-4859-9745-afcc42b4708c

A His arm stayed in that position from the time he was rolled over until the time we rolled him over onto his back.

Q Okay.

A Image 90. Previous to overall, this would be an intermediate, again, showing the position of his left hand.

Q And you did not witness anyone manipulate that in any way did you?

A No, ma'am, other than just rolling him onto his right shoulder.

MS. WHIRLEY: His hand, it seems like it is balled up, this is Sheila Whirley, there was nothing in his hand though?

A Not that I saw at the scene, no.

MS. WHIRLEY: Okay. And you would have noted if there was something in his hand?

A Typically, yes. The body itself belongs to the medical examiner. What we investigate on the body at the scene is very minimal compared to what they do at autopsies. If there was a knife sticking out of his hand, something that is protruding, I would have been able to see that and document that if there was something clenched inside of his hand, that is not something that we would pry his hand

0cf60cba-a00f-4859-9745-afcc42b4708c

open to see at the scene, that would be something that is done after the body arrives at the morgue.

MS. WHIRLEY: I understand if there was a weapon in his hand, you would have seen it.

A Yes, ma'am.

MS. WHIRLEY: And there was not?

A No.

Image 91. Michael Brown is now rolled completely over onto his back. Again, you'll see the overall photos of me walking kind of a 360 degree area around the body. The sheet that he's laying on is not one of the sheets he was covered up with, this is a new sheet, and lack of a better term, body bag brought in by the medical examiner.

Q (By Ms. Alizadeh) This thing right here, this blue thing right here?

A You will see that in, a couple of the images, that is a handle for the bag to pick him up, it is to assist in carrying people.

Q Okay.

Would the old sheet that we was on, would this have been collected as evidence as well?

A I was asked that yesterday. I did not collect it, I can't say with certainty, but I am

0cf60cba-a00f-4859-9745-afcc42b4708c

assuming those type of things typically go into the body bag and go to the morgue.

Image 92. Overall view of the previous one was from like his feet looking towards his head, this side view. Again, better image of that blue material you see was a handle for the body bag.

Image 93.

Q (By Ms. Alizadeh) Can you turn it?

A I'm sorry.

Q No, the other way, you're not on, turn it around, there you go?

A Okay. Again 360 degree view from his head looking towards his feet. Again, you can kind of get perspective now the policemen that we had blocking the scene.

Q You see those weighted sand bags along here for the body screen?

A Yes, just like we saw in the previous images at the beginning of my photos where that weight was kind of left in the middle of the street.

Q Do you know what this is right here?

A I think that's another sheet that had been used to cover him or part of it. There was more than one sheet that had been used to cover him up.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q All right.
A 94.
Q Can you turn it, the other way, there we go.
MS. ALIZADEH: That means your food is here. So maybe we'll try to finish with the images of the body at the scene, six?
A Five more.
MS. ALIZADEH: And break for lunch, is that all right with everybody?
A Again, just overall view of the body, kind of the exact same position. This may be one of those things where my camera clicked twice. I know at this point there is some items sitting on his stomach, this is where the investigator from the medical examiner's office had removed some items from his pocket to show what he had in his pockets there.
Q (By Ms. Alizadeh) Now, is it typical at a scene that do you ever go inside the pockets of the deceased person?
A No, again, in the State of Missouri the deceased body belongs to the medical examiner's office in St. Louis County or to the coroner in different counties, however they are titled. Body

0cf60cba-a00f-4859-9745-afcc42b4708c

belongs to them, that includes stuff that's in their pockets, their clothing, everything.

We, myself personally, never touch a body physically unless I'm at the autopsy and I'm fingerprinting the deceased or anything like that. But as far as searching of the body, that is strictly done by the medical examiner investigator.

Q Were you present when the investigator searched the body of Michael Brown?

A Yes.

Q Did you see him remove items from his pockets?

A I did.

Q Did you see him place the items on, I guess, I would say the belly of Michael Brown?

A Yes.

Q Is that something that's typically done that the items were placed on the deceased body?

A Given space and time, they are either placed on the body or if it is a large amount of things they would be placed directly next to him where I would photograph him and those items are just returned back into the pockets of the deceased.

Q Okay.

A Image 95. Again, identification purpose

0cf60cba-a00f-4859-9745-afcc42b4708c

photos, he's now been rolled over the other side of the face is what I photographed before because this was the size that was down against the pavement. So now I'm taking my overall intermediate views of the side of the scene.

Image 96. Intermediate view of Michael Brown's face.

Image 97. Just like on his arms in the previous photos where I did the overall intermediate close-up views of any visible defects or injuries. This is close-up view of a visible defect and injury to his face.

Q Now, can you tell me what portion, I mean, the bridge of his nose?

A The bridge of his nose, this would be his left eye.

Q Okay. And you're standing above his head?

A Directly above him pointing my camera straight down.

Image 98. Intermediate view of items removed from his pocket by

And Image 99 would just be a close-up view of those items.

Q Now, did you seize those items?

A No, ma'am, I did not.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q And that's because you said these items belong to the medical examiner's office because they were on the body?

A Correct.

Q Did you handle them in any way?

A No, ma'am. Image one --

Q Let me stop here. The items that were photographed on Michael Brown, did you observe put those items back in the pockets?

A Correct, yes.

Q Where he got them out?

A I did.

Q I think we are done.

A He's been moved now.

MS. ALIZADEH: So we'll stop right now for you guys to have lunch, okay. I would just, I'm going to take the photographs that we haven't discussed with me, these I'm going to leave here. Do what you will, but these have already been, you know, looked at by you. I would suggest that you just have a lunch and not go over any of this stuff, but if you desire to do so, they are here, okay? And let you take that.

And it is 12:33 approximately, and we will break for lunch. Why don't you guys let

0cf60cba-a00f-4859-9745-afcc42b4708c

know.

MS. WHIRLEY: It is 12:05 p.m.

MS. ALIZADEH: Okay, sorry about that.

(Recess)

Q (By Ms. Alizadeh) So Officer or Detective this is a continuation of your testimony from this morning.

A Yes, ma'am.

Q So you are still under oath, you understand?

A Yes, ma'am.

Q And so we're going to resume again with the remainder of the photographs that you took during your investigation of the crime scene.

So you can resume with the next photograph?

A Image Number 100. This is a standard photo that we take during any death investigation photograph of where the body was after it had been removed by medical examiner personnel.

What you can start to see in this photograph are again the chalk markings we put in place while the body was still there for our measurement points. Also you can see an evidence placard here again, once we collect evidence, the

0cf60cba-a00f-4859-9745-afcc42b4708c

placard is left in place for us to measure and diagram from later.

Q Now at this point, have you collected all of the evidence?

A At that point we had collected everything that we had found. I had mentioned before in an ideal world you see the overall, intermediate and close-up view of each individual piece of evidence. The shell casings, projectiles and some other items of evidence that were around the body in the chaos of the gunshots being fired near us, people tearing down our crime scene tape and coming in, those shots were missed, the photographs, the images, I'm sorry, were not taken prior to us picking up those items of evidence. We got them out of there to protect those pieces of evidence and just didn't get photographs of them.

Q But you did document them in your diagram, correct?

A Yes. The last photo, the previous one that was up there you can see the evidence placard is still there. You will see it in some of the following photos too, you will see the yellow evidence placard still in place.

Item of evidence won't be sitting in

0cf60cba-a00f-4859-9745-afcc42b4708c

front of it, but the placard is still where the item was located for measurement purposes.

Q Now, something that we talked about this morning, and you and I had a brief conversation out there about something that you recalled, I asked you earlier when you were photographing the body of Michael Brown up close and going to start moving the body, uncovering it and moving it, you had officers that were shielding you with sheets and tarps?

A Yes, ma'am.

Q And the body screens that you call them?

A Yes.

Q I had asked you if that was done to conceal what you were doing from public view and so that people wouldn't see what you were doing?

A Right.

Q And you had described that's not the purpose for why you were being shielded, was there any civilians who were allowed inside that shielded area once you uncovered the body of Michael Brown?

A Yes, after we had put the shields up, the tarps and the sheets to block the outside people looking in from above our vantage point, Michael Brown's father, Michael Brown, Senior was allowed inside the crime scene and actually inside the group

0cf60cba-a00f-4859-9745-afcc42b4708c

of tarps to witness and observe what we were doing. That served multiple purposes, primarily to provide positive identification. Would be no different from any other homicide scene where we would have a family member provide us with identification once we do go in and uncover the body and everything else, just like the photographs that I showed you of the tattoos on his arms, those were things that the family told us to look for when identifying him, but it served no other purpose than letting him observe what we were doing and give us positive identification of his son.

Q He wasn't allowed to touch anything in that inner circle as you called it?

A No, ma'am, he stayed basically on the inner perimeter that we had created.

Q Did he positively identify the body in the street as his son?

A Not to me personally, but to the detective he was with, yes.

Q Did he remain in that perimeter for the duration of the time that Michael Brown's body was on the street?

A Yes.

Q And after he was removed by the delivery

0cf60cba-a00f-4859-9745-afcc42b4708c

personnel, did he then leave the scene?

A He did, left the inner perimeter.

Q Right, okay, you can continue with the next photograph.

A Image Number 101. Same thing as before showing the 360 degree views of what we're looking at. Again, chalk marks on the ground that are labeled right foot, left foot, see the chalk marking there for the right hand and here for the left hand.

Image 102. Same thing as before, north side of the street looking south again, feet and hand chalk markings. A couple things you can see in this photograph are number one, a pile of blue tarps on this side. Those are some of the tarps that we used to shield the view of the public that was around us. Wrapped up in there are some white sheets that were used as well to shield the views, not the ones that I know of that were used to cover the body.

Also things that you see in this video here are, image right here is a box that we use to hold our placards and a large 250 foot yellow measuring tape. Just things we were getting ready to do the diagram of the scene.

Also you can see in this photo these

0cf60cba-a00f-4859-9745-afcc42b4708c

placards over here next to the different cones, those are placards that again don't have any intermediate or close-up views of the evidence item that they were marking the other side, the placards were left in place for diagram purposes.

Image 103. Same angle as before, just an intermediate view of the chalk marks and where Michael Brown's body and everything. It is hard to tell, that is an initial for RH, the right hand.

. Officer all of the casings were retrieved?

A Yes, I'll show you the rest of them when we get towards the end.

Number 104. Close-up view. Again, in the actual photograph it shows that is an R and that is an H, just denoting our chalk mark of which body part is shown.

Image 105. Again, chalk marks for the bottom and the feet, LF left foot, RF for right foot.

Image 106. Closer image of the same left foot and right foot chalk marks.

Q (By Ms. Alizadeh) Let me ask you because and again, it is not as clear up on the screen, but

we talked about yesterday that, for example, what is that thing right there?

A Oh, you will see this in a couple other ones, that is a cigarette butt. On the street in a couple images that you will see and a couple more slides, you will see other cigarette butts within the scene. Those were deemed as not evidentiary, they were cigarette butts and trash that litter this entire street.

Some scenes, obviously, those are important DNA evidence, this scene there is no part of the case up and even to this point where at the scene we knew or thought that a cigarette butt had anything to do with the incident.

Q So you didn't collect any cigarette butts?

A No, ma'am.

Q They were just there?

A They were left at the scene.

. Were there any droppings between the officer's car and the body?

A What type of dropping?

Blood droppings?

A No.

Q (By Ms. Alizadeh) There wasn't?

0cf60cba-a00f-4859-9745-afcc42b4708c

A No. I walked from my crime scene van to where the body was that day no less than 50 times. Along with the other three detectives, my detective sergeant and countless other crimes against person homicide detectives, and no one saw any, no one noticed any, we looked, nothing was ever found between the officer's car and where Michael Brown was.

: . What's the distance between the police car, the officer's car and the body, do you know?

A 153 feet 9 inches. It is noted on your diagram. If you look on your diagram.

MS. ALIZADEH: Page two of your diagram.

A Page one.

MS. ALIZADEH: All right.

A It is noted in the drawing you will see the bottom line on Canfield and you will see the number 152 feet 9 inches noted in there, that is the distance between the driver's front wheel of Darren Wilson's police car and Michael Brown's head location. That's the distance between the two. And that measurement was taken specifically from a baseline measurement of where Michael Brown's head was located when we marked it and where we marked,

0cf60cba-a00f-4859-9745-afcc42b4708c

chalk marked the officer's tire of his car, that's how we came up with that.

The position that you find Mr. Brown face down?

A Yes.

Was looking to the police car?

A Correct.

Thank you.

A Sure. Image 107. 107, again another overall view. Overall picture of the chalk mark where the left hand was at. Again, another evidence placard here with no evidence next to it, just marking the location of where it was collected.

Image Number 108. Close-up view that is an L, that is an H with an indicator line and this is the position of his left hand again, cigarette butt that was left at the scene, just happen to be in this image.

Image 109. Just so I can figure out where I'm at. At this point in the investigation another crime scene detective had seized Darren Wilson's firearm. Up to this point we had no idea of knowing how many rounds he had fired. We were given the number and the number we had recovered at

0cf60cba-a00f-4859-9745-afcc42b4708c

the scene did not match the number that were missing from his gun.

Q (By Ms. Alizadeh) So let me stop you there.

A Yes.

Q His weapon was seized and we will hear testimony by other officers, you were told that his weapon was seized and that it was checked to see how many, you're familiar with his weapon?

A Yes, ma'am.

Q And it is?

A A Sig Sauer.

Q It is a semiautomatic?

A Yes.

Q It is the type of weapons that ejects casings when fired?

A Correct.

Q It is the type of weapon that has a magazine that holds ammunition that goes into the handle of the gun?

A Yes, ma'am.

Q And were you told how many, do you know how many rounds that gun will carry?

A They vary by model. I was told that their duty weapons that he used in this incident carries

0cf60cba-a00f-4859-9745-afcc42b4708c

13 rounds total.

Q And that would be how many in a magazine?

A Twelve in a magazine and one in the chamber.

Q In order to have a bullet in the chamber, an officer has to have loaded the magazine, rack the bullet into the chamber, remove the magazine and put in one more bullet in his gun?

A Yes, ma'am, that's correct.

Q That's fully loaded and one is ready in the chamber?

A That is it.

Q Is that how you instructed your charges when you are doing instructions at the range?

A Yes, exactly.

Q So that doesn't mean that somebody is out to shoot somebody, that is just how you were to have your gun fully loaded and ready to go?

A Yes, ma'am, that's how you go to work.

Q And so you were told how many live rounds were left in officer, in his gun?

A One live round.

Q And so that would leave 12 rounds possibly fired?

A Yes.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q And were you told that Officer Wilson had indicated that before this incident occurred, he had loaded his weapon and it was fully loaded?

A Yes.

Q At this point in the investigation, how many shell casings had you recovered?

A At this point we recovered ten shell casings.

Q Okay.

A We were looking for two.

Q And had you also been told now, initially would you have planned to process the inside of that car while you were at the scene?

A No.

Q Your intention was to have the car towed?

A Yes.

Q And it would be in a garage?

A Yes.

Q Away from the elements?

A And our crime lab in a secure facility to process the inside.

Q Were you told at some point that possibly his gun was fired while he was inside the vehicle?

A Yes, ma'am.

Q And so now getting back to where you said

0cf60cba-a00f-4859-9745-afcc42b4708c

you were interrupted what you had been doing, what event had transpired?

A At this point after the body had moved, we had learned the information of how many rounds he had fired, which were 12. We had found ten shell casings and we were continuing to look at the eastern end of the crime scene where the body was at. We were looking around the western end where the vehicle was at, unknown how many shots were fired at which location.

The vehicle was getting ready to be towed and to save us time spent here closing down this entire apartment complex, we were trying to determine if possibly the shell casings were inside of his police car because we hadn't been in to search it yet because we had made the determination to tow it and process it at our lab, but that could take a couple of hours from start to finish. In the meantime we could be searching for two casings that just left our crime scene.

So I talked with the detective that was going to process his car and we, not quickly, but we briefly opened the door where I photographed the hole that corresponds with the dent on the outside of the door and then we went through just

0cf60cba-a00f-4859-9745-afcc42b4708c

looking under chairs, looking in the cracks of seats, Darren Wilson's duty bag was in his passenger seat, we looked through it and I have photographs of all of that just showing what we took out of that car.

And not processing it for DNA, fingerprints and stuff like that. We were just simply searching for potentially two spent shell casings that we can't account for anywhere else at the scene.

Q So the next series of photographs show that part of your investigation?

A Yes, ma'am.

Q Okay. You can go ahead and continue.

A Photo 110. Overall view of the driver's side of the vehicle.

Number 111. Intermediate view driver's side front door.

Q From your earlier testimony we know that the window is not up on the driver's side door?

A At this point, we can obviously look into the vehicle.

Q Sure.

A But the window was not there, it wasn't halfway up or it wasn't up at all, it just was not

0cf60cba-a00f-4859-9745-afcc42b4708c

there.

Q Okay.

A Number 112. Video of the driver's side door open. This is just kind of showing our process, the outside door closed, now it is open.

Image 113. Same angle, just a different orientation of the camera.

Interior door panel.

Q What number is this?

A I'm sorry. Image 114, interior door panel. Overall view and again, you can see the placard is still on the ground there where evidence item two was at.

What we're looking on this overall view of the interior of the driver's door.

Image 115. Close-up intermediate view of circular defect to the inside panel of the driver door.

Q So this portion right here is like the arm rest?

A Yes.

Q And then this is the actual side of the interior of the car?

A Yes, ma'am.

Q Is that a hole?

A Yes.

Q Okay. It wasn't your job to process this interior of the car?

A I was simply documenting what we found on the inside.

Image 116. Just overall interior view again, now you can start to see this is pieces of broken glass, it is safety glass, most cars you see when it breaks, it doesn't break in big shards, small pieces of glass.

Image 117. A view of the upper part of the driver's seat. You can tell in this scene or in this picture that this is what is referred to as a cage car, metal cage is in the back seat where it prohibits these seats from being laid back basically or scooted back farther than this.

Q Is this barrier a cage or plexiglass?

A Plexiglass, the top half is glass, you can see here it is metal from here down to the floor.

Q So when you enter the vehicle, is this a sliding little window?

A I don't know.

Q Okay. Was it closed?

A It looks to be closed.

Q You don't recall if it was open or closed

0cf60cba-a00f-4859-9745-afcc42b4708c

and you didn't process it for that reason?

A No.

Q Did you look in the back seat?

A I did not.

Q For shell casings?

A We did open the doors and look, we didn't see anything.

Q Okay. For the purposes of speeding this through, did you find any shell casings inside the car?

A No, ma'am.

Q So these next series of photos, we will have somebody who processed the inside of the car who is going to talk about what he found inside the car, but this is just you documenting what you saw in the car?

A Yes, ma'am.

Q You didn't seize anything else from this car?

A No, ma'am.

Q So we can do these a little quicker.

A 118. Again, overall view from the driver's side.

Image 119 is an overall view from the passenger side of the vehicle. Again, evidence

0cf60cba-a00f-4859-9745-afcc42b4708c

marker where the bracelet was at is still in place and this is showing Darren Wilson's duty bag or gear bag and his rain coat.

Image 120. Darren Wilson's gear bag in the passenger seat. We are showing it because the rain coat and the gear bag were removed prior to the towing of the vehicle and given back to Ferguson Police Department.

MS. WHIRLEY: Sheila Whirley speaking, you mention duty bag and gear bag, are these the same thing?

A Synonymous terms, it is a bag that every policeman carries with him that has paperwork, forms, your lunch, your rain coat.

MS. WHIRLEY: Is this something that you looked inside?

A We expanded it just, and looked to the bottom of the bag to see if a shell casing had fallen inside.

MS. WHIRLEY: You didn't do a thorough search of it or anything?

A No.

MS. WHIRLEY: Okay.

A Number 121. Photo looking down into his gear bag.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q (By Ms. Alizadeh) Now, can you describe what this thing is here?

A It appears to me to be a wood baton.

Q That's something that some police officers carry?

A Yes. Image 122. The gear bag has been taken out of the seat and when it focuses in now, I'm just showing the rain coat or traffic coat lying in the floorboard. Most of these coats are reversible.

Image 123. The inside would be the bright yellow or traffic yellow color, you can turn that outside when you are directing traffic in the rain and inside, obviously, the exterior and that was removed, that was the last photo of his car.

Now, we're moving back to the eastern part of the crime scene. Image 124. Okay. I'll ask you to look at the diagram on page one so you can get a reference to where this is. On the far right-hand side you see two evidence bubbles labeled 19 and 20. If you look at the top part of this photo, I don't know if it is blocked by the camera, you can see a large red stain here in the middle of the road, that was the location of Michael Brown's head. Farther up the road here would be Darren

0cf60cba-a00f-4859-9745-afcc42b4708c

Wilson's car. So we are standing at the eastern end looking west. What these other items are, are two blood spatter patterns that are located farther east of Michael Brown's body on the ground.

Image 125.

Q Now, let me not correct you, but clarify, you said blood?

A I did.

Q You didn't test it?

A I did not test it.

Q So it is called red stains?

A Yes.

Q Somebody else will testify about what it was?

A It is a red stain similar to a spatter pattern that I would recognize as needing to be documented and possibly important to the case.

Q You've seen crime scenes before where there are blood trails or blood spatter, and you know that sometimes those spatters can give you some information about what was going on when that blood was dropped onto that surface?

A Yes, ma'am, I've seen it in several crime scenes. I've taken several classes on recognizing, interpreting and the correct way to document these

0cf60cba-a00f-4859-9745-afcc42b4708c

things. I am not a certified expert and I would never claim to be in pattern analyst.

Q So you recognize that these actual, what you call blood spatters, we think they are blood spatters at this point?

A Right.

Q That they needed to be documented?

A Yes, ma'am.

Q Okay.

A So this would be an intermediate view of 19. I know the other picture isn't readily available to give you an orientation, the point of this placard is pointed west down Canfield, if that makes sense.

So the stain was nearer his head?

A No.

So just the opposite?

A Just the opposite.

Can I ask one question. You talked earlier about a break in the investigation due to additional gun fire; is that right?

A Yes, ma'am.

Is that by citizens or

0cf60cba-a00f-4859-9745-afcc42b4708c

police?

A It was not by the police.

Not by the police.

A We don't know who it was.

That wasn't in the crime scene at all?

A No, it was from where I was standing, which in your diagram would be the building, the building on the south side of the road of it sounded like it came from directly behind that building.

So there is no way that this could have been part of this?

A No.

Okay.

A We had already identified, located this spatter prior to the second round of gunshots.

Image 126. Intermediate view of the spatter pattern and clarifying this end of this pattern would be closest to Michael Brown, this would be the farthest part.

Q (By Ms. Alizadeh) But Michael Brown's body is in between the blood spatter and Darren Wilson's vehicle?

A Yes, ma'am.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q So blood spatter is farther east from the body?

A Yes. These two spatter patterns are the farthest east evidence that we located.

Q All right.

A Image 127. Same thing, directly overhead view with additional scale laid in for analysis purposes.

Image 128. At this point I think this would be an intermediate view of the same spatter pattern. Again, with more than one scale to assist experts in size and shape.

Image 129. Similar photos before, different orientation of the camera.

Q And so the placard and that scale?

A Has not moved since the previous photo. Basically the photo before, if you can picture I'm standing facing directly west, now I've oriented myself where I'm facing south and the placards are still in the same direction.

Image Number 130. At this point I have switched camera lenses to what we will refer to as a prime lens. The lens I typically use for overall photos is 18 to 35, kind of a wide angle lens. I switched to a 60 millimeter lens, which is

0cf60cba-a00f-4859-9745-afcc42b4708c

a fixed focal. It is something where you can get close-up images of something with great detail. It doesn't zoom in or zoom out, it only focuses at fixed length. It can focus in really close to small objects to find greater detail.

Q And although you can't see the placard clearly, that's number 19?

A Yes, ma'am, still number 19.

Q All right.

A Image 131. Again, the overhead projector isn't showing a lot of detail, but this is just a close-up image of number 19 still, and I'm focusing on the scale to show, an analyst would describe as a tail of the red spatter pattern.

Q And that's also 19?

A Still 19, yes, ma'am.

Image Number 132. Now we've moved back to image, I would have to go back to the overall one first, number 20 is an overall position.

Q You want to look at your diagram?

A I need to see the overall of the two placards together. Number 20, in the overall. Can I put this back up?

Q Sure, but say the photo number.

A I'm going to put Image Number 124 back up

0cf60cba-a00f-4859-9745-afcc42b4708c

just to show you the orientation of the placard. Again, the corner arm of the placard is facing back towards Michael Brown's body and Darren Wilson's police car.

Now, going to Image 132, so this pointer arm of the placard is facing west. I'm standing on the north side of the road looking south to take this photograph.

Image 133. Intermediate view again. The placard is facing west again looking at this red stain pattern.

Image 134. Again, evidence item number 20, red stain pattern still standing on the north side of it looking south.

Image 135. Same perspective, I've now added a second scale to reference size and shape.

Image 136. Again, here I switched back again to my macro lens or my prime lens to show up close and with greater detail the tailing pattern of the spatter.

Q And that's item number 20?

A Still item number 20, yes. Image 137. Still on evidence item number 20. Again, another photo, same reference as before.

0cf60cba-a00f-4859-9745-afcc42b4708c

Image 138. Still evidence item 20, yet closer view of a tail.

Image 139. Scale in the previous photo, this scale was referenced this direction. I moved the placard out of the way and referenced this scale to the bottom of it to give you a reference point. This is on the, this is the eastern end, this up would be the north, I'm sorry, to the west back towards Michael Brown's body.

Q Okay. Now, regarding these two red stains, 19 and 20, did you seize them and package them?

A Yes, I seized a sample of them.

Q Was it in a similar, same method that you described seizing the red stain on the side of the vehicle?

A Yes, ma'am. Sterile Q-Tip with sterile water and then put into its own individual packaging box.

Q And those are still labeled items number 19 and 20?

A Yes, ma'am, sample of item 19 and 20.

Q So in this case, you didn't consume the whole stain?

A No, ma'am, it would be enough to fill a

0cf60cba-a00f-4859-9745-afcc42b4708c

Q-Tip.

Q And you know you don't need more than a small amount for testing purposes?

A Yes, ma'am.

Image Number 140. Basically this is a photograph showing how I have reorientated the scale that you saw in the previous picture. This way, I'm sorry, again you can see the placard for 19, which is this other splatter pattern, and 18 is a placard for a piece of evidence that had already been collected, but the placard is still in place.

Q Item Number 18 would have been listed on your diagram as to what that was?

A Yes, ma'am, I believe item 18 was another spent Federal shell casing.

Image 141. Same thing as before, it is another image showing how I moved the orientation of that scale reference item 20.

Image 142. Just like with the previous scale of photos, I go from my intermediate, my overall, to my intermediate, again, this would be the intermediate showing the new reference point or orientation of the scale.

Item 143. This is a photograph, again, I had switched to my macro lens and took the

0cf60cba-a00f-4859-9745-afcc42b4708c

photograph with the scale below, the photograph here. It did not show up in the frame.

Q And this is item 20 still?

A Yes, still item number 20.

Image 144. The same shot as before with the scale in the frame.

Image 145. This image shows several things. This is the overall image of evidence items 21 and 22, which we found and you will see in the next few photographs, the final two shell casings to get to 12 shell casings. The first thing you will see in this image number one is the Ferguson car is still here, we have pushed the crime scene back at this point in time. Here again is the pile of tarps and sheets that we used to shield the view of the public. You can also see these are evidence placards for 11 and 12. Those are other shell casings that we found previously and had already collected.

This is the end of our, towards the end of my investigation here for physical evidence and it shows that we never stop in the order that we find them. Obviously, 11 and 12 wouldn't necessarily be next to 21 and 22, with 15 being over here. It is just the order we found it at. The

0cf60cba-a00f-4859-9745-afcc42b4708c

very end of the crime scene we finally focused the time finding those last two shell casings we found them over here in the grass.

Q So just because it is not clear on the overhead, what is that one?

A That is the placard for evidence item 11.

Q And that is?

A Twelve.

Q Is this a placard?

A Yes.

Q What is it?

A That is 22.

Q What's this one?

A That's 21 is the farther one away. We found 21 first and then continued looking and we found 22 closer this way.

Q Okay.

A Or closer to the west.

Image 146. Almost identical to the previous photo, just kind of an intermediate view.

147. Intermediate view of the placard for 22.

148. Same thing, intermediate view of the placard.

Image 149. You can see this is a

0cf60cba-a00f-4859-9745-afcc42b4708c

close-up view still of the placard number 22 and if you can see, which is hard to do, this round object here, that is the very opening of the spent shell casing.

Q It is easier to see on the photo?

A It is a lot easier to see in the photograph, and it can also show when they are sitting straight up like that, impossible to see with the naked eye.

Q How is it that they found this?

A Three of us were on our hands and knees with gloves on just patting our way through the grassy area to feel a rock or a hard object, you dig down and we were able to locate the shell casing.

Image 150. Overall view again. The placard for evidence item 21, there is the pile of blue tarps, we are moving farther to the east on Canfield here. The Ferguson vehicle still on the scene.

Image 151. Intermediate view of the placard.

Q Can you see the casing in that image?

A Not yet.

Image 152. Closer up. You can start to see silver edge here buried in the grass.

0cf60cba-a00f-4859-9745-afcc42b4708c

Image Number 153. There's our close-up view and there you can still kind of make out the edge of a spent shell casing.

Q And that's item 21?

A Yes, ma'am.

Q Now, so the total things, you seized all 12 shell casings, correct?

A Correct.

Q Now, what is a projectile?

A Projectile would be the term of the bullet that is fired from a shell casing, the piece of a cartridge that comes out of the firearm that would be the projectile.

Q Did you seize any projectiles or partial projectiles?

A Something I would refer to as a parent projectile.

Q Was that one of the items that you had to collect primarily, you had a chance to do a close-up and intermediate photograph?

A Yes.

Q What number was that on your diagram?

A It is item number 17, and in your diagram it is the north side of Michael Brown's right foot on the ground next to him where you see the number

0cf60cba-a00f-4859-9745-afcc42b4708c

seven, the small bubble that says 17, what I collected as an apparent projectile.

Q Someone you also conveyed that as well as the samples of the stains, 19 and 20 and number eight and number nine, those all went to a lab for somebody else to analyze, correct?

A Yes.

Q Any other projectiles recovered at the scene?

A No.

Q And again, other than crawling on your hands and knees, you ever like get metal detectors out there and try to recover projectiles?

A Every crime scene van is equipped with a metal detector. They're primarily used for finding shell casings and heavily grass areas or other pieces of metal evidence. We have used them before to look for projectiles, we understand that when a bullet is fired, a projectile doesn't stop necessarily for a lot of things, including the earth.

Where we would see what looks like a bullet may have skipped into grass and you would swear it has to be there. It could have skipped and gone up and farther away, or if it is fired into the

0cf60cba-a00f-4859-9745-afcc42b4708c

ground, it is going to be so deep, it would take a lot of manpower and/or just work to get it out and not guarantee that you will actually be able to recover it.

Q I guess for the sake of understanding this, when shell casings are ejected, you know they travel in a predictable direction and somewhat in a perimeter that doesn't go beyond a certain area, like you are not going to look in the next block for a shell casing?

A No, not for a shell casing.

Q Right. They tend to be somewhere closer to the crime scene or to the point where they were ejected from the gun, correct?

A Yes.

Q But projectiles, would it be safe to say, that could be two blocks away?

A And then some, yes.

Q Okay. You may continue. In this regard, did you search the rest of the area, including buildings and trees and objects to determine if you could find a projectile that might have become embedded in something?

A This next set of photos, yes, we searched one spot.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q All right.

A Image 154. This is the front building of Canfield, which if you want to look at your diagram, it would be the building on the southeast part of the crime scene.

I would be close to where the orientation of this, if you look at this window here, this window right here is where we were eventually heading to in this photo sequence. To reference where we're at, straight out here into the middle of the street is where Michael Brown's body had been to orient you where this photo was taken.

Photos 155. Close-up view of the address plate.

156. Is a closer up view.

Image 157. Again, this part of the building right here is where I just took the image of the plate and now we are looking down here at this window in particular.

: Did you say that apartment is due north of where Michael Brown's body was found?

A South side of the street.

South side.

A The building that is on your diagram.

0cf60cba-a00f-4859-9745-afcc42b4708c

MS. ALIZADEH: .

A , but it is the southeast corner. That is not to scale.

A It is not to scale. Okay.

A We put that in two spots. That's what accident reconstructionists do when we draw these, we are not accident reconstructionists. Okay.

A Image 158. Intermediate view of that apartment window, and what we are looking at here is a defect into the siding.

Image 159. Same window, same defect.

Image 160. Just a close-up view of this defect. At this point in the investigation, we recovered all the shell casings, the spent shell casings and the number, the 12 that we needed to account for.

This was a defect that was brought to our attention by a witness that from what I can testify to wasn't there when the shooting occurred, but lived in this building and brought this to our attention. I think there is a bullet hole in our siding.

So we go up to look at it after this

0cf60cba-a00f-4859-9745-afcc42b4708c

photo was taken. I took out about a 6 foot section of her siding and the insulation that's on it. Behind it is three quarter inch of plywood and then in between the plywood there's about a 4 inch gap and goes into solid concrete cinder block wall.

I could see inside of it that whatever that was that caused that hole was not sitting behind there and this was above the window and it was open behind there.

To continue to look for apparent projectile that might be in there I would have to remove that siding all the way around to that window, the plywood all the way around and cause significant damage to that apartment building.

Again, without guaranteeing any hope of actually finding something because I've done this more than once into just a drywall piece where you see this and you take it all out and realize that it just caused that hole and skipped off somewhere. I've also seen where things have gone through something like that three or four layers of wood, hit something concrete, you get it, it just looks like a penny and it just smashed.

And the firearms ballistic expert will testify that sometimes bullets get mangled to

the point you can't confer anything from this then. So we made the decision at that point, after I had removed the siding to not do any more damage to this lady's outside of her apartment.

Q (By Ms. Alizadeh) And, in fact, you don't know that that was even made by a bullet?

A No, no.

Q Could be a woodpecker?

A Anything. You can tell it is not exactly a round defect, which is something you typical see with a firearm. Not to say that a firearm couldn't do that, but it could have been anything. There was no guarantee or eye witness that said I was standing here when this happened and this is brand new damage.

This, in fact, we walked around that immediate apartment complex and found a few other damages and defects to siding that had cobwebs on this and could tell they had been weathered or old from the time we were there.

Q You did search the surrounding areas and you were not able to find any other apparent bullet holes and no other projectiles?

A No, ma'am.

Q And then your last?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Final photos is Image 161. I explained at the beginning this would be the first and last photos that we take in our memory cards for our photo technicians when they look at our files to know what the beginning and ending of the scene is.

Q All right. I have two other areas to cover very quickly. Going back to Grand Jury Exhibit 2, this is your diagram. So you've already testified that one of the last things, let me ask you this, after you've done the photographs and seized all the evidence that you described, what's the next thing you do?

A Now we start diagramming.

Q Okay.

A Photograph our evidence, selected our evidence, accounted for every piece of evidence that we know of at the time. The body has been moved, cars have been towed, we go back now to diagram the scene.

Q All right. Now, on Grand Jury Exhibit Number 2, is this the diagram you made of this scene?

A Yes, ma'am.

Q And so we referenced this before, you have here not to scale?

0cf60cba-a00f-4859-9745-afcc42b4708c

A Correct.

Q What does that mean, not to scale?

A The items in this photo that are not to scale would be obviously number one, the size and shape of these apartment buildings, we have them just as plain rectangles. The size and shape of the width of the road as compared to the size of the vehicle.

If you look as far as scale drawings go, this vehicle is the same size as Michael Brown here. Those things are hard to do with the software we're given and the tools that we use as crime scene detectives to draw into scale on a CAD type drawing.

Also the size of this entry point on Caddiefield, the driveway is not the same size as this one. They may be in real life, but whether we measure to scale or measure for our plotting purposes of evidence, we don't measure those types of measurement.

You can see down here in the lower baseline starting at 0.0 feet.

How we do the diagrams is I took a long screwdriver and at the corner where Copper Creek Court comes into Canfield, I drove a screwdriver down into the dirt and hooked my 250

0cf60cba-a00f-4859-9745-afcc42b4708c

foot measuring tape and 0.0 there. Then from the edge of the road from Canfield, run from 0.0, we run that tape measure out as far past our last piece of evidence that we need to. If you look on page two of the diagram, it has the measurements and lists of evidence that was collected.

How this is measured and the reason why we do this diagram is one, to kind of show a visual picture of the scene, but two, if we ever needed to go back and put evidence back in place, we can easily go back and do that with very little effort.

As basic as it is, if you look, I'll use evidence item number 19 I believe is the farthest one away, you will start at 0.0 and the your first measurement you will see is listed as.

Q You all have your diagrams and probably easier to look at the overhead.

A So I will use evidence item number 18 as my example, or 19, it is even number. If you look on the diagram, evidence item number 19 is the bubble here that is farthest to the east.

The first column of measurements shows baseline west from Copper Creek, so if you look at the baseline measurement here and walked

0cf60cba-a00f-4859-9745-afcc42b4708c

west 31 feet and stopped, in the second column of measurements shows 11 feet 9 inches south of the baseline. So if you measured 31 feet west, 11 feet 9 inches south, that spot right there is where evidence item 19 is at.

You do that for every piece of evidence, even down here the ones, the shell casings we found in the grassy area, evidence item 22, you are 47 feet 4 inches west of the baseline and then 31 feet 3 inches south and you'd find the exact spot where that evidence item was placed.

The measurements, we did those intersecting measurements for items number 1 through 22.

Q Let me stop you. Do those include items like eight and nine, which I think were on the vehicle?

A Yes. If you will notice eight and nine do not have measurements on them because those were found on the police vehicle on the driver's side door. So in the second section of marked, it is labeled Ferguson Marked Police Vehicle Number 108, you will find the measurements for the location of each of the four tires from the west baseline and south of baseline measurements. And from there we

0cf60cba-a00f-4859-9745-afcc42b4708c

could --

Q You could put the car back?

A We could put the car back where it was at and show you by photographs where those red stains were located. The same for Michael Brown's location, the same exact technique for west from 0.0 baseline, and south left foot and right foot, left hand, right hand and head, and then on the bottom it has a sentence that states again, the baseline runs east to west on north side of Canfield Road, which 0 feet 0 inches stops and Copper Creek Court. That's how we do diagramming situations.

So to label this not to scale is because these things, if you blew it up to life size, this might not be 153 feet or 152 feet 9 inches. To show you the reason why we put that on there is to give you the scale of this size of thing.

Q So just to clarify though, that distance that is between that you already testified about and it is blurry here, but the distance from this point to this point?

A That measurement is from the driver's side front tire of Darren Wilson's police car to the head of Michael Brown.

0cf60cba-a00f-4859-9745-afcc42b4708c

Q All right. And you said if you blew it up, it might not be 100, whatever that number is?

A As far as to scale and size.

Q But that actually is the distance actually between those two items?

A Correct.

Q Okay.

So the diagram isn't to scale, but the measurements are exact?

A The measurements are to scale, but the diagram is not drawn to measurement scale.

MS. ALIZADEH: Does anybody have any questions about the photographs or the diagram? Okay.

Q (By Ms. Alizadeh) Last thing I have for this witness and this will probably be less than five minutes, unless Sheila can think of other questions. Detective, you took a crime scene video, you have already testified about that's one of the first things you did after your initial walk-through, then you do a video?

A Yes.

Q And I have marked this Grand Jury 4.

(Deposition Exhibit Number 4 marked for identification.)

0cf60cba-a00f-4859-9745-afcc42b4708c

Q (By Ms. Alizadeh) I'm going to play this video right now.

You've testified there is audio, but you're not talking on it; is that right?

A Yes.

(Video is being played.) (End of the video recording.)

Q (By Ms. Alizadeh) Now Detective in that video, and you're the one taking the video?

A Yes, ma'am.

Q We see you walking basically right around the body shields, body screens?

A Yes, ma'am.

Q That you have put up?

A Correct.

Q At that point in your investigation, had you found the two red stains that were, I think, 19 and 20?

A I don't think so, no.

Q Those stains went past that location?

A Yes.

Q All right.

MS. ALIZADEH: I think that's it. Sheila, do you have any questions.

MS. WHIRLEY: Yeah, just something for

0cf60cba-a00f-4859-9745-afcc42b4708c

clarification. You may or may not have covered it.

Q (By Ms. Whirley) Your job is not to investigate the crime, is it?

A No, just to collect, document, photograph the evidence.

Q You don't talk to any lay witnesses and try to determine what happened or anything like that?

A No, ma'am, information from witnesses is usually given to the crimes against persons detective that you will hear from later. Items of evidence that may come to light from their interviews is given to me from other detectives. I do not interview witnesses myself at any time.

MS. WHIRLEY: Thank you. You all have anything?

I have a question about projectile. I know earlier you mentioned inside of the patrol car there was no casings?

A Correct.

: Was there a projectile in there.

A There was one recovered later, not by me, it was another detective, I'm sure you'll hear from

him that he processed the vehicle at our crime lab.

: The one that was found, I think it was number 17, labeled 17.

A Yes, sir.

: Is that one that entered the body and came out?

A I can't testify to that. One of the ballistics firearms people that you might hear from, they can answer those questions, I cannot.

Yes, ma'am.

: . In the video I'm seeing, and your photographs, I'm seeing that there was shattered glass within the vehicle?

A Yes.

I'm only seeing two pieces sitting in the driver's seat of Officer Darren Wilson's vehicle.

A Yes, ma'am.

Was there any on the floor that you recall, I didn't really see any in the pictures as well?

A I haven't looked at the other detectives' photos extensively. I know when I went to the crime lab to finish packaging my evidence, the vehicle was down there and there was a significant amount of

0cf60cba-a00f-4859-9745-afcc42b4708c

glass inside the door panel itself once they removed that cover.

Inside the door panel itself?

A Yes.

Can you tell me what kind of vehicle is this, do you recall?

A It was a Chevy Tahoe.

Chevy Tahoe.

A Chevy SUV. I'm not sure if it was a Suburban or a Tahoe.

All right, thanks.

MS. ALIZADEH: Just real quickly. There was another part of your investigation you did another video from a perspective and that was because you were told somebody saw something from a particular window; is that correct?

A Yes, ma'am, I did one and I know another detective that was at the scene did other ones. The one I did as far as where, I can't remember the address, it is on the evidence receipt, they had us go to different eyewitness perspectives just to stand there and video similar to this. There is not narration in it, it simply is a video, me standing, or whoever the camera operator was at the time,

0cf60cba-a00f-4859-9745-afcc42b4708c

standing where the witness states they were standing and observed whatever it was they observed.

Again, there is not a narrative stating they saw this, they were seeing this and my particular video I know that I stood at the section where the witness stated she saw what was going on. I attempted to use our video camera to zoom in across the parking lot where she was saying she could see everything happening.

My camera would only focus on the screen part of the door. It was through a sliding patio door, it would only focus on the screen no matter how much I would zoom in, it wouldn't show the scene from her perspective. I zoomed back, you had to step to the left and then zoomed in again to show the distance where she was seeing things and kind of give you a reference point because at the time when I did my witness perspective video, it was after we had picked everything up.

It was the last thing, a witness had come forward at the very end and said hey, I think I saw this from here. The detective interviewed and asked to go down and shoot a witness perspective from her standpoint.

MS. ALIZADEH: You will see that video

0cf60cba-a00f-4859-9745-afcc42b4708c

later, but I would rather show that to you in conjunction with that witness testimony so it will be easier for you to kind of tie those together, but from his perspective, you know his job, your job was then just to stand, whatever witness says where they were and film where she says what she saw she saw?

A Yes, ma'am.

Q (By Ms. Alizadeh) And the purpose of that is just to see could she see that, are there things in the way, was it such as that, correct?

A Correct.

Q Now, you said that from filming it, the camera would not focus beyond the screen?

A The human eye could see through the screen and focus on a point farther than that.

Q Okay.

A The camera I was using at the time has focal limitations and would focus just on the screen.

Q Let me ask you this, from your eyewitness perspective, could you see, not what she saw, could you see the place where she said she saw something?

A From that specific perspective, she could only see where Michael Brown came to rest.

Q Okay. And so from whatever perspective

0cf60cba-a00f-4859-9745-afcc42b4708c

she was, she could not see farther west to where the officer's vehicle was?

A No.

Q Okay. But you are standing in her position, you could see where Michael Brown's body had been?

A Yes.

Q How much farther west could you see beyond Michael Brown's body?

A You could see from the angle she was at, which was to give you an orientation because I can see it in my head. She was on the northeast part of the apartment complex.

Q Let's use your diagram.

A Here it is. Her apartment building, if this is the entrance to Copper Creek Court, her apartment building is farther back this way, which would be the upper right-hand corner of the diagram.

Again, this is not to scale, this building in particular comes from close to this driveway. Her perspective, and if I can come up here and use my finger to show, her perspective would have been on this line and the corner of the building would block the red stain where Michael Brown's body had been. You could just barely see

0cf60cba-a00f-4859-9745-afcc42b4708c

the stain in the road, the red stain in the road where his body had been.

Q The large stain that was at his head?

A Yes, that was still present. It was at an angle just like this, where this building would have come out at that angle and cut that part of the scene off where she couldn't see anything else.

Q Okay. Do you remember her name?

A I just wrote down her address.

Q When that witness testifies, we will play that video for what it's worth given the focal limitations of the camera? Could she see to the east the full rest of the crime scene?

A Yes, it was a third floor apartment.

MS. ALIZADEH: Anybody else? And as always, if there are questions later on of this officer and you would like to have him brought back, he will come back.

All right. That concludes the testimony of Detective . And that will conclude the evidence for today, September 3rd, of the grand jury investigation into the shooting of Michael Brown.

0cf60cba-a00f-4859-9745-afcc42b4708c

(Court reporter reads the end of the recording information and that is the end of the September 3rd, 2014 grand jury hearing for today.)

SS.
County of St. Charles

I, a Licensed Certified Court Reporter by the Supreme Court in and for the State of Missouri, duly commissioned, qualified and authorized to administer oaths and to certify to depositions, do hereby certify that pursuant to Notice in the civil cause now pending and undetermined in the County of St. Louis, State of Missouri.

The said witness, being of sound mind and being by the grand jury first carefully examined and duly cautioned and sworn to testify to the truth, the whole truth, and nothing but the truth in the case aforesaid, thereupon testified as is shown in the foregoing transcript, said testimony being by me reported in shorthand and caused to be transcribed into typewriting, and that the foregoing page correctly sets forth the testimony of the aforementioned witness, together with the questions propounded by counsel and grand jurors thereto, and is in all respects a full, true, correct and complete transcript of the questions propounded to and the answers given by said witness.

0cf60cba-a00f-4859-9745-afcc42b4708c

I further certify that the foregoing pages contain a true and accurate reproduction of the proceedings.

I further certify that I am not of counsel or attorney for either of the parties to said suit, not related to nor interested in any of the parties or their attorneys.

STATE OF MISSOURI

VS.

DARREN WILSON

GRAND JURY

SEPTEMBER 9, 2014

VOLUME III

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

IN THE CIRCUIT COURT OF ST. LOUIS COUNTY

STATE OF MISSOURI

STATE OF MISSOURI

vs.

DARREN WILSON

The following is a hearing before the Grand Jury of St. Louis County, at the offices of St. Louis County Prosecuting Attorney's Office, 100 South Central Avenue, in the City of Clayton, State of Missouri, on the 9th day of September, 2014, before

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

APPEARANCES OF COUNSEL:

FOR THE STATE:

Ms. Kathi Alizadeh & Ms. Sheila Whirley
Assistant Prosecuting Attorneys for St. Louis County
100 South Central Avenue, 2nd Floor
Clayton, MO 63105
(314) 615-2600

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

GRAND JURY HEARING

MS. ALIZADEH: Good afternoon. For the record, I'm Kathi Alizadeh with the Prosecutor's Office. Also present is Sheila Whirley with the Prosecutor's Office, and all 12 jurors are present today and as well as the court reporter who is taking down everything that's being said as well as audio recording the proceedings that are going on this afternoon.

As you can tell, we've kind of rearranged. We're trying to figure out how to best work the room with the equipment that we have.

As you can see this screen kind of moves. Do you see the wind, the air blowing on it? It is blowing on the screen, but not on you, unfortunately. So we're going to try this out.

If this is too annoying, we'll next time try something else out, but this is a bigger screen and we thought maybe it would be easier for everybody to see it. If everybody gets car sick because pictures are kind of wiggling on there, we will figure something out.

Also, and we have some additional fans, I'm going to try to bring another fan in tomorrow to make it a little more comfortable. I'm doing the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

best I can as far as the heating and cooling.

So my understanding that you all are going to be able to be seated today from 1:00 to 5:00; is that correct? And so for today we've scheduled two witnesses. The first witness is here and it will be another crime scene detective.

His name is Detective

And then the second witness that's going to testify is the medical examiner who conducted the autopsy, his name is Dr. and because of his schedule, I'm going to tell , Dr. probably isn't going to be here until two, he's going to get here as soon as he can.

If we're not done with Detective , we are just going to interrupt his testimony because he can very easily come back on another day. It is hard for me to get the doctor here. He is going to be going out of town, so we might have to interrupt Detective and bring him back to finish up with whatever questions or additional we have with him, okay?

So with that being said.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

DETECTIVE

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Can you start out by stating your name and spelling it so the court reporter can put it in the record?

A

Q And how are you employed?

A I'm a police officer.

Q How long have you been a police officer?

A 33 years.

Q Okay. Now, Detective you are kind of a soft spoken person a little bit. I want to make sure that everybody back here can hear him and if you cannot hear him, please raise your hand and let us know if you can't hear him.

I don't think the microphone amplifies, it is recording actually. So you probably just have to keep your voice up a little bit.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

What do you do, what department do you work for?

A For the past 22 years I've been with St. Louis County Police Department.

Q And currently, what is your job assignment with the St. Louis County Police Department?

A For the past 14 years I'm a crime scene detective.

Q Now, we've already heard from a Detective about what crime scene detectives do. Would that be similar to what you do with your job responsibilities?

A Yes.

Q Are you a training officer for crime scene detectives?

A Yes, both in division patrol and also the crime scene unit. For the past 27 years, I've been a field training instructor.

I also teach the basic and advance crime scene schools at our police academy and I also lecture at four area schools and universities.

Q And is there a board certification for crime scene investigators?

A Yes, I hold currently the highest certification level that's possible through the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

International Association of Identification. I'm a Board Certified Senior Crime Scene Analyst.

Q Were you working then as a crime scene investigator for St. Louis County on August 9th of this year?

A I was.

Q And did you receive a call sometime in the early afternoon of that day to respond regarding a police involved shooting?

A I did.

Q About what time did you get that call?

A Uh, about 1:00 p.m. I was notified at home by my supervisor to respond to our office, which is in north county, to retrieve a crime scene van and then contact one of our crimes against person detectives at Christian Northwest Hospital.

Q So did you go from your home to the office to pick up a crime scene van?

A I did.

Q Now, we've also heard Detective talk about his crime scene van, were you in your separation van?

A Yes, ma'am.

Q And is your van outfitted or equipped with basically the same things that Detective van

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

would have been equipped with?

A Exactly the same thing, yes.

Q And so about what time did you arrive at your office in north county?

A Probably about 2:00 p.m.

Q And then after retrieving the crime scene van, did you go directly to Christian Northwest?

A I did, I arrived about 2:20 p.m.

Q And did you make contact with a detective, now you say crimes against person, are you all familiar with the bureau in St. Louis County? The detective bureau is divided up into separate distinct units, crimes against persons is a unit that deals with, obviously, crimes against persons, but it would be homicides, assaults, rapes and so forth.

So Detective when you got to the hospital, who did you contact?

A One of our detectives by the name of

Q

A I'm sorry, Mr. Wilson was there, the assist chief of Ferguson Police Department and an attorney for the paternal order of police for Mr. Wilson.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Now, you and I met yesterday and talked about your testimony and we went over things because I don't have a report from you, is that fair to say?

A Yes, ma'am.

Q And so when we talked about this, did I talk to you about the fact

the police officer who is involved in the shooting, correct?

A Yes, ma'am.

Q If at all possible,

would that be okay?

A Of course.

Q So when you arrived at Christian Northwest, Detective was there?

A Yes.

Q Darren Wilson was there with an attorney?

A Yes, ma'am.

Q And who else was there?

A The assistant chief of Ferguson Police Department,

Q Did you have a conversation with Detective about what had happened?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A He gave me an overview, yes.
Q What did you understand your role was in responding to Christian Northwest Hospital?
A Based on the information that I received, I was to document visible injuries or complaint sites of injury on Darren Wilson. We were to document his clothing. I was going to seize his clothing and also the weapon that he carried that day.

At some point in time I was also tasked with the processing of the Ferguson police vehicle, which was a fully marked Tahoe.
Q So, Detective you said you were also then tasked with processing the vehicle, the fully marked Ferguson police car, which was a ?
A Tahoe.
Q Tahoe, okay. And so about what time did you arrive at the hospital?
A 2:20 p.m.
Q And where was Darren Wilson?
A He was in the ER room.
Q And did you have a conversation, did you introduce yourself to him?
A Of course.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Were you dressed similarly to how you are today?

A No, ma'am. I was in my normal daily uniform, which consist of a polo shirt and what we refer to as BTU pants, they are cargo. The rest of my accouterments, department issue badge, obviously my side arm, handcuffs, magazine holder, and then on the polo shirt itself it is marked St. Louis County Police Department with our badge, Crimes Against Unit and on the back is pretty much glow in the dark letters that says St. Louis County Police Department.

Q Have you met Darren Wilson before this date?

A No, ma'am.

Q And so when you saw him in the emergency room, how was he dressed?

A He had his department issued Navy blue uniform pants on, his boots, but he was wearing a T-shirt. He was not carrying a sidearm or his duty leather and he did not have his uniform shirt on.

Q Did you tell him what you were there for?

A Yes, ma'am.

Q And did you ask him any questions that would assist you in knowing what to photograph?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A I asked him what areas hurt other than what I was seeing. He went through several sites that he complained of injuries. I retrieved the ER charge nurse to make sure that I wasn't missing anything as far as the ER staff doing their initial assessment of Darren Wilson.

Q So you spoke with the charge nurse, do you recall his name?

A No, I do not.

Q Did he indicate to you that there were additional injuries that you did not assess or not see?

A No, we walked through with Darren Wilson his injury complaint sites, consisting of mainly his facial area, the back of his neck and he said his head hurt.

Q Did you photograph the areas that he indicated hurt?

A I did.

Q Now, we also heard Detective yesterday, not yesterday, I keep saying yesterday, previously, about when he photographs crime scenes, are you all instructed similarly that you would have, I guess, a procedure that you follow in how you do photographs?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Correct. There's a standard format that we teach in the crime scene school and we also teach during our field training program.

There's a normal sequencing event. In this case you take overall pictures, you take what's called midrange pictures to tie in that location to something else that's recognizable, you will take a specific image and in these kind of circumstances you'll also put a measuring device or a scale in your information to give you an idea of how large this area is or how small this area is.

Q Did you do that when you were photographing the injuries on Darren Wilson?

A I did.

Q And then after you completed all of your investigation in this case, did you remove the memory card from your camera?

A I did.

Q And did you have those, I can't remember, do you burn it onto a desk or do you take the memory card to the lab?

A No, the memory card is placed in, in the old days referred to as a film envelope, and then that was hand carried by myself to our photo lab. The photo lab will download the original images from

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

the media card onto a disc and then after that's completed, on homicide cases, officer involved shootings and other cases of note, they will print the photo lab, meaning they, will print 8 X 10 photographs. This was done in this case.

I will respond back to the photo lab, those images are reviewed my me and then they are stamped with official photographs and for the prosecuting attorney's set. I will circle the image number on the back of the 8 X 10s and put my initials and DSN on the back of them.

Q All right. Did you do that in this case?

A I did.

Q When you examined the photographs after the lab had printed them out, did the lab print each and every image that you had snapped during your investigation?

A They did.

Q So there is no images that you deleted from the camera or images that might have been developed that you discarded?

A Absolutely not.

Q Do you in any way crop these photographs?

A Absolutely not.

Q Do you in any way edit them or use a

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

filter when you are photographing or change or enhance color?

A No, ma'am.

Q Do you recall how many photographs you took in this case?

A I believe around 50.

(Deposition Exhibit Number 10 marked for identification.)

Q (By Ms. Alizadeh) I'm going to hand you what I have marked as Grand Jury Exhibit 10. Did you and I get this envelope yesterday, did you recognize this from my office yesterday?

A We did. When I stamp these photographs, I fill out the front of this with a header information as far as date, complaint number, what type of incident it is, and in this scenario since I went to three different locations, those three different locations are also marked on front of the envelope.

In addition to that, I put my information on there as far as crime scene unit, Detective my DSN.

We also stamp in front, which matches what's on the back of the photographs so it is marked official photograph. And as far as the dissemination, in this case this was marked PA,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

standing for the prosecuting attorney's office.

Q All right. And I want you to remove the photographs that are inside Grand Jury Exhibit 10. And just briefly leaf through them. Do those appear to be the photographs that you took during your investigation of this case?

A They are.

Q And do they, each photograph bear your markings where you stamp them as an official photograph and you circle the image number and place your initials there?

A Yes, ma'am. It is reflected here.

Q Okay. Can you tell me what the last photograph that is in that stack is numbered?

A Number 50.

Q Okay. So you have 50 photographs in your hand there?

A Yes, ma'am.

Q And so for the sake of ease, if you want to sit in that chair right there, and I will have you one by one we're going to go through each photograph and you are going to describe what is depicted in that photograph. So this is Image Number 1, correct?

A It is.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q We already have testimony from Detective about the placard that is photographed, is that your habit to do that as well?

A Every time, yes, ma'am.

Q And that contains the date that the photograph, what date, is that the date of the incident always or the date that the photographs are being taken?

A Usually both. If I respond to a scene to photograph that, if it is the original scene, at this point it was, then the original date here.

Now, if I had been involved in this with further investigation, if I have another aspect of this investigation, I will put in parentheses next to the complaint number the date of the original incident. Let's say we had to go back and do something today, okay.

The date of the original incident would be here next to the county complaint number, but the date of the image that I took, these would be in the first part.

Q So in this case, your investigation?

A Occurred on 8/9/14 yes, ma'am.

Q That was the date of the shooting?

A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And then we've already had some testimony, the top number is the county complaint number?

A It is.

Q And below that is the Associated Ferguson Police Department generated complaint?

A Yes, ma'am.

Q And then the incident as it was called in originally, correct?

A Correct.

Q And then is that your department serial number?

A Yes.

Q And your initials?

A And DSN.

Q All right. And can you go to Image Number 2. I will take these from you as we go.

Can you then go ahead and describe for the jurors what appears in that image?

A This is an overall view of Darren Wilson at the time of my investigation. As I described to you folks earlier, this is how he was dressed.

Q Hang on a second, I don't want to put anybody to sleep, but I'm going to try and see if it goes totally dark.

For the record, I was just adjusting

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

the light to make it easier to see that image on the screen. And is that how he appeared in the emergency room dressed in a T-shirt and the pants he's wearing, those are his department issued pants?

A Yes, ma'am.

Q All right. And Image Number 3?

A Image Number 3 is an overall view of the back of him from the rear.

Q I think push it up?

A I'm trying to lose that glare.

MS. WHIRLEY: Can you zoom it in some?

Q (By Ms. Alizadeh) I don't know how to make that different. Again, if you want the photos passed around because it is easier to see the actual photograph, but for the purposes of this testimony.

: . I want to see the first picture.

MS. ALIZADEH: You want to see Image Number?

I personally, if you can give me the picture.

MS. ALIZADEH: And when this is done, if you want, we'll just pass them through you, okay, because there aren't a whole lot of these

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

photographs.

Image Number 3 again, this is the back of Officer Wilson, correct?

A It is.

Q (By Ms. Alizadeh) And are you aware of the T-shirt that he is wearing, is that the T-shirt he had on that day?

A It is.

Q And when you, I know you didn't examine him like a doctor, did you see anything on him that indicated that he had been bleeding?

A No, ma'am.

Q No open wounds?

A None that I observed, no.

Q Did you ask him if he had been bleeding or if he was cut?

A I did.

Q And what was his response?

A He said no.

Q Okay. Now Image Number 4. No, wait, that was Image Number 4, isn't it?

A Correct.

Q And just for the record, we have to make a record, Image Number 4 is?

A Overall view of the facial area of Darren

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Wilson.

Q Image Number 5?

A Overall view of the left side of his face.

Q Image Number 6?

A Overall view of the right side of his face.

Q Image Number 7?

A It is a part of a series of two, the first part of this is a close-up view of the left side facial area without a measuring device.

The next image is one with the measuring device.

Q And the next image is Number 8?

A Yes.

Q All right.

. What is it you are measuring there?

A That was one of the injury complaint sites by Darren Wilson. He complained that his face was hurting. So when I asked him specifically, he pointed to these sides of his face. We'll get to it shortly, but also the back of his neck.

Okay, thank you.

Q (By Ms. Alizadeh) That is Image Number 9?

A It is. Again, part of a series of two,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

this is a close-up of the right side of his face without a measuring device and then one with a measuring device.

Q And with the measuring device is Image Number 10?

A Correct.

Image Number 11 overall view of the back of his neck.

Again, part of one, two series of images, close-up view of the back of his neck without a scale.

Q And that's Image Number 12?

A It is. And 13 reflects one with the scale.

Next Image 14 is the left rear side of his neck without a scale and 15 with the scale.

MS. WHIRLEY: Sheila Whirley. What are you measuring on there?

A Again, Miss Whirley, just a complaint site that he complained of.

MS. WHIRLEY: So that line of demarcation does not have anything to do with the complaint site?

A No, ma'am, that's a natural crease in his neck area.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q (By Ms. Alizadeh) Next Image Number?
A 16.
Q Okay.
A Is the right rear side of his neck without a scale, and then 17 is with a scale.
18 is the left side of his neck without a scale, and then 19 is with a scale.
Q All right. So those 18 total photographs were how Darren Wilson appeared when you photographed him on August 9th shortly after 2:20, or about what time did you actually photograph him?
A At 2:20 that's when I initiated my, I turned my back to you folks, I'm sorry, that's when I initiated my investigation and documentation as I stated earlier of the injury sites that Darren Wilson complained of.
Q Did you photograph any other parts of his body?
A No, ma'am.
Q Did he complain of any other injuries?
A No, ma'am.
Q Did you examine his hands?
A I looked at them, I did not examine them.
Q Okay. Did he complain that his hands were injured or hurting in any way?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A No, ma'am.
Q When you looked at his hands, did you see the backs of his hands?
A I did.
Q And did you notice anything that appeared to you that might indicate an injury to the backs of his hands?
A No, ma'am.
Q Now, at the hospital, did you seize anything from Darren Wilson?
A I did not.
Q And you had indicated previously that you were also charged with the duties of seizing his clothing?
A Correct.
Q And his gun?
A Correct.
Q And now you said that he had his department issue pants on in the hospital; is that correct?
A Yes.
Q Did you talk to him about those pants?
A I did.
Q And did he show you anything on the pants?
A He said there was blood on his left thigh.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And did you look at the pants?
A I did.
Q Did you see something that was some type of stain on the left thigh of his department trowsers?
A I did. There was a reddish stain on the upper thigh area.
Q And did you photograph those pants in the hospital?
A No, ma'am, we did that at Ferguson Police Department.
Q Did you seize his pants at the hospital?
A No, ma'am.
Q Why is it that you just have him take his pants off right then and give it to you?
A He had nothing else to wear. I didn't want him traveling in just a hospital gown back to Florissant Police Department.
Q So was there a decision made for you, as well as Darren Wilson and others to go back to the Ferguson Police Department?
A Yes.
Q And was there a discussion about somebody bringing clothing for him?
A Yes. I did discuss with Lieutenant

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Colonel from Ferguson Police Department to see if we could make arrangements from

whoever, to make arrangements if they could bring clothes to Ferguson Police Department so that Darren Wilson had something to wear home that day.

Q All right. Now, did you travel directly from the hospital to the police department?

A I did.

Q Now, let me ask you this, getting back at little bit at the hospital, did you ask Darren Wilson any questions about what happened that day?

A No, ma'am.

Q You didn't ask him about, tell me what happened or anything of that nature?

A No, ma'am.

Q Did you hear him talking to anybody else about what happened that day?

A No, ma'am, not while I was photographing.

Q All right. So did you go by yourself in your crime scene van to Ferguson?

A I did.

Q To your knowledge, did Darren Wilson travel there with another officer?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Lieutenant Colonel I believe, yes.

Q Did you all arrive at the Ferguson Police Department at around the same time?

A Yes.

Q When you got there, what's the first thing you did?

A After meeting with Detective Darren Wilson, Lieutenant Colonel we entered Ferguson Police Department and went to their detective bureau.

I was told that's where Officer Wilson or Darren Wilson's department issued firearm was, his uniform shirt and that's where we were making arrangements to have clothes brought to him so I could document the uniform that he was wearing and also seize those uniform pants from him.

Q And so when you went into the detective bureau, did you locate the weapon?

A Yes, I inquired of its whereabouts and I was told that someone had placed Darren Wilson's department issued side arm in an evidence envelope, which wasn't sealed. It was on a desk there in the detective bureau with other detectives from that department present.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And did you locate that envelope with the firearm inside of it?
A I did.
Q And you said it wasn't sealed, did you remove the contents of the envelope?
A I did.
Q What was inside the envelope?
A His department issued Sig Saur firearm, the magazine and one live round, and that's how the firearm was placed in that envelope. I did not download that weapon when I inquired about it. I was told that Darren Wilson had downloaded the weapon and then probably at the direction of the supervisor, it was placed in that envelope and merely for conveyance purposes, I assumed from the scene back to Ferguson Police Department until I arrived.
Q But that was not your firsthand knowledge, correct?
A No, ma'am.
Q So the gun, the empty magazine and one live round was in that envelope?
A Correct.
Q And you were told that the gun was downloaded by Darren Wilson?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Yes.
Q And you all know what that means, downloading, other than like on the internet, can you explain what that means for the jurors?
A Sure. When you download a semiautomatic weapon for our terminology, that means that the magazine is removed, all rounds that are in the magazine and whatever is chambered is removed and the slide is locked back. That's a safe way to store a weapon.
Q So was that in the condition it was when you got it out of the envelope?
A Yes, ma'am.
Q Okay. And now you are not a ballistics person; is that correct?
A I am not a certified ballistics expert, no, ma'am.
Q Are you familiar with this weapon?
A Very.
Q And is it, in fact, the same weapon that you carry?
A Yes, ma'am.
Q And so did you, when you removed the weapon from the envelope, did you photograph it in the state it was in?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Yes, ma'am.

Q Okay. Let's go through those. Your first is Number 20, I believe?

A It is. Once I removed the weapon, it was laid on top of the Ferguson Police Department's evidence envelope in exactly the condition that I removed it from.

Q You and I talked about this yesterday, what's this thing right here?

A That is just part of the seal on the back of their evidence envelope. I did not apply that and nor was it sealed.

Q Okay. And this portion of the weapon, that's the slide of the weapon?

A It is.

Q And it is locked in the pulled back position?

A Correct.

Q Can you --

MS. ALIZADEH: We have a question? When you handle this evidence, are your hands gloved?

A Always.

: Even when you are photographing?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Always, yes, ma'am.

Okay.

A As a general rule, I always wear two sets of gloves. If the first set becomes contaminated or in this case, if I was to swab this for any other potential forensic evidence. That first set is removed before I move onto the next step and then another set of gloves is put on so I don't run the risk of cross-contamination.

Q (By Ms. Alizadeh) So you are double gloved when you are handling this firearm?

A Always.

Q All right, yes?

. So the envelope, it was your understanding that was the first time it had been used was when that gun was put in?

A I was just told it was placed in the envelope.

By that picture, it looked like the envelope has been used before?

A It's possible, I don't know.

Q (By Ms. Alizadeh) And, Detective, did you seize the envelope?

A No, ma'am.

: Just

Electronically signed b d0e125b1-3744-4b93-80e6-f9de22cfbddf

clarification. What is the protocol for when you seize a weapon and it is placed in the evidence bag to be inspected, what's the protocol as far as putting it in there and everything else after that?

A I can speak for the County Police Department, I can't speak for another agency, okay. We do not package firearms in this manner.

If I go to a scene and there's a firearm laying there, okay. There's a standard protocol that we always follow, and I think you may have seen some of those from Detective

We'll take an overall view, we'll take what is called a midrange view to tie in that firearm, if we are talking about bag this, where it is on this section of the table. The overall view would be the entire room, okay. Midrange view would say, well, it is near these two jurors and these two microphones.

Then we would take a close-up view of it, but it is still in place. We have not manipulated it, we have not touched it and then what you folks will see here shortly we follow the same protocols as far as images.

Once it is photographed in place, then wearing gloves, we will pick it up, usually lay

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

it on another surface, whether it is an evidence envelope or evidence box, which would be the County Police Department. We don't put fires arms in a package.

And then we would lay that firearm, we would photograph both sides, we would take an image of the serial number, we would remove the magazine, photograph all of these things as they are, and then we would unload the magazines and whatever rounds in the magazine. We would display them next to the magazine to document, well, these are the rounds that we found in there.

We would then lock the slide back and whatever is in the chamber or not in the chamber then we would document that.

We would package those items separately, but they all go into one gun box.

If we were to seize this and render it safe, then it would be inspected by another detective or one of my supervisors to confirm Detective looked at this gun and he cleared it, and I'm checking to make sure that it is cleared so everyone is safe.

We would then put what's called a lead seal, which has a number on it through the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

trigger guard, which would be this section right here. And per our firearms unit, we would put in essence, it is a orange zip tie that runs from, if I can change images, Miss Alizadeh?

MS. ALIZADEH: Sure, just identify the image you are going to put up there.

A The next image is Number 21. This is the other side of the weapon. Again, our normal sequence. And right here would be the ejection port, that orange zip tie would initiate going through here, it comes out of the bottom of the magazine, goes in and then we would secure that.

Then it is sent to the firearms unit to verify when that gun gets there, that it couldn't have accidently slide, go forward, it could have been knocked around or something. And we want to confirm when it goes to our crime lab personnel that that gun is safe, has been inspected and has been confirmed.

So come back to your original, I can't speak for other departments, I can only share with you what is our protocol policy and procedure.

: One more question. Did you take a picture of the envelope while the weapon is in the envelope?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A No, ma'am.

I have the question about the clothing. Is it common practice to have somebody travel from one spot to another before you take the clothing, I mean, I'm wondering is there a reason why somebody couldn't bring that to the hospital where he was instead of having him travel somewhere else before he got there for his clothing.

A Again, ma'am, I can't address that, that was Ferguson's decision. If I was to work, and I've worked hundreds, if that was a County Police Department employee, we would have made arrangements to get clothes to him or her.

Q (By Ms. Alizadeh) Does anybody, the first image of the weapon was Photograph Number 20, does anybody need that back up? We are moving back now for 21, which has been on the screen. Describe what you are seeing?

A That is the other side or the right side of the weapon, the slide locked back. Visible in it serial number, as I explained earlier.

And Image 22 is a close-up view of that serial number. You folks may not be able to see that. We can certainly pass that around. I don't know how to make that clearer.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Can you, just with the pointer, point out where the serial number is?
A Right in the center of the image is the serial number of that firearm.
Q Now, also not clearly visible on the screen, but again, we will pass these around, there is, there is something right there?
A There's a red stain right here. And also in this area on the slide.
Q All right. Were there any other red stains that you found anywhere else on the gun?
A Yes, they're on the slide also.
Q Okay. And now before we get to, I know you depleted your photographs, but while we have this up, let's go forward to you swabbing the gun.
A Okay.
Q We also heard Detective talk about these kits that you are equipped with in your crime scene van?
A Yes.
Q They are prepackaged and sterile swabs, correct?
A Correct.
Q Did you swab that gun?
A I did.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q What area, if we could maybe just use 20 and 21 again, instead of that close-up, just point with the pointer the areas of that weapon that you swabbed?

A The entire slide area, all three sides of it and this area on both sides.

Q And so that would include the reddish stains or the reddish substances that you could see on that weapon?

A Yes.

Q Now, let you resume with the next image.

A The next image is 23. Again, we're documenting the condition of the contents from that firearm that was in the envelope placed by Ferguson Police Department personnel.

Q And that magazine is empty?

A It is.

Q All right.

: .

A Yes, ma'am.

Do you check for fingerprints in the gun?

A No, it is the officer's gun.

You don't check for fingerprints?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A No, the magazine in light of these circumstances.

: No, the magazine, in the gun, when he holds the gun?

MS. ALIZADEH: Let me address that because that's a good question.

: I'm sorry.

A That's great.

Q (By Ms. Alizadeh) I kind of skipped over that, let's talk about that right now.

A Sure.

Q So when you were, were you told that there was a physical struggle over this weapon?

A I was.

Q And were you told that Michael Brown may have had his hands on the weapon?

A Yes.

Q So was there some discussion between you and other officers about swabbing versus fingerprinting?

A There was.

Q Okay. Have you all had a fingerprint expert testify before you before?

(All jurors indicate no.)

Q (By Ms. Alizadeh) On a surface like this

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

firearm, how would you go about examining that, do you want those firearm pictures again?

A Just let me have one of them please, ma'am.

Q How would you go about looking on that weapon for fingerprints?

A Okay. Based on the information that I was told regarding the incident, I was informed that Darren Wilson while holding his firearm, his department issue pistol, while he's holding it, there was a struggle between Mr. Brown and Mr. Wilson while the officer was seated in his police vehicle and Mr. Brown was outside.

So if you take that and say okay, well, the officer is holding his gun, he never relinquished it, the gun was never taken away, however, we are wrestling over this gun.

Common sense would tell you that if I'm holding the handle of the gun here, then what opportunity or what else is the other person struggling over. Probably this area of the gun.

The magazine was never released from the gun during the incident, it was never dropped or picked up, the officer never lost control of his gun.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

If you have a violent event like that, you have to make a decision whether you are concerned about hopefully getting a DNA profile or the possibility of retrieving latent fingerprint evidence.

Q Let me stop you really quick here. We are going to finish him up describing this because our doctor is here, but I'm going to let him finish this area about the fingerprint versus swabbing.

Now, I want to clarify that the things that you are talking about concerning a struggle over the gun, that is not from your firsthand knowledge, correct?

A Absolutely not.

Q That's information that came to you from other sources?

A Yes.

Q And not Darren Wilson?

A Correct.

Q And then you are making some assumptions about where you might fingerprint based upon just common sense and your experience?

A Yes.

Q Okay. So this is not to say that this is how it happened, but this is based upon your

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

experience and what you have been told at this point where you might expect to find fingerprints?

A Correct.

Q Okay. You can then go ahead and talk about, you have to make kind of a decision between whether to swab for DNA or to look for fingerprints?

A Correct.

Q So why did you make a decision to swab for DNA?

A Based on training and experience, and also based on the information that I was given, you're not going to have fine ridge detail during a violent encounter. It would be different if this gun was like this and someone just came up, other than the officer, and touched it.

When we process that, yes, you can get fine ridge detail. So the decision was made between myself and the crimes against person detective, homicide detective, that it would be better to swab the weapon.

Now, if you are going to swab it, then you need to swab all the relevant areas that could be touched by someone other than Darren Wilson.

Q Because, of course, you know Darren Wilson

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

has touched that gun?

A Exactly, he was holding it.

Q It would tell you nothing if his DNA is on it?

A Absolutely not.

Q We know he touched the gun?

A Right, it is his gun.

Q All right.

A Once that decision is made and you swab, then you're going to have to swab those areas that were described earlier. If there was fingerprint evidence, you are going to be swabbing through them, so that's why you need to make a decision whether you want to process this for fingerprints or do you want to process this for DNA.

Q And in processing this weapon for fingerprints, could you after that swab it for DNA?

A No.

Q So you had to pick one or the other?

A Right.

Q And based upon your information and consulting with the detective, crime scene detective, not crime scene, crimes against person homicide detective, was a decision made to swab for DNA?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Yes, ma'am.
Q And that's what you did?
A Yes.
Q Did you package those swabs in the regular manner?
A I did.
MS. ALIZADEH: Do you have any questions about his processing this gun or about the gun itself or anything like that?
: Did you describe what type of gun is it again?
A It is a Sig Sauer P229. It is a .40 caliber weapon.
MS. ALIZADEH: Just so you know and, of course, he is familiar with this weapon, but we will be calling, you know, someone from the crime lab that is an expert on ballistics and can answer all kind of questions about this weapon and how it fires and so forth.
Once you swab the critical areas for DNA, is all of the DNA at that point removed from the object basically, it is rendered clean?
A You might have a trace only because these are cotton swabs and when we swab something, we do

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

two at one time. One for the prosecuting attorney's office, that's going to end up going to the lab and potentially a defense attorney so we keep one on file.

When you are holding these two cotton swabs, if you folks can picture Q-Tips, okay. You are holding two of them together, unless you're going back and forth and completely swabbing every little spot on this thing, you're not going to remove all of the DNA, all right.

You're trying to get the most profile or profiles that you can by swabbing those areas back and forth. Kind of like painting a first coat, you're not going to paint, you're not going to cover everything with your first coat. The same thing applies when we're swabbing for DNA. So potentially could be DNA left on there, but we try to get the largest sample as we can.

: .

A Yes, ma'am.

: I just need to know this. When the weapon was seized, before you got to the weapon.

A Okay.

It was in the envelope?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Uh-huh.

The protocol that the envelope is supposed to be sealed, you know, like you collect evidence and you get the bag, all the evidence is in the bag and you seal the bag until the right person comes and inspects the bag?

A Again, I can speak for the County Police Department, yes. What I was told, the information that I was given is that it was just placed there for, in essence, conveyance or storage until I got there.

And then, obviously, when I arrived and I processed or I seized or I package something, then I follow what the County Police Department crime scene unit and our crimes lab protocol as far as how we package things.

Was it locked away or sitting out?

A It was in the detective bureau on a desk.

Q (By Ms. Alizadeh) Just for clarification, do you know does Ferguson Police Department have their own crime scene detective?

A They do.

Q Were any of them that you know of involved with processing anything involved with this

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

shooting?

A No, ma'am.

Q In fact, Ferguson had asked county to come in and take over this investigation within maybe an hour of the shooting, would that be your understanding?

A Yes, ma'am.

Q And so to your knowledge, did any Ferguson crime scene detectives have anything to do with seizing evidence, processing any scenes?

A No, ma'am, that's why they requested my unit to respond.

Q And so I'm only guessing or speculating, had a Ferguson crime scene detective actually seized this weapon, he might have handled it in a different manner than what was done in this case, would that be a guess or fair to say?

A That would be accurate because Ferguson Police Department has sent some of their officers to the crime scene school that I teach at our academy. I'm confident in stating that they would probably have followed protocols if they were actually seizing pieces of evidence.

MS. ALIZADEH: Okay. Any other clarifications?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Yes. . You may have said it, who actually put the gun into the envelope?

A I have no idea.

Okay. Would there be an issue when you do the swab of somebody else's DNA on the gun.

A What I was told is that Darren Wilson had unloaded his own weapon, so if he handed it to someone else, I was never informed of that.

MS. ALIZADEH: Now, I will tell you we will have DNA people testify and they will tell you what DNA was found on that gun and if they can identify whose DNA it was.

So as far as that goes and let me ask you, Detective did you take a swab from Darren Wilson at the hospital.

A Yes, ma'am.

Q (By Ms. Alizadeh) So there was a sample of Darren Wilson's DNA taken by you at the hospital?

A Yes.

Q And that is done by rubbing something on the inside of his cheek?

A Yes, it is called a buccal swab.

Q And you are fully gloved?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Uh-huh.

Q Do you have a protocol on how to take that swab and package it so that there is no contamination?

A We do.

Q You do not want your DNA on that swab in any way?

A No.

MS. ALIZADEH: So at any rate, there will be some testimony sometime down the road about what was discovered on the swabs that Detective used when he processed that gun and then, you know, any conclusions to be drawn from that.

Anybody else about the gun?

We're going to have to break with him and Detective I'm sorry, you will get an invite back on another day.

A I love to come chat again.

MS. ALIZADEH: We'll go ahead and have him finalize the disc and while the disc is finalizing, because we all know that takes a couple minutes, how about if we take a break. And in shifts, I'll start these photographs over here so if you all want to like, if you need a restroom break and then come back as these are getting passed around, and you

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

might be able, you will be able to see. We're not going to do the ones we haven't talked about yet, just the ones we identified.

(Recess)

DR.

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q For the record, this is Kathi Alizadeh present in the grand jury room with Sheila Whirley we are both with the St. Louis County Prosecutor's Office. All 12 jurors are present and, as well as the court reporter who is taking down the testimony and also audio recording the proceedings today.

For our next witness, would you state your name, please?

A Name Dr.

Q Could you spell for the court reporter your first and last name?

A

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And what is your profession?
A I'm a forensic pathologist.
Q And can you describe for the jurors your education and how you obtained the degrees to become a pathologist?
A For starters, I obtained my bachelor of science degree at Xavier University at Louisiana, that was a four year education. I then attended medical school four years at Louisiana State University. College medical school down in New Orleans, which was a four year training. And then I did a four year anatomical and clinical pathology residency at St. Louis University here in St. Louis.
I did one additional of pediatric pathology, which was a one year fellowship and fellowship specifically in forensic pathology at St. Louis City Medical Examiner's Office.
Q Can you explain for the jurors what is, what is a pathologist, what does he do?
A The basic definition of a pathologist is someone who is a medical doctor who is in the profession of studying disease.
Q Can you describe for the jurors what is a forensic pathologist?
A A forensic pathologist is a specialized

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

doctor in the field of pathology who is dealing with determining the cause and manner of death.

Q And you are a forensic pathologist?

A Yes, I am.

Q Are you board certified?

A Yes, I am board certified in anatomical pathology as well as forensic pathology.

Q Are you employed as a forensic pathologist?

A Yes, I am.

Q Where are you employed?

A I'm currently employed as an assistant medical examiner at the St. Louis County Medical Examiner's Office.

Q Is that the office, is the chief medical examiner for St. Louis Dr. ?

A Yes, she is.

Q You work under her supervision?

A Yes, I do.

Q How long have you worked for the County Medical Examiner's Office?

A A little over two years.

Q Prior to that, did you work for any other medical examiner's office?

A No.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And so when you began working for the County Medical Examiner's Office, was there any training that you underwent or any on-the-job training that you had to go through when you first began?

A Um, I mean, the main thing that's important is that you've done a certified or approved forensic fellow, which I did do at St. Louis University through their system at the St. Louis City Medical Examiner's Office. So that's the main thing that you do need, plus your medical degree and eventually being board certified to be able to practice what I practice at.

Q And so in probably, what I would say in layman's terms, one of your chief duties and responsibilities is to perform autopsies, correct?

A Correct.

Q And just we all think we know what an autopsy is, but can you explain for the jurors in general when you have a deceased person how you begin an autopsy?

A The autopsy itself, it is kind of layman's terms just for the general examination that occurs that I have for a case and it entails a lot of features depending on the circumstances, some things

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

are not done or done, but in a complete sense of an autopsy, you do an external examination, which is looking at the external features of the body with the clothes on and then removed.

Once they are removed, you want to look at any type of identifying characteristic, any kind of scar, any type of wounds, any type of tattoos, anything that you can physically see on the body that may be an abnormality or be something different, that's the external portion of the examination.

That is then ultimately followed with an internal examination where you are actually assessing all of the organs, weighing the organs looking at the organs to see if you see any type of pathological or disease type changes, any type of injuries on the inside of the body.

In terms of different ancillary studies that would be things that are in addition to external, as well as the internal examination we do toxicology, that's taking fluids from the body just in a general sense, blood, urine, fluid from the (listen) eyes where that fluid is tested to see if there is any type of drugs, any type of toxins within the body.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

The body is x-rayed some time to look for any type of fracture, in homicide to see if there is any type of projectiles within the body or any type of knives or things of that nature.

Q And by projectile, you mean like a bullet?

A Correct, like a bullet. Other things that are done, sometimes I do cultures, that is just looking for any type of bacteria or viral packaging that may be in the body, that may be the cause of death. Medical records, if they are present, I will review those as well and sometimes I have to use histology, which is looking at actual tissue that has been processed to be able to look under a microscope, where I look under the microscope and then I can make a diagnosis of different type of disease changes.

So those are kind of the basic things that go into an autopsy and as I said, sometimes all of those things are used, and sometimes bits and pieces are used, but more the most part complete external examination, internal examination and the toxicology, that's pretty much routine on all cases.

Q And now you are not the toxicologist; is that correct?

A That is correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q You just collect the samples that are then tested by a toxicologist?
A That is correct.
Q Now, prior to your beginning and autopsy, do you receive information from anyone about the deceased that may assist you in knowing what you are looking at and what to look for?
A Yes, I did.
Q And in this case did you have a conversation with
A Yes, I did.
Q Is he one of the investigators from the Medical Examiner's Office?
A Yes, he is.
Q Now, in this particular case, did you examine the body of Michael Brown?
A Yes, I did.
Q What day did you examine him?
A August 10th.
Q So this would be the day after the shooting, correct?
A Correct.
Q Now, in every autopsy that you perform, are there police officers there during the autopsy?
A Not every autopsy I perform.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q In a situation where there might be criminal activity involved in this person's death, is there always a police officer who is present for the autopsy?

A Yes, there is.

Q And are you familiar with some of the St. Louis County crime detectives, crime scene investigators?

A Yes, I'm familiar with them.

Q And are those generally, well not generally, do they on occasion attend the autopsies?

A Yes, they do.

Q And are you present when a police officer is photographing the autopsy?

A Yes, I am.

Q Do you at times direct the officer, you know, get a picture of this because this shows this?

A Yes, I do.

Q And then if you are removing anything foreign from the body, do you then, does the officer document that object?

A Yes, he does.

Q Does typically the officer would then seize those objects if there was anything seized from the body that might be evidentiary in nature?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Yes, they do.
Q So you're not, your job is not collection of evidence?
A No.
Q But there is someone present during the entire autopsy whose job is there to collect evidence?
A That is correct.
Q Okay. Now, in this particular case, this autopsy performed on Michael Brown, what information did you have from that was something that you considered prior to beginning the autopsy?
A Um, when I was contacted by he called me on my personal cell phone to let me know what particular cases came in on his shift and he informed me of the cases that came on his shift, and one of the cases was Mr. Michael Brown.
The circumstances that I got from him were very brief and minimal. At that particular time he informed me that there was a police shooting. He mentioned to me that there appears to have been a struggle and that was kind of the extent of the information that I had at that particular time.
So from that point, I know that the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

body is going to have to come in for examination due to the nature of the particular type of event.

There is certain cases that are under my jurisdiction as a medical examiner and that particular case of Mr. Michael Brown fit that jurisdiction, so I knew that that case was going to come in for examination.

Q Are you aware that Missouri has a statute that says that the actual body and its possessions of a deceased person are the property of the Medical Examiner's Office?

A Yes, I am.

Q And so in this particular case, well, let me back up.

You're aware that ultimately prepared a report, correct?

A Yes.

Q But he didn't have his report prepared when you first began your examination; is that correct?

A Correct.

Q Okay. And did you see any other police reports or any other reports about this incident before you began your examination?

A No, I did not.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Did you get any other information from anywhere else, whether it be a police officer or witnesses or anybody else?

A Before I started my examination, Detective was present at my autopsy examination and I did ask him about the circumstances that he knew at that particular time.

Q What did he tell you about what he knew at that time?

A Trying to remember exactly, it is a while back, but it was just basically similar situation of there were two gentlemen in the street, police officer responded to that particular area, from that point in time a struggle ensued and then after that things were difficult to determine at that point in time, but ultimately it ended in the result of Mr. Michael Brown obtaining fatal wounds.

Q Okay. And so jumping forward now, at the conclusion of an autopsy, do you prepare a report?

A Yes, I do.

Q And is that report reviewed by anyone else in your office?

A Um, there's a secretary who transcribes the information that I speak into a digital recorder, but it is my words and she transcribes my

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

words, I get it back, I correct it.

Q Okay. And so did you, you prepared the report after your autopsy of Michael Brown?

A Yes.

Q And did you approve the final report as correct, in other words, those were the words that you had dictated?

A Yes, yes, I did.

(Deposition Exhibit Number 6 marked for identification.)

Q (By Ms. Alizadeh) I'm going to hand you what I marked as Grand Jury Exhibit Number 6. And is that a copy of your report of the post-mortem examination, post-mortem examination just another term for like an autopsy?

A Correct.

Q Is that your report of the autopsy of Michael Brown?

A Yes, it is.

Q All right. And I'm going to pass around to all of you a copy of the report. Again, as I have mentioned before, if you are reading a document when a witness is testifying, just keep in mind that you might be missing something that's being said. These reports are yours to keep in your folders that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

we've provided for you to review at any time. And if at a later date after reviewing the report you have additional questions, we will try to get those questions answered for you.

I'm also handing you a document, I didn't mark this, Dr. did I show you that prior to your testimony today?

A Yes, you did.

Q This is a list of terms of anatomic orientation. In your report, you use terms that I would say a layperson isn't going to be familiar with, would that be fair to say?

A That's fair.

Q And when you are autopsying a body, is it one of your jobs and responsibilities to describe the location of a wound?

A Yes, it is.

Q And if it is some kind of piercing wound, whether it be from a knife or projectile, you describe the path of that wound or the trajectory so to speak of that wound?

A That is correct.

Q You use terms that might not be common everyday terms that laypeople would understand?

A That is correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Do you agree that these terms that I showed you on this list are accurate?
A Yes, I do.
Q And do you think it would assist the grand jurors if they have a copy of this if they later want to use the report?
A Yes, I did.
MS. ALIZADEH: So I will pass those around as well. Again, if you will write your grand juror number on the upper corner of these documents, please do not write on them. If you have notes to take, go ahead and take those notes in your notebook, but these are going to be, do we already have somebody that wrote on it? Did you write on it? If need be, I can get you a clean one. I want to make sure that the notes that you take are in your notebook.
So, Dr. are you assisted during the autopsy?
A Yes, I am.
Q (By Ms. Alizadeh) And is it someone who is employed by the Medical Examiner's Office who assist you?
A Yes, that is true.
Q And do you recall, you said Detective

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

was present for the autopsy?

A (Nods head.)

Q He is a detective with the County Police Department?

A That is correct.

Q And was there another detective there who was photographing and seizing evidence?

A There were two other detectives there, but I don't know their names specifically.

Q All right. And so when you, after your autopsy is completed, is it a standard, I'm sorry, and in the case when the police are also involved in the autopsies as far as documenting things, does the Medical Examiner's Office receive a complete copy of the photographs that the police took at the autopsy?

A Yes, we do.

Q Okay. Now, I'm going to show you what I've marked as Grand Jury Exhibit Number 7.

(Deposition Exhibit Number 7 marked for identification.)

Q (By Ms. Alizadeh) I am going to ask you to just remove what's in there. And this is a stack of photographs and just real quickly just leaf through them?

A Okay.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And tell me do you recognize these as the photographs that were taken during the autopsy of Michael Brown?

A Yes, I do.

Q Now, we've already done this a couple of times and I think the easiest way to do this is if you would sit in that chair there and take those and have them on your lap.

And when we talk about these, now we have already had some testimony from some crime scene detectives about these photographs, and including the fact that each photograph has a number on the back of it. And so when I refer to the photographs, since I haven't marked these individually, we will just say this is Image Number 1, okay?

A Okay.

Q And so forth.

A Okay.

Q So let me turn down the lights again. Makes it easier for people to see.

So, Dr. I know you're not necessarily the author of this and not familiar with what is depicted in Image Number 1, but the jurors have heard testimony about this. This is the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

placard that was prepared by the officer who took these photographs and that would be his DSN down at the bottom And my knowledge is that that is Detective And if necessary he can testify about taking these photographs if you need to hear from him about what he's done.

But, of course, it is going to have to be the doctor who testifies about what we are seeing in these photographs for the most part. So Image Number 1 is the placard.

Can you put Image Number 2 up there, please? I think it goes towards you on the thing, there you go. Can you describe what you are seeing in that image?

A On the table is Mr. Michael Brown, the decedent in question, and this is the way that the body was presented to me after removal of the body bag, which is the white bag that you see draped over the table. And there's the placard identifying the particular case and that's myself off into the background in the back.

Q So that placard, and here is a laser pointer right next to you right there, can you just point to where the placard is you are talking about?

A This is the placard, identifying placard

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

for this particular case.

Q And that's prepared, that's not the one that the county detectives prepared, that's something that the medical examiner does, correct?

A Correct.

Q Okay.

A Actually, sorry, this one is St. Louis County, sorry.

MS. ALIZADEH: Okay.

. So when the body leaves the scene, is it taken directly to your offices or where is the examining on the 10th, what happens between when it is collected and this day?

A The body is picked up from a delivery service, delivery service is responsible for picking the body up from the scene. At that point when the body is picked up from the scene, it is brought directly to the St. Louis County Medical Examiner and it is placed in the morgue, in a cooler, until eventually I'm going to come for the examination.

Let me back up a step. When the body comes in and it is checked in by the morgue staff or it is given a number, and just to make sure that it is logged in appropriately and put into the morgue, but the body goes into the cooler to wait until the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

next day. We will take initial round of pictures and then we will get to the point where we are right now.

: Thank you.

A You are welcome.

Q (By Ms. Alizadeh) So when the body was removed from the cooler, was it still locked in the bag?

A Correct.

Q We heard talk about the fact that there is a lock placed on the bag at the scene by him?

A That is correct.

Q After the body is received at the Medical Examiner's Office, does anyone before your autopsy begins unlock that bag?

A No.

Q If that lock had been disturbed or broken or opened when you began your autopsy, would you have noted that?

A Yes.

Q And so when you open the body bag, this is the body of Michael Brown as it appeared when you open the body bag?

A That is correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q We see in the image that we have heard testimony from that there is paper bags that are placed on the hands of the deceased?

A That is correct.

Q And that was done by at the scene?

A That is correct.

Q And would it be protocol for to have used latex gloves while he is handling any of the body while he is at the scene?

A That is correct.

Q So after that has happened and the officer has photographed what we see in Image Number 2, what happens next?

A Um, at this point, in theory and in terms of normal protocol or in terms of how I approach the case, at this point I will eventually myself start looking at the body, start the initial external examination that I spoke with you all at the beginning where I am looking at the clothing that the particular decedent has on. And just stating how the body appears to me, at least initially, in terms of clothing and that would be the next step.

Q Okay. And so let's move through the photographs as we go and Image Number 3?

A Yes, this is Image Number 3.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q So just describe, if you briefly want to describe what we are seeing here?

A This is just the decedent, Mr. Michael Brown, from the other side of his body, looking from the other angle before the angle is just flip flopped. So it is just the other side, you are looking at the right side of his body as opposed to the first image which was the left side of his body.

Q Okay. Image Number 4?

A Image Number 4 is just kind of an overall view of Mr. Michael Brown's face as he is as soon as the bag is removed to expose his face and rest of his upper body.

Q And this up here, that's the placard that you were talking about?

A That's the identifying placard that was prepared by St. Louis County Police Department, this is Mr. Michael Brown's face.

Q Okay. And Image Number 5?

A Image Number 5. So this is, we actually have a ladder in the actual morgue suite where you are able to get a higher vantage point to be able to get a larger view of the body.

So the officer in this particular case has got on top of the ladder, he is doing an

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

overall of Mr. Michael Brown where you can see at least down to the mid thigh, from the head down to the mid thigh and seeing the arms and the torso, and here is the identifying placard again.

Q Let me stop you here. As you say the body was, you know, the bag was opened and you examined it, are the clothes disturbed for the purposes of these photograph?

A No, the clothes were not disturbed. This is how they are maintained within the bag as soon as it is opened.

Q So nobody lifted up the shirt, nobody pulled the pants down, that's how it was when you first saw it?

A Correct.

Q Okay. At this point, are you the one who puts the body onto the table?

A Um, so from here, he was placed on this table initially within the morgue cooler, it is on wheels. So when it comes out, he is staying on here the entire time. So the entire autopsy is going to start coming from the cooler, to this part where you are seeing the pictures, to me actually doing my incisions and remove organs, so he stays on this table the entire time.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And Image Number 6, I believe?

A Image Number 6. So this is still a view from the ladder where the officer is taking pictures, here is that identifying placard and here is a shot from the head would be here, the feet are down here and you can see the hands and you can see the rest of the lower extremities of Mr. Michael Brown and what he was wearing.

Q Now, there is a white object that's affixed to his right ankle, do you know what that is?

A These are added to the body just as identifiers to make sure we know whose who when they are coming in for examination.

Q So that was placed on there by someone from the Medical Examiner's Office?

A Correct.

Q Not prior to him being --

A Correct.

Q -- deceased?

A Correct.

Q And then the next one, Number 7?

A Image Number 7, this is Mr. Michael Brown. Again, we can see the face and you can see the shirt that he was wearing, just a closer image of the face

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

and upper body.

Q Okay. Number 8?

A This is number 8. So we are looking at the right side of Mr. Michael Brown's face and you can see the shirt that he's wearing and you can see the right side of his face.

Q Number 9?

A This is Image Number 9. And this is predominantly, you know, this is the right side of the face here, the left side would be here off of the view of the picture. So you can see some of the injuries here to the right side of the face.

Q Now, before I get too far ahead of ourselves here, do you have other images in this stack that better document the injury that you documented?

A Yes, I do.

Q So you haven't, in other words, you haven't cleaned him up?

A No, that is correct.

Q And at some point do you clean him up?

A Yes, I do.

Q And is it easier to visualize the injuries after that?

A That is true.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Okay. So we'll go through these and then we will talk about the injuries when we have the other photographs. And that is Number 9 is next, I think?

A Yes, it is. This is Number 10.

Q Yes, that's right. This one is Number 9, you've got Number 10 up there on the screen?

A Yes. This is similar image to what I just showed. We are still looking at the right side of the face and what has been introduced here by the officer who is taking the photos. He has introduced a ruler, the ruler is important for scale in order to if you want to go back in time to say how big or how small things are, that's the purpose of the ruler that has been introduced into this picture.

Q Okay. And the next would be Number 11?

A So this image is flip flopped a little bit, mouth and the nose would be up here, the top of the head is here, we are still looking at the right side of the face and then you still have this ruler that has been introduced into the picture.

Q Okay. Number 12?

A This is Image Number 12. Now, we're seeing a little bit more of the left side of the face, but still predominantly focused on the right

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

side of the face and once again the ruler is here for scale.

Q Number 13?

A This is Image Number 13. And here we're looking at the right side of the face, getting a little bit lower near the draw line, jaw line depicting an injury here on the right side of the face.

Q Number 14?

A This is Image Number 14. Similar to the last image that I just showed you. The only difference is the ruler has been inserted into the photograph for scale. So we are looking at the right side of the face, again, focusing on this wound.

Q Number 15?

A Image Number 15. Flipped upside down, but the mouth would be here, the top of the head is down here, once again focusing on the right side of the face depicting injuries.

Image Number 16. So we're looking at the right side of the body, there was a similar image of this before, but the feet are down here, the head is up here, this is the right side of the body.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Now, in this image, the shirt of Michael Brown, the shirt is actually above his --

A Nipple line.

Q -- nipples? That was actually manipulated prior to the photograph?

A The shirt has been manipulated prior to this point to better get an assessment of the body looking for other injuries.

Q Okay.

A This is Image Number 17. So what we're looking at here is once again, we are still looking at the right side of the body, the feet would be here, the head is up here, you have the right arm being extended kind of perpendicular in a 90 degree angle from the table. The hand is up here, the shoulder would be down there. And we have these wounds here near the forearm, this is the forearm.

Q Okay. Image Number 18, I believe?

A This is Image Number 18. This is the right forearm and we are looking at a wound here, that is what is being depicted at this point.

Q Number 19?

A This is Number 19. We are looking at, do you want me to just go through the picture or you want me to reference them to my report at this

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

point, what is the best way?

Q This is prior to being cleaned up or not?

A It is kind of in between. It is a little bit cleaned off in order to get a better shot.

Q Okay.

A But we're still, the shirt is still on.

Q Let's go through these and then we will start with the injuries as you've documented them.

A Okay. I can just go back and pull them out.

Q We can pull them out?

A Okay.

Q And, Doctor, is it your habit when you begin to describe injuries, do you like start from the head and work your way down, or do you just pick a certain way to describe them?

A Um, my usual approach is, I kind of go in terms of more significant injuries to the least significant. So I typically will start with the things that look to me to be, you know, more immediately impactful to the life of an individual.

So when I get to the situation where I have wounds of the arms and things of that nature, those would be further down in my report. That's my typical approach when I do cases.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Okay. So we've scene the photographs of the head and the side of the body, and now we are looking at injuries to the right arm?

A To the arm, yes. So this is the right forearm and there is an injury right here where they introduce the ruler scale in this particular photo.

This is Image Number 20. We're still looking at the right forearm and this is on that previous photo, that's the wound that you were seeing and this is a new wound here on the right forearm.

MS. WHIRLEY: This is Sheila Whirley. When you say the forearm, where are you speaking of?

A The forearm, particularly is the region of your arm between your wrist and your elbow.

MS. WHIRLEY: Okay. And those are two separate wounds did you say?

A Yes, they are two separate wounds. There is one here and there is one here.

MS. WHIRLEY: Okay.

Q (By Ms. Alizadeh) At some point we will describe them and what you conclude from those wounds?

A Yes, I will.

Q We are just going through the photographs

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

in order just so we can get them all in, all right? And the next Number is 21, I think, 21, yeah?

A Yeah, 21, and similar photos to what you just saw, but there's rulers here. You still have that wound here on the forearm and then here is another one on the right forearm.

Is this 22?

Q Yeah.

A This is Image 22. So we're backing up a little bit and it is kind of hard, I can see it on my picture, we will get a little bit closer. So the head of Mr. Michael Brown is here, this is still his right arm, and this is like his torso here. What I'm going to be focusing on there is a wound right here on the middle part of his upper right arm. There is a wound right here.

Q Number 23?

A This is Number 23. And this is a closer picture of the wound that I couldn't really show too well on the overhead projector, but this is the wound in question right here. So it is on the upper portion of his right arm, but it is on the inside portion of the arm, medial.

MS. WHIRLEY: That's the medial.

A Yeah.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

MS. WHIRLEY: We talking about the armpit area.

A Close to that.

This is Image Number 24. This is just the same picture again, but you see the ruler inserted for scale and this is the wound.

This is Image Number 25, so the head of Mr. Michael Brown is here, the hand, the right hand is out here, this is the shoulder area and we are looking at the medial or kind of the inner aspect of the right arm, but what I'm focusing on right here there's another wound right here in the bicep region on the right arm. And then there is also a tattoo here on the forearm that reads Big Mike.

Q (By Ms. Alizadeh) This is 26 now?

A This is Image 26. And this is just a closer picture of that wound that I was showing before on this part of the bicep and on the right arm.

Image 27. Same image, again, of the wound of right bicep. You have a ruler introduced for scale.

This is Image 28. Backing up a little bit, but it is still the right arm,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Mr. Michael Brown's head is here and there is a wound right here on the upper part of the right arm. So here, and specifically this region would be, we call it the ventral surface or anterior surface or the front surface of the arm, but there is a wound here that I'm depicting right here.

Q Which arm is this?

A This is the right arm.

Q So there is a tattoo we saw in an earlier photograph on the right forearm?

A Yes.

Q That read downward, correct?

A Correct.

Q And in this image there is another tattoo, that's not the same tattoo, correct?

A This is a different tattoo on the upper portion of the right arm. When I say the upper portion of the right arm, I'm talking from the elbow to the shoulder. So where your bicep would be and this is a different portion of the right arm, but there's a different identifying tattoo here.

Q 30?

A Image Number 30. Showing that same wound on the front portion of that upper right arm, but the only difference is the ruler has been introduced

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

into the photo for scale.

Q 31.

A Image 31. So now we are looking, the shirt has been raised, we are still looking at the right sides of the body. So over here on the right lateral side of his chest, lateral is to the outside, you have a wound right here and that's the main thing that I'm focusing on at this point.

So this would be 32. This is just a closer up view of that wound that I just showed you previously here on this lateral part of the right chest. And this is the nipple on right side.

Q 33, it should be?

A Image Number 33. The only thing different in this photo is, the ruler has been introduced per scale. Still looking at the same wound I just showed you.

This will be Image Number 34. So here is Mr. Michael Brown's head, the shirt has been raised up further in this particular situation. That previous wound that I was just showing you was down here, there is a new wound here on the, kind of the upper part of right chest, and that's what I'm focused on right now, a different wound?

Q 35.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A This is a close-up view of that wound that I showed you on the upper part of that right chest.

Q 36.

A Image 36. The only difference is a ruler has been introduced per scale and there is also a wound out here, this is like an abrasion here on the right side of the chest. So there is two things of interest here and here.

Image 37. We have switched over to Mr. Michael Brown's left arm and what, so his head is here, this is the left side of his body, this is the left arm and left hand that is still bagged with a brown paper bag. And there's an injury here on left forearm as well as there is a tattoo right next door.

So this close-up image of the left forearm showing that injury that I just mentioned as well as the identifying tatoo.

Q Just for the record, that was Image 38.

A Image 39. Only thing different is the introduction of the ruler, still showing that injury on left forearm as well as the identifying tattoo.

: . Now, you are classifying this as an injury rather than an wound, any significance to that?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A I'll do a little better with kind of keeping things consistent once I get to one place, but injury and a wound, they are similar. But eventually when I get to the point I will be able to break it down for you, like this is an abrasion, this is a gunshot wound, and I will separate all of those out for you guys so you won't be confused. I'm just trying to get through them, I'm sorry.

Thank you.

Q (By Ms. Alizadeh) At this point you are documenting any injuries, no matter how they occurred?

A Or defects. They are all kind of the same thing. There are things that is happening to the body that he wasn't born with, so.

Q If he had an appendectomy scar --

A I would mention that.

Q With a heal injury, you would still document that?

A I would mention that, yes.

Q So I think we just did that one, didn't we? I probably handed it back to you. I thought you would want it.

A Number 40. So this is still the left arm, the bag has now been removed from the hand and

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that's the main difference with this photo.

This is Image 41, this is still left arm, the head is here, this is showing the dorsal, or the back side of the hand after the bag has been removed.

This is 42. Now, I'm flipping back over to the other side of the body and this is going to be his right hand and the bag has been removed and here you can see an injury.

Q I think 43?

A Yes, 43. Image 43. This is the back side of the right hand and this is the, you know, the right forearm, right hand, this is after the bag has been removed from the hand.

Image 44. This is just a closer view of the injury to the right hand and this is the ventral surface of the hand or the palmar surface of the hand. And that's the particular part that we are looking at.

This is a close-up of the ventral or palmar surface of the hand. This is the right hand, this is the thumb and this is the particular area of interest, there is an injury.

Image 46. Only thing different here is the introduction of a ruler. We are still

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

looking at the right hand looking at that surface where this injury is.

This is 47. So in terms of getting a different take on the hand and the injury, the hand has been cleaned off at this point. So I have removed some of that blood and material that was stuck to the hand. So this is a cleaner image of the hand after the bag has been removed and after it has been kind of cleaned off and we are still looking at the palmar surface or ventral surface or front surface of the right hand.

: Before you washed the hand, you collect under his nails or whatever it is he has gunpowder or skin?

A A good question. The question raised was, before I am starting to wash or clean the hand, do I do any type of forensics or other biological evidence from the hands, and I do.

Once the bags are removed, they are documented with pictures and in this particular case, I did do scraping underneath the nails to get material which is then submitted for analysis. And I also took fingernail clippings from both hands, which is submitted for evidence.

And the actual clipper that I

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

actually used to remove the finger nails, that is also submitted as evidence. So all of those things are done before the hand has been altered or washed. And then at that point once I have taken the fingernail clippings and the scrapings, then I go ahead and wash the hands and then continue my process.

Q (By Ms. Alizadeh) So the clippers that you used to clip the nails, those are one use clippers, they are sterile, correct?

A Correct.

Q And then regarding, let's talk about that injury to the right palm. We have seen in the photograph that you have washed it off so you can get a better look at the injury, correct?

A Correct.

Q Now, at some point you took, you cut a piece of that wound out; is that right?

A That is correct.

Q But you haven't done that at this point?

A No, I have not.

Q What do you wash the wound with?

A Usually just water, warm water and a towel or a rag, or sometimes they have like kind of like a bristle type brush to be able to scrub off that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

blood that is kind of stuck to the hand. It is pretty resilient, sticks pretty good. So just using water, warm water and scrubbing, that's how we remove it.

Q No chemicals?

A No.

Q Nothing like that?

A No.

Q Okay.

: . Water from the sink or?

A Water from the sink.

Q (By Ms. Alizadeh) Okay. So now back to the image that you last showed?

A We are at 48 now. So this is still the right hand, the hand has been cleaned, it is just a closer view of that injury to the palmar surface of the right hand.

This is Image 49. So only thing different, a ruler has been introduced for scale.

So this is Image 50 and now we are back on the left side of the body. And this is the left hand and that's that wound or injury I was showing you guys earlier. I'm trying to focus on the thumb here, there is a little abrasion there.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Now, let me ask you, let me put this back up here. We see the position of the arm and the wrist and the hand is bent.

A Uh-huh.

Q Is that being held in that position or is that the way the body is fixed?

A Most likely some of it is me putting a little bit of tension onto the hand to be able to better see the particular injury that I'm looking for, but at the same time there is also particular ways that the body, it is called rigor mortis, the body will be kind of fixed in a certain position. So there is mixtures of kind of these two events happening at the same time.

The natural fixation or rigor mortis of the body, plus me putting tension on it to get a better look at the injury that I'm trying to show in this photograph.

Q Okay. So the next photo is?

A This is Image 51. So this is a close-up of that left hand and it is just this little injury right here. Technically it is an abrasion, this is what I'm focusing on right here.

Q 51?

A This should be 52.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q 52, I'm sorry.

A Image 52. Still showing that little injury/abrasion there on the hand. And the only difference is the introduction of the ruler for scale.

This is 53. So we are still looking at the left hand and I've, I'm starting to pull this fifth finger or the pinky finger on the left hand, I'm trying to expose a little area of discoloration on that hand.

Showing you 54. So this is that fifth finger, that pinky finger on the left hand and this is this little area of discoloration, that's all I'm focusing on in this photo.

Q Just so we know, did you determine was that an injury, that little area of discoloration?

A No, I don't feel that it is.

Q Okay.

A This is 55.

Q It is getting tired.

A There it is. That's just that little area of discoloration on the left hand right here by the pinky finger. For anatomical purposes, this is the dorsal surface of the finger, the posterior or back side of the finger.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Image 56. So we're looking at Mr. Michael Brown's head is here, we are looking at the dorsal or the back side of the left hand and there's an injury right here.

Q And for the record, or just so we go through this, would you consider this an abrasion?

A Yes, I do.

Q Okay.

A As previously mentioned, this is just a closer, I'm sorry, Image 57. This is a close-up view of that previous abrasion here on the dorsal aspect of the posterior of the back side of the left wrist and there's an abrasion there.

Same image again of that abrasion on the left wrist, back side posterior, just only thing different is the introduction of a ruler.

Q And that's 58?

A Sorry.

Q That's okay. I'm trying to catch it when I can.

A 59.

Q Okay. Now, let me stop you here. So at this point you have documented all the injuries that you can see and?

A There is still one that I can see right

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

now.

Q Okay.

A There is another one that I have to expose.

Q Okay. But at this point now, you remove the clothing?

A Yes.

Q All right. And is the clothing seized and packaged by a police officer?

A Yes, the clothing is seized and packaged as evidence to the officer.

Q Now, let me ask you this. At some point is his clothing searched while he is in the morgue.

A Yes, it is.

Q And who does that?

A Usually the morgue attendant will search the clothing.

Q Were you present when that was done?

A I do not remember.

Q Okay. And so if there was anything that was inside the clothing or attached to the clothing, that would have been removed by the morgue attendant?

A That is correct.

Q And so who actually removed the clothing

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

from the body?

A

Q And is the clothing removed by cutting it off?

A Um, it depends, but in this situation it was just removed normally as you and I would take off our clothing. The only time the clothing is cut is if it is too difficult to remove it, but in this situation the clothing was not too difficult to remove, so it was not cut.

Q Okay. And after the clothing is removed and that's seized and packaged by someone else, any items that were inside the clothing is taken care of by someone else, do you then clean up the body?

A Yes, yes, I do.

Q And so this next image, which I can't remember what number that is?

A We are on 59.

Q Okay. This is now the body after the clothing is removed and the body has been cleaned of excess blood and so forth, correct?

A It is the best possible attempt to do so.

Q Okay. Now, let me ask you this. I don't know if I'm jumping back or forward here, but initially in your examination, I don't know if you

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

do this with clothing on or without the clothing on, but do you weigh the body?

A Yes, I do.

Q How much did he weigh? Do you have your report there if you want to refer it?

A Specifically 289 pounds.

Q Is that without clothing or with clothing?

A That's with clothing.

Q And then do you also measure the height of this person?

A Yes, we do.

Q And how tall was Michael Johnson?

A 77 inches.

Q And I'm not good at math, but is that 6 feet 5 inches?

A Yes.

Q I had to use a calculator before when I did that, I'm a lawyer.

A Yes, it is.

Q 6'5". Were you told how old Michael Brown was or his date of birth?

A I was told how old he was.

Q And how old was he?

A 18.

Q Okay. And in examination of his body, do

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

you make any type of conclusion about does he appear to be his stated age?

A Yes.

Q And developmentally?

A Yes, I do. That's the general approach. I do make that reference one, there are some facial injuries, but there is still enough to be able to make that assessment.

Q Okay. Now, as we go forward with these photos, the wounds that you already documented will be photographed again and now we will go and describe them.

A Okay.

Q And you document them in your report, correct?

A Yes.

Q And so when you get a photograph, let's say the name of the image, and then in your report you have these injuries as number one, number two and so forth. So let's refer to them like that. So if you want to go along in the report, ladies and gentlemen, if it makes it easier.

A I'm trying to see when I get, we're still kind of going back through and looking at tattoos and cleaning off stuff.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Okay.
A When I get there I'll do that.
Q All right.
A This is 59.
Q 59, and this is the first picture that we've seen where his clothing is removed, correct?
A Correct. So here we have the head, there is the feet, Mr. Michael Brown's clothing has been removed. Once again we have that identifying placard and this is his body without the clothing.

This is Image 60. We have the identifying placard, this is Mr. Michael Brown, this is looking at the right side of his body with his clothing removed, feet are here, head is here, that right arm is extended coming out at you.

This should be Image 61. This is Mr. Michael Brown, clothing removed and then once again the officer who is taking the photos, he has ascended upon the stair step ladder to get an overall view of Mr. Michael Brown without his clothing.

Image 62. This is showing the lower half of Mr. Michael Brown's body without the clothing and here is the legs and the lower portion of the abdomen.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

This is Image 63. Looking at the right side of the body and in here getting a better visualization of one of those identifying tattoos on the, kind of the upper portion of the right arm.

Q Now, just for clarification sake, what is this thing right here?

A That's just a paper towel that is sometimes used to remove blood or to get rid of anything that's obscuring anything that I'm trying to see.

This is Image 64. And this is just a close-up of that tattoo, you know, with the blood that was obscuring it removed from the upper right arm.

This is Image 65. This is a better image of the forearm with that identifying tattoo, still see a wound here near the bicep and this is the right arm and then that wound of the right hand.

This is 66. This is just a better image of that identifying tattoo on the right forearm, Big Mike.

This is 67. This is the left arm now, the head is here, the feet would be out here, this is the left arm and we are looking at the forearm with the identifying tattoo and that injury

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that you guys saw earlier.

This is 68. So this is the left forearm with the identifying tattoo and then there is this linear abrasion out here on the left forearm. And this is the front part or ventral part or anterior part of the forearm.

This would be 69. And with all cases we have it is important to look at the back side of the body as well as the front, and that involves the external examination. So here Mr. Michael Brown's body is being rolled by the autopsy technician

so we can document that there are no injuries to the back side of the torso.

Q You did not find any injuries to the back side of his torso?

A No, I did not.

Q How about the back side of his buttocks or his legs?

A No, I did not.

Q Now, just for descriptive purposes, you talk about front side and the back side or anterior, posterior, ventral, dorsal, those are all interchangeable terms?

A Yes.

Q When you are talking about your arms,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

because your hands can move from one way or another anatomically, would it be correct that in an anatomical diagram the person would be standing upright and their palms would be forward?

A That is correct.

Q So if you are describing an injury on the palm, that would be a front injury to the front of the hand, anterior, ventral?

A It is still ventral. The front would be anterior, it could be ventral, all of those are interchangeable terms or palmar, they are all the same, all the same thing. Just depicts the front portion of that body part in the standard anatomical position. And when I document the injury, it is always from this position. This is my reference point. (indicating)

Q So when you're talking about, for example, an injury to the forearm, your forearms move when you turn your palms outward, correct?

A Correct.

Q So when you are talking about front or anterior, you have to imagine that this is a person whose palms is facing out. We might think this is the inside of our arm, he doesn't describe it that way. So for clarification, imagine that your arms

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

are in this position like he describes where the wounds are on the arms, not so for the legs because the legs just stay the way they are.

A The way they are, yeah.

Q Sorry.

A No, that's fine, excellent point.

I think I can start trying to describe some of these.

Q So we're going to start with some wounds now?

A This is Image 70. And the wound I will be talking about first will be Number 9.

The next photo is going to be closer, but just to kind of let you know, so this is Number 9 that we're looking at. Specifically I term this is medial ventral right forearm.

So what that means is, I will stand up so you guys can see. So the normal anatomical position is like this. So when I'm saying medial, medial is in reference to, you know, draw an imaginary line down the middle of that particular extremity, medial is to the inside, lateral is going to be to the outside of that imaginary line.

Ventral, as we have already discussed before, is talking about the front part of that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

particular extremity or whatever we are looking at. It is also synonymous with anterior, front or whatnot.

When I say medial ventral, or right forearm, so talking about something that is off the midline inside, which makes it medial. Ventral meaning it is on the front and depicting a particular area which is the right forearm. So that's the terminology. So, and we're talking about this wound right here.

So this next image, which will be 71, showing a close-up of wound Number 9.

So a lot of this is just jargon for me to be able to say where it actually is on the body in terms of reference points. So with all of my gunshot injuries, I like to have two reference points.

One of them is a fixed point, so in this particular situation, I find something is going to be the right elbow and I'm going to say how far above or down it is to be able to specify, you know, the upper dimension or the lower dimension, which is kind of just your natural body axis.

So in this particular situation this wound is 15 centimeters below this right elbow, and

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

then you want to be able to say where in the midline that is and that lets me know medial or lateral.

So in this particular situation, this particular wound is 5 centimeters to the left of the anterior midline of the right forearm.

So when I say left, it is from my left, not from you looking at me.

Q From the body's left?

A From the body's left. So this is the right side of my body, since I'm going to the left, I'm going over here, that's how it gets to where it is supposed to be.

So from that point, what I want to do after that is, I measure all of the wounds in terms of dimensions to see how big it is. In this particular situation it is about 2 centimeters wide as it is long. So it is 20 millimeters by 20 millimeters or 2 centimeters by 2 centimeters, whatever you want to use. It is the same changeable amount.

Once you do that, you want to look at the edges of the wound, meaning why that is important, with exit wounds as well as entrance wounds, there is particular identifying characteristics that you can see on a case by case

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

basis. They are not always there, but there is certain things that kind of give me inside track to kind of figuring out what it is.

So in this particular situation when I'm looking at the edge of this wound, it is more irregular, it is kind of like, you know, someone kind of took a bite out of it, it is not a nice smooth circle or oval, it is more irregular. These edges are kind of tattered and look different.

So I specify how that looks to me. So in this particular situation I say that there's irregular edges, the wound is irregular and it is also clean, meaning that I don't see any type of injury to the actual edge of the wound.

Exit wounds, classically, this is kind of how they look. So once all of that is done, I'm able to say at this point that this is an exit wound.

So once I'm familiar with this as an exit wound, eventually I'm going to want to try to find out where the entrance wound is.

So we know where we are on the arm, on the right arm, we are on the inside portion of the arm and we are off medially of that midline. So this is the exit wound of that right forearm.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Let me ask you, Dr. this discoloration right here at about 10:00 on that picture, what does that mean?

A That's just blood, dried blood.

Q Okay.

A When the blood coagulates, it darkens, that is what a clotted piece of blood looks like after it sits there too long, that is what that is.

Q In your report when you describe these various wounds or injuries, you talk about there being no stippling and no soot present?

A That is correct.

Q And you didn't find any stippling or soot on this wound, but why don't you explain to them what that is and what that means to you?

A All right. So the concepts of stippling and soot. Stippling, so let's just take a step back.

You have a bullet and it's fired out of a gun, a bullet is made up of like a primer, it is kind of the igniting substance that's within the actual bullet. And when that hammer of that gun strikes that primer, kind of combusts and kind of explodes, for lack of a better word, and then lights the gunpowder that's within the actual bullet. That

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

ends up being propelled and that's what allows the bullet to come out of the barrel of the gun.

The concept with stippling is that when that primer ignites that gunpowder, in theory it all combust or burn, thus ultimately turning into soot, but when it doesn't turn into soot, you still have unburned particles that are real small, but due to the fact that they are being projected or shot out of that barrel of the gun, they are able to injure the skin. And those injuries of the skin is called stippling. So you will see little small individual dots around a wound.

What is important about the stippling is it helps you with the range of where that weapon is fired from.

So just roughly it depends on gun to gun, bullet to bullet, but roughly if you see stippling, you can say that that gun was fired a foot and a half to 3 feet to that particular part of the body. So that's what stippling is good for.

Now soot is, what I just kind of briefly mentioned, is when that primer kind of combusts, then lights that gunpowder, that gunpowder thus combusts and then it turns into soot, that's going to come out of the gun as well. When that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

comes out of the barrel of the gun that can be deposited on the skin.

The concept of soot is when you see soot on the body, you are looking at something that's closer than a foot and a half. You start to look and say that particular bullet was probably fired within 6 to 9 inches, or 6 to 12 inches of the actual body. So that's the importance of mentioning do I see soot, do I see stippling, so I describe what they are, and I describe what the importance of them is.

So at the end of the day, it is really helpful with range of where that particular projectile was fired from the gun.

Q And in this case, you do describe in each wound whether there was present stippling or soot, but this being an exit wound Number 9, you wouldn't expect to see any soot or stippling knowing it is an exit wound, correct?

A Correct, wouldn't expect to see that, so that's another thing to let you know that okay, this is most likely an exit wound. We don't see those features, you don't always have to see them. That is something that kind of puts you in that category we are not dealing with a close wound.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

: . Is there any question ever at this particular point in the examination that those wounds were caused by a bullet or anything else?

A Um, for me for the amount that I've seen, I've seen enough that I myself know that it was a projectile, yeah.

Q (By Ms. Alizadeh) You will describe in a minute the corresponding entrance wound, but sometimes it is probably just a layman's term, we call that a through and through where a projectile passes entirely through the body. Is that something you've seen in gunshot wounds?

A Yes.

Q Okay. And knife wounds would look different to you, correct?

A Yes, that is correct.

Q All right. So now have you described everything?

A Yes, so we've described all of the important features for this particular wound. I'm convinced that this is an exit wound, so I know that there is an entrance wound somewhere else on the body, so that's my next step eventually when I get there.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

This is 72. This is just showing that same wound of the medial ventral right forearm, like the ruler has just introduced into this picture just for scale.

I apologize, these things are hopping all over the place when we take pictures, we just kind of take and keep going. We will get it altogether.

Q For the sake of going through this and we've already discussed it, we are going to show every photograph and they are numbered.

A Okay.

Q So these numbers don't necessarily depict the numbers that you are photographing, or describing, so obviously we started with Wound Number 9. So I apologize, it might get kind of like a puzzle.

A If you have something you want to talk about, just write it down and we can pull it back out and talk about that, I have no problem.

All right. Number 73. So we're looking just to give you reference before I find the right number on our sheet, this is his right arm we are looking at this wound here, there is a right arm pit. And that one is actually, this should be

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Number 7.

Q Seven or Six?

MS. WHIRLEY: Is that an exit wound?

A This is Number 7.

MS. ALIZADEH: Okay.

MS. WHIRLEY: And that's an exit wound?

A Yes, I'm about to describe it. So we're looking at Number 7. So the particular location is the upper dorsal right arm.

So what we are talking about is, remember I was telling you about the forearm is going to be from the wrist to the elbow, the upper arm is going to be from the elbow to the shoulder. So upper arm, that's where we are at. And then when I say dorsal, and dorsal means the back part.

So we are looking, you know, anatomically speaking, if you turn around like this, if you look back here, this is kind of where this wound is. It is here. So that's the dorsal part of the upper part of the right arm. And then that's where we are at right now in terms of position.

Now, once you look at it, what is important is now I go through that same type of algorithm that I had before. You want to look at the contour of it, so this one is a little more

Electronically signed b d0e125b1-3744-4b93-80e6-f9de22cfbddf

stretched out, more linear as opposed to that other wound, which is a little more irregular. Not really a big deal, but you still want to take the same type of approach in describing what you see.

So this particular one, that's kind of the shape and it's length is 18 millimeters by 10 milliliters. In terms of location, I do that again, two fixed points. When I say how far it is from the shoulder and say where it is from the midline, I've done that.

Then you want to assess the edges, meaning assessing the edges is determining how they appear to you because that is going to be important to determine whether it is entrance or exit.

In this particular situation, they are a little bit irregular, but there is no type of additional margin around it, it is still a clean wound.

So when I say clean, there is no contusion, there is no abrasion around it, it is just coming, coming right back out the skin, making really no abnormalities to it.

So with me seeing that, this once again let's me know that this is another exit wound, but on a different part of the body. I know that I

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

have an entrance wound someplace else. So this would be Number 7 where it is located. Do I have any questions about that?

: . So what explains the elongated hole rather than a round hole?

A A lot of times it is the actual tissue of where it is. So if you have an area where there is more fat on the arm, this particular area you can get a more elongated wound.

You have different types of soft tissue make up there. So depending on where you get hit, you are going to see different types of orientation of the wound or contours of the wound. So that is kind of a more fatty area of the body, so it is going to stretch out a little bit more as opposed to a place that's tighter, where the skin is tighter, you are likely going to see a different type of wound and more irregular.

If you feel your forearm yourself and you kind of tense it up, your forearm is lot tighter as oppose to the back side of your arm.

This is Image 74. And this is the same exit wound and we're looking, only difference is we just introduced the ruler for scale.

This is Image 75. So we're looking

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

at Wound Number 11 on the autopsy report. We are looking at the ventral surface of the right thumb, or near the ventral surface of the right thumb. So anatomical position like this. So we are looking at the front part, anterior part of the ventral part of the hand. We are looking at the right hand is where we are at right now.

This is 76. There is a lot going on here and I will just try to do it step by step. Wound number, so this is 76, Wound Number 11. So we are looking at the ventral surface of the right thumb.

So in terms of describing this one, this wound has looked a little bit different than the two that I just kind of showed you guys earlier. This one is more elongated, meaning it is more stretched out as opposed to being like a circle.

When you look at it, what is important to realize is appreciating the elongating nature and then two, there's these little tags that you see, kind of like little sharks teeth. These tags are ultimately going to be important for determining the direction that you can say the bullet is coming out of the gun and how it struck his hand, but I will get to that part after I kind

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

of describe it.

The fact that I'm looking at this kind of elongated wound, I'm seeing this kind of shark teeth, call them skin tags. I know that this is like a graze wound or a tangential wound. Tangential just means that it is going parallel to the surface of whatever it is striking.

So in this particular situation, got that, and then you want to measure it, which we've done. And the measurement is just five centimeters by two centimeters, and it is orientating kind of a 12 o'clock to 6 o'clock fashion. It is 12 o'clock to 6 o'clock based off the anatomical position. So we are kind of going from down, or down to up or however you want to do it, it is no big deal.

All right. What is important about these skin tags is how it lets you know what particular way the bullet is coming from. The skin tags point towards where the gun, the barrel of the gun is.

I'll come up here and show you. If the gun, the barrel of the gun is pointed this way, this is the way that the bullet is going to be traveling. These skin tags point back towards the barrel of the gun. You can't refute it. It is what

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

it is. These tags are pointing back this way. They are pointing towards this.

So I know for a fact that the bullet is coming this way. It is going like that. (indicating)

Now, in terms of the anatomical position of the body, in order to keep both reference points the same, I'm still like this. So the reason that my trajectory is up is because it is just going up based on what the body is going towards the head because I'm like this.

In real life did it go up? Can't really say that, but just having the anatomical position of how I have to stay static so that I can have a reference point every time that I can discuss these, you have got to keep yourself like this and my direction of upward is purely based off of being like this. I want you to make sure that you understand that.

So what I know at this point is I have a tangential wound, I know which way it is going, I know which way it is coming from.

Now other things that are important at this point with this wound, I can see it better on here. It is better to see the discoloration that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

you have. You can kind of see, it is kind of dark here, kind of black, but here is it is a lot darker. Can I show?

If you look at the hand, and I will kind of walk around. If you see that material in there, you can't really appreciate it too well on the screen, but that's something where we are talking about soot and talking about stippling, this is where this is coming into play. This isn't stippling, the stippling, I told you, is unburned particles that cause the little dots on the skin. This is soot, which is the burned gunpowder that's coming out of the barrel of the gun and it is being deposited on the skin discoloring it and leaving it there. So there is soot there on the hand.

MS. WHIRLEY: So what does soot look like? So that means that it was a close range to the gun? This entered his body or grazed his body at a closer range to the gun than it would be if it was stippling or nothing at all?

A Correct.

MS. WHIRLEY: What does soot look like?

A Soot looks like, like you get charcoal and kind of the stuff that you have left over that is just black matter. That's what, it is just

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

particle. So it is an organic particle left over. It is going to leave a smearing or something on the hand.

Q (By Ms. Alizadeh) Kathi Alizadeh. Dr. you did examine a piece of that tissue from that wound under the microscope; is that correct?

A Yes, I did.

Q I mean, we can go ahead and talk about that now since we are talking about this wound.

A Can I make sure they all see good, so then I will talk about that.

: . So front of the body facing this way, it can also that it entered, can it be entered this way too?

A Well, just how you did it, it has to be like that. If you are sitting there, I have to be above like that for it to come. That's the only way it can come, it can't come any other way, or if you are like this or you are like that or you are like this. There's lots of different ways regardless, it has to be coming at you that way, you can't get it coming this way.

Okay.

A It has to come from this way, this way,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

something like that.

: . What again is the maximum distance you would expect to see soot?

A Soot, it depends, it is a gun by gun basis. It is a primer, gunpowder thing, but about 6 to 9 inches roughly where the discharge of that material would be left on the body.

: Is there a middle distance, like if his hand was on the end of the barrel, would you still see the soot, so it is up to that 6 to 9 inches?

A You would still get some discharge of material if his hand was there, but the problem with that is, so when you say hand, you mean like?

He was reaching out struggling for the gun?

A You are like that, the wound is going to look different. Now we are dealing with a contact wound. If you are talking about actually physically holding something, that's something extra and different.

And for myself, let me take a step back about the soot and stippling. Stippling, when I see it, that lets me know that I'm dealing with an

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

intermedia type of wound, meaning that it is like maybe like a foot and a half to 3 feet away. Then I have indeterminate wounds where I don't see stippling, don't see soot, I do know it's an entrance wound, so there is nothing extra on the wound to let me know about closeness. So in that situation, those are called indeterminate. They are probably 3 feet or further away, that's all I can say.

Soot, like we just discussed, we're talking about 6 to 9 inches. Contact wound, if it is a contact wound, so we are talking about we are up close and personal to whatever it is.

So with that you are going to see different type of characteristics on the scene, you are going to see more searing or burning of that skin because there is hot particles and gas escaping from that weapon that are going to cause alterations of that skin surface.

And when you actually examine the wound, you may see that soot type material deposited deep into the tissue or be black and deeper on the inside than the outside, or you may see a muzzle imprint. A muzzle imprint is where the end of the gun actually is so close to the skin surface or body

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

surface where it leaves the end part of that barrel imprint on the hand. So those are some of the things you look for a contact wound.

So closest thing you've got of a contact wound, next is a close range wound with the stippling, I'm sorry, soot. And then intermediate is where we are dealing with stippling, and then the last thing is indeterminate, too far away, you can't determine. That's kind of my range of wounds and what the actual terms of contact, close, intermediate and indeterminate mean.

. This is telling us that it was a closer range and that the hand was open, not around --

A All I can say it is a close range wound. For him to get that, he is within 6 to 9 inches of however scenario you want to create in your head, that's all that that means.

Q (By Ms. Alizadeh) And you also know the angle that the bullet traveled across the skin?

A Yes, we know that too.

Q And the direction?

A We do know the direction.

Q Okay.

A So the next thing is, is there another way

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

for me to determine that it is soot.

So as I said before, when I'm doing an autopsy, part of a complete autopsy examination is sometimes you have histology. Histology is the preparation of tissues that you take from the body, you process through some dehydration steps, alcohol step, you eventually put it into a block of paraffin wax. Where you then take microtone, which is just a blade and cut off a very thin silver of that tissue, put it on a glass slide and then using different type of dyes, pink dye, a blue dye, you are able to stain it. And then I get a slide back and then I put that under my microscope and then I can see the histology. That's just the study of tissues under a microscope.

In this situation I took some small pieces of skin from those areas of discoloration and I did histology on them. I got those back, and I looked under there, under the microscope. And when I can see in my actual skin sample is, I see foreign particles of matter, and what that means is, there is some of them are pigmented, some of them have different colors, but there is material there that he wasn't born with that had to be introduced into his skin as foreign material. I know that much.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

So I'll let you hop in if you want to.

Q No, I think you covered that well. I'm not a doctor, but I play one on TV.

A So at that point that's all I can truly say that this is what I have, it is foreign particulate matter that had to be introduced into his skin.

Now the next step is well, okay, where did it come from.

I can at this point say from what I've seen from textbooks that I have looked in histology and from what I have seen in the past, the material that I'm seeing is consistent with products that are discharged from the barrel of a firearm.

So that's why I can look at that picture on my eye, it looked concerning for some type of extracorporeal, meaning something that is coming from outside of the body. Some extra matter that I wanted to figure out what it was.

It is not something that he woke up in the morning with or something like that, but taking those samples with my pictures as well as looking at the histology, was consistent with products that are discharged from the barrel of a

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

firearm.

And lots of products come out of a firearm. You have primer material, you have metal fragments, gunpowder, soot, you get all kind of things. There is mixture of things that are in there, that are foreign. That's why I say it is consistent with products discharged from the barrel of a firearm, does that make sense?

So did everybody get, I didn't get to specifically say the areas I'm concerned about, you can see the dark.

: I have one question,

So that wound, the hand wound, so basically the projectile, there was no exit wound?

A Exactly, it is just running along the skin surface. It is a graze wound.

: It is a graze wound?

A Just running along the skin.

MS. ALIZADEH: , are you Juror

I'm sorry, .

MS. ALIZADEH: He wanted to be promoted.

A We are on 77. The only thing different, we are just introducing the ruler for scale.

This is going to be Wound Number 10

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that I'm going to talk about next. And specifically the region on the body is, it is the right bicep, which is here, the bicep is just the muscle that is in between your elbow and attached to your muscle here, the deltoid, which is your shoulder muscle, that's the area that we are talking about. We are talking about this wound right there.

In particular this one too is similar to the other one that I just described, this is also a graze wound or a tangential wound, meaning that it is just running along the surface of the skin.

Now, what is different about this one is, this is going to be Image 79. So I'll just describe it first and then we will get to the differences between the two.

So this one is located 6 centimeters above the level of the right elbow, so it is a flat fixed point, so it is up above the elbow and then it is just to the left of the anterior midline. So it is more kind of medial than anything. It is going close to here as you saw in the picture.

So the wound is measuring 3 centimeters by 1 centimeters. In terms of how it is positioned, it is kind of going, you know, I guess you say this is 9 o'clock. So the face of the clock

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is here, this would be 12, this would be 6, so it is going 9 to 3. So it is going in kind of a horizontal fashion.

Now, this one, what's different is, the other one had nice skin tags, we could determine the directionality of the wound because it went deep enough and it also hit a part of the body where the skin on your hand is pretty tight. So it is more resilient to being disrupted. So it is going to pick up more changes of damage.

With this particular situation, you don't see any of those skin tags and what you do see is a drying or an area of discoloration here on the outside of this particular wound.

And when I palpated it, meaning touched it with my fingers, this wound was very hard and was very firm.

So in this situation, this is not soot, this is not any gunpowder, this is just the drying of the edge of the wound where some blood starts to leak out around the edges and interactions with air and interaction with clotting, it turns dark.

So this is just discoloration from dry blood, this is not soot or anything like that.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

So in terms of determining distance on this one, I can't. In terms of trying to determine directionality, I cannot. This is something that came from greater that 3 feet away. I don't have any characteristic things of stippling or soot or searing or muzzle imprint to determine how close it is. So this thing is farther than 3 feet. I don't know exactly even which way it is coming, but I do on, you know, you do mention the directionality of it, the three, I can't even say. There is nothing to let me know which way it is coming from. So that's that wound and that is how it is different from the hand wound, but it is still a gunshot wound nonetheless, but a different type.

Questions about that one?

Number 80. This same image, still the right bicep, still that tangential graze wound.

This one, just a second, let me get my bearings.

Q (By Ms. Alizadeh) Can I stop you for a second? I'm not peeking, but I don't know if you need to take a break to return the call?

A Yeah.

MS. ALIZADEH: We'll take a quick five minute break. We are going off the record.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

(Recess)

A This is 81.

MS. ALIZADEH: Okay, hang on, are you ready? We just took a brief break and the witness is still testifying, you are still under oath, Dr. all 12 grand jurors are present as well as Miss Whirley, myself and the court reporter. Please continue.

A So this is Image 81. On your paper, on the report where I have Wound Number 6, the I specific area of this injury is the upper ventral right arm. So what I'm talking about here is roughly, you know, kind of here in the area of the bicep.

You have a gunshot wound here, so it is the upper part, meaning in between the elbow and the shoulder. The right arm, and then dealing with the ventral portion, which is the front part of the arm. So that's where this wound is.

And as I said before, I go through the same process of documenting the size and the actual location on the body were two fixed points. So this one is 20 centimeters below the level of the right and 1 centimeter to the right of the anterior midline of the upper arm. This particular wound

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

measured about 10 millimeters by 10 millimeters, or 1 centimeter by 1 centimeter.

Now, what is different about this one and what I was showing you guys before is, I showed you one wound that was more irregular, some tissue was kind of coming out, there was a little piece of clotty blood, it was more elongated, it had clean exits. This one is more oval in shape.

And what I can see here on the picture, which is demonstrated a lot better than here, but the difference between this one, first thing is oval in shape. You can make right here a little bit of pink tissue right here. You can make an argument is that an abrasion. A definition of an abrasion is just the superficial layers of your skin are rubbed off and it exposes the pink of the white meat of your hand and that's what an abrasion is.

So when these bullets come in, they don't always go straight in, they can come in at different angles. So when it comes in and it starts to rub that tissue off, that's what an abrasion ring or an abrade is on a gunshot.

If you see that, that's kind of indicative of an entrance wound. So in this particular situation you can make an argument is it

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

there or not. I said it wasn't really definitive, but you can see a little bit there. But around it, it is kind of like a little bit of a reddish hue and that's kind of like a contusion ring.

So there is an injury to the skin from the outside going in. And so this part, when you see that, these kind of features together this lets me know this is an entrance wound.

And then the flip side of the exit wound, the exit wound just pretty much it will stay the same color, brown color of the skin, you can see a little bit of purple around it, you can see a little bit of pink, but it is pretty much just the wound. That's the difference between the two and those are the little small differences that you are trying to look for to be able to appreciate when you are trying to separate out an entrance wound from an exit wound. So that being said, this is an entrance wound.

Now at this point, what I do now is that, take a step back.

With cases I can also do x-rays with gunshot wound cases where people are dying from wounds or gunshot wounds. You want to be able to x-ray the body to be able to one, determine where

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

there are projectiles, to also see any type of injures that may have fragmented the bullet, or to be able to help with the path of the bullet. Main thing is to see you still have evidence in the body.

So the whole body in this case has to be x-rayed from head to toe. So this particular part of the arm that we're looking at has been x-rayed. So when you look here at what I'm talking about. Eventually I say, x-ray showed bullet fragments associated with that wound, that's what that means.

So in terms of also looking at range in this case, I said that there is no stippling identified, there is no soot identified. So that lets you know that we're dealing with another one of these wounds that is at least 3 feet away or greater. I don't know, I can't tell. I just can't assess it because I don't have those distortional changes of soot, gunpowder or stippling. They are just not there, that's that part.

Now, once that's done, you want to be able to say, okay, I've got the entrance wound now, I should have an exit. So this story now completes that exit wound that was up here by the, kind of the fat up in the armpit, that this entrance wound is

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

related to that exit wound. So once I know these two are related, now I have determined the path and the path is based off of what I told you all before is off of the anatomical position of the body.

Now I know I have the in, got the out, then I can say what is trajectory of the body.

So in this particular situation this bullet is going slightly upward, instead of backward, and it is going up, meaning that where it comes out at is a little higher than where it comes in at. That's the upward, upward talking from the feet to the head like this. So it is coming out a little bit higher than where it came in at, that's upward.

Backward means this is the front part of the body, this is back part of the body. So if it is coming in here, going out there, you know it is going front to back, so it is backwards.

In terms of the actual left to right, it is coming back a little bit this way on the body. So it is coming to my left and coming that way. So that's the trajectory of this bullet. A little up, a little to the left and it is going backwards that's the trajectory. It is based off of like this not, you know, jumping around, it is just like this.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Now, once that's done, you need to say the actual path in terms of the layers of the skin, soft tissue, everything in between you want to say what will it track through. So in this particular situation, underneath the arm of the skin, it went through soft tissue and then it came out of the skin on the back side on the right arm.

So that's the actual path going through the body that it went. So soft tissue, so skin outside, soft tissue is everything like muscle, fibrous tissue, all of that stuff that is on the inside of your arm that is not bone, even blood vessels always needs to be considered soft tissue.

So it went through there and came back out the skin, so it did not hit the bone. Hit everything else in between there except the bone. So that is what I mean by going skin, soft tissue, exit wound skin.

So now we have one of those tracks kind of together. So we have the in and we have got the out, and that is what is going on right here.

Questions?

I have a question. So given the elevation of the entrance wound to the vehicle, does that tell you anything

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

about the elevation of the weapon used? The injury and exit describe the upper going through the back, I assume it does not necessarily give you any idea where the elevation of that weapon was?

A Exactly. You have to think about it an arm, this arm can be in so many different type of ways. It is very difficult to be able to say exactly what elevation you are dealing with, that's why the arm is very difficult.

The fact that you've got you have an elbow joint, you have a shoulder joint and then the wrist, you have a lot of mobility within that arm and it can be in a lot of different scenarios. It is very tough and even impossible for me to say.

Q (By Ms. Alizadeh) And, Dr. not necessarily with this wound, but have you found in your experiences that often with projectiles that enter and pass through the body, it is not always necessarily a straight path, depending on if they hit bone or if they pass through other types of tissue, you can't necessarily say if it went straight through, that that was the angle that the bullet entered from and so forth?

A And that's correct. You have to be cognizant of that fact that there are things that it

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is hitting and going through that can alter the flight or trajectory of that bullet.

This is 82. Same wound, only difference is there is a ruler for scale.

This will be 83. We are looking at Number 8. Should be the dorsal right forearm. When I'm saying dorsal, anatomical position. This is the front of the forearm, and the forearm is between the wrist and the elbow. This is the front, dorsal is the back. So we are dealing with a wound here on the back side of the right forearm, and that's right here.

And I've already talked about its associated exit wound which is here on the ventral part of the forearm, which is medial. Here is the entrance and here is the exit, I'm going to talk about the entrance now.

So we are at Image 84. This is just a close-up view of this gunshot wound here on the dorsal part of the right forearm.

So doing same thing again, always want to measure from a fixed point as well as imaginary line, it separates left to right, which is the medial from the lateral.

So in this particular situation, it

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is 16 centimeters below level of right elbow and 2.0 centimeters of the posterior midline of right forearm.

The hole itself was 11 centimeters by 10 centimeters. So it is very similar in size to that last exit wound that I showed you that was part of the ventral arm.

Looking at these edges, which is important to do every time. These look, the shape is kind of oval, but what you can start to see now, if you look at this little edge, there is a little bit of a rim of kind of red tissue right here to the outside, a little bit brown. This is kind of a good classical abrasion margin. So the abrasion margin is the thing I talked about before, kind of almost definitive, it lets you know this is an entrance wound, in the right situations.

There is some other situations where you can see this, but it is not an entrance. I'm not going to confuse you with all of that right now.

But this has the classical features of kind of being round to oval, having a nice abrasion collar right there on the outside, that's kind of critical and that's key.

So when I see that, without getting a

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

probe, I also probe the wound with just kind of a little flexible rod to make sure my entrances and exits they are communicating together as they pass through the skin.

Sometimes the rod won't pass through and I may have to open up the arm or whatever to see the actual wound track just to verify. Most times they will communicate and I probe these wounds to make sure that they are connected so they are not just a hole here and here. I'm just assuming they are together. I make sure I probe them, I make sure they are in communication whichever. This is the entrance wound here on the right dorsal forearm.

So once that's being said, this particular body part, and in this situation when it is being x-rayed, there is little small metallic fragments that are showing up on an x-ray. And most likely these metallic fragments are fragmented bullet and the reason that it's fragmented is, is when this passes through the arm, it hits a bone in the forearm.

You have two bones in your forearm, you have the radius and you have an ulnar. Your ulnar, if you feel your arm, you kind of feel the bone that is on the medial part of your arm, that's

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

your ulnar. The other part of the forearm out here, that's your radius. So it kind of makes sense that this exit wound that came out of that medial part of the ventral forearm, that it hit that bone.

So when it came from out here, kind of where it is. When it passes through, went through those soft tissues, it hits that ulnar bone, shattered it and then that bullet came out.

So going back to your question, why do exit wounds look different and look odd? So if you have a projectile that has now lost its normal shape and it is fragmented when it comes out of that skin, it is going to have a different shape as opposed to something that stayed intact.

So that could be an additional reason for why you may see something elongated, some more irregular, you have to take into account the fact of what that bullet's actually doing when it strikes objects within an actual body. And a bone is a hard substance and it can be deflected some, so the actual trajectory is going to be, is going to be slightly upward, forward and left.

So once again, it is going, this one in this situation is because the entrance wound is on the back side of the body, which the trajectory

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is now forward because I'm like this, but it is coming from the back and going to the front, so that is why it is forward. That makes sense it is just purely based off of this position, not like this or anything like that, just like this. So it is coming back to front, and so that's the forward part.

And in terms of the actual things that it hit, I have actually kind of said it a little bit, it is going through the skin, soft tissue, hitting that right ulnar and hitting the soft tissue again and coming out of the skin, an exit wound. So now we have another communication of a wound path.

So we have entrance and exit right here on the back and the dorsal part to the ventral part, and we just talked about the one that's coming in here on the ventral part of the upper arm and coming out of the dorsal part of the arm, so got that both taken care of.

Image 85. Same wounds, just introducing the ruler for scale.

Q Just so we are clear too, right here, is that an injury or just dried blood?

A That's just dried blood.

Q Okay.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A A new wound here, 86. We are at Number 4, the right front chest. We are specifically talking about this wound right here.

Just to describe the image, you have Mr. Michael Brown's feet here, his head here, instead of laying on his back you can see another wound here and this is one of interest. You can see the entrance to the right side of his face.

This should be 87. So this is a gunshot entrance wound to the upper right chest. And as usual, I always do two fixed points to determine where he's at on the body. So in this particular situation it is 16 centimeters below the level of the hole of your ear going down this way, and then it is to the right of the imaginary midline of the chest, so kind of right there.

In terms of the actual dimensions of the actual wounds, it is 15 centimeters, 15 millimeters by 10 millimeters. It is oval in shape, meaning it is pretty round.

Now the edges, I always assess those to determine entrance or exit. When you look at this one, you can see a little bit on the edge, there is a little bit of a defect there, right there on the side, so that's the abrasion once again.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Just letting you know that this is an entrance wound. This one, I just want to show, just show them real quick, this is kind of hard.

MS. ALIZADEH: Sure.

A See that area right there on the edge? That's the abrasion that I'm talking about.

Q (By Ms. Alizadeh) You know when you are talking to them, keep your voice up because he has to take down what is being said, okay?

A I'm sorry. So this little area on the side of the skin, that's the abrasion, right, that I'm talking about, the abrasion collar.

So we have an abrasion collar.

MS. ALIZADEH: Is this the same picture?

A It is this the same one.

MS. ALIZADEH: I think you flipped it. Is this the orientation that we did before? Yeah, yeah, yeah, yeah.

A Yeah, okay.

Q (By Ms. Alizadeh) It confuses me.

A Sorry. So his head is here, feet would be here, this is his neck right there.

Okay. So we've dealt with the fact that we are looking at the abrasion collar or the abrasion ring, so that is letting me know that this

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is most likely an entrance wound. At that point you want to be able to look for any additional injuries that need help with range.

So there is no soot, meaning kind of that discoloration that you see around wounds and there is to no stippling, that would be those little small dots that you see around a wound, you don't have that.

So once again, I'm looking at a wound where there is an indeterminate distance, is the body greater than 3 feet away. So that is all I can say.

Once I know that, I move to the next part saying what's the, you know, looking at my x-rays to see if there is any fragmented bullets, any projectiles I need to get for evidence, that's the next point.

So in this particular situation, when I did the x-rays, there actually was a bullet associated with this wound that I knew that I had to get on the inside of the body that I end up doing when I do my internal examination.

So like when I told you all at the beginning when I said external and then internal, so when I take all the organs out and looking at all

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

the damages that happens to the organs, at that point I start looking for that bullet.

So before anything even happens when I look at the x-rays before the case starts, I know I have a bullet there okay.

Q If we can, go ahead and describe, I know, you know, they all know that you opened up the body and assess the injury to the various organs. Can you go ahead and talk about that in relation to this wound generally and then there will be later photographs and discussions about that?

A All right. So when this one passed through, went through the skin and hit the collar bone right there and then went through, hit the upper portion of the right lung and then it went in between, so your rib cage, you have to think of it like a bare front part. Your ribs wrap all the way back to your spine. So when it passed through, your body is three dimensional looking from the side, it comes in here, passed through that skin, soft tissuing, hitting that collar bone right there, hitting the upper portion of the lung and then burying itself in between the intercostal space of the third rib.

So intercostal means, so you have 12

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

ribs total. Think of that as a ladder. So you have rib one, you've got rib two. In between rib one and rib two that's called the intercostal space. That is just the spot in between two ribs. So in between ribs three and four, that's where I got the bullet from this particular wound.

So when this bullet went through the lung, it damaged the lung and created a defect. I think the defect is 2 centimeters in dimension. And then at the same time there was blood present within the thoracic cavity. The thoracic cavity are the chambers, you have two on both sides of your chest cavity. You've got a left side, you've got a right side.

So within that right side, 400 millimeters worth of blood, which is a decent amount filled up within that side of his body. So those are all the main kind of injuries associated with the path of this bullet going through, hitting that bone, hitting that lung and then burying itself in the back part of the thoracic cap area.

MS. WHIRLEY: Sheila Whirley. With that wound, would he have been able to survive that wound?

A Eventually, it would have, it would need

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

surgical attention. If it is not addressed, it could have been a lethal wound.

MS. WHIRLEY: But it was not the fatal wound in this case?

A No, it is not. Not the immediately.

Q (By Ms. Alizadeh) Could someone who have sustained this type of injury, would they be immediately disabled?

A No, they would not.

Q So they could continue to stand?

A Correct.

Q They could be mobile for a while?

A Correct.

Q Okay.

: . The trajectory entered here is that it hit the collar bone, did the collar bone deflect it downward, you think, the path of the bullet?

A It is possible, but it is hard to tell exactly what role that is going to play with the bullet. It is a wild card. You know, if it wasn't there, it went straight through the body, came out the back we all know, but the main thing you can say about it is, it is going to slow it down. It did fragment the bullet, it kind of broke it up a little

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

bit and it is going to slow it down, but that is about all you can really say. It is kind of an intermediate thing in between where it stops.

: You can't say it is a downward shot, it could have been a straight edge shot?

A It could be straight or down.

Okay.

A You have to think about your head too, your head is on a pivot, so pivot, you know, like that. And say something is passing through it is possible it could do that or it could be a straight on shot.

That's the variability that you have with wounds when you are dealing with something close to a joint or something, close where something can pivot around because you can get an exit from something from someplace else and reenter another place in the body. And that's what makes it difficult when you weren't actually there.

Q (By Ms. Alizadeh) So I'm not saying this is true in this case, but you are saying you can have a bullet that would pass through someone's arm, so you have an entrance wound and exit wound of the upper arm, for example. And then the bullet can

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

then reenter the chest cavity?

A That is correct.

Q And do you have any way to know whether that was the case in any of these wounds?

A No, I do not.

It was mentioned earlier, do you have any indication that the grazing from the hand could have been one of the chest entered wounds?

A It is possible if your hand is in the right way for that to happen, it is possible. But all I can say about that wound is that, I have an idea of range and I have an idea of directionality, but that's really all that I can -- I definitely know from my examination, but after it left there, there is a lot of possibilities.

This is 88. And the only difference with this one is the introduction of the ruler.

A new wound here. This is going to be Number 5, lateral right chest. So as always, this is a gunshot entrance wound, it is located 20 centimeters below the level of the right auditory meatus and then it is to the right of this imaginary midline of the chest. That is how you know where it is located.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

In terms of the size, it is 12 millimeters by 12 millimeters, and this one kind of has a little kind of a teardrop or somewhat of a oval type shape to it.

There is a very small abrasion ring around it and that is just that defect that you see associated with wounds and when bullets pass through the skin, it rubs off that little area as it is entering. So that is kind of letting me know that this is an entrance wound.

As I always do, want to try to help yourself with range if you can. So I look for soot and I look for stippling. There isn't any on this wound, so now I'm dealing with another wound that is most likely greater than 3 feet away. I don't know how close, it is an indeterminate distance.

So x-rays are done, so there is a bullet associated with this wound as well. And it is further down in the body and I recovered it from the lateral part, which is kind of out here, of the right back. So it is kind of coming up here, but I end up getting the bullet out around down here, just so you know.

So that kind of lets you know there is a downward trajectory with this particular wound

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that is based off of this position. So it is coming in here and getting here, you already know it is going down.

MS. ALIZADEH: has a question, Doctor.

: I notice on both of these that there is other like bruising and other stuff?

A What are you referring to?

The other picture, just the last wound that we saw.

MS. ALIZADEH: You want to point with this?

A This picture.

Both of them around the wound. All of this stuff around here, is that normal, is that bruising?

A Are you talking, like this?

Yeah

A That is just kind of smeared blood.

I know it was worse on the last one.

A That is not bruising. So bruising, the technical means contusion. So bruising, contusion these are kind of synonymous words.

The difference between that, and this

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

is just kind of being an artifactual thing, this is something on the outside of the skin, it is on the surface. A contusion or a bruise, that's blood underneath the skin surface. So it is like, you know, someone punches you, kind of turns blue, green whatever over time, you have blood underneath your skin that is going through the process of changing colors.

So in this situation, this stuff that's here, this is just some artifact and just kind of cleaning off the wound and it is blood that kind of transfers from here out to the skin so that is not a contusion.

Okay. Now, so we got the trajectory, you know, in turn, what did this pass through. It went through the skin, it went through the soft tissue, and as it is going down, you have got to once to think about your rib cage, kind of like a barrel.

When it goes down through that skin, you have ribs kind of jetting out there, it kept going down and that rib, that eighth rib, you have 12, it is kind of sticking out and the bullet hit that. It fractured that rib and it kind of bounced off a little bit and just stayed in the soft tissue.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

The problem with that injury is, when that rib fractured, it fractured to the inside and the lung, the bottom portion of the right lung he had got punctured because of the breaking of the bone.

So there is an additional injury to the lung further down. You have got one at the top too, one in the upper chest, now you have one further down. So there is a puncture wound from a bone breaking from a bullet hitting it, and you have got one that's just a gunshot wound that is actually hitting the lung.

So there is going to be a little bit of blood coming out of that wound as well. So these two gunshot wounds technically of the chest, that 400 millimeters of blood is going to be associated with both of those wounds. And so it is important to know that those can be ruled the same, they are both causing injuries to the body that if not corrected, it could end someone's life, but in this situation there is another wound to the head that I'm going to talk about. I just want to make sure that you understand the separation of the two.

Q (By Ms. Alizadeh) So, Dr. this wound then, without medical care could be fatal, but

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

not immediately so?

A Exactly.

Q And again, with this type of wound, a person sustaining that would they be able to stand and be mobile for a while?

A Yes.

Q Okay.

: . There is nothing else sequencing of these events, correct?

A For this wound here, no.

: Fatally, you know what the final one was, you don't really know --

A Right.

Q (By Ms. Alizadeh) So far, just to be clear, and we don't, you can't say so far the sequence of these wounds?

A Not right now, no.

Q Which one happened first, but none of these wounds would immediately incapacitate someone?

A Correct.

Q Okay.

A So this is the same wound that we are looking at. The only thing different is the introduction of the ruler. I'm sorry, I didn't say a number. This is 90, I'm sorry.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

91. So the head of Mr. Michael Brown, we are looking at the right side of the face. And the wound that I'm going to be getting to next is going to be Number 3. It is going to be right here, it is going to be an exit wound of the right jaw.

This is just showing from the top down, just showing some more wounds of the face.

This is 93. So this is his neck, this is the top part of his head here and you have this exit wound here of his right jaw. So let's walk through this one.

So this one is located about 5.5 centimeters below the level of the right ear hole and then it is to the right of the anterior of midline of the head, which is like that. So it is to the right. The hole measures 15 millimeters by 9 millimeters.

Now looking at the contours of it, the contours meaning the edges, I do that on every wound that I see, the gunshot wounds. If you look at this one, you kind of see this little edge is kind of flapping over a little bit. You don't see those good little peak margins that are around it, it is a little more irregular, it is not as smooth.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

And you kind of actually see a little bit of tissue kind of streaming out there and a little bit flopping out of the wound to the outside.

So when I look at all of the constellation of all of these things, this is letting me know this is consistent with an exit wound.

I don't see any stippling, I don't see any soot, shouldn't see that in an exit wound, but the thing is it is a little more irregular, don't see a good abrasion ring, don't see a good contusion, don't see any bruising, don't see anything that I typically see in a situation of an entrance wound, so I know that's an exit wound.

This is going to be in relationship to another wound that I will get to eventually.

So this is 94. And the only thing different about this is the introduction of the ruler.

Q This is 95?

A This is 95. This is the right side of Mr. Michael Brown's face. I am wanting you to focus on this wound right here, which is a gunshot entrance wound. This stuff here, these are abrasions. I'll just describe them.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

So up here on the right forehead, this kind of irregular area right here. This is an abrasion, as I said before, an abrasion is just where that superficial layer of the skin rubbed off and exposes that underlying soft tissue. That particular abrasion right there measures about 7 centimeters at its greatest dimension, kind of the longest point.

Then there is one over here on the lateral part of his face, it is kind of dried, meaning when I say dried, see how it is kind of discolored, this is more pink, this is dried. That's an abrasion right there on the right side of the face.

And then let's see. And then over here, you will see it later, out there on the lip he has got some abrasions here on the inside of this lip.

But back to the gunshot wound which is going to be the main thing I'm going to talk about next and that's going to be number two on your autopsy report.

This is 96. Only thing different about this photo than the last one is just the introduction of the scale with the ruler.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

This is 97. So this is this gunshot entrance wound of the central forehead. So it is located 7 centimeters above the right ear hole and 2 centimeters to the right of the anterior midline of the head. So the imaginary midline of the head is here, it is 2 centimeters off to the side. So that just kind of locates the wound.

The whole measures 15 millimeters by 10 millimeters. The wound itself is somewhat oval, I can see better on the photo here, but right there, there is kind of an abrasion ring out here on the outside.

What that is kind of helpful with is, it is kind of letting me know that it is going downward because when this, when this bullet came in, the abrasion ring is more irregular to this side, it is bigger on this side than it is there. So when it is rubbing in, I know that it is coming in a downward fashion. One, just because of the abrasion ring and two, because of where it ultimately went on his face.

So it is coming here, think of the anatomical. It is here and when it is coming down passing there and it is going to come out of the face. So that you've got two reasons for how you

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

know it is down. The abrasion collar and also just the starting here and ending up there. It is coming from the top to here.

Q And, Dr. did you determine that path not only, I mean, possibly via x-rays, but did you probe that wound as well?

A Yes, I probe all of my wounds to make sure that the entrances and the exits do coordinate.

: . Does your assumption in talking about how body parts move that, or like when his head was down, and the officer was standing above him.

A That's a possible scenario.

: Thank you.

A So we got that. So now we dealt with the abrasion collar, we know there is an entrance wound. So now you want to look at your x-rays to see if you see any type of bullets associated with this. There are little tiny fragments, but no large intact bullets, I can't recover those. Those are not good for ballistics, you need kind of an intact chunk to be good for ballistics.

All right. So in terms of soot or any type of stippling, there is nothing around it, only thing that is nearby are these abrasions.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

So in terms of trajectory, how far away, I can't determine this, this is an another indeterminate wound that is going to be greater than 3 feet away.

In terms of the actual trajectory itself, it is downward, slightly backward and going to the right. It is going down, going back, meaning this is the front part of the head, it is coming back over here, so it is backward down and going to the right because this is the center, this is right side and it is going that way.

All right. Now in terms of the actual tissue planes that it passes through, it is going from the skin, it's going through the soft tissue and the things that is interesting about this one is, so when it is passing through, there is like, there is defect here, call it a laceration, call it a defect.

In my particular situation, I called it gunshot related defect because as this bullet passed through, there is enough meat and skin here on the front of Mr. Michael Brown's forehead that this bullet is tunneling underneath that skin. When it got right here where the eyebrow was resting over that ridge of bone that we all kind of have right

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

there, it disrupted that tissue, continued to travel underneath and then went by his eye here. There is another defect, it passed through the actual globe of the eye.

Then you have a bone here, right underneath your eye, it went through that bone, passes through there, you have a bunch of soft tissue here in your jaw and cheek, it passes through there and then eventually comes out of the jaw right here on the side. So that's the particular path of this particular shot.

Q (By Ms. Alizadeh) Now, does this projectile travel through any portion of the brain?

A No, it does not.

Q And now I know you said it went through some bone that was below the eye, does it fracture the bone at the entrance site?

A No, it does not.

Q So it goes into the skin and the soft tissue and then almost travels along the bone, along the, just underneath the skin?

A Correct.

Q Going through the globe of the eye?

A Correct.

Q And then breaking a bone?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Correct.
Q Now, would this type of wound immediately render someone disabled?
A No.
Q If someone sustained this type of wound, could they continue to stand up for a while?
A Yes, they could.
Q Could they continue to be mobile?
A Yes, they could.
Q And, obviously, I'm sorry, Sheila, with the eye being pierced in this case, they would lose this vision from their right eye, correct?
A Correct, the eye is no longer going to function, it is totally disruptive.
MS. WHIRLEY: Shirley Whirley. Would the combination, you said you can't talk about the sequence of the shots which occurred first, but the combination of the shots that we've seen before the fatal shot, it still would not render this person disabled.
A Correct.
You talked about the abrasions, anything that you conclude from the abrasions, how they occurred?
A Well, an abrasion, all that is to me is

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that particular part of your body came in contact with another force. So to get an abrasion, I fell right now, I hit my head right there, I could scrape off skin. I fell down on the ground and collapsed on the ground that could cause those abrasions.

From the way he's positioned where he's found after he's rendered disabled, his face is in contact with the ground and that's consistent with that position.

: There need to be forward motion on that face to scrape it like that.

A You would need some sliding.

Some sliding

A For it to rub off. You need a frictional force. You can't just plop straight down, plop straight down and cause more bleeding, you get more contusions from things just stopping and don't slide. When things slide with friction, that's when it gets rubbed off, and that's when you get your frictions.

I don't recall, or not speaking about the abrasions, did you find any evidence of any type of burn to the skin or anything, any type of injury like that because we all know, I mean, this happened at 12:00, and the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

young man laid there on the ground in one of the hottest days of the year. Any type of wounds such as that, any evidence of anything of that nature?

A There's really no burning per se, but there is one wound on the cheek that had a dry appearance, that's about the only thing that, you know, contact could be a drying affect or something where the pavement is warmer, who knows, but that feature is there. There is no burning of anything.

Okay, thank you.

. Are the abrasions severe enough that you think the victim would have been in motion at the time of the fatal shot or could have been standing at the time of the fatal shot, absorbs that amount of friction just by simply falling from a standing position?

A Eventually falling and hitting the ground, and the ground and his face, that's how that happened in my opinion.

I think we've got those taken care of.

This is 98. And the only thing different about this is the introduction of the ruler.

We're at Image 99. So we're looking

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

at the top of Mr. Michael Brown's head. This is the top portion of his scalp. So what is happening here when he originally came in, I documented the body how it is, I shaved the hair off of his head to expose the wound, so this is what I created when he came in. He didn't look like this was all black hair here, you couldn't even see the wound. The reason why I knew it was there is from my x-rays, as well from palpating the head, I could feel a wound and I saw blood coming from there, that's why I knew there was something there.

Once I identify a wound like that on the head, it is standard protocol and procedure for me to remove the scalp, not the scalp, the hair in order to one, be able to assess the collar, the abrasion collar, to help with distance and to also look for any type of stippling or soot.

Kind of, you know, in a classical sense, typically the hair can block these things from being deposited on the skin, but proper protocol to be able to wipe away that hair to see if you can see anything that may have penetrated the hair and got to the skin to be able to help with the range.

So that's the reason why you have to

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

remove the hair to be able to assess wounds to help you with distance and to also be able to characterize the nature of the wound.

Q (By Ms. Alizadeh) You know that brings up a question regarding the deposit of the soot or stippling. If the projectile enters through a piece of clothing, could that also affect whether or not soot or stippling is deposited on the skin?

A That is correct.

Q And in this case, the clothing was removed off of the body, correct?

A Correct.

Q And do you recall having a short sleeve shirt on, correct?

A Correct.

Q Now, did you examine the clothing yourself to determine if there were any holes in the clothing?

A I do look at the clothing to look for defects and that's what I refer to them as.

Q Did you see any defects in the shirt?

A Yes, I saw defects in the shirt.

Q Okay. And you don't document those in your report, correct?

A No, I don't specifically say where they

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

are. I generalize and say there are defects present in the shirt.

Q Okay, all right. Thank you.

A All right. So this particular one I think is probably Number 1. We are going to be looking at Wound Number 1 on the autopsy report. This is the gunshot entrance wound to the vertex of the scalp.

So positioning as I always do, it is 20 centimeters above the level of the ear, we are also going up from here. And it's, and it's near the actual midline of the head. So if you look, it is pretty much in the center, kind of dead on.

The hole measures 10 millimeters by 8 millimeters. It's roughly round and it has pretty level edges.

Now, when you look at the edges as I always do, you can kind of see this little bit of pink tissue around there, that's that abrasion collar that is going to let you know theoretically this is an entrance wound.

Now I have to caveat with gunshot entrance wounds to the head. You should never just purely go by the classical thing that we talked about, abrasion rings and contusions. The problem with it is the head is a skull that's underneath and

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that bone creates a different type of resistant path for the bullet to pass through.

The best way to determine if there is an entrance or an exit wound of the skull is on my examination, when I reflect the scalp, which is a normal part of the procedure and remove the skull cap. When you look at the actual hole, and I think there will be some pictures eventually, we'll get to that.

When you actually look at the hole, there is a concept called beveling. Beveling is where you will see an outpouching of the bone. So if the outpouching of the bone is to the inner table of the gunshot wound, that's an entrance wound. If the beveling or outpouching is on the outside of the outer table of the skull, that's called external beveling, that's an exit wound.

So when I get to it, this particular wound had internal beveling, so that lets me know for sure that this is an entrance wound to the head. It is pretty much every time, I just want to make sure you understand that.

MS. WHIRLEY: Sheila Whirley. I know you can't tell us exactly what position would Michael Brown have been in to have the shot to the top of

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

his head?

A The shot fired has to be above the head. So in theory, if I'm sitting here and somebody's up there and shoots down, you have to be above, the shot has to be fired above his head in order for that to happen.

Q (By Ms. Alizadeh) Kathi Alizadeh. When you say above, you're talking the anatomical diagram?

A Right.

Q I'm just theorizing here, just theorizing. So if someone in this position, in other words, is bent over at the waist and the top of my head is facing the wall, that could account for a bullet that would enter the top of the head, correct?

A That is correct.

Q In this case you have no way of knowing where, what position his body was in when he sustained that gunshot wound?

A No, I do not know specifically, correct.

MS. WHIRLEY: But it would be inconceivable for him to be standing at 6'4", straight up and have that shot to the top of his head from someone not as tall as him, taller than him?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Correct.

MS. WHIRLEY: Okay.

A So as we always do, we want to see if there is any stippling or soot. That's not soot, that's just his hair. That wasn't scraped all the way off with a scapple. There is no soot, there is no stippling. So in terms of range, that is a wound that is greater than 3 feet away again.

An x-ray, full body x-ray on this particular situation, there is a bullet associated with this wound that I ultimately recovered within the soft tissue on the right side of his face that's associated with this wound, there is a projectile.

All right. There is internal beveling of this bone of the skull, which I was telling you about before, that lets me know that this is an entrance wound.

The path or trajectory on this one based on the anatomical position is going downward, it is going from the top of the head towards the feet and it is going right. Meaning that when it passes through the head and goes through the brain, you got your outer part of your skull here, it is going that way and burying itself. You can see it is down and to the right. So that is how you know

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

that part.

In terms of the actual tissue that it is passing through, going through the scalp, the skin surface of the head, soft tissue, the parietal bone of your skull, that's the particular location of the skull cap specific for me, but just layman's term, just your skull.

Once it went through the skull, it hit the brain and your brain is separated in hemispheres. So you have a parietal bone, you have a parietal lobe. So it went through the parietal lobe of the brain, then it went through the temporal lobe of the brain. This is all on the right side.

Then it passed through the right temporal bone of the skull, which is out here and punched through there and buried itself right here in the skin, the soft tissue beneath the skin on the right side of his head. So that's the path of the bullet.

So when it goes through there, it is going to create injuries to the brain. There are small little tears or contusions that are happening to the brain as this bullet is punching its way through the white matter of the brain. You have gray matter on the outside and white matter on the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

inside.

The white matter is responsible for your, the nervous impulses that are going to go through your brain. So those tracks, there is little small contusions there, that's just from the pathway of the bullet going through the brain.

There is also hemorrhage associated with the wound. You have multiple spaces in your brain. You have an epidural space, which is, you know, you have your skull, beneath your skull there's a space and then you have your dura. Your dura is kind of like, for lack better of a better word, the skin of the brain. In between that imaginary space is called the dural space, there's a space there.

You can get the dural, then you start getting to another space and then you get to the brain. So beneath that dural space is the subdural space.

There is blood there and there is actual blood on the surface of the brain, which is the subarachnoid space. There is two areas where there is blood, you have defects of where the bullet is entering and then kind of exiting out on the brain and staying in the soft tissue.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

So those are the main injuries that you have associated with this wound that's passing through the skull and burying itself right there in the soft tissue.

Q (By Ms. Alizadeh) Now, Dr. if someone who sustained that type of injury to his brain, would that immediately incapacitate him?

A Yes, it would.

Q So this person would not be able to stand or walk or be mobile in any way?

A No, they would not.

Q Would they be conscious?

A No, they would not.

Q And is this a fatal injury?

A Yes, it is.

Q And is there any amount of medical intervention that would, could possibly save the life of someone sustaining that injury?

A Highly unlikely.

Q All right.

MS. ALIZADEH: Does anybody have any questions about this injury?

: You said that you had to remove the hair from that area. Is it possible to get any kind of soot or anything, any

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

kind of sampling of that or was anything sent in to be examined or is it even possible to get any type of evidence out of that?

A It is always possible, but nothing was sent off with regard to the hair.

Q (By Ms. Alizadeh) So the hair that you shaved off the scalp was not collected and kept?

A No.

Q Or tested in any way?

A No, it was not.

Q Okay.

Any other questions about this wound?

A 101. Same wound, but just the introduction of the ruler.

Q And just so I'm clear on this, the bullet that we're talking about is Wound Number 1 in your report, entered the brain, traveled through the brain and then you said was in the temporal region just beneath the skin or the soft tissue?

A It is a little bit, it is coming right through the bone of the skull, it is sitting in the soft tissue right there.

Q In photographs, is there an injury to the side of his face where that bullet rest beneath the surface?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A It did not make an injury on the outside of the face that would correlate to the inner injury.

Q Just for the sake of these, all of these injuries that you talked about, there was a projectile that was found in his brain, correct?

A Well, it is more the soft tissue.

Q You're right. Wound Number 1, you recovered that projectile?

A Correct.

Q Did you give that to the police officer?

A Yes, I did.

Q He packaged that?

A Yes, he did.

Q And then you also indicated you retrieved a projectile in his chest cavity?

A Correct.

Q Was that given to the police officer?

A Yes, it was.

Q Was that packaged?

A That was packaged.

Q Any other projectile or foreign object that you retrieved from his body?

A There was another. So the one projectile back out here and one further down here, so there

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

were three projectiles that I recovered.
Q Okay. And then regarding any other samples that you took, you've already testified that you took a sample from that thumb area?
A Histology.
Q And did you take a blood sample from him?
A Like for a blood stain card for DNA?
Q For DNA, but also for toxicology?
A Yes.
Q So those are separate samples?
A Yes.
Q There is a stain card that is made for DNA?
A Yes.
Q And then there is a sample of blood put in a tube or something?
A Yeah, there is two types of tubes. We have a red top tube, which is just basically a tube with no preservatives in it, just going to be pure blood and then we do a gray top tube has a preservative, like sodium chloride. It is important for dealing with testing for like cocaine, things of that nature.
Cocaine is kind of volatile and kind of breaks down if you don't put the fluoride in

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

there to stop the activity of the enzymes in the blood. That is what the gray top tube is for.

So we do a red top and gray top for toxicology, and the specific blood that I used was chest cavity fluid that was sitting from that gunshot wound. There is a lot of blood there. I used that for my toxicology because the other locations to try to get blood was very difficult. He had lost blood, it is difficult to get sometimes, so you get it where you can get it from. The biggest reservoir of blood was the chest cavity.

Q And did you also take a sample of the vitreous fluid from his eye?

A Yes.

Q He was missing his right eye, correct?

A That's correct, it came from the left.

Q You do that by a syringe, drawing off some fluid?

A Correct.

Q And that's preserved for toxicology?

A Correct.

Q And then you also said earlier you had mentioned urine. Did you take a sample of urine from him?

A Yes, I did.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Is that also with the syringe?
A That is with a syringe.
Q Is that taken from his bladder?
A Yes, it is.
Q And so the cavity blood, the urine and the vitreous fluid, you know those samples were subsequently sent to a toxicology lab?
A Correct.
Q And is that lab also a part of the Medical Examiner's Office?
A Physically it is located in the same building.
Q But that's run by St. Louis University, correct?
A Correct.
Q And other than sending those things off, you don't have any role in testing those?
A No, I do not.
Q Okay. I want to try to go through these quicker so that, I don't want to, again, I don't want anybody to not ask questions they want to ask. We've talked about the major wounds that he's documented in his report. He has some additional photographs of some of those tangential wounds and also there is some autopsy photos where there is

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

cutting done. All of these photographs are going to be available for you.

If you want, we can have him go through them one by one. I prefer him to testify about what he saw when he opened up the body and so forth. I will tell you they are graphic and that is going to be up to you guys, okay?

And so also let's go through the rest of these injuries that are photographed and then when we get to the cutting part, I'll ask you guys if you want to start going through those photographs. If you want to look at them on your own at a later time.

I have one question for you. I need to understand, all of the injuries with the exception of number one, accumulatively he could have still survived and been mobile?

A He could have been mobile, I wouldn't necessarily say survive. Those chest wound injuries, those would have eventually become fatal if not addressed.

He would have been mobile, but this one absolutely?

A Absolutely.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

: . Those thorax wounds if treated, he could survive that?

A Unlikely, the chest wound. The problem with chest wounds, this is going to be the physiological problem with it. You need your lungs to breathe. When those bullets went into his lung, it punctured it, it squeezed it down, so now he is only working on one lung. At the same time what happens is there is vessels in there that he injured.

So as that chest cavity fills up with blood, it is going to get to the point where it fills up with so much that it shifts all of those organs on the inside of your body to the other side. And the problem with organ shifting is you have a major organ in the middle of your chest, which is your heart.

So think of it kind of like a garden hose. You put too much pressure on one end of it, it stops the flow of the water. So the stop of the flow of the water, in this situation is the blood. When that thing starts filling up and pushing over to the side, those vessels get squished, squished and eventually get squeezed off to where now the blood can no longer get returned to the heart to get

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

pump to other areas. And then that's the main problem is your head is not getting blood, now you are going to become unconscious. You are going to have two problems, you're not getting blood, your blood carries your oxygen. So you are not getting any oxygen to the brain, you are physically not getting blood to the brain, you are also losing blood out of your body, inside of your body. So you kind of got a lot of problems there.

But he could not immediately, the hemothorax could be reversed?

A If you had some medical intervention.

That's what I mean.

Q (By Ms. Alizadeh) Would you say, Dr. that medical attention would have to be immediate?

A I agree.

Q Like if he were shot in the hospital, then possibly if there was a doctor at his elbow, possibly he could have medically then have survived those injuries?

A Correct.

Q Without immediate medical attention, he eventually would have died, alone of the internal thoracic injuries?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Correct.
Q And just to clarify because you talked about bullets passing through his lung. And I thought maybe I misunderstood. I thought one of the injuries to the lung was caused by the rib that punctured the lung?
A Correct.
Q Was there more than one bullet know through the lung?
A One bullet went through the lung, the other bullet struck the rib, the eighth rib, which is nearby, so your right lung is in three pieces. It has got an upper lobe, it's got a middle lobe and it's got a lower lobe. So the first, that bullet that's up here by the clavicle by the collar bone, that hit the upper part of the lung.
So when that other bullet passes through and hits the eighth rib, it snapped it, it fracture it. So say this is a rib cage, your lung is sitting there, when it broke it, it snapped it to the inside and when it broke, the bone punctured that lower portion of the rib causing additional injuries to the lung. So the bullet itself didn't do it, but the bullet hit the bone and snapped and did puncture the wound.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Okay.

MS. WHIRLEY: Sheila Whirley. Can you tell, is there any way to know how quickly he would have been incapacitated due to all of these injuries prior to the fatal shot?

A That's going to be difficult, difficult to determine. It is just pure speculation.

MS. WHIRLEY: Okay.

. I just need some clarification. The wound to the head, did you say that was a far distance?

A That one is an indeterminate, so it is greater than 3 feet.

It is greater than 3 feet?

A Correct.

MS. ALIZADEH: Any other questions about those wounds so far?

: The wounds to the top of the head, could he have been already falling forward?

A It is possible.

: So let's say like the first wound he received, I know you said --

A What is the first one we are talking about?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

: Let's just say to the chest.

A All right.

: Could that wound have like, I know you said that he could of still been mobile, could he have not been mobile as well? Could you just like get shot?

A You can stop walking, that wound is not going to prevent you from using your legs. You've consciously chose to stop moving, you still would have the ability to move with sustaining a shot like that. It is not going to render you unconscious, that's the point I'm trying to make. The wound to the head, he's going to be unconscious, he can't move if he wants to.

But you get hit here in the chest, you are going to have some time to be able to move around and it is depending on a variety of factors. How quickly you use blood. The main thing that will make you collapse is, once you block off that blood return, you've got maybe like 10 to 15 seconds of reserve of oxygen going to your brain before you pass out.

So when you reach that critical level, each person is going to have a different

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

critical level with body masses, being different sizes, people have different kind of levels of blood reserve, different levels of volume.

So someone smaller or bigger maybe last a little bit longer. Also the activity that you are doing before is also going to impact. Say, for instance, if you have been running and your heart was going really, really fast, you're going to pump blood out quicker as oppose to someone really calm, just kind of sitting there, you are not going to bleed as fast. So all of these factors play a role in determining how quickly you are going to be responsive or immobile.

Q (By Ms. Alizadeh) Okay. Let's go ahead and somewhat quickly if you can run through those other photos. If you go ahead and identify them and put them on what it says, what it shows abrasion?

A This is 102, I believe. So this is his left arm, this is just showing a linear abrasion on the left arm.

Q You characterize that before as being like a grazing wound?

A I wouldn't say it is in that category. This one is some type of blunt force injury caused that. I wouldn't say it is necessarily a

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

projectile. The characteristic of it is different. You could have rubbed on something, it is hard to say. It is nonspecific, but it is not a classical graze wound like you saw on the bicep on the right arm or that graze wound.

This is different. This is just an abrasion. It is not specific and I can't say what it is from.

: My thought was whether with glasses on, if you were able to tell if it was a clean cut?

A That's something you can argue about, but the fact that it is so dry and, you know, it is kind of firm, it is kind of difficult to say is it a cut or incise wound. I can definitely say that is a superficial layer of skin has been rubbed off, but it is difficult to say was it a sharp or was it, you know, rubbing on some keys or who knows, a door, I don't know. It is kind of in between and it is difficult to specifically say what caused that. But there is definitely an injury there, the top part of the skin is gone.

: Thank you.

A 104. This is just a close-up, same thing with the showing of that.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q (By Ms. Alizadeh) Just out of curiosity lower in the photograph, is this also an abrasion?

A Yes. This is just showing that right palm again, showing that graze wound of the hand.

106. Showing close-up of the graze wound of the hand.

107. Same thing, graze wound of the right hand with the ruler.

On 108. There is a very, I'm going to get a little bit closer, but it is a little bit of an abrasion here on his right here which is right there.

109. This is close-up of that little tie any abrasion on his right hip right there.

This should be 110. This is just the same thing, but with ruler inserted for scale.

Q For those, the abrasion to his right hip again, you can't say what caused that?

A No, I cannot.

Q Can you even say if that happened during the same time he sustained the other injury?

A No, I cannot.

Q Okay.

A 111. There is an abrasion here to this upper right chest, that's what I'm focusing on here.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

112. This is the abrasion here in the upper right chest right there and that bullet hole from the upper right chest from earlier.

113. Same picture up, but insertion of the ruler for scale of that abrasion on the upper right chest.

This is 114. This is where I'm trying to focus in on his lip. I told you he had some abrasions on the inner portion of his lip.

Q Can you tell what caused the abrasions on the inner portions of his lips?

A Not specifically.

Q Would it be consistent with some, with an impact like involving his teeth or dental work?

A That's possible.

That's a close-up here showing these defects or abrasions or shallow lacerations, whatever you want to call it, here on the left.

Q Let me just ask the possibilities here. Those injuries to the insides, they are injuries on the inside of his mount?

A Correct.

Q Correct?

A Correct.

Q Could it be caused by getting punched in

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

the mouth?

A Possible.

Q Could it be caused by someone falling on their face on pavement?

A It is possible.

Q You have no way of knowing how that happened?

A I do not.

116. Showing the same thing, but with the ruler for scale. I'm getting to the point.

Q Let me ask you some other things here. Regarding his face, was there any injury to his teeth, any chipped or broken teeth or anything?

A No.

Q Did you notice on his face, other than the injuries to the wound that you've described, were there any contusions?

A No contusions.

Q Contusions, again, is like a bruise. Note any swelling to the face, other than what was associated with the wound you talked about?

A Correct.

Q And then I'm going to ask you specifically about his neck. I am going to show you Image 111, which we already talked about. So this is an image

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

of, he's on his back on the table, correct?
A Correct.
Q And --
A His head is here, his feet is here.
Q His head is the lower right -- left-hand portion. This defect right here, that's an exit wound in the jaw, correct?
A Correct.
Q And these are the chest wounds you've talked about?
A That's one of the abrasions next to it.
Q So his chin is up a bit; is that right?
A Correct.
Q You can fully see his neck in that picture?
A Correct.
Q Did you notice anything when you examined his body, was there any bruising of his neck?
A No.
Q Any abrasions on his neck?
A No.
Q Have you ever seen an injury, and injury to a person who has been choked?
A Yes.
Q Okay. Can you describe someone who has

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

been choked?

A Well, I would like to clarify for me. Strangulation is a better term, choking is different.

Q Choking is like I got something, I swallowed something wrong or whatever?

A Right, right.

Q So you are right, so you've seen someone who has been strangled?

A Correct.

Q What kind of injury would you see on someone who has been strangled?

A Externally you may see abrasions from, you know, people have nails or whatnot and the rough nature of the event, you can create abrasions on the outside of the neck. You don't always see them, but you can.

Then once you open the neck, when I do a dissection of the neck, you have multiple layers of soft tissue as well as muscle.

If enough force is applied there, you can see hemorrhaging within the soft tissues of the neck and then also you have a bunch of structure within your neck called the hyoid bone can be fracture or injured. And in a strangulation, those

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

are some of the things I look for in the neck and situations where someone has been strangled or has an injury to the neck.

Q In this case you found no injuries to his neck, correct?

A Correct, correct.

Q And I know when we are talking, when I say strangulation, I think of that as being like someone who is a cause of death, they are dead from strangulation, but people can be strangled, but then survive, correct?

A Correct.

Q And in some occasions, will you notice bruising to the neck?

A Correct.

Q And then, obviously, you're not going to cut a living person open to look at the tissue inside?

A Right.

Q But someone who has been grasped very tightly around the neck, you might see bruising?

A Correct.

Q Okay. One more thing about, and at some point, the police department, the police officers, they fingerprint the deceased; is that correct?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Correct.
Q And that's just standard protocol, correct?
A Correct.
Q Now, do you ever observe in your autopsies, do the police ever dust the body for prints?
A I haven't specifically seen that unless there is a question or certain circumstance for it to happen. It is not part of routine procedure, I guess that's what I'm trying to say.
Q I guess you've never seen someone, a police officer try to lift a latent fingerprint off of the skin of a deceased person?
A I have not, no.
Q Have you ever heard of that being done?
A Not specifically, no.
(Deposition Exhibit Number 8 marked for identification.)
Q (By Ms. Alizadeh) Okay. So another thing so we can possibly, I don't want to shortcut anything. I'm going to hand you Grand Jury Exit Number 8.
For the record, this is a CD. Did you bring that to me at my requests?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

A Yes, I did.
Q Okay. And that CD contains a number of photographs and some x-rays; is that correct?
A That is correct.
Q Have you looked at the photographs and x-rays that are on that disc?
A Yes, I have.
Q Now, the photographs that are on those discs, on that discs, were taken by who?
A Um, by the autopsy morgue assistant

Q So those are not police photographs?
A No, they are not.
Q And so those photographs are taken for a different purpose?
A It is more for just kind of documentation of the body, just getting a general overall of what we are seeing for lack of a better word.
Q And some of those photographs that are on that disc are after the autopsy is completed and body has been closed up.
In this case you removed the top of his head and eventually that's been closed up, correct?
A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q And have you seen those photographs on there?

A Yes, I have seen the photos.

Q And then the x-rays that are contained on those discs, are those the x-rays that you took and examined in relation to the injuries that you've testified to as far as when you can see a projectile and so forth?

A Correct.

MS. ALIZADEH: Is there anyone here who wants me to put on, to go through these xx rays with you? Anybody have any questions about that? We can put them in the player right now and bring up, how many x-rays are there?

A I don't know, 42.

MS. ALIZADEH: The disc says how many photographs and how many x-rays.

Q (By Ms. Alizadeh) How many photographs?

A Photographs 39.

MS. ALIZADEH: Is there anyone who has a desire, if we can't do it today, we'll bring him back after his vacation and go through these. Is there anyone who wants to see these x-rays now, or have any questions about a particular injury or bullet that he might be able to see in an x-ray?

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Okay.

MS. WHIRLEY: Just for the record, it is about 5:00.

Q (By Ms. Alizadeh) I'm trying to finish up. I know Dr. is on vacation for a couple of weeks. I want to get as much as we can. If we have to bring you back, we'll worry about that later.

And then, so now the rest of his testimony about his autopsy is going to be about him cutting into the body and examining each organ.

Let me ask you, Dr. did you find anything other than the injuries that you talked about to the lung and to the tissue and to the brain, was there anything remarkable about any of his organs?

A No.

Q There wasn't any heart disease?

A No.

Q No ulcers of the stomach or anything like that?

A No.

Q And you are cutting and retrieval of the projectiles that's all documented in these photographs; is that correct?

A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

MS. ALIZADEH: Is there anyone here who wants right now to go through those photographs, or have any particular question about them?

All right. They are going to be here, they are part of the exhibit and they are something that you can examine at a later time. And if at all, there is a question later on down the road, specifically about something, that I didn't have him actually testify about, we will bring him back and have him testify again. Yes.

The photographs that we are talking about, they are from the same string timeframe and same situation that we've seen up to this point, correct?

MS. ALIZADEH: Yes, they are also photographs that are taken by a police officer during the autopsy and so, for example, Dr. when you are retrieving a projectile, you have to cut into the body. In this case you did, and that is actually photographed that you have cut into the body and in some of these photographs you can see the projectile laying in the tissue of the body.

A Correct.

Q (By Ms. Alizadeh) And then in some of

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

these photographs the projectile is removed from the body and sitting on a paper towel, photographed after it is removed?

A Correct.

Q But these are all photographs that are taken that day during your autopsy?

A Yes.

Q And in conclusion for today, were you able to determine within a reasonable degree of medical certainty the cause of death of Michael Brown?

A Yes, gunshot wound to the head and chest.

Q Were you able to determine within a reasonable degree of medical certainty the manner of death of Michael Brown?

A The manner of death is homicide.

Q So that would be homicide as opposed to a suicide or accidental or anything like that?

A Correct.

Q Homicide just means at the hands of another, it doesn't indicate there is any kind of criminal liability, that is a term that's used in forensic pathology, correct?

A Correct.

MS. ALIZADEH: Anybody have any other questions about the autopsy or what he did in the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

autopsy?

Let me look at my notes real quick.

: . Can you tell me how many exit wounds there were?

A I'd say three.

: How many entrance wounds?

A I don't include the graze wound as one of these things that is in between say 1, 2, 3, 4, 5, 6.

And two graze wounds?

A That's 8.

Thank you.

Q (By Ms. Alizadeh) And those again, those wounds, each of them is documented in your post-mortem examination report that I provided copies to the jurors and also is there any way that, do you have any opinion as to the order in which these gunshots were, these wounds were sustained on Michael Brown's body?

A From what I do, the investigation is ongoing. There is things I'm privilege to. There is things I do know and things that can be shared with you later as the process goes on.

In my opinion in terms of what I can say the wound to the hand has to occur at a time

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

when Michael Brown is close enough to the officer for that to have happened. So depending on the circumstances that you guys hear from what I know, there is a point in time where they are in close approximation to each other at the vehicle.

In my opinion I feel that's the closest they are for it to happen from the circumstances that I know that that injury occurred. So that has to be early on in the event. In terms of the end of the event, the wound to the top of the head is going to be the last wound that he is going to receive.

So in terms of the beginning part with the thumb wound and the part at the end, those two I can feel good about saying that I know when those happened, but the ones in between, it is to difficult to say.

Q And given the entrance and exits of the wounds that you've described, and I know that we've said there is no entrance wounds on his back?

A Correct.

Q Or on his buttocks?

A Correct.

Q Or on the back of the his legs?

A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q No bullet wounds on his legs at all?
A Correct.
Q And then there is some wounds to the anterior portion of his torso?
A Correct.
Q And then the wounds to his arms are kind of like all over the joint, right?
A Right.
Q Any way of telling what position that body was in when those wounds were sustained?
A No.
Q Given that they're arms, it just depends on where his arms were?
A Correct.
Q And in relation to where the gun was?
A Correct. But I can say to sustain wounds to the chest, the chest is fixed, those with the arms it can be in a number of positions.
MS. ALIZADEH: I don't have any other questions. Does anybody else have anything they want to cover today?
: Just one. He did have an entrance wound to the back of his --
A Anatomical correction, the anatomical position, the dorsal on the back side, posterior

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

portion of that right forearm there is a wound there.

Q (By Ms. Alizadeh) So if someone in this position and it is a gunshot wound, the gun could have been fired from behind them?

A Correct.

Q Someone in this position, the gunshot come from the front of them, correct?

A Correct.

Q Or in this position, or in this position?

A Correct.

Q It is difficult to say, correct, or impossible to say?

A Correct.

: The reason that you are saying most likely the last is because the wounds to the chest and the wounds to the arm he would of had to be somewhat upright to have those somewhat?

A What's more of an issue he could still be mobile, he could be moving around, once he got this, he's going to be unconscious.

: He's going to be down and there is no way to get to his chest if he were down.

A Right, that is true.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

MS. ALIZADEH: Anybody else?

: . The police officer that was there present with you as you were doing your examine.

A There were three there.

There were three there?

A Which one?

The one who takes the photos.

A There were two kind of crime scene officers and then there was a detective.

Okay.

A But one guy was taking pictures.

: As you are doing your exam, like you said before, you are speaking, right, you are talking while you are doing your examine?

A What do you mean?

Are you speaking while you are --

Transcribing.

A I do it after I finish the autopsy.

Oh, okay. So there is no talking, you are just taking pictures?

A It is just pictures, I'm directing them saying what I want them to take pictures of.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

: Oh, okay.

A As I am going through the autopsy, I want pictures of this, I need a picture of this, this is important I think, I need that, that's the extent of the talking. I'm not, the generation of this report, this is happening once I complete everything, I go back to my office with all of my notes and then I do this on my Dictaphone after everything is done.

They were there also, they were present also when the x-rays were going on?

A X-rays, no, they came, once you saw that picture when he's out of the bag, he has his clothes on and the placard, that's when they were showing up and that's when it started. The x-rays are done before, the process of the body being processed for me to do my examination, that's happening.

: Okay.

Q (By Ms. Alizadeh) And, in fact, some of the x-rays, the x-rays are done with his clothing on, correct?

A Correct.

Q And like in some x-rays you can see the belt buckle on his pants and so forth?

A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q The zipper of his pants, I can't remember?
A The clothes are on.
Q X-rays are done before the clothes are removed and you begin the examination, correct?
A Correct.
. I think this might be the last question. So in essence, while you are doing your examine and you have the onlookers or the people that watch, they take the photographs, no one actually knows what you are going to put into your report until your report is done, is that correct?
A Right.
Thank you.
Q (By Ms. Alizadeh) Just then for the record, I know this, your report was done in, I would say in my experience with the Medical Examiner's Office, in a little speeder fashion, sometimes it takes six weeks for me to get your --
A And even longer.
Q And in this case there was, there was a directive that this was going to be a priority?
A Right.
Q This was to be done?
A Correct.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

Q Did you feel that you didn't have sufficient time to complete your report at all?

A No, I felt in terms of the adequacy of my report, I was done with it, the only thing that I wasn't finished with when I was told that I needed to finish the report was the histological section of tissue, that takes awhile for that to be processed. It can take four weeks sometimes, but I had to speed that along too.

So I had to finish the bulk of the report, and then if you look at my last statement. I comment at the time, the histology examination will be issued as a supplemental report.

That portion I was not able to include at the time of this. So this, until the histology, which I testified to you guys about this happened after I did this, so that's an additional important information which helped me understand better that gunshot wound to the hand.

At this time, I was suspicious of it being a close range wound until histology came through, I couldn't definitively say. So in my report I say, hey, I see these, I see these discolorations, I have to my histology to confirm.

So now I'm testifying I got that

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

back, I can now say that wound is a close range wound so, but outside of the rest of everything else, everything was just fine.

Q So, Dr. you had a supplement where you talked about the examination of that tissue?

A Yes, I issued that is supplemental report.

Q Is that completed yet?

A That is not completed.

Q Okay. When that is completed, would you provide that to me as soon as it is done?

A Yes, I will.

Q And so I just want to make clear, this was done in a speedy manner, was there anything about this that you felt that if you had more time or were given, you know, more time to write your report, that it would be a better report or more accurate?

A No.

Q Did you just put everything else on the back burner and you did this first, is that how that happened?

A No, I'm kind of multitasking.

Q Okay.

A I made sure I got it done.

Q So is there a date on your report, the

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

date that it was completed?
A It just says a start time.
Q Do you sign it and date it?
A No, I just sign it. I do know, was that Friday, whatever that.
Q So the shooting happened a Saturday.
A I want to say that Friday I was done with it.
Q Okay.
A I signed it that day. And then I gave it to the officer, Monday an officer came and picked up my report, which would have been what, the 18th of that month.
Q Until the officer picked up that report, you did not discuss this with any police officers what your findings were?
A No, no one. The only people who were privy to what I was seeing, what I was dealing with were the officers who were in the autopsy with me, that's it.
Q But as far as like them knowing what the gunshot entrance and exit is --
A No.
Q -- you didn't explain any of that to them?
A No.

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

: It talks on the last page here about fingernail clippers and scrapings?

A Yes.

: Is that in your report or is that done by someone else?

A That is someone else. The lab is going to be responsible for processing that, I just procure the items and I pass it to St. Louis County Police Department as evidence and just take it to the lab, which process it.

MS. ALIZADEH: Anyone else?

Sheila, do you have any questions?

MS. WHIRLEY: I think we are probably all questioned out.

MS. ALIZADEH: It has been a long day and thank you for being patient. I don't want anybody to feel like I'm trying to leave something out here, we are not rushing you in any way.

A I'm fine. If you got a question, feel free. I'm not upset. I'm glad I had the opportunity.

MS. ALIZADEH: All I'm saying the photos are here and available. I just, I know from being a layman myself, I can look at these and, you know,

Electronically signed by d0e125b1-3744-4b93-80e6-f9de22cfbddf

but, you know, he can explain them if you want him to. If you later look at them, but he has already testified about what he found and where he found them. So I didn't feel it would be a good use of your time to go through each of the photographs right now, but they are here for you to examine, okay. This will conclude the testimony for today.

(End of the hearing for September 9, 2014.)

GRAND JURY HEARING

MS. WHIRLEY: Good morning. Present is Shirley Whirley, Kathi Alizadeh, the 12 jurors and the court reporter. This is September the 10th, 2014. This morning we are going to start out by watching a series of video clips that depict Dorian Johnson discussing what he saw as an eyewitness in this case.

As you recall, Dorian Johnson was the person who was with Mike Brown at the time of the shooting.

There is approximately six video clips that you will see. And once you see those videos, then we'll also provide you with a transcript and an interview. I think it is approximately two hours and 13 minutes, something like that, interview that Dorian Johnson gave to the FBI, and St. Louis County Police were also present. So you will hear his statement to them.

And then after that, we'll likely break for lunch and when we resume in the afternoon, we anticipate that Dorian Johnson will testify.

So with that bit of an introduction, Kathi Alizadeh is operating the laptop to get us started.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

And I think we are projecting, correct?

MS. ALIZADEH: Just for explanation.

MS. WHIRLEY: This is audio.

MS. ALIZADEH: No, these are video.

MS. WHIRLEY: Okay.

MS. ALIZADEH: These are videos that were on news outlets and some of them, some of these clips contain other statements from other people, comments reporters have made about the incident. And as much as possible, I want to exclude those.

So it will take me a second, I have my notes where we are starting and stopping on these and it will take me a second on each clip to get to that point. And then we will start it and you will see that clip.

The only time you will hear from a reporter is when they're asking questions of Dorian Johnson, obviously, to understand his statement, you need to hear the questions.

So as much as I can, I'm going to get to wherever I need to get. I'm hoping that when I hit this, we are going to see it and hear it.

(Grand Jury Exhibit Number 9 marked for identification.)

MS. ALIZADEH: This is what I've marked,

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

it is a disc, it is marked Grand Jury 9. I didn't stay last night to look at my exhibits, I'm hoping that's the next number.

This is a disc that contains video clips of interviews of Dorian Johnson and the first clip is on KTVI. The date of the interview is 8/9/14 and I'm starting this clip at one minute and seven seconds into the clip, and I am going to stop it at one minute and 20 seconds into the clip. None of these are terribly long. They are news clips.

(We have a pause.)

MS. ALIZADEH: Just for the record, we had a brief break because we were having difficulty with the audio. I think we have that resolved. So once again, and actually now this is starting at 106 and I will try to stop it at 120.

(Playing the video at this time)

MS. ALIZADEH: So I stopped that at 120. Is there anybody that needs to see that again and hear that again?

: Yeah, I need to see it again. It looks like the volume was up kind of loud, I can't pick up what he's saying. If you would put that at like half.

(Playing the video clip.)

Electronically signed
b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: Anybody else need to hear it again?

So the next is a clip from CNN. The date is August 12th of 2014. I'm starting the recording at 19 seconds into the clip and I will end it at six minutes and six seconds into the clip.

(Playing the clip.)

MS. ALIZADEH: Does anybody want to hear that again? The next clip is KSDK on August 12th of this year, 2014. I'm playing starting at actually 29 seconds and I will stop it at two minutes and 40 seconds.

(Playing the clip.)

MS. ALIZADEH: Anybody want to hear that clip again?

Miss Kathi, what date was the second video?

MS. ALIZADEH: Second video was on the 12th.

: That was the 12th.

MS. ALIZADEH: So the next video is MSNBC, it is also on August 12th of this year. I'm going to start it at 27 seconds and it goes to a minute 47 seconds. And actually, immediately after this clip is another MSNBC clip that is a continuation of that

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

interview you will see a little overlap, but this interview sounds like it kind of gets cut off, but then on the next clip it continues.

(Video clip is being played.)

MS. ALIZADEH: Anybody want to see that part again?

So again, the next clip is also MSNBC and it is a continuation of the same show or program. I'm going to start it at the beginning of this clip. So zero seconds and it runs until nine minutes and 21 seconds and then continues onto the next clip as well.

(Video clip being played.)

MS. ALIZADEH: Does anybody want to see that again? It continues onto the next clip.

(Video clip is being played.)

MS. ALIZADEH: So I'm continuing the next clip. You can see it started with the last question that he asked on the previous clip, so this next clip will go from zero to 24 seconds. And this is also again it is MSNBC on August 12th.

(Video clip is being played.)

MS. ALIZADEH: I actually stopped it at 29 seconds accidently, asleep at the switch.

Anybody want so see that brief clip again?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

And then this is the last clip. This is KSDK also on the 13th, I'm sorry, it was aired on the 13th. I think what you will see is that this is a part of an interview that was done, and you actually saw a part of the same interview in the third clip I played, which was aired on the 12th.

So I believe this interview occurred on the 12th, not the 13th, but this, but this aired on the 13th. So it is 33 seconds.

I'm going stop it a two minutes and 40 seconds.

(Video clip is being played at this time.)

MS. ALIZADEH: Okay. So that is the last clip on Grand Jury Exhibit Number 9. Does anybody want to see that again or any other clips?

And again, this is available to you at any time, you know, during this investigation. You want to hear it or see it again, we'll make sure you have the opportunity to do that.

MS. WHIRLEY: I'm going to go get the transcripts.

MS. ALIZADEH: She was going to bring them into when they were done.

(Recess)

MS. WHIRLEY: We're back on the record.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

It is approximately what, 9:45 or so.

Right now we're going to play the recorded interview of Dorian Johnson which occurred on August the 13th, 2014. An interview he had with the, an agent from the Federal Bureau of Investigation and also a detective from St. Louis County.

This interview is approximately two hours and 13 minutes long. We provided you with transcripts of the interview. You can write on these transcripts if you wish.

Kathi, did you have something else you want to say about that?

MS. ALIZADEH: At any time, you know, we discussed this during the break that if, since this is over two hours long, if anybody needs to take a break in the middle of it, let me know, I will try to find a place where it is kind of a pause to stop.

And there was a question during the break by one of the jurors about whether you can ask witnesses questions when they testify. And I know you have been so far, but of course, that's true of any witness.

We don't have a witness right now, this is just obviously the audio interview, but any time a witness is before you and been sworn in, you may

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

inquire of anything that you think is relevant and we want you to.

Sheila and I will ask questions of witnesses as we have been going on. If at any time you want to inquire, anything is relevant. There is no, there is no objections to questions and we would have in a courtroom or anything of that nature, okay.

(Grand Jury Exhibit Number 10 marked for identification.)

MS. ALIZADEH: So with that being said, I'm going to play Grand Jury Exhibit 10, which is a DVD and it is an audio recording, and for the record, this DVD contains a number of interviews of other witnesses. And so for the record, I'm going to be playing the interview of Dorian Johnson and Sheila said the transcript of that interview is given to you.

(Interview is being played at this time.)

MS. ALIZADEH: Anybody want to take a break right now or keep going?

It is 11:17, let's take about a five minute or so break and stand up and move around a little bit.

(Recess)

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: It is 11:24 and I'm going to resume the playing of the interview of Dorian Johnson.

(The interview is being played.)

(End of the playing of the interview of Mr. Johnson.)

MS. ALIZADEH: It is 12:13, I think your lunch is going to be here at 12:30. What I would propose we do because this is not going to take very long at all is that I have what I've marked as Grand Jury Exhibit 11.

(Grand Jury Exhibit Number 11 marked for identification.)

MS. ALIZADEH: Which is another disc or DVD and it contains video from the Ferguson Market, the incident you heard Dorian Johnson talk about. They went in, got the Cigarillos and left the store. They are pretty brief clips. You want to watch them now since we have 15 minutes and then I thought during lunch, you also heard during his interview that he was drawing on some maps and we have copies of those maps. And also he made a drawing I can't find it in my office right now, I think Sheila might have one.

I thought while you are eating lunch, you

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

can pass around those maps and look at them as you are relaxing if you want to. This will only take a couple minutes. You all right with me playing this now?

So for the record a DVD, that on the DVD itself it says 14-43984, and it says video segments.

There is no audio with this disc.

(Video is being played at this time.)

MS. ALIZADEH: Now, for the record that was called register snippet and that was a view of where the cash register is and the counter is.

So this next snippet, it is called door snippet. It is at the door of the food store, the convenience store.

(Playing of the video clip.)

MS. ALIZADEH: Would anybody like to see those snippets again? And of course, you can watch them at any other time you wish.

. Can we ask you a question, both, either one of you a question about maybe we'll find out more later, but how this pertains or relates to the knowledge that maybe Officer Wilson would of had at the time?

MS. ALIZADEH: You will hear some evidence about that.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Okay.

MS. ALIZADEH: There will be, we have a lot of witnesses to call still.

: Okay.

MS. ALIZADEH: A lot of these things, it is difficult for us to, if we were in a trial, you try to put things on in order that people can make sense of it. But in a trial you make an opening statement so you can outline for the jury what the evidence is going to be.

But we are not doing that here, and so you all understand you are hearing things and not knowing what's left to come.

There will be, I believe, other witnesses who talk about that, so we'll just have to wait and see how that testimony comes in.

: Will we hear testimony any of witnesses inside the store to the events that happened in the store?

MS. ALIZADEH: Possibly. Sheila and I have not made out our list. Our intention is to call as many people as we can. Some people may not be cooperative. We will serve subpoenas on people who don't voluntarily agree to come in.

I don't know how else to explain that

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

other than we are going to have as many people as we can, that we think know anything about this coming in and testifying. So there will be many, many witnesses to come, all right?

So at this time it is 12:23, if you all will just break for lunch and your lunch will be here in less than ten minutes. And the plan right now is shortly after 1:00, we'll give you an update of when we might start up in the afternoon.

(Recess)

MS. WHIRLEY: So present is Sheila Whirley, Kathi Alizadeh, Dorian Johnston is our witness. We have 12 grand jurors and the court reporter.

Dorian Johnson, I said your name, I generally ask --

MS. ALIZADEH: Sheila, he needs to be sworn in.

MS. WHIRLEY: Thank you.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

DORIAN JOHNSON,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

MS. WHIRLEY: Thank you.

BY MS. WHIRLEY:

Q So introduce yourself to the grand jurors?

A Good afternoon everybody. My name is Dorian Johnson, as you all well know. I'm thankful that you all could come, part of your busy schedule, I don't know if you all have anything else to do, I'm thankful you can come and hear my story.

Q Thank you. Now, Dorian, I stand in the back of the room. I do that so that we can have a conversation and you will talk loud enough for even me to hear you. These mikes that you see, they are just recording, they're not really making your voice louder, so speak up for me, okay? We have a lot of fans in here to try to keep the room a little bit cooler.

A Okay, yes, ma'am.

Q Okay, good, that's better. Now, you came

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

here on your own free will; is that correct?
A Correct, yes.
Q You do have an attorney, your attorney is Freeman Bosley?
A That's correct also.
Q And he's outside sitting, he cannot be a part of the testimony, he cannot be in here while you testify, but he's outside and you know that if you ever want to take a break and consult with him, or talk to him, you have a right to do that.
A Oh, okay.
Q Do you understand?
A Yes, ma'am.
Q Your mother came too, as a matter of fact?
A Oh, yes, she's here with me also.
Q And she's in the TV room right now. We made her comfortable sitting in the TV room.
Now, we told you that you are not a focus of any criminal charges, right?
A Yes.
Q That we just want to hear from you being the person that was with Michael Brown that day, in your own words, what happened, that's what we are here for. We are not here to prosecute you. You may tell us some things that have to do with

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

criminal behavior. I know there is an incident at the store, at the Ferguson Market. We will play that video and ask you to tell us what's going on there.

There is some talk about smoking weed and those kind of things, but that's not anything that we are here to prosecute you for. I want to make that clear on the record, okay?

A Yes, ma'am.

Q Because we want you to feel free and comfortable to tell us only the truth here, that's what we are trying to do. This is a fact finding mission, okay?

A Yes, ma'am.

Q All right. So with that said, let's talk about you knew Mike Brown, right? You call him Big Mike?

A I'm going to ask if I can refer to him as Big Mike, that's the way it sounds funny saying if it is okay with the jury.

Q Absolutely, I will call him Big Mike too if you don't mind.

A Thank you.

Q So you were good friends with Big Mike?

A We were good friends, but not childhood

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

friends.

Q So tell us how you met Big Mike?

A I met Big Mike, I recently had, well, not recently, but I just moved in those apartments, I had me and my girlfriend, my daughter, we were staying in the apartment, two bedroom apartment, I had a roommate. I just moved over there.

I only been staying in those apartments for about eight months. I met Big Mike around the fifth month that I was living there. I met him through a friend that I know from the area, neighborhood down the street where he lived.

Q Okay.

A So when he introduced Big Mike, they came to my apartment one day, they want to play video games, you know, relax and have conversation. And I didn't have a problem with that.

So they came over, and when he came to my door, he was real quiet when he came in, you know, he was the biggest person in the room. So it struck me as kind of strange, I don't really be around people that I don't know. So I asked him a question, I was like, hey, how you doing. I live here, this is my house.

And he spoke back to me, he said I'm

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

all right, you know. And he just kind of kept it to hisself. I felt that he was good, he was just a person that didn't speak a lot. So he was all right with me to be in my house.

Q Did you socialize with him on a regular basis after that or how often would you say you was in his presence?

A Like I said, it was my apartment, so you know, I had bills and things like that. I was working at the time of me first moving into the apartments. I recently lost my job around the sixth month, I met him in the fifth month, so now I'm on the verge of finding new work and finding a way to pay the bills. So I was not able to connect with him on a daily basis or even every other day because I'm trying to find work.

Q And what was your address at the time that you met him?

A

Q And did he live in that same apartment complex?

A No, he did not. He stayed in an apartment complex behind, there is another one called Northwinds and it was right behind Canfield. When I met him, the time that I met him.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q When you met him. And on August the 9th at the time of the shooting, was he living in Northwinds.

A No, at that time he had recently moved out of his grandmother's house. He was staying with a friend that I knew in Canfield across the parking lot.

Q Okay. All right. So when you first met him, he was living with his grandmother in Northwinds?

A Correct, yes, ma'am.

Q And so after you met him, so you had known him before the shooting probably a couple of months, two to three months?

A Yes, maybe a month or two.

Q A month or two?

A A month or two.

Q But you really didn't hang out with him?

A No, ma'am, not on a daily basis.

Q You were a few years older?

A Yeah.

Q He was 18 you were 22?

A 22, yes, ma'am.

Q But you liked him?

A Right, he was a real comfortable guy. I

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

didn't feel a threat from him to where I could, you know, I could let him around my family, my daughter and my girlfriend and let him into my home. He was that comfortable around me that I could, you know, I could trust that he wouldn't bring harm to me and anybody around me.

Q He had been to your home before?

A Yes, ma'am, once.

Q And he knew your girlfriend?

A I had introduced him to each other, I introduce anybody that comes over to my girlfriend and let them know we live here as a family, not as she's visiting, you know, she is with me.

Q Okay. Had you ever been to his grandmother's house?

A One time, but I never met anyone in his family. At that time I think his grandmother was real strict on who she let inside her home. So at that time I didn't know them that well, so he was telling me that you should come around more, my granny, she will like you, you will be able to come in.

And at that time I really wasn't, you know, into, I didn't have the time for it, like I said because like I said, I was still on the verge

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

of looking for new work.

Q I guess it is fair to say you guys really didn't hang out much, he was somebody that you was comfortable with?

A Correct, that's exactly.

Q Okay. So we're going to be talking a lot about August the 9th, you realize that?

A Yes, ma'am.

Q This is the day of the shooting. Tell us how your day began, August the 9th?

A August the 9th, it began like any other day. I start my morning, I wake up, I take a shower, and I ask my girl does she like breakfast, what would she like for breakfast. I head out to go get it. Upon getting breakfast I get me some Cigarillos. I smoke marijuana in my mornings when I start my day off, so I was going headed to the store.

Q Now wait a minute, just stop here to now and then to make sure we are all clear. So that is kind of what generally happens for you in the morning?

A In the morning, yes.

Q On August the 9th, you got up, was it around seven something?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Around 7:00 that morning.

Q 7:00. Did you smoke marijuana that morning?

A I didn't actually get a chance to smoke, I was going to get some Cigarillos because I didn't have any, and there was a guy in the complex who sold them.

Q Who sold the Cigarillos?

A Yes, he sold the Cigarillos, so I didn't initially have to go to the stores.

Q I was going to ask you, was the market open at seven or not?

A It is.

Q Did you get Cigarillos from another guy that morning?

A No, I actually did not.

Q Tell us what happened after you got up?

A When I got up and got dressed up or whatnot, I leave out my front door coming down my balcony, I stay on the third floor. I come down my balcony, around my building. I see Big Mike across the parking lot, the apartment complex is set up in the drive through areas, once you come out to it, you can see right across, there is nothing blocking it.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

I saw him at 7:00 in the morning, he was helping someone put some kids in the car, he was putting some kids in the car for his auntie, I believe it was.

Q Okay. And what, did you go over to where he was or did he come to you?

A Yeah, just coincidently the guy who I was going to is like a path is passing up the building where he is living in now. So I was going to pass the building whether he was outside or not, just coincidentally he was outside and he was alone at the time.

He said the friend that I knew that he was staying with, the one that I knew, he was upstairs asleep.

Q What was that friend's name?

A His name was

Q Okay. So you didn't interact with at that time?

A Not at all.

Q And so how did you and Mike, based on information I've heard, you guys kind of hooked up at that point, that morning?

A Yeah, when I saw him, like I said, we wasn't real childhood friends, but he was cool

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

enough to me if I saw him I would stop and speak to him.

So I stopped and spoke to him. He asked me where I was headed to. I told him, I was going to get some rillos and get something to eat for me and my girl, I'm headed back to the house. He was like okay, well, I'll match you. I guess he had his own weed, so he said he would match me one. Matching is, if you don't know, is just someone I will roll the weed, he will roll the blunt, we both exchange blunts.

Q In matching does that mean that one person has the weed and one person has the rillos?

A One person has their weed and rillos, the other person has his weed and rillos and they smoke together, it is just smoking together basically.

Q So he said he would match you?

A Correct.

Q And then what happened?

A He stopped and talked to some construction workers. There was two construction workers that was doing work on the bottom floor at the time of his building. They was doing work on my building also, but they was doing work at his building and he had stopped and said something to them. I really

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

didn't hear, but I notice that the construction worker, he stopped working and he didn't have like a frown on his face, so much as he was being, you know, back and forth complying. They was having a nice little conversation, but it wasn't that long for about one are two minutes.

Q So you could not hear what they were saying?

A No, I couldn't hear what they were saying. I wasn't really focusing on their conversation because, you know, it didn't have anything to do with me. I had my mission that I was going to do, so I guess, you know, at the time I didn't really think the construction worker would say anything, you know, it is the general neighborhood I live in.

Q Had you all smoked, matched and smoked yet?

A Not yet, no.

Q Not yet?

A No.

Q You said there was a person in the complex that actually sold the rillos?

A Yes.

Q Is that where you were headed?

A That's where I was headed, yes.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q But that changed?

A Yes, it changed.

Q Tell us how?

A It changed. We started talking, our conversation was about sports, he was into clothes and fashion, our conversation was drifting from topic to topic, but really based on sports, design, girls or what our future plans was.

He was just telling me he was about to go off to school or go to school. I was telling him about my past experience in school. I was in school before Lincoln University, when I graduated high school, I went straight to school. So I was telling him some challenges that he was going to face, even though he wasn't at a university, he was going to face some challenges. Basically our conversation was about future, future emphasis.

Q Okay.

A It kind of took my mind off of going to the person in the complex because he didn't know the guy that I was going to. Big Mike, he didn't know the guy I was going to get the rillos from. When I told him I was going to get Cigarillos, he was like, I need one too. Let's walk to the store.

By that time the conversation was so

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

deep that I forgot that there was a person there that I was going to, so we ended up just walking to the store.

Q Any idea, I know timing is difficult, but if you started out at seven-ish in the morning, any idea how long, how much time went by before you got to the market?

A Before we got to the market, I mean, it wasn't really an hour, it wasn't that long, but our conversation because he had to go, I asked him could he go check on my friend that I knew ask him if he wanted to walk to the store with us. He said, yeah, he went up to go check on him. When he came back down, he told me that he was really sleepy, he didn't feel like it, he wanted to sleep in that morning.

So that's basically what 30 minutes, I'm not real pressed on time, but it could have been more than an hour before we started walking.

Q So from the time you left Canfield Green and then you saw Mike, Big Mike talked to the construction worker, you all talked some more and then you walked to the market?

A Correct.

Q Okay. Did you go get anything to eat

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

first or you went to the market first?

A No, we went straight to the market.

Q Market, okay. So tell us about the market, what happened at the market?

A At the market, now, prior to walking to the store, never came up that he didn't have any money. I had money, I had money in my pocket. It never came up he didn't have any money or what we were going to do in the store because we already knew we was going to purchase Cigarillos, in my mind that's what we were going to do.

It didn't strike me, I never thought that he didn't have any money because like I said, when I did see him the times that I see him, he dressed nice and next generation clothing, so it is kind of pricier, so I figure that he had money.

Q Okay.

A When we got to the store, while we're in the store, Big Mike talks to the store clerk faced eye-to-eye, face-to-face. I'm standing right behind Big Mike.

Q Is it a female or male store clerk?

A It is a male store clerk that he's talking to. I also see the female store clerk, she's at her register and she is just looking at us.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q But he is talking to the male store clerk?
A Yes, he is talking to the male store clerk.
Q Go ahead.
A As he is talking to the male store clerk, the male store clerk ask him what does he want. Big Mike says in a very not, you know, threatening voice he just said, and while he was saying what he wanted, he said I want these box of Cigarillos. While he was saying it, he was leaning forward to grab them.
Q Okay.
A He leaned forward, but it wasn't a snatch and grab motion like he did it really quickly. He did it like, like he did it before I should say. Once he reached over the counter the first time, the store clerk, he was standing right in front of him, he never did anything, he didn't say anything, the first time, he didn't smack his hand down or anything like that.
That was the time that he pulled back and he handed the box, it was a box of mini Cigarillos, 69 cent Cigarillos. It was just a box of them. He turned around and handed those to me.
Q Okay.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Now, at this time I still didn't think that he was not going to pay for them because I have saw people purchase a lot of Cigarillos at one time, a large amount. It is not that much 30 or $40, you can buy you a box.

It wasn't until he went back the second time and grabbed a handful of the single Cigarillos. Now first he grabbed the box and the store clerk did nothing, this time he was going back to grab the single Cigarillos. As he was coming back, the store clerk did a late response and he swung at his hand, but he missed because he was so late, he smacked the counter.

Q The store clerk did?

A The store clerk did.

Q This is behind the counter that this is occurring, the store clerk is behind the counter?

A The store clerk is behind the counter, Big Mike never went behind the counter.

Q I see.

A He was standing in front of the register, I was standing right behind him, there was another male, he was inside the store, he had just purchased something. We were, the time where he snatched back and the store clerk missed, he kind of hit the top

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

of some Cigarillos, which made some of them fall. And Big Mike turned to pick them up, and as he picked those up, he faced towards the door, that's when I knew okay, something is not right here.

I didn't see, from where I was standing, I didn't see money get transferred to the store clerk and that's why I sat the box of Cigarillos back on the counter. I've been to the store a lot of times.

Q Did the store clerk say anything or did Big Mike say anything to the store clerk when the store clerk swatted at his hand?

A At that time, no.

Q Nobody said anything?

A No one said, words were not exchanged at the time that I can hear.

Q Okay.

A Because I'm standing behind him, but I'm trying to gather up, am I being pranked or is this something. Because I didn't hang out with Big Mike on a day-to-day basis, I didn't know how well his relationship was to the store clerk, so I didn't know was, you know, did he do this all the time or anything like that, I didn't know. I was trying to gather that in my head at the time.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Now, while all of this is going on, Big Mike is making his way towards the door. The store clerk had came around, now he came around his register and he's making his way to the door. He's not like running or anything like that, more a pace walking and when he got to the front door, he didn't get there yet because a man, like I said, there was another male customer in there at the time. He had just purchased something. As he's leaving out, he's kind of holding the door open like he's watching, but he's trying to get away at the same time, like he didn't have nothing to do with it, but he is watching. I see him holding the door open.

As he let the door close, Big Mike was almost at the door, so he was going to put his hand on the door to, you know, to push the door open.

By that time the store clerk had got around and he was almost in front of the door, he didn't get there right directly in front of the door so much as put his hand on the door.

Big Mike, Big Mike thrushed the door open to where the store clerk, it slipped out of his hand, so the door flew open. And at that time I was, I knew, I saw what was going on, but I didn't

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

know it was going to happen that way. So I was trying to pull myself as far away from the initial contact with the store clerk as possible because I didn't know what was going on.

So at that time when he slung the door open, I was making my way, I was trying to get around Big Mike and the store clerk to exit the store because I didn't want any part of it, I knew there was cameras in the store.

When Big Mike tried to go out and thrush the door open and came out of the store clerk's hand. The store clerk then tried to grab Big Mike and Big Mike kind of reverses the grab and grab, like it was a very fast motion, but the store clerk never came off of neither one of his feet. He never fell on the floor or got punched or anything like that, it was a very fast motion, just a shove.

Q So when this grabbing is occurring, is Big Mike saying anything?

A At the time all he said was, get back.

Q Big Mike told him to get back?

A Big Mike told the store clerk to get back.

Q What about the store clerk, is he saying anything?

A He didn't say anything else, but the last

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

time I heard the store clerk saying something, we were walking out of the store and I heard the store clerk say, I'm going to call the police.

Q And did Big Mike say anything in response to that?

A Just kept walking.

Q Okay. What did you guys do then, did you go and get something to eat?

A At that time eating and all of those other things that I had on my mind were left field. I had just witnessed something occur that I feel like if not, you know, I was there. So I walked in with him, I felt like I was an accomplice.

I was trying to figure it out in my head at the time we were leaving out of the store like, all right, I didn't know this was going to happen. I didn't touch anything, but I did see what just happened and I know there was a crime.

Q Did you all talk about it, did you and Big Mike talk about it?

A Yes.

Q What did you all say?

A I asked him, I looked at him, actually, looked at him for a while and stared at him because the times when I did meet him before that day, he

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

didn't strike me as a person who would do anything like that. He never talked about any crimes or anything like that. And prior to that day, it shocked me a lot, it shocked me a lot. So I was asking him, I was like, you know hey, I don't do stuff like that. What's going on.

And so much is giving me an answer as to why he did it was he was basically laughing it off, be cool, be calm, stuff like that laughing it off but in my head I'm like, I can't be calm, I can't be cool because I know what just happened and we were on camera.

Q Did you talk to him about being on camera?

A I never said that, but I knew we were on camera.

Q Did he appear as if he had, was intoxicated or impaired in any way at that time?

A No, like I said, the conversation leading up to the store was a general conversation I would have with anybody any other day. There was nothing strange about the conversation. He didn't say any words that made me feel like you need to sit down or anything like that. Up until that point I thought he was mindful of everything that was going on at the time.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q So when you first encountered him or first made contact with him that morning, you said you all had never smoked together between the time you caught up with him to the time you went to the store?
A Yes.
Q Did he seem like he had some marijuana or something before you saw him that morning? Basically what you know of him?
A Yeah, based on what I saw of him that morning before we walked to the store, he didn't look like he smoked anything that morning or anything like that at that time.
Q Okay. So you guys are walking towards West Florissant?
A We are waking down West Florissant.
Q On West Florissant?
A Now we are walking down West Florissant, from Ferguson Market to Canfield is actually like, walking is like a four minute, five minute walk, especially when you are having a conversation talking, could be longer, could be shorter, but in that timeframe of walking to Canfield, I saw a police cruiser coming down, coming down West Florissant. It was a Ferguson cruiser, it was a

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

truck.

At that time in my head I was like, wow, he called the police. They came really quickly, I knew that they would probably come quickly. I was just, wow, we're really going to get locked up, this is going to happen.

But when the police officer, you know, they passed us, the first car never stopped at the Ferguson Market. The first car stopped at McDonald's right next to the Ferguson Market and they kind of just sit on the lot. And that kind of struck me as odd. I was like, wow, maybe he didn't call the police at that time. Maybe he didn't call the police or they didn't get the dispatch call or anything like that because they drove past us and at no point in time, the shorts that I had on, I had on pajama shorts, I didn't have pockets on them.

I was not able to grab Cigarillos out of Big Mike's hand to put in my pocket, he had pockets. He did not put the Cigarillos in his pocket. The Cigarillos now he has them in both hands, now he is spreading them evenly apart and we are walking down plain sight West Florissant to Canfield.

Q You are not like running or hiding?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Not running or not hiding, we are in plain sight walking down the sidewalk while we are on West Florissant and I see the police cruiser.

Q You walk to West Florissant and then what is the street that takes you into Canfield Apartments?

A Canfield Drive.

Q Canfield Drive. So you walk up Canfield Drive?

A Well, once we get to Canfield, I see another police cruiser pass us by. Now this one, I believe, in my mind I believe he was going to the store to check the car if the store clerk made the call. At that time I wasn't aware, but I heard him say as I was walking out the store that he was going to call the police.

And seeing two police squad cars before we got to Canfield, it made me believe that he did call the police and if so, why didn't they pull up on us at that time.

But we got to Canfield and now we're walking down Canfield, like I said, we wasn't running, we wasn't ducking behind bushes or anything like that.

Q There is not a lot of cars out on Canfield

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

out at this time, a lot of traffic?
A At that time there was not a lot of traffic, maybe two or three cars passed, which is, you know, not that much traffic up and down Canfield to what is backed up two or three cars will pass you going both ways.
Q This is a Saturday?
A Yes.
Q And according to the information, the records, it is somewhere around 11-ish or so, right around noon time that you guys were at that store?
A According to the information, like I said.
Q Would that sound reasonable to you if you heard that?
A It sounds about right, about 11:30 or 12-ish maybe.
Q Okay, okay. So now you are walking, I guess, east on Canfield?
A Canfield.
Q Drive?
A Yes, ma'am.
Q All right. And tell us what happens?
A We are going down Canfield on the sidewalk. As we approach, we get close to the leasing center, the leasing office is right at the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

beginning of Canfield.

The conversation we was having at this point, we was talking the same, the conversation never changed about what we were talking about future goals and stuff like that, what we were planning on doing.

And basically he was asking me questions on how did I transform to coming from where I was and getting on track and now I have my own apartment and stuff like that, I was just telling him a few things that I went through in my life that made me change and stuff like that.

I knew he wasn't someone like me, I knew he didn't grow up where I grew up from, where there was a bunch of violent gangs and violent stuff occurring all the time. I knew that much about because I read from his demeanor he didn't come up that way. I'm telling him about my life story and how I come up from a bunch of tragedies. I went to school, I was still able to do things that I need to do in life.

At that time he asked, at that time there was no cars, no traffic, no one was coming up or down Canfield Drive. We got in the middle of the street, got into the middle of the street. We're

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

walking in the middle, I'm in front of Big Mike and he's right behind me. He's real big so I know people can see him right above me.

So we are walking on the street. At that time we are walking like 30 seconds, I'm not really on the time preferences, about 30 seconds and traffic started going, but no one blew their horns, no one made irregular turns to get around us like we were in the way and no one yelled out their windows, you guys are in the way, get out of the street, anything like that. Two or three cars had passed us.

Q Let me ask you a question. Where were you guys headed at this point?

A At this point we was headed back to my house or his house because where we were staying, like I said, we were staying directly apart from each other, but on opposite side of the streets. I lived on this side, my building was on this side and the building he was staying in at that time was on the other side of the street.

Q So you hadn't decided whose place you were going to go to yet?

A We hadn't made it to that point yet.

Q Okay. And your plan was to go and smoke?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yeah, smoke and something like that?

Q So you hadn't decided whose house yet.

A No.

Q Okay. So go ahead and finish.

A As we're walking down the street, now I see the police cruiser approaching us, coming up west going back towards West Florissant. The police cruiser is approaching us, right before the police cruiser approached us, two cars had passed us already. Nobody said anything like we are in the street or nothing like that.

When he got right directly on the side of us, the police officer Darren Wilson, when he got on the side of us he rolled his window down and he said, get on the sidewalk, but it wasn't in a polite manner, it was very rudely.

Q You can say whatever he said.

A He said get the F on the sidewalk.

Q That's the get the --

A Get the fuck on the sidewalk.

Q Had you ever have had any interaction with him before?

A No, ma'am, I had never seen him before.

Q You had never seen him before. Do you know if Big Mike had ever seen him before?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A We didn't get a chance to talk about it. Like I said, I just moved in that area, I really wasn't caught up too much in the police or anything like that, I go to work and come home.

Q Nobody said oh, I know him?

A Yeah, nobody said anything like that, it was just me and Big Mike. He didn't say anything at the time when the police pulled up on the side of us. The initial pull up Big Mike said, he didn't say anything. I was the one that was talking when the police officer said get the F on the sidewalk. I told the police officer we was just a minute away from our destination, I live in Canfield and we'll be off the street closely.

Now, at that time I was looking at the officer's face, but not really in his eyes. I really didn't look back up at Big Mike, he didn't say anything. I was the one talking to the officer and I wasn't loud with the officer or anything like that. I was just telling him where we were headed to.

Q How close were you and Big Mike at this time?

A At this time me and Big Mike, he's like right on my back.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q He's behind you, single file?
A Yes, he's right behind me, single file.
Q All right, go ahead.
A As I'm telling the police officer we were just going to get out of the street, we were close to our destination, I stayed in Canfield. I believe that he was pulling off. So we continued to walk. In my mind I thought he was just, you know, okay, they're just kids, they will get out of the street shortly.
Q So you stayed in the street?
A Yes, we stayed in the street.
Q Okay.
A We continued to walk and have our conversation, but almost a split second we heard the tires screech, and the officer, he pulled back in the truck very fast to the point at an angle if we didn't hear his tires screech, the back of his cruiser would have struck one of us, not both of us, it would have struck both of us or one of us because of the way he angled in reverse.
He never drove and turned around, he reversed real fast. Why he reversed so fast on us and the angle that he did in the manner, now we are almost not inches away from his front door, like we

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

was right in his face now. He never got out of the car, he just pulled right back on the side of us, but it is almost at an angle.

Q Okay.

A When he pulled up we are face-to-face. Me and Big Mike are shoulder to shoulder now and the officer is facing us.

Q So you both are facing this driver's side door?

A Driver's side door.

Q Where are you in proximity to Big Mike?

A I'm on Big Mike's right-hand side. I'm standing right on the side.

Q So you are at the front or the rear of the car?

A I'm still in the beginning of the car, I never really walked and got far to the back. I was like in the middle of the front door and the rear door, so I'm like right here in the middle. And it is more Big Mike because he's larger than me, it is more him in the window, but mostly my face, I'm short and like the top part of me.

Q Okay. And the car is facing west?

A Yes.

Q Towards West Florissant?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yes, but it is not straight facing, I'm standing counter facing.

Q Okay, all right. All right, go ahead, and so you all are at the door and then what?

A The officer pulled back. What did you say? Very loud, angry.

Q Who did he appear to be talking to?

A At the time I believe he was talking to both of us. Like I said, Big Mike never said anything when the officer pulled up on us. So at the time I believe he was talking to both of us when he said, what did you say?

And Big Mike, in an instant, Big Mike was finished saying something, his door was thrust open, very complex, he thrust his door open real hard. We was so close to the door that it hit mostly Big Mike, but it hit me on my left side and it closed back on him, like real fast. Just the same speed, boom, boom, that fast.

And at that time he never attempted to open the door again like to try to get back out, but his arm came out the window and that's the first initial contact that they had. The officer grabbed, he grabbed ahold of Big Mike's shirt around the neck area.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q So did he grab his neck or his shirt around the neck area?
A It was more of both because he had a real good grip on him.
Q Was there any warning, did he just stuck his hand out and grab, does he say something, did he say anything?
A No, ma'am, at this time when the door had closed back on him, he didn't say anything. His arm almost in an instant came out the window, his left arm, I remember it was his left arm, came out the window and touched Big Mike around his neck area and his throat. I watched his hands, you know, they really tightened up, so yeah, he had a good grip on it, that what's I saw first.
Q Were you still right behind Big Mike when this occurred?
A At this time I'm not behind him any more, we're side to side so I can see everything that is going on. I'm still in the windowed, I'm still right here standing in the same spot, I never moved.
And at that time Big Mike, he still has the Cigarillos in both of his hands, divided evenly, he never put them down in his pocket or anything like that.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Now, from the beginning of the grab, it is a tug of war. Big Mike places his hands openly, one hand on top of the cruiser and the other hand more right up under the window, the side mirror. He's trying to pull off the officer's grip.

Q How is he doing that with the Cigarillos in his hand?

A He placed the Cigarillos on the car and his hands are on the car. He never dropped a single pack. He still has them in his hand not dropping them, but he's pulling away, but he still grab on. So he never could really get a good grip on the car, but he's really trying to pull away.

Q Okay.

A At this time the officer, I'm not hearing what the officer is saying, I'm not hearing what Big Mike is saying, so now I'm not in shock, but that's the beginning of my shock level. That's where I'm like, this doesn't happen every day, something is out of order here.

They are talking to each other, they are yelling and cussing. And neither one of them can calm down, they both have angry faces on while they are talking.

They both were very upset and they

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

couldn't calm do. There wasn't any wrestling or anything like that, punches were thrown. It was more a tug of war and it was very intense, very intense.

Q Okay. And so please tell us what happened?

A While the officer is grabbing ahold of Big Mike, he kind loses grip around his neck, that's how I knew he had a good grip. He never fully let Big Mike go, now he has a good grasp on his shirt. So now Big Mike's able to turn different angles while he is trying to pull away.

And at a point he turned, now we are face-to-face, and he put his hands like, grab these, Bro. And in shock, I'm so not unconsciously, my hands open to where he could put the rillos in my hand, but I'm still standing in the same spot. I never said anything any more, I'm just standing in shock. I'm this close, I'm standing right here.

I almost feel like someone needs to come out here and say something to either one of them to calm somebody down.

At the time I couldn't open my mouth, I couldn't speak. I wanted to say could someone calm down. I could not speak at that time and the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Cigarillos were placed in my hand.

At that time he turned back around, facing the officer now, and now he can get a good grip on the car.

So now as he is pulling away, it is with more power, with more force. The officer is trying to pull him inside the vehicle through the window, like he's pulling him, but he's pulling away. The officer never attempted to open his door again after the first initially opening his door and close back on him.

Now he's trying to pull him, he's pulling away.

Q Was he pulling him with both his hands?

A No.

Q The officer is only using the left hand?

A The officer is only using his left arm and trying to pull Big Mike in and I could tell Big Mike was, he was getting the best of the officer because here was in a better position to pull away. He was outstanding and he was pulling off of something.

The officer was using one hand, although he had a nice size, I really couldn't get the full body, but from his arm and when I seen his arm, he had nice size so where he was kind of

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

strong, he looked strong enough to pull, but not strong enough to fully pull hum all the way in the car.

Q Was the car moving at all?

A No, at this time it was parked, it was still there in the same spot he pulled up in, same angle he was in.

And by this time there was cars behind and they could not get through because of how the officer had his vehicle or the cars couldn't get through the other way either east or west. So now we're just like three cars parked more towards the same direction the officer was going.

Q That would be west on Canfield Drive?

A On Canfield Drive. Now, in the midst of the tug of war, I never see Big Mike actually have his body inside the vehicle, like the officer never fully got him inside so much as he has torso or top area coming toward the window.

Q Did you ever see Big Mike's hands inside the car?

A No, ma'am, I never, I'm still standing there, more shocked than ever because I see it is escalating, I can see and hear the cuss words, I can see the frowns on their faces getting more intense.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. WHIRLEY: Is there a question?
I do have a question.
MS. WHIRLEY: It is okay with me.
: Do you want to wait?
MS. WHIRLEY: You can go ahead and ask a question.
You said you were on his right?
A Yes, ma'am.
: You were both very close to the door?
A Correct.
: You said he had his hands on the police car?
A Correct.
And he handed you the Cigarillos in your hand?
A Yes, ma'am, correct.
: Did he and you both have in one hand?
A Correct, yes, no. He handed both of them in my hands he had, my hands were free, so he handed them to me at the same time.
: Reason I ask this, I'm not judging, the reason I ask you is because that in

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

the film we saw, he only had the Cigarillos in one hand.

A Yes, when he initially grabbed out of the store, he had a lot of them in one hand when he grabbed them in the store. Once he got outside the store, that's when he divided them kind of and had both of his hands.

He's 6'3" or 6'4?

A Yes, ma'am.

You're not six feet?

A No, not at all.

: So how do you know he is so much taller than the car than you, you say you saw both of his hands, how did you see his left hand?

A The officer or Big Mike's?

Big Mike.

A Big Mike.

: He's so big, he's up against the car.

A Yeah.

How could you be sure?

A He was never like, I see what you're saying, he was never that close to the car, like I said, because of the position that he had on the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

officer standing outside. He was more overpowering the officer and the officer couldn't get him to close to the car.

So as he is pulling away, I can see his hand on front of the car, not both of his hands were on top. One hand was on top, the other hand was kind of by the side mirror on the officer's cruiser. So I can see his hands as he's pulling away, but then the officer, you know, there's a tug of war. He pulled him and then he pulled away.

That begs another question. You said he was getting the best of the officer. And when Sheila asked you if the car was moving, not was it mobile, but was moving, like was it so much force that it was rocking or something?

A I mean, the truck, yes, it was moving.

Because you didn't say you could tell that Big Mike was getting the best of the officer?

A Yes.

: If he is 300 pounds and 6'3", there has to be movement of the car?

A Yeah, because of the distance, or whatever, and he was standing, the car was moving, thank you for clearing that up.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. WHIRLEY: I'm glad she cleared that up.

A It wasn't moving, but it was shaking and moving, thank you.

: . You said initially that generally your process is to get up in the morning, check with your girlfriend and your baby to see if they want anything to eat on that date, your intent was to go get the Cigarillos from somebody in the apartment complex?

A Yes, ma'am, correct.

: Okay. And then was your intent to get something, you said something to eat for your girlfriend; is that correct as well?

A Correct, yes, ma'am.

: Naturally you didn't get to the friend's apartment for the Cigarillos, you were kind of diverted you said to the Ferguson Market; is that correct?

A Yes, ma'am, that's correct.

: At which time that's where the alleged theft had occurred?

A Yes, ma'am, correct.

Of the Cigarillos. You came out, you're coming back to the apartment

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

complex; is that correct?

A Correct, yes, ma'am.

Where did you, if I understand correctly, there's a McDonald's in this area, is that also correct.

A Yes, ma'am, right next door to the store.

At any point did you stop at the McDonald's to get breakfast for your girlfriend or your baby at that time.

A No, ma'am. At that time I was more concerned with getting home, getting away from that whole incident because of what had just occurred in the store, now I'm more wanting to just get back to my daughter and my girl because I know the seriousness of what just occurred.

Uh-huh, okay. And you said that you had lived there approximately about eight months you said, right?

A Eight months.

Although you only met Mike, I think you said about three months before this incident occurred; is that correct?

A One or two months.

: One or two months.

A Or five.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

: You knew other people that lived in the complex; is that correct?

A As neighbors, I only knew one other person that visited the complex as a childhood friend. I knew him as a childhood friend that one person, everybody else that I met, I met them as neighbors, I never stayed in Ferguson before.

: Okay. Now while you were there, I'm of the impression, I don't want to speculate, you had no other contact, had no other contact directly with Ferguson Police Department for any reason, any tickets or any altercations or anything of that nature?

A Yes, ma'am, I never had any.

While you are in the apartment complex, I mean, I'm quite sure sometimes you hear through the grapevine well, yeah, this guy got stopped or whatever or the police is like that, did you hear any conversations to that effect from any residence in the apartment complex?

A Yes, ma'am, all the time. Every day I hear different stories about people's different encounters with Ferguson Police. Be very mindful of the police around. Whenever you're coming outside the door, people are always giving you a warning,

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

they are up the street now, they are down the street or something in that manner basically keeping you aware of Ferguson Police.

: Okay, all right. With you being the older person, I think I heard in one of the DVDs that we saw or either in the transcript of that, you were basically kind of being a mentor to Mike; is that correct?

A Yes, ma'am, correct.

You saw that as an unofficial mentor?

A That's correct. It wasn't just like that with Big Mike, it was other kids his age that would see me and they see how I look and they see me walking up and down the street.

I have a dog, so me and my dog, I walk my dog a lot. I just live a peaceful lifestyle and they see that and they see me with my tattoos and my dreadlocks asking questions every day. They see me how did you, what happened, how did you get your job or anything like that.

So it is on a, it wasn't random that a person his age would come to me asking me how and the ways to get to work, to be the life to where you be comfortable a little. It was just me and him

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

didn't talk on a daily basis, I didn't see him on a daily basis.

: Okay. And with having that kind of relationship, when this incident occurred at Ferguson Market, did you have any opportunity at any time before this happened to kind of inform Mike what you had heard about the condition or the relationship between the community, the African-American community or community in that area and the Ferguson Police Department?

A No, ma'am, to my knowledge, Big Mike was living in Ferguson a lot longer than I was. Like I said, his grandmother stayed in Northwinds, they still in Ferguson. He knew a lot of people that stayed in Ferguson.

He was very popular, you know, with the kids, or people in the area. I was just the new resident, first time owner, year lease holder, I really didn't know people around or that much about Ferguson to give him knowledge about Ferguson and he stayed there a lot longer.

: Okay. So, I mean, did he have the opportunity to let you know about the Ferguson Police Department if he's been there longer?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yes, but not, he never directly told me like yeah, man, Ferguson, they really be on us like that, he never really said anything like that towards me or never really brought up incidents where he had encountered with the Ferguson Police.

My other neighbors that stayed around who lived or who owned their apartment or drive up and down the street every day, those are the ones getting stopped and they had their complaints, but he really didn't talk about Ferguson Police.

When the officer, Officer Wilson, Darren Wilson, when he first accosted you and Mike Brown in the street as you are walking back to your, I guess, wherever you intended on going, hadn't been decided yet, going to go to his place or go to your place or not, but when he, I believe you guys are walking east then; is that correct, on Canfield and he is traveling west on Canfield, the officer in his vehicle, is that correct?

A If west is going towards West Florissant, east towards Northwinds, yes, that's correct. I'm sorry, I don't know.

Okay. When he stops you and he makes this comment to you, okay, and then you say that you tell him that you are about a minute

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

from where you are going, you need to get to, okay, can you write that down for me in relative about approximately how many feet, did you have a block to go, did you have like 20 feet to go, 10 feet to go or what?

A Yeah, like I said, we was just at the leasing office where my building is and his building is away from the leasing office is not a block away, probably 20, 30 feet away.

: So about 20 or 30 feet?

MS. WHIRLEY: We can look at the map, did you have another question?

Yeah, I had another question. Was there any particular reason when the police officer gives you an order that you and Mike did not obey that order to get out of the street at that time and onto the sidewalk?

A The reason, I mean, at the time in my head and the response that I give back to the officer, I didn't feel like I was rude. I knew by law that we really wasn't committing a crime at the time because there was no traffic flow and no one was, you know, we wasn't holding up traffic or anything like that because cars were still able to pass us.

It was more so, it was more so like a

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

father figure talking to a son and that's where, you know, we are just walking down the street. But no one said anything like that, but this is what I'm thinking in my mind, we are just walking down the street, we are not causing anybody any harm. He didn't initially pull up on us and stop us because of the store incident, which I thought when I saw him I thought he's coming to get us for the store, but once he told us just get on the sidewalk, in my mind I'm like well, I guess he didn't call the police.

So at that time if the officer didn't know and I feel that he didn't know about the store because Big Mike still did have the Cigarillos in his hands in plain sight when the officer pulled up on us. He was just saying get on the sidewalk. Once I responded to him telling him we was a minute away from the destination, I felt like that we were not committing a crime, we were having our conversation, we was just walking.

At that time the officer really didn't look like, you know, he was mad or he was telling us that we was committing a crime, he was just saying get on the sidewalk. We was basically okay, we will be out of the street in a minute.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

: Did you, I mean, did the thought ever come to your mind at that point in time that maybe he was doing it for public safety to avoid you being struck by a vehicle in the street or anything of that nature, maybe for your own safety?

A At the time, no, I was not thinking that, but I could see how that would come into effect. At the time I was not thinking we was in harm's way or anything like that. Like I said, cars had passed us before the police got on the side of us, no one made, you know, any remarks saying, hey, you guys are in our way or blowing their horn or anything like that. So at the time I didn't feel like we were in harms way.

: Earlier you spoke about the construction worker, you did not speak to the construction worker, you did not talk to them?

A No, I didn't say anything so much as just stand there. I honestly didn't believe the construction worker would give a conversation because they were working at the time.

: Okay.

A I was just standing there.

: Could you hear them talking?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Not so much as, hey, when the construction worker spoke back, I kind of bowed out of their conversation. I didn't hear what they were saying to one another.

: You didn't hear him talking about getting high and something?

A At first I heard because that's what I was initially going to do. So I heard him bring up smoking or anything like that, but I couldn't get detailed on what exactly was said between him and the construction worker. I couldn't really factor in exactly what they were both saying.

: Where was the construction worker on your way back, they were gone?

A We did not get there.

: You didn't get that far?

A We didn't get that far.

: You mentioned, you said it was almost, you didn't know if you were being punked because it was almost like he had done it before. Do you think it is possible he could have done it before, do you think it is possible? I mean, he is a big guy, he's a big guy.

A Yeah, he's a big guy. I really can't say

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

if it is possible that he would do it at another store or anything like that. All I can say is how I felt at that time when I did see that because I never seen it before like that or the store clerk react that way or that slow.

Yes, it was like he knew the people like he had been in that store before, like he knew them, that store before and he knew things like that in that store.

It was not like he had stolen before or he was just familiar?

A Familiar with the store to where he could just pick up things and just pay for however he pleases.

I'm going to kind of ask you the same thing that he asked you. You said you didn't feel like you were doing anything wrong, but in the manner that the police spoke to you --

MS. WHIRLEY: Speak up a little bit for us.

: In the manner that he said get the fuck in, on the sidewalk.

A Yes, ma'am.

: Why were you not even on the sidewalk? It was not safe, is there a reason

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

why you didn't take advantage of the sidewalk, why you didn't do that?

A It wasn't a reason that I wasn't on the sidewalk, it was more just a decision that we made. When we get down there or anything like that, but the initial, the reason we didn't follow the complaint, like I said, Big Mike at this time never said anything.

: Okay.

A It was more like a chastisement than you are breaking law or you are committing a crime or you might bring harm to yourself.

If those were represented in the way he came off to us when he first said it, then maybe, okay, you know what, we'll get on the sidewalk. Because of the way he said it and the manner that he said it, it was more like we're not your kids, we're not doing anything legally wrong, just walking down the street even though it could be considered a crime jaywalking, but we are just walking in the street, we are not committing any crime or bringing harm to anyone.

: My last question right now. When the police, you said that the police passed you?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yes, after that.

: And you're walking back?

A You talking about after the store?

: Yes.

A Okay.

: Are police going both ways?

A No, the police came.

: From the area of the store?

A Not the area from the store, from deeper in Ferguson, so they was coming towards the store.

: Okay.

A When I first saw the official squad truck, it was a truck, not a car. Like I said, they didn't even go to the store, they went to McDonald's, they was on the parking lot. They turned around coming off the parking lot, but didn't really come off the parking lot or didn't confront us.

The third police car.

A Darren Wilson.

: Darren Wilson is the one that said get the F on the sidewalk?

A On the sidewalk.

: You said I'm not doing

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

anything, I'm going home, and that's when he backed up.

A Correct.

: And you couldn't go anywhere --

A Yeah, at that point when he backed up on us, I stopped.

: Okay.

A Because I felt that he had something else to say and I didn't want to make myself look guilty by running away or being startled and, you know, making a quick reaction, so I just stood there and complied with the officer even though he never said freeze or hold when he pulled back. I felt I will just stand still and see what he asked.

(Grand Jury Exhibit Number 15 marked for identification.)

Q (By Ms. Whirley) So at no time when the officer pulled back, we have brought a map that's marked as Grand Jury Exhibit Number 15 that would hopefully help you kind of illustrate where you guys were, does that look familiar?

A Yes, ma'am.

Q Okay, good. But my question before we get started is when the officer pulled back, he never

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

said, he never questioned you about that store incident?

A No, ma'am.

Q He never gave you any other directions then get out of the street or get on the sidewalk?

A After he initially said get on the sidewalk, he never even brought the sidewalk situation back up. He never brought the store up after he gave his first statement about getting on the sidewalk and I told him exactly how I said we are a minute away from our destination. We will be out of the street shortly. After he pulled back, there was no more sidewalk talk, it was nothing, it was just anger.

Q And then the altercation ensued?

A Began from there.

Q All right. I'm not sure how sturdy this tripod is, hopefully it will get us through. Can everyone see this map? You had a question?

: . A couple questions. I want to keep it before we move on. When you went into the market, you talked about payment, did you have money in your hands? I know you didn't have any pockets, I'm trying to figure out where you had your money?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A I had my money in my shoe at the time, yes, I had my money in my shoe.

When you left the store, I thought it was strange you guys stuck together. You didn't seem concerned, then kind of something bad was there, then you kind of stuck with Mike, kind of walk down the street, see the cops coming knowing they might be coming for me, I would expect probably more hide behind the bush, get back in place. What is the reason you walked down the street waiting for the cops to come get you?

A Like I said, that was in my mind at the time, we're not running, there is nothing really to hide behind on West Florissant. We could have run behind the stores, we still had to get out in the open eventually to get down Canfield. In the mind walking from Ferguson Market to Canfield, we're never making it to Canfield. We're never making it to Canfield how far this store is, to how many police cars we see on a day, you know, that's just in the area, we'll never make it to Canfield.

You know, just seems strange to be in the middle of the street, you think on the sidewalk to kind of avoid being noticed.

A In my mind, I'm still trying to fathom

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

everything that is going on and why he didn't put the Cigarillos in his pocket. He still had them in his hand the whole time leaving out the store, all the way walking down Canfield Drive.

When the police officer backed up at you, obviously, very aggressive. You think he intended to hit you, you think it was a miscalculation on the part of his judgment what he thinks, I shouldn't ask it that way, but I'm just trying to, I mean, that's pretty aggressive if you felt like you had to literally get out of the way to avoid him hitting you, if you felt that way?

A Yes, correct. It was very aggressive and fast the way he pulled back, but because we heard the tires, we was able to step back almost a second before the truck, the back of the rear of it kind of hit us, so it didn't hit us, but the way his car was angled, it very well could have hit both of us.

: . Just a quick follow-up question. Is it typical for you to walk down the middle of the street when you went to the market or walk around the neighborhood.

A No, sir. I walked in the middle of the street before, but it is not like I just wake up in the morning, hey, we are going to walk in the middle

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

of the street. It is something you do, you are crossing the street and try to stay a little longer or you just walking down the sidewalk. It wasn't planned to walk in the street.

Typically you would be on the sidewalk?

A Correct.

: In my mind an act of defiance going down the middle of the street expecting cars to go around you and, you know, pay attention to you. If I see somebody in the middle of the street I'd be concerned about hitting them and really slowing down and moving over.

A Yeah, that's correct.

: I would interpret that they are being defiant to show strength or something.

A Correct, walking down the middle of the street could, you know, cause harm if someone had to, but like I said, walking down the middle of the street we saw two, three, maybe even four cars pass us and no one blew their horn, no one even stopped or slowed down. They kept the same speed and just rolled right passed us.

Eventually there might

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

have been a driver that caused a confrontation?

A If, but it didn't come at all, we didn't get anyone telling us to get out of the street, you are in our way, anything like that, no comments like that.

: Thank you.

MS. WHIRLEY: We just have, as I mentioned, Grand Jury Exhibit Number 15 as an aid to help the jurors. I'm going to try to move it where everyone can see it. Can you guys see it from here?

A You want me to stand up?

Q That would be great, Dorian, thank you. I'm going to give you this pen.

A Well, as you all can see Number 12, this is my building right here . Like I said, we have a driveway, you see into the driveway, Canfield Drive, you can see directly over. This is the building --

Q Excuse me, this says Caddiefield Drive.

A Caddiefield, this is Canfield and through the apartments like the driveway, they have Caddiefield.

: . You lived in Caddiefield.

A Yes, I lived on ,

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Like I said, you can see directly across coming out of my building, this building that he was standing with a friend, Building Number Big Mike. They were standing on the third floor also.

That morning when I came out, I could see him, Big Mike right about right here helping someone put kids in the car.

The guy who I was going to --

Q (By Ms. Whirley) Let me stop you a minute. When you indicate where Big Mike is, could you put BM or MB, either one, so we can keep track of who is who. This is him too, right?

A This is where he was living.

Q This is you down here?

A This is, right. I will put DJ for me.

Q Okay.

A I don't know if you can see it. And this is Big Mike. Now initially when I first met him he was staying a little further back in Northwinds. At the time of the incident he was staying here at the time, something was going on with his grandmother, he had to move out, and he was staying with a friend.

When I came out that morning, he was

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

down in the parking lot area. Now the guy I was going to go to for the Cigarillos, stayed in this building right here Number Like I said, regardless whether I saw him or not, I was passing this building, that's the way I walk through to go to the guy.

When I saw him, we had our words, we're going to match, now we are walking up.

Now this is where we are going towards the store, going up Canfield. Now back to the part where the officer pulled up on us.

One is the leasing office, the first building. We were pretty much, we didn't get on into the street until we were like right before the leasing office, so it had to be right here where we initially just crossed over into the street.

Now, when the street, the officer doesn't pull up on us until about right here is where the police officer first really pulled up on the side of us.

After he initially said get on the sidewalk, we got to about, I say we wasn't really that far away from him, we got to about right here.

Q When he said get on the sidewalk, you are still, you said I don't have, I'm almost at my

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

destination, you keep walking east?

A Yes, we were still walking, but eventually I figure we were going to get out of the street.

: . So you were right there at Copper Creek Road and he said get the F on the sidewalk?

A Yes.

: You said not but a minute, you kept walking, you didn't hesitate, you didn't even do anything except we are almost home?

A Yes, that is what I told the officer. We are a minute away from our destination, I'll be out of the street shortly. At this time Big Mike said nothing, no words were out of his mouth towards the officer.

Q (By Ms. Whirley) Let me stop you for a minute. Your destination would be like, show us where you were when you told the officer you are almost at your destination, this goes to one of the grand juror questions.

A This leasing office where we are at. This is where the officer stopped us. He asked us to get on the sidewalk, I told him we were going to our destination. This is where I was headed, this is where Big Mike's house was and, you know, it is not

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

very close, but it is not very far. You can actually see both our buildings from standing right there, there is no real big trees or anything, they were actually cutting trees down in the neighborhood.

Q (By Ms. Whirley) You don't know the distance between that?

A I don't know the distance, you can see both the buildings from where we are standing from the leasing office.

Q All right.

A Now, once he pulled back on us. Let me see, you know what, I'm sorry, yeah, when he pulled back on us.

Q Is there something wrong?

A Yeah, I'm sorry, like I said, because of that day and what was going on, I really couldn't time or distance time and distance really is a blur to me, so much actually happened.

Q Are we right with the location as far as when, where he stopped you?

A Where he stops us, yes. I really can't tell how far we got down like the distance he had to drive in reverse, but I know he had to drive in reverse.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

The front of his car never met us, the back of his car met us first when he came back. I'm describing from the distance because where he was shot was down here, Big Mike was shot down here in this area.

Q That's where his body fell?

A That where his body was. One of the cars that I had to duck behind for cover, they were along this right here. (indicating)

Q Put car or something to let us know.

MS. ALIZADEH: Why don't you make, before when you have done this, yeah, make a rectangle.

A Okay.

MS. WHIRLEY: That's better.

A Like one car. It had to be a second car and third car would be like right behind.

MS. ALIZADEH: And Dorian, all three of those cars were going towards West Florissant?

A Yes, ma'am, correct.

MS. ALIZADEH: They were on the right side of the street?

A Yes, ma'am, correct.

Now, like I said, I don't know how far we got along, but because of how the officer pulled reverse on us, now his cruiser was more like

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

on both sides. I'll put another rectangle, but his rear was more on the side where he was coming from and kind of like, the beginning of his front was on the other side. Either way cars couldn't come this way or go the other way. They were stuck, and at that moment that's when these three cars were standing right there. And like I said, me and Big Mike, we are standing on this side of the police cruiser car.

Now, when he pulls up on us and he said, what did you say? I could tell that he's mad then, that's when he tried to open his door. Like I said, the way I was standing on the side of Big Mike when he opened his door, we was so close to his door that it hit us, but more so it hit Big Mike, only like a little portion of me, maybe the end of the door, it didn't really hurt me or anything like that, but it struck us and it closed back on the officer.

At that time is when his arm came out the window and he grabbed onto Big Mike.

Q (By Ms. Whirley) Okay.

A Any other questions or should I continue?

: . Where did you say that the door hit you?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A The door hit me on my left side, left arm, not my whole body because Big Mike is so big he takes more of the door than me, but just a piece of my arm and a piece of my body.

Did you have any visible injuries to that area?

A No, it hit more Big Mike than me, I didn't have any bruises but I felt the door hit me.

: Require any medical attention?

A No, ma'am.

MS. ALIZADEH: Dorian, can I ask you some questions? I know you have, at this point you've known Big Mike a couple months, maybe three months max?

A Yes.

MS. ALIZADEH: I know you've said that he was a great guy, you liked everything about him, right?

A Yes, ma'am.

MS. ALIZADEH: You considered yourself, you know, kind of a mentor?

A Yes, ma'am.

MS. ALIZADEH: You are older, you came from a violent background, not you violent, but

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

lived in a violent area?
A Yes, ma'am, correct.
MS. ALIZADEH: So, you know, when you go to the store and you see him just take these Cigarillos and you said he just said I'm going to take these Cigarillos, right?
A Yes, ma'am, correct.
MS. ALIZADEH: That's really brash, wouldn't you agree?
A Yes, ma'am.
MS. ALIZADEH: That's like indignant. And then when the clerk tries to stop him, he pushes the clerk aside?
A Yes, ma'am.
MS. ALIZADEH: Doesn't he?
A Yes, ma'am.
MS. ALIZADEH: You are surprised by that. And I think, you know, no one is saying that you had anything to do with planning that or even were aware it was going to happen, but just that behavior, that's pretty brash, wouldn't you say?
A Yes, ma'am.
MS. ALIZADEH: And then so when you are walking back and now you heard the clerk say I'm going to call the police, let me ask you this, after

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

he pushes the clerk aside, and I know you are watching this and if you want to watch the video because we couldn't get it to work in the other room, we can play it again for you. We can play it for you, but doesn't Big Mike come back at the clerk at some point?

A He does, but that's almost like because the store clerk made a move like he was going towards, like I said, the first time before the store clerk actually tried to grab for Big Mike because the first initial grab the store clerk just grabbed the door and Big Mike just pushed the door.

Now, the store clerk made another step like he was trying to grab for Big Mike and that's when it was like a real --

MS. ALIZADEH: Like a push away?

A Fast push away, and I don't know if the store clerk was going to walk back on or anything, but that was like a stare down, like he kind of like stared at him.

MS. ALIZADEH: And that was threatening, he was threatening, don't you think, he is 6 foot 5 inches tall?

A He was a small man. He was almost smaller than me, shorter than me, you are right.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: That would be extremely intimidating, don't you think?

A I could see where it made the store clerk kind of eased off.

MS. ALIZADEH: Sure.

A You know what, I will just leave this at the hands of the police.

MS. ALIZADEH: At this point, I mean, this is not behavior you are used to seeing from him, correct?

A No, ma'am, I wasn't aware of it.

MS. ALIZADEH: But it is clearly very much macho, I'm going to take these Cigarillos, I know he's not saying that, but that was kind of his demeanor, like what are you going to do, stop me? I'm taking them, right?

A Correct, yes, ma'am.

MS. ALIZADEH: Okay. So then you are walking down the street, I know you said you are kind of freaked out at this point?

A Yes, ma'am.

MS. ALIZADEH: And you see cop cars coming by oh, my God, you know, but Big Mike doesn't really care, does he?

A Not so much care because when he saw, he

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

looked at my face. I'm just walking like oh, my goodness. When I see the squad car I kind of follow it, I want to see are they going to the store or what is going on. And once he sees that on my face, he is like just walk normal, so we are just walking.

MS. ALIZADEH: But he doesn't even put the Cigarillos in his pocket?

A Like I said --

MS. ALIZADEH: He has them out there like.

A Just walking, yes, ma'am.

MS. ALIZADEH: Whatever, you know. He owns the street right there, right, kind of?

A I don't want to say he thought he owned the street, he was very bold with how --

MS. ALIZADEH: Bold, that's a good way to put it. So then, you know, as you walk back and you say you are walking in the middle of street.

A Yes, ma'am.

MS. ALIZADEH: I know, you know, it is Saturday, noon-ish, there is people out, but not like rush hour or anything, but, you know, cars are going back and forth, cars are going, passing you, but they don't have any trouble getting past you.

A No, ma'am, none whatsoever.

MS. ALIZADEH: But then the officer stops

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

and says get the fuck on the sidewalk.

A Yes, ma'am.

MS. ALIZADEH: And you said hey, we are just going to my place, we are going to be there in just a minute and you guys kind of keep walking and he then drives past you, correct?

A That was, in my mind, that is what I was thinking, yes, ma'am, I heard his car pull off.

MS. ALIZADEH: Okay. And then you hear screeching tires and then do you look back to see him reversing towards you?

A Yes, ma'am.

MS. ALIZADEH: You hear him say what?

A What did you just say? He thought someone had said something else.

MS. ALIZADEH: Is it possible that Big Mike, who is behind you now, could have said something to the officer as the officer pulled away, could have said something ignorant to him?

A No way, no, ma'am. He was standing behind me, he was so close if he would have said something, I would have heard. He didn't say anything, like I said at that time only I spoke to the officer.

Now, I could kind of see where he may have been looking at the officer, kind of staring

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

him in his eyes, I'm talking he never said anything, probably eye-to-eye contact with the officer. I don't know if that, like he did the store clerk, eye-to-eye with the store clerk where he thought --

MS. WHIRLEY: I want to interrupt you. Did you see that or you just speculating?

A I am speculating right now.

MS. WHIRLEY: We want you to tell us what you know, what you saw.

A I was looking at the officer because I was talking to the officer. I wasn't directly looking into his eyes, so much looking at his face and telling him what was going on, but at no point in time I heard Big Mike say anything at all, he never said anything.

MS. ALIZADEH: But the officer said, what did you say? That kind of sounds like he heard something.

A Or he may have got a look that may have looked like he said something. That's why I speculate that he may have been looking at the officer, but, you know, the way the officer pulled back on us, yes, I feel like, all right, I'm lost. I was the one that just told you, I didn't say anything else.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: You didn't saying?

A No out of order, no cuss words or anything like that.

MS. ALIZADEH: You didn't hear Mike say anything?

A No, ma'am.

MS. ALIZADEH: Is it possible, if he said it like under his breath as he turned his head, might be that you didn't hear it?

A I didn't hear him mumble anything.

MS. WHIRLEY: Here is a question.

: . If the police had already passed you guys up as you are walking towards home, he is going back towards West Florissant, how could he have heard you because he had to come back to you and say what did you say?

A Exactly, so I felt that was my random thinking, no one said anything, but I didn't say that to the officer because I didn't know what he was feeling at the time, the way he pulled a reverse on us, I was let me stand fast and see what he is going to say. That's why I basically was standing side to side talking to him.

: Okay, this is So now you say you don't even think the police heard

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

you say we are almost home?

A No, he definitely heard me say that. Again, I was looking at his face while I was talking and telling him.

: Again, I'm not judging you, but somebody just stole something?

A Right.

: On the video that we watched, he grabbed ahold of the man?

A Right.

: He said something to him and he lunged at him, okay, you are walking down the street?

A Yes, ma'am.

: The police tell you to get the fuck on the sidewalk?

A Correct.

And you say I'm almost home, you are thinking to yourself we are not doing anything wrong, didn't you? Somebody did just do something wrong, so that still begs the question why you did not listen to the police?

A Yeah, like I said before, at the time we was walking from the store, I saw with my two eyes police squad cars pass us by, neither one of those

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

cars stopped us or said hey, did you just come out of that store or anything like that.

So in my mind at the time they were unaware or the store clerk never made the call because before we saw Darren Wilson, we saw two more police cars. He was the third police car we saw and he was the first one that stopped us.

MS. ALIZADEH: So you guys thought, or at least you thought you were in the clear that this officer wasn't talking to you about the Cigarillos.

A Not so much me in the clear because I know I didn't commit a crime. I was so much thinking maybe he didn't call the police, that's all I was thinking.

MS. ALIZADEH: You were worried, you already said --

A I was worried because of, I know that, you know, he's not a person like that and I'm worried because I don't think, well, I don't know what is in his mind. I can't think what he's thinking at the time, but I know, you know, I've been locked up before, not for anything like that, jail is not for nobody. Nobody should ever want to go to jail. So I knew that's where he was headed, so that is where my worry and fear is coming from.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: Okay.

MS. WHIRLEY: You say when he came back, he never mentioned anything about the Cigarillos or the store?

A Darren Wilson the police officer?

Q (By Ms. Whirley) Yes, the police officer.

A He never stopped stop us and said hey, freeze, stop right there, let me get out of my car anything like that. I've been stopped by police before, I know there is a way that they stop or pull up on people, suspects for committing crimes.

So exactly what I said, didn't feel like he was stopping us or telling us anything like we were committing a crime so much as chastising from a father to a son, like you are doing some wrong. Hey, put that down or don't touch that, it came off like that, that's how he said it.

: . You did say that you have money in your tennis shoes?

A Yes, ma'am.

Why don't you pay for the Cigarillos?

A At the time I thought he was going to buy them because when we was in the store, I never confronted the store clerk, I never even walked up

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

to the register, I just stood back because I thought that he was buying the Cigarillos.

When I saw that he wasn't, I didn't need that many Cigarillos, that's why I just, you know, set it back. And because of what was going on at the time, I don't even want to be, you know, I'm really trying to get out of the store now. I don't like what is going on, so I'm leaving so much as hey, I'll pay for them, it is all right. I'm just trying to leave now.

: When you saw your friend do something that is wrong and you have the money, why don't you pay?

A Oh, no.

: Or at least offer to pay?

A I'm sorry, I didn't have enough money to purchase all of them.

: At least some of them, what have you?

A I didn't have enough to purchase all the Cigarillos that he was grabbing. And at the time, like I said, we never had a conversation about what he was going to do in the store or anything like that. We was just going to get some Cigarillos.

At the time you didn't

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

even pay for one Cigarillo?

A At that time I was basically, hey, you know what, I'm not a part of this, I didn't know, although I didn't say it, I was basically just trying to get out of the store like all of the rest, there was another person in there, he was just trying to get out of the store, so I'm getting --

: You are with him and he is doing that, you are an accomplice?

MS. ALIZADEH: You can't hear him?

A I'm sorry, I'll speak up. The store clerk actually does notice me, like I said, it was a male store clerk and his daughter was there. She's looking directly at me, I'm looking at her face-to-face and she sees me actually put the box of Cigarillos back and I step back.

Because they are kind of in front of the door so I really can't get through, like walking straight. So I have to kind of side step them. The store clerk, as he walked past me, he never tried to grab me, hey, you with him, he never did anything like that. So I felt like, you know what, he saw me put those back, he saw that my intentions were not to steal from him, so that's why I believe he didn't never try to grab me or hold me back or from leaving

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

or anything like that.

. When the police officer backed up and almost ran over you, let's say, and you guys were facing his window, when he opened his door, what is your sense of what he was trying to do when he was opening your door, do you think he was intentionally trying to hit you with the door or was he potentially trying to get out of the car very quickly?

A That I can't speculate on. Again, I cannot speculate what is in someone's mind or what their agenda is going to be, but the force that he used and the power behind it, I believe it was unnecessary. He could of, and the way he backed up, if he would have backed up straight back, he would have been able to open his door, step out of his car perfectly. But because of the angle where he reversed and how close we were and how fast he did it, it happened real fast. Everything happened continuously right back to back.

It was really with a lot of force and power that wasn't needed.

Do you think, do you think it is possible that he didn't know how close you guys dies were to the car?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A I don't think that it is possible not to see someone. You have a couple of mirrors attached to your car as you are backing up, I'm sure, I pray, I hope he was using his mirror and not intentionally trying to strike us. But like I said, I can't speculate what he was doing, I know that he was very forceful and powerful.

MS. ALIZADEH: But Dorian, you said you guys had to kind of jump out of the way?

A We definitely had to step back, not so much as a big leap to where, you know, oh. It was more of a step back real fast because of the rear end, you know, it wouldn't have, the whole back of the car wouldn't have hit us, it would have been like a corner of the side of the rear because of how he was turning his vehicle, it would have struck one of us, if it would have hit him, it would have fell into me, but if it would have hit me, I would have fell onto the ground.

: . It seem likely to pull up next to you, you had the first encounter, he continued down west, probably, potentially looks in the mirror, sees you have not adjusted your path.

A Right.

: He's aggravated because

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

you aren't doing what he asked for, backs up, not only does he back up to stay straight, he backs up and puts his rear end across that center line, therefore, blocking your path. You can no longer walk down the center line any more, he is going to take that away. And possibly when he is asking you what did you say, I had a feeling he may be referring back to the first conversation we had and he is wondering, what did you say? Didn't you tell me you were going to get out of the street?

Again, I'm assuming different things in there, but it may not have been a secondary conversation that he's referring to, what did you say when I drove away or when I was coming back, he very well could have been referring to the very first conversation, he's wondering why you are still in the street?

A I can see where you are saying, he maybe didn't hear exactly what I was saying to him or something like that. I never said that it right away, officer, we get right on the sidewalk. So I could see why he would be like, they're not getting off the street and pulled back.

: Right.

A Even still, like I said, if he would have

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

pulled back straight, the altercation would have happened a lot different, I'm sure he would have happened a lot different if he been able to get out of the car, full body, stand straight up, but because of how that little small incident reacted, it kind of turned the next level up a lot.

MS. WHIRLEY: Okay. Anybody else? All right.

Dorian, why don't you have a seat, we may go back to the map.

Q (By Ms. Whirley) Let's get to the actual shooting.

A Okay.

Q We left off with you talking about the officer had his left hand out of the car and he is pulling Big Mike in or trying to, so now the Cigarillos have been handed off to you?

A Yes, ma'am.

Q Go from there?

A I'm sorry, could I stand up? This map is perfect and I just want to see very perfect, everything is here.

So at the time, like I said --

Q You still have the pen in case you need to?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Big Mike and Darren Wilson, the officer, they are doing their tug of war. He passed me off the Cigarillos. Now he's back, at no point in time did I begin to move away, I stood in the same position, same spot. I'm still in the driver window of the officer the whole time they are doing their tug of war, so I can see both of them. I'm going back and forth looking at both of their faces.

I'm hearing cuss words from both of them, but I don't really hear the officer saying, you know, stop or get down on the ground.

I really like, I'm shocked, the shock level I'm going through right now is continuously building. So now it is more and more stuff, I'm trying to comprehend that it is not, it shouldn't be happening, that I know shouldn't be happening. They are pulling back and forth. At this time I heard the officer says, I'll shoot. This is the first he says, I'll shoot.

At that time I was looking at Big Mike when he said I'll shoot. In my mind taser, I see people get tased before and it looks like it hurts a lot.

Q Let me stop you a minute. So the first time the officer says, I'll shoot, Big Mike's hands

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

are free now?
A Yeah.
Q He's given you the Cigarillos?
A Yes.
Q No shots have been fired yet?
A Not at the moment, no.
Q Okay. So do you know where his hands are when the officer is saying, I'll shoot?
A I can still see both Darren Wilson's hand and Big Mike's hands.
Q Tell us about it?
A Big Mike's left hand was still on like right above the side mirror, right up under that, right up under the side mirror. His other arm now because of the tug of war pull, the officer's grip come up, from up on his neck, to the shirt collar, to the shoulder, to basically he never let go. Now he has Big Mike. Big Mike's left arm is on the car pulling away still, and he's trying to pull away because now he basically just has his arm.
Q So the officer has his right arm?
A Yes, with the officer's left arm, he's out the window grabbing Big Mike's right arm.
Q Okay. So he has Big Mike's right arm, does he pull it inside the car?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A I really, from the time of everything happening and once he said, I'll shoot, now my focus has switched and locked on the officer and say what he is saying he's going to shoot because in my mind I assume it is a taser. If it was going to be a taser, no matter who was in the wrong or who was in the right, if I would have saw that taser, I would have immediately told my friend Big Mike, look, just stop, stop moving, stop pulling away, just stop.

But because I saw the gun and the barrel, I've been shot before. It is the worse pain I can ever imagine, it does not feel good, because I saw the barrel, I went into a deeper shock.

Q You didn't think everybody should just stop when you saw the gun?

A I was praying, I was, I'm in such shock right now and firm, because when the officer pulled up and that's why I was trying to make clear people were, he's a witness, key witness. I was so victimized that people don't even understand.

There was a witness standing on their balcony, a witness drive by in her car, me being right there in the moment, I felt victimized because I felt so afraid that I couldn't talk.

I couldn't say what was on my mind

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

because I'm so afraid of, I couldn't calm it down. I don't have the power to calm down the police officer and obviously Big Mike is bigger than me.

Q Let's just go back. I understand what you are saying about seeing the shooting like that, but when Big Mike's right hand or arm is being pulled into the car, I don't know if you said that or not, you said that the officer had his right hand with his, the officer's left hand had Big Mike's right arm?

A Correct.

Q Where is it, did you see it or not, where his right, where Big Mike's right hand was?

A I didn't see Big Mike's right hand because the officer had it, but it was up, so it may have been times when the officer could have pulled his right, because his left hand never removed off the officer's car.

So there could have been times when the officer pulled him, but like I said, because of the position how Big Mike has on the officer, officer never got out of the car, he is still sitting down. He has a better way of pulling with more force, so he is just pulling. I can see more of the officer's arm out the window than his arm in

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

the window.

Q From your vantage point, you can tell if Big Mike's hand ever went inside the officer's car?

A No, because at the point, I'm back and forth, but when, I'll shoot, my eyes locked on the officer.

Q So where was, where were the hands, I'm interested in the hands and the arms?

A At that point when the officer said I'll shoot, now is like Big Mike, this hand is not on the car any more.

Q That's the left hand?

A The left arm is not on the car any more, the officer still has the right arm, but he's not inside the car. And when I look up and see the officer, the officer has his gun pointed, his left arm grabbed, he has his gun pointed aimed at Big Mike.

In my mind it was probably aimed at both of us, but I assumed he wasn't directly just trying to go for Big Mike. He had his gun pointed towards us. I'm still standing in the doorway and at the time he said I'll shoot. He was going to say it again, I'll shoot and almost, he didn't get to finish his sentence, the gun went off.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q At the time that the gun went off, where were the hands of Big Mike?

A The left arm was down at his side. He was standing straight up, I was standing right on the side of him. The right arm was still up in the air while the officer, but still pulling, but it is not like he got any, pulling off the car, he is still pulling the officer.

At this time, like I said, I see more of the officer's arm outside the car than Big Mike's arm inside the car, so he has a better position to pull away from, the officer was sitting down.

Q Just so I understand with the officer's left hand, he's pulling Big Mike's right arm into the car and Mike's pulling away and the officer has his gun in his right hand?

A Correct.

Q And he says, I'll shoot?

A Correct.

Q While this pulling is going on?

A Correct, yes, ma'am.

Q Okay. Go ahead, well, there is a question?

Real quickly,

When the gun went off as soon as he said I'll

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

shoot, do you know if the gun was inside the car or outside the car.

A The gun definitely was inside the car when he fired the shot. How me and Big Mike was standing, we were standing straight up, so we definitely was outside the vehicle. The bullet came outside the car and struck him. He was never inside the car and got struck, he was outside the car when the first shot went off. The officer was inside the car, so the gun was inside the car, but when he shot the gun, bullet traveled outside his car and struck Big Mike in the chest, or I seen blood coming from.

Q (By Ms. Whirley) You are not sure where the wound --

A It struck him, I definitely know that it hit him, I saw the blood with the first shot.

Q Are you absolutely certain, I know you talked about being in shock and that kind of thing, this is very important, this jury is trying to get this thing figured out.

Are you absolutely certain that you did not see Big Mike's hands inside the officer's car in a struggle with the officer?

A Now, his hand being inside the car, I won't speculate on, like I said, there was times

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

where the officer had a good pull and his arm would get in there, but majority of the time the officer really didn't have that much power because of the position that they both had. I'm not saying that he was stronger than the officer, but because the officer was sitting down in his car and Big Mike was standing up and he had better, more strength in pulling from the officer.

Q Right, can you go ahead?

A I never saw at no point in time Big Mike's hand touch the gun or anything like that because of the gun was already out drawn.

Q How about touching the officer?

A Now, touching the officer, now touching the officer, maybe, because they're pulling each other, but as far as striking the officer, or physically striking the officer, no, I didn't see.

Q You didn't see him with a fist?

A No, ma'am, he never had his fist clenched up like in a punching manner, so much as trying to grab stuff and push himself off of.

Q Could it have happened and you missed it?

A Him striking the officer?

Q Right, some type of physical altercation with the officer inside the car?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Like I said, I was standing so close and directly in the doorway with him the whole time pulling away, he never swung his left arm at all or never put the left arm inside the window, anything like that. And because the officer had his right arm, I'm almost positive that he couldn't like hit the officer because the officer has his right arm.

Q Okay. You said you were sure he never touched the gun?

A Yes, ma'am, correct.

MS. WHIRLEY: Go ahead, questions?

: . In here, what we heard earlier, you said that you could tell, you couldn't really see him, the officer, you said you couldn't tell what color hair he had, you couldn't see what kind of build he was, but because of his arm, you could tell that he was a certain, you could assume that he was a certain build. If you couldn't see the officer inside the car, is it possible that you couldn't have seen Big Mike's arm go into the car as well.

A I was going to say on that, the way they ask that question, they was basically asking for a description on the officer. And I told them that because I was in a state of shock, I couldn't give

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

them a full description of the officer because when you are in shock, I'm not at this time focused on the specific details on the officer so much as making sure that I'm not in the line of fire.

What's going on?

A Yeah, I'm still standing right here, but I'm not like, he's got blue eyes, brown eyes, no. I step back, there is a gun pointed at you guys, that's how I'm acting like at this point.

. How tall are you?

A How tall I am? 5'6" or 5'7".

: How much you weigh?

A 123,125.

: You were standing to the right of Mike?

A Not in front, but on the right side.

: On the side?

A Yes, ma'am.

: How big was Mike?

A I really couldn't, I didn't know how big he was until I heard it.

: Can I tell you?

A Yes, please.

: 285 pounds and 6'4".

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

He's a big, big guy.

A Yes.

With a big tummy.

A Yes, it wasn't so much his weight, he was like big in bulk. He wasn't like blabby fat.

: I don't mean, big tummy, or could be muscle whatever. You are a pretty small guy, I am a small person too.

A Okay.

: If I am close to her and she's fighting with them, and the other arm and I am here and I have the side of the car, the head rest on the seat, I don't know that I can see what happened with the hand whether he touched the gun or no. Describe the police or no. I don't see that you can have as much vision as you say. I don't think that you are lying, I think that you don't have as much of a good vision as you say.

A Okay.

It is difficult for me to understand that.

A And that's what I'm trying to make you understand because of where I'm standing outside the vehicle and how close I am to Big Mike and everything that I saw, the officer never got Big

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Mike inside the window. You have to think about someone sitting down trying to pull in a 6'9", 285 pound person.

You're not going to have that much ease with just, hey, get over here in this window. No, he's big, he's standing up, and the officer's gun is on his right side, I believe, because that's where he draw from with his right arm. In order for Big Mike to have touched the gun, it is almost like his whole top half of his body had to be inside the vehicle, and that never happened.

His arm, yes, but like I said, the officer had it. It wasn't like his arm was in the window free, the officer has his left arm on his right arm, so if he made a grab and got that far over there, it wasn't because --

So did you say he had the right arm, not the left?

A Not the left, the left arm never went towards the window whatsoever.

MS. ALIZADEH: Dorian, do you understand, I don't know, I'm not a physics person or anything, you know you kind of said to yourself that Mike Brown was, Big Mike was in an advantageous position and that he was standing on his feet outside the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

vehicle.

A Correct.

MS. ALIZADEH: And the officer is seated in his vehicle?

A Correct.

MS. ALIZADEH: Hard to figure out why he couldn't break free if the officer has him just with his left hand?

A Uh-huh.

MS. ALIZADEH: First of all, by the neck?

A Uh-huh.

MS. ALIZADEH: And then you said by his shirt?

A Correct.

MS. ALIZADEH: You couldn't just, do you understand it might be difficult to understand why he couldn't just, just the sheer weight of him if he had fallen over his shirt would have ripped.

A I understand that, that would almost be believable if the officer was somebody of my size. If the officer was a small person, Darren Wilson didn't look small from his arm and from his, like I said, I saw his top part. He never got out of the car for me to see his full body size. I could tell he wasn't a small officer. It wasn't like he could

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

be overtooken (sic) very easily.

Once you have a grasp on something, I don't care if someone's really strong, if you have a good grip on it, you can pretty much hold on to a lot if someone's stronger than you, you can still hold onto a lot. Not his flesh so much more, but more his shirt. I'm not letting this shirt go sort of thing.

MS. ALIZADEH: Just to clarify, you didn't see him get out of the car, you saw him standing up and fully out of the car later, correct?

A The police officer?

MS. ALIZADEH: Yeah, right.

A Yes, I did, correct.

MS. ALIZADEH: So how would you compare him to how your build and height is? How tall did you say you are?

A 5'6", 5'7", 123 pounds. He was bigger than me.

MS. ALIZADEH: Okay.

A He wasn't so much bigger than me like Big Mike, but he was bigger than me. You can tell he was a full grown man, he was a grown man. He didn't look like he was fat, he looked like he was a little muscle, like a little training on him. He looked

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

like he was solid muscle also.

I didn't see where he was very weaker than Big Mike, just so much as he had a bad position sitting down not even getting out of the car, again, to even confront. Just basically trying to, like he was trying to pick up a kid or something like that. It is still the whole ordeal more still looking like chastisement from a father to a son type of deal.

MS. WHIRLEY: Number 1?

: Yeah, . Just take a couple steps back, I'm trying to trace how this began. Again, he puts it in reverse, what did you say, from your point of view or perspective, are you saying that Officer Darren is the aggressor in this situation in regards to making that first grab or whatever that is first?

A Correct, yes, I am. He was the aggressor by initially just the way he reversed and opened his door and the grab, it was overaggressive. I felt like it wasn't needed.

If it was just regular backing up and just gently getting out of his car, we had no reason why we wasn't running no time before then, so we had no reason to run from him if he would have did it right if he was, you know, answering to a distress

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

call and he did catch us, or catch him. He would have definitely locked both of us up at the time, but like I said, he never said anything about the store, he never got out of the car or anything like that, it was all aggressive.

: Okay, thank you.

Q (By Ms. Whirley) Okay. So the first shot goes off in the car while he has Big Mike's hand?

A Yes, ma'am.

MS. ALIZADEH: Right arm.

A At this time with the gun out, he don't have much of the flesh so much as his shirt.

Q (By Ms. Whirley) Okay.

A A real tight grip on his shirt now.

Q Does he have on a long or short sleeve shirt?

A Short sleeve shirt.

Q What about the police officer?

A The police officer, like I said, he had a short sleeve shirt on, yes. I seen his arm, his forearm, yeah, he had short sleeve shirt on.

Q So you told us the position of the hand when the gun goes off the first shot inside the car, he's in the car, the shot you said went out of the car?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yes, ma'am.

Q Hit Big Mike and then what?

A When the first shot went off, we were so close and ringing, I've been shot before so instantly everything, emotions that I had, like I've been shot three or four years ago, so everything is still fresh. With guns, I really dislike them loud bangs.

At the time and seeing the fire come out of the gun and shot go off, when I see Big Mike, I see the blood come down his, where the officer had his right side. I'm on his right side, I see the blood come down.

I never looked at myself because I was so afraid I was like, oh, I saw him. My eyes got big, he didn't say anything after that. He kind of looked at my face and saw my eyes and at that time, that was when the officer let go and we were both able to run. That's when I turn and run. He was right behind me.

Q Which way did you run on the map?

A After the first shot took off, we both ran this way. (indicating)

Q Okay.

A Now, I was so in shock and so in fear, at

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

that time now I'm just, I'm really afraid, I'm really afraid. I don't know if the officer's coming towards Big Mike or just towards both of us. Right now I'm just so afraid that the time I get past the first vehicle, I was in front of Big Mike when we was walking. When I took off running, I was still in front of him.

When I got to the first vehicle, which was like a Sunfire or gray Sunfire, so very small vehicle. The officer was not yet out of his car, he was still in his car because I was able to run to the car and like stand, not squatting real low, but I was standing behind the car, the Sunfire, but I know he was able to still see the back of my neck and hair and all of those things.

When Big Mike ran past me, he saw me, he looked directly at me he said, keep running, Bro. And at that time is when I kind of hear the door opening, I figure the officer is getting out of his car now, but before then, like I said, the officer was still in his car, I was able to run, squat behind the first car.

Big Mike ran, he was right behind me. He looked directly in my eyes and said, keep running, Bro. That's when I knew that I was still

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

in plain sight. Now, the tension of me, I'm so afraid that I can't move any more, so I'm just standing there behind the first car now.

There is people in this car. Now there is people coming outside the house because they heard the first shot, there is not that many people. As Big Mike run past me and sees me, he keeps going. He makes it past the second car, once he gets to the second car, I can feel, I'm not looking around me because I'm so scared. I'm just standing there and I can feel someone approaching, so I kind of give a glance over to my right and it is the officer now, he's walking, he's walking, but he is kind of fast walking. He's not running or anything like that, but he has his weapon drawn.

Q Just like you are doing now?

A Yes, in this manner, his weapon is drawn and he's walking in at fast manner. He's not saying anything, he's not saying freeze, he's not saying anything at this time while still just concentrating, he is walking.

As I see him, I'm in plain sight, Big Mike was able to see me. He ran past me, keep running. I'm so scared, I cannot move my feet.

And I watch the officer walk past, he

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

never even looked at me. He just kept walking past and I'm watching him and I'm in awe. I'm like okay, is he looking for us or is he going after him, but everything is in my head is just racing real fast because of the gunshot and I'm hyperventilating, my heart is pounding.

After he walked past me, I kind of stand up more. I'm trying to ask the people in the first car, could I please just let me in the vehicle, I stay in the same complex. You can just drop me off. They said no, and they pulled off on the sidewalk.

Q Where did they pull to?

A The first car? They didn't drive through the driveway, they pulled on the sidewalk to drive past the police officer. Once they pulled off, I was even more visible now. I'm standing straight, the officer's back is towards me, Big Mike's back is towards me and the officer because he is running away.

I'm watching the officer, he's walking and Big Mike gets past the third car, the final car before the second shot was fired. It was the second shot fired, pow, the officer shot. I don't know if it hit, I wasn't that close to see

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

that it struck Big Mike, but the manner that he jerked and just stopped in his track, I sense that he was hit again.

The first time I definitely knew, I definitely saw him get shot the first time, he had been struck one time already.

The second time he shot, I didn't know if it hit him or not, but he kind of jerked and that's when he stopped running. He just kind of stopped and turned around at the officer. And now he's face-to-face with the officer, but not so close.

Now, Big Mike is probably, he's not fully at the driveway, but he gets probably to the curb of the driveway when the second shot, and now at the second shot, the officer, I'll just put DW, he's passing the third vehicle.

Q Where are you?

A At this time I'm still right here.

Q You are at the second vehicle?

A Yes, but I'm more over to the side now because like I said, I was trying to talk to the people in the front car. I was on the side of their car when I was trying to talk to them.

After they pulled off, I had to stand

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

up and I was still in shock and now I'm just watching the officer, you know, pace towards Big Mike. I see him fire the second shot, I see Big Mike turn around and face the officer. And now the officer is past the last car and Big Mike is off the sidewalk now more in the street.

Q What is Big Mike doing?

A At that time Big Mike's hands was up, but not so much up in the air because he had been struck already in this region somewhere on this. It was like this hands is up and this hand is kind of like down sort of.

Q His hands were nowhere near his waist?

A No, his hands never went down towards his waistline or anything, like he didn't have a belt on or anything.

Q Was he sagging, was his pants sagging or you say he wasn't wearing a belt?

A Yeah, at that time he didn't look like he was sagging.

Q That's okay if he was, I'm trying to get the picture.

A At that time I wasn't looking for, I was looking more at him and the officer because how he stopped, I felt like he was shot again, so now I'm

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

really fearing like, wow, he's been shot twice. Not knowing for sure he has been shot twice, definitely know he has been shot one.

Q Okay. The reason why I am asking you about the sagging, we probably all know the kind of, you know, how young folks do it.

A Yeah.

Q A lot of times when they are sagging, their pants are down so low that you can actually see the waist area.

A Right.

Q That's what I'm asking, was he sagging or do you recall?

A No.

Q Was not, but no belt?

A No belt on.

Q Did he have a weapon that day?

A No, ma'am.

Q Did you?

A No, ma'am, none whatsoever, anything like that.

Q All right. He turns around, show us again how his hands were?

A His hands, this one is higher, this hand is higher, this one is, like I said, he was

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

definitely struck with the first shot. So I could tell he was injured because this hand was a little lower than this hand. As I'm looking at him, he said I'm, he didn't say I'm unarmed per se, he said I don't have a gun, but he's still mad, he still has his angry face. I don't have a gun.

And he goes, he never started running because, you know, he's hit, but sort of, I don't have a gun. And before he can say the second sentence or before he can even get it out, that's when the several more shots came.

Q How close would you say the officer was to Big Mike when Big Mike is saying to him, I don't have a gun. Like can you kind of show us?

A I can't be definite on feet.

Q Big Mike is somewhere here, and the officer is here?

A Yes. He's not on the sidewalk no more, he's on the street level now and the officer has, he's not so close to the third car, but he's like, he's not on the sidewalk on the other side, he's closer to the other side of the street, the opposite side of Big Mike.

Q You are where?

A I'm still standing right in plain sight

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

standing on the side.

Q You can hear him say I don't have a gun?

A I can see him start to say something.

Q What did you hear him say, if anything?

A I heard him start to say I don't have, but you know, in my state of mind in my shock, I'm bouncing in and out. Time, in my mind slowed down and everything, I can see what is going on.

Q Let me just make sure I understand because this is important. Does he actually say, did you actually hear him say, I don't have a gun or this is what you are thinking he's trying to say?

A No, the first statement was I don't have a gun.

Q You heard him say that?

A Yes, I don't have a gun.

Q Okay.

A The second statement he was starting to say I, you know, he couldn't get the full sentence out before the rest of the shots hit his body. And I stood and watched face-to-face as every shot was fired and as his body went down and his body never. His body kind of just went down and fell, you know, like a step, you know what I'm saying? Like a step, his body just kind of collapsed down and he just

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

fell.

Q Was he walking towards the officer as he was collapsing?

A He couldn't get a step off like. When he was giving his second sentence, what he was going to say, it was like he was going to step close to the officer, but like I said, before he could even get that sentence out, the rest of the shots was hitting him and he was going down.

Q And was shots being fired as he was going down?

A Shots was definitely fired while he was going down. The last shot he fired he was so close to the ground, it looked like to me he was already on the ground. His knees were, he was going down, he was already down before the last shot came.

Q So he never like got on his knees, he was just falling down?

A He was falling. I can almost feel the shots because like I said, I've been shot before. I'm so face-to-face with him being shot, I'm seeing his eyes blink and all of these different. It is making me relive the pain of coming through because I've only been shot one time.

I can see how many shots this officer

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

is firing, it is sickening to my stomach, I'm almost bursting in tears right there. I threw up a little in my mouth initially. I got in my head that he's dead. When I see his body hit the ground, in my head I say he's dead.

At that time while he's on the ground, the officer is standing there, he doesn't look around like he's looking for me or anything like that, I'm still in plain sight. I never went anywhere until it clicked back to me that he may could be looking for you too.

Again, at that time, that's more fear for my life. I just seen him gun down and kill someone I was just walking with my friend Big Mike, I see that, I see with my eyes he killed him. Now in my head I'm wondering what is he going to do with me.

Q Let me ask you this. When he stopped shooting, what did he do, the officer?

A When he stopped shooting, the officer, he just kind of stood there.

Q Did he go check for, check his pulse?

A No, ma'am.

Q Did he check to see if there was a weapon anywhere?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A No, ma'am.
Q What do you mean he just stood there?
A After giving the final shots, the rippling shots because there is only one rippling shots. Boom, boom, boom, boom, boom, he kind of stood there. And at that time I see him, and I see Big Mike on the ground, he's not moving, breathing or anything like that. I see the officer kind of just standing there, it wasn't for like a full two seconds when I took off running, I just --
Q So you didn't see the officer when he went back to his car or when he left the scene or anything like that?
A No, I didn't see him go back to his car or anything when I took off running. My building is right here, I was so afraid for my life that I didn't want to go to any other direction, so I took this direction all the way, all the way around. I went the longest way around to my house.
Now, when I got into my apartment, I wasn't there for a minute or two, my girlfriend is there, I'm hyperventilating, I'm still throwing up, I have been throwing up since I started running. I've been throwing up all the way along the run.
When I got there, she's trying to

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

calm me down, but I'm telling her, I'm trying to tell her what just happened, but I'm so, I mean, I'm hyperventilating so much that I can't really tell her, and now I want to see did it really just happen, did he just die, was he just injured, did that just happened. So not a full two minutes --

MS. ALIZADEH: Excuse me, Dorian, do you mind because we have been going now almost two hours and the court reporter because his hands need a break.

A Okay.

MS. ALIZADEH: Can we take, because we still have a bit for you to do and if you need a break or restroom break, we'll walk you out here in a minute. Is that all right if we take like a five minute break so that the court courter can stretch his hands. You all can take a five minute break if you like.

(Recess)

Q (By Ms. Whirley) Okay. Dorian, you were telling us about, I think where we left off Mike Brown or Big Mike had fell down.

MS. ALIZADEH: Actually, Sheila, we had gotten to the point where he was back in his apartment and was now saying you were going to go

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

out again that's kind of where.

A Correct.

MS. WHIRLEY: Thank you, Kathi. So go ahead and finish.

A Like I said, when I had got back to my apartment, hyperventilating, still trying to figure out. At the scene, I kind of pretty much assumed that he's dead. But when I ran to my apartment and I was able to kind of get it together, it wasn't a minute or two minutes, I came back out to check to see if he's all right, is he moving or, you know, did he really get killed.

When I came back out to the street, you can see where my apartment is, how close the street is. When I came back out, I came back straight away. Came back straight away, I got to about right here and I could still see that Big Mike was still laying in the street in the same position he was when he had got shot. But I did not see the officer any more, I saw his cruiser, his car was still there, it didn't look like he was inside the car.

I continued to walk along because now there is a lot of people outside right now. At this time when coming back now, there is a lot of people,

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

but I did not see the officer any more, I did not see any officers on the scene.

Q (By Ms. Whirley) That is what my question was, so there is no police officers on the scene at this time when you walk back?

A No, ma'am.

Q So there is no tape of anything?

A No tape, nothing right at the moment. At the moment of me coming back, there was just Big Mike laying in the street, his car was still there, but Darren Wilson himself was not present any more, there was a bunch of other people congregating outside.

Q People from the neighborhood?

A Yes.

Q What did you do then?

MS. ALIZADEH: Can I ask a real quick question? When you were in the house, when you went back to your apartment.

A Yes, ma'am.

MS. ALIZADEH: Did you change clothes then?

A Yes, ma'am. When I got into the apartment, that's when I had changed my clothes. I'm sorry, thank you for bringing that up. Yes, I

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

had changed my clothes in fear that he would see me when I came out, but I definitely had to come back out to see was he dead or not. I wasn't doing it, I was still in fear of my life. So I just changed, really didn't change that much I just put on different bottoms and tank top.

Q (By Ms. Whirley) How long were you in the house?

A Not even two, five, three minutes.

Q You didn't shower?

A I didn't shower or anything, I just changed my bottoms and put on a tank top.

MS. WHIRLEY: Okay. You had a question?

: You changed because you were afraid that the police would recognize you?

A Correct, yes, ma'am.

When you came back around and you were taking a peek at the scene, did you notice whether the other two cars that were in the traffic stop, were they still there?

A No. When I came back on the scene, the rest of the cars, the two cars, they had already pulled off, I'm assuming they pulled off. The car was still right there. They had to pull through the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

driveway or pull off like the first car just drive on the sidewalk.

Q (By Ms. Whirley) So the road was open between Michael Brown and the police cruiser, nobody else on the road?

A Correct, yes, sir.

: At any time from the first time the officer approached you and Mr. Brown to the time of his death, did he ever call for help?

A No, ma'am, the officer never got on his dispatcher or anything like that. He never even seemed like he really needed any help. We wasn't threatening his life in a threatening manner. I definitely wasn't doing anything like assisting Big Mike in pulling him away. It was more so just him and Big Mike, I didn't see him needing any help.

: . You said that you had crouched down behind that first vehicle?

A Yes, ma'am.

: You described a Toyota, are you speaking of a two door Toyota?

A Yes, ma'am.

Or a Pontiac Sunfire; is

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

that correct?

A Yes, ma'am.

Can you tell me were you down on your knees like this, both knees, one knee down like this or what?

A Yes, ma'am. I never got down on my knees so much as crouch down slightly, just a little. I played football in school, so I got a good crouch. I was just basically standing there. I'm behind the car, but I know that I'm not low enough because the car is so small I didn't really want to get down on the ground. I was just really trying to stoop.

But once Big Mike looked me in my face as he is going by and says, hey, keep running, Bro. At that moment I knew this is not a good place to be, but I could not move because of fear and shock that I was. My mind was like go, run, go, but I was just like, uh, I couldn't move at the time.

: Is there any reason why you didn't want to get on the ground, you said somebody is shooting at you?

A Like I said, I'm so much in shock that I've been shot before and the time that I have been shot, I just kept running. I got hit running, so I figure if I'm going to get hit, I'm going to get

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

shot, it might as well be trying to get away instead of laying there basically waiting for it to happen.

: Your back is to the car?

A Yes, ma'am.

: Your back is to the action so to speak?

A No, my back was to the car. At that time when Big Mike passed me, he passed in front of me. He past in front of me and he was still going and now at that time my back is towards the officer in the vehicle.

: Okay.

A Big Mike ran past me.

: You can see Big Mike?

A Yeah.

Your back is to the officer and the officer's car?

A Correct.

MS. WHIRLEY: ?

: . So we appreciate hearing your perspective and you are obviously very much involved in this. From your point of view, from your perspective, if you had to say, you know, what caused Officer Darren Wilson to

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

fire all of these shots as you are pursuing Mike Brown, what would you say is the cause of that? Kind of from what you've seen and everything that happened, why would you say he was pursuing him?

A You are saying why didn't he fire the shots from the beginning or from the last couple shots?

: He is out of the vehicle and he is pursuing as Mike is running, why would you say, do you have any suspicion?

A I saw no reason possible for him to actually fire the weapon now. If he would just pull it out to threaten him to stop running, I could see him doing that, but I still didn't understand why he pulled a gun out to threaten somebody to stop him, but like I said, I didn't see no reason for him to fire the shots. The first one or the rest of the ones afterwards.

: Thank you.

So you mentioned that he never said stop or halt when Big Mike was running?

A Correct, yes, sir.

: So I guess the point where he fired the one shot and he turned around?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yes.

: Leading up to that, you never heard stop, get on the ground?

A No, sir and like I said, I was still on the scene to the point where I could, I was still right in the area and the only thing that I heard was Big Mike tell me to keep running. After that there was no more words said by anybody, it was just shots fired.

: . I have a question. You said after the first shot, your ears were ringing?

A Yes.

: I've been in close range with a loud noise, I know it can take a while for your hearing to fully restore where it is like cotton or ear plugs, how well did you actually hear Michael Brown say, keep running, Bro, or was it really muffled to you. I guess where I'm going with this, if you really couldn't hear that well, were you able to hear the officer clearly if he was saying anything?

A Right, and I understand that. Prior to the first shot firing off and I got to the car, I guess the ring, like I said, I've been shot at

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

before, I've been shot once before, but I've been shot at in crazy situations, walking home from school and all.

So the ringing affect from gunfire, it really didn't drown out everything because my adrenaline was pumping so hard, my mind is going so many different ways, like survival mode I should say. So once he says something, I can definitely hear, I'm like I'm locked in on him and the police officer, Big Mike and the police officer.

So once he runs by me and says, keep running, Bro, it is almost clear as us having a conversation.

As the police officer is walking by, he's not saying anything so much as focusing on where he's going because he never once glanced over at me like Big Mike did. Big Mike actually turned his head and looked at me and kept running. The officer walked past me and now that I'm not, I'm not crouched down lower than I was when Big Mike saw me, I'm still, is the officer going to see me or what is he going to do because I know he can see me. What is he going to say. He never said anything, never look towards me, he just kept walking past me.

Q (By Ms. Whirley) So when you go back to

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

the scene to verify that what you thought happened did indeed happen, what did you do then when you see him laying, and there is no police there, what do you do?

A At that time I kind of stood back into the crowd of people that is starting to come out now because at that time now, police officer was coming. At that time it wasn't Darren Wilson who came back, it was some other officer.

He initially started putting up the tape around the area. At that time it was, he was by hisself.

So the family and people, I could tell it was his family. They were trying to get information from that officer who had just got on the scene, so he really didn't know anything that happened. So he's basically telling them to get back, get back, move away and move away. I'm just standing there like if this is his family and all they want to know is why their son is laying in the street uncovered. He wasn't covered at that time.

Everyone is taking pictures of him and stuff like that, he's not covered, he's bleeding everything, he's out in the open. The parents want to know why, they're asking this officer who is on

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

the scene caution up, he's not telling them anything, he has no information. Darren Wilson wasn't there to tell him anything, you know, he was gone.

His car was still there, they actually had to take some caution tape over his car because they left it there at that time so his car was still there. It was cautioned off, but when I saw that they were not giving, you know, the parents what happened or anything like that and I was kind of waiting to see if they were, if anybody were going to come out to speak to them and say anything, no one said anything.

Q Did you make contact with the police to let them know what was going on?

A At that time I was real fearful, I was more scared of police. I should say I didn't want them to know when I ran the first time, everyone was saying well, there was somebody with him, he ran so fast we couldn't tell who it was, that's how fast I was running. Even people who see me every day in my complex didn't know it was me running.

Q Who was the first person that you talked to about what happened?

A I had, I went to his grandmother's house.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

She had just got out of the hospital and stuff. She is staying in Northwinds, when I see his uncle and all of them standing right there, I immediately all right, they are not going to tell these people anything, I have to tell their family. I was with him last, I saw what happened. So I went to his family only where he was living at.

Q His grandmother's house?

A His grandmother's house.

Q Did you actually talk to his grandmother?

A Yes, I talked to his grandmother.

Q What did you tell her?

A I told her exactly what happened. From the start of the morning all the way to the store incident.

Q What you told us here today?

A Yes, exactly.

Q So you went through the whole thing with the grandmother?

A I told the grandmother, yes, ma'am, grandmother, I think, I don't know if his auntie or uncle was there, but it was definitely the immediate family who lived there.

Q You told them?

A I told them.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Q Okay. Did anybody talk about calling the police?

A They actually wanted me to walk down, that was my first interview. I don't know if it was Fox 2 or anything like that, the first statement that I've given. And that was the reason I gave it because the family they asked me if I could do it for them because they wanted to get it out immediately. Their words, so it wouldn't be covered up or misconstrued or any type of way. They wanted me to get it out there quickly.

Even at that time now, it's a lot, there is a strong police for now, there is a lot of police officers, detectives out there. While I'm talking to the camera, I'm talking to the camera crew right here in this area where the cameras are located at.

They taped off pretty much this area. They taped off so all of that was taped off, nobody could come through here or there or anybody like that, it was taped off. Police force strong right here and they are walking around, but I'm right here talking to the camera. The first interview, I'm talking to the camera, I'm talking to the uncles and they are standing right there. At no time no police

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

officers came or looked for me or even was saying they were looking for me.

Q You talking about that particular day?

A Yeah, that day.

Q So you didn't talk to the police, you were so fearful?

A I was so afraid. I didn't know what was going to happen to me. I basically just didn't, really I didn't feel comfortable with Ferguson at the time. That was really who was out there at that time, there was a lot of Ferguson police officers and I just felt like, you know what, I don't need to be seen right now. I don't want to be detained in any type of way, you know. It was just a lot at the time and I was just in the crowd.

Even so, no one was asking for me or looking for me really, they was just trying to patrol the area what was going on.

Q Did you learn a day or two afterwards that the police were wanting to get your statement?

A I didn't, a couple, three or four days, it wasn't until I had my lawyer, that really was what my concern was, I wait until I got a lawyer so that I can, if they were looking for me, they wanted me. I can go to my lawyer, here is what happen. I have

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

a lawyer right here that will represent me and stuff like that.

At the time I didn't have nobody representing me, I didn't have no one even caring if it was me there or not.

Q Like the next day, did anybody tell you that the police came to

A

Q looking for you to get a statement?

A I was actually there. No one came, I was there in my apartment that day, no one came, knocked on the door.

Q Not on the 11th, nobody came?

A Probably so because I don't know if I was going to stay there on the 11th. When I came out, the next day after this on the 10th, people thought I was dead. Because they said that they found a body, that is what happened, they found a body behind Dominoes. The media, it was out of control, people thought it was me.

When I came out of my apartment, people crying and oh, they killed him too and all of that. When some people saw me, like a neighbor saw me, he was like, oh man, they are saying you're dead. They said they found some body behind the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

pizza place, you need to get out of here, it is crazy.

So at that time my fear grew, not of just me, for my daughter and my girlfriend.

Q Did your girlfriend tell you that the police were looking for you to get a statement?

A She didn't see the police.

Q The police didn't make contact with your girlfriend to your knowledge?

A Not with her or me.

Q So when did you first talk to the police?

A The first police that I did talk to was the FBI and St. Louis County, and that was four days prior to them releasing the video, so four days before that, I had my talk with the FBI.

Q So that would have been the 13th of August probably?

A Yeah, the 13th.

Q Okay. And so, even though the county police, you know, the county police had taken over the investigation?

A Well, I was out there long enough to see the county actually come in and Ferguson leave, I saw all of that.

Q Okay. And the county police were trying

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

to get you to get a statement, but you just weren't aware of that?

A At the time, no, I wasn't aware of that, that the county was looking for me or they wanted me for questioning or anything like that.

MS. ALIZADEH: Can I ask a question? Dorian, I know you talked about when you, you were right by the police vehicle and you see these three cars come up?

A Yes, ma'am.

MS. ALIZADEH: Did you notice were any cars coming from that direction?

A At that time, actually, through the incident, no cars were coming in that direction. There was no one trying to get over even though I could see the police squad car is on the opposite side of the line as well, but no one came. There was no one held up that way.

MS. ALIZADEH: When you ran after the police officer shot Mike and you ran away, you ran kind of around, did you run around the police car, is that the line you drew?

A That the tape, that's me here and that's run all the way around.

MS. ALIZADEH: So when you ran in this

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

direction, did you say anything to anybody?

A Oh, no.

MS. ALIZADEH: Did you say anything?

A I didn't say anything, I was just running.

MS. ALIZADEH: You didn't say they killed my friend.

A It did come out, but I didn't get it out loud where someone would have heard it, I was just, killed my friend. You know, I was still hyperventilating, but it didn't come out a clear sentence to where somebody standing there would have heard it.

MS. ALIZADEH: You didn't see whether there were any cars right there that would have seen any of this?

A Oh definitely, the three cars.

MS. ALIZADEH: No, no, no, I'm sorry, on the other side of the police car?

A No, when I was running, I wasn't looking, I looked at the officer, I seen that he was still standing there, and that's when trying to figure out something in his head, let me run and I just ran. I just kept running.

MS. ALIZADEH: Okay.

: : I have a

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

question for you. You talked about Michael Brown said something, exchange words with the officer during the tug of war at the car, you heard him say something. And you heard him say something towards the end right before he was killed, you didn't hear the officer say anything during that tug of war or anything during that entire time that he was coming down the street.

A I didn't hear him, no, when he was coming down the street after he got out of the car he said nothing, I didn't see his mouth move. I was there looking at him, his mouth wasn't moving, he didn't say freeze or anything like that before he fired the second shot, which made him stop.

And the car, because of the, I'm not used to seeing, I see police officers get into it with people before, I'm not use in that manner sitting in his car, tug of war and all of that, I'm not used to seeing it like that.

I'm not focused so much on what they said, so much as saying who was going to calm down, who was going to give in to the words because that is all it was at the car was just words. There was no physical altercation really as much as the pulling of the arm, but so much as words being said

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

in a very aggressive manner.

Nothing like, no threatening manner like I'll kill you, or let me go or I'll punch you. Let me the F go, get the F off of me, and what the officer said, I couldn't really make what he was saying, I heard him cussing also, he had a very angry face.

: Once he exited the car, you didn't hear the officer say anything?

A Once he got out of the car after the shot was fired, he didn't instantly get out of the car when we ran, it took him like a minute maybe, or some seconds to get out of the car, that's how I was able to get to where I was able to position myself.

I didn't hear the door open until after Big Mike was passing me telling me to keep running. I hear the door and now, I didn't look back at the time, so I'm not really sure if it was his door or the people's door whose car I'm hiding behind, but I hear a door open and slam. And almost seconds later, I see the officer walking past me, so I kind of figure he was getting out of his car at that time.

MS. ALIZADEH: Dorian, you said it took almost a minute for him to get out of the car?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A I wouldn't want to --

MS. ALIZADEH: I'm not pinning you to that.

A It is almost like it was a pause before he got out of the car.

MS. ALIZADEH: Okay. Now, you said earlier that he never radioed for help, is it possible while he was in the car, that's what he was doing?

A It is possible that little split second of him not instantly getting out of the car he was radioing for backup.

MS. ALIZADEH: You don't know why the delay in getting out of the car or if he was calling for help, you don't know?'

Q (By Ms. Whirley) And just to be clear, between the time that you started, your day with Big Mike at seven-ish and/or up to the time of the shooting, 12-ish or so, you guys never did get a chance to smoke the weed?

A We never got a chance to do anything. We never got a chance to make it back to the house.

MS. ALIZADEH: Were you two ever apart during that day, like where he could have been doing something that you weren't there to witness?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yeah, those hours before I woke up and saw him, we didn't live in the same bed, same place.

MS. ALIZADEH: I mean, from the time you saw him in the morning?

A From the time I saw him, we was together from seven all the way to him dying.

MS. ALIZADEH: Okay.

: . You said several times that the police officer didn't say stop or freeze or halt or whatever, but he did say twice I'll shoot, I'll shoot you.

A He said it fully once. The second time he didn't really get it out before the shot. It was almost like --

The first time he said I'll shoot, his gun went off and the second time the officer pulled his weapon out and said the second time I'll shoot you. What did you think that meant, did you not think that meant to stop?

A When someone says I'll shoot?

I'll shoot you, when a cop says, police officer.

A When a police officer says I'll shoot, that doesn't mean stop or halt.

: Okay.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A That means get out of the way, either get out of the way or protect ourself because, you know, if he really wanted to stop. They have a lot of phrases that they teach the first day at the academy halt, freeze.

I'm sure like you go through some type of simulation to where any, you know, any altercation they have they might already been through a simulation or something like that in training to where he knows how you are supposed to handle a situation as opposed to just pulling his gun on people who doesn't have guns drawn on him, who don't have weapons drawn down on him.

I'm not saying anything at all, he's not, he's yelling, but he's not making any threatening remarks towards the officer, so there was no need for him to draw his gun in the first manner, and that's what it really became. Oh, let me get away because now it is starting to get out of hand either furthermore the argument. And that was in itself and I see that you could of, I'm not going to say what he should of did or could have did because he's a police officer, what I do I'm a civilian.

All I'm saying is the gun definitely

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

was, it was out of order. Could have been a taser, anything that made someone stop. The taser make me stop, anything less lethal than a gun. He could have pulled out the billy club to show he was going to use force if we didn't stop.

: Then you see they were the police say I shoot, you don't need to stop?

A If you're not doing anything wrong.

If you are running, you continue running when the police say I shoot?

A We wasn't running at the time, we was just standing there. If we had been running he said I'll shoot, oh, yeah, I'll stop. I don't want to get shot. We are standing still and someone draws a gun on you.

: What did he say the second time, I shoot?

A Second time was not running, we was still standing at the car. He said it first, he said I'll shoot, and when he said it the first time, he's just aiming at us, he's not, you know, out of his car, we are still standing right there. The second time he begins to say it, but he doesn't even finish it when the gun goes off, when his gun goes off.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

Why do you hire a lawyer, what do you think, why do you think you need a lawyer?

A Excuse me, I couldn't.

MS. WHIRLEY: Why do you need a lawyer, why do you think you need a lawyer?

A It was a very serious incident that happened. I know that it just wasn't the robbery going to be brought up, someone died, someone lost their life. Of course you want somebody representing you that is going to make you look like your story isn't told from a point of view that people pick away at your words or go off of what you said, your dialogue.

I would love to have a representative on the side of me that he takes my story and says it in a way that you'll understand it in dialogue that you will understand.

I'm 22, I don't know how old you are, there is some things I could say, you know, you don't really understand and that's why I would have a lawyer. I instantly thought that at the time.

: .

A Okay.

And I don't have money to

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

hire a lawyer if I need it.

A I definitely don't either. It is a blessing to get to that age, I pray we all get to that age.

MS. ALIZADEH: So Dorian, let me clarify this to make sure. You are saying the officer fired one shot while he was inside the vehicle?

A Correct.

MS. ALIZADEH: And his gun was still inside the vehicle?

A Correct.

MS. ALIZADEH: And no part of Mike Brown's body at that point was inside the vehicle?

A Correct.

MS. ALIZADEH: And that's the only shot you heard at the car, correct, the only shot that was fired at the car?

A Correct, yes, ma'am.

MS. ALIZADEH: And then as Mike Brown ran away, the officer once he is going toward Mike Brown, he fired one shot?

A Yes, ma'am.

MS. ALIZADEH: And you believe that that hit Mike Brown at that point?

A Yes, ma'am.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: While Mike Brown is running away?

A Yes. His back is facing me and the officer, Big Mike is ahead of us now. So he's the farthest one, the officer is behind him and I'm behind the officer, but basically Big Mike's back is facing both of us.

MS. ALIZADEH: Now, Mike is running, I guess, at this point, right?

A Yes, ma'am.

MS. ALIZADEH: Can you just stand up for me and show me what position Mike's body was in when you believe the officer shot him?

A The second time?

MS. ALIZADEH: Yes, from behind as he was running away.

A As he's running away, he's running with his arms down. Once the second shot fired off, I see his body do like a jerking movement, not to where it looked like he got hit in his back, but I knew, it maybe could have grazed him, but he definitely made a jerking movement. He didn't take a step after that, his next steps was turn around after the second shot.

MS. ALIZADEH: Okay. So when he made that

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

jerking movement and you are assuming that he had been hit by a bullet?

A The second time. He was already struck the first time for sure with my eyes I saw blood come from his shirt.

Q Right. I'm talking about when you say you saw him do kind of a jerk?

A That would have been the second time he was hit.

MS. ALIZADEH: Okay. When you say you saw that happen, at that point his arms are not up, raised up, correct?

A Not when his back is facing, none whatsoever, no.

MS. ALIZADEH: Right, and then he stops?

A He stops and he turns around.

MS. ALIZADEH: And he turns around and his arms are going up as he is turning around?

A Yes.

MS. ALIZADEH: Okay. And then the officer, he doesn't proceed toward the officer?

A No, ma'am.

MS. WHIRLEY: Is he saying anything?

A At the time as soon as he turns around, he didn't say anything. A split second later, he was

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

still angry because I know he could feel the shot. He could feel the first shot if he was only shot one time at that time, he definitely could feel that shot. Shot him right in the area because his hand couldn't really get up there. He was saying, I don't have a gun, pop, pop, pop, pop, all the shots came then.

MS. ALIZADEH: So from the time he turned around, he did not proceed towards the officer?

A No, ma'am.

MS. ALIZADEH: You have said maybe half step and then he went down?

A Half a step maybe, his foot was coming off the ground. He was being riddled with more shots and then caused him to tumble over.

MS. ALIZADEH: Let me ask you this. From the time you think he might have been shot when you saw the jerk, did he proceed to run any distance after that?

A No, ma'am.

MS. ALIZADEH: He stopped immediately?

A He stopped immediately after that. After that motion, pop, stopped, turned around.

MS. ALIZADEH: Is it possible that after you saw him jerk like that, he continued to run

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

maybe another 20, 22 feet?

A Away from the officer?

MS. ALIZADEH: Yeah.

A No, after the second shot was fired, that literally stopped him in his tracks and turned around at that point.

MS. ALIZADEH: Then when you saw him turn around, is it possible that he ran, not ran, at that point he stopped running, right?

A Right.

MS. ALIZADEH: Is it possible that he moved maybe 20, 22 feet toward the officer before he fell?

A Not 20 to 22, not that far. Like I said, he was barely on the sidewalk, he was barely on the sidewalk to the parking lot. He was going towards this building. I presume that's the way he was running. He wasn't really all the way on the driveway when the second shot went off, and he turned around, and he was in the street.

He was taking a step towards the officer to show him that he didn't have anything, his hand was up, so he is showing the officer, I don't have a weapon on me.

And as he's walking toward the

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

officer saying that in an angry manner, he was saying it an angry manner, he was hurt, still frustrated probably, so he's telling him, I don't have a gun. I don't have -- before he can say, you know, anything else, this man is riddled with more shots until he tumbled other.

MS. ALIZADEH: He doesn't like run at the officer?

A No, ma'am. At no point in time when he turned around he made a rush towards the officer or anything like he was going to tackle the officer or anything like that. He was standing straight up.

MS. ALIZADEH: He maybe got like a step you said before the gunshots?

A Before the several shots came. That was the only time it came repeatedly, boom, boom, boom, boom, boom, and he went down and that was it. He wasn't moving any more.

MS. WHIRLEY: I don't know who was first.

: . When the second shot was fired by Darren Wilson, where was he related to his patrol car, was he right next to his patrol car?

A The officer?

: Yes, on the second shot.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Oh, no. The second shot, like I said, once he got fully out of the patrol car, he never turned back to it or got back in it. He came away from the patrol car and like I said, feet and distances are rough to me right now.

I definitely know that his patrol car was in front of this driveway and in front of this building, and when he shot the second shot he was at the end of the building.

: . That being said, going the same direction, they found two bullet casings near the car. Do you have any idea, any speculation why they find two bullet casings at the car when you only heard one shot.

A I honestly do not know. He definitely only shot one time inside the car, it wasn't multiple shots. If they found, I mean, we don't have forensics both shells match his gun. If they did, I was lost after the first shot. That just shows how much more shock I was in because I definitely know he shot once, I wasn't aware of a second shot at the car.

MS. WHIRLEY: Yes, . So my question again, so you were talking about doing the turning

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

motion when all the shots were fired, we'll see where the wounds are, my thought was from the turning, you were demonstrating the turning, I just want to make sure. I don't know if you want to show us, you are saying he is walking like this, you are saying that second shot came on this side and then that he turned?

A Yes.

: And the rest were on this side?

A Well, he was running away, I didn't see where the bullet struck him.

Okay.

A That's why I was trying to go back, but I definitely saw the officer fire his gun while his back was towards us, and both me and the officer, I saw his body jerk. If he was struck, I don't know if he was fully struck or he just grazed him, but that's what stopped him in his tracks from running away from the second shot.

: Thank you.

MS. WHIRLEY:

: . When you came back after changing clothes and you saw people were starting to come out at the scene, was anybody

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

in the street between the patrol car and where Big Mike was laying in the street?

A Oh, yes, there was people crossing, no one actually got close to his body, but people were walking through the street, back and forth across the side.

They would get on the sidewalk as close they wanted to, but they wouldn't get in the street by the body. They got pretty close to get some real crazy pictures of his body.

MS. WHIRLEY: Was there anything stopping them from getting up to his body before when it first happened because you said there were no police cars there initially?

A Nothing stopped anybody from the public coming up to the dead body and just looking at it. It was uncovered, his body was not covered at the time, there was no police officers out there, nobody, just the squad car. And he was not there, there was no yellow tape. So people were just coming out their doors, kids, you know, there is a lot of kids out.

Just looking at the dead body, like he is right here laying in front of us, that's how people were able to walk up and look at his body,

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

and take their phones out, take pictures of his body, was nobody telling them to stop.

At that time his family wasn't even out there. It is just a bunch of random people walking around coming out of that building, oh, it is a dead body in our street. They are walking up to it like it is a prank or something like that.

No, this is a real dead person, he's not covered, his pants down are by his knees, you could see the blood spilling from his top part, not out of his head, but you can tell that it is blood leaking because it is all coming from the top part.

I didn't even actually know he had got shot in his face and head until the autopsy report showed. I actually thought he just got shot in his upper region and chest. When I seen a puddle of blood coming from the top part of his body.

: Just to be clear, you did see people between the car and this body in the street?

A Correct.

MS. ALIZADEH: Dorian, you mentioned that you didn't know until the autopsy report, what autopsy report are you referring to?

A The private autopsy report that they

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

actually, there was only one that they spewed to the public. It was the private autopsy where it said he got shot in his face. It came out and went back in, got shot in the top of his head. That's the only one that I saw that they was releasing to the public.

MS. ALIZADEH: Did you see an actual report or you just saying what you saw because it was on the news. I mean, they were speaking on the news, did you actually see a report?

A Like the documentation of it, no, ma'am.

MS. ALIZADEH: So you are basing that on what they said on the news?

A What the examiner said on the news, not the media, the private examiner that was hired by the family. And I'm sure his credentials follow him wherever he goes. I know he is not random that's doing an autopsy.

MS. ALIZADEH: No, and I'm not saying that. I'm trying to figure out.

A Where I did I get those --

MS. ALIZADEH: I'm sorry, you know that there was an autopsy done first?

A Yes.

MS. ALIZADEH: And then there was another?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Second one.

MS. ALIZADEH: And a third?

A A third, right.

MS. ALIZADEH: I was trying to figure out which one you were talking about?

A Correct, the family private autopsy.

MS. ALIZADEH: Okay. I'm sorry. Just one more. When you made your statement to the FBI, was that down at FBI or were you at the U.S. Attorneys Office?

A I was down at my lawyer's.

MS. ALIZADEH: Oh, your lawyer's office, that's right. Had you seen the autopsy report at that time or did you know, I'm sorry, I know you didn't see it. Had you learned the results of the private autopsy at that point?

A Not from the private autopsy, but from different witnesses account from where their perspective was, their point of views, like the girl on her third floor --

MS. ALIZADEH: Okay, we don't want to talk about what other people saw.

A That's what I said.

MS. ALIZADEH: Because other people will come in and say what they saw.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A Yeah, so.

MS. ALIZADEH: My question was, when you talked to the FBI, we know that that was on the 13th, right?

A Correct, yes, ma'am.

MS. ALIZADEH: You hadn't seen, you didn't know any results of any autopsy at that point, did you?

A No, ma'am.

MS. ALIZADEH: Okay. I just want to clarify that. I don't know when you learned that stuff.

A Okay.

MS. ALIZADEH: All right.

MS. WHIRLEY: Another question over here?

: I have a question.

. You said you went home and you changed clothes so you wouldn't be recognize?

A Yes.

: Did you have any blood on your clothes

A No, ma'am.

: You were standing so close to him?

A No, I didn't have, like blood didn't

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

splatter off of him so much as inside his shirt. I seen it pop up on his shirt, he had a white shirt on. So blood just trickled down his side.

MS. WHIRLEY: Anybody else? You Kathi?

MS. ALIZADEH: I just wanted to make sure before we're done today, put your name and the date of today's date on that map that you have been drawing on, okay?

A Yes, ma'am.

MS. ALIZADEH: And then also one final thing, Dorian, and I know that there are people that say that they've seen things, some have come forward and maybe some have not. And as we explained to you before this started, we're trying to get to the truth.

A Yes, ma'am.

MS. ALIZADEH: And so it is important if there is someone out there that says they saw any part of this, you know, we don't want the people well, yeah, I talked to somebody who told me this.

A Right.

MS. ALIZADEH: But people who actually saw this. Are you aware of anyone who claims that they saw any part of this who has not talked to the police or the FBI?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A I'm frankly surprised they have so many witnesses to the actual event, prior to it happened, I only saw one person that was out there when the first shot went off all the way up to the last shot, I only saw one person. I wasn't aware of anybody and I only saw her because before the initial first shot when the police stopped us, she was on her balcony and I just happen to glance up and see her and she stood there.

MS. ALIZADEH: Do you know who she is?

A Yes, her name is .

MS. ALIZADEH: Besides her, do you know anybody who has said to you, man, that wasn't right, I saw the whole thing. I'm not getting involved. Is there anybody that you know of who claims to have seen it, but is not going to come forward on their own?

A Since the day all of this, of everything that happened, I haven't spoken to anyone in Canfield, per se. They really, I haven't seen, I haven't been in that area.

It was a hard time for me getting my things out of my apartment complex, so that's what I'm dealing with now actually because they don't want me consulting with nobody who may have heard

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

something from somebody else that want to tell me something and stuff like that, I really don't know.

MS. ALIZADEH: The reason I ask you is that at some point, I want to make sure that we've heard, I don't want somebody coming forward down the road and saying, hey, they never contacted me.

A Right.

MS. ALIZADEH: You know, if you know somebody or later learn of somebody, would you let us know so that we can try to talk to them?

A I pray that they get resolved before then, but if someone ever came to me with evidence that they was there and seeing something that is not brought up already, then I would definitely relay them to you all.

MS. ALIZADEH: Just also to clarify because earlier you said you kind of knew some neighbors and stuff, and you saw on the balcony. Did you know her name before all of this happen.

A I met her as She had recently just moved there. I saw her moving in. I offered to help them. I saw it was just two girls, I offered to help them. She told me her name, she told me it was I later found out her full name.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. ALIZADEH: So you had met her before that date?

A Correct.

MS. WHIRLEY: Is there anything you want to tell us that we just didn't think to ask that you think is important, is information about this case?

A Yes. Regardless of everybody's opinion of me, I know a lot of speculation of my past and criminal record that I have or anything like that, that day I felt like even though the store thing had happened, I didn't feel like someone should have lost their life.

I feel like the incident at the car with both Mike Brown and Officer Darren Wilson could have been resolved without deadly force.

We definitely wasn't posing a threat to his life. I just want, I just pray that everybody sees the evidence for what it really is. Deadly force was really not necessary, everything else, had he knew about the store incident, him stopping us, all of that that's protocol, I get that. Deadly force was never ever needed and I pray that people really see that we didn't have any weapons on us or anything like that.

He could be in jail right now.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. WHIRLEY: You mentioned something, you know, the grand jurors may want to factor. You said something about a criminal record?

A Yes, because I stay watching the news and media outlets. I see they dug through years in my past to see an incident that happened in Jefferson City, but what they fail, they keep leaving out is I was a freshman in college at this time, everybody makes, you know, crazy little moves their freshman year. I was just beginning, I was getting out, I was breaking out of my kid years, you know, just being on my own around new people, Atlanta people, Washington people, people I never see on a daily basis, I'm from St. Louis.

So to hold that against me and Michael Brown on a day that has nothing to do with it, I feel like it is very wrong, especially for them not to dig two or three years prior and in Darren Wilson's file and see if any complaints were made against him. Basically all I keep seeing is slander on my name.

Q (By Ms. Whirley) We don't want to slander you, but we just want all the information you can get. What is the nature of the thing in Jefferson City, what happened?

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

A There was just basically me walking with a group of kids that I knew, we were going to a YMCA to play basketball. I didn't have membership there. They actually had membership there. So we are walking through some apartments, one of the guys, you know, he grabbed a package and, you know, he ripped it opened. As we are walking towards the YMCA, I see a pool guy, he sees us, but he doesn't see anything in our hand or anything like that, but he sees us walking from out of the apartments going towards the gym.

So I guess whoever's package it was, they made the call saying someone had stole something off their property or something like that.

And I guess he took it in his own mind that I just saw these guys coming out of those apartments. When they went to run the YMCA cameras to see who had just recently walked in, I did not pay to get in, even though I was supposed to. I kind of just walked right on past, go down to the gym, play basketball.

And when the police came and they ran the camera back and they saw like he didn't pay or this group right here, they came down, they grabbed basically the last group.

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

MS. WHIRLEY: Did you get charged with that?

A I did not get charged with it, I had to go to court on two charges.

MS. WHIRLEY: What were the charges?

A I had a false report to an officer, I had stealing charge that they were trying to see if I was the one that had stole it. I was going to court. At that time of me leaving court, I had been fed up with being stopped by off campus police and on campus police because of the stereotypical they look at people from St. Louis. And being stopped everyday, being late for class and having to remake up work, I just said you know what, Jefferson City school, Lincoln University was not for me at the time.

So I left, and still having to come back to court in Jefferson City, I've been getting a lot done down here in St. Louis. I don't have a charge for the City or County of St. Louis, but when they run my name, they see Jefferson City. They detain me sometimes, some police officers let me go. A couple police officers they detain me. Jefferson City, they never come and get me. The warrant is a 500 mile, my lawyer reached out to them, if you are

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

outside 500 miles.
MS. WHIRLEY: 50 miles.
A 50 miles, we are not coming to get you. I'm sure the other police officers they see that, but they always detain me and they hold me.
MS. WHIRLEY: You were never on probation for that?
A When I got locked up, when I had got locked up, I got to the Jefferson City probation about the stealing, I guess I was in the middle of asking the judge can I do my probation in St. Louis because I was not from Jefferson City and in the middle of that we kind of lost contact, lost communication.
MS. WHIRLEY: It was probation, you had resolved it through probation?
A Right.
MS. WHIRLEY: Was it a felony or misdemeanor?
A It was a misdemeanor.
MS. WHIRLEY: Do you have an other convictions or felonies or misdemeanors?
A No, ma'am.
MS. WHIRLEY: All right.
MS. ALIZADEH: I just want, you had

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

mentioned the stealing thing and then you said a false police report?

A Yes.

MS. ALIZADEH: Is that the same incident or was that a separate thing?

A That was the same incident with the officer who actually had me, he put me in the car, took me down to the station. I had both my school campus ID and my state ID in possession of me. When the officer asked me my name, I didn't say anything so much as just handed him my identification. I was mad at the time, again, I was a freshman in college, I'm kind of angry with the police, so I don't really want to say anything to them, but I know what he is going to ask me for my identification.

So I hand him my school ID and both my state ID at the same time. He is looking at both of them, he's looking at me. I have a very distinguished feature about me, I have one of my eyes, I have a cataract, one of them is blue and the other one is brown. It is like that on both my picture ID, I have distinguish color on my eyes.

So I'm sure he can see that, in my mind I know he can see it, I know he can tell that this is me, who I am. He actually called campus

Electronically signed by b378e779-538c-4a9f-aa6b-d45c6b2b81a6

security from Lincoln University, they also came down and verified that's him, you know, we seem him walking around on campus. But because I never said nothing to the officer, he took that as disobedience.

And he was like, you are not going to tell me anything, so I'm just going to write down that you gave me a false report. Me being a freshman and not really wanting to talk to him, I just kind of shrug my shoulders not thinking too much of it until it got to court and it was like this is serious, but the judge, he threw that one out of court. I never got charged for that or anything.

MS. ALIZADEH: Okay.

MS. WHIRLEY: Anything else? Dorian, we appreciate you coming.

(End of the hearing for September 10, 2014.)

GRAND JURY HEARING

MS. ALIZADEH: Good morning, everyone. This is September 16th, 2014, it is about 8:35 a.m. This is Kathi Alizadeh with the prosecutor's office, Sheila Whirley is present, as well as all 12 grand jurors, and the court reporter is present taking down and recording what is being said.

Some housekeeping notes to start. I'm going to pass out to you all, you all are going to receive a copy of a statute. It is section 563.046, and it is, it says law enforcement officers use of force in making an arrest. And it is the law on what is permissible, what force is permissible and when in making an arrest by a police officer.

I also want to point out to you, I know you have probably heard or know that there also is a joint federal investigation that's going on at the same time.

And several of our witnesses that you are going to hear from are also being interviewed by FBI agents or federal agents. And I want you to make sure you understand the issues that are before you, may be different than the issues in any federal investigation.

Their investigation involves civil rights

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

violations. This investigation involves whether there is criminal liability on the part of the officer involved in the shooting.

So I can't tell you what the law is on the civil rights issues, but don't be confused about, you know, for example, what are the policies of the police department necessarily doesn't have anything to do with your decision. You certainly have the right to know these things if you wish to know these things, but keep in mind that there is a separate and distinct investigation going on by the feds involving civil rights violation or potential civil rights violation.

The other thing is, I messed up. I'm not perfect. Sheila will tell you that I'm not, but we've been marking our exhibits and normally when I have a trial I have all of my exhibits beforehand and I mark them all beforehand and I try to be very meticulous about my numbers. I have kind of been marking these as I go. This has all been coming in as we go, so I screwed up on the numbers. So I just want to clarify for the record in case you are keeping track of numbers.

Apparently I have two Grand Jury Exhibits 10.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

So one is Detective photographs, he's the crime scene detective that went to the hospital and photographed Darren Wilson and the other one is a disc that I played for you that had Dorian Johnson's recorded statement.

I'm going to keep photograph as being Number 10 and I am now going to make that disc of statements, it is going to be Number 17.

And then apparently I have two Number 9s. One Number 9, I don't know that I have used with you all yet. I have marked it, and it is a set of printed photographs that were taken by the morgue personnel, not the autopsy photos that we saw during Dr. testimony. These were separate photos that were taken by the employees at the Medical Examiner's Office in the morgue that are different than the autopsy photos. And those are going to remain Number 9.

The other Number 9 I have was a disc that had the news clips on it that we showed where Dorian Johnson had been interviewed or made certain statements on television programs. And so that disc is now going to be Number 16.

Unless you all see another issue or problem, I think right now we have 1 through 17.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

You might not have seen all of those, but as far as I know I don't have any duplicates other than that.

So I'll try to be a little more organized in numbering of the exhibits.

Does anybody see any other issues with duplicate numbers?

Okay. And then as we told you at the beginning of every day, we are just going to kind of give you a preview of what we are going to do. And so first we're going to listen to a recorded statement. The person being interviewed is a sergeant with the Ferguson Police Department, his name is He was the sergeant on duty on the date of the shooting and he was Darren Wilson's direct supervisor.

You will hear his statement. It is about an hour long. And then following his statement, Sergeant will be here to testify.

After that, we will present the testimony of Detective , who is a St. Louis County police detective, regarding an interview that he did of Darren Wilson.

And then we are going to present the testimony of

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

And she is an FBI agent and she also did an interview of Darren Wilson.

Then we will also present a recorded interview of Darren Wilson for you to listen, that's about 30 minutes.

And then finally, I anticipate that the afternoon will have Darren Wilson testifying for you this afternoon.

The morning is basically going to be statements that he has made during this investigation from various people and then he will be here to testify and answer your questions in the afternoon, all right?

So with that being said, the next piece of evidence is a disc that I have marked as Grand Jury Number 18.

(Deposition Exhibit Number 18 marked for identification.)

MS. ALIZADEH: One of the things that I will tell you that these discs that contain statements of various individuals, I mean, you will hear me use these discs repeatedly because one disc might have 12 witnesses statements on it. I will make sure I preface before we begin to play it whose statement it is.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

When you put the disc in the computer and open up the file, it lists the names of everybody who has made a statement on that disc. They are pretty recognizable if you would have any need to listen to a particular statement, it would be easy to do that.

But there are a number of witness statements on each of these discs, that's the way we received them.

Also, we do not have a transcript of this first statement. I've listened to it and it is fairly clear. I don't think it should be an issue, but at any time you all can't hear it or want us to go back a couple of seconds or 30 seconds or a minute if you miss something, that's easy enough to do, all right?

We are going to play for you Grand Juror Number 18 and it is the recorded statement of Sergeant

(Statement is being played.)

MS. ALIZADEH: And as always --

And, again, this was Disc Number 18 that you heard a recorded statement of It will be available for you to listen to again at this time during your investigation.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

: . I want to just doublecheck make sure that audio was recorded and the interview took place on August 14th, is that what, I just want to make sure.

MS. ALIZADEH: I don't recall. I'd have to listen to it again since I don't have a transcript handy.

I thought they said the 19th.

: The date that the interview took place.

The date, I think it was the 19th.

: I have the 19th.

MS. ALIZADEH: We certainly can put that in and play the very beginning of it again just to clarify the date.

: Okay.

: August 19th.

: Okay. They got it in their notes.

: I trust her.

MS. WHIRLEY: Certainly can ask Sergeant he will be there.

MS. ALIZADEH: At any time you can listen

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

to any parts of these.

(Recess)

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Would you state your name and spell it for the court reporter, please?

A My name is

Q Where are you employed?

A City of Ferguson Police Department.

Q How long have you been a police officer?

A 38 years.

Q Have all of these 38 years been with the Ferguson Police Department?

A Yes, ma'am.

Q Where did you get your training to become a police officer?

A I attended the greater St. Louis Police Academy in 1976.

Q And do you, are you a certified police

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

officer?

A Yes, ma'am, I am.

Q And do you have to undergo regular training and updates to keep that certification?

A Yes, I do.

Q And currently, what is your rank with the Ferguson Police Department?

A I'm sergeant of police.

Q How long have you been a sergeant?

A December 2002, no, December 2001.

Q What are your duties and responsibilities as a sergeant with the Ferguson Police Department?

A Currently I'm a squad supervisor.

Q Were those duties similar in August of this year?

A Yes, ma'am.

Q 2014?

A Yes, ma'am.

Q Was Darren Wilson one of the officers that you supervised?

A Yes, ma'am, he is.

Q Now, just in the interest of full disclosure, you and I had a conversation yesterday about your testimony today, correct?

A That is correct.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q You've not prepared a report, an incident report in relation to this shooting, have you?

A No, ma'am, I have not.

Q So did I have you come in, and you and I talked about what you knew, what you saw, what you might be able to testify about, correct?

A That is correct.

Q And previously you were interviewed by a county detective as well as an FBI agent, an attorney from the Department of Justice, and gave a tape recorded statement; is that right?

A Yes, ma'am.

Q Now, I didn't play that statement for you yesterday, did I?

A No, ma'am.

Q And since you gave that statement, have you ever heard that recorded statement again?

A No, ma'am.

Q And do you think that the events of August 9th, 2014, are still clear in your mind?

A Yes, ma'am.

Q So that day we've heard, we know a little bit about the shift and how many officers were working that day, Darren Wilson was working on your squad that day; is that right?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A That is correct.
Q And his shift would have been from 6:00 a.m. to 6:00 p.m.?
A Actually 6:30 a.m. to 6:30 p.m.
Q Is that the entire squad has that same shift; is that right?
A That is correct.
Q And we know that you received a call at some point to go to the area of the Canfield Green Apartments; is that right?
A Yes, ma'am.
Q And at the time that you received that call, you were on duty; is that right?
A Yes, ma'am.
Q And you were actually at a call at that time, correct?
A Yes, ma'am.
Q Did you know what the nature of why it was that you were being asked to respond to that scene?
A No, ma'am.
Q Is there any kind of code that your police department uses to indicate that there's some kind of critical incident that may have occurred?
A We have a J code, J-1 would be immediate response.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Now, is Ferguson Police Department dispatched by their own dispatchers?

A Yes, ma'am, we have our own dispatching staff.

Q I want you to make sure you keep your voice up so everybody can hear you because with the fans sometimes it is kind of hard. That mike is recording, it is not necessarily amplifying your voice, okay?

A Understood.

Q So you don't go through county's dispatch, you have your own dispatching system, correct?

A Correct.

Q And are you aware that on your radios you can get county dispatch channels?

A We have several various channels on our in car radios and on our walkie-talkies.

Q As you are dressed today, you have a uniform on, is that how you would have been dressed that day?

A I was in short sleeves and no tie, but yes, ma'am.

Q And I see that you have a mike that is clipped to your epaulet on the shoulder of your uniform shirt?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.
Q Is that how you carry that all the time?
A Yes, ma'am.
Q And is there, is that mike attached then to a portable or mobile walkie-talkie?
A Yes, it is.
Q And does that radio on your belt have the same channels or can it get the same channels that your police vehicles can get?
A That is correct.
Q And so when you're on duty, is there a particular channel that you just stay on so that you can hear the radio traffic and what's going on in Ferguson?
A We have a primary channel and we are usually on that during our work shift.
Q What's the primary channel?
A The frequency?
Q Is there a number like?
A It is Channel 1.
Q Okay. Let me ask you this. When there are officers out in the City of Ferguson patrolling and an officer uses his radio on Channel 1 and says something regarding a call or just anything, hey, I'm going out of service, I am going to go get

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

dinner, does everybody that's carrying a walkie-talkie hear that then?

A Not necessarily.

Q Do you know why that is?

A Well, the walkie-talkies are only 5 watt transmission power. If they are out in the far sector or far enough away from a receiver, not everybody will hear it. Dispatch will hear it because the receivers will transfer that message to them, but not necessarily broadcast it out through the entire area.

Q Okay. Now, you now know as you sit here today that there was an incident that occurred at the Ferguson Market shortly before this shooting incident involving Officer Wilson, you now know about that, correct?

A Yes, I do.

Q That day when you were in service and on duty, did you hear any radio calls involving a larceny in progress or that there was officers responding to the Ferguson Market?

A No, ma'am.

Q And is that, do you think that's because wherever, if there was a call made, that that was just something that you were out of range to

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

actually have heard?

A It could have been because I was tied up with another situation that I was trying to deal with.

Q And so is it, and we've all kind of seen this, I think, as you are walking around, you can have the volume turned up on your mobile walkie-talkie so that you hear what's being transmitted, correct?

A That is correct.

Q Are there times when you might be interacting with somebody or in a situation where you turn that volume down so that that noise doesn't interrupt what you are doing?

A Yes, ma'am. Usually when I'm on the telephone or I'm trying to get control of a situation, I may turn the volume down so that they can hear just me speaking.

Q Okay. But at any rate, you didn't hear the call that came out if the call came out that there was something going on or taken place at the Ferguson Market, is that fair to say?

A Correct.

Q And then while you were on this call, you did receive a call to respond to the Canfield Green

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Apartment complex, correct?

A Yes, ma'am.

Q And was there any mention, did that call come to you from an officer or did that come from dispatch?

A That came from dispatch.

Q And prior to getting that call, had you heard any transmissions by Officer Wilson?

A No, ma'am.

Q And so when you got that call, was there a code with that call that meant respond immediately?

A I was told that I was needed at the intersection of Canfield and Copper Creek immediately.

Q Immediately?

A Uh-huh.

Q And so did you then finish up what you were doing or did you leave immediately and respond?

A I turned the scene over to the first responding officer and I left immediately.

Q So there was, the scene you were at at that time, there was another police officer also working that scene?

A Yes, ma'am.

Q And so you left then immediately and

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

responded to the Canfield Apartment complex?

A Yes, ma'am.

Q And about how long, how far away were you, like how many minutes did it take you to get there?

A It took me probably about two, two and a half minutes. I mean, travel time, not travel time, but travel distance was probably three quarters of a mile.

Q Okay. So you were really close?

A Yes, ma'am.

Q And when you got to that location, you've been patrolling the street of Ferguson for 38 years, is that fair to say?

A Yes, ma'am.

Q Very familiar with all the streets and how to get around?

A Yes, ma'am.

Q When you arrived at that location, did you come in off of West Florissant down Canfield or did you come in like the back way through the Northwinds?

A Northwinds Apartment.

Q Did you come in the back way?

A No, I came in from West Florissant on Canfield.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q So when you were going down Canfield, at that point you are going east on Canfield?

A Yes.

Q I know Canfield kind of winds, isn't necessarily a straight shot, you are heading in the general vicinity of east?

A Yes, ma'am.

Q Were you in a marked police vehicle?

A Yes, ma'am, I was.

Q Did you go to the scene with emergency lights and sirens on?

A I don't recall. I believe the traffic was relatively sparse at that time, I don't believe it was needed.

Q Okay. So when you arrived at the scene, did you see Mr. Darren Wilson's vehicle?

A Yes, ma'am, I did.

Q Did you notice any other vehicles, whether it be police officer vehicles or other just civilian vehicles?

A I saw two other police vehicles.

Q All right. I guess for, as far as the police vehicles in Ferguson, we know that Officer Wilson had a Tahoe?

A Yes, ma'am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q And did you also have a Tahoe?
A Yes, ma'am.
Q Are all the police vehicles in Ferguson Tahoes?
A Primarily the entire fleet are Tahoes, but we also have a secondary fleet of Crown Victorias.
Q So the two police vehicles that you saw there, besides Officer Wilson, which we've seen pictures of, were those also marked Tahoes?
A Yes, ma'am.
Q So when you got there, you notice Officer Wilson's vehicle, which direction was it facing in the street?
A It was kind of catty-corner to the, or angular to the traffic lane, but it was pointing more in a westerly direction.
Q Towards West Florissant?
A Yes, ma'am.
Q And were the lights on on his vehicle at all?
A No, ma'am.
Q Siren in his vehicle?
A No, ma'am.
Q What about the other two Durangos, (sic) can you describe where those were, were they on

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Canfield?

A Yes, ma'am, they both were on Canfield. Both of them were further east than Officer Wilson's location.

Q And when you arrived at that location, did you see a body?

A Yes, ma'am.

Q And was that, where was that body or where were those two police vehicles in relation to the body?

A One police vehicle was beyond the location of the body parked across the traffic lane to prevent any vehicle from coming that direction and the second car was parked off to the right side of the roadway.

Q So the vehicle that was, I guess, perpendicular to the street, that would have been farther east of the body; is that right?

A Yes, ma'am.

Q And the entire time from the time you got there until the scene was cleared, did you ever observe Officer Wilson's vehicle move or be moved, other than when it was towed away?

A No, ma'am.

Q When you arrived there, do you recall was

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

the door to his vehicle, and I'm talking about Darren Wilson's vehicle, was any of the doors open?

A No, ma'am.

Q Did you see Darren Wilson?

A Yes, ma'am, I did.

Q Where was he?

A He was behind, he was on the driver's seat of the vehicle.

Q Of his vehicle?

A Yes, ma'am.

Q What about the other officers whose vehicles were at the scene, did you see where they were?

A I believe they were in a position to protect the area where the body was located.

Q Now at this time, and I know you don't know when everybody else got there, we know that two officers, obviously, responded prior to your arrival; is that right?

A Yes, ma'am.

Q Were those two officers, did you see them interact with Darren Wilson or did you see them talking to him at all?

A No, ma'am.

Q And did you, at that point have any crime

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

scene tape gone up?

A No, ma'am, not at that time.

Q And at that point, were there any cones in the street or around the area?

A One of the officers had placed a few cones around to indicate location of possible evidence, but not all the cones had been placed out yet.

Q Okay. And I asked you if you noticed were there any civilian vehicles, I know it is an apartment complex and there is parking lots, but I'm talking about in the street itself. Were there any civilian vehicles that were stopped in the street when you arrived?

A No, ma'am.

Q Did you notice any pedestrians, civilians that were on foot in the area?

A There were several pedestrians about the area.

Q When you say several, when you first arrived, give me an idea how many you think, an estimate how many you would say at the scene?

A I'd say 10 to 15.

Q Okay. Now, we've heard that there was obviously a larger crowd that gathered during the day and that there was some unstableness in the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

crowd, but at this point, were those 10 to 15 people, were they interfering at all, were they creating a disturbance?

A They were making some noise regarding who the body was and it was at that point in time that I grabbed some crime scene tape out of my police vehicle, gave it to the two officers that were already there and told them to start setting up a perimeter to keep people back.

Q And so at this point it is fair to say that you didn't know whose body was in the street, correct?

A That is correct.

Q And none of the other officers at this point had identified who was in the street, correct?

A To the best of my knowledge, that's correct.

Q And then other people that were gathering in the area, people were wondering who it was because maybe it was someone they knew or a loved one of their's, correct?

A Yes, ma'am.

Q So there was some agitation or stress involved with people that were there, they were concerned about who that was?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.

Q When you arrived, was the body of Michael Brown covered?

A No, ma'am.

Q And so when you first arrived, were there any medical personnel, EMS?

A I believe they showed up shortly after I did.

Q And did the fire department also show up?

A Yes, ma'am.

Q And is that typical that when EMS is called, a firetruck or a rescue vehicle will also go to the call?

A It actually depends on the call. If it is a more critical call, such as a life threat, a heart attack, difficulty breathing, yes, they would respond with the EMS personnel.

Q So it is not unusual that on this type of call that the firetruck came too?

A Not at all, no, ma'am.

Q There was no fire or anything of that nature, correct?

A Correct.

Q Okay. Did those officers then begin to put up the crime scene tape to create the perimeter

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

around the crime scene?

A The two police officers did, no other fire personnel or ambulance personnel.

Q Now, at this point is Darren Wilson still in the vehicle?

A Yes, ma'am.

Q Did he get out of the car when you got there?

A The only time he got out of the car is when I told him to get into my vehicle and leave the scene.

Q Okay. So he stayed in his own car until you told him to take your car and go back to Ferguson Police Department?

A That is correct.

Q So going back now, we kind of got the scene what it looked like when you first got there, what's the first thing you did when you drove down the street and saw Darren Wilson's car facing you in the street the way it was?

A I pulled off onto a driveway apron, right off the street, parked my car and then I walked over to speak with Officer Wilson.

Q So contacting Officer Wilson was the first thing you did?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.
Q But from where you were, could you see that there was a body in the street?
A Yes, ma'am.
Q And what did you say to Officer Wilson?
A I initially asked him what had happened.
Q Now, you and I talked yesterday about your recollection of Officer Wilson's statement. And we talked about the fact that sometimes when you are recounting a statement, you kind of like use your own words to paraphrase?
A Correct.
Q We also talked about that police officers have what we call like cop talk, where you use phrases and words that are typical in police lingo or vernacular, wouldn't that be fair to say?
A Oh, yes, ma'am.
Q And remember and recall that yesterday when you and I talked about this, it is important for today that you as best you can use Darren Wilson's words, don't try to paraphrase, don't try to put your spin on things. And I know I don't mean that you would do that intentionally, but if he didn't say that it was, you know, forceful or if he didn't use the words, try not to use your own words,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

okay?

A I understand.

Q And so when you walked up, the best you can recall your words were, what happened?

A That's what I asked him, yes, ma'am.

Q All right. And as best you recall, what's the first thing he said to you?

A He said I had to shoot him.

I asked him why?

He said he had been walking in the street, I told him to get off the sidewalk, or get on the sidewalk.

I said okay.

He said well, they told me to fuck off. I slowed my car down, or he slowed his car down and I told him, hey, all you got to do is get out of the street and get on the sidewalk.

Q Okay. Now, let me stop you. You're saying I told them, so you are talking as Officer Wilson and that's good.

A That is what he told me.

Q That's how I want you to do this. So speak as best you can the way Officer Wilson spoke as if you were Officer Wilson?

A Okay. And he said he stopped his vehicle

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

and he said the individual laying on the street came up to the side of his car and started hitting on him through the window.

I said hitting you?

He goes, yeah, he reached in, he hit me on the side of my face several times, and grabbed at my shirt, grabbed at my hands and arms.

He said I was trying to get out of the vehicle and he wouldn't let me out, he kept pushing the door closed.

The individual reached in and was trying to grab at his pistol, his pistol came out of his holster. He told me he had control of the weapon, but it was being pointed at him. He had the gun in his hand, but the muzzle of the weapon had been turned where his hand was actually turned toward him.

And he said he was still getting hit with one hand at times and there was a struggle over the gun. He said the weapon was, he didn't get control of the weapon, but he was able to turn the weapon away from himself and the firearm discharged. He said the gun went off.

Q Is that how he described it, the gun went off?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A The gun went off.
Q Or did he say I fired a shot?
A No, he said the gun went off.
Q Okay.
A He said at that point the individual backed up away from the car and Darren thought he actually got shot, he said I think I shot him in the stomach. And I looked at the side of the car door, and there was no exit on the door, it was just a dimple in the sheet metal.

I said what happened then?

He said he started running, I got out of the car to chase after him. He said he got down about 30, 40 feet from where the car was parked and for some reason the individual stopped and turned toward him.

I said okay.

He said, at that point he said something to the effect of, you're too much of a pussy to shoot me and turned, he had faced him and started to charge at Officer Wilson.

Q Did Officer Wilson use those words that he started to charge?
A Yes, along with, said he had had an angry look in his face or in his eyes and he says I know

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

this man was bigger than me, I wasn't going to be able to fight him.

Q What did he say happened next?

A He said he shot him.

Q I asked him how many times?

A He says I think four.

Q Now, were you recording his statement?

A No, ma'am.

Q Were you taking notes as he was giving you his statement?

A No, ma'am, I did not.

Q After his statement, did you go back to your department and write down notes to help you recall the statement?

A No, ma'am, I did not.

Q So this is from your memory of August 9th as far as what Darren Wilson told you and what you saw, correct?

A That is correct.

Q And Sergeant have you been involved in investigations of police officer involved shootings?

A Yes, ma'am.

Q Have you investigated those incidents?

A Yes, ma'am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Have you also been the subject of an investigation in a police officer shooting?

A Yes, ma'am.

Q So you've discharged your weapon at someone in your career?

A Yes, I have.

Q And, in fact, the incident that we're talking about was the courthouse shooting involving ; is that right?

A That is correct.

Q Were you one of the officers that shot ?

A Yes, ma'am.

Q Following that shooting, I don't want to get into the details of that, but were you asked by other investigators how many times you discharged your weapon that day?

A Yes, ma'am.

Q And what was your answer?

A Three times.

Q And so you thought you had fired three times, correct?

A Correct.

Q Did you later after having downloaded your weapon or have your weapon examined, did you later

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

discover how many times you actually did fire that day?

A Yes, ma'am.

Q How many times?

A Four times.

Q So on that day, you believed you fired your weapon three times and you discovered actually you fired it four times?

A Yes, ma'am.

Q And as you sit here today, do you still in your mind recall three shots?

A I still recall three shots.

Q And in your experience investigating officer involved shooting, is that unusual that the officer involved in the shooting does not accurately recount the number of shots that he fired?

A That is correct.

Q And I know you're not an expert and I'm not going to ask you about the mind of someone when they're going through that scenario, but you've actually been there, correct?

A That is correct.

Q You have a unique perspective that probably none of the other witnesses who are going to testify in this investigation have. When you are

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

involved in that type of critical scene, what is your focus and what's your training tell you to focus on?

A You focus on your target. I'm sorry, not target, but you focus on whose angry at you, whose coming at you or whose trying to harm you.

Q So would it be fair to say that you focus on the threat?

A Yes, ma'am.

Q And is it unusual or typical, I guess, that you kind of lose focus of other things that might be going on around you?

A No, it is not unusual. You get kind of like tunnel vision. You only see, like you said, the threat.

Q All right. And so let me ask you this. When Darren Wilson told you about, for example, he said that there were two men walking in the street and he told them to get on the sidewalk, did he tell you whatever became or happened to that other individual?

A No, ma'am.

Q Did you see, we now know Michael Brown was shot dead in the street, did you see the other individual at the scene who might have been the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

individual that Officer Wilson saw walking with Michael Brown?

A No, ma'am.

Q Now, understanding how important this initial statement might be, is there a reason why you did not record his statement?

A Number one, I did not have a recorder. Number two, I didn't take notes because at that point in time I had multiple things going through my mind besides what Darren was telling me.

Q You've already said that before arriving at the scene you didn't even know that this was a shooting, would that be fair to say?

A Correct.

Q You didn't hear other radio traffic from other officers saying that there had been a shooting?

A No, ma'am.

Q So describe for the jurors how Darren Wilson appeared to you, his demeanor, first of all?

A He appeared in a state of shock. He was staring at the dashboard of his vehicle initially. It was only after maybe a couple of questions that he finally looked at me. I could see the side of his face, especially around his mouth starting to

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

puff up and swell. Also the same thing along the side of his left eye, see a mouse starting to grow. His uniform shirt was disheveled, kind of pulled out of his waistband.

Q Did you notice any blood on him?

A No, ma'am, I did not notice any blood on him.

Q Did you ask him if he was shot or injured?

A Yes, I did.

Q What did he say?

A He said the only thing that he knew of was his face from being hit several times.

Q And you didn't see anything on him to indicate that he was bleeding?

A No, ma'am.

Q And so after you, at this point I'm kind of circling back now.

A That's okay.

Q He's told you that he pursued Michael Brown and Michael Brown stopped and turned in his direction and charged him. I'm just kind of catching up. So I know it was in a little more detail and then he shot him and Michael Brown went down on the street?

A Correct.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q What did Darren Wilson say he did then or did he say anything?

A He didn't indicate anything other than he called it into the dispatch.

Q All right. Now, when you were there, did you see anyone place a sheet over the body of Michael Brown?

A Yes, ma'am, one of the paramedics initially put one sheet over Brown.

Q Did you assist in that at all?

A Not at that time, no, ma'am.

Q Did that sheet completely cover the body of Michael Brown?

A No, ma'am, it did not.

Q Did you assist in getting other sheets to try?

A Yes, I asked a paramedic if he had another sheet so I could fully cover Mr. Brown up, and actually he handed me two.

Q Did you observe the paramedics approach the body and attend to the body of Mr. Brown?

A I saw one approach the body, bent down and I guess checked for life signs. He got up maybe 10, 15 seconds and just walked away.

Q Do you know what a strip is?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.
Q What is a strip?
A It is a cardiac monitor like you see on TV that indicates heart rhythm or no rhythm at all.
Q And you've seen paramedics use a strip before on someone that may still be alive?
A Yes, ma'am.
Q Or check for life signs?
A That is correct.
Q Did he do that in this case?
A They did not.
Q And other than that paramedic who had checked for life signs presumably, did you see anyone else, either law enforcement or any other civilians get close to the body?
A There was a, I believe it was a copper projectile about 3 feet from his foot, his right foot and somebody walked over there and put a marker to make sure nobody kicked it or disturbed its location.
Q Okay. So other than that, you didn't see anyone move the body, roll him over, reconfigure the way he was laying?
A No, ma'am.
Q And eventually, and you said in your

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

statement that you were at the scene until the scene was done, which would have been after 5:00?

A It was closer to 6:15, 6:30, yes, ma'am.

Q And now you are aware then that the body of Michael Brown lay in the street under that sheet for several hours on that day; is that right?

A Yes, ma'am.

Q Is that, do you know the reason for that?

A After I made notification to command staff, I was recontacted and advised that St. Louis County would be handling the investigation and the crime scene and I had to await their arrival. Once they arrived, the crime scene was relinquished to them.

Q And then any decision about what would happen with the body, that wasn't your decision or anything you had to do with, is that fair to say?

A That is correct.

Q Were you the most senior ranking Ferguson police officer at the scene that day?

A Uh, I had two lieutenants show up later on shortly after, maybe around 1:00 or so.

Q Now, you testified that you made notification, who is the first person you called?

A Chief of Police.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Did you speak with him or leave a message?
A I had to leave a message on his cell phone.
Q Who is the next person you called?
A Lieutenant Colonel
Q Did you speak with him or did you leave a message?
A Left a message for him.
Q Whose the next person you called?
A Captain
Q Did you speak with him or leave a message?
A Left a message.
Q Everybody, it is Saturday afternoon, correct?
A Correct.
Q And so then who is the next person you called?
A Captain
Q Did you speak with him or leave a message.
A I spoke with him.
Q And after speaking with him and telling him what the situation was, did you make any other notifications after that?
A I contacted Lieutenant and I believe that was the last contact I made.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q All right. Now, you've already said that at some point you told Darren Wilson to get into your vehicle and go up to the Ferguson Police Department?

A Yes, ma'am.

Q And what was the reason, are you aware that an officer involved shooting, typically the officer remains on scene until investigators come and walk through the scene with him?

A Yes, ma'am.

Q Why didn't you have him remain at the scene?

A The crowd was growing rather rapidly. They were very agitated and for the safety of the officers on the scene and for Officer Wilson, I had him leave and go to the police department.

Q So you had him get in your vehicle and go to the police department?

A Yes, ma'am. I left his vehicle where it was, where I found it and told him to take my car and go back to the station and wait for a supervisor.

Q And after he got out of his car, did anyone, did you enter his vehicle?

A No, ma'am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Did you look inside the vehicle?
A Yes, ma'am.
Q And why were you looking inside the vehicle?
A Just to see what I could see. If there was possible evidence or anything like that.
Q Did you notice glass inside the vehicle?
A Yes, I did.
Q Did you notice any bullet holes inside the vehicle?
A I saw a bullet into the door panel of the driver's side door, yes, ma'am.
Q Did you see any shell casings inside the vehicle?
A No, ma'am, I did not.
Q Any blood inside the vehicle?
A No, ma'am, I did not.
Q Now, to be clear, you're not actually a crime, you're role is not to document the scene and, you know, you knew other officers were going to be processing that vehicle, didn't you?
A Correct.
Q In fact, I think in your statement, but you do as a part of your job place cones or other markers around pieces of evidence if you see them,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

correct?

A Yes, when I got the crime scene tape out, I had obtained some traffic cones from another responding officer's vehicle, I marked a few items that I could.

Q And you knew that another officer then was going to document those items, correct?

A That is correct.

Q After Darren Wilson left the scene, did you see him again at all that day?

A No, ma'am, I did not.

Q Now, we've heard that you said in your statement that you had contacted Darren Wilson after this time, after this date just to say hello and how you doing; is that right?

A Yes, ma'am.

Q Have you and he ever since that day had a detailed conversation about what happened?

A After his interview and my interview with Justice and FBI and U.S. Attorney and St. Louis County, he asked me if he could tell me everything that happened. I told him, yeah.

Q So was this in person or on the phone?

A On the telephone.

Q And do you recall, you said it was after

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

the FBI talked to you?

A Correct.

Q And did you only talk to the authorities investigators one time?

A Yes, ma'am.

Q And then you said to your knowledge, he had already talked to the investigators; is that right?

A I asked him if he had been interviewed by them yet, and he said he had.

Q And so he told you his version or the story of what happened?

A Yes, ma'am.

Q Now, is there anything about this second version, I don't mean to use the word version like it is different or implying that it is different, his second time telling you what happened?

A There was some more things that he added.

Q Details that he added?

A Yes, ma'am.

Q Was there anything inconsistent with what he had told you previously?

A No, ma'am.

Q Now, just to summarize, that day on the scene he told you that he fired or that the weapon

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

went off?

A Correct.

Q One time while he was seated in the vehicle?

A Correct.

Q And he didn't describe shooting his gun while he was running after Michael Brown?

A He did not say he shot at Michael Brown while he was running at him.

Q And then he describes after Michael Brown turned around, a series of shots that he fired at Mr. Brown?

A Correct.

Q And you said he said maybe I can't remember if you said four or five?

A He said he thought he was shot, discharged four rounds.

Q Okay. Now, when you had a subsequent conversation with him, did any part of that change, did he tell you any more details about the number of shots?

A No, he said he had learned that he had fired more than four shots. I didn't specifically ask him a number, but he said he was told that he fired more than he thought.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Okay. So you didn't talk with him about how many shots were in the vehicle, how many shots were out of the vehicle, whether there was a pause and then more shots or anything like that?

A That is correct.

Q Were there any details in this second conversation with him that are or changed the perspective that you have about what happened?

A No, ma'am.

Q Is there anything, so you had an additional conversation with him about what happened?

After that, did you have any other conversation with him about what happened?

A No, ma'am, not about what happened, but I have had other conversations with Officer Wilson.

Q Okay. And Officer Wilson is still on administrative leave; is that correct?

A That's correct.

MS. ALIZADEH: Does anybody have any questions?

MS. WHIRLEY: I have a few, this is Sheila Whirley.

Q (By Ms. Whirley) Have you ever appeared before this grand jury before?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Multiple times.
Q This particular grand jury that is sitting here today to your knowledge?
A No, ma'am, no.
Q You have not?
A Not before this grand jury, no, ma'am.
Q All right. Regarding Canfield Green Apartments, you have been in the community for over 38 years. Did you know the relationship that the police had with that community?
A I have responded to numerous calls, I've assisted numerous calls over there.
Q Was it known what the relationship was between the community and the police?
A We, as far as my squad and myself is concerned, every time we responded over there, we responded for whatever the call is, we handle the call and we left.
Q Was it a relationship that was friendly or did the residence --
A Business relationship.
Q Business.
A A business relationship. I mean, some of the officers knew tenants and whatnot from previous encounters.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Okay. So there was no understanding that the residents just hated the police, it wasn't like that?

A No, ma'am, no.

Q So when Officer Wilson, well, first of all you said you did not hear him ask, announce on the radio that shots were fired?

A No, ma'am.

Q At any point?

A No, ma'am, I did not.

Q You did not know that a shooting had even occurred until you were told to go there?

A Until I arrived on the scene is when I first learned there were shots discharged by an officer.

Q How did you get the call to go to the scene, what were you told?

A I was told I was needed at the intersection of Canfield and Copper Creek as soon as possible or immediately.

Q Nobody said what for?

A No, ma'am.

Q Okay. Did Wilson ever tell you that, because you said you have talked to him a couple of times since this has occurred?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Uh-huh.

Q And in more detail recently, your last talking was more in detail, correct?

A My last conversation with Darren was about ten days ago maybe.

Q He was a little bit more detailed over the phone during that conversation?

A During the conversation that I had with Darren was probably five or six days after the incident.

Q Okay.

A That's when he was more, a little bit more detailed.

Q More detailed. Did he talk about anything about the stealing that occurred at Ferguson Market that he was stopping these two to investigate that?

A He said he did not have that call, that call I later found out was given to Officer

Q Did he know about it, did he talk about knowing about the stealing?

A He did not know anything about the stealing call.

Q He told you he did not know anything about the stealing?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He did not know anything. He was out on another call in the apartment complex adjacent to Canfield Green.

Q Okay. And so when he's stopping these two it is strictly about the sidewalk, it has nothing to do with him investigating the stealing of Cigarillos; is that correct?

A That is correct.

Q Did he indicate that he was angered at all when he was told to fuck off?

A Well, no police officer likes being told that. I don't think he was angered as much as he was just taken aback by it for no reason whatsoever.

Q Is that like a sign of disrespect, I would feel disrespected if somebody told me to fuck off?

A You know, respect toward the police nowadays is not like it used to be. Most of the time it is under their breath or just barely within earshot, but evidently at this point in time it was told quite directly at him.

Q Okay. Did Wilson indicate, Officer Wilson indicate that when he chased Michael Brown, that assistance had been called for at that point?

A He did not indicate to me, no, ma'am.

Q Did you have any understanding or any

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

knowledge about how it occurred regarding him chasing after Michael Brown whether or not assistance was on its way or anything like that?

A No, ma'am, I don't know.

Q Okay. Now, have you ever known Officer Wilson to discharge his weapon?

A Not to my knowledge, other than on the practice range or the firing range at the police department, that's the only time I know he's ever discharged a weapon.

Q Have you ever known him to get into a physical altercation with a suspect?

A Only when the suspect had initiated the resistance.

Q You do know of a particular incident where that has occurred?

A Yes, ma'am.

Q What happened in that situation?

A Officer Wilson was able to gain control of the individual and put him in handcuffs before assistance arrived.

Q Was he alone?

A Yes, ma'am.

Q Do you know what transpired why there was even a physical altercation?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A It was a suspicious vehicle call, occupied suspicious vehicle. And when he walked up to the car, he could smell an odor what he associated with marijuana and he told the driver to get out of the car, at which time he did. When he was trying to take him into custody is when the resistance occurred.

Q That's the only occasion you are aware of?

A He's had minor ones with other officers, exactly who, how it started, you know, I know of one where an individual resisted the arrest with Officer Wilson and another one of my officers and the subject ended up having to be tasered in order to comply with the officers.

Q Did Officer Wilson use a taser?

A No, ma'am, he did not carry one.

Q It was known that he did not carry a taser?

A That is correct.

Q It wasn't required that he carry a taser?

A No.

Q What about mace, did you know of an incident where he maced an individual?

A Never.

MS. WHIRLEY: Anybody else have any

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

questions? Go ahead.

: My question is, did Officer Wilson, did he state specifically that it was Michael Brown that made those derogatory or offensive comments to him or did he indicate if it was Dorian Johnson?

A He did not indicate to me who made the comments, ma'am.

I see.

I've got a couple questions. Did Officer Wilson indicate at all that he said anything to Michael Brown as he was chasing after him?

A He yelled at him to stop or halt, but nothing more than that.

: Are those the words he used stop, halt?

A I don't know, I believe he just told him to stop.

: Okay. Did he indicate at any point when he, right after he had first contact with him and told him, asked him to get out of the street, that at any point he had to reverse his car back towards them?

A I believe he did go backwards, reverse his

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

automobile for a short distance, then stopped. Asked them again to get out of the street.

: Okay.

MS. ALIZADEH: Sergeant I just want to clarify. I know you know things about what happened, I want to make sure that we're clear on this. Are you saying that you know that that happened because you've since learned that, or are you saying that Officer Wilson that day told you that he reversed his vehicle?

A Officer Wilson did not tell me that day that he had to do that.

MS. ALIZADEH: Okay.

A I've learned that through a later conversation.

Q (By Ms. Alizadeh) So when we talk about things that he says he did, I want to make sure it is clear to everybody, you know, to clarify whether or not it is something that he knows happened because of subsequent investigation or if it is something that Officer Wilson said to you.

I also want to clarify something else and I'm sorry to interrupt, but it is along the same lines. You testified that when Sheila asked you some questions, Miss Whirley, that Officer Wilson

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

did not know about the stealing that was going on or had just occurred at the Ferguson Market.

Now, my question to you is this, are you saying that because he told you he didn't know about it or you saying that because he didn't mention it to you when you were talking to him?

A He did not mention it to me again. I learned about it at a later time.

Q Has he ever told you, yeah, I didn't know anything about what happened up at the Ferguson Market?

A Yes, he has told me that in subsequent conversations.

Q He told you he didn't know about there being a stealing at the Ferguson Market?

A Correct.

Q Okay.

: Just one last follow-up,

Did Officer Wilson at any point say anything or infer at any time that maybe he thought that Michael Brown was under some type of influence of something?

A No, sir, he did not.

: . My question goes back to Officer Darren Wilson's first

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

call to dispatch, which initiated a call to you. You know, I understand from watching the news when someone calls 911, the recording is timestamped and there is an audio recording. In this instance or in a regular instance, when an officer calls dispatch, is there any sort of timestamp or recording, or secondary recording so we would know exactly what that call would be or when that call took place?

A Yes, all of our incoming calls, including radio traffic, is recorded digitally. That would be available to the investigators through our communications supervisor.

: Are you aware of what that original call would have been when he called?

A His original call?

: Uh-huh.

A I have since learned what it was, is that what you want to hear?

: Sure.

A It was a sick case on Glenark was the street. Again, next apartment complex over is Northwinds Apartments and Glenark is small, like eight apartments on that street. He responded to a sick case at that location.

: . Again, my

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

apologies, I might not have made myself clear.

After the shooting of Michael Brown, was that call when he dispatched that first call, was that again recorded that you would have known what the call would have been for him to call dispatch and say XYZ happened?

A Yeah, I believe the answer to that question would be yes. When he called it into dispatch, he would have probably told them what was going on and what happened.

MS. ALIZADEH: I'm sorry, just so you all know, we have radio calls that we'll be playing for you at some point in this investigation.

MS. WHIRLEY: Let me follow-up on that real quick.

Q (By Ms. Whirley) Do you have any knowledge that there was a radio call that has been recorded and seized that where Darren Wilson is saying shots fired, asking for assistance before he gets out of the car or around the time this is happening?

A No, ma'am.

Q There is no recording that you know of that exist?

A I know there is one exist.

Q You do?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.
Q Okay. Do you know where we might get it?
A The communication supervisor at Ferguson Police Department can provide it to you.
Q Okay, all right. Thank you.
MS. ALIZADEH: Sergeant just to clarify, have you ever heard the radio calls, have you ever listened to them?
A No, ma'am.
Q (By Ms. Alizadeh) So it is important that you testify about your own personal knowledge and not what maybe somebody has told you that you believe. Would it be fair to say that you don't know what those calls consisted of because you have never heard them, right?
A I don't know what the calls consist of, that is correct.
Q And maybe somebody told you that there is a call, but you have never heard that yourself?
A No, ma'am.
Q Whatever those calls would be, they would have been recorded and burned on a disc for purpose of this investigation, could that have occurred?
A Yes.
MS. ALIZADEH: Okay.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

MS. WHIRLEY: . : At the beginning when you were speaking, you said an incident report was not filed?

A I'm sorry?

An incident report was not filed?

A I did not complete any report regarding this incident because St. Louis County was handling the entire case.

In your recorded statement, I believe I heard you talk about a Use of Force Report?

A Yes, ma'am.

That's different?

A That is something different, yes, ma'am.

: Okay. At the beginning of your statement here you talked about a code, is that J-1?

A There's radio code for immediate assistance.

Okay.

A That's J-1.

: Okay. When you get those, you don't if an officer that's down, a

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

civilian that's down or something in progress. You just know you are needed somewhere right away?

A Correct.

: You didn't use your lights or your siren?

A No, ma'am. Like I said, the road traffic, I had pretty much of a clear lane to get there.

Okay. And do all the officers have mikes on their uniform or the radios in the car?

A We all have radios in the car.

Okay

A Majority of the officers wear their mikes up high so that they can hear it and respond relatively quickly.

: And you say that Officer Wilson was in his car with the door shut when you arrived?

A That is correct.

: Okay. This is the first time we heard about too much of a pussy to shoot me. In your recorded statement, we didn't hear that. Did you learn of that after your recorded statement or is that just something that you are recalling now?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I recalled that since my recorded statement.

: Okay.

A But I believe my recorded statement was taken three or four days after the event.

: Okay.

A I was working 12 plus hours a day.

I understand. Is it still, you still stay with the fact that Michael Brown had his hands up and was charging?

A That's what Darren told me he was charging at me.

This question is not meant as any disrespect, but your recorded statement you said that, um, you have to ask stupid questions like how this could be prevented?

A I'm sorry?

: In your recorded statement you said that you are required to ask officers stupid questions like how could this incident be prevented?

A That's on the injury report.

: You feel that's a stupid question because you feel your officers don't have any other choice?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct.

When you are in that kind of situation?

A When you are physically attacked unprovoked, I believe how could he prevent this is a stupid question.

: Okay, I'm done.

MS. WHIRLEY:

: . Several questions.

A Yes, ma'am.

My first question is, when he was alone, when he left the scene of the crime, Officer Wilson, why was he left alone, why didn't another officer escort him back to the police department?

A There was another police officer on light duty at the police department who could sit with him.

: Say that again?

A There was another officer who, station bound. So there was an officer there who could sit with him until a supervisor got there.

: My question is, why wasn't

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

he escorted by another PO considering that even though he left the scene of the crime, that someone could have noticed him and followed him, but yet he wouldn't of had any backup or protection, he still would have been left alone?

A I had, let's see, Darren made, Darren made my sixth officer for the day and that includes myself.

I already had three other officers and myself at the scene, I had another officer still out on a call. So I only had one officer that was left on the street. I honestly, truthfully, I didn't have the manpower to send somebody with him.

: Okay.

A But yes, you are correct, somebody could have followed him. But also on our radio we have Country Club Hills and Calverton Park. If there would have been a problem, there would have been other officers in the area from those two agencies that could have responded.

: Okay. My next question was or is, I seen pictures of the car, Officer Wilson's car. I only seen a little shattered glass that was on his driver's side seat?

A Uh-huh.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

: Did he ever mention that the glass was half cracked, half down, or all the way down?

A He never told me what the window position was, ma'am.

: Okay. My last question is, after the incident, the crime was over and you had time to go back to your office, did you ever think to read Officer Wilson's history prior to coming to your department or when he came up under your leadership to understand his previous history?

A Anything that happened prior to his employment should have been covered by the officer who did his background investigation.

Now, I don't know who did his background investigation preemployment. I did speak with his supervisor prior to him coming to my squad and ask what kind of officer he was. And I believe I was presented with a few training certificates that he had obtained while he was on the other squad, but there were no corrective measures or any disciplinary notes or anything such as that in what I was given.

MS. WHIRLEY:

: How many

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

officer involved shootings occurred in Ferguson say in the last ten years?

A Last ten years?

: Yeah?

A I believe one, maybe two.

: So they're a rare occurrence and not an every day --

A They are very rare occurrence, sir.

: Okay. Thank you.

: Is it standard procedure basically for only one officer to be on patrol at any given time by themself or do you do double duty where there is two officers so you have a ready backup in case of a situation that inflames?

A On a perfect day I would have seven officers out there.

: Uh-huh.

A I have four assigned sectors, which would be three cover cars to assist plus myself.

Uh-huh.

A So basically we would have two officers respond to most every call depending on what the call is naturally.

Yes, ma'am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

: . I just need clarification. Did Officer Wilson have blood on his hands?

A I did not see any blood.

: Okay. In the written, in the recorded statement we learned that he washed his hands because there was blood on them and he was checking for injury or the spread of infection?

A Whose recorded statement?

: Your recorded statement.

A It had to be something I learned after that day.

: All right, thank you.

: . Also to clarify. I want to make sure when you told Officer Darren Wilson to get in your vehicle and go back to the Ferguson Police Department, at that time he was still currently wearing his uniform he had on at the time of the incident and his gun was with him when he went back to Ferguson?

A His sidearm, yes, he carried his side arm back to Ferguson holstered.

: And at that point, I guess, you were at the scene, you wouldn't have known what happened to that gun or who would have

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

processed it or his clothes or anything because you were at the scene?

A At that point in time, no, sir, I would not know.

: Okay.

MS. ALIZADEH: Any other questions?

MS. WHIRLEY: I just have one. Whose decision was it to call county in to investigate?

A It was the chief of police's decision.

Q (By Ms. Whirley) This is pretty standard when there is a shooting, you say you have been involved in a few shootings, do you generally have another department investigate it or do you investigate it yourselves?

A One of the previous, or the one, I should say the two that I investigated, we investigated them. This one, well, the first two were only, they were not mortal wounds, they weren't fatalities.

I believe the chief made that decision because of, it would be better to have an outside agency such as county or state police to do the investigation to show that we were not trying to hide or cover up anything.

MS. WHIRLEY: Okay.

Q (By Ms. Alizadeh) Sergeant I know

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

you've said to me at least before, I can't remember if you testified today that you don't recall what time you got up to the scene, the time it was?

A Correct.

Q But assuming that we know that the shooting occurred somewhere like a quarter after noon, give or take a few minutes, but I'm just trying to use that as a reference, how long was it before you saw county officers responding up at the scene?

A Uh, I believe the first one arrived on the scene anywhere from an hour to an hour 15.

Q So were you privy to the decision to call county into the investigation, were you talking with the superiors when that decision was made?

A No, ma'am.

Q So whoever made that decision, you don't know when that decision was made?

A That is correct.

Q But you were at the scene for about an hour to an hour and a half you said?

A Hour 15, yeah.

Q Before you saw county arrive?

A Correct.

MS. WHIRLEY: I have one last question.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

In your statement to, I guess it was Officer who did you give a statement to that was recorded?

A Detective

MS. WHIRLEY: Okay.

A And, I believe, Detective

MS. WHIRLEY: Okay. I believe you said in that statement that Officer Wilson told you that Michael Brown took off running and then he stopped and raised his arms and charged him?

A Yes, ma'am.

MS. WHIRLEY: Did he indicate to you how he raised his arms, how Michael Brown raised his arms?

A May I stand up?

MS. WHIRLEY: Sure.

A It was like this, like he was going to charge at him. (indicating)

MS. WHIRLEY: Okay. So he raised his arm in a charging motion?

A Correct.

MS. WHIRLEY: Did he say at that time he shot him?

A He told me when he took the step forward.

MS. WHIRLEY: He shot him.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He knew he couldn't fight this man.

MS. WHIRLEY: Okay. So at the time when he had his hands raised and he was charging at him, he shot, but it wasn't at that time he didn't have his hands like going for a weapon.

A I don't remember, I don't recall.

MS. WHIRLEY: Okay. All right.

A Yes, ma'am.

. Did Officer Wilson ever say he saw any blood coming from the victim?

A No, ma'am. Yes, sir.

: . When Officer Wilson discharged his weapon, did he say how close they were in proximity, how close they were?

A No, sir, he did not.

: . You mentioned before that protocol that all officers would go to the FTO, the field training. And in that, do the officers are they ever taught in a situation, maybe similar to this, to shoot to injure instead of shooting to kill?

A You shoot to neutralize the threat.

MS. ALIZADEH: Any more questions?

Finally, Sergeant the last thing I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

want to ask you, is there anything that you think this grand jury should know about this incident or that you know that maybe we didn't ask you. I don't want anybody walking away from here saying well, they never asked me that or anything like that. Is there anything that you think would be important for this grand jury to know that you haven't told them yet?

A I've worked with Officer Wilson for two and a half years. He's been under my supervision that long.

Darren is a very easy going individual, always has a smile on his face. Doesn't go trying to start trouble or look for trouble, does a good job.

I have very little supervisory hours dedicated to Darren Wilson. He knows his job very well and he does it very well.

My opinion, put in this circumstances, I don't know what I would have done. I probably would have done the same thing.

So, I mean, Darren did not just all of the sudden go from trying to chase this guy down and take him into custody to deciding just to shoot him because. So, I mean, Darren is a good officer.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

MS. ALIZADEH: Anybody have anything else that they want to him?

All right, thank you Sergeant

(Completion of Sergeant testimony.)

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q Detective, spell your name for the court reporter, please?

A

Q All right. Detective you are a police officer with St. Louis County Police Department; is that correct?

A That is correct.

Q How long have you been a police officer?

A Approximately eight years.

Q And you are currently a detective, so how long have you been a detective?

A Two and a half years as a detective.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Have you always been with St. Louis County Police Department?

A Yes.

Q And you are a certified police officer?

A Yes.

Q What does that mean?

A That means that I've accomplished the training required by the State of Missouri to be a commissioned police officer.

Q You must have ongoing training?

A Correct.

Q And you have the power of arrest in the State of Missouri?

A I do.

Q Okay. Now, you know why we are here?

A I do.

Q Okay. So tell us how you became involved in this investigation?

A Prior to this incident that we're here today on, I was called in to work to assist with an investigation that occurred, it was an attempted robbery that occurred at St. Anthony's Hospital on August 9th, 2014.

Q Okay. Go ahead.

A While I was there, we were finishing up,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

and my sergeant, Sergeant received a telephone call and was requesting our unit to respond to the City of Ferguson and assist with an officer involved shooting.

Q At the time did you know that there was a dead person involved or it was just a shooting?

A What I knew that it was just an officer involved shooting.

Q You didn't know who the officer was?

A I did not.

Q Before I go further, you've testified in front of this grand jury before; is that correct?

A Yes, I have.

Q Okay. Unrelated to this particular incident though?

A Correct.

Q This is first time you have testified regarding the Michael Brown shooting?

A Yes, ma'am.

Q All right. And you have met with Kathi Alizadeh and myself before; is that correct?

A That's correct.

Q Regarding this incident?

A Yes.

Q Because you are working this incident?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct.
Q Have you developed or written a police report yet?
A No.
Q Okay. So you just taking notes as you go or what's going on with that?
A Yes, basically we take notes as we go. We transfer that to a memorandum to the case detective.
Q Okay. And that's how you keep track of what's occurring here?
A Yes.
Q And what was your role as a detective in this case?
A Initially I responded to the scene, and the way it works with the information we had at the time, all the detectives assigned to my unit responded to the scene. I believe I was the first car, the first one of the St. Louis County police detectives to arrive, and I made contact with Sergeant who is a county police sergeant, St. Louis County police sergeant, assigned to North County Precinct. He was there within the crime scene, that's the first person I contacted.
Q You said the crime scene, we talking about Canfield Green Apartments?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, within the crime scene tape.
Q Where the body was laying?
A Yes.
Q And the police vehicle was positioned?
A Yes.
Q All right. And about what time did you arrive there?
A I believe the arrival time was approximately 1:30.
Q For you?
A For me.
Q And you were the first county officer on the scene?
A Yes, I was shortly trailed by the rest of the detective bureau by minutes.
MS. ALIZADEH: Let me clarify, you weren't the first county officer at the scene, but the first detective?
A Yes, first county police detective assigned to my unit that would be responsible for initiating the investigation.
Q (By Ms. Whirley) Okay. But there were other county officers on the scene when you got there?
A Yes, that's correct.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Do you recall when you would have gotten a call to respond there?

A I believe the time was about 12:40, 12:43, in that area, is when Sergeant received the call. As it was, we were all standing together when he received that call and then after he got done with the phone call, he immediately dispatched us to the area.

Q Now, is it unusual for St. Louis County to investigate a shooting that occurred in another municipality?

A No.

Q Is it pretty standard?

A It is standard. If we are requested to respond and assume the responsibility of the investigation, we will do so.

Q All right.

A If requested to by that department.

Q And that's what happened in this case, you were requested?

A Yes, ma'am.

Q All right. Let's go back to what your particular duties were regarding this investigation.

A Sure. When I arrived I contacted Sergeant and essentially what we do is try to get as

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

much knowledge as we have at the time.

He had advised me that the medical examiner had not been notified yet and that's when I requested them to do so.

Typically the way that it works with our police department is the personnel from the division of patrol, which would be the uniform police officers are responsible for making that notification.

So once I found out that that wasn't done, I immediately made that request.

Q So when you arrived, the medical examiner had not been notified?

A To my knowledge, no. Sergeant informed me that they had not been.

Q How about EMS, the emergency personnel?

A I was unaware if they had responded yet at the time. My main concern was making sure the medical examiner was dispatched.

Q Because when you arrived, it was determined that Michael Brown was dead?

A Yes. So if subject is deceased, then the next step would be to contact the medical examiner.

Q Describe the scene when you arrived, you said it was 1:30-ish or so?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.

Q Describe the scene for us?

A As I arrived, I came down West Florissant and then turned, it would be east on Canfield Road. The entire street was lined with cars, both civilian cars and other police cars from St. Louis County. I believe there was a Ferguson car there and multiple other jurisdictions, to where I was unable to even make it to the actual crime scene. I had to park some distance away, I don't know the exact distance, but some distance away and walk up to the crime scene.

Which is a little atypical than what we're used to. Typically we drive right up to the crime scene tape, park outside of it and then we can enter the crime scene there.

There were multiple people, I can't quantify how many, but people were walking towards that area as I was walking up as well, and that's when I entered the crime scene.

Q Could you hear people talking? I don't want to assume, was there a crowd, are you telling us, a crowed of people?

A There were, I would say small pockets of people around the entire crime scene. When you ask

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

about if I could hear anything that was being said, I just wasn't paying attention to it.

Q Okay. Did you see Darren Wilson at the scene?

A I didn't know who Darren Wilson was at the time, I learned later he wasn't there.

Q He was not at the scene?

A Correct.

Q Was it your job to make any contact with him?

A Eventually it was. Essentially what happens in an investigation of any kind, is that the detectives will basically come together and a case detective will be assigned. In this case detective was the case officer.

Q What does that mean, case officer?

A He'd be essentially the person that would orchestrate and dole out assignments and be responsible for the investigation as a whole. He would be the one that would be writing the report and like I said, making the assignments for other detectives to do.

Q So you were assisting in the investigation, he was the case agent or officer?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct, that's correct.
Q All right. So you said it was going to be your job to make contact with Officer Wilson?
A Yes. I was directed by Detective to.
Q Detective ?
A Detective .
Q
works with St. Louis County?
A Yes.
Q Darren Wilson who is the officer involved in the shooting?
A Yes, Officer Darren Wilson.
Q Okay.

A Yes, ma'am.
Q So you did, Detective told you to make contact with Darren Wilson?
A Yes, he informed me that police officer Darren Wilson was currently at the Ferguson Police Department and then instructed me to respond there and conduct a cursory interview with Officer Darren Wilson.
Q Tell us what is a cursory interview?
A Essentially what a cursory interview is it

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

is an interview that is, it is detailed enough to where I and the other detectives would understand the sequence of events that occurred.

It is to tell us and inform us where evidence might be located within the crime scene and we use that as an investigative tool.

Q Do you tape cursory interviews?

A No.

Q Why not?

A It is just common practice that we do not. It is basically an interview where I would approach the individual, and it is done so even not just a police officer involved shooting, we do them on almost every investigation. Just to understand what that person saw and what happened to better assist us within the scene.

So that's kind of the reason we do that.

Q Okay. Was it your responsibility to seize any evidence at the scene?

A No. I was at the scene for maybe ten minutes and then I was dispatched to Ferguson Police Department.

Q Because you needed to talk to Darren Wilson?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct.

Q So do you go to Ferguson on your own?

A I do.

Q By yourself you go to Ferguson, what happens then?

A Then I enter the Ferguson Police Department. You enter on the street level and then I went upstairs to their common area. I did knock on the door, allowed entry by Lieutenant Colonel who is a lieutenant colonel with the Ferguson Police Department. And he escorted me back to the Ferguson Police Department detective bureau, which is a room about half the size of this.

Q Was anyone in that room?

A Yes, there was Lieutenant Colonel I was then introduced by him to police officer Darren Wilson, an attorney and Detective

Q Do you know what their roles were we know Darren Wilson why you were there to talk to him, do you know what the other folks were there for?

A I assume that had just been working that day, I never even asked. It didn't seem important at the time.

Q It wasn't relevant to your investigation

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

what these other people were doing?

A Correct.

Q Did you talk to Darren Wilson in front of these other people?

A I made basically just an introduction to Darren Wilson. When I saw him, he was wearing full uniform which consisted of a Ferguson Police Department button down shirt and then dark blue slacks. He then directed my attention to his duty belt, which was off at the time sitting on the floor.

Q I'm going to come back to the duty belt. I want to know you did talk to Darren briefly?

A Very briefly, not about the actual incident at that time.

Q At that time, so all the people were allowed to remain or were there with you these other people that you mentioned?

A They were.

Q In the same room?

A Yes.

Q So where was the duty belt?

A It was on the floor next to a desk right next to where Darren Wilson was standing.

Q Did he have on a weapon?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A At the time, no.
Q At that time?
A No.
Q Did you see the weapon?
A I saw, he had informed me that after he responded to the police station, he had packaged his weapon and then he directed my attention to an evidence envelope, which appeared to be sealed, it was on the desk of Detective
Q You didn't inspect that envelope though?
A No, I did not.
Q So do you know whether there was even a gun in the envelope?
A At that time I did not.
Q But at some time did you find out there was?
A I did.
Q So he told you he packaged it?
A Yes.
Q And did you ask him why he packaged it or did you discuss that at all?
A No.
Q Okay. Did he volunteer why he packaged it?
A No.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Is that uncommon? Have you ever been involved in an officer involved shooting before?

A I have not been involved in one, but I have investigated multiple.

Q Okay. That was a better way to answer, I didn't ask the question right. Because you've never shot anyone, is what you are telling us?

A That's correct.

Q But you have been involved investigating those shootings?

A Yes.

Q Is it customary for the person who was involved, the officer that is involved in the shooting to handle and package their own gun as evidence?

A Well, with the St. Louis County Police Department it is something that's not done, however, we were called to investigate another police department's incident. So at that time we were unaware of any policies or procedures they have in place that when we get there basically we have to find out, I guess, and explore the possibility that maybe that's part of their policy.

Q Did you explore that?

A At that time, no, I did not.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q At any time?

A No, I did not.

Q So you don't know what their policy is?

A Correct, I do not. I just knew that police officer Darren Wilson had told me that he had packaged the weapon and it was currently in that bag. Now, at that point in time I never checked to verify that, it was done later.

Q Okay. In an investigation such as this, ideally what should happen with the officer's gun?

A The way that, I can only speak to the way St. Louis County would handle it.

Q Sure.

A Is that that officer would continue to have his weapon in his holster until a detective from the Crimes Against Person Unit, which is my unit, a supervisor and a crime scene unit detective would conduct what we call a download of the weapon. And that's an inspection of the weapon to determine how many rounds are left inside of the weapon.

So what would happen is we would ask the officer to remove his weapon from his holster, the magazine would be ejected, we would count the number of rounds in the magazine, if there are any. Then we would ask him to move the slide to the rear,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

which would eject a round if it was chambered, and what that means is there would be a round of ammunition in the barrel of the weapon.

Q Okay.

A And then that would be photographed as those steps were taking place.

Q Would the gun be returned to the officer?

A No, the weapon would then be seized by our crime scene unit detective.

Q Until the investigation?

A Typically what would happen is that it would go directly to our firearm lab. They do a test fire, inspect the weapon and then at that point it would be returned to the police officer.

Q Okay. So you're at the Ferguson station, you see a weapon, the officer is dressed in his uniform?

A Uh-huh.

Q Did you see any blood on the officer?

A At that time, no, I did not.

Q Did you see any injuries on the officer?

A I did.

Q What did you see?

A I could see there was reddening to the left and right side of his jaw and it appeared that

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

the right side was slightly swelled, like the cheek area, those are the two injuries that I saw initially.

Q Did he talk to you about any injuries?

A No, that's just what I observed when I met him.

Q Just to clarify, I don't know if I've asked you this before, did you know Officer Darren Wilson before this incident?

A No, I did not.

Q So that was your first time you had encountered him?

A Yes.

Q Was at the Ferguson Police Department?

A Correct.

Q There was a decision made that he should go to the hospital; is that correct?

A That's correct.

Q How did that come about, if you know?

A To my knowledge that was a decision made by Lieutenant Colonel

Q When you arrived in Ferguson, were they discussing that he was going to go to the hospital or did that come up while you were there?

A From what it appeared, it was a

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

conversation that was taking place before and then continued as I arrived.

So I heard basically the tail end that Officer Darren Wilson would go to the hospital and get treated.

Q And what did that mean as far as your investigation was concerned?

A The way I would handle it with anybody, victim, witness, suspect, anybody that we would talk to is that if they are requesting medical treatment, we would do that first, that's more important than any statement we are going to get. And we can continue the statement at the hospital, which happens regularly. That we would follow them to the hospital, meet them at the hospital and then get the statement there while they're receiving treatment. We would never hinder anybody from getting medical treatment if they sought it.

Q So you had ended up going to hospital?

A I did.

Q What hospital was that?

A Christian Northwest Hospital located on Graham Road in Florissant, Missouri.

Q You didn't ride along with the officer, did you?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A No.
Q Did he drive himself or do you know?
A He rode with Lieutenant Colonel those three individuals were in the car at that time and I drove separate.
Q You all arrived at the hospital?
A Yes.
Q He's, I imagine, treated?
A Yes. If I can just back up one step.
Q Sure.
A Before we had departed, the Ferguson Police Department, Officer Wilson did remove his uniform shirt and draped it over a chair, which that was essentially in Detective right next to his desk. So that's kind of where the three items that I would consider evidentiary value were located and they were in his custody.
Q Did someone ask him to remove his shirt?
A What's that? I don't know if it was done or not, however, he did remove his shirt and he draped it over a chair.
Q The three items you are talking about are the shirt, the belt?
A And the weapon.
Q And the weapon, okay.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.

Q Anything else before we go back to the hospital?

A No, ma'am, sorry to go back.

Q No, I'm glad you did that because this is important. So you tell us if I miss something, for sure let us know.

A Sure.

Q So you got to the hospital, what happened then?

A We were escorted to a trauma room and while I was driving there I had contacted Detective and he's with our crime scene unit, I requested him to respond to Christian Northwest Hospital, meet me there to photograph the injuries of police officer Darren Wilson.

Q Did Officer meet you there?

A He did. When we arrived, like I said, we were escorted to a trauma room. Initially within the trauma room was myself, police officer Darren Wilson, attorney Lieutenant Colonel and Detective . Detective asked Officer Wilson if it was okay for him to photograph him. He agreed and he took several photographs of the apparent injuries to his face,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

neck and the back of his neck.

Q So Officer Wilson was cooperative with your investigation?

A Yes.

Q I meant to ask you going back and going to come right back to the hospital, when you first encountered him, what was his demeanor?

A He was calm, collected. I didn't see that there was any type of debilitating injury to where it would prevent any type of interview, like a head injury or something like that. He seemed to be talking, making logical sense and talking like that.

So there was no concern that he had some major head injury, I guess, from my own opinion or appearance.

Q He never complained about his head being injured?

A Not to the point where he would have not been able to be interviewed.

Q Did he tell you he had a head injury?

A No.

Q When you go to the hospital, is his demeanor about the same as it was at the station?

A Yes.

Q And he allows Officer to take

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

pictures of him?

A Correct.

Q And how does your interview begin with him, your cursory interview?

A Essentially after Detective concluded his investigation of taking the photos, I asked Detective and Lieutenant Colonel to step out of the room as they were to not be present during the cursory interview.

Q What about his attorney?

A He remained in the room.

Q All right. And why did you ask the other two to step out?

A We would, for one, privacy and two, on any interview, it would be a one-on-one interview with myself and any potential victim, witness or suspect.

Q And again, this interview was not videotaped or audiotaped for that matter?

A That's correct.

Q So go ahead.

A Uh, I initially asked Officer Darren Wilson if he would allow me to interview him. He agreed.

During every police officer involved shooting that we investigate, I ask a series of

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

almost standard questions that begin my interview. Those questions are, were you on duty today?

He indicated he was.

What was your call sign if you were to call out on the radio? His call sign was Frank 21 that day.

What sector he was assigned to. Sector 1.

What is the beginning and end times for his scheduled shift. He indicated he began a shift at 6:30 in the morning and was scheduled to end his shift at 6:30 at night.

What he was wearing. He indicated he was wearing the uniform he currently had on and the rest of it what he left at the station. And what vehicle he was assigned that day. He said he was assigned vehicle 108, which he describes as a fully marked Ferguson patrol vehicle.

Q And is it your understanding that that vehicle is actually a truck?

A Yes, it was a Chevy Tahoe.

Q How did you get into what happened did you ask him what happened?

A Yes.

Q Tell us about that?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Basically during the cursory interview, I asked a very open ended question and allow that person to just talk. Tell me, from basically start to finish, what happened. And the only time I will really interrupt if I need a clarifying question or something I didn't understand it, I need time catching up writing down what he's saying.

I just essentially asked Officer Darren Wilson to describe what happened and where he was at prior to the incident up through the incident.

He tells me that he was leaving an unrelated sick case call and was driving, it would be west on Canfield Road. As he's driving he hears a call that was not assigned to him for a stealing in progress at 9101 West Florissant Avenue, and he provides us with that address and the nature of the call was a stealing.

He said that the call comments indicated the suspect description was a black male wearing a black shirt and brown shorts, and that an additional call comment indicated that taken during the stealing were Cigarillos.

Q Go ahead.

A I'm sorry. He continues and says he's

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

driving west down, continues west down Canfield Road and he sees two subjects approaching from the area of West Florissant and Canfield walking in the center of the street.

I then ask Officer Darren Wilson to describe the two subjects.

He describes one subject as a black male, dark complexion, approximately 5 foot 5, with short dreadlock style hair wearing a black T-shirt. He describes the second male as a black male, medium complexion, approximately 6 foot 3, approximately 270 pounds, clean shaven, wearing a red baseball style cap, a gray shirt, khaki shorts and yellow socks.

Officer Wilson then tells me that as he's traveling west down Canfield Road, he stops his patrol vehicle and allows the two subjects to approach. So basically they're walking towards the front of his patrol vehicle.

Q Did he indicate whether they were walking single file or side by side or anything?

A He never did and I didn't ask. He just says they were walking down the center of the street.

Q Okay.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He says at this time his driver's window is down, fully down. The, he allows the subjects to approach and then says to the two subjects. "Hey, why don't you guys walk on the sidewalk." And that's what he quoted, that's the quote that he said.

Q Did he say anything about whether he thought this was a confrontation or it was an angry exchange or did he not refer at all?

A He didn't elaborate, he just said that I stated.

Q Okay, go ahead.

A He says right after he makes that statement, the shorter male says, "we're almost to our destination." And then it's quickly followed by the larger male stating, "the fuck with what you have to say", and he quotes that. And then they continue to walk past his vehicle, which would be east on Canfield.

Q At that point does he say that he investigates these two for stealing Cigarillos, does he mention anything to them about the theft?

A He doesn't say anything like that to me.

Q Okay. Go ahead.

A Officer Wilson, Officer Darren Wilson then

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

tells me that he got on his radio and says that he's going to be conducting, notifies his dispatcher he is conducting a pedestrian check and he requests an assist car.

He then places his vehicle in reverse and backs up towards the subjects. He places his car in park, I'm sorry. As he attempts to exit his vehicle he says, "hey, come here." That's a quote that he used, "hey, come here."

As he's opening his door he feels the door get slammed shut and then realizes the larger of the two subjects pushed his driver's door closed.

He then tells the large subject to get back and to move, and attempts to open the door a second time. The door is then forced shut again, and he describes that the larger subject is standing at his driver's door with both hands on the door frame of the vehicle like where the window would come up is how he describes it.

And then Officer Wilson orders the subject, or the subject to get back again. And those are his words, get back and move is what the two words that he's using.

Officer Wilson then tells me that the subject then enters through the opened driver's door

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

window with his upper body. And he details it is his upper body and both of his arms.

The subject, according to Officer Darren Wilson, begins striking him in the chin, face, shoulders and chest. As he described it is the subject was swinging wildly.

During this time Officer Wilson's trying to deflect the punches with his left hand while giving the subject commands to get back and move and stop.

After that, Officer Wilson, he continues and states that subject then reaches backwards with his left hand, and basically removes his left hand and arm from the vehicle and hands something to the other subject and says, "here, take this," is what Officer Wilson says that he hears the larger subject say.

He did not, nor did I ask, describe what he thought was handed off, but he said that he handed something.

He continues that immediately after the subject says, "here, take this." He then quickly moves his left arm and hand back into the vehicle and then punches Officer Darren Wilson in the right side of the face.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Officer Wilson then tells me that this instantly stunned him and he starts basically backing away and leaning back. Officer Wilson tells me he continues with his left hand and forearm to try to deflect the punches that he's being hit with and then he starts going, as he puts it, through the progression on his belt.

He thinks about grabbing his mace, which is situated on his duty belt, however, he is in a seated position and he can't retrieve it and it is on the right side of his belt.

He then considers using an asp baton. What an asp baton is, is a retractable baton that's standard issue for law enforcement. He says that he believed that due to the confined space from within the patrol vehicle, that it would be an ineffective tool.

And at this point I believe I asked Officer Darren Wilson if he thought he could escape any other way? And he says no.

He describes the interior of the patrol vehicle or the Tahoe as having a computer and a radio and a shotgun in the center console, which prevented him from being able to climb over or get out of the passenger side of the vehicle.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I asked Officer Darren Wilson to continue. He stated that he then used his left forearm, again, to try to create space between himself and the subject, and then he retrieves his department issued firearm from his holster, which is situated on the right side of his belt.

Q Did he say, or do you know, he said the mace is situated on the right side of his belt and the gun is situated on the right side of the belt, correct?

A The mace was on the left side.

Q I thought you said the right side.

A The mace was on the left side, his department issued firearm is on his right side.

Q Okay, thank you. You can go on.

A He then removes his department issued firearm from his holster and begins to raise it and as he's raising it he yells, he said he yelled, stop or I'll shoot.

Officer Wilson then tells me the subject then grabs with his hand the top of the slide of the firearm. And he says that his hand is large enough to encompass the top of the slide. The majority of the hand grips and the trigger guard, and that's with Darren Wilson, he says his hand is

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

on it, Darren Wilson's hand is on the weapon.

The subject then responded with, "you're too much of a pussy to shoot me." And that was a quote from Darren Wilson.

Q Did he give you any of his opinions or thoughts about what was going on when he says, "you are too much of a pussy to shoot me," or did he just kind of tell you what happened?

A Just told me what happened.

Q Okay.

A The subject makes that statement. And then immediately following that statement, the subject then forces the firearm in a downward angle and Officer Darren Wilson tells me he can feel the barrel of his own firearm pressed against his left hip as he is in the seated position.

Officer Wilson then continued stating that once he felt the barrel of the weapon pushed into his hip, he was able to shift his lower half to the right and basically get the barrel of the firearm to now be pointed at the seat and off of his hip.

He then with his left hand, with his right hand on the gun, on the handgrips of the gun, and he takes his left hand and puts it on the side

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

of the frame of the weapon. And then is able to push it away from him to where the weapon is now pointed at the driver's door.

He says that he then pulls the trigger and nothing happens, the gun misfires.

He continues by stating that he believed that due to the subjects hands being on the top of the slide and on the trigger, I'm sorry, on the hammer, that's what caused the gun to misfire.

Officer Wilson continues and states that he then pulled the trigger again, at which time one round of ammunition was fired.

Immediately following that, he sees a large explosion of glass and then looks down and sees what he believed was blood on his hands. He said at that point he didn't know if he was injured or the subject was injured, just knew that he saw blood.

Officer Wilson continued that the subject hands were still on the gun and he pulled the trigger two more times and it misfired both times.

The subject then reentered the vehicle and assaulted Officer Darren Wilson by punching him several more times in the face and then

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

stopped the assault and ran eastbound on Canfield Road away from the vehicle.

Q So one shot you said was fired inside, while he was sitting inside the vehicle?

A Yes.

Q Okay. And he considered, he realized he could not escape, I'm not saying he should escape, he considered that he could go to the left side or passenger side, he was blocked by the shotgun or?

A Yes, he describes that there's a computer, a large center console with a radio and like the controls to the light bar and siren, and then a shotgun. And there's just no means of escape through the passenger side of the car.

Q But he said he did consider that?

A Yes.

Q Did he get over to the other side?

A He said he was unable to.

Q He was what?

A He was unable to.

Q But he considered that is what you said he said?

A Yes.

Q Okay. All right. So go ahead, so now the suspect is running east?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes. He says that the subject is then running east on Canfield, and Officer Darren Wilson then exits his vehicle and upon doing so, he says he radioed to his dispatcher that shots were fired, and he continued to exit the vehicle.

He says he observed the subject running east on Canfield at which time he pursued on foot.

He says after, or during this chase, he's giving the subject loud, verbal commands as he puts it, to stop and to get on the ground.

Officer Wilson then tells me that the subject then stops and turns around. He estimated the distance was approximately 30 feet from him.

So at that time Officer Wilson stopped in the street and then began to order the subject to stop and get on the ground.

He continues and tells me that as he turns around, the subject has, as he quotes it, "an intense and psychotic look on his face." The subject then takes his right hand and moves it towards his waistband on the right side.

Officer Wilson then says the subject screams something inaudible, doesn't know what he said, but just screams something and begins to

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

charge him. And that's Officer Wilson's word was charge.

As the subject is moving towards him, he is giving him, continually giving him commands to stop. As he is backpedaling to try to, as he says, try to maintain the distance between the two.

He then continues and states that he knew if the subject were to reach him, that he would, and he quotes, "he would be done." Meaning that Officer Wilson would be done. He knew, he immediately stated he knew he was overpowered and assaulted already one time in the vehicle.

Officer Wilson continued and stated as the subject got within 15 feet of him, he discharged five rounds of ammunition. He said that this had no effect and the subject continued towards him.

Q Did he indicate whether, did he, he may not have, indicate whether or not any of the five rounds entered the body of Michael Brown?

A He did not know, nor did I ask. He just said that the subject continued to come towards him.

Q Did he indicate to you how, when the subject turned around, I think you said that he put his arms some kind of way and charged him?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He says that --
Q Can you demonstrate that for us?
A I'm sorry?
Q Did he show you how?
A Officer Wilson kind of spoke with his hands and he does demonstrate that the subject --
Q Can you stand up and show us, please?
A Yes. When the subject turns around, his right and goes to his waistband. Now, he did not say in his waistband or he just says to his waistband.

And like we kind of covered earlier, the cursory interview is not to get, it is more so for the physical evidence to assist the investigators on the scene.

So any clarifying questions would have been done during an audiotaped interviewed, which occurred later on.

Q Okay. Let me show you, but he put his right hand near his waistband?
A Towards his waistband.
Q Nothing specific about his left hand?
A Doesn't say anything about it.
Q Okay, all right. He lets off, I think you said, five more shots?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, he says that the first shots were five, he believes it was approximately five rounds of ammunition and the subject continued towards him.

He then discharged two additional, approximately two additional rounds of ammunition, and he said those had no effect and the subject continued towards him.

He then states that the subject started to lean forward and to Officer Darren Wilson appeared that the subject was attempting to tackle him, and that's his word was tackle. At which time he discharged one additional round of ammunition.

Officer Wilson stated he then used his radio and notified his dispatcher, and I believe his quote was, "send me every car you've got and the supervisor."

Q Did he indicate that he knew where that last round landed?

A He said he believed it hit him in his head.

Q Have you ever heard any of the radio transmissions?

A Afterwards, yes, I have.

Q All right. It was part of your investigation to listen?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I listened to bits and pieces, but as far as a continual listening to every piece of radio traffic, no, that was not my responsibility.

Q What part of the radio traffic were you interested in listening to?

A I believe it was just random bits to see what all that we had. So from at the very beginning would be him being dispatched to the sick case through the end of when St. Louis County basically departed the scene.

There was no specific pieces of radio traffic that I was either interested in or documented.

Q But you listened to the radio traffic from the sick case to when St. Louis County came on the scene?

A Not completely through.

Q Okay.

A I don't know if I said that right, but just to see where it started and where it ended.

Q I see.

A I didn't listen to anything in between.

Q Okay. Did he ever, I think you said that when he saw his right hand go to his waist, did he say he thought he had a weapon?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I'm sorry?

Q Did he say that he thought that Michael Brown had a weapon?

A He didn't know.

Q He didn't know?

A He did not know.

Q That was his concern?

A Yes.

Q When he put his hand to his waist?

A Yes.

Q He did say that?

A He said due to the assault and not knowing that he was concerned.

Q Okay. Does he ever mention anything about some Cigarillos?

A Are you speaking of Officer Darren Wilson?

Q Yes.

A The only thing he mentions about Cigarillos was during his recollection of the initial call, comments for the stealing in progress at 9101 West Florissant. It was never addressed after that or brought up.

MS. WHIRLEY: Questions?

: . When you mentioned the struggle inside the vehicle with the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

officer and Michael Brown, did Michael Brown have anything in his hands, did he mention he had anything in his hands at the time?

A He says when, the way he describes it is when he reaches back and says, "here, take this." That he hands something off to the other individual, but he doesn't know what it was. So he just says, he left it at something.

: Did you state that after the first shot went off in the car when he was trying to gain control of his weapon, that it misfired two more times?

A The total number that he can approximate is three. The first time he pulled the trigger he said that it misfired. The second time he pulled the trigger it fired and then he said he tried two additional times and they misfired.

: Okay, thank you.

The first misfire he said was because Michael's hand was on the gun, what about the second and third one, was there still that contact going on?

A He says that that's what he believed. Now, I'm not a firearms expert nor was I there, but he says that he believes that that's what caused the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

misfire.

Throughout this he never says that Michael, the subject, takes his hand off the weapon until he continues the assault, the second assault in the vehicle.

Just to follow-up, did you have a sense for how long that altercation lasted?

A He approximated a minute from start to finish.

: . When we talk about misfire, can you kind of walk us through that process what it looks like?

A Sure. So there's many reasons. And like I said, I'm not a firearms expert, however, in my job I do carry a firearm and know some things about it is that a weapon can misfire for many different reasons.

One of them being if there's anything that is impeding the hammer of the firearm from coming forward and striking the firing pin, that will cause the weapon to misfire. So if you put anything in there, a piece of rope, or as the case may be, if a hand is pushed down on that hammer, it won't let that hammer cycle and won't allow the weapon to fire. Does that clarify it?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

: Yeah,

So the bullet would remain in the gun, it would not have impacted, it potentially would be able to be shot again, there would no casing discharged?

A Correct. So if the weapon misfires in that form, the casing will not be discharged, the round that is currently in the chamber will still be a live round, it will still fire if the gun cycles properly the next time.

Okay, thank you.

MS. ALIZADEH: I have a follow-up question about that. And you're familiar with the Sig Sauer weapon that this officer was carrying?

A I am.

Q (By Ms. Alizadeh) And this is a weapon that when it fires properly, the empty cartridge is ejected from the gun ejection port, right?

A Yes.

Q And that's on top of the weapon, at least in the area where Officer Wilson said Michael Brown had his hands, correct?

A That is correct.

Q Can you explain to the jurors what stovepiping means?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Stovepiping is a term used in firearms where the round, a live round will be, it could be a spent round also, casing is basically partially ejected and is situated in a manner that looks like the round is sitting vertical on the gun. If I'm explaining this right, to where it would look like a stovepipe coming out of an oven. And that basically means that the casing was not fully extracted from the chamber and the gun did not cycle properly.

Q And is it possible, again, we will have a firearms expert testifying about this, has that ever happened to you?

A At the range, yes. I mean, it is a malfunction that is not common, but it does occur.

Q And so if there would be something blocking that cartridge from flying out of that ejection port, it could be stuck inside partially in and out of the weapon, correct?

A Yes.

Q And if that were to occur, would you be able to discharge another round with that projectile, that cartridge still partially in that ejection port?

A No. And also when that casing is stovepiped, it allowed, the gun is out of battery,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

which means it won't cycle again. So you would have to clear the malfunction, and there's a drill that they train us on of how you would have to clear the stovepipe, the round.

I'm . This is going back to the time that you arrived at the Ferguson Police Department to speak with Officer Wilson, Darren Wilson. And at the time you said he showed you where his gun, where he says that his gun was contained in his package.

A Uh-huh.

: Can you describe that package for us?

A I can. It is a manila envelope, which is, I'd probably say 9 by 13 size, and what it looked like is I didn't see if it was sealed because the way it was positioned on the table is that the flap, I guess for it, was positioned down, if that makes sense.

: Yeah, that is what I wanted to know.

A Sure.

: I need clarification if it was sealed or not. And from the time of the incident until the time that Officer Darren Wilson

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was transported to Christian Northwest to document his injuries or whatever, can you give me some idea about how much time had elapsed from that point to the point that he arrived at the hospital?

A Well, the only thing I could speak of is the time that we were notified at this point. I don't exactly know what time the incident occurred and what time he departed the scene, it wasn't part of my responsibility or my interview at the time.

I know that we were notified at 12:43. I arrived at 1:30 on scene and I first contacted Officer Darren Wilson at 2:00 p.m.

The conversation at Ferguson Police Department lasted minutes, not long at all and then he was transported to Christian Northwest Hospital.

MS. WHIRLEY: How long would you say, how much time did you spend with him at Christian Hospital.

A I probably say 30 minutes. Obviously it took some time to get photos taken and then any time that either a registration nurse, a physician's assistant or nurse would enter the room, the interview would basically just stop for privacy reasons. That would be common practice even if it was a normal investigation.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

. So from the time that you finally left him at the hospital or whatever.

A Uh-huh.

: Do you know about what time that was?

A I probably say I left probably between 2:45 and 3:00. From that point I returned back to the Ferguson Police Department.

Yes, ma'am.

: During the scene, the time that the officer was still positioning his car, struggling with Mr. Brown, did he ever indicate that he was trying to call for help?

A I'm sorry?

: Did he ever say that he was trying to call for help or backup?

A He did not. He said that initially even before, as you put it the altercation took place, he says that he requested, advised the dispatcher he was conducting a pedestrian check and then he requested an assist car at that point before the confrontation at the vehicle ever took place.

: So when an officer in his

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

position will call for help, does he have a microphone here or radio dispatch on his waist?

A In a later interview with Officer Wilson, we found that he keeps the radio on his right side.

MS. ALIZADEH: You are pointing to your left side?

A I'm sorry, it is on his left side, I apologize. I'm sorry, on his, thank you, his left side. And then there would be a radio inside of the vehicle also.

: So still . He gets out of the car and he tells him to halt, but he says the victim kept running. So at that time he still had not called for backup?

A He says that as he's exiting the vehicle he announces shot fires and requested assistance at that point. That would be once he is getting out of the car.

He's --

A I'm sorry?

Did he fire once he got out of the car or did he call and then fire?

A No, he, okay he, I'm trying to explain it to where. So essential what happens is after, he tells us that after the first shot that went off

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

while he was in the vehicle, the subject comes back in and assaults him and then takes off running east on Canfield away from the car.

: Uh-huh.

A Officer Wilson then tells us that he opens his door and as he is exiting the vehicle, he gets on his radio and announces, or notifies his dispatcher of shots fired and requests an assist car.

So at that point that would be his second, as he puts it, second radio transmission regarding this incident announcing where he announced shots fired and requested assistance at that point.

So what did he say would be his reason to keep firing after he got out of the car and calling for help?

A Okay, uh --

: If the suspect is running, then what would be your initial reason to keep shooting?

A As Darren Wilson describes it, the subject turned around at that point. He doesn't tell us that he fired any rounds from the time that he got out of the car to the time that the subject turns

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

around. He just announces on the radio that shots were fired.

And from being a police officer as long as I have, that's the same thing as an officer needs aid, requesting immediate assistance, if you hear, you are a neighboring police officer and you hear any police officer and yell shots fired, that means that obviously something bad has happened.

: . I guess at the point where Michael Brown turned around, did Officer Darren Wilson, did he indicate he had any injuries?

A He doesn't, he doesn't say. Are you talking about Officer Wilson or the subject?

: The subject.

A He doesn't say nor do I ask. He just says he turns around and then the hand goes to the right side of his waistband. He never says that he saw any injuries on the subject nor did, like I said, nor did I ask.

: After the shot was fired in the car, you said he saw blood on his hand. Was Officer Wilson referring to his own hand or Michael Brown's hand?

A He was referring to his own hands. So

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

that's when he says, he tells me that he didn't know if he was injured, as far as he being Officer Wilson, or the subject was injured. He didn't know, he just saw the blood.

: . You said you've investigated several officer shootings, is it typical that prior to your arrival, that the officer already has a lawyer there?

A It can happen. I mean, it does happen on certain occasions and it would not impede us or change anything with the way we proceed. I mean, we would ask every police officer, just like we ask every victim or every witness or every suspect, if they would be interested in having a conversation or if they would be okay with an interview.

And we just assume that the attorney would and with what happened is, his attorney sat there and didn't say a word.

: And this case there isn't say, for instance, Ferguson Police Department, there isn't a lawyer staffed in the building readily available, it would have been just like anyone else, it would have been called in on Saturday, I imagine?

A I'm sorry to interrupt you.

: No, no.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I believe the attorney, is an attorney for the FOP, which is the Federal.

MS. ALIZADEH: Fraternal?

A Fraternal Order of Police's attorney, I'm sorry. Basically he is, I don't want to say on-call, it is not the right word, but if a critical incident happens, the police officer, if a member, can call him any time.

: Thank you.

. Stovepiping.

A Yes.

You said the casing is not fully discharged from the weapon?

A Uh-huh.

: It kind of looks like a stove, like a stovepipe on top of the gun?

A Uh-huh.

: It cannot be discharged again until that's taken apart?

A The gun doesn't have to be taken apart.

Until the casing, whatever, is taken off?

A Right, it would have to be, the malfunction drill is, you have to remove the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

magazine, lock the slide to the rear, which would remove the stovepipe round and the round that was somewhat forced into the chamber, or the barrel of the gun. You would have to reinsert the magazine and then put the slide forward and that would chamber another round.

So it's a three or four step process too, if a weapon does stovepipe, to clear that malfunction.

If a gun was, if a weapon was, a shot was fired inside the car that there would be a spent casing inside the car or could it exit the window?

A It could definitely eject through the window.

The window that's in front of you?

A Yes, it could have, in just my experience, casings could end up in very odd places. It will eject, and it could bounce off something, you know, there is plenty of obstructions inside of a car, any typical car a steering wheel, the dashboard, it could end up anywhere.

Or moving body?

A A moving body, yeah. It could have been,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

seen it before where it is caught in clothes and it would fall out as a person is running away and it is further away from the scene than what you would expect. There's no predetermined place for a casing to land when it is ejected.

. I'm just trying to get idea of the logistics of the utility belt.

A Okay.

: Okay. Now, you told us the radio is kind of like on the left hip?

A Uh-huh.

: Is that basically where everybody wears it?

A Uh-huh.

: Give me some idea where the mace is, where the baton is in relationship to the gun?

A Okay. On Darren Wilson's belt specifically?

Uh-huh.

A It was, the mace on the left side, his radio was on that side also.

: Uh-huh.

A There is a, it is more like a utility belt

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

loop where you would either hang a flashlight or you can put a spare set of handcuffs on it. And then on the back side, I believe there was a set of handcuffs and his duty holster on his duty belt was on his right hip. On the right side, but in the front are two additional, it is called a magazine pouch and it carries two reserve magazines for your pistol.

Anywhere for the mace or whatever?

A The mace is right here.

: The mace is on the left?

A It is on the left.

: Okay.

A That's the situation, I guess, of his duty belt.

: Okay, thank you.

: . Getting back to the positioning of the shooting. When Michael Brown turned around, Officer Darren Wilson said he was approximately 30 foot between them?

A (Nods head.)

: As Michael Brown charged towards him, he backed up to keep the distance. Does he indicate that Michael Brown was closing

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

distance on him?

A He says that, and I don't want to make an assumption, I'm just telling you what he says. The distance started at 30 feet and then it was reduced down to 15 feet.

MS. WHIRLEY: If there are no other questions, you did actually do a recorded interview with Michael Brown; is that correct? (sic)

A I did.

Q (By Ms. Whirley) And who was present during that interview?

A It was myself, Detective who was the case detective, police officer Darren Wilson and his attorney

Q Any idea how long that interview was?

A I'd say roughly 30 minutes.

Q 30 minutes, okay. We're not going to ask you to sit through the interview, I was just setting it up because you are the person that actually did that interview.

Any other questions?

MS. ALIZADEH: I do want to ask about that interview as well. So that is recorded and we're going to play that later.

The interview actually was primarily

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

conducted by wouldn't that be fair to say?

A Yes.

MS. ALIZADEH: You were present and also asked questions, but is the primary speaker or the primary questioner I would say, correct?

A Yes.

MS. ALIZADEH: And that was video or audio recorded?

A Audio recorded.

MS. ALIZADEH: Now, you will sometimes video record homicide suspects; is that correct?

A That's correct.

MS. ALIZADEH: And you an interview room, several interview rooms over at your headquarters that are equipped with video cameras and that are for that purpose, interviewing suspects, correct?

A Yes.

MS. ALIZADEH: Why didn't you video record his, and I don't know if it was your decision or another officer's decision, do you know why he was not put in an interview room and interviewed like you would a suspect in a homicide?

A Our interview rooms are small, they're

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

kind of that way for a reason. They are 4 feet by 6 feet. And with just one interviewer and a person being interviewed, is very tight.

So with two detectives, a person being interviewed and their attorney, that room, those rooms are just not conducive for that type, the amount of people.

So the room that we chose to use is a small conference room with a table and about six chairs that are around it. So it was more accommodating, we would use that option if we needed it on any interview.

MS. ALIZADEH: And so there was an audio recording made of that interview, correct?

A That was done at the St. Louis County Police Headquarters within the office of the Division of Criminal Investigation, which is where our offices are.

MS. ALIZADEH: Also just to clarify, you are now aware that the FBI is conducting an independent investigation into civil rights violations, correct?

A Yes.

MS. ALIZADEH: I'm not going to get into the date that that began or anything like that, but

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

when you did your interview at the department headquarters in the conference room, the one we are going to listen to, was FBI conducting joint interviews at that time?

A At that time, no.

MS. ALIZADEH: Okay. Now, after that date, at some point during this lengthy investigation, was there a decision made between your superiors and people with, you know, the feds that if at all possible, it would be better that you all conduct joint interviews?

A Yes.

MS. ALIZADEH: But the feds were not involved in the interview that Darren Wilson gave at your headquarters in the conference room?

A Correct.

MS. ALIZADEH: Okay.

: . I just want to clarify, that interview, the recorded interview was with Officer Darren Wilson?

A Yes, Officer Darren Wilson and Detective

I may have misheard.

A No, that's okay.

MS. ALIZADEH: We haven't heard it yet,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

just so you know.

MS. WHIRLEY: Put on the record, clarify what you said.

I think Sheila may have said did you do an interview with Michael Brown.

A Oh, I'm sorry.

MS. WHIRLEY: If I said that, that was, of course, incorrect.

A Yes.

MS. WHIRLEY: You did an interview with Darren Wilson?

A I'm sorry.

MS. WHIRLEY: So thank you,

MS. ALIZADEH: And that, of course, the interview with Darren Wilson, conducted by county police officers we will play for you later today.

Any other questions of this officer before he is to leave?

: One last question. After your initial interview, the cursory interview, did you return back to the scene and report or how does that work?

A What occurred is I returned, I left Christian Northwest Hospital and returned to the Ferguson Police Department initially. While I was

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

there, I waited maybe 10, 15 minutes for Officer Wilson to return and Lieutenant Colonel to return.

It was at that point when they did return, we seized, when I say we, I'm referring to Detective seized the uniform worn by Darren Wilson during the incident. And that's at which time his weapon was seized and it was in that evidence envelope or that manila envelope that we had talked about earlier. So that's when the weapon and uniform were seized.

Following that, I did return to the scene there on Canfield Green Apartment Complex. The reason for that is, goes hand in hand with our cursory interview. The way I explained it earlier is that with the information that I obtained through the cursory interview, I provide that to Detective so that it will allow the members of the police department at the scene to make sure we have encompassed everything that might be involved.

So they have a statement that will either, you know, if they need to look over here for evidence or over there, they know based on the cursory statement. We would do that with any witness or anybody that could give us any

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

information, we'll use that to, influence is the wrong word, make us look in the right spot, if you understand what I'm saying, I'm sorry.

: .

A Yes.

: Do you feel that the way the weapon was handled before it got to your St. Louis County investigator, compromised the investigation in any way?

A No, it is just different than what St. Louis County would do. However, chain of custody was maintained and that's really the only thing that would be important to me as an investigator that it went from Officer Darren Wilson, to Detective to Detective those are the chains that, obviously, I would be concerned about. It appeared that it was maintained, so.

MS. ALIZADEH: And also looking at my notes I neglected to ask, you've mentioned that you investigated a number of police officer involved shootings?

A Correct.

MS. ALIZADEH: And have you interviewed the police officers involved in those shootings?

A On some of them.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

MS. ALIZADEH: And in your experience, is it unusual for the officer to not be able to accurately recall how many or the sequence of shots that were fired during the critical incident?

A Not at all, it is actually common.

MS. ALIZADEH: Okay. Nothing further.

A Thank you very much.

(End of the testimony of Officer)

(Recess)

MS. ALIZADEH: This is the 16th of September, the time is approximately 1:16. This is Kathi Alizadeh with the prosecutor's office. Present are all 12 jury grand jurors, as well as the court reporter, Sheila Whirley has stepped out.

To begin the afternoon session what I would first like to do is to play an audio file that is contained on Grand Jury Exhibit Number 17. Remember, this is one of those I renumbered. I think it used to be 9 or 10, but anyway, it is now Grand Jury Number 17. I'm going to play a recording of an interview of Darren Wilson and the interview I have transcripts that I'm going to pass out.

Again, if you will to take one and put your juror number in the corner. Before I actually

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

start this, this interview is the interview that talked about that was recorded in a conference room at the police headquarters.

And so as you can see from the transcript, the main speakers are Detective and in the transcript that is DET. and then when Darren responds it is D. Wilson.

They both have the distinctive voices and hopefully it won't be to confusing for you to tell who is speaking.

Also during the interview you will hear that they give Darren Wilson a map to write on and then also a photo lineup that they ask him if he can identify somebody.

So that happens later in the interview. I'm going to let you guys look at those and I can put them up on the screen if you like, but those are what is being referenced when they are talking and those are copies.

: .

Miss Kathi, is this Ferguson or St. Louis County interviewing him?

MS. ALIZADEH: Detective is with the County Police Department, and I think he

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

announces that in the beginning paragraph who is with, who is present and who they're with.

And also, I'm going to tell you because we have another witness that's here that we need to meet with briefly, and Sheila and I both need to do that, I'm going to start this and I'm going to walk out. I would ask that you not deliberate or anything while I'm gone because is still here and he's going to just be present while this is being played and then if we're not back in 30 minutes, which I can't imagine it is going to take 30 minutes, when we come back we'll stop it. If it stops before, then we'll just, said he would then just leave the room so he is not sitting here alone with you all.

If by chance we're not back when this ends, you know it will start over from the beginning automatically, so you can just click the pause or that square to stop it.

(This is the audio recording being played at this time.)

MS. ALIZADEH: Is there any part of this that you all want to hear again or hear it again in its totality? And again, this is available for you to listen and the transcripts are for you to keep in

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

your materials, all right.

So you ready for the next witness?

Can I take a quick bathroom break?

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Could you state your name and spell it for the court reporter?

A

Q And just in case I slip, you go by is that right?

A I do, yes.

Q I'll try to remember to call you Miss

A Yes.

Q All right. What do you do, Miss ?

A I'm an FBI agent.

Q How long have you been with the FBI?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I've been with the FBI about three and a half years.

Q And prior to your employment with the FBI, were you otherwise employed in law enforcement?

A I was a civilian crime scene examiner for Baltimore County Police Department.

Q Okay. So you were a civilian crime scene examiner?

A Investigator.

Q So you weren't a commissioned police officer?

A I was not.

Q So prior to becoming an FBI agent, you were never a commissioned police officer?

A No, I was not.

Q So all of your law enforcement career has been with the FBI, other than the civilian crime scene investigator?

A Yes, ma'am.

Q So where are you officed?

A St. Louis, Missouri.

Q Is your office in the FBI headquarters downtown in St. Louis City?

A Yes, ma'am.

Q And back in early August of this year,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

were you asked to assist with an investigation involving the shooting death of Michael Brown?

A I was.

Q And you're aware that the Department of Justice is conducting an investigation into civil rights violations that might have occurred involving the shooting death of Michael Brown?

A Yes, ma'am.

Q Now, the FBI, that's a federal agency, right?

A Yes.

Q You're a federal agent?

A Yes.

Q I'm not going to get into a law school class about this, but typically you aren't typically investigating murders and rapes and things that maybe state level law enforcement officers investigate, would that be fair to say?

A Yes.

Q And so what your role is or what you are limited to is investigating violations of federal laws, correct?

A Yes, ma'am.

Q And so is that primarily what your role is in this case is to investigate violations of any

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

federal laws?

A Yes, ma'am.

Q So when were you first brought in on the investigation of the shooting death of Michael Brown?

A August 11th, 2014.

Q And have you continued to be involved in this investigation since August 11th?

A Yes.

Q And have you, in the course of your investigation, did you interview Darren Wilson?

A Yes.

Q Have you conducted numerous other interviews of other witnesses?

A Yes.

Q Both lay people or civilians and law enforcement?

A Yes.

Q And, in fact, is your investigation still going on?

A It is.

Q And so what I'm going to ask you about today is about your interview with Darren Wilson, but we know you had other things to do with this case. If we need to have you testify about other

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

aspects of your investigation, would you return to the grand jury to give further testimony?

A I will.

Q All right. So just for today, I'm not saying I'm limiting you in asking your questions, but just for today the purpose I'm going to be asking you questions is about your interview with Darren Wilson, okay?

A Yes.

Q Now, on what day did you interview Darren Wilson?

A August 28th, 2014.

Q Now, during the time of your involvement with this investigation, was there a time when the FBI agents involved and the attorneys are either with the U.S. Attorney's office or Department of Justice kind of agreed to work together with the county investigators in conducting interviews together?

A Yes.

Q Were you aware prior to your interview of Darren Wilson, were you aware that he had already been interviewed by county detectives about the shooting death of Michael Brown?

A Yes.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q And did you have a copy of that interview?
A Yes.
Q And had you listened to it prior to your interview of Darren Wilson?
A Yes.
Q So now given that he's already given an interview with the county detectives, why is it that you decided to interview him again on the 28th?
A As we do separate investigations, my investigation is a civil rights investigation. Part of that and what I do in investigating civil rights is violations under the color of law, which that's why we're taking a look at this shooting, is to see if Officer Wilson was in violation of his sworn duties.

And because of that, he is a subject of an investigation and very important and we are, it is separate, excuse me, from a homicide investigation, what the county is conducting, so we felt it necessary to conduct a separate interview.
Q And at the time that Michael Brown, I'm sorry, Darren Wilson was interviewed by the county detectives, was that before you all started conducting joint interviews?
A Yes, ma'am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q And the joint interviews, is it time saving for detectives as well as less inconvenience for witnesses and so forth?

A That main reason has to do with the fact you want to limit statements given to avoid inconsistency, because it is human nature.

Q And in any case, you wanted to ask additional questions at some point involving your investigation of Wilson?

A Yes.

Q I mean, Officer Wilson, Darren Wilson?

A Yes.

Q All right. And so did you or someone else with the FBI contact Darren Wilson and/or his attorney about having him come in to give a statement?

A Yes.

Q Did they agree to do that?

A They did.

Q They appeared at your headquarters?

A Yes.

Q So who came to the interview, who was present?

A Officer Darren Wilson, as well as his attorney, and another attorney,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I believe.

Q

A as well as assistant United States attorney, , Department of Justice trial attorney and also present was another special agent,

Q And so where did this interview take place in your FBI headquarters?

A It took place, we have interview rooms in the front, that's where it took place.

Q So was this a conference room looking at area or, I mean, is everybody sitting around the table?

A It is.

Q Okay. And did you record these, this interview?

A We did not.

Q Why is it that you didn't record this interview?

A It is not generally the FBI's policy to record. It was made, the decision was made since he already had a recorded statement as well, to not record an additional statement.

Q During the interview, did you take notes during the interview?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I did.

Q Did you use those notes, do you use those notes generally then to write a police report or what you guys call 302s?

A Correct.

Q And 302 is just a number that is for that type of a report that you write, for example, when you are summarizing an interview, would that be fair to say?

A Yes.

Q And so, again, in this scenario you are questioning him because he is the subject of a federal investigation into civil rights violations, correct?

A Yes.

Q So when he arrived, was there any discussion between you and his attorney or him about there being any limitation on the questions that you were going to ask him?

A No, there was no limitation.

Q Did you read him Miranda warnings?

A No, we did not.

Q And why not?

A He was not in custody.

Q So he came there voluntarily, he wasn't

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

arrested. Were you planning on placing him under arrest after you were questioning him?

A No.

Q And his attorney was present during the entire interview?

A Yes.

Q And was there ever a time when you had breaks during the interview where he was left alone in the room with his attorney?

A They had the option. I can't recall if there were breaks or not.

Q About how long did your interview last?

A Approximately an hour.

Q And were there questions asked by you during the interview?

A Yes.

Q Did the Department of Justice trial attorney, , did she ask questions as well?

A She did.

Q Did U.S. attorney or assistant U.S. attorney , I think it is , correct?

A Yes, ma'am.

Q Did he ask questions as well?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He did.

Q Did ask questions as well?

A She did.

Q And how would describe Darren Wilson's demeanor during the time you interviewed him?

A Cooperative.

Q Did he appear nervous?

A No.

Q And so did you, was this the first time you had ever met Darren Wilson?

A Yes, it was.

Q And you're aware that he is on administrative leave; is that correct, or did you know that?

A I didn't know it was administrative leave, I just know he had not returned to work.

Q He didn't come in a policeman's uniform to the interview, did he?

A No.

Q And so can you just and summarize for the jurors, what you talked about or what you asked him during the interview?

A We, we went over his career as a police officer, just a brief rundown that he had been a police officer in Jennings Missouri Police

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Department for two years prior and had worked for Ferguson since October 2011, Ferguson Police Department.

And then we went into August 9th, 2014, where he was working a shift from 6:00 a.m. to 6:00 p.m. Around noon, just before noon he received a call, a sick call he referred to it as. An infant who had a fever. While he was at that call he heard over the radio a call for a stealing in progress where, is it okay if I refer to my notes?

Q Sure.

A Sorry, I don't mean to look down. He heard it was at a market, he didn't hear which one and he heard a description over the radio saying the subjects were walking towards the QuikTrip, stole Cigarillos and one subject was wearing a black shirt.

Wilson cleared that sick call because the mother and the infant were taken to the hospital. He cleared the call and he was going eastbound on Canfield. The sick call was in an apartment complex, I believe it is called Northwinds, and to get back to West Florissant, I'm sorry, west on Canfield.

And as he's driving, he sees two

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

individuals in the middle of the road walking single file and as he pulls up, he sees who he identifies later at a later date as of the date of the interview as Dorian Johnson and Michael Brown. He didn't know them before.

Q When he was talking with you, he, at that point knew that the deceased was Michael Brown and that the other gentleman is Dorian Johnson, correct?

A Yes, ma'am.

Q But during your interview, did he refer to them by name, those names then?

A He did.

Q But did you clarify with him that this was, were these individuals he had ever heard of or had any contact with previously?

A We did clarify and no, he did not. He did not know who they were prior to this interaction.

Q Okay. So you say he sees these two subjects who he now knows as Michael Brown and Dorian Johnson, what happened next?

A Dorian was first, so he pulled up next to him and asked him why don't you guys walk on the sidewalk. He made the statement, it wasn't in a confrontational way because he was more concerned about going back to the station to have lunch, it

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was about that time.

Dorian's response was, we're just about to our destination, Dorian was not confrontational either.

And Officer Wilson's response was okay, but what's wrong with the sidewalk. And Dorian kept, he continued to walk and Officer Wilson said he did not pay attention to Michael Brown and he was somewhat blocked. He has a big mirror, he was driving a Tahoe, so the mirror is quite large and Michael was blocked, he was just in that spot.

Because he was interacting with Dorian Johnson, didn't notice Michael walking or any demeanor and so when he says okay, but what's wrong with the sidewalk, Michael says, "fuck what you have to say."

I'm sorry, let me refer to my notes. Officer Wilson's attention was then drawn to Michael Brown and he noticed that Michael Brown's hands were full of Cigarillos. He looks in his rear view mirror and also saw that Dorian was wearing a black T-shirt.

Thinking back on the call, Michael Brown was wearing a gray T-shirt and the call was they stole Cigarillos and one was wearing a black

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

shirt. So kind of putting two and two together or thinking that these might be the two guys, he puts the car into reverse.

Q Now, when you say putting two and two together, is that what he was telling you that he put two and two together or is that your interpretation of it?

A He said he recalled the description that came out over the radio. I think I'm using that, I don't know what you would call that, but yes, he said that.

Q As much as possible because, obviously, you know, I don't want you to add to the statement or even interpret something that you believe he meant or said if he said it a certain way. So as best you can, stick with what he told you. So he said he recalled that earlier call about the stealing Cigarillos?

A Yes, ma'am.

Q And then what did he say happened?

A He said he put the car, I'm sorry, he called over the radio said I'm on Canfield with two, send me another car, that's quoted.

He then put his vehicle into reverse and angled the rear of the vehicle towards the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

middle of the street as to block the two of them from getting away, or walking any further.

He said, Officer Wilson said his plan was to stall them until another officer got there. He was not going to try to arrest or even question either one of them because he was out numbered and incredibly outsized by Michael Brown. In fact, he quoted as saying, he would overpower me.

So before Wilson gets out of his car, he tells Brown, come over here a minute. Wilson attempted to open the door and Brown, Michael Brown, shoved the car door back at him.

And Michael Brown said to him, "what the fuck are you going to do about it."

Wilson, Police Officer Wilson unsuccessfully tried to open the door again, Michael Brown ducked his head in because he was taller than the vehicle, ducked his head in down, came in through the driver's side window swinging his arms, he described him swinging his arms wildly at Wilson.

He said Brown's right hand connected with the left side of his face. Wilson tried to get Michael Brown off him and also block the blows that were coming at him.

At some point Michael Brown turned

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

around and handed the Cigarillos that were in his hand to Dorian Johnson and Brown came right back around and hit Officer Wilson in the face with Michael Brown's left hand.

Officer Wilson describes going through what he described as a force triangle in his mind, and that is the way he said they were trained. He knew he could use one level of force higher than was being applied to him, excuse me, than the threat level to his safety.

Q And this force triangle is something that he said he was trained about?

A Yes, ma'am.

Q And he described it to you?

A Yes, in just that way using one level higher.

Q One level of force greater than the level of force being used against you or applied against him?

A Yes, ma'am.

Q Okay, go ahead.

A He said he couldn't reach his mace, he also knew that in the academy he got sprayed with mace and he doesn't handle it well. So even if it doesn't hit him, he would not be, it would disable

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

him just as much as it would Michael Brown.

He did not carry a taser, so that wasn't even and option.

He had his asp baton on his belt and a mag flashlight in the passenger side. He said it would have given up too much of his body, Michael would of had to, could hit him more parts of his body if he tried to reach for either of those. He also couldn't deploy the asp baton inside the vehicle because it is collapsable.

Wilson said he thought Brown could beat him to death. He knew from his training because for just that reason, he was allowed to use deadly force.

He pulled out his gun and told Brown, stop I'm going to shoot you. Brown's response was and I quote, Officer Wilson quoting Brown, "you're too much of a pussy to shoot."

Brown grabbed the gun and twisted it down pointing at his left hip. And Officer Wilson attempted to raise the gun with Michael's hand on it and aimed, he described he aimed at the silhouette of Michael Brown through the car because he could not raise it. He couldn't pull the gun high enough to go through the open window.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q So at this point is he describing that both he and Michael Brown have their hands on the gun?

A Yes, ma'am.

Q Does he say, does he say which hand he had on the gun, his own hand?

A His right hand.

Q And did he say, was he holding it by the grips, the handle of the gun?

A Yes.

Q And then did he say what hand or hands Michael Brown had on the gun?

A I don't believe I wrote which hand or heard which hand.

Q Okay. So you don't recall if he said which hand he had on the gun?

A I don't.

Q But does he describe that they both were struggling over the gun at this point?

A Yes.

Q Does he describe where Michael Brown's hand or hands are on the gun?

A He said, if he's holding the gun, he did this motion where his hand was overtop holding, Michael Brown's hand was over the gun, grabbing onto

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Wilson's hand.

Q Okay. And you're not sure if Darren Wilson told you which hand Michael Brown was using at that point?

A I don't recall.

Q Okay. And so then what did he say, you said he managed to level the barrel, which might be the silhouette on the opposite side of the door, is where Michael is standing, correct?

A Yes, ma'am.

Q Okay. And then what happened?

A Sorry, I'm just referring to my notes. He pointed at Brown's body through the door, pulled the trigger and nothing happened, the gun did not go off.

Officer Wilson attempted to pull the trigger again and nothing happened. Officer Wilson pulled the trigger a third time and the gun fired through the door, driver door panel. The window being down, glass flew everywhere.

I'm sorry, Brown's right hand was on the gun when it fired.

Q Okay.

A I don't recall and I don't know that even Officer Wilson knows when exactly, but he noticed

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

that there was blood on his right hand and he assumed that he had gotten cut when the glass flew everywhere.

After the gun goes off, Brown stepped back from the car. He described somewhat in shock and Brown puts his hands together at his right hip, he demonstrated. And Officer Wilson thought maybe he was hit there, which is why he put his hand there.

He said Brown then became enraged where Officer Wilson describes his face looking like a demon.

Officer Wilson was confused that Brown wasn't then running away, knowing that situation, assumed that that would be to get Brown away from the door and to go because he had just been shot, but Brown re-engaged.

And also at this point in time, Officer Wilson did not know where Dorian Johnson was. The last time he saw him was when he did the Cigarillos handoff. At that's when the rest of that time, the interaction, he never saw Dorian Johnson.

Q Does Officer Wilson describe that, so are you saying that he says when he fired the weapon into the door, he believed or thought that the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

bullet pierced the outer skin of the car and got Michael Brown, is that what you are talking about?

A Yes.

Q When you say that?

A Based off of his action, also he didn't know where the bullet went, but he was aiming through the door when Michael Brown is engaged in the car, he pulled both of his hands down towards his right hip and thought maybe that's where, if he was hit, just based off that action not because he saw a wound and not because he saw blood.

Q Okay. And so then, what happened you said that he then described his face as looking like a demon and he is confused as to why he wouldn't have run away at that point. What happened then, what did he say then?

A Both of the Brown's hands came back through the window. Officer Wilson just showed us his left arm up defensively trying to block Brown from punching him.

Wilson put his, the gun up and pulled the trigger again, the gun didn't fire. He described what blind racking the gun, it is pulling the slide back without looking. I don't know what he, I don't know if he used his hands to rack it,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

but he thought something had happened to the gun. He didn't know if the gun, he described it as stovepiping, which could be two bullets trying to go in and then neither will fire. He didn't know if he ejected a full cartridge, which would be the projectile along with the casing or just the spent casing was stuck in there, he didn't know, he didn't look.

Q So he said he blind racked the gun, which he described as being the slide back?

A Yes.

Q Okay.

A Blind racking, he wasn't looking at his gun, his attention was to Mr. Brown.

Q All right. You need two hands to do that, would that be fair to say?

A He didn't demonstrate with hands, I'm demonstrating because that's how I'm trained. He could have also gone ahead, if I wasn't here, I could use this table, he could have used the steering wheel.

Q So you didn't ask him --

A Did not.

Q He didn't demonstrate how he blind racked the gun?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct.
Q But his words were blind racked?
A Yes, ma'am.
Q Okay. So what does he say happens after he blind racks the gun?
A He fired the gun again, he pulled the trigger again, the gun fired and he saw, and he wasn't looking where he was shooting he said, he saw a cloud of dust in the dirt across the street and assumed Michael Brown had not been hit because that's where he assumed the projectile landed.
Q So did he tell you when before firing this weapon now, the second shot, did he tell you was he aiming in a particular place or was Michael Brown still beside the vehicle?
A Yes, he was. He describes him, and again, because I'm not sure what hand, he just shows him blocking Michael Brown's blows with his left hand.
Q Okay.
A So after he fired that shot, that's when Michael Brown again ran away. Upon which time Officer Wilson called over the radio, shots fired, send me more cars.

We asked because it is important later whether or not he called over his, there is a

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

radio in the car and there's a radio that he has on his person. So when you're inside a call car you can hear and also transmit. He's not sure if he said that with his car radio or with his handheld.

Q He remembers making a call and those words, but doesn't know if it was the car radio or his mobile walkie-talkie?

A Correct.

Q And then what happens?

A So Officer Wilson got out of the car to chase Mr. Brown because, and he describes because Michael Brown was a fleeing felon. And he was just doing his job, those were his words.

He said Brown had just assaulted and attempted to kill him with his own duty, with Wilson's duty weapon.

Officer Wilson did not want Michael Brown to cause injury or death to anyone else. He knew Brown would assault another responding officer or witness as Brown had just assaulted him.

And Officer Wilson wanted to know, he wanted to give chase, he wanted to know where Brown was going. And in an attempt to apprehend Michael Brown once other officers got there.

Q So let me stop you here. So this part you

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

are testifying about he is basically explaining why he thought he was justified in pursuing the subject, correct?

A Yes, ma'am.

Q Was that in response to questions that you asked him directly or were you just letting him narrate this and this is information he just provided in a narrative form?

A That was in direct response. It is possible, and the way my notes are written, I go back and write and try to chronological order. He could of at first give us the rundown, said what he did and then we would go back and say why.

In my notes I tried to put it in chronological order. So he went and gave chase and I put in my notes in that same spot why, when we asked him why.

Q Okay. And that was his explanation you already testified about. And then what did he say after he explained why he pursued the subject?

A He explained that he expected Michael Brown to run for a while. So when he got out of the vehicle he did still have his gun in his hand, but it was down at his side because it is easier for him to run instead of having it pointed at Michael

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Brown. And also because Michael was running away from him, he did not feel he was an immediate threat to keep his gun pointed on him.

Q Okay.

A As he was running after him, he told Michael get on the ground, get on the ground. And again, he said he thought Michael was going to run for a while.

While he was running, Officer Wilson noticed a line of three cars lined up behind him, specifically he noticed a green Pontiac. He said he did not fire any shots at Michael Brown as Michael Brown was running away.

At some point, a short time after Brown stopped and turned around to face Officer Wilson. Officer Wilson will describe Brown as grunting, he grunted, hopped and began toward Officer Wilson.

When Brown hopped, he said he put his right hand in his waistband. At the time Officer Wilson didn't know whether or not he was armed. He thought that perhaps Michael Brown was armed and that's what he was going for.

He couldn't tell because Brown's shirt had hung over his waistband. He said Brown's

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

left arm, left hand was clenched in a fist at his side.

Wilson shouted stop, get on the ground, and Wilson explained at this point during the interview that Brown was just not listening to any of his commands.

Wilson started shooting as Brown ran towards him. Wilson shot more than once, but was unsure how many times. And he realized he had tunnel vision, so he shot more than one time and realized that all he was looking at was that right hand.

Wilson, I'm sorry, he said during this string of thoughts, Michael Brown had jerked back as if he had been shot, but Officer Wilson did not know where Michael Brown was hit.

Q So he doesn't describe seeing, like what we see on TV, pow, pow, immediately blood spurt and you would see it on the shirt, he doesn't describe seeing anything like that?

A No, he didn't.

Q Okay. Did he say anything other than, you know, you said he has testified before he had made that motion towards his waist like perhaps he shot him through the door, did he say anything else about

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

him making, appearing to be shot anywhere else?

A No, he didn't.

Q Okay. You can go ahead.

A He said after Michael Brown kind of jerked back, he said Michael stopped briefly, but then started running towards him again. He described Michael Brown's chest as being puffed up. Michael Brown's hands were still in his waistband.

So Officer Wilson began to back up. Brown was about eight feet away from Wilson when, and Wilson thought to himself, if he gets me, I'm dead.

Brown ran towards Wilson with his head leaning down. Officer Wilson thought he only shot one time, but it could have been more.

He saw the bullet hit Michael Brown in the head and he saw Michael Brown fall to the ground face first. He said Michael Brown fell with such, because he had such momentum going forward, that when he landed on his face, his feet came up behind him.

Officer Wilson made a statement all he had to do was stop and Officer Wilson would have stopped shooting.

At no point did Michael Brown comply

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

with Officer Wilson's command or his order to surrender and Michael Brown never had his hands up.

We had Officer Wilson draw just on a white sheet of paper a simple depiction of the scene and we are going to keep that with our case file.

After Michael Brown went to the ground, he called over the radio on his handheld and said, "I need a supervisor and everyone you've got."

While Officer Wilson was running after Michael Brown, he was looking around for people because he was concerned with, he didn't know if Michael Brown had a gun, he was concerned that other people might get shot in the crossfire.

Q Wait a minute. So he kind of backtracked in his statement a little bit.

A Yes.

Q Now he's already got to the point where he's shot him and a fatal injury has him on the ground. So now he backtracks a little bit and says when he was chasing him?

A When he was chasing and I'm sorry, I'm explain that a little better. He knows there are a lot of people around once Michael Brown was on the ground. He said while he was chasing him, this is all within a matter of seconds, he didn't notice

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

anybody else. Once Michael Brown went to down to the ground, he saw a lot of people in the community, an apartment complex around.

He said Officer was the first one on the scene. And he had, Officer Wilson had Officer secure the scene or block the street.

Wilson called for an ambulance. The next two arrivals were Ferguson Police Department Officer and at the time because there was really, West Florissant to get onto Canfield is the only way to connect to a major roadway, both were west of the scene. So Officer Wilson had Officer move his vehicle to the east side so they could block that, so they could secure the scene, maintain some scene control.

Q To block vehicular traffic that might be coming westbound on Canfield?

A Yes. Officer Wilson described feeling unsafe standing next to Brown's body since he was the shooter. He thought, the area is known for violence, guns, gangs and drugs. They did not have a good relationship with the police. He kind of felt he really had a spotlight on him.

He walked towards his vehicle which

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was still running. He opened the door and got the keys and shut it off. the only thing he touched was the exterior of the vehicle.

Q So he reached in to turn the car off?

A And grabbed the keys.

Q And take the keys out of the vehicle?

A Yes, ma'am.

Q And then he shut the door?

A Yes, ma'am.

Q He didn't get in the car?

A He did not.

Q All right.

A I don't know if other officers arrived, I'm sorry, the Ferguson Sergeant responded. Wilson told Sergeant that he had killed Brown. He quoted himself as saying, "he grabbed my gun and I shot him."

told him to go, told Wilson to go sit in Wilson's car. And Wilson said, no, because then everyone will know it was me because everyone around him is working and he's not.

So Officer, I'm sorry, Sergeant told him to go back to the station, to not take Wilson's vehicle. Sergeant had to let him take Sergeant vehicle.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

And Wilson described that he thought that it was strange that Sergeant wouldn't have another Ferguson police officer go back with him because he was just involved in a shooting, that even minutes after the scene a lot of people showed up. I think he described it the police officers being outnumbered 300 to 1.

So he drove back to the station, he noticed that his handheld radio was on channel 3 instead of channel 1. Channel 1 was the Ferguson dispatch and channel 3 was St. Louis County Police Department Dispatch. He wasn't even sure, while he could hear St. Louis County, he wasn't sure if he keyed up that they would hear him whatever he said.

He believes that the radio switch during the struggle in the car, but he's not positive, actually, because he's not usually on channel 3, excuse me, not channel 3.

When Wilson got back to the station he washed the blood off of his hands. His primary concern was not of evidence, but as a biohazard or what possible blood hazards it might attract.

So no one at the station photographed Officer Wilson's hands because there was no one there to photograph them.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Right after he washed his hands he went to the roll call room, he made his gun safe, which means he took out any bullet and packaged it as evidence, that's how he described it to us.

He did not wait for somebody else to bag that as evidence because he saw blood on the gun, thought it was Brown's blood, wanted to preserve the DNA. He didn't want to risk because he believed that would prove that he had his hand on the gun.

There was a Ferguson Police Officer

at the station when he arrived.

He told , he said to , I just shot someone. Officer did not ask him any more questions.

He said Officer may have seen him package his gun, but he wasn't positive.

He called, Wilson called his attorney when he got to the station. Officer Wilson knew that was the attorney to call if he was ever involved in a shooting.

They had EMS, which there is a block house right next door to the Ferguson Police Department. They had EMS come over and perform an

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

assessment.

Ferguson Police Lieutenant came to check on Wilson. Lieutenant did not ask any questions about what happened and also Ferguson Police Officer came into the roll call room to give Wilson card that he had, but he already made the phone call.

Wilson knew not to talk to anyone until he spoke with an attorney and he did not comment on what happened.

After the Attorney arrived, St. Louis County Police Department Detective and Lieutenant Colonel also came to speak with Wilson.

Between and Wilson, they noticed Wilson's face was red and swollen, so they collectively decided they were going to take him to the hospital. They took him to Christian Northwest emergency room. Shortly before they took him there, Wilson described Detective started the interview at the station and continued it after they got to the emergency room.

Officer Wilson described being assaulted in the past as a police officer and said it was not to the extent it had been with Brown. No

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

one had ever before attempted to take his firearm.

Officer Wilson had been trained to use physical force when a physical threat was present.

Michael Brown became an immediate threat to Wilson's safety when Michael Brown came into the car, when Michael Brown hit Officer Wilson.

Michael Brown went for Officer Wilson's firearm and Michael Brown charged towards Officer Wilson after Brown had already run away.

Michael Brown was a threat to the safety of others as he ran away from Officer Wilson.

Q Now, what you're saying right now, this is what Officer Wilson is telling you, correct?

A Yes, ma'am, correct.

Q This isn't your statement?

A No, it is not my statement. Correct, I apologize for not clarifying that. Everything I was saying was what was relayed to me by Mr. Wilson. In no way, shape or form am I offering any opinion whatsoever.

Q Okay. Is that pretty much the conclusion of the statement?

A Yes. The last thing was it is the sergeant's responsibility to write a use of force

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

report. It is Wilson's responsibility to write an incident report, but as of August 28th, 2014, Officer Wilson had not been back to the station, so he has not had the opportunity to write an incident report.

Q So he's basically told you that after the shooting and contacting, having contact with Sergeant he goes directly to the Ferguson Police Department, can't talk to anybody about this until possibly his attorney arrives and then ?

A Yes, ma'am.

Q And he also tells you that no one had possession of his gun from the time he left the scene until he made it safe and packaged it in that envelope?

A Yes, ma'am.

Q He also told you, did he also tell you, I should use notes, did he tell you that he had sustained any other injuries to the backs of his hands or on his hands?

A He made a statement that he had no cuts.

Q Okay.

A So I don't know at what point he realized that, but he believed the blood on his hands was

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Michael Brown's.

Q Okay. Well, this is the 28th, this is too far after the incident.

MS. ALIZADEH: Sheila, do you have any additional?

MS. WHIRLEY: I do.

Q (By Ms. Whirley) So he, on August the 9th this occurred and you didn't interview him until August 28th?

A Correct.

Q However, he told you that he saw the Cigarillos in Michael Brown's hand at some point?

A Yes, ma'am.

Q At what point was that?

A That was, initially when he made contact with both Dorian Johnson and Michael Brown, his attention was drawn to Dorian Johnson because Dorian was first and also responded to his, hey, can you guys use the sidewalk, or whatever verbiage he had used.

When he said what's wrong with the sidewalk, his attention was then turned towards Michael Brown because Michael Brown responded to him, "fuck what you have to say," or excuse me, I'm sorry, yes, that's what he said. Once Michael Brown

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

said that, his attention was drawn, Officer Wilson's attention was drawn to Michael Brown, at which time he then saw the Cigarillos that Michael Brown was holding.

Q All right. So he saw the Cigarillos before any physical altercation, right?

A Yes, ma'am.

Q Did he say that when Michael Brown was handing something over to Dorian Johnson, that he knew he was handing him Cigarillos?

A I believe so, but I'm just going to check my notes.

Q Okay.

A Yes, he specifically stated.

Q He specifically stated he knew he was handing him Cigarillos?

A Yes, ma'am.

Q Okay. He said he intended to wait on an assist car before approaching these two males?

A Before attempting to arrest.

Q Did he say why, I guess that changed, because what happened to change that, did he say?

A Well, he was going to get out and try to stall, try to have a conversation with them in a sense, well, at least he was not going to ask them

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

about the robbery. I don't necessarily, forgive me, I don't think he said arrest, he just said before he even mentioned anything about the stealing in progress, he was going to wait for other officers to get there.

Q Okay. So did he, so he said he knew about the stealing in progress because of the Cigarillos. He was not going to mention the stealing in progress, he was just going to stall them?

A Right.

Q Did he talk to you about what he went out on his radio to say that he was doing a check with two people, to send him a car?

A Yes.

Q Did he say that he told the dispatcher hey, I've got two guys involved in this stealing at this Ferguson Market and I see one with Cigarillos?

A Right, no, he did not say that. He specially mentioned the fact he doesn't often asked for assistance on calls, so when people hear him over the radio saying, send me more cars, they know he needs another car.

Why he didn't mention the stealing would be my conjecture.

Q But let me say he didn't?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Correct, he did not.
Q But the dispatcher knows if he calls for assistance, they need to send assistance right away?
A Yes, ma'am.
Q And he did call for assistance?
A Yes, ma'am.
Q He didn't tell anybody the nature of the call?
A Correct.
Q Okay. Now, you mention that he said when Michael Brown was running away, was not an immediate threat?
A To him.
Q To him. Did he say why he thought Michael Brown would continue to run? I think that's what you said that he knew he would continue to run?
A That was based on his training and experience that he believed Michael Brown starting to run away, and based off his training and experience he believed Michael Brown was going to continue running versus stop and turn around.
Q And did that factor into his thought pattern, did he say? Did you understand what that meant?
A In that limited perspective, yes. But

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

again, I also am trained in law enforcement, so I understand. So to go further to explain why he may have thought that would be putting my personal understanding, not using, putting words into his mouth.

Q Okay. And you certainly cannot speak for that officer and we don't want you to.

A Correct, yes.

Q But tell me what you mean by your personal experience as a law enforcement officer?

A Someone running who runs away, who as he described it, attempted to assault him. And then was not going to and had not yet complied, would likely not, but you would still be prepared at this point for whatever happens.

Q So when Michael Brown said something like, "fuck what you say," or something, did he say that that was a comment that required him to confront him about it?

A No, he did not.

Q Okay. So when he backed up, did he say he backed up?

A He reversed the vehicle.

Q That was strictly about confronting about the Cigarillos?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.

Q Did he say he ever said anything to them about the Cigarillos?

A He did not.

Q Okay. Now, again, I wasn't clear, what hand did he say Michael Brown put towards his waistband?

A At what point, when he was at the vehicle or when he had run away?

Q Okay. At what point did he say Michael Brown put his hands towards his waistband? I'm talking about Michael Brown's own waistband.

A Yes, ma'am, I am sorry, let me clarify why I have a question.

Q Okay.

A Because he was, when they were at the vehicle and Officer Wilson fired the first shot, he describe Michael Brown, more of his hip, but I apologize because I picture his waistband, he put both of his hands towards his --

Q You talking about Michael Brown's waistband?

A Yes, no, no, no, he said Michael Brown, after he was hit put, Michael Brown's hand towards Michael Brown's right hip. When they were

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

struggling for the gun, he twisted towards Officer Wilson's left hip.

Q Okay.

A But I'm sorry, Michael Brown ran away, stops, turns around, grunts, hops and stick his right hand in his waistband.

Q Okay.

A That's as Officer Wilson described it.

Q Okay. So once Michael Brown goes down after he's shot and he's prone on the ground, correct?

A Yes, ma'am.

Q What did Officer Wilson say he did?

A What Officer Wilson did?

Q Uh-huh.

A He said at that point in time they were approximately 8 feet apart. He said he never, he didn't approach.

Q He didn't check for a pulse?

A He did not.

Q Or call an ambulance?

A No, he did not. He radioed, "send me a supervisor and every car you got."

Q When he said he asked for a supervisor, he said someone was lying either injured or dead on the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

ground?

A He did not.

Q Now, you've had occasion to collect his employee or personnel records; is that right?

A Yes, ma'am.

Q Have you had a chance to review them?

A Yes.

Q Is there anything of evidentiary value when I ask that question about evidentiary value, I mean anything that's significantly bad or good about his records, or that might factor into this case?

A I did. I did read that Officer Wilson received a letter of accommodation for handling a call when he was an officer with Jennings Police Department.

Q Anything else?

A There was, there were, he did have use of force reports, but that's standard practice. I didn't see anything out of the ordinary. There was a complaint made against him and two other officers describing that was ultimately found to be unfounded, to describe Officer Wilson and two others attacks, an African-American male who was just walking down the street in the city and used racial slurs towards him, beat him up so badly that he had

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

bleeding on his brain.

What was found to have actually happened was this gentleman was breaking in and was inside Officer Wilson's car. The three officers who were off duty at the time went outside and tried to detain him, he ran away.

When they chased him, I don't know which one of them tackled him on the ground, he hit his face on the way down.

This was an internal affairs investigation, the investigation was completed and they discussed with the hospital that the individual, the person who was either the victim of use of force or stealing a car, his injuries were consistent with what the officers described and that there was no bleeding of the brain.

The woman who made the complaint was not an eyewitness, but the aunt of the individual.

Q The subject that was injured?

A Yes, ma'am.

Q Or that committed the crime?

MS. WHIRLEY: Anyone else, questions?

: Just one comment, sorry,

The one comment you said that really caught my attention, I'd like kind of go with more

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

if we could, you mentioned that Darren in reference to this neighborhood said it is an area known for gangs, violence, guns and he didn't feel safe. And I think that really, I don't know, is alarming to hear. So how would you kind of say that fit into the case or was there more depth to it when he said that.

A It had to do with, I guess the atmosphere. He described that when almost immediately after, he's not sure when it happened, but once Michael Brown was down on the ground, the residents were outside. He said, and the crowd kept growing increasingly hostile because he knows from being a police officer in that area, people generally don't like to see the police.

So based on the fact of what just happened, he did not feel safe. Whether it means by, it would be my conjecture and I can't do that.

. Is there any part of Officer Wilson's testimony or statement that you believe is in conflict with any of the physical evidence you are aware of?

A I don't, I cannot make that judgment. My sole purpose is simply to collect the facts. It is up to the prosecuting attorneys and any future jury

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

to kind of make that determination.

MS. ALIZADEH: Can I ask you a question, though, prior to you questioning Darren Wilson, to your knowledge had he read any police reports documenting the investigation?

A Not to my knowledge, no.

MS. ALIZADEH: Have any reports, first of all if he has, I haven't gotten any reports, so I don't know where anybody else would have them. To your knowledge, he had no knowledge of the investigation?

A Correct.

MS. ALIZADEH: And then regarding autopsy reports, to your knowledge, Dr. who was the medical examiner in this case, he had not read that report; is that correct?

A No, he had not. If Officer Wilson knew anything about the case, it is the same thing anyone who heard in the news what was ever released to the news is what he would know. Ferguson Police Department is not doing an investigation, that was turned immediately over, the homicide investigation was turned immediately over to St. Louis County.

As far as civil rights is concerned, FBI is notoriously tight lipped. So, no, we would

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

not give him any information.

MS. ALIZADEH: We can ask him when he testifies what he may have learned or whatever or what have. Are you aware that there is all kind of rumors and talk about various things involving what people believe happened in this case, correct?

A Yes.

Q And to your knowledge though, as far as the physical evidence like where the shell casings were or where blood was found or any of that type of evidence, he wouldn't have privy to?

A No, he would not be privy to, other than being actually on the scene, but no, no reports. : . When you first, when he said he got to the police station, he washed his hands and he didn't have anybody take pictures because there was nobody else there. But then later he said that he saw a police officer, so was there. Was the only officer that was there?

A At that time, I think the way I interpreted his statement to us is he gets to the station, no one is there that he sees immediately. I don't believe he went searching, he didn't say he went searching, but he has blood on his hands. His

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

first thought is let me get this off.

So when he goes to the roll call room, then he says Officer

And then they have whatever brief conversation that he was involved in a shooting, that's it.

: Your interview with him was on 8/28?

A It was.

: The incident took place on 8/9?

A It did.

: Was there a reason why you took that long of a time between, I think that you were in an interview with a witness the day after or three days after it took place?

A Yes, ma'am.

: If it is about him.

A Correct.

I was just wondering why the interviews were so --

A I know that.

: I'm just curious.

A No, the reason why because he had been

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

interviewed, because we had an audiotaped statement and what was more important, we had witnesses out there who had not been interviewed. We felt it was most important to get those witnesses.

MS. WHIRLEY:

: Yes, . I want to go back to when Michael Brown says, "fuck what you have to say."

A Yes.

: Officer Wilson puts his car in reverse?

A Yes, sir.

: Did he mention he said, what did you say?

A He didn't specifically, that's not in my notes. Are you asking if Officer Wilson asked what did you say?

: Yes.

A No, I can't remember if I remember from the interview or from hearing his statement. I didn't specifically write it down and normally if I don't specifically remember from that interview or write it down, it doesn't mean it wasn't said, I don't recall.

: Okay. You also mention, I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

guess, the part where he was charging him, he had his hands, can I stand up?

A Yes, sir.

: He had his hands on the right side?

A Yes, he said right.

: And he started charging him.

A Yes, sir.

: With his head down, is that correct?

A When he said head down, I don't know, let me refer to my notes to make expire I have it right.

: I'm just saying because I guess he's listed like at 6'4", 6'5".

A Yes, sir.

: Seems that would be kind of awkward for somebody to be charging you that way?

A It was, I can give me you my impression that I don't think it was quite at that right angle that you demonstrated from, just to describe for the court reporter. He said head down. At what angle, I'm not sure.

MS. WHIRLEY: Can you demonstrate the angle, did he demonstrate the angle for you?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Leaning forward, yes I don't --

MS. WHIRLEY: Can you stand up and show us what he showed you?

A Just leaned over.

MS. ALIZADEH: Any other questions?

: . To coincide with what he said, the question he asked, is it possible that he could have got hit there and bent over from pain?

A I can't answer that. I'm not a forensic pathologist or a doctor, that would be more --

I did have a question. When Officer Wilson, going back to the office.

A Yes, ma'am.

: The department office. Did he say after he washed his hands why he did not write a report?

A No, he didn't.

: Did he have, did you ask the question?

A I didn't. I can only speak from generally in those cases when an officer is involved in a shooting, I know they tell us to not talk to anybody until our attorney is present. So that could be a huge factor. Is that his answer? I don't know, I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was just to answer generally.

MS. WHIRLEY: .

: I'm just hoping that I have written this down correctly. But I believe you had mentioned that Officer Wilson, Darren Wilson said he went to his vehicle, which was still running, reached in and shut off the car. That's the first I heard of that.

A He pulled the keys out of the car.

: It was still running?

A Yes, that's the impression that I got that the car is in park, I'm assuming because the car would have been rolling away if he didn't at least put it in park.

: Okay.

A He didn't specifically say that, he got the keys out of the car.

: Okay.

A I thought it was still running.

: Okay.

A I thought that was what he had said.

: That was your interpretation?

A No, I thought he said that.

Were those his words?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I believe those were his words.

You believe those were his words. And then he goes on to state, if I'm understanding this correctly, that Sergeant is that correct, ?

A Yes.

: Okay. Told him to get back in his vehicle, is that my understanding?

A Yes.

In the vehicle in question that was involved in this incident?

A That is what Sergeant told him, that is not what Officer Wilson did.

: Okay.

A That's what Officer Wilson said Sergeant told him.

: Okay. And he didn't do it and then told him to take personal patrol car and drive back to Ferguson. Is this in with another officer in the vehicle with him or another?

A By himself.

: By himself. I thought there was another officer involved or something.

My understanding, like I said, when he got

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

to the Ferguson Police Department, he had blood on his hands reported. He wasn't photographed, nobody knows how much blood he had on his hands, anything left in vehicle?

A That's a good question. I don't know. I don't know that Sergeant vehicle was looked at.

: Okay.

MS. WHIRLEY: Anything else? Kathi?

MS. ALIZADEH: I've got nothing else. Again, you were active in other aspects of this investigation and should we need to recall you on a future date, would you be available to testify?

A I would.

MS. ALIZADEH: All right. Nothing further.

(This is the end of testimony.)

(Recess)

MS. ALIZADEH: This is Kathi Alizadeh. It is about 3:20 on the 16th of September. We are about to call our final witness, Darren Wilson. And as usual, Sheila and I will be asking him questions and you are free to ask questions either interrupting or wait until the end, however you feel

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

is better for the flow of things.

He is here and prepared to answer questions. I would tell you that any conversations that he has had with his attorney, because you heard him talk and we have heard testimony that he has had an attorney during parts of this, anything that he and his attorney have talked about are what we call privileged communications. And so you can't ask him about what did you tell your attorney or what did your attorney say about that, all right.

Any other questions that you think are relevant are fair game, but the communications between anyone and their attorney are privileged and we can't inquire about that, all right? All right. That being said, I am going to let him walk in and get sworn.

DARREN WILSON,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q So introduce yourself to the grand jurors,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

tell us your name and spell your name for the court reporter, please?

A My name is Darren Wilson. D-A-R-R-E-N, last name W-I-L-S-O-N.

Q Have you appeared before this grand jury before?

A No, I have not.

Q So you've never, nobody is familiar to you here, correct?

A No, ma'am.

Q All right. You are currently on leave or what's your status right now?

A I am on paid administrative leave.

Q Now, we have never met before, have we?

A No, ma'am.

Q And we did meet right before you came here today, when you came here today and I talked to you and your attorneys?

A Correct.

Q And you came here voluntarily?

A Correct.

Q And you were told that if you wanted to consult with your attorneys you could?

A Correct.

Q Okay. And you want to be here and tell

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

the jurors what happened; is that correct?
A That's correct.
Q So August the 9th of 2014, you worked as a police officer for the Ferguson Police Department?
A Correct.
Q That means you are a certified police officer?
A Correct.
Q Had you completed all your training and kept up with your continuing education as a certified officer does?
A Yes, ma'am.
Q You have the power of arrest?
A Correct.
Q In the State of Missouri?
A Yes, ma'am.
Q What's your height?
A 6'4", just a shy under 6'4".
Q A little under 6'4"?
A Yes, ma'am.
Q And how much do you currently weigh?
A 210-ish.
Q That's been your weight for a while?
A Yeah, it fluctuates between 205, 212, 213, something like that.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Of course everybody knows why we're here, so let's just get to it.

A Okay.

Q Let's talk about your day on August the 9th. What shift did you work?

A Day shift.

Q And what shift would that be, what hours?

A 6:30 a.m. to 6:30 p.m.

Q Twelve hour shift?

A Correct.

Q Had you worked the day before?

A Yes, I had.

Q Same shift?

A Yes.

Q You weren't working like midnights the night before?

A No, ma'am.

Q When you started your shift, did anything happen that you consider very eventful? I mean, earlier that day, prior to 10:00 let's say, 10:00 a.m.

A No, ma'am.

Q Had you answered any calls prior to 10:00 a.m.?

A I don't recall, I don't believe so, but I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

don't recall, nothing stands out in my memory.

Q It was a pretty quiet day initially?

A Yes, ma'am.

Q Now, at some point you had a sick call, a sick baby, I think?

A Yes, ma'am.

Q And that would have been 11-ish or so?

A I think it was around 11:30-ish, somewhere in that vicinity.

Q That was near the Canfield Green Apartments?

A Yes, ma'am, it was actually past them in the adjoining apartment complex.

Q And what do they call those apartments?

A I believe that apartment is called Northwinds.

Q Northwinds. Okay. And it is like east of the Canfield Green, behind those apartments?

A Correct.

Q When you went on that call, did you have assistance?

A No, I did not.

Q All right.

A Not police assistance.

Q No police assistance?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A No.
Q You handled that call by yourself?
A Yes, ma'am.
Q And did you have any confrontation with anybody or was everything, was it a pretty as a matter of fact call?
A It was a pretty laid-back call. It was for a sick infant, I believe, only a couple months old.
Q Okay.
A I believe she had a fever, I'm not 100 percent sure.
Q Let me ask this question, can everybody hear him? Speak up. I usually stand in the back of the room so we can have a conversation. As you can tell, my voice really carries, so try to, you know, speak up so everybody can hear you.
A Okay.
Q So the baby was an infant?
A Correct.
Q Was the baby not breathing, what was the call, do you recall?
A I believe it was for a fever.
Q Fever you said, I'm sorry.
Ambulance arrived?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ambulance arrived at the same time I arrived.
Q Okay. Baby went to the hospital with its mother?
A The mother and baby were transported.
Q After that, what did you do?
A I returned to my vehicle and then started to leave the apartment complex.
Q Okay. Did you get any other calls between the time of the sick baby call and your interaction with Michael Brown and Dorian Johnson?
A While on the sick case call, a call came out for a stealing in progress from the local market on West Florissant, that the suspects traveling towards QT. I didn't hear the entire call, I was on my portable radio, which isn't exactly the best. I did hear that a suspect was wearing a black shirt and that a box of Cigarillos was stolen.
Q Okay. And was this your call or you just heard the call?
A It was not my call, I heard the call.
Q Some other officers were dispatched to that call?
A I believe two others were.
Q Was it a call that you were going to go to

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

also?

A No.

Q So you weren't really geared to handle that call?

A No.

Q Tell us how you were dressed that day on August the 9th?

A How I was dressed?

Q Yes.

A I was wearing my full department uniform, light duty boots, dark navy blue pants, my issue duty belt, with my uniform shirt and that was it.

Q All right. And so when you say, when you are in uniform, you were not a detective?

A No, ma'am.

Q You weren't dressed the way you are dressed here today?

A No, ma'am.

Q So your uniform is like a uniform police officer and when you are walking around I can clearly see oh, that's a police officer?

A Yes, ma'am, I believe it is french blue uniform shirt, had patches for Ferguson on both sides, badge, name tag.

Q Okay. And you were in what type of

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

vehicle?

A I was in a Chevy Tahoe police vehicle fully marked with a light bar.

Q Fully marked, okay. Tell us, you were mentioning your radio or what is this you spoke about?

A Walkie is what we normally call it.

Q I'm sorry?

A Our walkie is what we normally call it.

Q Like a walkie-talkie or something?

A Yes, ma'am.

Q And it did work that day?

A Yes.

Q Okay. And it was on which shoulder?

A I wear it on my left shoulder.

Q Are you left or right-handed?

A I'm right-handed.

Q Okay. Tell us what else is on your duty belt?

A I have my, I'll go in order. Magazine pouches sit right here, my weapon is on my right hip, I have an asp that sits kind of behind me and kind of to the right and then a set of handcuffs, another set of handcuffs, my OC spray or mace is on this side and then my radio and that's it.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Okay. So your mace is on your left side and your gun is on your right side?

A Correct.

Q What type of weapon did you carry?

A I carry Sig Sauer, a P229 .40 caliber.

Q How many cartridges or bullets would it hold?

A It has 12 in the magazine and one goes in the chamber, so a total of 13.

Q You had a couple spare magazines on your belt?

A Correct.

Q That had 12 each?

A Correct.

Q Did you carry a taser?

A No.

Q Why not?

A I normally don't carry a taser. We only have a select amount. Usually there is one available, but I usually elect not to carry one. It is not the most comfortable thing. They are very large, I don't have a lot of room in the front for it to be positioned.

Q Had you been trained on how to use a taser?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.
Q Have you ever used a taser before?
A I believe I have, but it wasn't one that I carried. It was one that I used from someone else on a scene. I can't remember the time or where I used it.
Q You prefer not to have a taser?
A Correct.
Q So that day you had mace, you said, on your left side?
A Correct.
Q All right. You are coming west, is it on Canfield Drive?
A Yes, I started out on Glenark and then I turn onto Bahama and then onto Glen Owen, and then I turned on Windward, which actually turns into Canfield Green and that's where I was going west on that.
Q West on Canfield Drive?
A Yes, ma'am.
Q Okay. We are going to get a map here shortly so you can kind of map it out for us.
So as you are going west on Canfield Drive, what happens?
A As I was going west on Canfield, I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

observed two men in the middle of the street, they are walking along the double yellow line single file order.

Q Okay. And you say something to them, did they say something to you first?

A No, you want me to just go with the whole thing?

Q Sure, go ahead, let's start there.

A I see them walking down the middle of the street. And first thing that struck me was they're walking in the middle of the street. I had already seen a couple cars trying to pass, but they couldn't have traffic normal because they were in the middle, so one had to stop to let the car go around and then another car would come. And the next thing I noticed was the size of the individuals because either the first one was really small or the second one was really big.

And just for the conversation, I didn't know this then, but the first one's name was Dorian Johnson, the second one was Michael Brown. That was discovered, I think, the following day is when I learned the names. I had never seen them before.

And then the next thing I notice was

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

that Brown had bright yellow socks on that had green marijuana leaves as a pattern on them. They were the taller socks that go halfway up your shin.

As I approached them, I stopped a couple feet in front of Johnson as they are walking towards me, I am going towards them. And I allowed him to keep walking towards my window, which was down. As Johnson came around my driver's side mirror I said, "why don't you guys walk on the sidewalk." He kept walking, as he is walking he said, "we are almost to our destination."

Q Do you think he used those words destination, we are almost to our destination?

A Yes, ma'am. He said we are almost to our destination and he pointed this direction over my vehicle. So like in a northeasternly (sic) direction. And as he did that, he kept walking and Brown was starting to come around the mirror and as he came around the mirror I said, "well, what's wrong with the sidewalk." Brown then replied, um, it has vulgar language.

Q You can say it, say it.

A Brown then replied, "fuck what you have to say." And when he said that, it drew my attention totally to Brown. It was a very unusual and not

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

expected response from a simple request.

When I start looking at Brown, first thing I notice is in his right hand, his hand is full of Cigarillos. And that's when it clicked for me because I now saw the Cigarillos, I looked in my mirror, I did a doublecheck that Johnson was wearing a black shirt, these are the two from the stealing.

And they kept walking, as I said, they never once stopped, never got on the sidewalk, they stayed in the middle of the road.

So I got on my radio and Frank 21 is my call sign that day, I said Frank 21 I'm on Canfield with two, send me another car.

I then placed my car in reverse and backed up and I backed up just past them and then angled my vehicle, the back of my vehicle to kind of cut them off kind to keep them somewhat contained.

As I did that, I go to open the door and I say, hey, come here for a minute to Brown. As I'm opening the door he turns, faces me, looks at me and says, "what the fuck are you going to do about it", and shuts my door, slammed it shut. I haven't even got it open enough to get my leg out, it was only a few inches.

I then looked at him and told him to

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

get back and he was just staring at me, almost like to intimidate me or to overpower me. The intense face he had was just not what I expected from any of this.

I then opened my door again and used my door to push him backwards, and while I'm doing that I tell him to, "get the fuck back", and then I use my door to push him.

Q You tell him to, "get the fuck back"?

A Yes.

Q Okay.

A He then grabs my door again and shuts my door. At that time is when I saw him coming into my vehicle. His head was higher than the top of my car. And I see him ducking and as he is ducking, his hands are up and he is coming in my vehicle.

I had shielded myself in this type of manner and kind of looked away, so I don't remember seeing him come at me, but I was hit right here in the side of the face with a fist. I don't think it was a full-on swing, I think it was a full-on swing, but not a full shot. I think my arm deflected some of it, but there was still a significant amount of contact that was made to my face.

Q Now, he was hitting you with what hand?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A I believe it was his right, just judging by how we were situated.

Q Right.

A But like I said, I had turned away, had my eyes, I was shielding myself.

Q Where did you see the Cigarillos at?

A They were in his right hand.

Q Okay. Were there any broken Cigarillos or anything in your car later?

A No, I don't remember seeing anything on the ground or anything.

Q Okay.

A After he hit me then, it stopped for a second. He kind of like, I remember getting hit and he kind of like grabbed and pulled, and then it stopped. When I looked up, if this is my car door, I'm sitting here facing that way, he's here. He turns like this and now the Cigarillos I see in his left hand. He's going like this and he says, "hey man, hold these."

Q So you start out with Cigarillos in his right hand?

A Correct.

Q At this point they are in his left hand?

A Correct.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q He didn't have like two hands of Cigarillos?

A No, I only saw them in one hand.

Q You only saw them in one, okay, go ahead.

A And he reaches back and he says, "hey man, hold these." I'm assuming to Johnson, but I couldn't see Johnson from my line of sight.

Q But you could tell he was giving Johnson Cigarillos?

A Yes, I saw them in his hand go around.

Q All right.

A And he said, "hey man, hold these." And at that point I tried to hold his right arm because it was like this at my car. This is my car window. I tried to hold his right arm and use my left hand to get out to have some type of control and not be trapped in my car any more. And when I grabbed him, the only way I can describe it is I felt like a five-year-old holding onto Hulk Hogan.

Q Holding onto a what?

A Hulk Hogan, that's just how big he felt and how small I felt just from grasping his arm.

And as I'm trying to open the door is when, and I can't really get it open because he is standing only maybe 6 inches from my door, but as I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was trying to pull the handle, I see his hand coming back around like this and he hit me with this part of his right here, just a full swing all the way back around and hit me right here. (indicating)

After he did that, next thing I remember is how do I get this guy away from me. What do I do not to get beaten inside my car.

I remember having my hands up and I thought to myself, you know, what do I do.

I considered using my mace, however, I wasn't willing to sacrifice my left hand, which is blocking my face to go for it. I couldn't reach around on my right to get it and if I would have gotten it out, the chances of it being effective were slim to none. His hands were in front of his face, it would have blocked the mace from hitting him in the face and if any of that got on me, I know what it does to me and I would have been out of the game. I wear contacts, if that touches any part of my eyes, then I can't see at all.

Like I said, I don't carry a taser, I considered my asp, but to get that out since I kind of sit on it, I usually have to lean forward and pull myself forward to the steering wheel to get it out. Again, I wasn't willing to let go of the one

Electronically signed b eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

defense I had against being hit. The whole time, I can't tell you if he was swinging at me or grabbing me or pushing me or what, but there was just stuff going on and I was looking down figuring out what to do.

Also, when I was grabbing my asp, I knew if I did even get it out, I'm not going to be able to expand it inside the car or am I going to be able to make a swing that will be effective in any manner.

Next I considered my flashlight. I keep that on the passenger side of the car. I wasn't going to, again, reach over like this to grab it and then even if I did grab it, would it even be effective. We are so close and confined.

So the only other option I thought I had was my gun. I drew my gun, I turned. It is kind of hard to describe it, I turn and I go like this. He is standing here. I said, "get back or I'm going to shoot you."

He immediately grabs my gun and says, "you are too much of a pussy to shoot me." The way he grabbed it, do you have a picture?

Q I do have some pictures of your gun. Well, you can tell us if it is your gun, I believe

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

it is.

A My gun was basically pointed this way. I'm in my car, he's here, it is pointed this way, but he grabs it with his right hand, not his left, he grabs with his right one and he twists it and then he digs it down into my hip. (indicating)

MS. WHIRLEY: Kathi, can you do the computer? I'm going to let you see these photos from Grand Jury Exhibit Number 10, and there's some numbers on the back of these photos just so we can keep track of what you are looking at. And I'm going to announce what they are and then I will let you tell us a little bit about them, okay?

A All right.

Q Let me just get my glasses. These are Grand Jury Exhibit Number 10, but the photo that I'm showing you is 60, 66, 63, so they're not in order and then 69, so if you could look at all of those photos. And tell me if that represents what you know to be your weapon and your ammunition?

A Yes, it does.

Q Let me see if we can get this, let me try to get this started. We'll talk a little bit about while we're working on that. So those are photos of your weapons; is that correct?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes, ma'am.

Q And would those photos help you to sort of explain or to explain to the grand jurors what took place regarding the struggle with your weapon that you were trying to describe to us?

A I think this would be the most helpful.

Q Okay. And we are going to put it on the projector as soon as we can and have you, you know, tell us what's going on.

I have a few other questions while we are waiting on that. So during the time that he's, you said Michael Brown is striking you in the face through the car door?

A Right.

Q And it was your opinion that you needed to pull out your weapon because why did you feel that way, I don't want to put words in your mouth?

A I felt that another one of those punches in my face could knock me out or worse. I mean it was, he's obviously bigger than I was and stronger and the, I've already taken two to the face and I didn't think I would, the third one could be fatal if he hit me right.

Q You thought he could hit you and it would be a fatal injury?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Or at least unconscious and then who knows what would happen to me after that.

Q There you go, thank you, Kathi.

You had not ever met Michael Brown or Dorian Johnson before this date?

A No, ma'am.

Q Never had any interaction with them at all?

A No, ma'am.

Q Okay. So this is Number 60. Why don't you come over here, Darren Wilson, and kind of tell us.

A If you picture that --

Q You can do it from there?

A I can probably show with my hands.

Q You want to use this to kind of?

A No, I'll just do it with my hands. If that's pointed at me, I'm holding that like this. So it is pointed at, I would be Brown, he grabbed with his hand over the top like this manner and then twisted it down like this. And when it twisted, it ended up being like this in my hip. That's all I needed that for. (indicating)

Q That's all you needed?

A Yeah, just so I can show them how it

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

twisted and went down into my hip.

Q Okay. Since we have the projector up, let's look at some of the photographs because you did go to the doctor or to the hospital; is that right?

A Yes, ma'am.

Q And you mentioned being struck in the face before you pulled your weapon?

A Yes, ma'am.

Q So let's just look at those before we move on since we are here. These are also from State's Exhibit Number, Grand Jury Exhibit Number 10.

If you could look at these photos, you do know those to be you, correct?

A Yes, ma'am.

Q All right. So you give me that one, I guess I'm going to let Kathi maybe help me here. This is photo number six. And that's you?

A Correct.

Q Is that you at the hospital on August the 9th?

A Yes, ma'am.

Q And why did you go to the hospital?

A For my face being swollen.

Q Was there any other injuries that you had

Electronically signed b eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

other than your face?

A They had discovered there that I had scratches on the back of my neck.

Q Okay. Anything else, tell us about your injuries?

A I had a swollen right cheek, my left they said was swollen, I had scratches around my hairline in the back and I think on the side of my neck, but that's all that I remember.

Q Any injuries to your hand?

A No.

Q Okay, let's see. Show me which one of those photos duplicates the injury to your face?

A That one you can see the right side of my face swollen pretty good.

Q Okay. And this is Number 12?

A That one looks like it has bruising and swelling on it.

Q Where is the swelling to your face on that one?

A It was on my right side, that was the main injury.

Q Point to it for us?

MS. ALIZADEH: Here, if you want to use the laser pointer, hopefully it will work.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Right in this area. (indicating)
Q (By Ms. Whirley) That's the swelling to your face?
A Yes, ma'am.
Q Okay. And this is Number 30 and you said this depicts the swelling too?
A I think it shows the bruising on the side of my face.
Q The bruising on the side of your face. And kind of show us where you see the bruising?
A This area right here. (indicating)
MS. WHIRLEY: Yes.
: . Can we pass those around?
MS. ALIZADEH: I'm going to, yeah, I'm going to.
A That was kind of the same.
Q (By Ms. Whirley) Okay. This is number 24?
MS. ALIZADEH: Wait a minute, there is two.
MS. WHIRLEY: 24 is what I'm trying to look at.
MS. ALIZADEH: This is 27.
MS. WHIRLEY: This is 24. Now, what are we looking at there?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A That's the left side of my face.

Q (By Ms. Whirley) So you had, describe what we are looking at?

A I can't really tell from that.

Q Okay.

A I can't see from this angle.

Q Let me let you look at it again.

A I think there was swelling to my face in that area too. I never saw my face after, this is the first I've seen.

Q Does it look like swelling? You know your face better than we do, does that look like swelling?

A I can't tell with that angle with the ruler.

Q You can't tell on that one? What about this one?

A That one I can tell from down by my, down in this area looks swollen to me.

Q Okay. And this is Number 27. Were there any other photos that you think kind of show your injuries?

A This one you can see the scratches in that area.

Q Okay.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Here is a close-up of it.

Q This is Number 33 and you say you can see scratches on the back of your neck?

A Right in here. (indicating)

Q Okay.

A This is just showing the red marks on my face on this one, on my neck on that one.

Q Okay. This is Number 54. And you can kind of point to where the red marks are on your neck?

A It is hard to see on that. It is in this area right there. (indicating)

Q Okay.

A Most of those are the same.

Q Okay. Any more of those you want us to see?

A It is hard to tell from the pictures and that angle. I think the best one was looking straight forward at me.

Q Okay. And they've already got those. All right, thank you.

All right. So you suffered the injury to your face and you showed us where the gun was grabbed and at the time when there is a struggle for the gun, take us from there.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He grabs my gun, says, "you are too much of a pussy to shoot me." The gun goes down into my hip and at that point I thought I was getting shot. I can feel his fingers try to get inside the trigger guard with my finger and I distinctly remember envisioning a bullet going into my leg. I thought that was the next step.

Q I'm going to stand back so you can talk a little louder.

A As I'm looking at it, I'm not paying attention to him, all I can focus on is just this gun in my leg.

I was able to kind of shift slightly like this and then push it down, because he is pushing down like to keep it pinned on my leg. So when I slid, I let him use his momentum to push it down and it was kind of pointed to where the seat buckle would attach on the floorboard on the side of my car.

Next thing I remember putting my left hand on it like this, putting my elbow into the back of my seat and just pushing with all I could forward.

Q Were you saying anything?

A I don't know.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q You don't know if he was saying either?

A I heard stuff, but I couldn't tell you what it was.

Q Okay.

A Like I said, I was just so focused on getting the gun out of me. When I did get it up to this point, he is still holding onto it and I pulled the trigger and nothing happens, it just clicked. I pull it again, it just clicked again.

At this point I'm like why isn't this working, this guy is going to kill me if he gets ahold of this gun. I pulled it a third time, it goes off. When it went off, it shot through my door panel and my window was down and glass flew out of my door panel. I think that kind of startled him and me at the same time.

When I see the glass come up, it comes, a chunk about that big comes across my right hand and then I notice I have blood on the back of my hand.

After seeing the blood on my hand, I looked at him and he was, this is my car door, he was here and he kind of stepped back and went like this.

And then after he did that, he looked

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

up at me and had the most intense aggressive face. The only way I can describe it, it looks like a demon, that's how angry he looked. He comes back towards me again with his hands up.

At that point I just went like this, I tried to pull the trigger again, click, nothing happened.

Q When you say he came back up to you with his hands up, describe to us what he is doing?

A Last thing I saw was this coming at me.

Q Was it a fist?

A I just saw his hands up, I don't know if they were closed yet, on the way to going closed, I saw this and that face coming at me again, and I just went like this and I shielded my face.

Q And you did what?

A Went like this and shielded my face.

Q Did he hit you at that time?

A Yes.

Q Okay. Go ahead.

A So I pulled the trigger, it just clicks that time. Without even looking, I just grab the top of my gun, the slide and I racked it, and I put my, still not looking just holding my hand up, I pulled the trigger again, it goes off. When I look

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

back after that --

Q So how many times does it go off in the car?

A It went off twice in the car. Pull, click, click, went off, click, went off. So twice in the car.

Q Are you certain?

A Yes.

Q Okay.

A When I look up after that, I see him start to run and I see a cloud of dust behind him. I then get out of my car. As I'm getting out of the car I tell dispatch, "shots fired, send me more cars."

We start running, kind of the same direction that Johnson had pointed. Across the street like a diagonal towards this, kind of like where the parking lot came in for Copper Creek Court and Canfield, right at that intersection. And there is a light pole right there, I remember him running towards the light pole.

We pass two cars that were behind my police car while we were running. I think the second one was Pontiac Grand Am, a green one. I don't know if it was a two door or four door, I just remember seeing a Pontiac green Grand Am.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

When I passed the second one, about that same time he stopped running and he is at that light pole. So when he stopped, I stopped. And then he starts to turn around, I tell him to get on the ground, get on the ground.

He turns, and when he looked at me, he made like a grunting, like aggravated sound and he starts, he turns and he's coming back towards me. His first step is coming towards me, he kind of does like a stutter step to start running. When he does that, his left hand goes in a fist and goes to his side, his right one goes under his shirt in his waistband and he starts running at me.

Q You say under his shirt?

A Yes.

Q Was he wearing a shirt that was longer than his waistband?

A Yes, ma'am.

Q So he goes up under the shirt?

A Yes.

Q Okay. Go ahead.

A That was all done, like I said, the first step, his first stride coming back towards me.

As he is coming towards me, I tell, keep telling him to get on the ground, he doesn't.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I shoot a series of shots. I don't know how many I shot, I just know I shot it.

I know I missed a couple, I don't know how many, but I know I hit him at least once because I saw his body kind of jerk or flenched.

I remember having tunnel vision on his right hand, that's all, I'm just focusing on that hand when I was shooting.

Well, after the last shot my tunnel vision kind of opened up. I remember seeing the smoke from the gun and I kind of looked at him and he's still coming at me, he hadn't slowed down.

At this point I start backpedaling and again, I tell him get on the ground, get on the ground, he doesn't. I shoot another round of shots. Again, I don't recall how many it was or if I hit him every time. I know at least once because he flinched again.

At this point it looked like he was almost bulking up to run through the shots, like it was making him mad that I'm shooting at him.

And the face that he had was looking straight through me, like I wasn't even there, I wasn't even anything in his way.

Well, he keeps coming at me after

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

that again, during the pause I tell him to get on the ground, get on the ground, he still keeps coming at me, gets about 8 to 10 feet away. At this point I'm backing up pretty rapidly, I'm backpedaling pretty good because I know if he reaches me, he'll kill me.

And he had started to lean forward as he got that close, like he was going to just tackle me, just go right through me.

Q Can you demonstrate for us how he was leaning forward?

A His hand was in a fist at his side, this one is in his waistband under his shirt, and he was like this. Just coming straight at me like he was going to run right through me. And when he gets about that 8 to 10 feet away, I look down, I remember looking at my sites and firing, all I see is his head and that's what I shot.

I don't know how many, I know at least once because I saw the last one go into him. And then when it went into him, the demeanor on his face went blank, the aggression was gone, it was gone, I mean, I knew he stopped, the threat was stopped.

When he fell, he fell on his face.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

And I remember his feet coming up, like he had so much momentum carrying him forward that when he fell, his feet kind of came up a little bit and then they rested.

At that point I got back on the radio and said, "send me a supervisor and every car you got."

Q Okay. So when the shots were first fired in your car, you said you believe you fired two shots in the car?

A Yes, two actually went off in the car.

Q Two went off in the car. And at this point, the second shot, is that when he ran?

A After the second shot, yes.

Q After the second shot. Are you still in the car?

A When he starts to run?

Q Yes.

A Yes, ma'am.

Q Okay. Do you, at that time, do you say shots fired?

A As I'm exiting the car to chase him, yes.

Q Did you know that radio dispatch did not go out?

A No, I didn't find out until later while I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

was actually driving back to the station that my portable radio was on channel 3 and our main channel was channel 1.

Q So nobody heard you say shots fired to your knowledge?

A To my knowledge.

Q Okay.

A They did ask me why my radio for the car was laying on the floorboard, asked me if I used that. I don't remember using that radio. I, for some reason, remember using this one. It could have been sitting in my lap, there is also that chance that I used that one. I don't know which one that I used.

MS. ALIZADEH: I'm sorry, when you say your radio, you mean the mike --

A The mike, yes, ma'am.

MS. ALIZADEH: -- for the radio? The radio is attached to the dash, correct?

A Yes, it is in the center console. So the mike was probably in my lap at some point.

MS. ALIZADEH: The mike, okay.

Q (By Ms. Whirley) All right. So you're in the car, you fire two shots and he's running and you get out of the car to chase after him and tell us

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

your rationale, what you are thinking now?

A When I'm chasing him?

Q Yes. You get out of the car and run after him.

A My main goal was to keep eyes on him and just to keep him contained until I had people coming there. I knew I had already called for backup and I knew they were already in the area for the stealing that was originally reported. So I thought if I can buy 30 seconds of time, that was my original goal when I tried to get him to come to the car. If I could buy 30 seconds of time, someone else will be here, we can make the arrest, nothing happens, we are all good. And it didn't happen that way.

So when he ran, you know, just stay with him, someone is going to be here, you know, we'll get him.

Q And when you, when the second shot was fired inside the car, did you think he was hit at all?

A No, I thought I missed.

Q Both shots. You didn't see any blood on him?

A The first shot, judging by his reaction, he went back, I thought it went through the door and

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

hit him in the leg, in the hip, is what I thought.

Q Okay.

A The second one I saw the cloud of dust and him running, I knew I missed.

Q Okay. So you got out of the car, you are running, you are telling him to stop; is that right?

A Correct.

Q And he's not listening?

A No, not until he gets to that light pole and that's when he stopped.

Q To what now?

A He gets to that light pole at that intersection.

Q Are you firing at him while he's running?

A No, ma'am.

Q Is Dorian Johnson anywhere around?

A I never saw him after the very beginning. Once he walked past my car, I never saw him again.

Q Okay. All right. And at some point you say Michael Brown does turn around?

A Yes, ma'am.

Q Any idea what happened to make him turn around or he just all of the sudden turns around?

A No, just turns around. His whole reaction to the whole thing was something I've never seen.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I've never seen that much aggression so quickly from a simple request to just walk on the sidewalk.

Q Okay. Because you never did talk to him about the Cigarillos or the stealing at the Ferguson Market?

A No, I never had the chance to.

Q All right. You said when he's coming back at you with his hand, right hand in his waistband and kind of charging, that's when you fired the last shots?

A Yes, ma'am.

Q And he went down?

A Yes, ma'am.

Q Did you think he was dead at that point?

A Yes, I did.

Q What did you do after that when he goes down?

A After that is when I got back on the radio and I said, "send me a supervisor and every car you have."

Seconds later, I don't know how many seconds later, is when Officer followed by Officer arrived. And I believe they were the ones that were assigned to the stealing call originally. walked up to me and said,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Darren, what do you need.

MS. ALIZADEH: Said what?

A Darren, what do you need. I don't remember what my reply was and he said, did you call for an ambulance. I said I haven't, will you. I remember him calling twice, like he was about from me to you away on the radio calling.

And then I look across and was starting to tape off the area, but I notice that all of our cars are parked this way, Brown is laying here, there is nothing on this side. I told to move his car to this side to block that side of the street off. He did that and then he resumed taping.

After that I walked to my car and I put my gun up, I start walking away from the scene. As I'm walking away, I walk back to my car and I don't know if the door was open or shut, I think it was shut. I open the door, I reach in, I turn my car off, shut the door. At that time my sergeant pulled up and I walked over to him.

Q (By Ms. Whirley) This is Sergeant ?

A Yes, ma'am.

Q Okay.

A I don't remember what started the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

conversation, he said something first, but I said I have to tell you what happened. And he goes, what happened.

I said, I had to kill him.

He goes, you what?

I said, he grabbed my gun, I shot him, I killed him.

He goes, go sit in the car.

I said, I cannot sit in the car.

I remember him saying, Darren, sit in the car.

I said, Sarge, I can't be singled out. It is already getting hostile, I can't be singled out in the car. I will leave if you want me to leave.

He said, take my car and leave. So I got in his car and I drove to the police station.

Q In your mind him grabbing the gun is what made the difference where you felt you had to use a weapon to stop him?

A Yes. Once he was hitting me in the face, that enough, was in my mind to authorize the use of force.

Q Okay. So if he would not have grabbed your gun while he was hitting you in the face,

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

everything was the same, but he would not have grabbed the gun, you still would have used deadly force?

A My gun was already being presented as a deadly force option while he was hitting me in the face.

Q Okay, all right. So then you go to the station?

A Yes.

Q And what happens, you go alone?

A Yes.

Q And before you leave for the station, there is a crowd developing, right?

A Correct.

Q And do you hear what the crowd is saying? I know you are in a pretty stressful situation, but do you understand or hearing anything that they're saying?

A I hear yelling, I hear screaming, as I'm walking back to my car, a white Ford truck pulled up and I remember her saying is that so and so? It was a female driver that got out. said, ma'am, we don't know. I heard her say, I think it is so and so, and then she screamed and that's all I heard.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I could hear other noises and screaming, but I couldn't hear.

Q Okay. We're going to go with you to the station in just a minute, but I wanted to ask you about your relationship with the residents in the Canfield Green Apartments.

A Uh-huh.

Q Did you guys have a volatile, well, how can I put this. Did you not really get along well with the folks that lived in that apartment, not you personally, I mean the police in general?

A It is an antipolice area for sure.

Q And when you say antipolice, tell me more?

A There's a lot of gangs that reside or associate with that area. There's a lot of violence in that area, there's a lot of gun activity, drug activity, it is just not a very well-liked community. That community doesn't like the police.

Q Were you pretty much on high alert being in that community by yourself, especially when Michael Brown said, "fuck what you say," I think he said?

A Yes.

Q You were on pretty high alert at that point knowing the vicinity and the area that you're

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

in?

A Yes, that's not an area where you can take anything really lightly. Like I said, it is a hostile environment. There are good people over there, there really are, but I mean there is an influx of gang activity in that area.

Q All right. So you're driving yourself back to Ferguson, what are you thinking on the drive back to Ferguson?

A I think I'm just kind of in shock of what just happened, I really didn't believe it because like I said, the whole thing started over will you just walk on the sidewalk and it developed into that in 45 seconds.

And that's the only other thing I remember thinking about is I heard the car radio going off and mine wasn't. That doesn't make sense. So I hit the scan button on mine thinking the scan button got messed up, I wasn't getting everything.

And I did that and it still, this one is going off and mine's not. So then I looked at it and I was on channel 3. I was like, I don't know what was heard or what wasn't heard.

Q And that's when you realized that you probably, nobody probably even heard your call for

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

help?

A Right. I know they heard the initial one because before I put it in reverse I used the car radio, the car mike, which is always on Ferguson channel, it never changes, but I don't know when this one was changed, if they even heard anything.

Q When you first went out on your call to Canfield Green, you said, I'm going out Frank 21?

A Frank 21.

Q I'm going out with two, send me a car?

A I said, "Frank 21, I'm on Canfield with two, send me another car."

Q It wasn't a stressful situation at that point?

A No, it wasn't, but I just had that gut feeling that someone else needed to be there and knowing that this guy just stole from the market because I saw the Cigarillos and had the black shirt, I felt that in order to affect the arrest, it would be better to have.

Q You asked for this other car before any words were exchanged, correct?

A No, he had already told me, "fuck what you have to say."

Q Before you asked for the car, when you

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

said I'm Frank 21, I'm at Canfield Green, send me a car. He had already said, "fuck what you have to say?"

A Yeah, he had already walked past by my car and said that.

Q Okay.

A That's when I saw the Cigarillos when he said that and he kept walking. Then I got on the radio and said, "send me another car."

Q You didn't tell the dispatcher that you were having a confrontation or that you had these guys who might be the suspects in the stealing?

A No.

Q You didn't say that to the dispatcher when you said send me a car?

A No, it was kind of said in a quicker way, just kind of hey, I want to get the information out, get a car started and once more develops, I can advise them of more.

Q But you never had a chance to do that?

A No, I didn't.

Q Okay. All right. So you drive back to Ferguson by yourself, you are at Ferguson, what do you do?

A I immediately go to the bathroom. On the

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

way back I found that I had blood on the inside of my left hand and I already know I had it on the back of my right hand. And just from everything we have always been taught about blood, you don't want it on you, you don't touch it, you don't come in contact with it.

And my original thought was that it was the glass had cut my wrist and cut my hand, which is why this hand was bleeding. And so thinking that I was cut with someone else's blood on me, I had to wash my hands.

So I go directly to the bathroom. I actually washed them, went to the bathroom and then I looked, like I still had it like in my cuticles and stuff, so I washed my hands again. After I washed my hands, I go to our roll call room.

Q Let me ask you this, was there a lot of blood?

A From like my finger tips to about here was blood.

Q Like dripping blood?

A No, just on the back of my hand, it wasn't liked wraparound like I dipped my hand in blood, but there was like blood on the back of my hand.

Q One of the grand jurors asked earlier, you

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

may know the answer to the question, was there blood left like in Sergeant s car after you got out of it?

A I don't know, I did call him and say, I don't know who is going to drive your car later, but I had blood on my hands. You might want to tell them to wipe down the steering wheel or just be cautious of it because I never went back and looked at the car.

Q I see. Okay, so go ahead, after you wash your hands?

A I then go down the hallway to the roll call room. Once in there, Officer was in there working on the computer.

Q Which officer,

A

Q Do you need that spelled? Spell that, please?

A .

Q And that's a officer?

A Yes.

Q And that's a friend of yours?

A Yeah, .

Q Okay. So there at the station?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.

Q Okay. Go ahead.

A I come in, looks at me said, you know, what happened. And I said, I just had to shoot somebody.

And was kind of in shock and had had, the computer was working on in front of the one next to had, what we call the CADament screen, it just shows the status of all the cars where they're at. Well, on that one it is showing all the Ferguson cars out on Canfield.

goes, I was really hoping you weren't involved in that, you know, because any time every car is involved, you really don't know what is going to happen, who is going to get hurt.

Q What was doing, what was duty that day?

A was working for court, was doing paperwork, entering warrants for them.

Q So wasn't working the radio or dispatch or anything like that?

A No.

Q And didn't know what had happened?

A No.

Q just knew a lot of cars were going

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

there?

A just saw the cars, didn't even know what the call was. I think they had it as a disturbance, so didn't even know what it was.

Q Okay.

A I go in there, I asked to go get me a pair of gloves. goes gets me a pair of gloves, comes back, put the gloves on. I grab an evidence envelope, take my gun out of the holster, make it safe. I lock the slide back, take the magazine out, take the one round that's left in it out. I put it all in that bag, seal it with evidence tape and then sign it.

Q And you handled your gun at that time with gloves on?

A Correct.

Q And why did you do that?

A To preserve any evidence on there, I knew his DNA was on that gun.

Q How did you know his DNA was on the gun?

A When I first took it out, without even looking at it, I knew that he had fingerprints on it and possibly even sweat from, it was warmer that day so, and he could have sweat on it. When I took it out, I also saw blood on it.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q You saw blood?
A Yes.
Q And that could have been from when you shot him?
A Yes.
Q Okay. Is it procedure for you to make your gun safe in a shooting like this or should someone else do that?
A I don't really know.
Q Because that never happened to you before?
A Correct.
Q And you never investigated this type of crime?
A No, I have not.
Q Not crime, but situation before?
A Correct.
Q Okay. All right. So you made, but you knew how to make the gun safe and put it in an evidence envelope based on your training and experience?
A Yes, I was just trying to preserve all the evidence I could on the weapon. And I knew if I put it in an evidence envelope and sealed it, that it would have no other contact with anybody and it could be as preserved as you could get.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Okay. All right. And then what?

A I sat down and called for my attorney, who represents police for the union. He said he would be on his way.

Officer came in, he gave me the card for the application for the Fraternal Order of Police. I said, I already called them.

He said, would you like to tell me what happened so I can tell the media? I said, no, I don't want to talk right now.

Lieutenant came in, he's actually my lieutenant who was off that day. He came in and said, has anybody told you what's happening? I said, I don't really know anything that's going on there. I left the scene pretty much right after.

He said St. Louis County is investigating. I said okay, and then he left.

And then right after he left, Ferguson Fire Department and EMS from Christian Northeast Hospital showed up. They stayed about this far away, they didn't actually come in the room.

And they asked what happened?

I said, I was hit in the face

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

multiple times.

They asked where?

I pointed this side, that side.

They asked if I lost consciousness?

I said, no.

My vision was blurry?

I said, no.

Asked if I needed to go to the hospital?

I said, no, not right now.

So is there anything else we can do for you?

I said, no, not right now, and then they left.

About 20 minutes later is when my attorney, showed up and we talked for about 10 or 15 minutes.

My assistant chief showed up, he came in and he made the determination that we should go to the hospital, he could see the swelling on my face.

So he drove, before we left, Detective from St. Louis County arrived, informed us he would be investigating the case and kind of gave us the rundown of what to expect. And

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

then he agrees with going to the hospital.

So my assistant chief drove me and to the hospital and Detective followed.

Q Okay. And those photos that we looked at a minute ago were you at the hospital, correct?

A Yes, ma'am.

Q And then what happened after that?

A At the hospital we did the interview. And when I went to the hospital, I didn't wear my uniform shirt, I took that off and my vest off, left it at the station, left my duty belt at the station.

Q Did someone tell you to do that?

A Yeah, and I felt more comfortable too because I obviously can't wear my gun, and I don't want to be in uniform after all of this without it.

So I took the shirt off, just my undershirt, my pants, my boots, go to the hospital. While waiting to be treated in the waiting room, not in the waiting room, in the actual hospital room, Detective began his interview and then stopped as needed for nurses, whoever came in. They took x-rays, prescribed me a painkiller for the face injuries.

St. Louis County's evidence technician arrived, he photographed everything. I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

don't know who it is, but he came from whoever the department uses for drug tests, they gave me the drug tests. And then after that, I think he left and then the assistant chief drove me and back to the station.

He had already made a phone call, the assistant chief did to have Officer get a change of clothes for me, so they were going to take my clothes. They had blood on my left hip area.

So when I get back I change, St. Louis County took my pants, shirt, they already had my weapon, and then that was it, I went home for the day.

Q Okay. You have been on administrative leave since then?

A Correct.

Q Okay. In your, well, first of all, you have been a police officer for how long?

A Five years.

Q Five years. You started out with Jennings?

A Correct.

Q Why did you leave Jennings?

A Whenever Jennings was disbanded, I wasn't

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

officered a position by St. Louis County.

Q Did you apply for a position?

A Yes, I did. I just wasn't one of the ones selected.

Q All right. So you went to Ferguson?

A Correct.

Q Those are the only two departments you have been?

A I actually worked for Pine Lawn for about eight hours.

Q Eight hours?

A Yes.

Q Okay. Did you leave voluntarily?

A Yes, I did.

Q After eight hours?

A Yes.

Q Any other incidents where you have been involved where you had to use excessive force?

A I've never used my weapon before.

Q Not excessive force, where you have had to use force to affect an arrest?

A I've used my asp before, I have used my flashlight before and I have used OC spray before.

Q Okay. And in those incidents though, no one was injured?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A No.

Q Okay. All right.

MS. WHIRLEY: Anyone else have questions? I have a few more, but if you have something.

Yes,

: . I just, hopeful you don't take any offense, I just have a question. You worked for Pine Lawn for eight hours, Jennings, you worked for Ferguson?

A Correct.

Have you always worked in predominantly African-American neighborhoods?

A Yes, I have.

You have.

A Yes.

: No problem until this time?

A Correct.

: Okay.

: . I want to go back to when Sergeant arrived there. You told him that you had to kill him. Was that the extent of your conversation or did you tell him sort of like you are telling us play by play what happened?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A No, it was very brief and he was more focused with the scene than he was, I guess, with me at the moment because like I said, the crowd, it was not a good area. He had made, I had made those comments to him and his reaction was go sit down.

. If you would go back to the contact in the car, after you had put it in reverse and reengaged to have a conversation, and Michael Brown reached into the car with his right hand and you said at a certain point that you looked in the mirror to see Dorian Johnson because that's how you recognized him with his black shirt?

A I did that before the car was placed in reverse.

Oh, before, okay.

A Yes.

: Go over that again with me, which mirror were you looking at?

A My driver's side mirror on the outside of the car.

: Okay.

A Whenever they walked me and I saw the Cigarillos. I'd already saw that Dorian Johnson had on a black shirt, but just to double-check myself to match up with what I heard Cigarillos had been

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

stolen and a suspect wearing a black shirt, I looked to make sure the shirt was black.

: Okay.

A And then I called out for the assist car and then placed it in reverse and backed up to him.

: Thank you.

A You're welcome.

MS. ALIZADEH: Officer Wilson, I have a few questions.

Q (By Ms. Alizadeh) Prior to today, at any time after this incident have you seen any reports of any kind, medical examiner's reports, police reports, hospital reports, anything of that nature?

A The only report I've seen was the one released on the news about the initial stealing.

Q Okay. So that is the Ferguson report that was filed in relation to the theft of the Cigarillos?

A Correct.

Q And when you, the vehicle that you were in, I'm guessing that is not equipped with any cameras or mikes?

A No, it is not.

Q To record what was going on, correct?

A Correct.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q Any of the Ferguson officer's vehicles equipped with that type of equipment?

A No, ma'am.

Q You don't wear a body mike?

A No, ma'am.

Q Now, your duty holster that you've described or your duty belt has the holster attached to it, correct?

A Correct.

Q Is it the type of holster that there's a snap that goes over the gun that you have to unsnap before the gun is removed from the holster?

A No, it doesn't have the strap on the top, there is a button on the outside of it that you push as you are pulling up and it releases it.

Q Okay. And is that something that, I mean, as a police officer, you have to train at the firing range, is that fair to say?

A Yes, ma'am.

Q And is part of your training learning how to quickly get your gun out of your holster?

A Yes, ma'am.

Q When you called in and said you had two on Canfield or two out, I think you said?

A I said, "Frank 21, I'm on Canfield with

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

two, send me another car."

Q With two. And why didn't you say anything about asking again, what was that description of the two involved in the larceny, did you ask for any other details to insure in your own mind that maybe these, you know, were these the guys?

A No, because my initial focus was just to get the information out that I was there. Have the other car respond and then get to that. My whole goal was to just stall until someone got there.

Q Well, you've made previous statements about that, this incident, and one being initially to Sergeant

A Uh-huh.

Q Would you say that was kind of a brief, not a lot of detail statement, would that be fair to say?

A The one on scene?

Q On scene.

A Yeah, it was very brief.

Q And then you talked to , Detective ?

A Correct.

Q At the hospital. And that was a little more detailed, would that be fair to say?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.
Q You didn't say anything to about the Cigarillos, did you?
A Yes.
Q You believe you did?
A Yes, ma'am.
Q Did you tell that when you saw him with his left hand reaching back and he made the statement here, hold these or whatever, that you saw what was in his hand?
A I had saw the flash of them going back behind him.
Q So you didn't see at that point what was in his hand?
A I could see the red and white wrapper of a Cigarillo in his hand.
Q Okay. Just so I can be sure I'm understanding you, did you see that they were Cigarillos or did you assume they were Cigarillos?
A I assumed they were Cigarillos at that point. I saw that they were in his right hand before the contact was made.
Q But you didn't notice as his hand, his right hand comes in the vehicle, and initially contacts your face, you don't notice that he has

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

these packages or package with red and white wrappers, you don't see them as he is hitting you?

A No, because I had shielded myself and I believe I even closed my eyes.

Q Did you ever grab ahold, you said that you grabbed ahold of his right hand at some point?

A It was like his forearm, it was this area. (indicating)

Q His right forearm?

A Yes, ma'am.

Q And what were you doing when you grabbed ahold of his right forearm?

A Trying to move him and somewhat control him so I could get out of the car.

Q Were you ever pulling him to try to pull him into the vehicle?

A No, I was trying to open my car door with my left hand and then hold onto him as I did so.

Q So you've got your left hand, or what's holding his right hand?

A My right hand.

Q You are like this? (indicating)

A Yes.

Q And you are like this trying to open your door? (indicating)

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.
Q And this is before you've gone for your gun?
A Yes.
Q The first shot you've described pretty, I guess, in detail. I think I understand the first shot. The second shot you said you kind of weren't looking, I guess?
A Uh-huh.
Q Where was your gun pointed?
A His general direction.
Q Was your gun above the level of the door frame?
A I would say, yes. It had come up, it was not on my leg any more and my leg sits only that far away from the top of the window. So I remember doing it like this, having my gun up.
Q And you said you saw a little puff of dust or dirt that you assume was where a projectile might have landed in the dirt; is that correct?
A Yes, ma'am.
Q So your gun wasn't pointed like up in the air, would that be fair to say?
A Not that I'm aware of, correct.
Q Was your gun, if you had rolled up your

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

window, let's just say, was your gun totally inside the vehicle, partially out of the vehicle, or was your hand extended so that the gun was totally outside of your vehicle?

A I don't know for sure, but it was my right hand with it and I was like this. So I don't know where it could have gone.

Q And I was using my left hand, I guess, to demonstrate, you are right handed?

A Yes, ma'am.

Q And so you were across your body?

A Yes, ma'am.

Q And you said you had turned your face somewhat?

A Yes, ma'am.

Q And at that point Michael Brown is not right up on the vehicle, is that fair to say?

A No, this is when he is coming back at the vehicle. He is only about a foot away and then after the first shot hit him, he went down and kind of held his hip for a second and then he came back up and started to come back in the vehicle. And that's when I just went like this and I pulled the trigger.

Q Did you give him any kind of warning

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

before that second shot?

A I don't recall.

Q (By Ms. Whirley) You said you knew the area and you felt threatened in that area because there is violence and guns and everything, and that Michael Brown was being confrontational before the first blow, correct?

A Yes.

Q Is there any reason why you didn't wait in the car until your backup came?

A I thought I would be able to just stall until someone got there. I thought if I can get out of the car, I could maintain the distance that I need to maintain, they were close. I figure all I needed was 20 or 30 seconds and someone is going to be there.

Q Right. So why wouldn't you stay in the car?

A Because I had already been, my comfort zone is not to be sitting in the car talking to someone else. I wanted to be out of the car, that way if I need to run I can run.

Q You can run?

A If I was out and he started like chasing me or went to hit me, I could move.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q You are in a car, you are more mobile in a car than you are on foot, right?

A Right. But I also didn't want him to run away, so I need to kind of stay where I can keep him there, keep myself safe and wait for someone to get there.

MS. WHIRLEY: Okay.

Q (By Ms. Alizadeh) Now, Officer Wilson, I'm not trying get in your head, I mean, I guess we all are trying to get in your head at some point to know what you were thinking at the time, but, I mean, your initial confrontation or your initial contact with them, I mean, you didn't see any of them with weapons, correct?

A No.

Q And they weren't subjects that you knew to be armed and dangerous?

A No.

Q And you stop and encounter pedestrians probably almost on a daily basis when you are on patrol, would that be fair to say?

A Yes.

Q And so did you at that point have any reason to anticipate that this, that Michael Brown, the Michael Brown subject was going to provoke or

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

be, or assault you?

A No, not at that moment, no.

Q You described the first shot, was his right hand on the gun when the shot went off?

A I believe so.

Q And then the second shot, was his body in contact with you on the second shot?

A Probably not on the second one. I know when I first pulled the trigger it was, but it didn't shoot and then that's when I racked the gun and then shot again.

Q And you used both hands, you had to use both hands to rack the gun?

A Yes, ma'am.

Q Was he still trying to hit you when you went to rack the gun?

A I didn't look up.

Q Okay. So you said you did that without looking and then you just went like that?

A Yes.

Q Turned your face away and shot out the window?

A Yes.

Q In his general direction?

A Yes.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q And so you can't really say whether his hands were inside the car or outside the car at the time you actually fired the second time, the second shot?

A No, I can't tell you.

Q The blood on your pants, do you know how the blood got on your pants?

A No, I do not.

Q Do you recall, I mean, when you were done and you notice that you have, you said you had blood on your left palm?

A Uh-huh.

Q And on the back of your right hand?

A Uh-huh.

Q Did you wipe your palm on your pant leg because it is on your left pant leg, correct?

A Correct.

Q Did you wipe your hand on your pant leg to get the blood off your palm?

A Not that I remember. I didn't see the blood on my palm until I was driving back to the station.

Q Okay. So you don't recall if you wiped the blood on your pants?

A No, I don't know.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

Q And when you, at any time after you got back at the station, you went to the bathroom, was there a mirror in the bathroom?

A Yes.

Q Could you see any blood on your face?

A No, I don't remember seeing any on my face.

Q I would imagine that at some point in your training you have learned something about blood spatter and blood spray and so forth; is that right?

A It is kind of common knowledge, but no official training on how it works.

Q I know you are not an expert, but you know that can happen when you are in close range when someone is shot, correct?

A Yes.

Q That spray or spatter can get on you?

A Yes.

Q Did you ever see anything like that? Obviously, we have seized your clothing and what's on there is what's on there, but did you have any of that on your face or on your forearms or anything like that?

A I don't recall seeing it on my face. I remember looking, I don't remember washing my face.

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

I would say no, it was not on my face. When I washed my hands, I did wash up like halfway up my forearm just to make sure nothing was on me. I seen it on my hands and I just started washing.

Q You didn't wash your face then prior to going to the hospital?

A No.

Q Did anyone that you recall ever swab your face?

A The outside of my face?

Q Yes.

A Not that I -- no.

Q Did anyone swab the back of your hands?

A No.

MS. ALIZADEH: I don't have anything else.

: When Michael Brown, I guess, I guess at the point where I want to say it was the second shot, I know this is kind of after the fact. You said he stepped back a little bit and then he came back in on you?

A That was after the first shot.

After the first shot?

A Yes.

Did you ever think about, I know you said your vehicle was running, did you

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

ever just think about getting in that bad boy and drive?

A No, I didn't. My thought is, I was still dealing with a threat at my car. You know, we're trained not to run away from a threat, to deal with a threat and that is what I was doing. That never entered my mind to flee.

: Did you ever or do you recall grabbing Michael Brown by the throat?

A Never touched his throat.

: Shoulder?

A No. Only part of him I touched was his right forearm.

: . When Michael Brown was running from you, after the shots were fired within the car and they both just disappeared and you had Michael in focus, did you ever at any time fire with his back facing you?

A No, I did not.

: When you asked him to halt, and he turned around and he, you know, stopped running, at any point did you ever think that okay, maybe he don't have a gun, I need to stop shooting?

A When he was running towards me?

: Throughout the whole

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

process. You're in the car and someone, you're struggling, tugging back and forth, did you ever think that he had a gun right then and there, he could have used it at any time?

A I wasn't thinking about that at that time. I was thinking about defending myself whenever he was hitting me in the car.

MS. ALIZADEH:

: . So kind of going go on that as well. So the comment that you made to your supervisor Sergeant when he got there at the scene was that he went for my gun, I had to shoot him. I think that kind of goes along with that. Because I think when I hear someone say he went for my gun, if I literally take that comment, I would assume that someone literally went to your holster and tried to pull it out. Either unholstering it or literally taking it from you.

And in this instance that was not the case. You had already unholstered and you were aiming at him. He essentially in his, your point of view and the point of view of who we can no longer obtain that, he deflected or pushed it towards you, but he did not at any point try to pull it from your holster is, I guess, my question?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A He didn't pull it from my holster, but whenever it was visible to him, he then took complete control of it.

MS. ALIZADEH: I can't hear you, sorry.

A Whenever, he didn't pull it from my holster, but whenever it was displayed to him, he did take complete control. Because he had twisted it around so my hand was no longer this way, it was bent this way and it was dug into my hip. He had complete control of that weapon at that time.

Was your hand, I'm sorry, was your hand still on it and finger on the trigger?

A Yes, ma'am, or yes, sir.

: I wouldn't say he had complete control, I would say he had some control.

A He was controlling where it went, how it went there and his finger was in the process of going on the trigger with mine.

Okay.

A I could feel his fingertips on my trigger finger trying to get in the trigger guard.

Okay. When I just hear the word complete control, I think it is entirely in his possession and none of yours, that's the way I

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

feel is complete control.

A Okay.

MS. ALIZADEH: Anyone else have any other questions?

: . What's the chain of command at the Ferguson Police Department from chief down?

A Chief down would be chief, the assistant chief and then we have for the patrol side, I believe, our captain's next, the assistant chief just started a week before this happened. I don't know what was really ironed out between them two. After the captain, it is a lieutenant, sergeant, patrolman.

: I keep hearing this name, Lieutenant ?

A

MS. ALIZADEH:

:

A He is the assistant chief, lieutenant colonel.

Okay, thank you.

A You're welcome.

: One more question, When you got back to the police

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

department, after you washed off and everything, did you ever think at what time that I need to write a report while it is fresh on my mind?

A No. The protocol is whenever you are involved in a significant use of force, that you contact your FOP representative and then he will advise you of what to do step by step because they are the clear head in that situation. They have not been through a traumatic experience.

MS. ALIZADEH: And I guess to be fair about this, any time any law enforcement officer has asked to speak to you, you have willingly and voluntarily come in and been interviewed and answered all their questions, is that fair to say?

A Yes, ma'am.

MS. ALIZADEH: And you've never been back working at Ferguson Police Department since this happened, correct?

A No, I have not.

MS. ALIZADEH: Did you, I mean, for your own sake, did you like write down in a diary what happened, I mean, not a diary or I guess a grown man would call it a journal, but you know, have you ever like, did you afterwards, you know, write this out for your own, you know, therapeutic needs?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A My statement has been written for my attorney.

MS. ALIZADEH: Okay. And that's between you and your attorney then?

A Correct.

MS. ALIZADEH: Okay.

A The department has not asked me for anything.

MS. ALIZADEH: So no one has asked you to write out a statement.

A No, they haven't.

MS. ALIZADEH: You didn't just on your own decide I want to write this down while it is all fresh in my mind, you didn't do that yourself?

A No.

MS. ALIZADEH: This happens in the matter of how many minutes or seconds by the time that you saw them walking down the street until Michael Brown is dead in the street?

A I would say less than one minute.

MS. ALIZADEH: Less than one minute?

A Uh-huh.

MS. ALIZADEH: Now, you know, I know you've probably thought about this every day since it's happened, would that be fair to say?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A Yes.

MS. ALIZADEH: Replayed this in your mind over and over again?

A Yes.

MS. ALIZADEH: And do you think that after having really thought about this over time and basically you've had to tell this scenario a few times, do you think that if there are additional details that you may not give initially, do you think that's because you're just now remembering them because you are putting so much thought into what happened or do you think that is things that maybe you kind of imagined happened, but didn't really happen, you understand my question?

A Yeah, just from what I have been told about the incident originally, is that you are supposed to have 72 hours before you are actually officially interviewed, recorded statement and all of that. You tend to remember more through a couple sleep cycles then what you do as soon as it happens. It is a traumatic event, a lot of details kind of come as one detail. I mean, from what I understand, there hasn't been really anything significant that's changed.

MS. ALIZADEH: So you think that when you

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

were testifying today you said you kind of thought, had a thought process. As this chaotic scene is unfolding, do you recall actually in your mind processing this in the way you've described or is it all just reactionary?

A No, I remember actually, I picture a use of force triangle in my head when this first happened and I was going through the progression of what I could do as far as the use of force continuum is concerned.

MS. ALIZADEH: That is something you learned in the police academy then?

A Yes, ma'am.

MS. ALIZADEH: And you recall actually thinking that as this assault is occurring?

A Yes.

MS. WHIRLEY: At what point did the use of triangle --

MS. ALIZADEH: Use of force triangle.

MS. WHIRLEY: Use of force triangle come into your head, what was going on when you start seeing the triangle?

A Whenever I first start considering the spray, the taser.

MS. WHIRLEY: What was going on though?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A That was when I was being hit after the one to my face.

MS. WHIRLEY: So that was before you went for the weapon, or before you struggled over the weapon you started thinking about the use of force --

A Yes.

MS. WHIRLEY: -- triangle? At any point did Michael Brown raise his hands?

A No.

MS. WHIRLEY: No.

. Did you ever think while you were firing that you could have hit another innocent standbyer. (sic)

A When I originally fired the first time, when he turned around and I raised my weapon, I remember looking behind him and seeing nothing. I didn't see a car, I didn't see a person, there is nothing behind him. And after the first round of shots, I had tunnel vision on his hand. After that, when I refocused, I still don't remember ever seeing anybody behind him.

MS. WHIRLEY: .

Just a couple questions actually. The first one, we have heard a

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

lot of scenarios and witnesses involved and their timelines and activity. Anyway, we have heard a little bit about what you did that morning when you were on duty. The day before, typical shift, were you off that day?

A On Friday?

: On August 8th?

A I don't remember anything significant. I did work that day, but I don't remember anything significant.

: You said you did not work that day?

A I did work that day.

: Like 6:30 a.m. to 6:30 p.m. shift?

A Yes.

Get a good night's sleep?

A From what I remember, yes.

: Okay. 6 to 8 hours?

A Yes.

: Felt rested, ready to go the next day. Just had to ask, curious. And then following the actual incident, you are back in your supervisor's car driving back to Ferguson Police Department. How far is that roughly from the crime

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

scene, the police department?

A Mile and a half, 2 miles.

: So very short trip?

A Yeah.

And that was my thought too, but being in communication, I think, you know, in that situation, my first thought is to contact a loved one and say, I can't believe what just happened and that was my thought. If there was any sort of communication from that point moving forward on a personal cell phone or anything else?

A No.

: So none whatsoever until you saw the officer at the Ferguson Police Department?

A Yes.

: Thank you.

: . Last question.

MS. ALIZADEH: It just left your head.

: I have it. I'm trying to word it. Dorian, did you ever tell the police chief or any of the other officers that there was another person with him, did you ever try to look for Dorian?

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

A No, I haven't talked to the chief or anybody at the department in length about what happened. I told my sergeant what happened at that time, that was the end of our conversations with anybody from the department.

. This kind of dovetails with her questions about Dorian. I understand that you did an interview August 28th with FBI agent; is that correct?

A Yes.

Okay. At which time, I hope I'm getting this correct, I believe that there was, did they present to you a photo lineup of suspects or whatever?

A The Department of Justice did not.

: The Department of Justice did not, what about the FBI?

A No.

: No one did at that time.

MS. ALIZADEH: I think you might be thinking of the officer, Detective

Was that whose evidence?

MS. ALIZADEH: I believe so.

Okay. That would have

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

been on the date of, did they give you a photo lineup, Detective

A I think it was the 10th, I think is when I did the follow-up interview with , both detectives.

: , okay. And that would be right?

A Yes.

: Okay. And they gave you a photo lineup of, I think, eight characters or whatever?

A Yes.

Okay. And you were required or they asked you to pick out Dorian Johnson at that time?

A Yes.

Were you able to pick him out at that time?

A I selected who I believe was Dorian Johnson, they never confirmed if it was or not.

They never did, okay. You don't know the results of that?

A No, I do not.

Okay, thank you.

MS. ALIZADEH: Just to be clear, you're

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

not in any way, are you?

A No, I'm not.

MS. ALIZADEH: Prior to this incident, had you ever had any contact with any of the county detectives that you've met throughout this investigation?

A No, I have not.

Q Any of the agents, FBI agents or federal agents involved in their investigation?

A No, I have not.

You felt like your life was in jeopardy when you were sitting in the vehicle?

A Yes.

You felt like when you exited the vehicle and the interaction with Michael Brown, he was advancing towards you, you felt like your life was in jeopardy?

A Yes.

: And use of deadly force was justified at that point in your opinion?

A Yes.

MS. ALIZADEH: Sheila?

MS. WHIRLEY: I was just going, if we are sort of done with your questioning, is there

Electronically signed by eb3d11a0-0f9a-4c75-9984-a1a9b5b2fda5

something that we have not asked you that you want us to know or you think it is important for the jurors to consider regarding this incident?

A One thing you guys haven't asked that has been asked of me in other interviews is, was he a threat, was Michael Brown a threat when he was running away. People asked why would you chase him if he was running away now.

I had already called for assistance. If someone arrives and sees him running, another officer and goes around the back half of the apartment complexes and tries to stop him, what would stop him from doing what he just did to me to him or worse, knowing he has already done it to one cop. And that was, he still posed a threat, not only to me, to anybody else that confronted him.

MS. WHIRLEY: Any questions?

: . Along those lines, you feel like as a police officer it is your obligation to follow that suspect?

A Yes, sir.

MS. ALIZADEH: All right. If that's it then.

(End of the testimony of and the testimony for September 26, 2014.)

GRAND JURY HEARING

: On Officer Darren

Wilson's testimony he mentioned in the physical layout that Mr. Brown ran almost to a light pole before he turned around. Do we have a diagram with that light pole on it?

MS. ALIZADEH: I will have to look and see if it is included in the diagram. I'm sure there are pictures and videos that you will see, be able to see the light pole in those images and then if necessary, when we have a witness who is familiar with the scene, if need be, we could have them using our diagram, which has already been in evidence point out to you where the light pole exactly is.

: All right, very good.

MS. ALIZADEH: Good morning.

(All jurors say good morning.)

MS. ALIZADEH: This is Kathi Alizadeh with the prosecutor's office, present is Sheila Whirley with the prosecutor's office, all 12 grand jurors are present today, it is September 23rd, as well as the court reporter or the stenographer who is taking down what is being said. We are also recording, audio recording, that's happening in the grand jury right now.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

I wanted to make some preliminary remarks. Now is the, in the next couple of days and a few weeks, I suppose, we are going to be hearing testimony from some people say that they are eyewitnesses of parts of this incident. And many of them have already had, been interviewed, all of them have been interviewed by law enforcement at some point. And as far as I can think of, almost all of them have been recorded by law enforcement as far as their interviews.

As you know, we are recording, audio recording everything that's being said as well as taking down by court stenographer everything that is being said.

That is an extraordinary thing that in my experience, we've never done before. And, you know, the proceedings in the grand jury are historically, have been secret and people who appear before the grand jury are testifying in secret and it is usually not disclosed that they testified or what they said. But in the interest of the public's need to know that this investigation is thorough and fair, my boss, Robert McCulloch, has decided to do this extraordinary thing, which is to record everything. And if there is sometime down the road

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

if there is ever an issue as to whether or not this investigation was thorough and fair, we will have those recordings to show exactly what was done.

But as you can imagine, there are witnesses who are very uncomfortable who have information and are willing to come forward, but do not want their names disclosed on the record or where they live or, you know, their birthdate, any identifying information about them and that's understandable given what, you know, has happened in our community in the past month about, you know, the public's reaction to the incident and the investigation into this.

And so because our goal is to get as much information as possible so that you can decide the facts in this case, we have decided that witnesses who do not want their name or identifying information about them to be on the record, we are not going to put that on the record.

What we are going to do is when that witness comes forward, he will be sworn, he or she will be sworn, and then the court reporter will not activate the audio recording initially. That witness will then identify themselves to you by their name and where they live, although I told them

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

I'm not going to ask them for an address, mainly just south county, you know, I live in the Ferguson area, I live in north county, or what have you.

And then those witnesses will be referred to, once they've given that identifying information, then I will have the court reporter start the audio recording at that point. So their testimony will still be recorded and the court reporter will transcribe their testimony, but they will be referred to by myself and in the court reporters record by witness number.

Last night I made a list of every witness who has appeared before you so far and just for the sake of the record, we're just going to go chronologically with the live witnesses as they've testified.

So if you recall who was the investigator with the Medical Examiner's Office, he was witness number one. Number two was Detective

Number three was , although will have to come back because we had to cut him his testimony short, if you recall.

Number four was Dr. , the medical examiner. Number five, . Number six was Sergeant with the Ferguson Police

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Department. Number seven, Detective with the County Police Department. Number eight was Special Agent with the FBI and finally number nine, last week, was Darren Wilson, the Ferguson police officer.

So we will continue to call witnesses and give them a number so that if they do not want to be identified on the record we will refer to them as witness number 12, 15, you know, what have you.

Um, we are not going to do that for witnesses who have been on the media because those people have chosen to put themselves out there in the public eye, they've identified themselves by name, they're on TV, so those witnesses will, their names will be on the record. I'll ask them their name and, you know, where they live and in the general vicinity where they live.

The other issue is that because we are going to be playing recorded statements that these people have made, and many, in fact, most of these recorded statements, the statements begin with the witness giving their name, their date of birth, their social security number, their address and sometimes, you know their cell phone numbers.

And, again, I believe that probably in the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

case of every witness, that information probably should not be made public. I think it is okay for the witnesses who have been on the news for their names to be out there, but probably not their social security numbers and their exact address and cell phone numbers.

So for that reason, when we begin playing a recording of a witness' statement, I will have the court reporter turn off the audio recorder in here. The statements are, they're already on disc, they are marked as exhibits, so we have those statements.

I will make a record that I'm playing Grand Jury Exhibit, you know, so and so. I'm playing the statement of Witness Number 12, who off the record was identified by us as, you know, by name and so then we will stop the audio recording to play the audio interview that is on disc.

In most of these cases we also have transcripts of the recordings that we will pass out to you and then the court reporter will also have a transcript so he can, that will assist him in taking down what's being said, but he will also be instructed, you are instructed that at some point we're going to have to redact that information from the transcript. You and I can discuss that later,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

but you know, the whole purpose of this is so that we can, you know, keep people, people's private information private. And in the case of people who don't want to be identified for fear of reattribution, we need to keep them, I guess, unidentified, at least on the record.

Does anybody have any questions about that process is or how we are going to do that? We're going to kind of have to work out kinks as we go because I had a discussion at length with other people in my office last night about how we were going to go about doing this. So we're going to see how it goes, I guess.

: So, for instance, these witnesses who are being identified for us at least, does that mean if this were to go to trial that they would not appear, only this portion would then be presented in a trial or they may potentially be required to present themselves?

MS. ALIZADEH: If this matter were to go to trial, I mean, first of all, it is not something that you should all really worry about too much. Your job is not, I don't want you guys thinking about what is going to happen after you all make your decision. You can't be affected by that.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

But in the constitution, everybody who is in trial has the right to confront and cross-examine witnesses who give testimony against them. So, you know, the constitution will not allow us to put on, you know, unidentified witnesses.

I know you probably have all seen on television when there are proceedings televised, they will black out the witness' face, but that is just for television.

In a courtroom setting, that witness' face is not blurred, obviously. So you will understand that that's not something that you have to, I mean, that's not a part of your decision process.

Whatever happens after this, we will deal with it, whatever happens, but for now, this is how we are going to proceed.

: So when we get to the end of everything, all the proceedings, these audios that we are doing, they will be made public?

MS. ALIZADEH: That is a decision that we have to wait and see. My boss, Mr. McCulloch, has made a public statement about his intentions. Obviously, if this case, you know, that I can't say for sure. I know he has made public statements at

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

some point this all will be released. But when, I cannot say and again, that's one of the reasons why you all are referring to yourselves by juror number. Your identities will never be disclosed. So that's how we are trying to handle this.

Does anybody else have any other questions about the process?

And, I hate to ask you, you normally don't ask questions. You understand what I was trying to explain about the process?

I will give you one later when you are actually doing your transcript.

Any other questions?

So our first witness of the day is not here yet, but we are going to go ahead and start playing discs that we have that are statements that he has made previously. But what you are going to hear, and I hope he's just running late, but the first witness of the day, our plans were to call , and he is not here.

So we're going to keep going. The first disc that you are going to hear is labeled as Grand Jury Exhibit 22.

(Grand Jury Exhibit Number 22 marked for identification.)

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. ALIZADEH: And it is a disc that contains video and audio of the media statements that has made in interviews and on the television.

MS. WHIRLEY: I have no idea how loud it is.

MS. ALIZADEH: Because is identified, we're not going to shut off the audio recording because these are media statements that he's already made.

(Playing the recorded statements.)

MS. WHIRLEY: You understand we didn't want his commentary.

(Playing the recorded statements.)

(End of the recording.)

MS. ALIZADEH: The next exhibit is Grand Jury Exhibit Number 17. You have already heard other statements that are contained on this disc. It is a CD that has a number of witness statements on it and I have a transcript that is going to be passed out to you all.

MS. ALIZADEH: Yes.

: What date was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

interview?

MS. WHIRLEY: ? Okay. We have her scheduled as a witness.

: I'm talking about her audio?

MS WHIRLEY: This is

We heard ,

when did they actually interview her?

MS. WHIRLEY: She's going to be a witness for us today.

MS. ALIZADEH: Are you asking when was her television interview?

: Yes, ma'am.

MS. ALIZADEH: I don't know, I will have to find that out for you.

MS. WHIRLEY: We will be playing your interview for her today too. We will get all of those questions answered.

MS. ALIZADEH: Has everybody got the transcript passed around yet?

And, again, if you will put your juror number on that in the corner and keep that with the materials and make notes on it if you feel you need to.

Just so you know, this is one of three

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

statements that made to County Police. So this is referred to just on the disc as Interview Number 1, is that what it says?

MS. WHIRLEY: Yeah

MS. ALIZADEH: We will play Interview Number 1.

(Playing Interview Number 1.)

DETECTIVE Today's date is Saturday, August 9th, 2014. The time is approximately 4:40 p.m. My name is Detective , St. Louis County Police Department, . This interview is in reference to an officer involved shooting resulting in a fatality referenced under St. Louis County Police Report Number 14-43984.

The person being interviewed is date of birth, (redacted)

: Ahh, (redacted).

DETECTIVE Okay. (Redacted). , we spoke, um, prior to this recording about what you witnessed outside. Can you kinda of tell me in own words what you saw?

: Okay. I was in the bedroom, and I hear an altercation outside. I happens to look out the window and I see, um, the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

young guy was at the Ferguson police car on the passenger window. And I see something exchanged, some arms exchanged and that's when I call my fiancee for her to look out the window and, um, that's when I ran into the front outside, and that when, um, I see, actually, it was two guys.

Um, when, but the guy, he constantly, he just ran down in the middle of the street and the officer just gets out the car and shoots.

I thought it was six times. So, um, when he, when he hit, I guess when he hit the first and the second time, the guy, he kinda stopped and turned around facing the officer, uh, bent down a little bit curled up, and the officer let out, what, three, maybe four more shots to the guy and that's when he hit the ground and, um, and that was it and that was the whole thing.

And he actually had a friend, he, I don't know, I just seen him duck down, a car, um, they had a car door open, it was a white car, um, he hopped in, I guess those two cars left.

DETECTIVE Okay.

: But that's the whole scene right there, the officer still had his gun out telling everybody to back-back, the ones that was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

outside and that was that and you guys called too.

DETECTIVE : Okay, um, these, this other guy who was by the officer's car, can you describe him?

: Ahh, you know, the only thing that I could say that he may have, I definitely know that he was black, um, he had dreads.

DETECTIVE : Okay.

But I can't even describe what he had on because everything was happening so quick, cause something happens here almost every weekend.

DETECTIVE : Gotcha.

: So, um, yeah, that's it.

DETECTIVE : Okay. That will conclude the interview. The time is approximately 4:43 p.m.

MS. ALIZADEH: Okay. So I know I talked about not recording the audio statement because he did state his date of birth and address, we will have to deal with that and see if that can be somehow redacted. For this next statement he makes, I'm going to go ahead and let that be recorded because he doesn't make any other statements as to, you know, personal information. So I will, we'll go ahead and audio record the playing of

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

's Interview Number 2, but we will stop the recording for 's Interview Number 3 because that does, in fact, disclose more identifying information, so.

Again, this is Grand Jury Exhibit Number 17, Number 2.

DETECTIVE : Today's date is Saturday August 9th, 2014. The time is approximately 4:45 p.m. This is Detective . This is a second interview with witness . Uh, you said you had approached me, or approached me and said you had something you wanted to add to your statement; is that correct?

: Yeah. Um, the only thing is um, when I was at the window, when I saw the altercation, the guy ran. I heard the shooting, that's when I saw the cop gets out of the car just when I was still --

DETECTIVE : Did you say you heard shots first?

: Yeah, I heard the shots first.

DETECTIVE : Okay.

: I was still at the window. That's when he got, got out of the car and I heard

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the shots. That's what drew me to outside so I could see what's going on.

DETECTIVE : Uh-huh.

: And, uh, I guess the guy did get hit cause he turned around back towards facing the cop, kinda walking back towards him slow, curled up and he let go three, four shots back at him.

DETECTIVE Okay. Say that for me, he turned around, he started what, curled over and started walking --

: Yeah, yeah, yeah, yeah.

DETECTIVE -- towards the officer?

: Well, yeah, like he was hit and he shot him three or four times and that's when he hit the ground.

DETECTIVE Okay. So when you're in the -- in the, just so I can clarify, when you're in your bedroom window, the officer's still in the car?

: No, no, he wasn't there, he hopped out then. He hopped out after when the guy ran from his window.

DETECTIVE Okay.

: So he ran from where the altercation was.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE When did you hear the first two gunshots, you said you heard some gunshots?

I was, I was in the window.

DETECTIVE : And where was the officer at that point?

: That he was still in the car. That's when I saw the altercation, whatever was happening --

DETECTIVE In the car?

And the guys ran.

DETECTIVE Okay.

: And that's when he immediately hopped out the car and did his first two shots.

DETECTIVE : Okay.

: And that's when, okay, okay, I need to go outside.

DETECTIVE : Gotcha.

: That's when I went outside and obviously he got hit and he was curled up and he kinda like walking towards him, just a little bit and then he let go three or four more shots and that's when he hit the ground.

DETECTIVE : Okay.

: But I was at the window,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that's when I did see the, as soon as he ran, he hops out of the car and again starts shooting.

DETECTIVE : Okay.

: That's it.

DETECTIVE : Okay. That'll conclude the interview. The time is 4:47 p.m.

(That is the end of Interview Number 2.)

MS. ALIZADEH: All right. The next statement we're going to hear is contained on another disc, Grand Juror Number 24.

(Grand Jury Exhibit Number 24 marked for identification.)

MS. ALIZADEH: Which is also a disc that contains numerous recorded statements. The way that my office has been getting these, the officers just put numerous statements on discs. Sometimes they give me discs that have statements on there that I have already had on another disc.

So don't, you might see other people's statements when we put this up, but this will be the third interview that the County Police did with and I will pass out transcripts for that. This is a longer interview.

And when we get ready to start the audio recording of the interview, if you could then pause

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the recording that's going on in here.

At this time prior to the playing of an audio recorded statement of , which is done on August 13th, 2014. The detective questioning him is Detective And at this time I will ask for to pause the recording of the grand jury.

(Recording is stopped at this time.)

MS. ALIZADEH: We're not recording, but you can take down what's said other than the fact that we would redact the identifying information from your transcript at some point.

So we are not recording, however, we are taking down the statement as it is being played. Sheila, go ahead.

(Third recorded statement of)

DETECTIVE : This is Detective with St. Louis County Police, uh, Bureau Crimes Against Persons, uh, . Uh, also present is Detective St. Louis County Police, uh, Department, Crime Bureau Against Persons.

Um, the date is 8/13/2014, it is a Wednesday. The time is 10:27 a.m. The interview is

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

being conducted in the parking lot of DePaul Hospital.

Um, the interview is in regards to St. Louis County Report Number 14-43984, which is classified as a homicide.

Uh, the person being interviewed is , uh, black male, date of birth, (redacted). Social security number, (redacted). Who resides at (redacted).

Uh, he has a cell phone number of (redacted).

Um, , do you understand that this interview is being recorded?

Yes, I do.

DETECTIVE This is being recorded with your permission?

DETECTIVE Are you willing to continue with the interview?

Yes.

DETECTIVE Okay. All right. , um, I know that, uh, one of our detectives has spoken with you, uh, on Saturday, August 9th, uh, on the day of the incident, in -- in regard to what you saw. Um, and basically through, um, some information we received, we -- we -- we felt that

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

there might be some more information that you might have.

So we came to reinterview you, and you mentioned to us briefly upstairs that you had a phone, uh, you had recorded a portion of this on your phone; is that correct?

: Correct.

DETECTIVE : Okay. And, um, the portion that you've recorded, uh, was directly after the shooting; is that correct?

: Correct.

DETECTIVE : Okay. So, um, that, this phone, this, um, Samsung phone is yours?

Yeah.

DETECTIVE : And you did the recording?

: Uh-huh.

DETECTIVE : And, um, that's you talking on the video there, correct?

MR. : Correct.

DETECTIVE : Okay. So, um, prior to recording, I had you, uh, sign a consent to search form, uh, St. Louis County's, uh, consent to search for your Samsung phone, uh, with video related to the Ferguson incident; is that correct?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Correct.
DETECTIVE : Okay. And you did that of your own free will?
Yes.
DETECTIVE Okay. And understand that all we are looking for on there is items related to the shooting itself?
Yes.
DETECTIVE Okay. So, um, like I said, since I didn't interview the first time and I have this new information about the phone, if you could just start from the beginning about where you were at in the apartment, um, what you heard or observed, um, and just kind of let, you know, retell us the story, okay?
: Okay.
DETECTIVE : If you want, you go ahead and hold this so --
: Okay. Well, um, Saturday morning, a little bit after 11:30, a friend of mine stops over, wakes me up. Um, I was outside with him for two or three minutes and he decides to leave. So I goes in the house, um, goes back into my bedroom. Like another two, three minutes later I hear an altercation outside. And I looks out the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

window and I see a guy, Michael Brown, at the driver window of the Ferguson police car.

I'm not sure what was exchanged, um, something was definitely going on in the window. So, um, but all of the sudden I see Michael Brown and his friend runs away from the Ferguson police car.

DETECTIVE : Let me stop you real quick. Um, while they were at the -- the door there, or while Michael was at the door.

: Yes.

DETECTIVE Um, what do you think, what did you see there?

I, I saw some, some arms going through the window. It might have been Michael Brown's arm, he might have been punching a police officer, or whatever. Something was going on through the window.

DETECTIVE : There's some kind of movement, exchange of --

: Yeah, some kind of movement, you know.

DETECTIVE Something going on there?

: Yeah, something was definitely

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

going on.
DETECTIVE Okay. Where, at that time that Michael's at the window where is, uh, his buddy at?
: The -- the, his buddy was basically in the front of the car on the other side.
DETECTIVE : In the front of the police car?
Yeah, kind of, but away.
DETECTIVE : On the passenger side?
: No, no, no, just in the front. In the front like, you know, he ain't even --
DETECTIVE So with, using my window, Michael Brown is to my left?
Yes in the window and the other guy was in the front --
DETECTIVE : So you see him --
: -- probably like, away, kind of almost.
DETECTIVE How far?
: -- like, probably three, four, maybe five feet away from the car.
DETECTIVE : So he's five feet from the front quarter panel --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Yeah.
DETECTIVE : -- of the police officer's vehicle?
: Yeah. But I'm --
DETECTIVE : So towards your apartment basically?
: Yeah.
DETECTIVE : Okay, all right.
So, um, so, like I said, the friend wasn't even, not close as much as Michael Brown was.
DETECTIVE Okay.
So, uh, like I said, all of the sudden they just immediately runs away from the car.
DETECTIVE They both did?
They both did.
DETECTIVE : Which direction did they go?
Uh, the -- Michael Brown just runs back straight.
DETECTIVE : Behind the correct?
: Yeah, behind the vehicle, running straight down the road as the friend, he just ducks behind the first car that was parked off

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

to the side, which is like a two door Monte Carlo or something.

DETECTIVE : What color was that?

: It was white.

DETECTIVE : Okay.

: So, um, like I said, the moment they got started running, um, I just see the Ferguson cop just gets out the car and I hear the first four shots, I should say.

DETECTIVE : Okay. And -- and when you hear the first four shots, let me know where all three of these guy are at. Where is, where is his buddy, where is his buddy, first of all?

: His buddy, his buddy was, about the time he was behind, hiding behind, um, behind the trunk of the car, of the two door white Monte Carlo.

DETECTIVE : So, so that's where he's at?

: Yeah.

DETECTIVE Okay. Where's -- Like going around.

DETECTIVE : -- the police officer at?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: The police officer like, just getting out of the car.

DETECTIVE : Okay.

: Like, just getting out the car and Michael Brown is already probably like 25 feet --

DETECTIVE : Down the road?

: -- down the road.

DETECTIVE : Okay.

So, um, like I said, he hops out the car, um, the first three, four shots that I noticed that was taken, I, that's when I yelled out to my fiancee, let's go outside cause this, um, somebody, uh, the officer is shooting at somebody.

DETECTIVE : Okay. Just hold on real quick. When those first four shots are being taken, where's the officer shooting from and which direction is Michael Brown facing?

Michael Brown is facing away from him.

DETECTIVE : So he's still running?

Yeah, he, uh, he still --

DETECTIVE : With his back to the officer?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

-- yeah, with his back to the officer.

DETECTIVE : Okay.

And the officer is basically, um -- um, when, like I say, when he's getting out of his car, he is basically walking towards the back as he's shooting.

DETECTIVE Okay. So --

And I see the friend, I'm still in the window.

DETECTIVE : Okay.

And I see his friend, uh, like I say, he's ducking for his life, for he runs behind the trunk of the car. But that car, that passenger door was open.

DETECTIVE Uh-huh.

: You know, so I see, you know, kind of hops in after, um ---

DETECTIVE Did he hop in the car?

I, obviously, he did. Um, obviously he did because, like I said, um, like the first four shots, the officer was taking big steps going past his car. When he got out of the car --

DETECTIVE : Uh-huh.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: -- so that's why I noticed that he's not shooting for the other guy because he walked past the white car, shooting.

DETECTIVE : But did, but -- but did, did he, what I'm saying though, did you see him get inside the car?

: Yeah, he did.

DETECTIVE : He did get inside the car?

: He did, he did, but not like that, like as far as like, um, that was his car, like he just got out of it or something.

: No, no, but he had his buddy with the dreadlocks.

: Yeah, um --

DETECTIVE : He got into the car, the white Monte Carlo?

: Yeah, the white Monte Carlo cause the door was open or whatever cause uh --

DETECTIVE : Didn't it pull off?

: Um, I think it pulled off.

DETECTIVE : With him in it?

: After -- after when, um, uh, when a Ferguson, as a matter of fact, I think it's, it might have been on my phone cause I seen a white

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

car on my phone, but I didn't --
DETECTIVE : Okay.
: -- I can't see if it's, um --
DETECTIVE : All right. So, but you saw this guy get into the car?
Yeah, I did see that.
DETECTIVE : Okay.
: Because the door was open and, I guess, after when he got done shooting, I guess whoever that was driving told him, let's go cause he's afraid for his life --
DETECTIVE Okay.
-- I'm sure of that, I'm sure of that.
DETECTIVE : Okay, all right. So you're positive he got in the car and he left in that car?
: Yeah.
DETECTIVE Okay, all right. So you're positive he got in the car and he left in that car?
: Yeah.
DETECTIVE : Okay, all right. Let's go back to the officer and Michael's running down.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Yes.
DETECTIVE : The officer has exited his vehicle?
Yeah, and --
DETECTIVE : He was, and so, um, you said Michael was like 25 feet down the road --
Yeah, already.
DETECTIVE : -- his back is to the officer --
And, um --
DETECTIVE : You are, uh --
I'm, I'm, I'm --
DETECTIVE You're still on the porch, right? Or on the balcony?
Yeah, when it, after when he did the first shot, that's when I'm, um, came outside. That's when I'm outside now, but when I came outside, he was already hit. But as far as in --
DETECTIVE : Okay. Is, so, I'm sorry, I -- I may be going too fast here, but, um, so when you hear the initial shot, you're upstairs.
: Yeah, in the bedroom.
DETECTIVE : Okay.
: First floor, or three.

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE Okay. So then, okay, so you heard a shot and then you went outside?

: And then I went outside.

DETECTIVE : And that's where you saw them kind of doing the --

: That's when the, no, no, um, when I saw the first four shots, that's when I yelled out, let's go outside. When I, when I --

DETECTIVE I'm sorry, hold on just one second. I need to back up just a little bit because had you heard a shot before you saw them tussling in the car?

: No, no, I heard an altercation.

DETECTIVE : Okay. You're, that's when you heard that brought you outside initially?

No, uh, what brought me outside was the gunshots.

DETECTIVE Okay. I'm sorry, I'm, I'm trying to be very clear on this --

All right, I gotcha.

DETECTIVE : -- is why, which is why I'm, I'm having, so the very first thing that drew your attention was what?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: The altercation.
DETECTIVE : Okay.
: From hearing stuff.
DETECTIVE : Okay. So you heard them arguing?
: Yeah.
DETECTIVE Or some kind of --
: Yeah.
DETECTIVE : -- exchange of words.
: Yeah, yeah, yeah.
DETECTIVE : -- is what you hear? What is first thing that you see?
: Um, a guy at the window doing something, something.
DETECTIVE Okay. Had you heard any gunshots at that point?
: No, I didn't. No, I didn't.
DETECTIVE : Okay.
: But a lot of people saying that they heard a gunshot starting from the inside, but like I said --
DETECTIVE : But you didn't hear that?
: I, I didn't hear that. I

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

mean, I might heard it if I was outside already.

DETECTIVE : Okay.

: But it probably --

DETECTIVE : I understand. What I'm trying to see --

: I gotcha.

DETECTIVE : -- what brought you outside.

: I gotcha, I gotcha.

DETECTIVE So, so let's skip forward to the part where, cause we know where he, we know where the friend was at. We know where he went.

: Yeah.

DETECTIVE : We know, um, so what I wanna take you back to is to the start the officer gets out of the vehicle.

: Uh-huh.

DETECTIVE : And starts to go towards the back, Michael is running down the road.

Yeah.

DETECTIVE : And what is going on there?

: Uh, like I said, by the time I got outside, so either --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : So --
: -- he must have hit from those first three or four shots.
DETECTIVE But that's what I want to talk to you about.
: Right.
DETECTIVE The -- the first four shots that you're talking about?
Uh-huh.
DETECTIVE : I want to be very clear on where --
Uh-huh.
DETECTIVE -- the officer was at.
Yeah, um, like I said, he -- he was, he was probably just passing the end of his truck.
DETECTIVE Oh, so by the rear bumper?
: Yeah.
DETECTIVE : Driver side quarter panel area?
Yeah.
DETECTIVE : Okay.
: Yeah.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : Okay. So he, uh -- you know, has he already fired or he starts firing then?

: Nah, he -- he been shot, he been fired, he had been fired like when he got --

DETECTIVE : So from the time --

: -- he been fired.

DETECTIVE : So --

: But like, so when he got out the car --

DETECTIVE : He start firing as soon as he got --

Yeah, cause --

DETECTIVE : -- out.

-- the, that's how I noticed that, um, uh, that he kept shooting, um, walking past the white car where his friend was.

DETECTIVE : Okay, okay. I just want to make sure that --

So the four or four shots --

DETECTIVE : So the -- the second he exited he started firing at Michael who was running away?

Yeah, so it was like pow, pow, pow, pow.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : Okay.
: -- like take time and he was also taking big steps stepping out the car, and like I said --
DETECTIVE : Okay.
: -- and I seen him shooting as he was walking.
DETECTIVE : Was he yelling anything?
: Uh, yeah, he -- he --
DETECTIVE I don't want you speculating.
: Yeah, yeah, I -- he --
DETECTIVE : Was, I mean, was he yelling anything at all? And, uh, even if you can't think --
: You know, I can't even remember -- I can't even remember that.
DETECTIVE : You don't know?
I can't say, yeah.
DETECTIVE Okay.
I can't even remember.
DETECTIVE : Okay.
: Uh-huh.
DETECTIVE : So, um, see as he's

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

running and he's taken, taken his four shots, he is by the rear bumper.

Uh-huh.

DETECTIVE : What is Michael doing, how is he reacting?

Um, like I said, about the time I got outside after, when I told my fiancee let's go outside. From the first shots, I goes outside and that's when I notice that, obviously, he's been hit because now he's facing the cop.

DETECTIVE Okay. Now where are you at, though?

Now I'm outside.

DETECTIVE : All right. do you have a map or no? Okay. You know where the, you know how you're, you're here near this part, right? Are you in that horseshoe section?

: Yeah, exactly.

DETECTIVE : Okay. So your apartment's where.

: Be about probably like, directly in the middle.

DETECTIVE : Centered in there?

Yeah.

DETECTIVE : Okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

And this is the street, so --
DETECTIVE : And this is about, uh, see, see Michael was down here, right? And the officer's truck was about here or so, or further up?
: Yeah.
DETECTIVE : Show me.
: Let me see, it just about --
DETECTIVE Just like, end of each part of the drive.
: Right, right, um, it's kind of like, start over and if this is the street.
DETECTIVE : Right.
: And my window right --
DETECTIVE But you --
: -- here and, uh, his vehicle is probably right here. Uh, yeah, he is probably about right here.
DETECTIVE : That's where Mike's at?
: Yeah.
DETECTIVE : Okay. Now, show me where --
So --
DETECTIVE -- where that Monte Carlo was at?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

-- yeah, it was probably about right here. It was two cars actually, a white one and a purple one.

DETECTIVE : Okay.

So, um, after when I seen that --

DETECTIVE : Oh, here you go. That's the map of the area.

Oh, yeah, yeah, okay, yeah.

DETECTIVE : So --

Yeah, so yeah.

DETECTIVE : -- is this your building right here?

Um, it is probably, I don't know, the shape's kind of weird. Yeah, I think that is it.

DETECTIVE : Okay.

Okay. So, um, so my window right there then, um, yeah, so the car must have been --

DETECTIVE : Car right there?

-- right there and he must of, his body must have been about right there.

DETECTIVE : Okay.

So --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : So, all right, so --
: And, um --by.
DETECTIVE : -- by that time where are you standing watching this?
: Um --
DETECTIVE After the first four shots had been fired, where are you at?
: I'm outside --
DETECTIVE : Where?
: -- after the first four, on my, um, balcony, on my balcony.
DETECTIVE : You're on the balcony?
: Yeah. So, uh-
DETECTIVE And did you go downstairs though?
Uh, I didn't go downstairs, this is, this was after the tape is up and stuff.
DETECTIVE : Okay. So you never went downstairs?
: I never went downstairs until afterwards.
DETECTIVE Okay, okay. So you're outside now when, after he's fired these first four shots?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Yeah.
DETECTIVE Okay. Tell me what happens then?
: Um, when I steps outside, um, the guy, obviously, um, he's been hit, cause he curls up and I, but now he -- he's facing the Ferguson, the Ferguson officer and, um --
DETECTIVE So when you describe him curling up, show me?
: Um, he's uh, he's, like I said, like he's been hit in the stomach.
DETECTIVE : He's bent over?
: Yeah, kind of like --
DETECTIVE : At the waist?
: -- yeah, like he's about to fall and fall directly --
DETECTIVE Okay.
-- on the ground. And, um, but I see him takes like one or two steps, kind of like I said, towards him, you know --
DETECTIVE Now --
-- now I don't know if that was a help sign, just a little bit.
DETECTIVE Okay.
: Just a little bit.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : Well, tell me this. Uh-huh.

DETECTIVE : Everybody's describing his hands being up. You know what, that now, that's like because when, when, okay. From where my balcony is, it's another building right there. Um, he, where his blood spill at, where he got shot at, he ran past that.

DETECTIVE : Uh-huh.

: Before he, you know got that --

DETECTIVE : How'd he end up coming back?

: Yeah, that's why the, that's, I was just, uh, what I'm, what I'm saying, like I said, he must have got hit and he, he probably had his hands up when he got hit.

DETECTIVE : Oh, so you're saying that area --

: That's why everybody --

DETECTIVE -- that area's out --

-- keep saying that.

DETECTIVE : -- of view?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Yeah, uh, quite uh, out of view, but he ran past the, uh, where he got shot at.

DETECTIVE : Oh, so you're saying that area --

That's why everybody --

DETECTIVE : -- that area's out --

: -- keep saying that.

DETECTIVE : Okay. So the, the part of the area where he got shot with those four?

Yeah, he -- he, yeah. Where he died at, he ran past that spot.

DETECTIVE And came back to that spot?

So obviously, I think when he got hit, that's when he probably raised his hands up, but he's then curled up --

DETECTIVE Yeah.

-- just walking, took a couple steps back towards him, he probably had one hand up, but he had his hands down here and the officer let out about four more shots and he hit the ground just like how he's laying.

DETECTIVE : So you see him bent over.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Yeah, just like that.
DETECTIVE : What I'm saying though is after he's bent over there is another four shots.
Yeah, yeah, another four or three shots just like that. And everybody saying like he was already down and the officer let out a shot. I don't know, but I know what I saw, you know, before he hit the ground, he let out four more shots. I don't know, but I know what I saw. So --
DETECTIVE : Okay.
-- before he hit the ground, he let off four more shots.
DETECTIVE : Okay.
So I can't remember --
DETECTIVE And where he --
-- if he said freeze or, or, or said something before he let out the last ones, but I know when he --
DETECTIVE : Did you hear Michael say anything before those last four --
: No, I didn't, huh-uh.
DETECTIVE : Okay.
: No.
DETECTIVE : So, where he, where

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

he was at in the street, is that where he fell? The -- the, like, nobody moved him?

: No, ain't nobody moved him or nothing.

DETECTIVE : Okay.

: Nothing so, uh --

DETECTIVE : Nobody touched his body?

Nobody touched him, uh, after, right after that, the officer just stood over it, like 5 feet away from him with his gun on his walkie-talkie thing.

DETECTIVE : Okay.

: And called the first two or whatever.

DETECTIVE : Okay.

: And that was it.

DETECTIVE : All right. Is there anything that I haven't asked you or that you feel you need to clarify?

: Uh, no, that's everything really. Everything that I saw.

DETECTIVE Okay.

Everything I saw.

DETECTIVE : All right. Um, it's

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

uh, 10:43. We're going to go ahead and conclude the interview.

(This is the end of the interview Number 3.)

MS. ALIZADEH: Okay. We're recording now and we've just finished playing the third statement of that is contained on Grand Jury Exhibit 24.

So the final statement of , I shouldn't say final statement, but the fourth statement that we have is a recorded statement that was done by the FBI and I just received the disc of this last night, and so we do not have a transcript of this.

So I will ask the court reporter to stop the recording as we begin to play the audio recording of by the FBI because of the identifying information, but I will ask you, if you will as best you can take down the statement and at a later date there is a transcript being prepared of this, so I will get that to you as soon as I can get that, but I do not have a transcript to pass out to you, the grand jurors, okay.

So I'm going to give it to Sheila to put in the computer and at this time it is 9:50 a.m. If

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

you can pause the recording and we will begin playing the fourth statement of .

So we are not recording, but the court reporter is taking down what's being said. Sheila is going to cue up the statement.

(This is the recorded statement of Number 4.)

All right. Today is September 17th, 2014, at approximately 1:06 p.m. We are here today at the FBI St. Louis Building, 2222 Market Street. This is Special Agent , with USA and the other trial attorney .

And we are here to interview , and if you could state your name?

All right. Now, , I just want to explain to you, I know that, I believe, St. Louis County have spoken with you already?

Yes.

: Okay. I will explain a little bit of a difference of our investigation here.

: Uh-huh.

: They're doing a homicide investigation, we are doing a civil rights

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

violation.

: Okay.

: If this officer acted outside of his authority, okay?

Okay.

And so you're here as a witness voluntary. You, um, you are free if you don't, you can end it at any time, but you are here and you are okay?

: Yes.

: (Inaudible)

: Yes.

: Okay. And you are okay with us recording it?

Yes, ma'am.

Okay. So before we get into the specifics, can I get some basic info from you?

: Uh-huh.

: Do you have a middle name.

: Yes .

Okay. Like ?

: Yes.

Okay. And what's your date of birth?

(redacted)

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

(redacted)
Yes.
: Social security number?
(redacted)
Can you give me your address?
: (redacted)
: Okay. And is there a good number if we need to contact you again?
: Yes. (redacted)
Before we get started, do you have any questions for any of us?
: No, not at the moment.
: Okay.
MS. So I just want to talk a little bit more about coming in.
: Uh-huh.
MS. I just wanted, um, just some preliminary things.
Uh-huh.
MS. We want to let you know that it is a crime to lie to the FBI federal agents.
MS. Okay. I don't necessarily think that you're going to, but we like to inform everyone of that.
: Uh-huh.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. And like just said, if at any point during the interview you don't want to, you don't want to talk any more, feel free to leave. It is voluntary, I know you came through security and all, you can feel free to say I don't want to talk any more, okay? And you're shaking your head yes.

: Yes.

MS. It is an oral recording, so all your answers need to be out loud

: Yes.

MS. So which brings to my next point, if you start nodding or whatever.

: I gotcha.

MS. And it is totally fine if you nod, we will just try and correct you.

I gotcha.

MS. If we ask you a question and you answer, we're going to assume you understood the question. So if at any point one of us asked a question that says to you convoluted or confusing, let us know.

: Okay.

MS. : Our intent is not to confuse you.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay.
MS. : Our intent is not to get you to answer a certain way.
: Okay.
MS. : So if you think we are trying to get you to go in a certain direction we are not. Make sure that you answer, what we want is the truth. What we want to do is figure out what happened.
So, like I said, our intent is not to lead you in any one direction or the other.
All right.
MS. : If we state something, it is not the way you told us or we mischaracterize, then let us know.
Okay, all right, not a problem.
: Okay. If you want to take us through what you were doing on August 9th, 2014.
Um, I was at home. I actually just coming back from, um, going out to eat with my family.
Okay.
And um, come back home about 9:00 that morning. We all takes a nap. My fiancee

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

wakes up and she tells me a friend is knocking at my door.

I wakes up, which is now 11:00. He comes and, um, I goes outside for a few minutes with him outside or whatever. And he, we went outside for not long, two, three, four or five minutes. So I happen to go back in, he leaves.

It is getting what, about 11:45 now, um, I was about to take a nap, and I hear an altercation outside.

So I looks outside and, um, I see like some kind of tussling going on in the window. Really not sure if, um, if Mike Brown was punching on him or if the officer was grabbing on him, but something was going on through the window, it just didn't look right. So I glued my eyes to it.

And all of the sudden, um, I see, I also see his friend, his friend. Um, he was, he was on the side of the car, he was on the front bumper on the passenger side, maybe 4, 5 feet away from him. And all of the sudden, like I said, they just takes off running.

And when they takes off running, I see his friend, he runs behind a two door white car. He's ducking down behind the trunk of the car looking at

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the officer because he just immediately gets out of his vehicle and just started shooting at Mike Brown. Because he runs down, straight down the middle of the road.

And, um, when his friend ran behind the trunk of the car, he was looking at the officer thinking that the officer might cut off and walk to him and shoot him, but obviously, he is just taking like, you know, large steps in a shooting position, shooting directly at Mike Brown, and he walked past his friend.

So at that moment right there, that just gave me enough time to run outside because like I said, I thought that he was going for his friend too, so I didn't want to miss that. So that was my time when he walked past that was my time to run outside.

By the time I gets to the door, I notice I forgot my phone in the bedroom. So I go back, grab my phone and then I goes back to the front door, which it didn't take long, just seconds.

So, um, but about the time I gets outside, I see Mike Brown, he's now facing the officer, kind of, he bent down like he was hit in the stomach. He had both arms wrapped around his stomach and he's

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

bent down like he was going down.

So like I said, I thought he was already shot. And, um, before he was going down, the officer lets out four or five more shots. And when he hit the ground, you know, that's when I see blood roll over or whatever.

And, um, the next closest I seen the officer, when he hit the ground, the officer, he was at least about 4 or 5 feet away from his body now on his walkie-talkie, still have his gun all over him making his call in. And, um, and that's when my phone started recording maybe like two minutes right after when the first two officers come in.

: Okay.

: So that my phone cuts on and I started recording.

Do you have that with you?

Uh, yes, I do.

Okay. Um, is it out front.

: Yeah.

Okay. I'll go grab it real quick.

: Okay.

: What I want you to do for me, can you circle where your apartment, or kind of make

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

an X where your apartment is. If this is West Florissant and here is Canfield.

Oh, okay. So that means, apartment building is this one right here.

: Okay. Where is --

: You know what, um, no, it actually be right here, this white one, this second one.

White one?

: Yeah.

: Okay. And where in that building is your apartment?

: The second floor.

: Second floor. Okay, go ahead. Just so it is the second floor. Okay. So I want to go over this in a little bit of detail with you.

Okay.

So -- oh, thank you. This is your cell phone.

: Okay.

: You said you were in your bedroom, correct?

: Yes.

: About to take a nap?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Uh-huh.

And you hear a altercation, what did you hear?

: Um, just some kind of ruffling going on, I'm not even sure like what words exactly, but it is kind of ruffling, you know.

: Okay. And when you said you looked out the window and saw it, where was the car?

The vehicle was over here, the vehicle was --

You want to draw like a vehicle?

: Let me see, there was something right here. His vehicle was in the middle of the street sideways.

: Sideways.

: Diagonal.

Diagonal. And where was the front of the car?

: Uh, what, the police vehicle?

: Uh-huh, yeah.

That's -- the front of the vehicle was like facing, like facing my apartment.

Okay.

Diagonal like.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay.
: Like he was coming from this way basically.
Okay. So, let me see. So it was facing, let's see, let's go like that, is that fair?
Yeah.
Okay. So facing this way. Could you see in the front, you said you couldn't tell whether or not he was punching him or whether the officer --
: Right, through the window.
So could you see them?
: Yeah, I could see them.
So your view was not obstructed --
: Yeah, I could see them clearly.
: Did you know it was an officer when you saw it or you just saw two people?
: No, I knew it was an officer.
: Okay.
: You know, still inside of his vehicle and somebody outside the vehicle doing some kind of tussling.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay. And then you saw his friend who we know, did you know either Mike Brown --

No, no, but I know I seen Mike Brown, uh, in the neighborhood.

All right.

So, I don't know him.

Okay.

MR. : Where did you see him?

: Just walking with like another little group of people, whatever, just up and down the street over there or something.

MR. : Did you ever have occasion to talk to him?

: Huh-uh, no, I just, I remember faces, so.

MS. Do you know the other people he would be walking in the group with?

: Huh-uh, no.

Do you remember him because now of all the press or also because of his size, his height?

Do I remember his size?

Right. Did you take particular notice of him or?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: No, just like his clothes and, um, that he was kind of like a buffer guy, because I know I'm slim.

: Uh-huh.

: So, um, I just knew he was kind of a little bit buffer, you know.

Okay.

: Kind of a little chubby like, so.

Okay. So you see tussling and at this point when you see the two, whether, some -- some sort of altercation.

Uh-huh.

At what point do you notice his friend, Dorian?

: Um, his friend Dorian, he was clear, I could see him too. Like I said, he was in front of the passenger side vehicle, not too close, like 4 feet away or whatever.

Uh-huh.

So, yeah, at that time that's when I looked out the window and see that going on.

: Okay.

: While his friend was still in the front and was down by the window.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Did you hear anything? You said you heard tussling.

Yeah, just tussling, you know, not even a certain word, not even a certain word.

Okay.

MR. : Did you hear voices?

: Yeah.

MR. : One voice or two?

: Um, maybe two. Like I said, I just, just like some real tussling though. Even thought I was hearing lots of noises, maybe like hitting the door, you know. Something that just got my attention, but not certain words.

: How much, you said you saw them.

: Uh-huh.

Did you see who necessarily was the initiator? Could you see where their bodies were positioned?

: Um, was positioned? Um, let me see, uh, his friend, he was facing the officer's vehicle.

Okay.

Where he was standing. Like I said, Mike Brown was definitely standing on the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

driver's side window.

Okay.

: You know, facing the officer.

Okay. And you're saying they were -- as far as him and the officer.

Uh-huh.

You said they are tussling, how close, could you see how close in contact they were?

Um, there was definitely close enough. Um, there was definitely close enough so, I just figured that Mike Brown, he could, I don't think that he was to like real up on the passenger door, it was just a little bit of space and I could just see something going on roughly through the window.

MS. : And just because the recording, you are kind of making like a fist punching back and forth motions; is that right?

Uh-huh.

MS. : Yes? You say uh-huh.

Yeah, yeah, yeah, I mean, just yeah.

MS. : Okay. So what I'm going to ask you, you know, uh, the cell phone video that you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

gave to St. Louis County, is that the same cell phone video that you referred to before that is on your phone?

: Yeah, um, the one I have when he walked off and came back into the picture, the same one, yes.

MS. : So in that video, the very first thing that you say, you are kind of, you remember you are talking while you are videoing?

: Uh-huh.

MS. : Okay. So one of the very first things that you say, that you said that the guy, the black guy just ran, ran up to the car and was punching on it.

Yeah.

MS. : You said, the dude ran on the side, um, you talking about the other one ran to the Monte Carlo, then he went back to the first guy. You said, the dude was all up in his car, you said up in his shit punching on him.

Yeah, that's what I assume because, um, younger people like that, I think that, you know, that don't want to go to jail, you know, just being young. So, you know, I assume a person like that will be punching an officer to get away or

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

something like that.
MS. Okay.
: So I automatically assume that was going on.
MS. And that's fine, I just want to get to what you observed.
: Yeah.
MS. : So you saw this punching motion like you just made; is that correct?
: Yeah, but I mean, that's not exactly what I saw, that is just, you know because I just seen arms, you know, going through the windows.
MS. Okay.
: The officer maybe had his arm.
MS. : You said the officer maybe, right?
The officer maybe, yeah, yeah, it's a big maybe.
MS. Okay. So we are 100% right, when you-- you're letting us know when you're assuming versus what you saw, and that's exactly what we want you to do. But I'm going to try just to get a little detail. If you don't know something or don't remember, that's perfectly acceptable.
Okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. : I don't want you to think that, you know, I'm trying to get you to say something you don't know. But I'm just trying to because I wasn't there to understand what you saw. So when you first give your interview to St. Louis County you said you saw arms exchanged. What do you mean by that?

Um, um, I saw the officer's arms moving also and I saw Mike Brown's arms moving also.

MS. : Okay. You saw Mike Brown's arms go through the window.

Yeah, obviously, it was.

MS. : Okay. I know you said obviously, I want to ask to make sure I understand, okay. Did you actually when you use the expression, you saw the dude was all up in his car and up in his shit, did Mike Brown, did you see Mike Brown actually approach the car?

No, that's, that's the part that I just missed.

MS. Okay.

: So.

MS. : So by the time you saw, you saw Mike Brown at the driver's side of the car with his arms through the window; is that correct?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Yeah.
MS. : Okay.
MR. : You just then, you also, you've done the kind of moving your arms the way you saw Mike Brown do.
: Uh-huh.
MR. : You also saw a police officer when you are talking about some arms exchanged, you saw the police officer's arms?
: Yeah, it just kind of looked like, it just kind of looked like, like I said, if he's, an officer is in the car, I could just see his arms.
MR. : You have your arm bent to kind of a 90 degree angle in front of you?
Yeah. So, yeah, if the window is right here, so I mean, that's, you know, that-- that's what I seen and I could see Mike Brown. You know, it just, you know, he could be doing anything, I'm not even saying punching. Just something through the window right there.
MR. : Just so I'm clear for the tape, did you have, you are talking about the police officer's arms, he is kind of turning and has his arm in front of him in kind of a --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Like this moving.
MR. : Okay. Is that fair the way you describe?
Yeah, yeah.
MR. : Okay. And you have, when you are describing Mike Brown's, you have his arms going back and forth coming --
Yeah, just back and forth, just back and forth, tussling.
I want to impress upon you something.
Uh-huh.
: That we have observed and it is throughout the investigation because I feel like you might be a little bit cautious in your, careful with your words in the sense of, we are aware on, the pressure that exist. Are you still living in Canfield?
: Yes.
So, and I'm sure this is still a big deal. This is going to be a big deal for a very, very long time.
Yes, it is, definitely.
And you have been on the news, right?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Uh-huh.

And you have people come up to you and talk to you about that, people up in the community?

Yeah, they, yeah, they seen me, they say they seen me and stuff like that.

Okay. I also want you to understand you talking to us today, we don't go tell people we talk to you. It is completely confidential.

Uh-huh.

We take every precaution to protect your information. So this is not going to be out in the community, this is not going to be told, they're not go to say you snitched or you didn't fight for Mike Brown enough.

We need 100 percent honesty and clarity, and we are not going to say, we are not on one side of the other, you know, this isn't for -- for the search for the truth, okay?

: Right.

So I want you to be confident that you can trust us and trust us to say that we're not going to make, we are not going to skew your testimony, okay?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay.
: This is it, okay?
: Okay.
This is what it is.
: I understand. Just so you guys know, I am very, very, nervous about everything since, since that day to now.
Okay.
Just to let you guys know.
And that's completely normal to be nervous, nervous to talk to us, nervous in general. Is there anything in particular that you are nervous about more so than others?
Um, I'm, um, I have been, I've just been just kind of scared, just kind of scared. Especially, you know, with the interviews. I stopped doing the interviews, I stopped after I did one with --
MS. Okay.
: -- on a Friday. After that I felt sick, I started worrying.
MR. : Why is that?
: I don't know, I just started something, like something may happen, you know. I started thinking about, wait a minute, I done did

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

quite a few interviews and I don't have a lawyer and why do everybody else have lawyers when they put out the very first interview, you know.

I Googled my name and I seen a lot of stuff and I came across something, uh, that somebody put, I seen my picture, and it said like snitches get stitches, and then under it says something about people keep talking, they are going to get , you know, we are going to do something to you.

MR. : What's that.

: I don't know. It's spelled

You know, I'm not even sure what that is, but I've just been nervous and scared, and I have been letting everybody know about my time in and where I'm going and stuff like that.

So, uh, but like I said, until this day, but it has been like two weeks, two, three weeks now, you know, no reporters at my house or nothing, no calls. You know, I'm kind of, I'm still in my regular day and going to work every day, taking care of my family and stuff, doing the same thing every day. I don't go nowhere, but I come home, you know, so.

But I'm keeping it cool, but the ones like at work, I -- I tell them because I don't show it

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

neither. Like when I be at work, I have a smile on my face all the time, you know, I don't show it until they, I seen you on TV and want to talk about it and stuff like that. And I tell them how I feel, you know. So I'm just staying cool though, you know.

Okay.

: But very nervous.

This is the first time you are talking to us and we can treat that as a first time.

Uh-huh.

You are a, you are now a federal witness so, and with that comes certain intentions. So we want to make sure you are comfortable.

So, I mean, we would like to offer you water, you are more than entitled to, if you want to get up and take and walk around and if that makes you feel more comfortable, but.

: I'm fine right now.

MS. : Yeah, and we want you to know, if at any point someone does intimidates you or let me be specific, to intimidates you or scares you or you feel somehow more nervous than general

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

nervousness, you certainly should, um, call , I know you have her number here at the FBI. Because witness information is something apart from everything else. It could be a crime.

So we are trying to be specific, okay, not some -- (inaudible)

: Okay.

MS. General nervousness is normal, especially like in (inaudible). If there is anything in particular that makes you nervous at all, we want to know that. So is there anything in particular or just a general feeling from Goggling yourself?

A Um, that, um, one moment, um, at the time when the audio came out about the shooting, let me see, like a week and a half earlier before that I stopped doing interviews, I didn't receive no calls, I was fine. I could go home and enjoy.

So when that came out, I started getting calls again, they was at my house while I was at work trying to come up to my job.

MR. : And who were they that you are referring to?

The reporters, news reporter.

MR. : Uh-huh.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: And um, let's see, maybe the same day I knew it was on the tube that when it aired on the news and stuff like that, it was on a Tuesday or a Wednesday. I had to go pick up my fiancee about 9:30 that night to leave out of my house to go pick her up. I know that day I received a call from a reporter at six something. And another call at seven or eight something and then I got a text like just before 9:00.

I had to put up my little son's car seat in the car. So I went outside to go and do that and as soon as, right when I gets to my car, a lady just runs up, it is dark now. And at this time I notice there is not a lot people out, I know that for sure, but she just runs up, just runs up, hey,

can you do another interview, you know, but she was nice. She just ran up, you know, like it was, I was already scared at that point.

But I just, I looks at a lot of movies and stuff and it just gets me thinking like, like if anybody was trying to at that time, you know, that was a good opportunity at that time.

You know, I think of stuff like that.

MS. : Are you worried about your physical safety, is that what you are trying to say?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: I don't know.
MS. : If you are, that's fine. I really don't know, I really don't know.
MS. : Okay. Let's get back to, um some more details that you can tell us.
: Okay, okay.
: I want to make it very clear to you though, we aren't going to talk. We aren't going to say we spoke with , I'm sorry, . The only thing are people that actually go to the news. So we have a whole list of people that no one knows about because we don't tell them. So we want you to feel confident that you speak with someone today, that it stays with us. Does that make sense?
Yeah.
: Okay.
MS. : What you hear on the news from a federal agent or the FBI, it didn't come from us. So if that happens, or you hear rumors, call us and find out because it may just be rumors. We are not going to go to the news ever, all right?
: Okay.
MS. : So if you start hearing rumors,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

and you start thinking something's up, call and find out because I'm telling you right now we're not going to go to the news.

: Okay, all right.

MS. Okay. So we were talking about this, um, the arms exchange. You are watching this from your window; is that right?

: Yes.

MS. : Do you have blinds on your window?

: Yeah.

MS. : Were you watching through the blinds?

: I had the blinds bent a little bit.

MR. : Okay.

MS. : So they horizontal or vertical blinds. Like that?

: Yeah, the straight ones that close.

MS. : Okay. So you had the vertical blinds. Did you have to move your hand to watch it?

: Yeah, I had to bend down.

MS. : Gotcha, okay. So while you are watching this, at some point do you yell out to

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

--

: Uh-huh.

MS. : Do you yell out to at some point.

: Yeah, I yell out to her, I think it was just about the time that I notice that the officer went past Michael Brown's friend.

MS. Okay. So let's back up. So the friend that you're watching, as soon as these arms are exchanged back and forth out the car.

Uh-huh.

MS. : Um, what happens, did you observe that end of the tussle?

They just takes off running.

MS. Okay.

: They just takes off running.

MS. : They, being the, the two boys?

: Yeah, two boys yeah, they just takes off running at the same time.

MS. : Do you know now their names?

: Um, Mike Brown and uh --

MS. : If you don't know his name, that's fine. How would you describe him?

: I know he had dreads.

MS. : Okay. So it is Mike Brown and

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the guy with the dreads?

: Yeah.

MS. : Okay. So at this point, um, you said you see Mike Brown and the guy with the dreads take off through there?

Uh, yeah, um, like I said, I'm on different sides though. Mike Brown is on the driver's side of the car, so he takes off behind the vehicle directly in the middle of the road.

MS. : Okay.

And his friend, there was a parked vehicle, and maybe a little bit behind the police cruiser.

When you point to it, will that help you a little bit?

The vehicle was leaving right there.

Okay.

: It was actually two buildings.

Okay.

Two buildings. I would say his friend was in the front and he runs, like I said, to the very first one to the trunk of it because the officer gets out of the car and started shooting and his shooting stance and taking large

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

steps. I don't remember seeing him running.

I'm sorry I cut you off. So you see this guy with the dreads, where does he actually go.

He runs, yeah, he runs behind the trunk of the white car, the first one.

MS. And when he's at the car, what does he do?

: He looked at the officer to make sure the officer's not coming to him. Because like each shot that went off, he was like, you know, ducking each time.

You saw him ducking. So you're saying that what (inaudible), so can I say you are assuming what he's doing?

A Yeah, I mean, yeah, that is what he was doing, that is what he was doing.

MS. He was ducking, right?

: Yeah.

MS. : And he's now behind the trunk of the car; is that correct?

: Yes, uh-huh.

MS. And you're able to watch him do that?

: Yeah, I clearly saw him. He's

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

ducked down looking at the officer is like each shot that went off, he was like bam and going around the building to the passenger side. And then I notice that the door was opened, I don't know how wide the door was open, but each shot that went off, he was kind of like bam, going over to the side watching him but then I said that I noticed he went past him.

MS. Let me ask you. When you were watching the guy with the dreads behind the vehicle (inaudible) as he is going to the passenger side, did you then leave from your view as he's going to passenger side?

: No, no, no, I could see him clear, he didn't hop in until, like he didn't hop into the vehicle until, uh, I think that he noticed that his friend now did hit the ground.

MS. : Did you actually see him hop in the vehicle.

No, I really didn't because, um, I more, when he past, I more started focusing on the guy that he was shooting at now.

MS. : Okay. So let's back up.

: Uh-huh.

MS. So the two guys start running?

Right.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. : They're at a different point, they're at different areas of the street, right?

: Yes.

MS. : Okay. Your intention is initially on who?

It is on both of them, it's -- it's on both of them.

MS. : Okay.

So, um, like I said, when -- I didn't want to leave out that window, I just seen an officer shooting, and that gets me like, hum. I'm just thinking that he was going for his friend also.

MS. : And you're assuming that?

Yeah, I was assuming that, but I kept my eyes on both of them. I see one running straight down the middle, this one is going for the very first car that he sees.

MS. : So you see Michael run down the street and you see the guy with the dreads run down to the car?

Yeah, the guy with the dreads, he was the main focus as I'm still noticing that the officer is shooting straight, but I'm looking at him is because I'm thinking that the officer, like, uh, (inaudible) there is a pause, cause there is like a

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

pause by the time he went past this time. So there is a pause right there during his shooting when, like I said, I was thinking that he was going to go to his friend and shoot him. That's why I was main focusing on him at that point.

MS. : So at that point when Mike Brown starts running, your main focus is on the guy with the dreads?

: Yeah.

MS. : And when you see the officer get out of the car, you're assuming that he's going after the guy with the dreads?

: No, no, no, no, I knew he was going for Mike Brown, but I kept my eyes on all of them.

MS. : Okay.

: Mainly that I see the guy with the dreads looking at the officer and the officer, he -- he goes past him. I'm -- I'm sure that the officer see him where he ran to.

MS. You are sure of that why?

Because when he gets out of the car, the guy with the dreads, he was already in front of his vehicle, he runs to the trunk of the first car that he's seeing. He is looking over the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

trunk, ducked down, I'm sure that he saw him.

MS. : Okay.

I'm sure of that because --

MR. : Now, that's important, okay. That's a good example, I mean, obviously you can't be sure of what someone else saw, right?

Okay, okay, right.

MR. That's just an example, just be sure that we are talking about what you actually laid eyes on and what you saw, okay?

: Okay, okay.

MS. So you actually saw the guy (inaudible) the police officer?

: Uh-huh.

MS. Is that right?

: Yes.

MS. : Did you see the police officer look over at the guy with the dreads?

: Um -- no.

MS. : Okay. And so now you have, um, how soon after if you saw, how soon after when the boys start running did the police officer run immediately over or get out of the car?

: No, he gets out of the car immediately.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. Okay.
Immediately. Cause as soon as he breaks off just about when, like I said, Mike Brown gets past his vehicle and to the back of it, and he gets out immediately and starts shooting.
MS. So the police officer gets out and Mike Brown goes past his vehicle.
: Yeah, just -- just about time, um, and a little bit before that.
MS. : Okay. And then you said the police officer, did he have his gun out?
Yes.
MS. How did he have his gun pointed?
: Directly like in shooting position.
MS. : Okay. And you had your eye on that and you're watching?
Yeah --
MS. And the guy with the dreads?
Yeah, at the same time so. Like I said, um, mainly I didn't want to miss anything like that, you know with my own eyes, but I see it on the movies, but like I said, uh, the guy with the dreads, he was looking at the officer as he

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

was walking by shooting. That's while I was still in the window and I know that he went past him, that's when I went outside.

MS. : So you say the officer was shooting, how do you know he was shooting at that time?

Cause that's when I heard the gunshots when he's out the vehicle, the moment he gets out the vehicle.

MS. : So what did you do when you heard gunshots?

I'm still in the window and, um, he's shooting, he's walking past his own vehicle to the back of it. And um, like I said, the first vehicle that the guy with the dreads run to, that vehicle is a little bit behind the police cruiser.

So he walks past that vehicle to where his friend ran to and walked past that and that's when my time was to run outside then.

MS. : Okay. When you say he, I'm not sure who you are talking about. (inaudible)

: The guy with the dreads.

MS. The guy with the dreads, okay.

Uh-huh.

MS. : I just want to be clear. So

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

you decide to do the window after you see the police start shooting, but did he stop shooting at some point?

: Um, I think there was a pause in that when he past his friend, when he past the vehicle to where the guy with the dreads.

MS. Okay.

: When he past the vehicle.

MS. : When the police officer past the vehicle with the guy with the dreads, that's when there was a pause in the shooing?

Yeah.

MS. Okay. And that's when you --

Yeah, that's when I runs outside, that's when I runs outside and when I gets outside, now Mike Brown is facing him instead of have his back towards him.

MS. Okay. Let me ask you this though.

Uh-huh.

MS. : Before you went outside, you said earlier you yell to

Yeah, I yell to for her to go outside because they shooting. That was cause I going outside at the same time, so I say don't go

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

outside cause they're shooting. That's when I notice that he past his friend at that time, so that just gave me enough time to go outside at that time.

MS. : Why did you want to go outside when there is gunshots being fired?

: I mean, like I said, I never seen nothing like that. You never seen nothing like that. I know the direction was going straight down the street going toward somebody that just ran from the vehicle.

MS. : Okay.

: So.

MS. : So by the time you got outside, you said Mike Brown is now facing the officer; is in that correct?

: Yeah, uh-huh.

MS. And tell us what you saw at that point?

: Um, the moment I gets outside, Mike Brown is now facing the officer and he got both his arms on his stomach, like bent down. So I'm thinking like he's now hit in the stomach somewhere.

MS. Okay. You are assuming that now?

: Yeah, I was assuming, I was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

assuming that he was hit down here somewhere cause he is like this, um, curled up.

I remember him taking like two small steps because he kind of ran past his death spot where he passed away at, he kind of ran past that. When he turned around, he got his arms on his stomach, he bent down, I remember him taking like two small steps cause he was going like stumbling.

MS. : Okay.

So, uh, and the officer lets out four or five more shots at him and he hit the ground.

MS. So, just so that I will be a little more clear, I know I keep asking the same things. When you go outside, you see Michael Brown facing the officer and you were demonstrating, would you mind standing up and describing where his hands were at in the area for the recording?

Yeah, so when I gets outside he is now like this.

MS. : And you are actually, and so for the recording, you are now Michael Brown, right?

: Yeah.

MS. And you are saying he is almost like --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Like bent down, like he was going down.

MS. : Okay.

: Like he was going down. He took like two small steps, like he was stumbling.

MS. : And you have both hands across your stomach and your waist; is that correct?

A Yeah. So, um, so when I seen that, um, that's when the last four or five shots come out. And he drops just like how his body is and, you know. Let me see, yeah, one more, yeah, I mean, they both, yeah, he just was like how he fell. I think one arm fell, something like that.

MS. : You are showing one arm is down on his side --

: Yeah, when he hit the ground.

MS. : Let me just be correct for the recording. Do you know whether it was his left or his right or you just, you just know one hand was across the stomach, waist and the other one was down at his side?

Both of them was on his stomach and when he gave out the last shots, his body just boom.

MS. Okay. And you're showing one

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

arm across his stomach and the other arm to his side?

: Yeah.

MS. : Okay. And by the time, and you say, when you saw was the officer firing those final shots; is that right?

: Huh-uh, yes.

MS. Okay.

: So I think that is where the pause come from.

MS. : Okay. You can have a seat, thank you.

So your memory is some shots, when you are peeking out, looking out the window through the blinds.

: Yes.

MS. : And then there are shots right that you saw right before he fell; is that right?

: Yes.

MS. Was out there, you were on the balcony at that time?

: Yes.

MS. Were your kids with you?

: Uh, yeah.

MS. How many of them are there?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Uh, there was three at the time.

MS. : Okay. How old are they?

: , and .

MS. : Okay. And so, um, did you, when you ran outside, you said initially, we're talking about pause, you went outside, you realized you forgot your phone and you went back and got your phone, and the kids come out at the same exact time as you?

Yeah, like at the same time, at the same time.

MS. Did you grab it? Did you have any kids with you or did they follow you?

: No, um, during the, she lets the kids come outside at that time.

MS. : Okay.

: I remember she called them to come outside.

MS. So did all three of them kind of walk out with you, is that what's going on or what?

I think they came out a little bit after me cause she called them outside.

MS. : Okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. WHIRLEY: Let's stop there because I think we're all kind of restless. You probably need a break.

MS. ALIZADEH: It is 10:29, and we've stopped the recording of the fourth interview of . It looks like it is about halfway through and it has been going on for quite a bit. So this will be probably a pretty good place to take about a five, ten minute break, get up, stretch, go to the bathroom. And so at this time, we will pause the recording, take a few minutes to have a break before we resume.

(Recess)

MS. ALIZADEH: All right. It is 10:44, all 12 grand jurors are back in the room after a brief break. We are going to resume the playing of the audio statement of the fourth statement of .

And at this time I will ask the court reporter to pause the audio recording that we are making and he will continue to transcribe or take down the statement as best he can that is being played for grand jurors, which is contained on Grand Jury Exhibit Number 23.

MS. : And then once Michael Brown

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

fell, the officer, did the officer go near the body at all?

: Yeah, um, not too close, maybe 4, 5 feet away. He kind of standing over him, you know, with his gun out on his talkie thing.

MS. You are pointing to his shoulder, so you saw that?

Yeah, I definitely seen him, you know, like this, you know, with his gun out still.

MS. : Okay. And you are demonstrating talking into the mike on his shoulder; is that right?

: Yes.

MS. Okay. You didn't see the officer touch the body or do anything more with him?

: No.

MS. : Then afterwards, what did the officer do?

Um, huh, huh, huh. I think, uh, let me see at that time I was messing with my phone, turning it on. So, I think, I think I haven't really noticed it until the other two cops came.

MS. Okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

I just notice like wait, a cop just shot somebody and I'm still turning on my phone because it was off.

MS. : Okay.

: Let me see. Yeah, I can't remember just like before the other, the first two officers came, and like what he was doing at that time like right after he did the shooting or whatever. I know when he got done, he was standing over him on his thing.

MS. : On his radio --

: I can't remember if he walked to his car first or he came back before the other two came.

MS. : Let me ask you this, were you at all trying to get your phone to work while, before Mike Brown went to the ground while this whole thing was happening, were you trying to get your phone to work?

Oh, no, I was already outside, like it didn't come on until the first two officers came.

MS. : I understand that.

: Uh-huh.

MS. : Did you try to get it to work

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

before then.

Oh, no, huh-uh.

MS. No, okay. Um, and just going back, you said you saw his arms crossed, across his stomach area, did you notice anything about his hands?

No, no, I just thought he was shot in the chest or the stomach or something.

MS. : As far as your vantage point from what you saw, his arms and his hands were across his stomach, correct?

Uh-huh.

MS. : Is that a yes?

: Yes, yes.

MS. : At any point did you see his hands in the air?

No, I didn't, I didn't.

MS. : Okay. When you decided that you were going to go from the window to the outside to the balcony because there was a pause, how did you know that that would be a good opportunity to go outside?

Because, I mean, like just seeing an officer with a gun just shoot, just, you know, just anybody shooting period, you know. I

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

just see him gets out of the car shooting, you know, and I'm paying attention to the guy with the dreads. Cause I'm thinking that he could just easily walk over and shoot him dead. Like I didn't want to miss that or something like that, you know.

So it is just, that was just my timing right there like when I notice that he walked past the car and that was just my timing right there bam, he just got done like with a pause or something because I said when I gets outside, it was still like three, four, maybe five more shots.

MS. : Okay. And what happened when you got outside, what was the kid with the dreads doing?

Um --

MS. : Did you see him?

You know, I got my eye, I really kind of stopped paying attention to him. Because as I said, I did notice that the driver, passenger side door was open on that car, but I stopped paying attention to him so, and I started focusing on Mike Brown cause now he's dead, and the officer started walking towards him with the gun.

So, um, let's see, yeah, that's it about that one, yeah.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. I notice in some of your previous statements you had said that the kid had just got in the car and the car had driven off.

: Yeah, um, I, I, I, I think that was maybe right when he saw his friend die, you know, hit the ground.

MS. : So my next question is, did you actually see him, the kid with the dreads, get in the car or did you assume he got in the car?

: I, I, I assume, I assume that because the car was gone right after that, the car was gone.

MS. : And where were -- and did the kid with the dreads (inaudible) where you could see him?

: No, I figure that he hopped in and asked to pull off.

MS. Right. You figured that, right?

Yeah, you know, I kind of stopped paying attention when he walked past him.

MS. Okay, but you actually saw for yourself, the last thing you saw was the kid kind of ducking around that car?

Uh-huh.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. And moving?

: Yeah, ducking. And about time he gets to the passenger side door because it was open, about the time he got to that, I said the officer passed him, so that's when I came outside and started going on Mike Brown now.

MS. : Okay.

MR. : So the last time you seen the guy with the dreads, he's headed for the back of that car forward --

Yeah.

MR. : -- towards the passenger door?

: Yeah, yeah, ducking down looking at the officer all through that time.

MR. : But he is heading away from Mike Brown and away from the officer, the opposite direction?

Yeah, yeah.

MR. : Okay, all right. And, um, so at that time you are watching the officer.

: Uh-huh.

MR. : And the guy with the dreads and Mike Brown, I think you previously said, Mike Brown was about 25 feet --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Yeah.
MR. : -- past where that was. So at that point you're not watching Mike Brown, you're watching the police officer and the guy with the dreads?
: Yeah, um, cause Mike Brown, he kind of ran some distance at that time. Was he in your field of view, like could you see him from when you were in your bedroom looking out the window, were you able to see him?
Uh, Mike Brown, I couldn't see Mike Brown, cause of, cause of the way, I could see his death spot out of my bedroom window, but as I say, he ran past just a little bit.
: Past --
: You know, that would be right there, that building, I think it is that one right there, that building right there. He was out of my view at that time, but the officer past his friend, that was my opportunity to go outside.
MR. And when, okay. So he, Mike Brown left your view there.
: At that moment.
MR. You don't know, so then you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

don't know what's he doing?

: Exactly.

MR. Okay, thank you.

MS. : And the next time he came into your view is when you went outside and you are on the balcony and you saw?

: Uh-huh.

MS. : Him facing the officer and as you described, his hands across his stomach.

Yes, and like I said, they were still, 25, I don't even know my measurements good enough.

: That's fine.

MS. We don't need --

It was some distance.

MS. : Were you able to hear any words coming from either the officer or Michael Brown?

No, no, not at all.

MS. : Okay. Did you see their mouths moving at all?

: Umm, no. Just the only time, they got me, that he was talking on his thing.

MS. : Right.

You know, I'm not sure what he was saying, but he's talking.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. : You are referring because the audio recording that you are referring, the officer was talking into or his radio on his shoulder, correct?

Yes, yes, yes.

MS. : Okay. I just want to ask you, after it all happened and you were on your cell phone, you're recording?

: Uh-huh.

MS. : Can you just talk about who was around you? I know you said you were narrating it, there are people in the background.

Yeah, like I said, it was a guy on that parking lot already in a burgundy, maybe a burgundy Bonneville. Him and his girlfriend they was already sitting out there and they were just talking.

And I remember him saying something that the officer reversed back and ran over his foot, but I remember him saying like on a recording that I assumed that he just ran into the car and got to punching on him or whatever, you know, but he said that he ran over, that he reversed back and ran over his foot and tried to grab him through the car window.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. : Do you know this person?
: No, I never seen him before.
MS. : Have you seen him since?
: No.
MS. When this discussion is happening, this was occurring on ground level?
: Yes.
MS. So the recording you provided St. Louis County, was it from the balcony?
: Yeah, it was from the balcony.
MS. Okay. So just help me understand that. When I watch that recording, it seemed like, and what you just told me was on the recording. The person in that car, that burgundy car down below talking up to you?
: Uh, you know, I can't even remember. I don't know if he came up or not, like on the steps wise. So I really can't remember. I really can't remember.
MS. You say a burgundy car?
: Yeah, yeah, I know that when I went out there onto ground level, that's when I was really talking to him, but I'm trying to remember like if at the time when I was recording on my balcony, if he walked up to the steps, cause I do

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

remember that, you know, so I really can't.

When you say balcony, I'm sorry, I want to clarify for my own, is it right outside your front door or a door outside of your living room.

Yeah, it is right outside the front door.

: Okay. So steps are right in front of your door?

Yeah, right in front of my door, the balcony is right there.

: Gotcha.

: Yeah.

MR. : You indicated initially when you went to leave your window and go out to the balcony, that you had to double back to get your phone.

Uh-huh.

MR. : Where was your phone?

: My phone was in the bedroom.

MR. So you went from your bedroom to the door?

Yeah, yeah, yeah. As a matter of fact, my phone was right there, right there by the door of my bedroom. I have a little stand right

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

there, so I ran that, grab that and went back to the front door.

MR. : All right.

So I was headed, I took some large steps too, I don't think I missed too much from that.

So when you said you saw the officer get out of the car.

: Uh-huh.

: Did you see what kind of car, vehicle, he was driving, what type of vehicle rather?

: Um, it was definitely a truck, the Tahoes, the Tahoes.

Okay. So when he got out of the car, and the Tahoe is a pretty big car.

: Yeah, yeah.

SUV.

: Uh-huh.

You could see the officer and what he was doing?

: Yeah, I could just see his movements, you know.

Okay.

: You know, so.

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

I think after Mike Brown ran away.

: Uh-huh.

Officer, gets out of his car, you can see the officer.

: Yeah.

His body position?

Yeah.

Over by his car?

: Yeah, basically from like his chest on up.

Okay.

: So I didn't -- I could see like see his gun too, but not like his stomach on down to until he got past.

: Okay.

: You know, so.

And you heard the gunshots?

: Yeah, that's when I started hearing the moment he gets out of the vehicle.

I'm sorry, I can't remember if you said this, do you know how many?

: How many he shots?

: Uh-huh, before the pause?

: I don't know, maybe five.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Are you guessing?

: That should be about four, five.

Okay.

Yeah.

MS. : If you're not sure, it is fine to say you're not sure.

: Okay. I know it was a nice round because he gets out of the car immediately and started shooting, just like I said, each time that he shot, I was like I said, I feel for the guy with the dreads. I think of it as a nightmare too because each time he saw the officer shooting, he was just like, you know, kind of like, I seen his body jump just looking at each time like he was like a duck that he was giving hisself around the vehicle. So I would have to say about four or five.

MS. Okay. Do you remember when you first talked to the County detectives, you gave a recorded interview and a couple minutes later, you had a follow-up right away and they went back on the recording, do you remember that?

: Um, with them?

MR. : It would be on the same day, August 9th. It was about four or five hours after

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

all of this happened that day they came and they talked to you?

: Yeah, yeah, yeah, it was that same day.

MS. You gave a recorded statement and literally within a minute, maybe even seconds later they went back on the recording. Was there something that you had asked that you said I wanted to ask you about. You had said in talking about the initial altercation, you had said that, um, that you heard the shots before the police officer got out of the car and that's what made the police officer get out of the car.

So I know that since then and today that you heard the shots after the cop got out of the car. Now one point you said that, that is what I was just wondering.

: Um --

MR. : You said, what is referring to, Detective asked you, when did you hear the first gunshots, you said you heard gunshots.

You said, I was in window. And Detective asked you, and where was the officer at that point.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

And you said that he was still in the car, that's when I saw the altercation, whenever it was happening in the car and the guys ran.

And so at that point you indicated the first shots were while the officer was still in the car.

And let me ask you this, kind of, you mention at the very beginning, I meant to ask you this earlier, but that the guy with the dreads and Mike Brown took off running at like the same instant.

: Uh-huh.

MR. Is that right? They both just took off running at the exact same time?

: Uh-huh.

MR. : And you hear or seeing anything that would cause --

: That's the point, I didn't even hear a gunshot go off while the officer was in the car, you know. So like I said, I really didn't hear. The only thing I heard was a hard tussling, you know. So that is what drew me to the window, I could hear everything because it echos, so I could hear everything, but that is what drew me to the window.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

But they did take off at the same time, but I really, I didn't think that maybe a shot went off in the car or something because that was a good timing, you know.

MS. : The reason we ask you is because as just read to you the transcript of your statement, you said at that point that the shot had gone off in the car.

: Yeah, maybe, I mean, I know for sure I didn't hear a shot go off in the car, but, um, like I said, that's probably wasn't like the first interview, that's maybe because I'd have heard that a shot did go off so, you know, I was trying to put a puzzle together too, maybe that's the reason why they ran, but I didn't hear.

MS. : So there is about four hours from the time this whole incident occurred to that the time that the county cops interviewed you. In those four hours, I know that you videoed a lot of it, or people on the street, did you talk to your neighbors, kind of talk --

No, because a lot of people are my neighbors, they didn't see everything. They didn't see, it was just a main guy got, uh, from what I saw I kind of, you know, I like his beginning

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

from when he said he saw Ferguson pull up on these guys.

MS. That guy in the burgundy car?

: Yes, yes.

MS. You talked to him?

: Yes.

MS. When you talked to him, did the two of you kind of piece this together?

: Um, like I said, he saw the whole thing basically, but I pieced his with mine.

MS. You say he saw the whole thing, and he never gave you his name?

: No, huh-uh.

MS. Do you know how to find him?

: Not at all, not at all. I don't remember like seeing him again afterwards or the vehicle.

MR. Can you just real quick, can you tell us what he told you again about what he saw?

That he said, um, um, that the officer pulls up to them and the officer says something to them and they say something back, and he reverses back and like I said, that's why the police cruiser is in the middle of the street

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

diagonal because he cuts Mike Brown off.

And he said that he runs over his foot to catch him or whatever, he said that he reached out the window to hold him or whatever, and, um, and maybe that's where the tussle started at. Going on maybe to let him know or whatever he, maybe he was punching on him in the window, whatever the case. That's when I came to the window because I heard the little tussle.

MR. Did he say anything to you about a gunshot while the police officer was in the car?

: I -- I really don't --

MR. Or did the officer say something about that to you?

: I don't think that he did, I think somebody else said that, somebody else that walked up and said that a gunshot, that's the reason why they ran so fast so, but I don't remember that the guy with the purple car that said that to me.

MR. And so as you sit here today, do you know whether the first shot was, whether you heard the first shot while they were, while the police officer is still in the car or after he got out of the car.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

I only started hearing shots when he gets out the vehicle.

MR. : Okay. And this individual that you talked about who told you what he saw before you actually started looking out the window, you didn't see any of that, the police officer pull up and an exchange between the two of them talking or him backing the car up, you didn't see any of that.

: No, I didn't.

MR. Okay. Did you want to take a break? I think we will take just a few minute break.

: Okay.

MR. : You want to leave this on? That's fine, that's fine.

MR. : That way we don't have to come back on for .

: I hear you, I hear you.

MR. : We will be back, thank you for your time.

: We will just be a second.

: Okay, not a problem.

(They took a break.)

Sorry about that, okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: No problem.

: You okay, you need to go to the restroom or anything like that?

: No, I'm fine.

: So we have a couple more questions.

: Okay.

MS. : So what is saying, we really aren't going to go and tell anybody that you gave us this information or that we spoke to you because when we do our investigations, we want to find out what happened. And the only way to find out what happened is if people feel that they can truly just kind of open up and let it out.

: Right.

MS. If we end up saying oh, so and so said this, what do you think about that?

Right.

MS. : It kind of doesn't, it, it doesn't, it muddies the water a little bit.

: Yeah, yeah.

MS. We talked about what you know and we want you to, we really want to show you that we're never going to go to another person and say hey, told us this or that. It is kind

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

of like, yes, you gave interviews before, and yeah, you were on TV, but in here, this is totally separate and apart.

Okay.

MS. : This is your opportunity to kind of lay it out. I know that you are concerned about, I think you said you saw some websites about snitches and so forth.

: Yeah.

MS. : And so is that from concern from in the community?

: Uh, yeah, it could be anywhere, you know, it could be anywhere. It could just be anywhere, so I'm not even sure, you know.

MS. : We get it. This has caused a lot of people to take sides and so forth, and we just want to figure out what happened.

Uh-huh.

MS. : We really do.

: Uh-huh.

MS. We want to know and what they saw.

: Okay.

MS. : We are not going to say oh, you know, we got your information from

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

because, you know, nobody is going to find out.

: Okay.

: is there something specific that you don't want to tell us?

Uh, no.

Because I'm concerned that you might have been directly threatened or there is people, because you keep looking down when you talk about it.

: I mean, everything I'm just, nervous.

That's okay.

I'm not comfortable, I'm just like after this, you know, uh, I think of stuff like that. I said like, you know, everything that I've done and like I said, I go to work, I go to the store and little kids they recognize me and a lot of people, if I get paid a nickel every time I hear the word superstar, you know, I would be rich or whatever. I don't know, it is just --

You know you're not in trouble to feel this way, you are not in this alone. You know, you know, you see the news, there is other people too that they do know the position that you are in.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

And I know it is a lot different talking when the cameras are rolling and then talking to us. Because you understand that there's the lives are affected by, specifically Michael Brown's parents and also the lives of the officer and Ferguson police officers. So we absolutely 100 percent, I know you are a good person, you have a family.

: Yes, I do.

: That you are concerned with, so if there is something more going on, if you want to explain, I suspect that there is, we need to do that, okay?

: Yeah.

: Do you trust us?

: Yeah, I trust you.

MS. Okay. So going back to that, going back to the video that you have, right?

: Uh-huh.

MS. So you were saying, dude, that guy just went up on him, started punching him?

Yeah.

MS. That was your reaction?

: Yeah, that was right away.

MS. : That was your gut reaction based on what you saw, am I correct?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Yes.
MS. That Michael Brown went up to that car and started punching the officer?
: Yeah, yeah, cause, like I say, I look at cops all the time, you know, and I see other stuff that, you know, it is a lot of people out there that does stupid stuff to make an officer, you know, to get down on them or whatever. But that definitely what I assume.
MS. And -- what you saw, though, right, you are watching this go on, right?
: Yeah.
MS. So what you saw, correct me if I'm wrong, this kid is doing something really stupid.
: Yeah, I mean, yeah, because like I said, when I see somebody hit a police officer, here I'm hearing a tussle like that, it doesn't look right. So I assume that, you know, some guy just run up to the car and started punching on him and the officer gets out of the car and shoots him dead.
MS. : Right, and your immediate reaction this kid just did something that was pretty stupid. You said he got up in the officer's shit,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

and those are your words, right?

Yeah.

MS. : Okay. And your words are like that kid just went up and started punching on that officer.

: Uh-huh.

MS. : Yes?

: Yes.

MS. : In the background I know that this guy in the red car started like saying oh, no, he started talking about running over and all of that.

Yeah, but still at the same time, I only see the moment when he was already at the vehicle, so I didn't see him run up or anything like that.

MS. : Right, right. So I wanted to ask you some more about that that guy in the car.

: Uh-huh.

MS. : Here is the thing, anything you know that could steer us in the direction of finding him, we would never say told us who you are or how to find you, but it is really important. We need to figure out what happened, right? There are people who, people who were there,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

who saw it.

I mean, if something just come to my mind, I mean, like the video that I have, maybe you could check the license plates on that vehicle.

MS. Okay.

: And go from there maybe, I don't know.

MS. : Okay. Is there any other thing that you know about him?

: No, that's the only thing.

MS. : Because it just seems kind of weird to us, right, that this stranger starts coming up and having a whole discussion with you?

Yeah, I mean, everybody just started talking to everybody.

MS. : I know.

: Like I said, even when I had started recording, you know, I started talking of what I assumed, what I saw.

MS. : Right.

: Uh, even though I saw him already at the window, but I just put it to the point he ran up to the car and started, you know.

MS. : What you said was he got up in

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that officer's shit and started punching him.
: Yeah, yeah, yeah, that is exactly I saw. He ran up all up in his shit, whatever, so.
MS. Is that what you saw, that is what you saw.
: Yeah, but still, I mean, when I saw this kid be different like, as far as like he could be grabbed to the car.
MS. Did you see him get grabbed?
: No, I didn't see him get grabbed, but if --
Have you ever, I'm going to take his off, have you ever been in a physical fight before?
Yes.
Fight with somebody. Now imagine, did you feel like you were at an advantage or disadvantage?
: I mean, you know, I feel if you are in a fight sometimes, you know, this guy's getting an advantage.
Let me ask you, if you are sitting down and someone was standing, who would you say had the advantage there?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Of course, I believe that's a truck that, of course, anybody standing out of the vehicle would have an advantage.

: Okay.

: Because I've seen it before with my own eyes, that if a guy gets out of the car, they get to punching on somebody that's in the car, you know, because they almost can't do nothing with two hands, you know.

: Okay.

: Maybe with one, grab one hand or whatever, but you know, so that there is anybody outside the car would have the upper hand, you know, so I do see that.

And did you see that?

: Yeah, I mean, I look at it like I said, anybody outside the vehicle has the upper hand.

Right.

: I assume, you know, he ran up to the car and punched him up in his face or whatever, then they takes off running.

So based on what you saw, did you see, did you feel that Michael Brown had an advantage or did you think it was the other way

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

around?

A Uh, I mean, the advantage, he definitely has an upper advantage if he's throwing punches, if he's throwing punches from outside the vehicle. So, but like I said, it could be different reasons why, you know, he was on the side and then pulling, trying to be pulled in or something like that, but.

We're not asking you to figure that out either, so don't feel like you have to.

Okay.

We're just trying to find different ways to kind of jog your memory.

: Yeah, but anybody standing outside the vehicle they would have the upper advantage on throwing punches.

MS. : Could I ask you some more about that guy in the burgundy car?

: Yes.

MS. About how old is he?

: I know he's younger than me, a lot younger guy. I'm not even sure how old he is, I know he's younger.

MS. Was he black or white?

Black.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. Was he with anybody in the car?
: With a girl, maybe his girlfriend.
MS. : Did you hear him call his girlfriend by name or anything like that?
: No, huh-uh.
MS. So this is just some guy that randomly is sitting in your neighborhood at that exact moment?
: Uh-huh. And when I got the recording, I got to talking and then I got on ground level and got to talking to him because he's already right there and I got to --
MS. What kind of car did you say it was or do you know?
It was like a burgundy Bonneville.
MS. : Okay. Does know him?
: No.
MS. : Did you guys ever find out afterwards who he was.
: No, not really, not really, not really.
Anybody else in the neighborhood who told you that they saw what

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

happened?

From the beginning, there was another guy, like I said, that walked up, he had dreads too. And he said gunshot went off in the car and that's the reason why they took off running.

MS. : Do you know him?

: No.

MS. : Ever seen him before.

: I've seen him around the apartments, I've seen him before.

MS. : Do you know his name?

: No.

MS. : Okay. Do you have anything else you want to tell us?

: I have something to ask.

MS. Sure.

: You reverts back to about the statement that the police or whatever came to my house and I did that and, um, I mean, I hear a change, you know, you already told me, you know, can you change anything, but you know, I'm hoping that I don't get in trouble for that.

MS. : You're not in trouble.

: I just said maybe, maybe when I said that is cause, like I said, I already had did

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

so many interviews already, so each time when I like hear, you know, what, even one time when I had like my first of two interviews.

MS. : Uh-huh.

My first of two interviews, my first of two interviews I was already saying he, the officer let out about eight shots, eight, nine shots. But then I remember like a few more interviews after that, that's when I notice about the, I saw the autopsy. And I remember telling the reporter, I said they only found six shells, that Mike Brown was hit six times, you know.

I was saying like, he only shot six times through that whole time? So, you know, I was breaking that down so, but if I even said that to him, it is probably, you know, because I already heard somebody said that's the reason why they ran cause a shot went off.

MS. Here is the thing, you are not in trouble, okay?

Okay.

MS. : I don't want, I want to put you totally at ease. I understand that, you know, you're sitting here talking to federal agents, federal prosecutors and it can seem scary to

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

anybody, okay?

: Uh-huh.

MS. : You're not in any trouble, as long as you just tell us what you, yourself remember.

: Yeah.

MS. : The best that you can, okay?

: Yeah.

MS. : Okay. As long as you do that, you would only get in trouble if you lie to us.

: Yeah.

MS. : That's why we want to make sure that you are telling us, we want to know the truth.

: Oh, okay.

MS. : Whatever side it falls on, whoever it helps or doesn't help or hurts, we just want to know what happened.

Okay, not a problem, not a problem.

MS. : We don't want you to get worried about getting in trouble. We do want you, we want you to just talk about it later, you are a piece of the puzzle, all right? Nothing rises or falls with you, nothing makes or breaks with you. Even though you are on the news or media calling

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

you, that doesn't matter. You are a witness on a case like any other case, okay?

: Okay.

MS. : And so we just want you to tell us what happened.

Okay.

MS. We understand it happened quickly, people have different vantage points, different views of things.

Right.

MS. : We want to know what you, saw and heard.

: Okay.

MS. So is there anything that you told us here today that you want to correct, that you think maybe we didn't understand correctly?

: No.

MR. : I think you said something about being concerned about changing things or whatever. You should have seen how many, us sitting here today, this is a clean slate, okay?

: Okay.

MR. : What you have had to say before doesn't make all that much difference. What we are interested in is how do you recall this.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Right, uh-huh.
MR. We want what your best recollection is.
Okay.
MR. : So don't worry about trying to keep things straight or not changing things. I mean, if you recall things differently, then you just need to let us know.
Right, right, right, right.
MR. : And I mean, as we sit here, is there anything at all that, you know, as you look back at it, that you are concerned at all?
Um, no, I told everything, the whole story, everything you guys asked. I mean, that's really nothing. I mean, it is just kind of, it is just maybe a few questions. About if a gun went off in the car.
MS. Look, some people heard one thing, others heard another. You didn't hear it, you didn't hear it. We just want to know what you, yourself, heard and saw.
: Okay.
MR. : We want to know what you actually know. If you're not sure, if you don't recall, we need to know that, okay?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Okay.

MR. : What is your concern about that, about the shot was in the car?

: No, no, I mean, not too much of a big concern, but it just, uh, uh, like basically me just wanting to know if a shot really did go off in the car.

MS. : We can't tell you one way or the other.

I understand.

MS. : Here is the thing, it is like we said before, if we tell you what someone else said.

: Absolutely.

MS. : What you, yourself, saw. It is natural when people start telling you things.

: Gotcha.

MS. : You start putting pieces together.

: Uh-huh.

MS. : And you, you know, you may start thinking you know something when in fact, you know, you don't.

: I understand, I clearly understand.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS. Okay. So you brought up before, so is reading what I refer to the statement, is reading a transcript of it. The reason we were asking about it is it was clearly something different that you said from what you're saying today. It doesn't mean you are getting in trouble for that, we are just trying to figure out why you said one thing on one day and why you are saying a different thing today, and that is why we brought it up.

: Okay. That is just that little part.

MS. Right.

MR. And you said other things before, you mentioned different --

: Yeah, yeah, yeah, I was adding --

MR. : You have talked about, yeah, right, I'm just talking about, you know, when you go back through those statements, there is that one instance we talked about, you know, where you talk about the police officer being in the car when you heard the first shots fired.

Other times you talked about that he was out of the car when the first shots were fired.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

What we are trying to figure out is just how you best recall it or whether or not you are sure about whether he was or, you know, at the time that the shots occurred, that's all we are trying to do.

: Okay, not a problem.

MR. Well, I mean, let me just touch on that one more time. Can you tell us what you recall about at that point as you are looking at the window?

: As I'm looking out the window, I see Mike Brown at the driver's side window of the police vehicle. I see a tussle, I see his arms moving, I see the officers arms moving, so I heard a hard tussling.

Then all of the sudden they just takes off, they just takes off running. I see his friend, like I said, he runs to the first car that he sees, runs behind the trunk of the car because the officer immediately gets out of his vehicle and started shooting. So I see him looking at the officers as he was taking large steps going for Mike Brown.

About the time that I notice that the officer went past his friend, that's when I came outside. By the time I gets outside, I see Mike

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Brown now facing the officer. He's bent down, got his arm under his stomach and, um, like he was going down, not even to surrender, to say give up, just going down to bleed a little, but the officer just lets out four or five more shots at him and then he hits the ground.

MR. : All right.

Just like (inaudible).

MR. : You said several times too that those first shots that officer fired, closer to the car, that you heard those. Are you sure that you actually saw him fire those shots or did you hear those shots, or because you said several times, I notice in your prior statements that you refer to hearing them.

: Yeah, I saw him. I saw him shooting at Mike Brown the moment he gets out of the vehicle.

MR. : Okay. The moment he's getting out of the vehicle?

: Yeah, the moment --

MR. : Is he fully out of the car?

: Yeah, he is fully out of his car standing with his gun out, starts shooting, but he is still in his vehicle range and his cruiser

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

range. So he ain't even get past it, you know, before he started shooting. So he is just like, he gets out of the car, bam, you know, starts shooting.

MR. : Anything else?

No.

MS. Do you have any other questions for us?

Not at the moment.

MS. : Did we force you to say anything you didn't want to say?

: Uh, no.

MS. Do you think we treated you fairy?

: Yes.

MS. Is there anything else you want us to know, anything else you want us to know?

: Uh, no, not at the moment, but you know, maybe as time go on, I do have you guys.

MS. : Yes, you do. That's a good point you made. I want you to know just because you came in here and spoke to us doesn't mean you can't feel free to call .

: I definitely will because I don't have a lawyer neither.

Do you feel like you need a

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

lawyer?

: Maybe not, maybe not. I'm just looking at why do everybody else have a lawyer.

: That's an excellent --

: Do they feel like me?

MS. : We can't tell you, all we can tell you, you are not in any trouble if you come in here and tell us what happened and the truth, okay?

: Okay.

MS. So as long as you came here and told us what happened.

: Right.

MS. : Then you don't have to worry.

: Okay.

MS. Because that's all we really want.

: Okay.

Can I ask you, I'm concerned about it, I understand the worry.

: Uh-huh.

And I think that if you want to talk to us again or one-on-one if you just want to talk to , you want to talk me, you just want to talk anyone, you can do that too, but I do think there is more to it, I really do. And I want you to

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

feel comfortable with that because understand, you are not in any trouble, do you understand that?

I understand.

: Okay.

MS. : Is there anything else? You seem hesitant, that's why I keep asking you.

: Um, I mean, since, since, you know, I received the call, you know, about, you know, come down to the FBI or whatever, I've been, you know, I can't wait to get down there, you know, I need to tell you how I feel. You know, what's going on, it is just me, do I need to keep doing what I'm doing, go to work, you know, take care of your family, you're doing, you're fine. Okay, so I don't know if I need to be told that, you know, or if I really need some help, you know. It is really, really bothering me.

Like all the way it has been over a month now, I haven't ate good, you know.

I just checked my weight today and I lost some pounds.

: Okay.

At the time that I checked it was like 160, 165. I checked it today, it was like 152.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Okay.

I've been eating like horrible, like once a day, like mostly like at nighttime. You know, so the whole day I eat little snacks, I'm not getting full like, you know, everybody supposed to eat good full like two or three times a day at least, but I'm not eating much, not getting as good of sleep.

What's on your mind?

: I mean, I don't know just, um, maybe just what if what I already did with the reporters and, you know, I be thinking like somebody is looking for me, maybe. You know, I just have weird feelings.

What type of person, what do you think that you did wrong?

: I mean, just the point, um, I did quite a few interviews and I don't think, I only know there's a few witnesses. I think I just notice --

: There is only a few witnesses that went to the media, there is a big difference between only a few witnesses.

: Okay. I don't think they didn't do as many as I did.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay.
But like I said, I don't know if I'm just worried, by me doing that I just immediately felt so worried since then and not having a lawyer and seeing that on the internet.
MS. Are you worried about being called a snitch?
No, I'm not worried about that. I'm hoping, I don't want nothing happening to me, you know. Maybe if my information is really good enough or whatever, and you know, I don't want nobody coming looking for me because I have good information, whatever the case.
MS. : Gotcha.
: I have a weird feeling.
MS. : Well, I tell you this, first of all, and I know if you feel like your personal safety is endanger, you need to call 911, but you have my name.
Yes.
: Okay. If you get any threats or anything you call me. That is the main office number, you can talk to anyone.
: Okay.
: If that makes you --

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

: Okay.

You know, anybody you want to talk with.

: Okay.

: Ask for me, they'll put you through.

: Okay, all right.

: But I suspect there is more to it. I know there is a lot of pressure, like you said, you feel like, I don't want to put words in your mouth, but there may be a bit of a spotlight on you?

Yeah, that too, that too. You know, it is almost like a now, I already got bills that I have to, you know, worry about it now. Now this is just all up in my mind.

Yeah.

: You know, so, I mean.

MS. You said something before about being a good enough witness, there is no such thing as being a good enough witness. Everybody knows what they know.

: Right.

MS. : Or they don't know, everybody plays a part. There is no measure for anything, the

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

only thing we want is for people to come in and tell us what happened. Nobody is good enough or bad enough, they are what they are.

: Okay.

MS. You saw what you saw, heard what you heard and that's it.

Okay.

MS. : Not good enough or bad enough, you happen to be there and see the part that you did.

Okay.

Do you feel comfortable with everything you said today?

Yes.

: Okay.

: Okay.

MS. : Thank you.

: Thank you.

: All right.

: I hope that is good enough.

MS. : I just said there is no such thing as good enough, did you tell us the truth?

: Yes, of course. I done exactly what I saw and just to let you know, the last interview I did with , that last

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

one. You know, I don't know if he was trying to confront me or whatever, but he had the other girl, he had me to listen to her story so see whether my story were to change. I mean, that's what she saw and this is what I saw, you know.

MS. : Right, so you made a good point. He showed you someone else's interview?

: Yeah.

MS. And he asked you about it, right? Is why you feel uncomfortable, this is why we don't tell you what other people said, we just want to know what you said. We are not going to ask you about someone else's.

: I gotcha.

MS. : Okay.

: I gotcha.

MS. : Do you feel like we treated you fairly with the questions?

Yes, yes.

MR. : You are comfortable today?

: Yes.

MR. : Do you feel like we confronted you the way he did?

Yeah.

MR. : That we confronted the way

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

did, is what you are talking about?

Oh, no, no, no.

MR. : All right. But you're concerned about the way (inaudible), that's why you quit doing media interviews?

: No, no, because after that, it just, I just thought I did so many and all of these reporters, they was coming to my house, calling my phone, they coming to my momma's house. I don't know how they got my momma's address.

They called my next door neighbor, I don't know how they get her number. They was just like, when I get home, it has been like a good two weeks after his death, like they like, when I get home, I like to straighten out my apartment. I like to straighten up to make sure everything is right.

I've got kids, you know, I like to straighten up and relax. That's the first thing I like to do when I get home there may be three or four waiting on me, you know, trying to get a piece of me and stuff like that whatever. And, you know, they throw cameras in my face and say, it is live. I'm like okay, whatever.

But it is just after so many of them, that

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

is just when it hit me, that same night after doing that show, I came back home and my fiancee came home too, and we kind of had some words exchanged and she didn't want to give me a kiss or whatever, but normally when she don't do that, I go up and mess with her, but I didn't bother her at all about that.

I just went into the kitchen and started walking around in the kitchen and I started to fix me a sandwich. As I was fixing a sandwich, I've got the two (inaudible) out, but I'm just pacing back and forth in the kitchen. I started sweating and being real nervous.

So when my fiancee walking around, you know, with an attitude, I stopped her in the kitchen and said look, you know, right now, you know, what you want right now is petty right now, I just want to tell you that right now. I'm feeling very, very sick right now, very, very sick. I'm shaking and I'm nervous right now and I'm scared, you know.

It is just since that day, it has been kind of different. Like I said, my stomach started hurting then one morning, on Monday morning, on Mondays I have to be at work about 6:00 in the morning to go to the office, but I woke up like five something with some real chest pains.

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

So, you know, it was just almost like, you know, something trying to happen, you know. One after another, whatever.

I don't know, like I said if I'm just worried. I be on the highway and a couple of times I'll be seeing like almost accidents going to happen or whatever, you know. And like I said, I'm worried, I be worried. It has been twice I seen when I leave off work, I gets on the highway, has been two times I seen a guy on a motorcycle, black motorcycle, black helmet, black everything, follow me. I don't know, he wasn't following me though, but just, you know, I didn't see him in my rear view at first, but now I see him.

And from St. Charles Rock Road to Lucas and Hunt, it is kind of a little distance. He was behind me for a minute and I got to thinking like, then he zoomed past me and then started catching up and then he started catching up. And he zoomed in front of me and then he zoomed in front of another car and I'm like oh, that could have been an accident.

I'm just saying, I was looking what if this guy maybe looking for me. I think of stuff like that. So that's it, that's it, so I am

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

comfortable talking to you guys about that.

MR. : Other than that news interview you talked about, has anybody confronted you about this in a way that --

No, I know around my neighborhood and at work, everybody is looking at me as a super star, you know. When I catch some guys at the store, have you been on TV. They be wanting to shake my hand so. I see, you know, in that community they see me as, I guess, I'm okay, you know, so.

I do think of the Klu Klux Klan, I do think of them. You know what, a friend told me yesterday, I don't know if it is true or not, I doubt if it's true. He said, uh, that something happened to Mike Brown's family at their house, like their house got shot up or something.

I'm asking?

That's what he said, he said that one of Mike Brown's family's momma house or something got shot up by the Klu Klux Klan or whatever, you know. So that is what he tells me last night or whatever. So I don't do much believe that, but still as far as me, just in case because I don't have a lawyer or whatever, all the information that I said on each

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

interview and stuff like that, so that's it, that's it, you know.

Okay.

But I am comfortable, so I do have your number, so anything else I'll make contact.

Okay. Well, I'm going to end the recording. It is 2:38 p.m.

(End of the recording.)

MS. ALIZADEH: It is 11:35 and this is Kathi Alizadeh, all 12 grand jurors are still present, we just completed the tape recorded fourth statement of . And at this point, I'm going to have go ahead and finalize the tape. Immediately after this, immediately after finalizing the tape, I have a witness that we are going to go ahead and call.

Typically we play the statement before the witness, but I just, since he has been here, I would like to get him on and off so he doesn't have to wait. And then after he testifies, we will play his statement for you, which is about 30 minutes and only one. And, um, then you break for lunch, maybe after this witness testifies and then after lunch play that 30 minute statement of his. And so at

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

this time we will end this recording and finalize the disc.

(Recess)

MS. ALIZADEH: All right. This is Kathi Alizadeh, all 12 grand jurors are in the room, as well as Sheila Whirley who is with the St. Louis County Prosecutor's Office, and at this time I will ask the court reporter to pause the audio recording and then we will have the witness identify himself and then we will resume the audio recording for his sworn statement.

WITNESS 10,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Now, as I mentioned to you, well, let me first have you state your name.

A (Redacted)

Q And I told you before you came in here we were going to record things, but that you were not going to be recorded when you stated your name,

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

correct?

A Correct.

Q And you believe me that I'm going to keep my word on that?

A Yes.

Q All right. And then after the introduction portion, the court reporter will begin the recording again. You will be referred to as Witness Number 10, all right?

A (Nods head.)

Q And the grand jurors will refer to themselves by their grand juror number.

If, you know, sometimes I don't know if there will be any reason why you would say your own name, I would try to remind you don't mention your own name while we are recording because that's, we are trying to protect your identity, okay?

A Okay.

Q How old are you?

A (Redacted)

Q And what's is your date of birth?

A (Redacted)

Q Okay. And whereabouts do you live?

A (Redacted)

Q And did you grow up in ?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yes.

Q Okay. And are you familiar with the Ferguson area?

A Yes.

Q And what do you do for a living?

A

Q And what's the company you work for?

A (Redacted)

Q How long have you been working for them?

A I have been working for them for

Q Okay.

MS. ALIZADEH: At this time, , I will have you go ahead and start the audio recording.

(Audio recording is started.)

Q (By Ms. Alizadeh) Now, Witness Number 10 you have been sworn and you have just introduced yourself to the jurors. And you understand that this is an investigation into the shooting death of Michael Brown, correct?

A Correct.

Q I talked to you on the phone yesterday about coming forward and testifying today, correct?

A Correct.

Q And you know you are under oath and sworn

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

to tell the truth?

A Yes.

Q You have been interviewed by the St. Louis County Police Department as well as the FBI; is that correct?

A Correct.

Q But that was just one interview; is that right?

A Yes.

Q Have you ever been on television or gone before the media?

A No.

Q Have you done any other interviews whether it be with law enforcement or anybody in the entertainment or media industry?

A No.

Q And so other than that statement that you made previously to the County Police and the FBI, is this really only the second time where you've been asked to answer questions about what happened on that day?

A Correct.

Q Okay. So Witness Number 10, can you tell me on August 9th of this past year, a little over a month ago, were you still working for the company

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that you identified at that time?

A No, I was actually doing a side job.

Q Okay. So this was something on your own that you were doing?

A Correct.

Q And were you working by yourself that day or were you with anyone else?

A I was working by myself.

Q Okay. So was it a that you were working at?

A No.

Q

A

It is being there in that doing just that they asked for me to do.

Q Okay. So what kind of work were you doing, was it indoor work or outdoor work at this ?

A Indoor.

Q Was it work you are familiar with, like and stuff like that?

A .

Q And so you said that was the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

you had ever been at that ?
A Correct.
Q When were you previously at that ?
A I believe in , maybe.
Q Okay. So before?
A Yes, yes.
Q And did you know the name of the ?
A No.
Q And the day on August 9th when you were working there, was there anyone at ?
A Yes
Q And is that just that was there?
A No, it was and the original that once before I seen once before.
Q Okay. So the original , was that that was there?
A .
Q Was the was that that you know of?
A I'm not sure.
Q Okay. Did you have any interaction with

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No.

Q Okay. About what time of day did you get to that

A Um, I arrived roughly around

Q In the morning?

A Yes.

Q And do you remember the address of that ?

A No, I'm not sure.

Q So are you familiar with the Ferguson area?

A Yes.

Q And how did you get to that that day? I mean, you don't have to start like where you are starting at home, but did you get to that residence off of West Florissant?

A Yes.

Q Okay. So from West Florissant, what street did you turn onto?

A Let me back that up. No, I actually didn't get onto the street off West Florissant, I actually took there is a back way off you can take to get to

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that street.

Q Okay. Is the near the Canfield Green Apartment Complex?

A Yes,

Q Now, I might ask you to stand up here Witness Number 10. And this is an exhibit that I've marked as GJ for Grand Jury Exhibit Number 25, which is a map. I showed you this map right before you came in to testify; is that right?

A Yes.

Q Okay. And are you familiar, do you recognize the streets or the layout as being streets that are in the Canfield Green Apartment Complex?

A Yes.

Q Can you see where you were working that day?

A Yes.

Q Can you point to it so the jurors can see?

A (Indicating)

Q And the number where you are pointing is

A Yes.

Q Okay. So does this face, now, if this Canfield Drive, does the face Canfield

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Drive?

A Yes.

Q And is this a ?

A Yes.

Q Is the off of Canfield Drive?

A Yes.

Q All right. So did you have your, you can sit down now, thanks.

Did you have your own vehicle that day?

A Yes.

Q What kind of vehicle were you in?

A

Q And with your type of work, do you have things that you keep in that

A Correct.

Q Okay. And so you said that you were doing work that day, would you have occasion to have to come outside while you were working?

A Yes.

Q And where was your parked?

A It was parked in the , front face towards the .

Q So you pulled straight into the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

and the nose of your vehicle is facing the

A Yes.

Q Okay. And from the time you got there around that day, did you ever leave before the incident that we are here to testify about?

A No.

Q So from until something happened, was there anything else memorable about that morning?

A No.

Q And then something happened that you know why you are here to testify about. Can you just narrate for the jurors what is the first thing that you heard or saw that drew your attention?

A Well, first thing I saw was, I came outside to get that I needed. I was just finishing up the job. I came outside to get and I seen Mike Brown and his friend walking down the street closer to the curb, not on the sidewalk and my initial thought was with me being aware of my surroundings, they were walking towards me. My initial thought was wow, that is a big guy right there, and speaking on Mike Brown.

Q So let me stop you, did you know Mike Brown before that day?

A No.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Had you ever seen him before?

A No.

Q And the other person that was with him, how would you describe him?

A Short. I just recognize, I really picked up on and drew in and focused on Mike Brown because he was such a big guy and, um, the only thing I can recall on his friend he was short, had dreads and with the color dye in his dreads and that was pretty much it.

Q So his short dreads were like tipped color; is that right?

A Yes, yes.

Q Okay. And so when you first saw them, were they walking like in the direction of the apartment complex or out of the complex?

A They were walking in the direction of the complex.

Q So they were walking this direction towards the complex?

A Yes.

Q And at this point, when you first saw them, were you near your ?

A Yes, I was actually in the back door of the , um, where it is closer to the sidewalk.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

And they were just coming up upon me and that's when I, me being aware of my surroundings, I just focused in on Mike Brown and his friend coming up close to me.

Q And so when you first saw them then, were they closer to West Florissant or were they past the ?

A They were closer, like really probably I would give it maybe within 10, 15 yard range of me.

Q And do you remember, other than their sizes, do you remember anything about their clothing that drew your attention?

A Yes, I remember Mike Brown, he had on flip flops, black, and his socks really drew attention. They were bright neon yellow with, it appeared to be marijuana symbols on them.

Q Okay. Anything else that you recall noticing about either one of them?

A Mike Brown had a St. Louis Cardinal hat on, red St. Louis Cardinal hat.

Q Okay.

A That was pretty much it.

Q Did you notice, were either of them carrying anything?

A No, I didn't notice that.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. Did you notice them doing anything like with each other, were they interacting in a way that drew your attention?

A No, they were just talking amongst each other.

Q So other than noticing, like you said, you are aware of your surroundings when you are working, so you see these two guys about 10, 15 feet or yards, I can't remember?

A Yards, yards.

Q 10 or 15 yards walking in your direction, did you feel threatened by their presence at all?

A I didn't feel threatened, I just, I don't know, I was just aware of my surroundings and just ready for, I'd rather be ready for anything that happens instead of being a surprise to me.

Q So you noticed that this one guy, and you now know the bigger guy's name is Michael Brown, correct?

A Correct.

Q Have you ever learned who the small, shorter guy was?

A Yes, through the media.

Q Okay. And so what do you know his name to be?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A It is Mr. Johnson, I believe.

Q And so when you, when you saw them, did they just continue to walk in your direction down the street?

A Yes.

Q Did they stop and talk to you at all?

A No.

Q Did you wave at them or did you know if you made eye contact with them at all?

A No.

Q So did they pause or stop at all?

A No.

Q So they just continued to walk down the street?

A Correct.

Q Did it appear that they were walking casually, leisurely, in other words, or did they appear to be in a hurry?

A Just casual walking.

Q And at this point you said they were in the street?

A Yes, closer to the curb.

Q Close to the curb, but still in the street?

A Still in the street, yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Are there sidewalks at that location by the

A Yes, yes.

Q And so they are in the street, but closer to the curb?

A Yes.

Q Were they walking in, I guess what I'm going to say, the correct lane of traffic. So in our country and you are driving on a two way street you stay to the right?

A Uh-huh.

Q So were they on the right side or were they walking like against the traffic?

A No, they were walking with the traffic.

Q Okay. And so how long did you see them or have them in your sight before you didn't see them any more?

A Um, I would say within maybe a minute or less. Like I said, I was just out getting, out retrieving my tools to go back in the to wrap it up. After they passed me, that's when I went into the .

Q Okay. So you took your or whatever, and went into the ?

A Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q When is the next time you come outside?

A I forgot something, to get something out. I went out to get something else from the . I would say it was maybe within a two minute time span.

Q And what did you see or hear when you came out the second time?

A Well, when I came out the second time, the way the view of the is -- I guess I use the pointer?

Q Sure, you can use that.

A My is parked actually right here. The front door of the facing the street. I came out of the and when I came out walking towards the , this is still open right here because I did not drive all the way up .

So my view of sight as seeing the police car right.

Q If you need to get up to look at the names or anything, feel comfortable to do that.

A Okay. Police car was right about here. (indicating)

Q Okay. And so if Canfield Drive, I will describe that as a horseshoe, is that fair to say?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yes.
Q The police car was like right in between the two legs of the horseshoe?
A Correct.
Q Which direction was it facing?
A It was facing towards me.
Q So it was facing West Florissant?
A Yes.
Q And was the car, police vehicle moving or was it still when you saw it?
A It was still, it was at a slight slant.
Q Okay. And so what then did you see happen?
A I seen Mike Brown was leaned over inside the police officer's window. I didn't see Mr. Johnson at any moment during this time.
Q So did you see where he went or anything?
A No.
Q So when you come back out, you don't see him?
A No.
Q You just see Mr. Brown?
A I just see Mr. Brown inside the police officer's window. It appeared as some sort of confrontation was taking place. After that, that

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

took place for seconds, I'm not sure how long. I know that it appeared that some confrontation was taking place.

And one shot, the first shot was let loose and after the first shot, Mike Brown came out of the window and took off running.

With that happening, I thought instantly because the police officer didn't immediately react on how I would have thought it would have went down. Where he didn't immediately get out of his car and chase after Mike Brown.

So my initial thought was that wow, did I just witness this young guy kill a police officer.

So after that, Mike Brown ran some distance, the police officer exited his vehicle with his weapon drawn, pursuing Mike Brown, and I would say Mike Brown, he stopped right here. He was turning into this driveway right here, but he stopped right here.

The officer was already in pursuit of him. He stopped. He did turn, he did some sort of body gesture, I'm not sure what it was, but I know it was a body gesture. And I could say for sure he never put his hands up after he did his body

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

gesture, he ran towards the officer full charge.

The officer fired several shots at him and to give an estimate, I would say roughly around five to six shots was fired at Mike Brown.

Mike Brown was still coming towards the officer and at this point I'm thinking, wow, is this officer missing Mike Brown at this close of a range.

Mike Brown continuously came forward in the charging motion and at some point, at one point he started to slow down and he came to a stop. And when he stopped, that's when the officer ceased fire and when he ceased fired, Mike Brown started to charge once more at him. When he charged once more, the officer returned fire with, I would say, give an estimate of three to four shots. And that's when Mike Brown finally collapsed right about even with this driveway. (indicating)

And during this whole time there was a blue Monte Carlo parked almost right where that car is while this altercation was taking place.

And the car drove around and stopped right here and when Mike Brown collapsed in the street, that's when his friend came out, I don't know out of what direction he came from. All I know

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

is I seen him run across from in front of the squad car and he ran across and he stopped like evenly with the car that was parked right here and yelled, "he just killed him, he just killed him."

I'm not sure if he was speaking with the people that were in the car or if he knew them. He never leaned over to address them, he just yelled it. After he yelled it, he ran off through the back fields of Canfield.

Q All right. Now, I'm going to start at the beginning and we are going to kind of go through this a little bit and I'm going to ask you more detailed questions to clarify.

So from the time that you came outside, and you said you were at the back of your ?

A When I first seen Mike Brown.

Q Okay. The second time you came out, where exactly were you then?

A I was in front, actually, at the corner of the in front of the in front of my

Q Did you change your position during this entire scenario?

A No.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Like did you run down towards the street or anything?
A No.
Q Did you run out into the street?
A No.
Q So you just stayed where you were?
A Yes.
Q And from where you were, did you have a line of sight where you could see, you described Michael Brown as actually coming to a point where he was almost turning onto Copper Creek Court?
A Yes.
Q Could you see that from where you were?
A Yes.
Q So when you first look down that street, you said you saw Michael Brown in the officer's window?
A Correct.
Q So describe for the jurors how, what you mean by that?
A Half of his body, his feet was still planted on the ground, his upper body was inside the window in a leaning motion inside the window, his upper body was inside.
Q Now so is that the first thing you see

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

when you look that he's already got his upper body inside the car?

A Yes.

Q So anything that happened before that, you didn't --

A I never seen it.

Q -- witness? Did you hear tires squealing or anything?

A No.

Q Anybody screaming or yelling?

A No.

Q Okay. So when you saw that, what did you see, could you see into the windshield of the officer's car?

A No, I could just see him leaned over inside the officer's car.

Q So who's him?

A Mike Brown.

Q Okay. And so you said his head was inside the window?

A Yes.

Q His shoulders?

A Yes.

Q His upper body?

A Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. And could you see the officer from that vantage point?

A No.

Q Could you see what was going on inside the car?

A Not really, no.

Q Can you see was the vehicle moving at all?

A No.

Q Was Mike Brown moving at all?

A It appeared to be.

Q Okay. And can you describe, I don't want to put the words in your mouth, I want you to describe what you saw when you say it appeared to be that he was moving?

A It appeared to be some sort of confrontation taking place in the vehicle. I couldn't make it out, I couldn't say who did what within that time span within that vehicle. All I know is that it just looked out of the norm with somebody being leaned over inside the police officer's car.

Q Okay. So did you hear anything, like yelling, were they yelling at each other or anybody yelling?

A No.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. So I can be clear on this, is it that you didn't hear anything or there wasn't yelling?

A I didn't hear anything.

Q Okay. And so you believed there was an altercation, is it a physical altercation or just a verbal altercation?

A For me I would think it was a physical with being, him being inside the vehicle.

Q Okay. And so, and then you said that went on for a few seconds?

A Yes.

Q And then you heard a gunshot?

A Yes.

Q Have you heard a gunshot before?

A Yes.

Q And you recognize that sound as a gunshot?

A Yes.

Q And how many gunshots did you hear at that point?

A One.

Q And then what did you say Mike Brown did at that point?

A At that point, he exited, he took hisself out of the vehicle, removed hisself from the vehicle

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

and ran towards the complex, deeper into the complex.

Q So at the time that you heard that single gunshot, was Michael Brown's upper body, as you described, inside the police vehicle?

A Yes.

Q And so when he, how long after that shot does his body come out of the vehicle?

A Almost immediately.

Q Okay. And then how long after his body comes out of the vehicle does he turn and start to run?

A Immediately.

Q And then you said that it took sometime longer than you would have expected before the officer got out of his vehicle?

A Yes.

Q And can you give me just in your best estimate, are we talking seconds or minutes?

A No, seconds, maybe 10 to 15 seconds.

Q Okay. And do you remember what kind of vehicle this is?

A Yes, it is a truck, I think maybe a Tahoe like style, SUV.

Q A bigger SUV?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yeah.

Q And so when the officer got out of his vehicle, did he get out from the driver's door?

A Yes.

Q And did he shut the driver's door do you recall or did he leave it open?

A I don't recall that.

Q And did you, did it appear to you, when you saw Mike Brown turn and run away, did you see any blood?

A No.

Q Did it appear to you in any way that he was somehow injured, Mike Brown?

A No.

Q Okay. When the officer gets out of his vehicle, did it look to you as if he was injured in any way?

A No.

Q Okay. And so how long, and you said now when he gets out of the vehicle, he has already got his gun drawn?

A Yes.

Q And when you say gun drawn, you mean out of his holster?

A Yes.

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

Q In his hand?
A Yes.
Q And do you recall which hand?
A His right hand.
Q And when he first gets out of the vehicle, how long before he then starts to pursue, as you said, Michael Brown?
A He immediately starts to pursue.
Q And so as he begins to pursue him, can you describe his pace? You said Michael Brown was running, correct?
A Correct.
Q And how would you describe the officer's pace?
A Running.
Q And was he, what was he doing with his gun as he was running?
A Just carrying as he was running towards Mike Brown.
Q Okay. Can you stand up for a second and show me where, if you use your right hand and make like a gun thing with your right hand. How was he, when he was running, how was he, hand running, how was that gun?
A Like in a running, just as you run

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

normally.

Q Okay. So he wasn't walking with the gun pointed in the direction of Michael Brown?

A No.

Q Or pointed in the direction of Michael Brown?

A No.

Q Okay. You can sit back down.

And so when the officer started running after Michael Brown, can you give me an estimate as to how far Michael Brown was ahead of the officer, in other words, he got a little bit of a head start, correct?

A Correct.

Q How far was he in front of the officer when the officer started running?

A I would say the police car is right here, so Mike Brown maybe was about this far before the officer exited his vehicle and within that time I would say the officer maybe was here when Mike Brown stopped there.

Q Okay. So you initially describe that when the officer got out of his vehicle, Mike Brown was close to where this like, this car is on this map?

A Yeah, I would say.

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

Q More around Caddiefield Road?

A Yes.

Q Okay. And then the officer immediately pursues him and does Michael Brown continue to run down Canfield?

A Correct.

Q And then does the officer close the gap or do they remain, you know, do they remain that distance apart or does the officer close the gap?

A He starts to close the gap when Mike Brown stops right here. And I would say the officer is right at the D, for drive. (indicating)

Q Did you hear or see the officer fire his weapon as Mike Brown was running away?

A No.

Q Do you know, I don't want you to guess, other than maybe if you observed something that caused you to assume, but do you know why Mike Brown stopped and turned around?

A No, I'm not sure. That is something that I wrestle with to this day, I'm not sure. I'm not sure if he knew the people that was in that car and he thought maybe he had time to go back to wrestle with this officer. To this day, why would he turn around and not give himself up.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q And so during the time the officer is running after him, do you hear the officer saying anything?

A No.

Q And do you hear Mike Brown saying anything?

A No. I'm at a distance where I don't hear anything. All I can do is just see what's going on.

Q So you're not saying that there wasn't anything said, you just didn't hear anything?

A Correct.

Q Okay. And so now you testified that when Mike Brown gets to around the corner, or the corner of Canfield Drive and Copper Creek Court is where he turns around; is that right?

A Yes.

Q And does he, the whole time before he turns around, is he running the whole time?

A Yes.

Q Running with his back to where the officer is?

A Correct.

Q And then you say he turns around and what does the officer do when Michael Brown stops and turns around?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A He stops.

Q So at that point, are they still the same distance or is it a little closer gap?

A The officer is right there, Mike Brown stops right there. (indicating)

Q And so you indicated that the officer was right about where the D or the abbreviation for drive on Canfield Drive would be?

A Correct.

Q And Mike Brown, you indicated, was maybe in the grassy area or even on the sidewalk?

A Correct.

Q At the corner of Copper Creek Court and Canfield Drive?

A Yes.

Q Okay. And then what did you see happen next after Mike Brown turned around, where were his hands?

A Down by his side.

Q Now, you indicate that he did some kind of body gesture?

A Correct.

Q And so, of course, you know that this has been a point that people have talked about, correct?

A Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Can you describe for them what you mean when you said you saw him do a body gesture. If you need to stand up to demonstrate, you can do that too?

A I can't say for sure what sort of body gesture, I cannot recall fully. All I know is it was not in a surrendering motion of I'm surrendering, putting my hands up or anything, I'm not sure. If it was like a shoulder shrug or him pulling his pants up, I'm not sure. I really don't want to speculate things and that's what I have to say for that.

Q Okay. So turn, Mike Brown turns around, makes that gesture, then how long before he then moves in the direction of the officer?

A Immediately after he did his body gesture, he came for force, full charge at the officer.

Q And full charge, I guess, is running?

A Correct.

Q And was he, could you hear him say anything or make any noise?

A No.

Q And is it because you were so far away you didn't hear anything or you saying that there was no noise?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No, I was so far away I could not hear anything.

Q Okay. And let me ask you this, how is your vision?

A Pretty good.

Q Okay. Do you wear glasses or contacts?

A No.

Q And how about your hearing, is that pretty good as well?

A Yes.

Q All right. And so as you then see Mike Brown begin to charge at the officer, how far does he get before you said the officer fires a number of shots?

A The officer is right here. I would say Mike Brown gets to right there, even with the car before the officer starts to fire.

Q Okay. And just for the record, when you say even with the car, we are talking about the car that's on this map?

A Yes.

Q That's in the map, it is just a random vehicle that happen to be on that street when they took this picture, correct?

A Correct.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q That car wasn't actually there that day?
A No.
Q Now, you have talked about there being a car in that vicinity?
A Correct.
Q Okay. But we're just talking about the car that's on the map?
A Yes.
Q So you say Mike Brown got about even with that white car that's on the map?
A Yes.
Q And then how many shots did you think you heard?
A Um, five to six shots.
Q All right. And could you see the officer with his gun in his hand?
A Yes.
Q Are you sure it was the officer that was firing?
A Yes.
Q And was he firing in the direction of Mike Brown?
A Yes.
Q And then you said at that point does Mike Brown continue to go forward or does he stop at that

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

point?

A He continues to come forward.

Q And you made mention, I'm not sure if it was at that point, is it at this point that you thought oh, my God, he's missed him at that close range?

A Yes.

Q So when you heard those five or six shots, did you see any blood on Mike Brown that you could see?

A No.

Q Did you see him react in any way that might make you think that he was hit, like, you know, flinching or anything?

A It was more kind of a flinch, yes.

Q Okay.

A It was more of a flinch and, um, with my thoughts of, I thought he was missing him because me thinking if you get shot, you are going to go down. With those multiple shots and he was still standing, that's the reason why I thought he was missing.

Q Okay. And then, but you said he continued to come?

A Correct.

Q Did he slow his pace or did he, was he

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

still at a charge?

A He gradually slowed his pace. And it became, it came to a stop and when he stopped, the officer ceased fire and he began to charge once more, and that's when the officer with fatal rounds.

Q So when he became, when he stopped, about how many seconds or fraction of seconds do you think it was before he began to charge again?

A I would give it maybe two seconds.

Q Okay. And then how far did you get on that, after stopping and then he's charging again, how far did he get about, if you can estimate feet, that's fine, or if you want to say how many steps he may have taken, that's fine too?

A Maybe five to six steps.

Q And then when he, you said, and then the officer began shooting again?

A Correct.

Q And about how many rounds do you think you heard then?

A Three to four.

Q You said that was the fatal rounds, did you see Mike Brown then --

A Collapse.

Q -- collapse onto the pavement?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Correct.
Q And did you, after he collapsed, did the officer continue to fire?
A No.
Q And did you see the officer, did he go up to Mike Brown's body at that point?
A At that point, something else had caught my attention, Mr. Johnson caught my attention at that time when he ran across the street.
Q Okay.
A Okay.
Q At that point you are not necessarily looking at the officer and Mike Brown, you are focusing on Mr. Johnson?
A Correct.
Q And you recognized him as the shorter guy who had been with Mike Brown that you had seen earlier?
A Yes.
Q And so you said he ran around like in front of the police vehicle?
A Correct.
Q And then ran toward this area where you said you had seen this car?
A Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q And this was a car that had been over here?
A Yes.
Q And had pulled around this horseshoe driveway, correct?
A Correct.
Q Around Building Number 18?
A Correct.
Q And you heard Dorian Johnson say what?
A "He just killed him, he just killed him."
Q Okay. And then you said he then ran into the back of the complex, did you ever see him again?
A No.
Q Okay. Were you, what did you do after you saw that?
A After I saw that, I went into the I was working at, and told the what I just witnessed and stayed in for maybe minutes speaking with , and I came back out and that's when I seen they were taping off the scene.
Q So by the time you came back out, other police officers were there?
A Yes.
Q Was the police officer who was involved in

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the shooting, was his car still in the street?
A Yes.
Q And about, was it all Ferguson vehicle's at that point or was County already there?
A Ferguson.
Q And then did you stand outside and kind of watch what was going on for a while?
A Yeah, when I came back out, they were taping off the scene. I came back, I walked down here to right there where the body was pretty much even with that street. And I was just, just in shock and speaking with another resident. I don't know if was a resident, another that was out at the scene talking with
Q So you were speaking to somebody else who was just a bystander that was looking at what had happened?
A Correct.
Q You didn't know that person?
A No.
Q Did you later learn who it was?
A No.
Q Have you ever seen again?
A No.
Q Now, are you aware, I mean, did you notice

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that day that there were people with cell phones that were like filming or taping, not taping, we don't use tape, but recording what was going on while, the aftermath I'll call it?

A Yes.

Q Now, at some point in this investigation have officers involved in the investigation that you talked to, did they talk to you about whether or not

A No.

Q Okay.

A

Q

A

Q

A Yes.

Q And is it the aftermath, so it is after the shooting?

A Yes.

Q

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yes.

Q All right.

A

I did contact the FBI to figure out, um, what precautions I needed to take.

Q Okay. So now you mention that you talked to the police and gave a tape recorded interview after this incident, correct?

A Yes.

Q

A No.

Q

A Correct.

Q

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Correct.
Q So when is the first time you talked to a police officer about having seen this?
A Monday, Monday.
Q So this happened on a Saturday, correct?
A Yes.
Q And immediately after you go back outside, there is other officers there?
A Uh-huh.
Q Why didn't you go up to an officer then and say, hey, I saw the whole thing or most of it?
A Because when I went down on the scene afterwards, speaking with that I was speaking to. I wasn't giving a thorough accounting on what I had witnessed to , I was, I couldn't say giving just a glimpse of what I witnessed because just observing the chaotic, how it got so chaotic so quick, and different point of views on, it didn't add up to what I actually witnessed.
I felt very uncomfortable and I say I would probably estimate I was down on the scene maybe five to ten minutes. And just observing everything and how the uproar became about so quickly.
I began to walk back towards the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

that I was working at and those that have their video recordings out, their camcorder out and they addressed to me, addressed me, And I proceeded on walking past them. And that's when they turned towards me and asked me

And continued walking past and at this point they are with the camera still, and they became violent and, um, one of the

That's because that's the way I felt at that time because with everybody down there feeling like, hey, he had his hands up. A lot of people didn't see what actually went down and what I saw.

So I then turned and walked back towards and that's when they started to yell racial slurs at me and it was just, it was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

just ignorant.

I felt uncomfortable, I fully felt uncomfortable when I actually did go forward to the police station because, um, I first called in Sunday after I seen all the rioting. I just felt bad about the situation.

I knew that I needed to come forward to let the truth be told. And after seeing the rioting, I called St. Louis County Police, I just called the 911 and they took down my information and, um, Monday morning I just felt like it wasn't, I was just going to be pushed to the side. So I felt like I needed to do more.

I called Ferguson Police Department, I had to leave a message there and I still wasn't settled about it.

So I went down to the police station and I felt uncomfortable then just walking past all the protesting that was going on, but I knew it was the right thing to do. It is an unfortunate situation, but I know God put me in this situation for a reason.

Q Now, Witness Number 10, you said that when you walked back, there were

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A

Q

A Yes.

Q Were these, did these appear to be people that just lived in the area or were they like reporters?

A They appeared to be people that lived in the area.

Q Okay. And did you know had you seen them before?

A No.

Q Ever seen them since?

A No.

Q Have you seen any recording of that incident where they had appeared to be recording you, have you seen that on the internet or anything?

A No,

Q

A

Q Okay. The person you were talking to earlier was not recording?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No, he was not.

Q It was somebody else?

A Yes.

Q

A Correct.

Q So when you were down after the shooting and the crowd begin to build, could you hear people saying words to the effect, he had his hands up, the police killed him, they didn't need to shoot him, that kind of stuff?

A Correct.

Q And is that the kind of things that you were hearing that you said made you feel uncomfortable?

A Correct.

Q And you came forward because you felt you had to do the right thing?

A Correct.

MS. ALIZADEH: Anybody at this point, Sheila?

A I came forward to bring closure to the family and also for the police officer because, um, with me knowing actually what happened, um, and I know it is going to be a hard case and a hard thing

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

to prove with so many people that's saying the opposite of what I actually seen. I just wanted to bring closure to the family not thinking that hey, this is, they got away with murdering my son.

I do know that there is corruption in some police departments and I believe that this was not the case. And I just wanted to bring closure to the family.

Q Now, Number 10, do you live in Ferguson?

A No.

Q Okay. Have you ever had any experiences with the Ferguson Police Department?

A No.

Q Do you know any Ferguson police officers?

A No.

Q Did you know this police officer that was involved in the shooting?

A No.

Q Did you know Michael Brown's family or any of his relatives before this?

A Um, yes, I did. It came about when I was standing outside during the aftermath, I recognized his stepfather, Michael Brown's stepfather. At that moment it didn't really sink in, I thought I recognized him at that moment, but it came about

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

when I seen it in the papers, his name and that just confirmed that was him. But I haven't reached out and talked to him or anything.

Q All right. Michael Brown's stepfather, would you consider him a friend of yours?

A No.

Q You just know him?

A Yes.

Q And you haven't talked to any of the family members of Michael Brown since this happened?

A No.

Q (By Ms. Whirley) With the stepfather, how did you know him?

A (Redacted)

MS. ALIZADEH: Just hang on a second.

MS. WHIRLEY: Well, let me ask it another way.

MS. ALIZADEH: Hang on a second. Did you have something?

If you will excuse me, I don't know if you have a question you want to ask me?

MS WHIRLEY: Knowing the stepfather, was there a bad relationship or anything negative about that.

A No.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS WHIRLEY: Okay. Now, could you put a mark, not necessarily a mark, but use that pointer and show us one more time where you were when the first time you saw shots fired?

A on the corner.

Q (By Ms. Whirley) And you were standing there?

A Yes.

Q And shots were being fired where, show us that on the map?

A The truck was right about here. (indicating)

Q How far away would you say that distance is?

A I would give it 50 to 75 yards.

Q Yards, okay. And when the officer first got out of the car, you said, was his gun drawn or not?

A When he first got out of car, yes, his guns was already drawn.

Q His gun was drawn?

A Yes.

Q As he ran pursuing Michael Brown, he was not shooting, I recall you saying that, correct?

A Yes, correct.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Michael Brown turns around and starts charging him, you said that's when the shooting started?

A Correct.

Q You couldn't hear what they were saying?

A No, ma'am.

Q When you say charge, could you demonstrate what you saw? Show us what you mean by charging?

A (Indicating.)

Q Like running toward him quickly?

A Yes, in a tackle motion charge.

Q Okay. What was he doing with his hands?

A As a normal --

Q You could see his hands?

A Yes.

Q Did you ever see a weapon or anything?

A No. When he first ran from the car, I did, that's the only time I did hear something. I thought I heard something metallic hit the ground. I'm not sure what it was, that's the only time I did hear something.

Q Now, when did you hear that?

A When Mike Brown came from out of the vehicle and ran.

Q Okay. You could hear that, but you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

couldn't hear what they were saying?

A No.

Q And you never heard any conversation between the officer and Mike Brown?

A No.

Q So when he stopped after the first round of gunfire and turned around, you said he charged and then the officer shot again or was that the first round once he charged?

A The first round was when he was in the car.

MS WHIRLEY: Okay.

A And after that, Mike Brown, he followed pursuit of Mike Brown and Mike Brown stops and turns and did some sort of body gesture and charged at the officer. And that's when the second firing session took place.

MS WHIRLEY: And after the first, not the first shot in the car, but when he charged him and the shots were fired, you said Mike Brown flinched as if he might have been hit?

A Correct.

MS WHIRLEY: Okay. But he still charged in the same manner that you showed us?

A He started, he like, I don't know he was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

flinching, but still in a charge motion.

MS WHIRLEY: Was it slower or any different?

A It appeared to be a slight difference.

MS WHIRLEY: Like maybe he was hit, that was your impression?

A Yes, but at that time I'm not sure. I thought he wasn't being hit because with me, with my thoughts was if you are being hit that you are going to fall or show some sort of I'm hit besides a flinch. That appeared to me, I don't know, dodging or hit, I'm not sure.

MS. WHIRLEY: And can you show us, you said that after he charged him a second time, he was charging slower that time, but still charging, correct?

A Correct.

MS. WHIRLEY: You said he collapsed, Mike Brown collapsed after that second round or shot, I don't mean the one in the car, I guess it is the third round, third time he is shooting he collapsed?

A Correct.

MS WHIRLEY: I don't want you to fall on the ground or anything, I want you to like show us like what he was doing with his hands as he was

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

collapsing.

A I cannot recall that. I just know he collapsed.

MS WHIRLEY: Okay. You didn't really, you couldn't see his hands when he was collapsing?

A I can't recall that.

MS WHIRLEY: Okay.

A I know he was coming in a charging motion still and the final rounds were being fired within a charging motion and that's when he collapsed.

MS WHIRLEY: But you didn't see his hands when he was collapsing or you don't remember seeing his hands when he was collapsing.

A I did not see that. All I seen was the charging motion and him being, coming as a threat. And the final shots were fired and he collapsed, that's all I seen was the collapse.

MS WHIRLEY: Was there anything blocking your vision of seeing his hands when he was collapsing?

A No.

MS WHIRLEY: You just don't remember seeing his hands?

A No.

MS WHIRLEY: Okay. Can you show us on the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

map how close you were to Dorian Johnson, show us where you were and where Dorian Johnson was when he said, "they killed him, they kill him."

A Okay. I was still right there at the corner of the And Dorian Johnson came from somewhere over this way, and only reason why I know that is because he had to cross the street and it was in front of the squad car. So he came from over this way and -- (indicating)

MS WHIRLEY: And that's where he was, show us, where was Dorian when he is saying, "they killed him?"

A Right there. (indicating)

MS WHIRLEY: Right there.

A Yes.

MS WHIRLEY: Where was the police officer and Mike Brown when they first started the pursuit, the same general area?

A Yes.

MS WHIRLEY: But you couldn't hear Mike Brown and the police officer saying anything?

A No, that's because, Dorian, he was yelling it, like he just seen his friend die and he was just yelling it loud.

MS WHIRLEY: And the police officer wasn't

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

yelling at Mike Brown as he was pursuing him?

A I'm not sure, I couldn't hear.

MS WHIRLEY: You couldn't hear anything?

A No.

MS WHIRLEY: Okay.

A

MS WHIRLEY:

A Yes.

MS WHIRLEY: Saying some stuff, what were you saying?

A I was saying that, um, he charged him, he charged at him. The officer already had his gun drawn on him and he charged at him and he shot at him at least five to six times. And the seemed to be surprised when he asked who shot him, I said the police did.

MS WHIRLEY: All right. That's all I have right now.

: I have a couple questions, of course, You said that they were violent, the that were asking you about it afterwards, that they became violent. Did

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

they become violent towards you, in their words, in their actions?

A Verbal.

Verbal.

A Verbal.

: Verbal?

A Yes.

: They called you names?

A Yes.

: You said you heard a sound that was like metallic hitting the ground, you don't know just because I know my friends, you don't know that anything hit the ground, that's just what it sounded like to you?

A Yes, correct.

: When he was collapsing you said you couldn't see his hands, that doesn't mean you couldn't see his arms, correct? You could tell the difference between him having his hands up?

A Correct.

And him having his arms down. Just because you couldn't see his hands, doesn't mean you couldn't see where they were?

A Correct.

Okay. And you said

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

earlier that you didn't see anything in anyone's hands as far as Mr. Johnson or Mr. Brown?

A Correct, when I first saw him.

: When you first saw them?

A Yes.

: But you also said it is because you were focused on their --

A On their appearance.

: On their appearance and your surroundings?

A Yes.

: You're not saying that they didn't have anything in their hand, you just didn't see it?

A Correct.

: Okay. If I could dovetail off of 's original question about the violence that was directed to you. If I could ask you just a personal question, are you ?

A Yes.

: You are, okay.

A Yes.

: And this is like bringing

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

an extra level of conflict for you to come forward?

A Um, not really. Within my family that's about it. They fear for my safety or our family's safety, that's about it.

You said that there were some racial epithets directed towards you, is there anything that you can, you feel comfortable telling us that was directed to, what was said to you?

A Um, they said you , they called me a , and just racial slurs.

: Did you at any time, if I could ask, did you express the fact that you're ?

A No.

: You did not?

A No, I just ignored it and kept walking because I didn't want it to just blow up to something even more because it is already tension in the air.

: Okay, thank you.

A No problem.

. In your opinion, let's go back to the times when Michael Brown stopped and turned around and allegedly began

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

to charge the police officer, is it in your opinion, do you believe the police officer's life was potentially in jeopardy at this point?

A Yes.

: Thank you.

MS. ALIZADEH: Anyone else have a question?

. Could you describe what vehicles were in the area while this was going on, were there cars lined up behind the police vehicle and you said that Dorian ran to a vehicle that had been on the other side and then drove around?

A There was only one vehicle on the street within that distance between where the incident took place, and that was the vehicle, a little Monte Carlo and it came around after, I want to say when the officer, before the officer fired, I mean not fired, but I'm not sure at what point, I can pinpoint at what point that they came around, but they did drive around, come out of the, this curb and drive around and stop right there.

Okay, thank you.

MS. ALIZADEH: Can I clarify, I just want to ask you. You said it was a Monte Carlo?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Correct.

MS. ALIZADEH: Are you good about recognizing makes and models of cars?

A Uh, yes.

MS. ALIZADEH: Have you ever had a Monte Carlo?

A No.

MS. ALIZADEH: When you say it was blue, are we talking dark blue, baby blue, do you recall?

A I cannot recall as far as the deep blue or any of that, I know it was a newer Monte Carlo.

MS. ALIZADEH: And you saw, that's the only car you remember seeing there is a blue Monte Carlo?

A Correct.

MS. ALIZADEH: Okay.

: . Um, let's go back to when you initially saw the struggle with Michael Brown inside the car, where was Dorian or could you tell where he was when this was going on?

A No. Like I said, I did not see Dorian Johnson, um, after the fact, after Michael Brown was collapsed in the street, and that's when he came across the street in front of the squad car and stopped right about there and yelled that he just

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

killed him. That's the only time after first had initial contact, well, not contact, but sight of Dorian Johnson.

: So did you ever see anything in Michael Brown's hands or Dorian's hand, I know you said initially when they came around the house, you didn't see anything, but what about during the struggle, did you ever see anything in their hands?

A No.

: Okay. And you said you heard one gunshot at the car?

A Correct.

: And the rest were --

A Down.

: Down the road or whatever?

A Yes.

MS. ALIZADEH: Anyone else have any questions?

So Witness Number 10, thank you for appearing. If at any time in the future this grand jury has additional questions for you, would it be all right for me to contact you?

A Yes.

MS. ALIZADEH: That will end the testimony

Electronically signed b bbb45b59-531e-4399-8414-64849f7ac803

of Witness Number 10.

(End of the testimony of Witness 10.)

MS. ALIZADEH: This is Kathi Alizadeh, it is 1:33 p.m. on September 23rd. The grand jurors are all 12 present, as well as myself and Sheila Whirley and the court reporter who is taking down everything.

We had a witness who was here and in the waiting room.

MS WHIRLEY: We did have one witness, and is her name and we may play some of that information because you had asked about . We were here, we were running behind and she left. I contacted, I tried to contact her to get her back here and I'm not sure if she was running too late for work or what, but we're going to have to likely reschedule her because we also have a 2:30 timeframe we are working with too.

So she's not going, you're not going to hear from her, we were hoping to do it today. In light of that, what we are going to do is let you hear the recording from --

MS. ALIZADEH: Witness Number 10.

MS. WHIRLEY: Witness Number 10, thank you. And then if we have enough time, you will hear

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

s recorded statement and then when see her, you will match the two together, all right.

MS. ALIZADEH: All right. So at this time I'm going to pass out a transcript of an interview that was conducted on August 11th by the County Police Department and it is the interview of Witness Number 10. And for that reason, again, we will pause the audio recording that the court reporter is doing right now while we are playing the statement.

The statement is contained on Grand Juror Number 24.

As soon as you say we are ready, we will turn off the audio recording that is happening now and play the recorded statement of Witness Number 10.

Okay. Would you turn off the audio recording at this time.

(This is the recorded statement of Witness Number 10.)

DETECTIVE : This is Detective with the St. Louis County Police Department's Bureau of Crimes Against Persons, . Also present with me is Detective of the Bureau of Crimes Against Persons and we are at the City of Ferguson Police

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Department in an interview room Mister, would you say your name for the recorder, please?

WITNESS 10: (Redacted)

DETECTIVE : Okay. And (redacted) obviously, you realize this is being recorded, correct?

WITNESS 10: Correct.

DETECTIVE Okay. And you're okay with that?

WITNESS 10: Yes.

DETECTIVE Okay. And this is in reference to St. Louis County Complaint Number 14-43984 and Ferguson Police Department Complaint Number 14-12391, which is an incident that occurred on Canfield Drive on August 9th, 2014.

(Redacted), I'm going to get a little bit of information from you here, okay? (redacted)

WITNESS 10: Correct.

DETECTIVE : Okay. And spell your last name?

WITNESS 10: (Redacted)

DETECTIVE Just like the What is your date of birth?

WITNESS 10: (Redacted)

DETECTIVE : What is your home

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

address?
WITNESS 10: (Redacted)
DETECTIVE : (Redacted)
WITNESS 10: (Redacted)
DETECTIVE : And where's that at?
WITNESS 10: (Redacted)
DETECTIVE : (Redacted)
WITNESS 10: (Redacted)
DETECTIVE : And what's your cell phone.
WITNESS 10: (Redacted)
DETECTIVE : (Redacted)
WITNESS 10: Yes.
DETECTIVE : And your social security number?
WITNESS 10: (Redacted)
DETECTIVE : (Redacted)
WITNESS 10: (Redacted)
DETECTIVE : (Redacted)
WITNESS 10: Yes.
DETECTIVE : And you're employed where.
WITNESS 10: (Redacted)
DETECTIVE : As a ?
WITNESS 10: Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : Is there a business address for that?

WITNESS 10: Um, this is the address, but I don't, I'm not sure.

DETECTIVE : Okay. You know a phone number?

WITNESS 10: (Redacted)

DETECTIVE : (Redacted)

WITNESS 10: Right where the are at. Where, um, say you get off of --

DETECTIVE : there.

WITNESS 10: (Redacted)

DETECTIVE : Okay.

WITNESS 10: Right before you go down the

DETECTIVE (Redacted)

WITNESS 10: Yeah.

DETECTIVE Okay. Um, do you have a phone number?

WITNESS 10: Is --

DETECTIVE : For employer.

WITNESS 10: For -- for -- for -- let me see. Let me see if I can pull it up.

DETECTIVE : (Redacted) What is your middle initial?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: (Redacted)
DETECTIVE Okay.
WITNESS 10: I thought I had the office in here. I ain't seeing it.
DETECTIVE That's okay.
WITNESS 10: All right.
DETECTIVE Okay. So, um, we received a call from Ferguson saying that you were here and did you come here --
WITNESS 10: Yes, voluntarily.
DETECTIVE -- okay, okay. You came here on your own?
WITNESS 10: Yes.
DETECTIVE And who did you talk to initially?
WITNESS 10: Um, I'm not sure. It's a police officer outside.
DETECTIVE : Okay. And what did you tell that officer?
WITNESS 10: I need to -- to speak with someone about the, um, ongoing investigation about, um, what happened, at Canfield to Mr. Brown.
DETECTIVE : Okay. So after that, I'm assuming they escorted you --
WITNESS 10: Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : -- into the building then and you -- you waited for us; is that right?

WITNESS 10: Yes.

DETECTIVE : Okay. Um, would you please retell, and I'm just going to set the recorder over there. Would you please just retell your account of a, were you present when it happened or --

WITNESS 10: Yes.

DETECTIVE : Okay. Would you just retell your account of what took place?

WITNESS 10: Okay. Um, well, I walked out, I was working at a right where Canfield meets . The was actually on the on, it would be, I would be facing, the police car would be facing towards me and the

right there

DETECTIVE So, just so I understand, uh, what you're saying, Canfield Apartments, Canfield by in large runs east and west, okay. If you were to travel west, uh, out of, on Canfield, you would run into West Florissant.

WITNESS 10: Okay.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE : Before you run into West Florissant, you run into a area of ?

WITNESS 10: Correct.

DETECTIVE So is that the area that you were working on.

WITNESS 10: Yes, I was working on the, the on your, if you were traveling east and going into Canfield, would be on your .

DETECTIVE : So --

WITNESS 10: The that's, well, the considering you're going into Canfield. It would be the and it's an And the police, um, as I was saying, I was going, I was working at that and I walked outside. I seen the two young guys walking down the street on the same sidewalk I was on and --

DETECTIVE Can I clarify just a couple things? Roughly what time was this?

WITNESS 10: Roughly, I want to say 8:40, I mean not 8:40, 11:40, 11:40 is when that, when I first seen these two guys. And my initial thought was, wow that's a big dude because Mr. Brown, Mike

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Brown. My initial thought was he's a big guy. He's tall and like stocky build, and that's it.

He -- he, they both walked past me. I took went into I came back outside to get some more stuff and I looked down the street and I seen the police car at a slant and I seen Mr. Brown in the window of the police car. It looked, it appeared as they were wrestling through the window. And one gunshot had let off and Mr. Brown took off running.

And my first thought was like, oh, my gosh, did I actually just witness a police officer being murdered because it took a while for the police officer to get out of the car and pursue the suspect.

And I want to say maybe six seconds, but it seemed like it was forever after the -- the first gunshot. So the police officer exited the vehicle with his weapon drawn, pursuing Mr. Brown. Mr. Brown was quite a distance and he stopped. And when he stopped, he didn't get down on the ground or anything, he turned around and he did some type of movement. I never seen him put his hands up or anything. I can't recall the movement that he did. I'm not sure if he pulled his pants up or whatever

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

he did, but I seen some type of movement and he started charging towards the police officer.

The police officer then returned fire, not returned fire, open fire on Mr. Brown. Um, if I had to guess, the shots and, um, the distance between him and Mr. Brown, it would have to be five to ten yards.

And the shots that were fired was four, five or six shots fired, and Mr. Brown was still standing up. Um, and my thoughts was wow, he's missing this guy this close, is he hitting him or because Mr. Brown there was no reaction from him to show that he was being hit.

Um, after that, Mr. Brown then paused, he -- he -- he stopped running and when he stopped running, the police officer stopped firing. And then Mr. Brown continued, started again to charge towards him and after that, the police officer returned fire and, um, well, not returned, I'm using the wrong term, he started to fire once more at him.

Um, if I had to guess the rounds that were fired then, it would be four to five more shots. And after that, Mr. Brown collapsed and fell to the ground.

DETECTIVE : Okay. What happened

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

then?

WITNESS 10: Um, what happened then after that, um, I didn't see, it was, it was a blue Monte Carlo, a newer model Monte Carlo two door. Um, it was closer to the scene where the shooting was at, that occurred. They then drove off and made a -- a left into the apartments and drove around the apartment and then came and stopped.

And, um, Mr. Brown's friend that he was walking with earlier, I didn't see him the whole time that, um, this was all going on with a confrontation with the police and the shooting and everything.

At the end, after Mr. Brown had dropped, and, um, I seen the, his friend come out of nowhere and run across the street. And, um, said that Dog, they -- they just killed him, they just killed him, and he ran the back fields of Canfield, the back open field.

And, um, I must say that also after the, um, confrontation, after the gunshot when Mr. Brown did run, I thought I heard something metal hit the ground. And I'm not sure what it was, but I thought I heard something hit the ground.

And, um, after that, I believe, I'm not

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

sure, um, if I went in to go tell the people that I was working with that I just -- what I witnessed. And I came back out and they were taping the scene off and I decided, I went down there closer to where the body was and I stayed down there for maybe ten, five to ten minutes. And I was speaking with the that was down there on the scene. I was telling what happened and after me telling what happened and I'm hearing everybody, their side of the story, oh, the police officer shot that kid for no reason. He had his hands up.

And me knowing and seeing what actually took place, that wasn't true. And there was different sides to the story, and every side it wasn't true. I felt uncomfortable in that situation, so I decided to walk back to I was at originally at.

And, um, while I was walking to the had a video camera and they turned towards me asking me, um,

But I don't think they heard me what I had told the earlier. And I responded as and just kept walking.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

And they still on just still video recording me and saying, um, I responded,

.

And after that, they -- they became, uh, in an aggressive tone and um, was saying, um, just called me other names, racial and racist slurs to me.

And that whole time, well, before they yelled the racial slurs, I yelled, um, back to them, I said,

And after that, I just left it and went on my way.

DETECTIVE Okay. I'm going to go back and just ask you a couple clarifying questions, okay.

Um, so, I guess, so let's first start off, who were you working with, uh, that day?

WITNESS 10: I was working, um, for

And, um, I'm not sure of

um, that was there. I was hired as a

to come in and do

.

DETECTIVE : So will you, was, you were not working for (redacted) that day?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: No, no.
DETECTIVE You were doing kind of a side job?
WITNESS 10: Yeah, doing a side job, yeah.
DETECTIVE Okay. And did you have anybody with you that you were working with that day?
WITNESS 10: No.
DETECTIVE Okay. I guess when you say you went in, oh, when you said you went in to tell the people you were working with --
WITNESS 10: Yeah.
DETECTIVE -- you meant tell the people --
WITNESS 10: That -- that was the .
DETECTIVE : I gotcha. Okay. Who were the there.
WITNESS 10: Like I say, I'm not sure what their names are.
DETECTIVE Was it a female, a male?
WITNESS 10: It was a
DETECTIVE Okay. And then, um, you said that you saw, uh, two guys walking down the

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

street, right?

WITNESS 10: Yeah.

DETECTIVE Do you remember what they were wearing?

WITNESS 10: Um, if I'm not mistaken, Mr. Brown had a tan, tan pants, a red hat, flip flops, it might have, may have been tan shorts, yeah, it had to be tan shorts. Because I'm not sure of the color, I know they were shorts because his socks drew my attention because they were bright yellow and, um, black, looked like marijuana leafs. And, um, he had a red hat on. I'm not sure of the shirt.

And his friend that was walking with, I'm not sure what he was wearing, the only thing I can pick up from him was he had, um, smaller dreads that were, looked like the tips of the dreads was dyed, uh, like a bleach, bleach dyed or whatnot.

DETECTIVE And so, um, Michael Brown was the one that you thought to yourself, um, that's a big guy?

WITNESS 10: Yeah, it is.

DETECTIVE Is that right?

WITNESS 10: Yeah.

DETECTIVE : Okay. And which way

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

were they walking?

WITNESS 10: They were walking, you said west, would be out to West Florissant?

DETECTIVE West, yeah, it's towards West Florissant. East is towards the complex.

WITNESS 10: Okay. So east, yeah, east. They were walking east when I first, yeah, when I seen them.

DETECTIVE How far away were they when you first saw them?

WITNESS 10: Um, when I first saw them, I mean, I could have shook the guys' hand if I wanted to.

DETECTIVE : Okay.

WITNESS 10: That's how close they were.

DETECTIVE : Okay. Do you know either of these guys?

WITNESS 10: No.

DETECTIVE : Okay. Had you ever seen them, one of them before?

WITNESS 10: No.

DETECTIVE Okay. Uh, so they're walking east and I don't, if I say something that's incorrect, please correct me, okay?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: Uh-huh.
DETECTIVE : They're walking east essentially in front of that you're working at?
WITNESS 10: Yes.
DETECTIVE : They continue east into the complex?
WITNESS 10: Yes.
DETECTIVE Okay. And you said you went inside to drop off equipment?
WITNESS 10: Yes.
DETECTIVE : Okay. And then when you come back outside, right?
WITNESS 10: Uh-huh.
DETECTIVE : You, if your, if you are working on is on the side, if you look to your then, it would be, you would be looking into the complex; is that right?
WITNESS 10: Yes, I would be looking into the east, east.
DETECTIVE : Into the complex?
WITNESS 10: Yeah, yeah.
DETECTIVE : or to the would be looking into the complex?
WITNESS 10: Yeah, yeah.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

DETECTIVE Okay. And approximately how far away were you at to where you saw that police car at?

WITNESS 10: Okay, distance wise --

DETECTIVE : And if you don't know, you know --

WITNESS 10: It's a guess maybe, 100 yards I would say, maybe less.

DETECTIVE : Okay, all right. So you look and you see the police car and where is the police car at?

WITNESS 10: It is in the middle of the street at a slant.

DETECTIVE : Okay. And what kind of car is it, do you know?

WITNESS 10: It's, um, I'm not sure what type of car, but I know it is a truck, it's a truck.

DETECTIVE Okay. Um --

WITNESS 10: Maybe like Suburban style or that, a long truck, SUV.

DETECTIVE And that truck that's parked at a slant would be facing which direction?

WITNESS 10: It would be facing west.

DETECTIVE : West, okay. And explain to me again what you see at that point?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: I see Mr. Brown leaned over inside the police car, um, at maybe, I see his back at his, um, probably below you, what you call, like under your armpit.

DETECTIVE Beneath your armpits?

WITNESS 10: Yeah, a little bit deeper than, right below your armpits. That's how much of his body is inside the car.

DETECTIVE : Okay. So you, when you, you were using your hands, you went here and then you kind of went here, which --

WITNESS 10: Like when I seen this much of his body outside the car, so the rest of his body from here up is inside the car.

DETECTIVE : Okay. And just for the purposes of the recording, uh, so his feet are where?

A On the ground.

DETECTIVE : Okay. And he is standing, uh, where at?

WITNESS 10: At the, uh, driver's door --

DETECTIVE : Okay.

WITNESS 10: -- of the police car.

DETECTIVE His feet are on the ground, he's at the driver's door of the police car.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: Yeah.
DETECTIVE : And, uh, he's leaning?
WITNESS 10: Inside the window.
DETECTIVE Instead the -- the.
WITNESS 10: The police car.
DETECTIVE : Which, which window?
WITNESS 10: The driver's window.
DETECTIVE : Okay. So he's leaning inside the driver's side window. And -- and -- and I'm not, obviously, I don't expect any of this to be exact, you know, down to the millimeter.
WITNESS 10: Uh-huh.
DETECTIVE : But roughly armpit or maybe a little bit lower?
WITNESS 10: Yeah.
DETECTIVE That upper portion of his body is in the -- the window, is that a fair statement?
WITNESS 10: Yes.
DETECTIVE : Okay. And so, uh, is the door opened, closed?
WITNESS 10: No, the door is completely closed.
DETECTIVE Okay. And, uh, do you see anybody in the driver's seat of that car?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

WITNESS 10: I -- I couldn't make it out, I couldn't. All I seen was Mr. Brown's body.

DETECTIVE Okay. And what was his body doing.

WITNESS 10: At that distance, I -- I -- I couldn't tell. It looked like a confrontation and all I could assume it was some type of confrontation was going on in that car.

DETECTIVE Okay. Why -- why did you assume there was a confrontation?

WITNESS 10: Because afterwards the gunshot, there was a gunshot, one gunshot, and he -- he ran off.

DETECTIVE : Okay. So, and again, please correct me if I'm saying anything that even remotely doesn't reflect what you're saying, I just want to make sure I understand, okay?

You see him in the car, you can't necessarily tell what's going on, but after hearing the gunshot and you seeing him run off, you make an assumption that there's some sort of confrontation or conflict inside the car, right?

A Yes.

DETECTIVE Okay. So how, roughly how long do you think that he is, that Michael Brown

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

is in the car?

WITNESS 10: Um, maybe at least ten seconds from what I seen.

MS WHIRLEY: All right. It's at 2041, the recording. We are going to stop the recording because the witness is here and we would like to get her on because we have time constraints.

Now is here and we wanted to bring on her testimony. We'll look at her statements later because of our time this afternoon, but I will go get her, and I don't know exactly what time it is now, what time do you have? It is about 1:59 p.m. Is he going to keep recording?

MS. ALIZADEH: Yes, and I just wanted to say because we weren't recording at the time, we interrupted the statement of Witness 10 because of the next witness being here. What did you start it, where did you say you stopped it?

MS WHIRLEY: At 2041.

MS. ALIZADEH: I'll make a note that I have to fix that.

So we are going to just bring the next witness in who needs to leave.

,

of lawful age, having been first duly sworn to

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q I'm Sheila Whirley, and Kathi Alizadeh is also present, the grand jurors are present, and the court reporter, introduce yourself to the grand jurors, please?

A I'm .

Q All right, . Could you spell your name and speak louder for us?

A ,

Q All right. And that microphone is not going to amplify your voice or make it louder, it is just recording, so try to talk sort of loud like me, please?

A I'm sorry, I'm soft spoken.

Q Okay. You know why we are here today, ?

A Yes, I do.

Q Tell us where you live in general, you don't have to give your exact address unless you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

want to?

A I live in .

Q All right. Now, you recall August the 9th of 2014, correct?

A Yes.

Q It was a Saturday?

A Yes.

Q You had occasion to be at Canfield Green?

A Yes.

Q Is that right? And does this map look familiar?

A Yes, that's the Canfield Green Apartments.

Q That's the complex?

A Yes.

Q Represented on that map, and that's Grand Juror Exhibit Number 25 for purposes of identification. What time of day was it that you went to Canfield?

A It was around noon-ish whenever I went. I was supposed to be there a little earlier, I ended up there at noon to pick up she works for me.

Q Okay. So you were picking up an employee?

A Yes.

Q What do you do for a living?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A I do marketing.
Q And are you a supervisor?
A Yes, I have a marketing firm on
.
Q It is your firm?
A Yes.
Q Okay. How many employees do you have?
A Right now I have three.
Q And was one of them?
A Yes.
Q Okay. And you said her name was how do spell that?
A .
Q What's her last name?
A .
Q Can you spell that?
A , .
Q , , okay. So you are picking up and she lived in Canfield Green?
A Yes.
Q Do you recall her address?
A I don't.
Q Okay. Can you see on this map, there should be a pen there that you would operate, you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

see how it works?

A Yes.

Q Could you point on the map where lived, first of all, do you know where she lived looking at the map?

A Yes, she lives right here, this apartment right here. (indicating)

Q ?

A Yes.

Q Okay. Is that Canfield Drive?

A Yes, Canfield Drive.

Q And coming to pick her up that day, did you call her first or did you she know what time you were coming?

A I called her. I called her when I was on my way and I called her as I was coming down the street right when I turned onto Canfield is when I started calling her.

Q So when you were coming this way you called her?

A Yes.

Q And did you talk to her?

A No.

Q What happened, did you leave her a message?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No, so as I was pulling up and I'm calling her phone, that's whenever I heard the tires squeaking as I was turning. As I get closer, I see a cop and the kid wrestling through the window.

Q Okay. So when you say you called her, but you didn't talk to her, what happened in that call? Did you just hang up, that's what I'm trying to figure out?

A Yeah, I hung up the phone like, so I'm trying to call her and when I see this, I start going through my phone forgetting I'm on the call, trying to get to my camera. And I never spoke with her at all. By the time I look back at my phone again, it was disconnected, the call had disconnected.

Q Did you get to your camera?

A No.

Q Okay. Did you record any of this, you know, what we are talking about, the shooting of Michael Brown?

A No, I didn't record any of shooting. I recorded right after it happened.

Q So tell us again, you are driving down Canfield Drive and what do you hear?

A I hear tires squeaking.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q And then what?

A I didn't see anything at that time, but as I get closer coming around this curve on Canfield, I see the cop's SUV in the middle of the street and the kid wrestling through the window with the cop.

Q And show us on that map where, Grand Jury Exhibit 25, where approximately you saw the police car?

A Okay. The police car was right here, in this area right here. (indicating)

Q Do you know which way it was facing?

A It was facing, coming the way that I was coming. So it was facing going that away and I was going that way.

MS. ALIZADEH: Let me ask, I think Sheila at one point you made it look like she was going on a certain direction, which direction were you traveling?

A Is it okay if I can stand up?

MS WHIRLEY: Yeah, please.

A I was coming in on this direction, I was coming in through this way.

MS. ALIZADEH: Okay.

A The car was facing going that way, I don't know if it is east or west.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

MS WHIRLEY: Okay.

Q (By Ms. Whirley) So what street is this out here that you came off of to get onto Canfield Drive?

A West Florissant.

Q West Florissant, okay. So you are coming from West Florissant traveling east on Canfield Drive?

A Yes.

Q And the police car was facing west?

A Yes.

Q And it was, was it straight or what was the, how was it situated?

A It was kind of catty-corner, it wasn't straight, it was like a little over both sides of the line, yellow line.

Q Okay, all right. Kind of in the middle of the street?

A Yeah.

Q Tell us what you saw again?

A I saw the cop and the kid kind of like wrestling through the window, it was like a tug of war. The kid was kind of pulling out the, cop was pulling in, like it was like going back and forth.

Q When you say the kid, who are you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

referring to?

A Michael Brown.

Q You know that is who it is, Michael Brown?

A Yes.

Q Had you known Michael Brown before this day?

A No.

Q Had you ever met him?

A No.

Q Ever seen him?

A No.

Q Had you been to this Canfield Green complex before?

A Yeah, I picked up a lot there since she's moving, she's only been there over a month. I picked her up a few times and dropped her off at home.

Q She had only been living there approximately a month?

A Yeah.

Q You had known her longer than that?

A Yes.

Q Okay. How long had she worked for you?

A She worked for me since January.

Q Okay. All right. So you see the tug of

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

war, as you put it, and then what happens?

A As I'm trying to get to my camera and my phone, that's when the shot --

Q You need to speak up louder, please.

A I'm sorry. As I'm trying to get to my camera and my phone, that's when a shot came out and I just got out of the way, I started trying to get out of the way, and I went to the left side.

Q Where were you when you heard the shot?

A I was right here, like okay, they were right here and I pulled right in front of here. (indicating)

Q What kind of car were you in?

A I was in a

Q A ?

A Yes.

Q Okay.

A So whenever the shot came out, it came from the car and I started turning this way, that's when I saw the kid like yank away like this and take off running. And I came around, parked right here, got out, came across the grass. The kid was running this way, the cop came behind him and was shooting. I saw the kid's body jerk and turn around like this with his hands up.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. So you are in a and you say you parked over here?

A Yeah, I pulled right here.

Q By Canfield Drive?

A Yeah.

Q In that parking lot?

A Yeah.

Q And were there any other cars on the street?

A A Monte Carlo right behind the officer's truck and I don't know, it was a black car that came after a while, but I saw the back. But the whole time, it was like, whenever I could get right here, I saw the white car, I didn't see the white car behind the SUV until I get right here. (indicating)

Q Okay. And it was a white Monte Carlo?

A Yes.

Q All right. So when you see, there's a struggle at the car, you hear a shot, does the shot, do you hear the shot when the officer is in the car?

A Yes.

Q Is Michael Brown still at the window when you hear the shot?

A Yes.

Q Is anyone with Michael Brown, that you

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

know, that you see?

A At that time I didn't see anybody besides him, but I saw someone kneeling by the white car, the white Monte Carlo.

Q Okay. They were knelt?

A Like knelt down.

Q Okay, all right. But you didn't see them do anything?

A I didn't see them together at all at the time.

Q Okay. So when the shot goes off, Michael Brown runs, show us again which way?

A He runs this way.

Q Okay. And the officer, what does he do?

A He comes behind him shooting.

Q So did you see the officer get out of the car?

A I didn't see him exit the car, I was on the other side of the car at the time.

Q Okay. So where were you when you saw the officer shooting?

A I was coming across this grass and the officer started pursuing Michael coming this way.

Q You could clearly see the officer running after him?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yes.
Q And you could see the officer shooting?
A Yes.
Q Okay. And Michael is running and his back is to the officer?
A Yes.
Q And the officer is shooting?
A Yes.
Q Do you have any idea how many shots were fired by the officer?
A Not at all.
Q Okay.
A I didn't count that at all.
Q Okay. And then what happens after he is shooting at the officer, I mean, the officer is shooting at Michael Brown?
A I saw his body jerk and stopped and turned around and put his hands up, and that's when the officer continued to walk and shoot until he went all the way down.
Q Okay. Can you hear anybody say anything?
A I can't hear anything from anybody.
Q Okay. And show us again where you are?
A At the time that he, Michael went down?
Q Yeah, that's right, let me make it clear

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

because you said, you showed us where you were when you saw him running?

A Yes.

Q The officer is pursuing Michael, he is shooting you said?

A Yes.

Q When Michael turns around, where is Michael? He stopped running and he turned around?

A He was right here. (indicating)

Q And where are you?

MS. ALIZADEH: Wait a minute, can you point again because I can't see where you are pointing?

A Okay, I'm sorry, which part?

MS WHIRLEY: When Michael stops running and turns around, where is he?

A He is right here. (indicating)

Q (By Ms. Whirley) Where are you?

A I'm right here coming across this grass.

Q How close would you say that is in your opinion?

A I don't know how to measure by feet.

Q Okay. Look at me. Tell me when we're as close as you were to where Michael was, if that's possible in this room.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Okay. So I can say from me to Michael is right kind of like at her, where she is standing.

Q Where she is standing, you can see that close?

A Yeah.

Q Okay. Now, he turns around and you say he puts his hands up?

A Yeah.

Q Does he appear to be hit by any bullets or anything?

A I didn't see any blood or anything until it started pouring on the ground as he's laying there. Whenever the bullets was hitting him, I was thinking like are these rubber bullets. I can't say exactly where he was hit.

Q Okay.

A I just saw the one in his face when he hit the ground.

Q When he first turned around and had his hands up, you couldn't really see whether he was shot, you couldn't tell whether he was shot or not?

A No, I couldn't.

Q But you couldn't hear him say anything to the officer?

A No.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Was the officer saying anything to him?

A I didn't hear the officer say anything to him, I didn't hear conversation from either party.

Q Okay. So we know you were like from this distance to that distance and can anybody give an estimate of how far that would be?

About 20 feet.

Q (By Ms. Whirley) Now, from the officer, how far was the officer from Michael Brown when Michael Brown turned around and raised his hands, the same, a similar distance or something different?

A Similar distance because I was closer to the officer than I was to Michael when he turned around.

Q Okay. So that's Michael 20 feet away or so, I'm the officer, let's say, just for purposes of the transcript.

A The officer was over that away.

Q Like this way?

A Yes.

Q How far?

A Like they were about that distance.

Q About where I am now? So another 20 feet or so?

A Yeah, maybe so.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. You can see both the officer and Michael Brown?

A Yes.

Q From approximately 20 feet away?

A Yes.

Q Okay. And if I didn't ask you this, how close was the officer to Michael Brown, not you to them, but the officer and Michael Brown, how close were they? Were they closer than you were to them?

A They were closer to each other than I was to them.

Q That's my question. Any idea how close, like me and you again?

A I can't say exactly, it was movement.

Q Okay.

A So I can't say exactly like where they stood at what point.

Q That's fair.

A They were constantly moving.

Q He turns around with his hands up and then what does the officer do?

A He continued to come up on him.

Q Like show me?

A He just continued to come up on him and shoot him. He never got like, he was further back

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

from him, but he kept shooting him until he fell down to the ground.

Q Did Michael Brown ever move back or come forward?

A Like he came forward.

Q He came forward. Did he come forward in a charging motion?

A No, like he just went forward like his body was just going down and he was shooting him.

Q So from where you were, it didn't appear that Michael Brown was threatening the officer?

A No, no.

Q You didn't think --

A No, he wasn't coming towards him whenever he turned around. He just start like, as soon as he turned around like, that's whenever like the bullets start hitting him. I can't say exactly where, but he just started going down from that point.

Q Okay. Did it appear at any time that Michael Brown had a weapon?

A No, I couldn't see anything in his hand while he was running. I can't even say where his hands were at this point.

Q Okay. I was going to ask you that question when he was going down, did you see his

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

hands?

A Yeah, they were, they were the whole time. (indicating)

Q His hands was up when he turned around, when he was going down you said the officer was shooting at him?

A When he went down, he went down to the ground like this. (indicating)

Q Okay. And from your perspective, in your opinion, you didn't think that the officer was ever, his life was not threatened?

A I can't say, before I pulled up to this car, I can't say what happened before I got there.

Q Right.

A So I don't know what happened between them before I pulled up, but I can only say what I saw. From what I saw, he was trying to get away, he was pulling away at the window.

Q Okay. And you saw it from the time that he ran from the car window until he laid dead on the ground?

A Yes.

Q And between that timeframe, he never appeared, in your opinion, to be threatening the officer?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No, he was trying to get away from what I saw.

MS WHIRLEY: Okay, Kathi?

MS. ALIZADEH: Yeah. Hi, .

A Hi.

MS. ALIZADEH: I know we haven't met, my name is Kathi Alizadeh, I'm with the prosecutor's office as well.

A Uh-huh.

MS. ALIZADEH: Miss Whirley and I are working together on this investigation, so we kind of tag team. It is not that I'm asking you certain questions and she's asking you certain questions, but I want to clarify something here. So when you say, I'm going to use this pointer, and you tell me if I'm right. You said the officer's car was somewhere around in here, correct?

A Yes.

MS. ALIZADEH: And you came in from this direction?

A Yes.

Q (By Ms. Alizadeh) And then you turn around this horseshoe, which is Canfield Drive, correct?

A Yeah, I turned into here and I didn't go all the way around it.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Did you park right, like right around here?
A Yes, that's where I parked.
Q Okay. And then you walked through the grass?
A Yes.
Q Now, you said that Michael Brown was running in this direction, correct?
A Yes.
Q So that is down Canfield Drive, and he is running towards Copper Creek Court, this is Copper Creek Court right here? (indicating)
A Yes, he never made it that far.
Q You said he never made it this far?
A Yes.
Q Which is, I've got the laser pointer, right on the corner of Canfield Drive and Copper Creek Court, he never made it that far?
A Yeah.
Q And so you say that at the location where he ended coming, you know, came to rest, his body was in the street?
A Uh-huh.
Q Um, how much distance farther had he run before he fell down into the street, do you know

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

what I'm saying? So he runs and then he turns around?

A Uh-huh.

Q And does he take any steps or come towards the officer at all?

A Whenever he stopped and turned around at, that's where he fell dead at.

Q Okay.

A I didn't see him take any more steps.

Q Let me ask you this, is it possible as you were trying to make your way in this direction and watching what was going on, you could have missed him being close to this corner to where he would have come 20 feet back toward the officer?

A No, I can't. So whenever I was over this way, I saw him running past here, but for me to come across here and him to come all the way, that's not enough time I don't think. I didn't see him go that far, not at all. Because whenever I came across this, whenever I saw the officer coming this way and he was still coming right there, so he never made it that far.

Q Okay. So let me tell you something, go ahead and sit down. So as you park your car, do you recall which slot you were in right here?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

(indicating)

A No, I don't. I was right in one on that side though.

Q On what side?

A On the side.

Q Closet to the street?

A Yes.

Q Closest to Canfield Drive?

A I was in one of those three, I can't remember exactly where I parked.

Q From where you were parking and you have to get out of your car, is it possible that you lose sight of him for a time period or that you can't see from your location to where he could have been at that corner?

A No.

Q Okay. So let me ask you this, have you been out on that street since then?

A No, I don't.

Q Okay. Since then you haven't seen the flowers and memorial?

A I seen pictures in the news and stuff like that, not myself actually being there, no.

Q Do you have any reason to know why Michael Brown's blood might have been located in this area?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No.
Q He came to rest right about here, would that be fair to say?
A Yeah.
Q Right, almost right across from Caddiefield Drive?
A Yes.
Q So you don't know how it would have been possible for his blood to be 20 and 22 feet that direction toward Copper Creek Court?
A No, I don't.
Q Okay. Is it possible that you in trying to get out of your car, were you dressed for work?
A Yes, I was.
Q Were you wearing heels?
A No, I had on khakis and a T-shirt.
Q Okay. So is there, is it possible that, you know, you trying to run through the grass or get in this direction, you missed a part of that?
A I can't see me missing that part because whenever I was coming across, I still had sight of them. I didn't see him go that far.
Q Okay. But you say you saw him turn around?
A Yes.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q And from the point he turned around, he didn't really go any further closer to the officer?

A No.

Q And he had his hands up at that point?

A Yes.

Q Okay. That day, August 9th, pretty hot outside?

A Yeah.

Q Did you have your car windows up and the air conditioner on?

A No, the air is out on my work van, so I had windows down.

Q Okay. You had the windows down?

A Yes.

Q When you pulled in here and you saw Michael Brown and he was struggling with the officer, or what was your description?

A It was like a wrestling.

Q Wrestling. So he's at the officer's car window?

A Uh-huh.

Q And do you see any part of Michael Brown's body inside the police vehicle?

A Like maybe his arms and stuff going back and forth through the window, like being pulled back

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

and forth.

Q Okay. How about his head, did you ever see his head in the window?

A I saw his head in the window, but not like kneel down into the window kind of thing, it was like kind of pulled back and forth like at the window.

Q So Michael Brown, do you know how tall he was?

A No, he's really tall though, he was a man when I first saw him, I didn't know he was a kid.

Q He is taller than the roof of the vehicle, correct?

A Yes.

Q So in order for his head to be in the vehicle, he would have to have been at some point bent over a little bit, correct?

A Yeah.

Q His head couldn't --

A Yeah.

Q Right, right.

A It went, yeah.

Q And you said that you thought his head might have been in the vehicle at some point?

A Yeah, coming like back and forth through

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

the window.

Q Okay. Could you see anybody if there was anybody hitting anybody else?

A I couldn't see that.

Q Couldn't tell?

A No.

Q Okay. And how many seconds from the time that you pull up and you see this going on at the vehicle to the time that Michael Brown is lying in the street?

A I don't know.

Q Can you give me an estimate?

A It was less than two minutes.

Q Okay. And just to be clear, you heard one gunshot while Michael Brown was by the vehicle?

A Yes.

Q And then he runs and the officer chases him while firing his weapon?

A Uh-huh.

Q Can you give me an idea how many times the officers fires his weapon while he is chasing him?

A No, I can't. I don't know exactly, it is about five or six times.

Q Okay. And then does he continue to fire as Michael Brown is turning around, or is there a

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

pause in the gunshots?

A There was a pause.

Q Okay. So Michael Brown, does the pause happen when he turns around or before or after?

A Like during the time, I can't say exactly when the pause happened because there were several pauses. I can't say this happened and then a pause, this happened and then a pause, I wasn't paying attention like when the gunshots came and when it stopped.

Q Okay. And I know, it is tough, I mean, this is all very chaotic, and you're seeing something, you probably can't even believe what you are seeing, right?

A Yeah.

Q So as best we can, you know, everybody that says that they saw this we are trying to get as many details as we can out of them.

A Uh-huh.

Q I'm not here to say one person is right, and one person is wrong, okay. Just the best of your recollection.

You said you maybe heard how many shots, five or six shots as he was running?

A Yeah, more than five or six shots.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q More than five or six?
A Yeah.
Q And then at some point there is a pause in the gunfire and then you hear more gunfire?
A Yes.
Q How many guesstimates would you say you heard then?
A Probably four or five more, I don't know.
Q Okay. And then after that round of gunfire, do you hear any more gunshots?
A No, afterwards, no.
Q So it is that last round of four or five gunshots that Michael Brown then collapses in the street?
A Yeah. Around about that many times, I can't say exactly how many times he shot each time at all.
Q Okay.
A I never counted.
Q Okay. And that's fair. Did you ever see, after Michael Brown went down on the pavement, did you ever see the officer shoot him again?
A No.
Q Did you see the officer go up to him?
A Huh-uh.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Q Okay. At some point did you see Dorian Johnson running away ever?

A I didn't see him. Only time I saw him was on the side of that red car, I didn't look back to see him at all. I didn't see him any more after.

Q On the side of what car?

A At the side of the little white car.

Q The Monte Carlo?

A The Monte Carlo.

Q You didn't see where he went after that?

A No, I didn't.

Q Did eventually, did come down from her apartment?

A I went upstairs to her.

Q Did you girls eventually go down to the street?

A I went, I came down whenever the officer said it was okay to come down, because the investigators were there, they wouldn't even let me come down at all, and they told us we had to stay up on the porch because they were trying to block it off, and we had to stay up and they were applying the tape.

Q While the officers still had things taped off, did you eventually come down?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A No, never.
Q Never did?
A I came down when they investigator got done talking to us.
Q Did you ever use your phone to tape anything or record anything?
A I did.
Q And that's when you are on the ground, correct?
A That was whenever I was not top on the balcony.
Q Okay. So you went up to 's apartment and did she stay upstairs too or did she ever go downstairs?
A I don't remember her going downstairs, I can't say for sure, but I never looked at that point. We were walking back and forth, up and down the steps. We were having two different conversations on our phone, we were both crying. I don't remember her going down, but I know I didn't go down.
Q Okay. So this number five is her building, correct?
A Uh-huh.
Q Do you enter her building off of this

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

Canfield Drive horseshoe?
A No.
Q You enter --
A Those steps right there.
Q Right here?
A Yeah.
Q Right in front of Canfield Drive, right across from where Michael Brown's body was, correct?
A Uh-huh.
Q So after this happened, how long did you remain out here before you went inside the apartment?
A I went straight upstairs to her balcony.
Q Okay. And her balcony is on the front of the building?
A Yes.
Q Third floor?
A Yes.
Q Did the two of you, did she let you into her apartment, was she inside when you went to her apartment?
A She was standing on the balcony with her phone out recording and she was trying to say, I just saw him kill him. I said, yeah, I saw him too. And she was crying, I got on the phone I called my

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

fiancee and said, I just saw the incident.

Q Okay. But she was in the apartment when you got there?

A She was on her balcony, yes.

Q You remained up there?

A Yeah.

Q You went upstairs?

A We remained, we walked up and down the steps a couple of times, both on our phones and we stayed up there.

Q Okay.

A Or her and I stayed up there. I don't think she ever went down, the cops wouldn't let us come down.

Q As far as you know, she stayed up there with you too?

A Yes.

MS. ALIZADEH: I don't have anything else.

MS WHIRLEY: Questions? Anybody?

You did talk to a police officer that day, give a statement to the police officer the same day as the shooing?

A Yes.

MS WHIRLEY: Like within an hour or so of the shooing.

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A Yes.

MS WHIRLEY: Okay.

MS. ALIZADEH: And you have made numerous statements like in the media, correct?

A Uh-huh, yes.

MS. ALIZADEH: And then recently you were interviewed by the FBI, correct?

A Yes.

MS. ALIZADEH: Other than the statement you made that day to the County Police, and the statements you've made in the media and the statement you made to the FBI, have you ever made a statement to anybody else about this?

A No.

MS. ALIZADEH: Other than talking amongst your friends or with your friends?

A No, that's it.

MS. ALIZADEH: Pardon me?

A No, that's it, I haven't.

MS. ALIZADEH: Okay. And does still work for you?

A Yes.

MS. ALIZADEH: Have you, other than the day that this happened, do you guys discuss this together?

Electronically signed by bbb45b59-531e-4399-8414-64849f7ac803

A We talked about it the other day after the FBI, after we saw the FBI in the office, and we were just talking about how it changed our life and what is going on with it.

MS. ALIZADEH: Is there any information that you have or anything that we didn't ask you maybe that you think is important for this grand jury to know?

A No, not that I can think of.

MS. ALIZADEH: Okay. If you find something out or there is something important that you know of, will you contact us or contact your attorney and have him get ahold of us so we can learn that?

A I will.

MS. ALIZADEH: All right. No further questions.

MS WHIRLEY: That will end the testimony of .

(End of the testimony of .)

GRAND JURY HEARING VOLUME VII

MS. WHIRLEY: Good morning.

(Everybody says good morning.)

MS. WHIRLEY: I'm Sheila Whirley. Of course, Kathi Alizadeh is here, 12 grand jurors is here, and the court reporter. Today is September the 25th, Thursday. And I don't have the total program memorized for this morning or for today. I can tell you our first witness is . , we heard his taped statements last time we were here, recorded statements with the police, with the FBI agent, and also made several appearances on the media for CNN, and I think various TV channels. You guys remember that, he is going to testify live here this morning.

And then, Kathi, could you tell us what else is on the agenda today?

MS. ALIZADEH: I don't know. No, actually, we have a witness scheduled for 10:30. He called me bright and early this morning to cancel, so we're going to probably play you, I don't think Witness Number 10, remember the guy that was . He has a recorded statement I don't think I played.

MS. WHIRLEY: Only played part of it. We

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

had about ten minutes left.

MS. ALIZADEH: We can play the end of that to finish that and then we also have, you all heard from last time and she has media interviews that take, I think, about 33 minutes total for all of her media interviews. And then she also has some recorded statements that we can play and hopefully, that will fill out the morning.

And then in the afternoon we have a witness scheduled to be here at 12:30. I will check and make sure he hasn't called to cancel during a break or whatever, hopefully then we will have another witness here in the afternoon. He also has a taped statement. I can't remember if it is 30 minutes or an hour, it doesn't exceed an hour.

So if he, you know, shows up, we can play his statement and then have him testify, and I think we are trying to recess 2:30.

: 3:15.

MS. ALIZADEH: At the lunch break, if we need to figure out how to fill our time, we'll do that.

Also, if you recall, Witness Number 10 had talked about the fact that he is,

at the scene the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

aftermath,

I do have that clip and we will play it for you. It is only a couple minutes and, you know, just so you know,

It is not a very long clip, so if you all, if we go through it, we can play it again. So we can go back and try to listen, because the person who is doing the recording occasionally speaks and, of course, their voice will kind of talk over the people that are in the background.

So it might be, if you request it, it might be you want to hear that a couple of times just so you can try to pick up what's being said. All right.

MS. WHIRLEY: All right. I'll go get the first witness.

MS. ALIZADEH: Let's talk about the question that they had.

MS. WHIRLEY: Okay.

MS. ALIZADEH: We were not on the record, I think it was last week when one of you asked a question about your deliberations and, of course, you've been sitting as a grand jury for several

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

months, so you know that it takes nine people to indict and the question was asked what if we have, what if we can't, since we're giving you a variety of different charges to consider, I think the question was, what if we don't have nine people that all agree on the same charge, what do we do then or what happens.

And I wanted to make sure that I put that in there in the record that that was a question that was asked and we have had discussions about that and what I will tell you is we're researching this because we want to make sure before we tell you, you know, we want to make sure we're correct on the law, but I assure you that we will have an answer for you well before you begin your deliberations about what, in the event that that would happen, what happens then. All right.

Are there any other questions that anybody had thought of? Okay, all right.

,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

EXAMINATION

BY MS. WHIRLEY:

Q Introduce yourself to the jurors, please.

A My name is

Q All right. , where do you live? You don't have to give me your exact address, in what vicinity?

A I live in Canfield.

Q Do you live in the Canfield Green Apartments?

A Yes, I do.

Q How long have you lived there?

A Um, going on a year now.

Q One year. So you lived there on August the 9th of 2014?

A Yeah.

Q Is that the day that Michael Brown was shot?

A Uh, no, I think it was like on the 9th.

Q August 9th of 2014, correct?

A Yes.

Q What day was it?

A Um, I think that was a Saturday.

Q Okay, Saturday. Do you remember your Saturday that day?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes. All I did that morning, early that morning, my family and I went out for breakfast and we came back around nine something and we all took a nap.

Q How many folks went to breakfast with you?

A Uh, four altogether. My fiancee and my three kids.

Q And then you all came back and took a nap?

A Yes.

Q And so what time did you wake up from the nap?

A Um, I was actually woken up about 11:00, 11:30.

Q Did something wake you up or you just woke up?

A A friend of mine came over.

Q Okay. And what happened when your friend came over?

A Um, I steps outside with him for a couple of minutes, maybe no longer than five minutes.

Q Okay. Can you show us on the map? You can use that pointer or that laser light thing.

Show us where you live.

MS. ALIZADEH: For the record, this is Grand Jury Exhibit Number 25.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. WHIRLEY: Yes, thank you.
A Oh, I have to push it.
MS. WHIRLEY: Yeah, push it down.
Q (By Ms. Whirley) Grand Jury Exhibit Number 25, show us where you live.
A I live right here.
Q All right. So is that an upstairs or ground level?
A That's the middle level, that's the second floor.
Q Do you have a balcony?
A Yes, I do.
Q So when you went out and talked with your friend, were you on the balcony?
A On the balcony.
Q On the balcony?
A Uh-huh.
Q An then what happened?
A I goes back in the house. I goes back in the house.
Q And speak up a little.
A I goes back in the house no longer, three, four minutes after that maybe, and I heard something going on outside.
Q And do you investigate that to see what it

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

is?

A Yes, I happen to look out the window.

Q All right. And what do you see?

A I see a guy on the side, on the driver's side of a police vehicle. I just see something going on through the window, like a tussling going on through the window.

Q Can you show us on the map where you saw this police vehicle?

A Um, about right here.

Q Okay. And show us again where your apartment is.

A My apartment is right here.

Q So you are looking sort of down?

A Yeah.

Q And --

A Kind of.

Q From your perspective, from your point of view, are you looking at the driver's side of the vehicle or the passenger's side of the vehicle?

A I'm looking directly through the passenger window to the driver, you know, so I could see real good.

Q Okay. So which direction was the car facing?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A The vehicle was actually facing --
Q The truck, the police truck.
A The police vehicle was like facing like up here, you know, kind of like my direction, but this way diagonal like.
Q Okay.
A Maybe like facing this building.
Q Okay. So you're saying it was like facing that building?
A Yeah, kind of, you know, by diagonal.
Q All right. So if it was traveling, which way would it have been traveling?
A Um, it was traveling going towards West Florissant.
Q All right. That would be going west on Canfield Drive?
A Yeah.
Q But it was diagonal?
A Right.
Q Parked when you saw it?
A Yeah.
Q Did it look like the brake lights were on or anything?
A I didn't notice that.
Q Okay, all right. So it is facing this way

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

diagonally, but you can see the passenger side versus the driver's side?

A I could see the passenger's side clearly.

Q Clearly?

A Versus the driver's side.

Q Okay. So then you see a tussling going on, can you give us any more description about what the tussling looks like?

A Um, obviously, the window is between them, so I just see both arms moving.

Q When you say both arms, what do you mean?

A I see, if my window was in this direction I can see the officer's arms moving this way and I see Mike's arms, you know, whatever, through the window, whatever.

Q Can you see skin of the arms, are they wearing long sleeves?

A Yeah, it was skin.

Q Could you tell two black people, two white people, black and white?

A I could tell black and white.

Q You could tell black and white. You said Mike, you used the name Mike?

A Yeah.

Q Did you know Mike?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A No.
Q Had you ever met him before?
A I seen him before.
Q Because he lived in the neighborhood you thought?
A I'm not even sure.
Q You don't know, okay. Had you ever talked to him?
A No.
Q All right. Okay. So then what after you see the tussling?
A I see the tussling and all of the sudden, he also had a friend with him, he was standing like in front of the vehicle, the police cruiser, but like on the passenger side in front, maybe like 4 feet away from him, but all of the sudden, they just takes off running.
Q So his friend, which you now know to be who, what is his friend's name, do you know what his friend's name is now?
A Um, um, Dorian.
Q Okay, Dorian. So was his friend on the, Mike was on the driver's side; is that correct?
A Yeah.
Q With the officer tussling you said?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes.
Q Was Dorian on the driver's side too?
A No, he was on the passenger side.
Q The passenger side of the?
A Police cruiser.
Q Closer to where you could see?
A Yeah.
Q Okay. And what was he doing?
A He's just standing, just standing there.
Q Okay. And then what?
A And, like I said, they both just take off running, almost like at the same time.
Q Okay. Did you see anything that occurred that caused them both to take off running?
A No, I didn't notice that.
Q All of the sudden they both --
A They takes off running.
Q Did you hear anybody saying anything?
A Um, I heard, that's the only thing I heard was just the tussling or whatever, like maybe some voices, but I'm not sure like what was said, they just take off running.
Q All right. They took off running which way?
A Um, Mike, he runs straight down Canfield

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

directly in the middle of the road, and his friend, like I said, he was in the front passenger side, and if the vehicle, the police cruiser is like right here and there was also two parked vehicles on the side right here, and his friend takes off running directly behind the first vehicle he sees.

Q Okay.

A That was on the side.

Q Do you recall what those vehicles were like, the color and make of the cars?

A I just remember the white vehicle that Dorian ran to.

Q Do you know what kind of car that was?

A It was like a two-door Monte Carlo.

Q Okay. So there were two cars parked, the first was the Monte Carlo close to the police vehicle?

A Yeah.

Q And then Mike is running down, I guess east, well, you are showing us east on Canfield Drive?

A Yes.

Q And then what happens?

A And, um, the moment they take off running, I see the officer immediately gets out of his

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

vehicle, pull out his gun, definitely, in his shooting position, and let me see. Mike must have probably made it about right here in front of this driveway, as I said before, he didn't make it there, he just, when he gets out of the car he just immediately starts shoot.

Q As soon as the officer gets out of the car he's shooting?

A Yes.

Q And when you say the shooting, I don't know what your phrase, was standpoint, what did you say?

A Yeah, like in a shooting position.

Q Position, show us the shooting position.

A Um, like, you know (indicating).

Q So he gets out of the car and does that?

A Yeah, or maybe this right here.

Q Okay, thank you. And Mike is running and he's shooting?

A Yes.

Q And he's shooting like with Mike's back to him?

A Yes.

Q And then what?

A And, um, at the time I was still in the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

window looking and, um, my eyes, actually, I was still kind of focused, I was focused on both of them, but mainly on Dorian because he was still closer to the officer than Mike because Mike, he ran kind of fast at that time, but as I see Dorian ducking down looking at the officer shooting, I was kind of thinking that the officer was, he was going to stop, even hisself with the vehicle that his friend ran to and come over and shoot him.

Q Shoot Dorian?

A Yeah, but I kept my eyes on him because I seen Dorian constantly looking over the vehicle and looking at the officer each time.

Q Did Dorian look a certain way or anything in your opinion?

A Just looking scared.

Q Okay.

A Definitely looking at the officer, like I said.

Q Was he saying anything, Dorian, that you could hear?

A No, no.

Q How many shots did you hear the officer fire when he got out of the car and pursued Mike Brown?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Maybe four or five times.

Q Okay. And you didn't count the shots?

A No.

Q But it seemed like four or five?

A Yeah, it was kind of like a round though.

Q Okay. So you seen Dorian, Mike is running, now what?

A I'm still in the window and, um, I notice that the officer passed his friend Dorian where he ran to and that's when I decided to run outside to see what, you know, get a closer look.

But I forgot my phone in the bedroom, so I still took some steps, ran into the bedroom and got my phone and I went back, which is just a couple of seconds.

Q And where did you end up when you came out? Show us on the map where you were.

A I was at this building right here on the second floor.

Q Uh-huh.

A On the balcony.

Q Uh-huh.

A Turning on the power on my phone and the moment I steps outside, I see Mr. Brown kind of bent down a little bit with his arms tucked in like on

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

his stomach, so now I'm thinking that he's now shot. He was going down definitely so, and the officer just let out a few more rounds to him and he hit the ground and that's when I seen blood.

Q So when you stay he was going down, the officer shot more at him you say?

A Uh-huh.

Q How many more times maybe?

A Maybe four or five more times.

Q Can you demonstrate for us when you say going down, what his position looked like?

A His position looked like this.

Q Both arms under?

A Both arms like this (indicating).

Q Under his torso?

A Yeah, I remember him like taking two small steps like he was stumbling and like I said, the officer lets out some more shots and that's when he hit the ground. Yeah, he hit the ground just like how he, how he laid there or whatever, he dropped the arm.

Q Okay. So he had two arms --

A Just like this.

Q -- and one arm came out?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yeah, yeah, yeah, so all at the same time cause, um, I thought he was hit in his chest I didn't see no blood yet or, you know, so. When the officer let out more shots, you know, he just hit the ground, boom, just like this.

Q And the officer let off the shots as he was going down?

A Yeah.

Q Okay. Did it appear to you that Mike Brown was charging the officer?

A No.

Q Did it appear that the officer was being threatened by Mike Brown at that point when he was going down?

A No.

Q Okay. Then what did the officer do once Mike Brown hit the ground?

A Uh, the officer was maybe 5 feet away from his body.

Q Was he 5 feet away, did you see the shots?

A Yeah, I saw the shots.

Q So he was shooting, when Mike Brown was going down, how far away was he from Mike Brown then?

A He was like a good 15, 20 feet.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q From him when he, and let me walk it, I am going to walk back here and you tell me how far, like you be the officer and I'm Mike Brown. So if this room is large enough, about right here?

A Yeah, maybe, I'm standing at the door.

Q You can stand up.

A Maybe I'm standing at the door, about this distance.

Q This is the distance between Mike Brown and the officer when he shot him and he was going down?

A Yeah, at the time that he was going down, but like I said, he was probably a little bit farther when he let out the first shots.

Q Okay.

A The last shots he was about this distance, yeah.

Q Okay. So that's about 20 feet, 15 or 20 feet?

A Yeah.

Q That's what you thought it was, right?

A Yeah.

Q And what did the officer do? You said at some point he was like five foot from you?

A Yeah, I see his body, I didn't see him

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

check his body. He was just like 5 feet away from his body, um, over his shoulder or whatever on his walkie-talkie, still have his gun out pointed at him.

Q Okay. And was Mike Brown moving at that point?

A No, the moment he hit the ground, I knew he was dead.

Q No more movement?

A No more.

Q At any point did you hear the officer say anything?

A No, no, I don't remember.

Q At any point did you hear Mike Brown say anything?

A No.

Q How about Dorian?

A No.

Q You never heard any of them say anything?

A They probably was, but you know, I wasn't even paying attention to anything that was said. I was definitely paying attention to the sounds of the gunshots and what was going on.

Q Okay. Did you ever see Dorian get in the car that he was by, a white Monte Carlo? Did it

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

appear to you he got in the car?

A Yes, I saw him, he's in the car about the time that Mike Brown's body hit the ground.

So I see him inside the car and --

Q Do you actually see him in the car or you are assuming?

A Yeah, I see him in the car kind of sitting and then, like I said, when I see his body laying there now and it is done and over with, I see two more cops come there, but then probably a little bit before that is when I noticed Dorian had left, the white car left.

Q Okay. You didn't see Dorian any more?

A No, I didn't see him then.

Q Did you see him any time after that when this investigation was going on at the complex?

A I don't remember seeing him then.

Q Had you ever seen Dorian before?

A In the streets, no.

Q So you didn't know Dorian?

A No, I don't remember seeing him.

Q I asked you to describe him, what do you remember about him?

A I just remember some dreads.

Q Okay. You really couldn't identify him if

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

I brought a bunch of pictures here and show them to you or do you think you could?

A Maybe, yeah, I think.

Q I'm not going to show the pictures, I was just asking.

Did it ever appear that Mike Brown had a weapon?

A Uh, no.

Q Did it appear when he was, you know, you said holding his torso with both arms when he was going down, that he was going for a weapon in your opinion.

A No, it just looked like he was going down because the moment I steps outside, I'm thinking now he's hit in his chest area and the officer lets out more shots. It looked like he was going down, anyway, not to like give up, like to surrender, but to go down and bleed, you know, because like I said, before even going down on his knees or whatever, the officer lets out more shots but he had his arms on his torso.

Q When you say on his knees, what do you mean by that?

A I'm just saying like before, like I said when I was thinking that he's now shot, but he's got

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

his arms like this, you know, like before he even hit the ground, like his knees didn't even hit the ground or nothing like that. Cause I know he was hit, I knew he was hit, that's why I'm pretty sure he was now turned around.

Q Okay. And when he turned around, did you see him raise his hand in any way? I understand you saw his hand on his torso.

A I didn't see the hands go up, I didn't see no hands go up.

Q Okay. And you already said you didn't see him charge the officer, but you did say the officer was shooting at him as he was running away?

A Yes.

Q After they left and ran from the car?

A Yes.

Q The police car?

A Yes.

Q Okay. Now, when did you first interview with the police?

A Um, the first time?

Q Did you talk to them that day when this occurred?

A I think so.

Q Okay. You talked to them the very first

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

day I'm asking?

A I think so, I mean.

Q That Saturday?

A Yeah, I think because I talked to a lot of other reporters too. So A lot of people was coming the my house.

Q You talked to a lot of people, I understand.

A Yeah.

Q When you talked to the police, do you recall if they came to you or did you go to them?

A No, they came to me.

Q How did they know to come to you. Were you outside and they came to you or did they come to your house?

A They definitely just came there. They just came there.

Q To your house?

A Yes.

MS. WHIRLEY: Kathi?

Q (By Ms. Alizadeh) So just to clarify, you heard something that caused you to look out your window and when you did, you saw that Mike Brown was at the vehicle?

A Yes.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q And the driver's window and you saw hands in the window?

A Yeah, just going through, just arm movement.

Q Arms moving?

A Uh-huh.

Q Now, when you originally described this, and I, you know, I'm taking notes as you are testifying, so I don't want to say I missed something, but can you show what you showed before or what you saw that Mike Brown's arms or hands appear to be doing?

A I just see his hands just through the window and I see like the officer's elbow, you know, just like this. (indicating)

Q Okay. Now, you're using your right elbow when you are doing that?

A Uh-huh.

Q And if you were the officer, you'd be sitting in the driver's seat and I'm Mike Brown, I'm standing on this side of you, correct?

A Yeah.

Q Was say the officer's right elbow going like this or was it this elbow?

A No, it was going like this.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q Okay.

A So if my window is this way, I seen this kind of movement.

Q And you're looking into the vehicle through the passenger window?

A Yeah, and slightly through the front windshield like, yeah.

Q Okay. So to be clear, anything that happened before you looked out the window, you have not witnessed nor heard anything about, right?

A No.

Q And then by the time you first look out, Dorian is already on the passenger side of the vehicle near the sidewalk?

A Yeah, kind of like in front, in front of the vehicle though, you know, not on the side of it, but still like 5 feet away from it. Yeah, basically between the sidewalk and the parked vehicle.

Q Okay. So was he in the street or grassy area?

A He was still in the street like, yeah.

Q But not at the driver's door?

A No, not at the driver's door at all.

Q So he was not in a position where if Mike Brown wanted to reach to him, he couldn't, he wasn't

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

there?

A No, not at all.

Q Okay. And so, and then you said that you ran to get your phone and then I assume it was close by?

A Yes.

Q So you missed some of it?

A Yes.

Q But a matter of seconds?

A Yeah, yeah.

Q And then when you came back, you went outside then?

A Uh-huh.

Q So you're actually out on your balcony?

A Yes.

Q So still above ground level?

A Yeah.

Q Looking kind of down?

A Yeah.

Q Did you start recording with your phone at that point?

A No, my phone, it was completely off and I was cutting on the power still.

Q Okay. So now, you did record some things with your phone that day; is that right?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes.

Q But the things that you recorded were after?

A Just right after, before the yellow tape, yeah.

Q Right. So you did not record any part of shooting; is that correct?

A Correct.

Q Okay.

MS. ALIZADEH: I don't have anything else. Questions?

: This is When you were in your bedroom looking out the window is it a clear view or did you have blinds or shades or curtains?

A I had blinds.

: So you had to like open the blinds or peer through them?

A I put my finger in it and had it like this, yeah. (indicating)

: So does that bother the vision a little bit?

A No, it didn't mess it up. I mean, I could see everything when I did that.

Did you notice any other

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

vehicles around the police car or in front of or the police car initially?

A No, I just seen two vehicles parked on the side, on the sidewalk.

: Nothing in front of the police vehicle though?

A No, it was behind it like.

Did you see Michael Brown's head or shoulders entering the car at any time?

A Inside the vehicle?

: Inside, yeah.

A No.

: So just his arms?

A Yes.

Okay, thank you.

: At any time did you see Dorian with anything in his hands or Michael pass anything to Dorian?

A No.

: . So go back to part of the story you were explaining, you wouldn't mind maybe explaining it. When you are in your bedroom looking through the window, through the blinds, you explain seeing Officer Darren Wilson,

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

but can you walk us through exactly, you said you saw him shooting, kind of what that looked like. You know, if you heard him kind of what, you know, you showed us how he was holding his gun, but I mean was it cocking back, is there any sort of smoke, shell casing, anything that you may have seen or heard during that?

A No, no, he just, I say immediately, when they started running, he just gets out of his car and I see him in his shooting position and he lets out some rounds. So I didn't see no shells fall or no gun smoke or anything.

: As he is progressing, is he continually moving, what is he doing?

A He's, he's, he's taking, he's taking like large steps, so I didn't see him like run or anything, so he is just taking large steps, you know, towards him, you know, while his back is turned towards him.

. When Darren Wilson is pursuing Michael Brown, did you see anybody like maybe with a camera or cell phone running like towards or moving towards the officer, like towards where Dorian Johnson would have been?

A No.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: . At the point where the police officer gets out of the car and he, I guess, goes into his shooting motion, did you ever see him like sprint with the gun in one hand sort of like this kind of motion, with the gun in one hand?

A No, huh-uh.

He was always just like that?

A Yeah, in that position.

: I have three questions.

You were in your room, in your bedroom, you were looking outside?

MS. ALIZADEH: You know what, can you speak up?

: I'm sorry.

You were in your bedroom, you are looking outside?

A Uh-huh.

: Where was Michael Brown when you were on your balcony, where was he positioned on that?

A He was definitely, I was just past this driveway. He was about right there, no, probably about right here. (indicating)

: Where was Michael Brown

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

when you got outside?

A Right here. (indicating)

: Same place. So he was in the same spot when you were looking at him from your balcony?

A Yes.

And he was, when you saw him from outside?

A Um, no, he was right here the moment I come outside.

Okay.

A I know for sure while I was in the window.

: Uh-huh.

A Where his death is, he actually ran just a little bit past his death, death bed, I know that for sure because from my window, this building right here, kind of blocks the view.

You didn't see him run towards Copper Creek Court?

A Copper Creek Court, yeah, I see.

: You saw him down there. Did he get to the corner of Copper Creek Court, did you see him there?

A At the corner of it?

Or did you see him

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

basically the same spot within just a few feet from your balcony to when you got outside?

A Yeah, just right here, yeah.

: Okay. So you didn't see him anywhere near that corner?

A Oh, no, no, no, no.

MS. ALIZADEH: Can I interrupt you real quick? I'm not sure, maybe I'm mistaken.

: Okay.

MS. ALIZADEH: You're inside, when you are looking through the window, you are inside?

A Yes.

MS. ALIZADEH: From there you go onto your balcony?

A Yes.

MS. ALIZADEH: And you call that outside, that's outside, right?

A Yes, the balcony is outside.

MS. ALIZADEH: Okay. And then you go leave your balcony and go outside of the building?

A Outside on the ground level?

MS. ALIZADEH: Yeah.

A No, that was way after, way after.

MS. ALIZADEH: Okay. So inside, when you go outside, that's on the balcony.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes.

Okay. Thank you.

MS. ALIZADEH: I didn't know, it sounded like --

Yeah, I thought you had gone out of the apartment.

A No, no, I'm still on the balcony.

: Because I was a little confused by that, I thought, it was seconds getting and I thought getting your phone and everything.

A No, no, no, I stayed on the balcony.

: And you didn't see him move that much from that time?

A No, like I said, from where his death bed is, from my window, he ran past that just a little bit.

Okay. And you said that say the officer got inside his car, he was inside his car before Michael Brown's body even hit the ground?

A No, no.

: That's why I'm asking because I misheard.

A No, I mean, he was, the officer was, 20 feet away from him when Mike Brown, before Mike

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Brown's body hit the ground, he let out some more shots.

He turned around and got into his car?

A Not, not right after that, not right after that.

: Okay. That was all, I couldn't really hear you.

MS. WHIRLEY: I'm glad that was cleared up because you were on the balcony the entire time that this incident was occurring?

A No, not the entire time.

MS. WHIRLEY: Let me rephrase.

Q (By Ms. Whirley) Once you came out to the balcony.

A Uh-huh.

Q You never came to the ground?

A No.

Q Until after the incident --

A Yeah, after.

Q -- had occurred?

A Yes.

Q Until after Mike Brown was on the ground dead?

A Yes, uh-huh.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q That's when you came out on the ground?

A Yes.

Q Okay.

: . If you are right here.

A Yes.

: Yes.

A Yes.

: You see the police officer, you can see the front of it. If you are here and the police is running here.

A The officer is --

: Or the officer. What do you see, you see his side, you see his back, you see his front.

A I see Mike Brown's front, I see the officer's side, I see his side, he is still in his shooting position.

: Is it Mike Brown was down right here.

A No, his body was right here (indicating). And he just, the longest I think he ran right here, not long at all. And like I said, and by the time I got to the balcony, he is turned around right here, stumbled right here where his body, his death bed

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

is. The officer still about right here.

: Okay. You see part of his side and part of his back?

A Yes.

: You don't see him doing this all the time?

A Yes, I saw that he was in his shooting position. So I see, you know, his arm and his side the officer's side.

: You see this hand and you see perfectly with this one too?

A Yes.

MS. ALIZADEH: let me just ask you. I until you pointed on the diagram to where you sea say Mike's Brown's body eventually came to rest.

A Uh-huh.

MS. ALIZADEH: Show me on the diagram again.

A Right there. (indicating)

Q (By Ms. Alizadeh) Okay. So you know the police were out there afterwards, correct?

A Yes.

Q And they photograph everything, I don't know if you saw that, but I will tell you they did. I mean, do you have any reason the police moved the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

body into a different location?

A No, they didn't.

Q And you know police took measurements of where the body was in relation to things and they did a diagram. Would it help you to talk about where the officer was and where Mike Brown was if I show you that diagram?

A Yeah.

Q Okay. So I'm going to show you a diagram that was done, I'm not trying to mess you up at all because it is difficult to remember all of this, I get. So this is a diagram, Grand Jury Number 2, okay.

And so this is where they measured where the police truck was when the police got there. You never saw that truck move again, did you?

A No.

Q Okay. So here is this, do you see this little grassy area here?

A Yeah, that's my apartment.

Q You can see that's kind of reflected in the diagram?

A Oh, that's what that is supposed to be.

Q I think so, do you see that?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yeah.

Q So the truck is about, you know, somewhere in this area according to the diagram, correct?

A No, it was actually up here, like right here. (indicating)

Q Okay.

A So closer, like up here.

Q You think it was closer up to here?

A Yeah, I know it was because there is a sign right here and it kind of evened itself up. I just know it was closer to the driveway right here. (indicating)

Q So let me ask you this. Do you think that the police officer measured it wrong or do you think that the, anybody moved the truck?

A No, no, I know that the truck was right here, it was definitely right here.

Q Okay.

A Just before this driveway diagonally in the middle of the street.

Q Okay. And you see here this line right here that kind of looks like the edge of the driveway?

A That's the edge of the driveway.

Q You say the truck was more up here?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A More right here, before the driveways that's across from each other.

MS. ALIZADEH: Do you all have your diagrams?

(All indicate yes.)

MS. ALIZADEH: I can also put this up there.

Q (By Ms. Alizadeh) So now here is in diagram the depiction of where Michael Brown's body came to rest, okay. And here is the little, the driveway or the street Caddiefield, and as you can see here, is Copper Creek Court up here to the north.

So the way they have it, his body is somewhere right around here. You don't think that's right?

A No, it is not right. His body is definitely right here because like I said, I live there and that's the driveway right here, his death bed is just a little bit past the driveway, just a little bit past the driveway.

MS. ALIZADEH: You all want me to put this up here so he can point and follow along with yours? . You were standing on your balcony, I believe that distance in

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

your mind that's where you would see him because you are on a balcony, so that's the distance your eyes were focused where the two people are in position. And so you seen Mike collapse, I believe that from your balcony that's, that's where your eyes focused that that's where he laid, but actually like everything was done, they did the measurements, that it was a little bit further than your eyes focused on where he actually fell. So not saying that you're wrong, that's just from the vision point of your perspective that's where you were standing.

MS. ALIZADEH: And she's exactly right. I'm not trying to say you are lying about this or anything, I mean, don't make it, don't feel like you're on the defensive, like I'm trying to point out that you're wrong or that you weren't really there.

A I was there.

MS. ALIZADEH: I know you were there. But people remember things differently or they see things from a different perspective, distances are hard to judge. And so I just want to clear things up and I'm going to show you what is a photograph that was taken by the detective who processed the scene.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

What's the envelope you took that out of, Sheila? Oh, here it is. This came out of Grand Jury Exhibit Number 3. And it is Image Number 3, you see that three on the back there?

A Yeah.

Q (By Ms. Alizadeh) So this is the image that the detective took of the police car?

A That's the police car right there.

Q That's the officer's vehicle, yes. Does that help you get a perspective of where the car might have been?

A You may be right.

Q So you don't think that helps you?

A No, no, I think it really does. So if I'm on my balcony, that's why, I know it's a little wall right here, so from my balcony right here it is on the side. So I could barely see kind of because I got barbecue grills right here.

Q Uh-huh.

A So I kind of leaned over and still see the vehicle right there, but I'm thinking, you know, right there on this picture.

Q Sure. Okay. And you see the corner here, I believe, that's probably that corner right there, right?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yeah, Canfield.

Q And then I'm going to show you Image Number 13.

A Uh-huh.

Q So this is where his body came to rest and this is Copper Creek Court right here. Does it appear to be right in front of this building, right here?

A Yeah, right in the front.

Q So would that be more like right here? (indicating)

A I know that pole right there, yeah, you know what I think that's right, yeah, okay.

Q So does that help you?

A Yeah.

Q I'm not trying to get you to change what you say you saw because we all understand?

A Yeah, I saw what I saw, it is just the parked vehicle and the body from my window and balcony.

Q Okay. Just again to clarify, you're not saying anybody moved the car or moved the body, correct?

A No, I didn't see nobody move the body.

Q So seeing those photographs, you believe

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

that those photographs do depict where the body was?

A Yeah, yeah.

Q And where the vehicle was?

A Yeah.

MS. ALIZADEH: Okay, all right. I just wanted to clarify that.

: . Could you put that Number 3 on the screen.

MS. ALIZADEH: Image Number 3?

: Yes, please.

: A couple times when you were explaining the story just a couple minutes ago, you referred to Michael Brown's death bed?

A Uh-huh.

: Do you mean where you saw him fall in a day or do you mean where there is currently a memorial?

A No, where he laid.

: Where he fell?

A Yes.

MS. WHIRLEY: I'm not sure which button to push. We need to push.

MS. ALIZADEH: We need somebody to teach us how to do this.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: We're just rocking and rolling now. I want to get this all on the screen.

I'm putting up here Image Number 3. At the request of one of the jurors.

: Let me go over here to the map. Now that driveway we see behind the police vehicle.

A Uh-huh.

Is that this driveway or this driveway?

A This one, the first one.

: Okay. All right. Thank you.

Can you point out where your balcony is at on the picture?

A Um, should be right here. (indicating)

. I apologize if I missed this. Are you on the second floor?

A Yes.

. There are three floors?

A Yes.

: Would the other cars that were parked there, the one that

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Dorian allegedly ran behind.

A Uh-huh.

Would they have been in this picture?

A Yes, before then, yes.

Okay.

A So, yeah, I kind of thought the vehicle was a little bit upwards from my balcony and from my window. But it would have been right here and like another one right here. (indicating)

: That's where those two vehicles were parked?

A Yeah.

MS. ALIZADEH: So, Michael, those two vehicles, you're talking about the white Monte Carlo?

A Yes.

Q (By Ms. Alizadeh) And then I think you described in a previous statement a purple car?

A Yeah, I think, it was more, it was darker color black.

MS. ALIZADEH: Maroon or black cherry or something.

A Uh-huh.

Q (By Ms. Alizadeh) Were those cars then,

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

did it look like they had stopped in traffic or were they parked?

A No, they was on the side, they was just on the side. I don't even think they was parked.

Q Okay.

A They was just off to the side.

Q All right. Did you ever see the doors of the Monte Carlo open?

A That's the funny thing, like I seen the Monte Carlo door, the passenger side door was opened.

Q Okay. Did you ever see anyone inside the Monte Carlo get out?

A No.

Q Okay.

MS. WHIRLEY: You said you thought Dorian got in into the car, where would he have gotten in? Did you see that, in the passenger's front?

A Yeah, he would have got in through the passenger's front door.

Q (By Ms. Whirley) Because you saw someone in the passenger front door and the door was open?

A Yeah, the door was open, yeah, so. I didn't see nobody in front other than somebody in the driver's seat.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q Okay. So you thought Dorian got in that front passenger seat?

A Yes.

MS. ALIZADEH: I want to make sure we are clear on this. Are you just assuming that he got in the car because he was right there and then suddenly you didn't see him?

A I seen him get inside, but as I said, I didn't see him like make a conversation with the person that was in. I know when I got to the ground, the car was gone.

MS. ALIZADEH: Right. You got to the ground after it was all over?

A Yeah.

MS. ALIZADEH: I guess my question is, that Monte Carlo is a two-door car?

A Yes, as far as I remember.

MS. ALIZADEH: I know it has been described before and I apologize if I don't know if it was you that said it or someone else, but you saw him get in the car.

A Yeah.

MS. ALIZADEH: Okay.

: You never saw Dorian beside Michael Brown.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A The side of him.

You never saw him beside him on the driver's side door on either side of him?

A No.

: He was always on the other side of the car?

A Yeah, on the opposite.

I have another question. Did you see anybody else outside, the parking lot in that building or grassy area in front of the parking lot during the shooting.

A As a matter of fact, yeah, it was, there was another purple car sitting on the parking lot already and that person told me he saw the whole thing. That one person was already outside.

Was that a male or female?

A A male and female.

MS. ALIZADEH: Just so I'm clear on this, is this somebody that you talked to after the fact?

A Yeah, that I spoke to.

MS. ALIZADEH: And they said they were and they saw the whole thing?

A Yeah, that they saw when the officer pulled, when he first pulling up to the street to them.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: And did you tell the police the names of these people?

A No, I don't know the names.

MS. ALIZADEH: Do you know if those people have ever been talked to by the police?

A I'm not sure.

MS. ALIZADEH: So was this someone you just kind of met that day?

A Yeah, just at that moment, you know, just everybody is just talking what they saw and he happen to be outside with his girlfriend, they was just in the car with their feet up, with the doors open.

MS. ALIZADEH: Okay. If I said any names, did you ask his name?

A No, huh-uh.

MS. ALIZADEH: It wouldn't help if I said a name or two?

A No, huh-uh.

MS. ALIZADEH: It was a man and a woman?

A Yes.

MS. ALIZADEH: Okay.

MS. WHIRLEY: Anything else?

: At the point where the last, I guess the final shots by the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

police officer and you said he was kind of balled up?

A Yeah.

Did it to your, I guess, your opinion, did it ever seem like he was trying to tackle this officer?

A No, huh-uh, no, not at all. It just looked like, the moment I come outside, I just thought he was hit, you know, in the stomach somewhere and he was going down, that's my vision right there. Oh, he's going down and then boom, boom, boom, he's down for sure. And, you know, I just knew he was dead the moment, I think, yeah, probably like the very last shot is when like I seen his face.

Cause, um, after all of them shots, I didn't see no blood like splatter until like his face hit the ground, so I thought his head busted up at first so.

: Just to clarify also, the time in which you were behind your window and you grab your phone and come to the balcony, at that point is that where you would assume Mike Brown stopped and turned around, so you didn't actually see him at any time when he stopped

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

running?

A I didn't see that moment.

: Okay.

A I just seen him running away. Then the moment I gets outside, he is now facing the officer.

Thank you.

MS. ALIZADEH: Any other questions?

MS. WHIRLEY: All right.

MS. ALIZADEH: is there anything else that you know that would help this grand jury figure out in its deliberations maybe something that nobody's asked you or that you know now that you would like to tell them.

A Um, no, not at the moment, no.

MS. ALIZADEH: If there's anything that you think of in the future before this grand jury concludes its investigation, would you promise to call me or Miss Whirley or the County Police?

A Yes.

MS. ALIZADEH: Just let us know that you have some additional information?

A Yes.

MS. ALIZADEH: And you believe me when I said this is our job to make sure they have as many facts as they could possibly have?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes.

MS. ALIZADEH: All right.

MS. WHIRLEY: So that concludes the question and answer period with in the Michael Brown shooting. Thank you, .

A Thank you. Thank you.

(End of the testimony of .)

MS. ALIZADEH: All right. This is Kathi Alizadeh, present in the grand jury are all 12 grand jurors and Sheila Whirley and the court reporter, and it is 9:55 a.m. We had a witness wasn't able to appear this morning and so we're going to try to listen to some more recorded statements.

So the first one we are going to hear, we are going to resume the recorded statement of Witness Number 10. He testified earlier this week and we actually began hearing his recorded statement, but we stopped because if you recall, then was here and we wanted to get her on.

So Sheila thinks that we stopped the recording at?

MS. WHIRLEY: At 2041. I cued it at 2040. I didn't want to go over 41.

MS. ALIZADEH: Okay. So we will now stop

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

the recording in the grand jury while we are playing the recorded interview of Witness Number 10, which is contained on a file which is on a disc marked Grand Jury Number 24.

(This is continuation of statement of Witness Number 10.)

DETECTIVE Okay. at the end of that ten seconds, what happens?

WITNESS 10: A gunshot.

DETECTIVE Okay. And then what happens after that gunshot goes off?

WITNESS 10: Mr. Brown ran.

DETECTIVE Okay. do you know where that gunshot came from?

WITNESS 10: No, I do not.

DETECTIVE : Okay. So before he runs, he leaves the car?

WITNESS 10: Yes.

DETECTIVE Okay. So he kind of comes out of the car then and then he runs, right?

WITNESS 10: Uh-huh.

DETECTIVE : He takes off running in which direction?

WITNESS 10: East.

DETECTIVE East, okay, which would

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

be away from you, correct?

: Page ten.

WITNESS 10: Yes.

DETECTIVE : Okay. At that point what do you do?

WITNESS 10: I'm in shock. Um, I'm thinking that he just killed this police officer because he didn't get out of the car and follow foot pursuit as quickly as I would have thought that he would.

DETECTIVE Okay. And I think you said six seconds, roughly, before the officer gets out of the car?

WITNESS 10: Yes.

DETECTIVE : So Michael Brown runs east on, east, where at is he running actually?

WITNESS 10: He's running in the middle of the street at like, at a slant, um, and the, it will be the first driveway on the left from the squad car that he was -- he was turned -- about to make a turn like he was going to go into the driveway. Actually, he did turn into that first driveway and then he stopped and came back towards -- by this time the police officer was out of his car with the gun drawn. Okay. And afterwards he stopped and

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

came towards the police officer.

DETECTIVE : Okay. So, um, Michael Brown is running east heading towards the parking lot, right.

WITNESS 10: Yes.

DETECTIVE : The officer comes out of the car. How is the officer, you said with his gun drawn. How is the officer holding his gun.

WITNESS 10: Just as if he was going to use it.

DETECTIVE Okay. And do you hear anybody saying anything at in any point in this?

WITNESS 10: No, no, I was not at a close enough distance to hear any words being exchanged.

DETECTIVE Okay. Um, what did this officer do then at that point?

WITNESS 10: At that point he has his gun drawn at a raised point. He -- when he felt he came into a line, close enough distance with him, um, it appeared that when he did raise his gun, that he's verbally um, telling this guy, giving him a command.

And at that point that's when I seen Mr. Brown turn and he like did something. I don't know if it was pull his pants up, it was some type of motion that took place with Mr. Brown's body

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

gesture and after that, he began to run towards the police officer.

DETECTIVE : Okay. So from the time that you hear that first gunshot and the officer gets out of the car until the time that Michael Brown stops and -- and turns around and faces the officer, right?

WITNESS 10: Uh-huh.

DETECTIVE Do you hear any gunshots between that -- that period right there?

WITNESS 10: No.

DETECTIVE Okay. So Michael Brown stop, he turns around, correct?

WITNESS 10: Uh-huh.

DETECTIVE : Where are his hands at that point, do you know?

WITNESS 10: Um, I know for sure they weren't above his head.

DETECTIVE : Okay. Okay. So let's go back to the officer is chasing after or approaching Brown, right?

WITNESS 10: Uh-huh.

DETECTIVE : Brown stops, turns around, and just so I'm clear, what happens at that point then?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

WITNESS 10: You're at the point Mr. Brown stops, turns around --

DETECTIVE Uh-huh. He stops and turns around.

WITNESS 10: He turns around, he does some of body gesture, and I'm thinking he pulled his shorts up, I can't really recall upon what all happened. All I know is that I seen the body gesture. I mostly seen it in the upper body.

Um, after that, he began to run at the police officer.

DETECTIVE Okay. How far away do you think he did was from the officer at this point?

WITNESS 10: Um, maybe, I want to say 15 yards he was away and he may have gotten 5 yards before the police officer fired his first shot.

DETECTIVE Okay.

WITNESS 10: So that would bring him in, um, within a 10 yard range before the police officer would have fired.

DETECTIVE Okay. Where were, where were Michael Brown's hands when he's, you said he does this thing with his pants, right?

WITNESS 10: Yeah.

DETECTIVE : Or something. Um, what

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

does he do after he does that?

WITNESS 10: He runs. He's at a charging motion.

DETECTIVE : Okay. And where are his hands at that time, do you know?

WITNESS 10: Um, I'm not sure where his hands was at that time. Uh, all I know is that I'm seeing him coming at a very aggressive, um, speed and just in a charge mode towards the police officer.

DETECTIVE : Is this a trot or is it a jog or is it a full-out?

WITNESS 10: No, it's a full-out. I'm coming charge full-blown to try to get to you.

DETECTIVE : Okay. And so the officer fires the first shot when he's how far away?

WITNESS 10: Um, 10 yards.

DETECTIVE Okay. And how many times do you think he fires?

WITNESS 10: I think he fires, um, five to six rounds.

DETECTIVE : Okay. And then after that five or six rounds are fired, what happens.

WITNESS 10: Uh, Mr. Brown then paused and the police officer ceased fire and Mr. Brown then

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

tried to charge once more and that's when the police officer opened fire.

DETECTIVE : So Brown charged again and the officer opened fire again?

WITNESS 10: Yes.

DETECTIVE : Is that what you said? Okay. And then what happens?

WITNESS 10: Then he collapsed in the street.

DETECTIVE : Did you see the officer, uh, touch him at all, or anything like that?

WITNESS 10: No.

DETECTIVE : Okay. And how many officers were present when this took place?

WITNESS 10: One.

DETECTIVE : Just the officer that was shooting?

WITNESS 10: Yes.

DETECTIVE : Okay. How long did it take before other officers to show up?

WITNESS 10: I'm not sure. I walked in the and maybe two minutes, a minute at tops.

DETECTIVE : Okay. But you went back to the to --

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

WITNESS 10: Two minutes tops, yeah.
DETECTIVE : Okay.
WITNESS 10: Yeah.
DETECTIVE Uh --
WITNESS 10: I'm not sure, I'm not sure there on the time on the response because when I did come back out, I'm not sure if it was the actual police officer that shot, uh, Mr. Brown that was doing the taping. I know when I came back outside, I really wasn't focused then on did another police car show up. What drew my attention was I seen one police officer, um, taping off the scene and I'm not sure if that was the actual police officer that did the shooting.
DETECTIVE Okay. You made mention of a car, right?
WITNESS 10: Yes.
DETECTIVE It was west, I'm sorry, east of the police car in the middle of the road, right?
WITNESS 10: Yes.
DETECTIVE What kind of car do you think that was?
WITNESS 10: It was Monte Carlo. Blue.
DETECTIVE : Okay. Do you know what

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

color?

WITNESS 10: Blue.

DETECTIVE Okay. Do you know how many people were in that car or who was driving?

WITNESS 10: No, I'm not sure. I just seen a driver's from a distance. I couldn't get a description. Uh, I know he was a black African-American.

DETECTIVE You said he, so it was a male in the car?

WITNESS 10: Yeah, yeah, yeah, it was a he. Yeah, yeah.

DETECTIVE Okay. Do you know if there was anybody else in the car?

WITNESS 10: No, I'm not sure.

DETECTIVE All right. The individual with the dreadlocks that you say were, uh, you said kind of highlighted --

WITNESS 10: Yeah.

DETECTIVE : -- or had some sort of color to them, right?

WITNESS 10: Yes.

DETECTIVE He went where?

WITNESS 10: He went um, at what time?

DETECTIVE : Uh, I guess what's the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

first point that you saw him?

WITNESS 10: The first point was I seen him with the suspect when they were still alive together. The next time I seen him was when after everything already took place where Mr. Brown was fatally injured and he came from nowhere and ran across the street and it would be at the point where he ran across would be in front of the squad car.

DETECTIVE Okay.

WITNESS 10: And he cuts across and yells, uh, "they killed him, they killed him." And I'm not sure if he, at that point when he was yelling at the, um, that, blue Monte Carlo was at the same, they were at the same point. I'm not sure if he was yelling it just to be yelling it or if he was telling them in the car that they killed him.

And that -- and that he never entered their car or went up to that car that they killed him. He was yelling and he ran through the back fields of Canfield.

DETECTIVE Okay. Did you notice anybody else outside? You made mention obviously of the, obviously, the -- the -- the guy with the dreadlocks, right.

WITNESS 10: Uh-huh.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE And the occupant of the Monte Carlo, right?

WITNESS 10: Yes.

DETECTIVE : Did you notice anybody else outside at that point?

WITNESS 10: No, I, I never noticed anybody outside looking or anything. Um, I was mainly, I have -- I have felt like I had tunnel vision where I was just like zoomed in on just what was going on with the police officer.

Now, um, I, I didn't see anybody. No, I seen that everybody started coming outside. I did notice when, uh, Mr. Brown was laying on the ground.

DETECTIVE Okay, all right. Uh, when you went inside and told the you were working at, those people in there, how many people did you tell?

A Just one.

DETECTIVE Just one?

WITNESS 10: Yeah.

DETECTIVE And that was the in the , right?

WITNESS 10: Yes.

DETECTIVE Okay. What did say, anything?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

WITNESS 10: Uh, I can't recall comments.

DETECTIVE : wasn't -- I guess -- I guess --

WITNESS 10: I can't -- I can't recall comments.

DETECTIVE Um, wasn't outside or anything, was ?

WITNESS 10: No.

DETECTIVE : But , I guess what I'm getting at didn't say, yeah, I know I saw this or --

WITNESS 10: No.

DETECTIVE : Okay. So when you first told that was first, first knowledge of the incident?

WITNESS 10: Exactly.

DETECTIVE Okay. And do you remember -- you do not remember name, right?

WITNESS 10: No, no. I never really got name. This is the time me working there. I never --

DETECTIVE : Just a, just a job.

WITNESS 10: Exactly, it's just a job.

DETECTIVE Okay, all right. How

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

old is , roughly?

WITNESS 10: I'm not sure. If I had to guess, maybe late , early .

DETECTIVE All right. What, um, what is your opinion of that incident itself?

WITNESS 10: Initially, um, I thought wow, um, did he have to use the force on him. Um, could he have taken and retrieved his taser, um and tased the young guy. He was, I felt like he was unarmed and my initial thoughts was that.

And after thinking about it and reviewing everything and putting myself in the police officer's shoes, I feel like he handled the situation correct force wise. The gunshot led from the car, the confrontation led from the car.

He came out with his weapon drawn, um, trying to pursue the suspect.

Then, um, at one point the suspect turns and if he, I felt he was really trying to give himself up, um, the police officer already has his gun drawn. If you're really trying to give himself up, you're going to lay down on the ground and you're going to let it be known, um, but that he didn't do that.

And he charged at him and at that time I

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

feel like the police officer, he didn't have time to really react and holster his weapon and reholster with a taser.

DETECTIVE Okay. The entire incident from the time that you first saw until the time that Michael Brown was on the ground, how long do you think it lasted.

A Um, maybe two minutes.

DETECTIVE Okay, all right. You have anything?

DETECTIVE Did we get an address of where you're working?

WITNESS 10: No.

DETECTIVE (Redacted)

DETECTIVE No, on the street itself.

DETECTIVE : Oh, no, it's the on the --

WITNESS 10: It's the on the .

DETECTIVE : --

WITNESS 10: Yeah.

DETECTIVE : Or on the or the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

WITNESS 10: Uh, I believe it is .
DETECTIVE Okay. And you were just doing that job, an job?
WITNESS 10: No, it's a
DETECTIVE Oh, to okay.
WITNESS 10: Yeah.
DETECTIVE All right. Um, is this your, I'm sorry, anything else you can think of? Is this your best recollection of this incident?
WITNESS 10: Yes.
DETECTIVE Okay. And nothing has been embellished, you know, I mean, you're being upfront, honest. There's nothing that you're making more out of or nothing that a you are leaving out on either end of the spectrum; is that --
WITNESS 10: No.
DETECTIVE Okay. Is there anything else that you would like to add? Anything else that you feel is important that we should know? Any questions that we did not ask you?
And that's not a trick question, that's just something that I want to give everybody an opportunity to, you know, speak their peace.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

WITNESS 10: Um, I just, um, I just, uh, I feel sad about this whole situation that, um, it had to end like this. And, um, it's just, just hearing everybody's point of view, I feel that, um, most people think that, um, Mike basically f'd the police. They think the police are bad for them up until the time they're in need of the police.

And, uh, I just wanted to come forward and tell it how I seen it because I feel like it's very rare that somebody's going to come forward and tell actually what happened.

DETECTIVE : Okay. Anything else you want to add? Anything else that is important?

WITNESS 10: No.

DETECTIVE Okay. You have anything? If there is nothing else, the time is 12:16 p.m. and this concludes the interview.

(End of the recording.)

MS. ALIZADEH: Does anybody need to hear anything over regarding the recorded statement of Witness Number 10? You have the transcripts that you can keep in your packet and, of course, at any time you want to rehear something, it is available to you.

Now, we're going to play a clip from a

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

video that was recorded by a cell phone. This video was obtained off of the internet. It is contained on Grand Jury Exhibit Number 26 that I've marked and might be better for me to do it, I know where to cue it up to.

As I said, this is not very long and actually, this clip appears twice on this disc. One clip includes the video, which I will describe it, is after the shooting.

The other clip of this contains just the audio and it has just a plain view screen and all you are hearing is the audio. It is the same clip, it is just without the video. I don't know if after you see the video on if it would assist you to then just do the audio to just kind of close your eyes and try to listen because as I said, it is difficult to hear because voices, that has identified as own, is actually a background speaker in this clip. Can I black that screen while I'm trying to find it or no?

since this is not very long. It probably is okay for us to just record. Nobody says any identifying information on the recording. And also it would probably be difficult for you to even to attempt to transcribe it. We don't have a

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

transcript of this and I think one of the reasons, as you will see, it is very difficult to hear it, and I don't want to be in a position that I'm saying this is what we think is being said because it is your job to decide what you think is being said.

And the entire clip is ten minutes long, however, I'm going to put the cursor forward to about a little past six minutes because that is the time when the conversation occurs that

is talking.

Again, this video in its entirety is ten minutes long. If you want to watch the entire video, you certainly can.

I'm going to start the clip at exactly six minutes.

(Clip is being played at this time.)

MS. ALIZADEH: Now, there again, the entire clip is ten minutes. If you want to watch the whole clip or if you want to watch a certain part of it again or if you want to just do the audio portion and listen, it is up to you.

: Let's just hear the audio.

MS. ALIZADEH: So you'd like to just hear the audio portion? You want me to start at six minutes or you want me to play the whole thing?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

I think it would be okay if you start it at the exact same timeframe.

(playing of the audio recording.)

MS. ALIZADEH: Start it at 5:59. You know, I'm not sure that that starts at the same place that I'm hearing this. Can I review this over the lunch hour and maybe we can, I don't want to represent to you that it starts at the same place because in my mind, I'm thinking it is not at the same place.

So what's in the beginning of it, the rest of the six minutes?

MS. ALIZADEH: If you want to watch it, I mean, I don't want to necessarily characterize it except to say it is all after the shooting and that it appears to be someone who is recording with a cell phone or handheld device and then you hear people in the crowd talking, you hear people near the camera talking, I don't know if it is the person who is holding the camera that is doing all the talking.

: Okay.

MS. ALIZADEH: You can certainly watch the whole thing if you want. But before we listen to that audio portion, let me listen to it during the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

lunch hour and make sure. I don't want to start it at a different place and get you confused about that.

So at this time then, I will just remove the disc and try to do this at the lunch hour when I have time to look at it.

Okay. The next thing we are going to play for you is a disc that is marked Grand Jury Number 27, and it contains several clips which are media interviews that were done by , who you will recall testified yesterday, not yesterday, Tuesday.

And we can go ahead, there is 33 minutes of video clips. I might speak during and in between them. Leave the recorder on.

(Clips are being played).

MS. ALIZADEH: All right. That was a clip that was aired on August 13th, 2014 on KMOV.

The next clip was aired August 13th, 2014 on CNN Tonight.

(clip is being played.)

MS. ALIZADEH: So the next clip is a continuation of that. Actually, it appears there is a total three clips of that interview on CNN.

(clip is being played.)

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: Now, I'll play the actually, the third clip of the CNN interview, which on the disc is actually the fourth clip, but it is the third clip of the CNN interview.

(clip is being played.)

MS. ALIZADEH: I have stopped it after the interview concluded. The reporter's comments are not really relevant.

I'll going to play a clip that aired on August 14th on MSNBC and on a program called last word and this interview is actually contained in three separate clips, so this is the first clip of that interview.

(interview being played.)

MS. ALIZADEH: So I'm now playing the second clip of that interview.

(interview being played.)

MS. ALIZADEH: I'm now going to play the last clip of that interview.

(clip is being played.)

MS. ALIZADEH: And as you can see on the screen, there is one clip remaining. I think I mentioned to you that that is actually reporter commentary about dissecting s story and they do play a couple of segments of that interview that

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

you just watched, but it is all segments of the interview that you've already seen. So I don't think it is appropriate for you to, you know, the reporter's commentary is really not evidence and it shouldn't play into your decision, I'm not going to play the final clip that's on Grand Jury Exhibit Number 27, all right.

Did anybody want to see any of these clips over again?

This next interview is fairly short, so I thought maybe we would go ahead and listen to that and then if you want to take a break. Have you all ordered lunch? I'm going to pass around a transcript interview that was done on August 9th, 2014 by St. Louis County police detective is interviewing .

I'm going to go ahead and stop the audio recording in the grand jury while the audio interview is being played, and I've given the court reporter a copy of the transcript. So at this time let's pause the recording of the grand jury.

(Audio recording is paused at this time and this is the audio recorded interview of)

DETECTIVE : This is Detective

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

with St. Louis county Police, Bureau Crimes Against Persons. I am on Canfield Drive in reference to a officer-involved shooting uh, in the City of Ferguson. It is 1:53 p.m. It's Saturday, August 9th.

Um, I'm here with, uh , black female, date of birth (redacted) Address of (Redacted). She has phone number of (redacted). , are you aware this is being recorded?

Yes.

DETECTIVE : You okay with that?

: I'm fine.

DETECTIVE Okay. If you would, um, just, cause you speak kind of soft, can you hold onto the recording for me?

: Yes.

DETECTIVE : And just kind of tell me, uh, what, if anything, you observed on Canfield today?

: Okay. I was coming down Canfield going south.

DETECTIVE Okay.

I hear "urrrrr" sound, like the brakes stopping on the car.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE : So you heard tires squeal.

: Yeah, tires -- tires squealing.

DETECTIVE : Okay.

: I come closer and I see a guy being pulled through the window of the SUV of the St. Louis Ferguson.

DETECTIVE : Of the police vehicle?

: Yes, of the police vehicle.

DETECTIVE : So the Tahoe, Chevy Tahoe, Ferguson Chevy Tahoe right there?

Yes.

DETECTIVE : Um that's parked in the middle of street with the cones around it?

Yes.

DETECTIVE : Um, is that where the was at?

Yes.

DETECTIVE : Positioned exactly?

: That's where it was.

DETECTIVE : Okay.

: It didn't move.

DETECTIVE : And where did you,

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

you saw, what did you see there.

: I saw the police pulling a guy through the window and the guy trying to pull back.

DETECTIVE : Okay. So, um, as you're approaching and you see, uh, the officer trying to pull, uh, the gentleman, uh, into the driver's area of the vehicle; is that correct?

Yes.

DETECTIVE : And this -- and this guy's pulling back?

: Yes.

DETECTIVE : Trying to pull away?

Like they're wrestling through the window, trying to pull --

DETECTIVE : Okay.

: Like tug of war.

DETECTIVE All right. Okay. Were they, did you see anything that would've been fighting over or anything like that?

: No.

DETECTIVE : Okay.

: No. Then I saw, I here gunfire and I saw smoke coming out of the window of from the --

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE : Okay.
: -- SUV.
DETECTIVE : And -- and as we discussed before, you, um, saw smoke?
: Yes.
DETECTIVE Okay. And how did you see the smoke? Was it directional like a cone or was it drifting out of the car?
: It was directional like a cone.
DETECTIVE Directional. Okay. What direction was that?
: It was coming from the window of the car.
DETECTIVE : Okay.
Like out of the driver's window --
DETECTIVE : Okay.
-- of the car?
DETECTIVE : So that would've been, north, south, west?
: Yes.
DETECTIVE : So a westerly direction from the driver's side of the vehicle?
: Yes.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE : Okay.

: So after that, the kid, he gets away and he starts running.

DETECTIVE : Okay. So--

: Opposite way of the--

DETECTIVE : Is that hat his?

: Yes.

DETECTIVE : The Cardinals cap right by the cone?

The red Cardinals caps is the -- the guys.

DETECTIVE Okay. And then each of these, uh l, slipper or sandals?

Yes, those are his. He was running from the police officer.

DETECTIVE : Okay. He's running -- he's running south away from you basically?

Uh-huh.

DETECTIVE : Okay.

: He lost his sandals running from the cop.

DETECTIVE Okay.

: The cop gets out of the SUV are he starts shooting at the guy as he's running way.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE : Okay. He's -- he's shooting from next to the --

: He comes walking form like, he started walking down the street.

DETECTIVE The officer did?

Yeah, running down, yes, running down the street behind the kid shooting.

DETECTIVE : Was he running shooting?

Yes.

DETECTIVE The officer was running and shooting at the same time?

: Yes.

DETECTIVE : Okay. Did you see anything in the guy's hand?

: No.

DETECTIVE : And you didn't see no weapons.

No.

DETECTIVE : Okay. Um, as the kids running, are you observing any instances of, that he's getting hit maybe?

: Yes, I saw like a, it looks like --

DETECTIVE A jerking.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Yes, a jerking in his body and he turns around puts his hands up.

DETECTIVE : Put his hands in the air?

Yes.

DETECTIVE : Faced the officer?

: Yes.

DETECTIVE : Okay.

: And the officer walks up him and continues to just shoot, shoot him until he falls to the ground.

DETECTIVE Continued to fire, even though his hands were up?

: Yes.

DETECTIVE Okay. What happened after that?

: After that the kid falls to the ground and two more officers pull up, Ferguson department, and all begin to take pictures of the guy just laying in the ground and they were standing around and everybody else just started coming out and everybody just started yelling at the cops. It's like, you're wrong and he had nothing.

I called the, um, Channel 2 news and Channel 4 news.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

DETECTIVE : Uh-huh. Okay. So, um, I'm sorry. So at no time you saw a weapon on this gentleman right here?

: Not at all.

DETECTIVE : Okay. All right. Is there anything that we haven't spoke about that you want to tell me about?

No.

DETECTIVE : Okay. Do you feel like I've given you the opportunity to give, um, your full story like you wanted to?

: Yes.

DETECTIVE All right. We are going to conclude the interview. It is 1:58, okay.

(End of playing the interview.)

MS. ALIZADEH: So I think I neglected to mention that that was a clip that is on file on a disc that is marked Grand Jury Exhibit Number 24 and it is the interview of

So at this time, we have another interview of that is audio recorded that was done by the FBI. I was thinking that that's an hour long or so. So it is about ten after 11:00. Do you want to take a break, or you want to start it now and then break for lunch and then continue after

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

lunch? The witness is supposed to be here at 12:30. I'll probably talk to him for a few minutes when he gets here. I planned it, I think you may be eating lunch so I would have a few minutes to talk to him in case he is running late.

You want to start now? I just have to find it.

I know I have used that exhibit before the Grand Jury Number 23, so I'm looking for it.

MS. WHIRLEY: Okay. Lunch should be here around noon.

MS. ALIZADEH: This is a disc that is marked Grand Jury Exhibit Number 23. And it contains an audio interview of that was done by the FBI. We do not have a transcript of that, because it was done fairly recently and it has not been prepared.

And we will pause the recording while the interview is being played.

MS. ALIZADEH: Let me just real quick here look. So this is about an hour four minutes. It says, okay. So we will start this.

Today is September 11th, 2014 the time is 3:11 p.m. In the room is?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: And her attorney.

: .

: And I'm with the FBI and this is , she's with the Department of Justice and right over there with the attorney's office in St. Louis.

I know your attorney has already spoken to you, we are going to talk to you today about what happened on August 9th of this year. So with that being said, I think would like to say an opening paragraph or two and then we will start with what you saw on that day.

: I'm actually going to do it. So and I are both federal prosecutors. I'm based in Washington D.C., he's based here in St. Louis. Obviously, we're with the FBI. We wanted to talk to you because we know that you are already met with the St. Louis County police detective, but we are doing our own individual investigations, that is why we want to meet with you and hear what you have to say, okay?

: Okay.

So basically, as you know, everything is being recorded. So if you nod your head or shake your head and I will say is that a yes

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

or no.

: Okay.

: That's just to get your answers out loud so when we listen to it afterwards, we don't have to guess what your reaction was, right?

And if you don't understand a question that any of us ask you, please stop us and make us clarify because, you know, we intend to talk fast sometimes.

Uh-huh.

And sometimes we ask bad questions. We try not to, but if you answer we are going to assume that you understood. If at any point you get confused or -- don't just guess, you were the one that was there.

We are certainly not trying to suggest an answer. If you think we are looking for an answer, all we are looking for is the truth.

So, um, want to make sure that you feel comfortable in answering the questions and certainly feel free to correct us if we mischaracterize it, okay:

: Okay.

: And we tell this to all the witnesses, this is a federal investigation and if

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

any witness lies to the FBI, anything that is material or important it is a crime, I like to make sure that everybody knows that.

Okay.

: Um, and also really important, we're not going to tell anybody what you told us, so we're not going to go to another witness and say, you know, said this or said that, just like we're not going to say to you, I know a witness told us something different or told us something the same.

So it is really important for us to find out when you actually firsthand saw and heard. And we knew a lot went on, especially that day on August 9th.

: Okay, okay.

: And since that's normal and that's human nature.

: Uh-huh.

: Uh, but we just want to make sure that you are actually telling us what you know versus what you assume.

: Uh-huh.

The example I like to give is, if you walk outside and you see that your driveway

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

is wet, you go oh, it rained, right?
: Uh-huh.
That's natural, right, you immediately think of rain.
: Uh-huh.
: And we also do the same with sprinklers on, right?
: Uh-huh.
: Instead of telling us it is rain, just tell us what you saw.
Okay.
: If you don't know something or you can't remember something, that's a perfectly acceptable answer. A lot of times we like to ask details to see if we can trigger something.
: Uh-huh.
: So we can get more details because we weren't there.
Uh-huh.
: So we may quiz you on some stuff. We're not trying to get an answer other than the truth. If you don't know, it's perfectly fine to say I don't know.
: Okay.
: You have a piece of the puzzle,

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

as do a lot of different people. All we need from you is the truth. Basically, it doesn't involve you, it is not one person, it is a whole picture, okay?

Uh-huh.

Do you have any questions so far?

I don't.

: Okay.

: So could you spell your name, please?

,

.

: And would you give me your date of birth, please?

: (Redacted)

: And your social security number?

: (Redacted)

: Where are your currently living?

: (Redacted)

: Okay. What is your phone number?

(Redacted .

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Okay. I think that's all the background we need from you.

So could you just tell us in your own words and from the beginning what happened that Saturday, August the 9th.

: Okay. As I was coming around the curve, I hear like tires squeaking, like "urrrr". And as I get up on the truck, I see them wrestling through the window. I tried to pull my phone out because it just didn't look normal for someone to be wrestling through a cop's window.

So I saw them like pulling back and forth, like he was trying to pull out, the cop is pulling in. And when I tried to pull my phone out, the shot came out, so I like went to the left to try to get out of the way.

As I'm going to the left, I see the kid, there ain't no way and that's when he takes off running.

The cop follows him, shooting behind him, the kid's body jerks as if he was hit, he turns around and puts his hands up and the cop continued to fire until he goes down.

Okay. Where were you coming around the corner, does this look familiar?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Yes, I was coming from Florissant, which was coming from here. I was coming around this corner right here.

: Okay. You were approximately right here and where was the police officer.

: They were right here.

: Okay.

: I was back here whenever I heard tire squeaking, so I was --

: Which direction was the car driving?

: The truck was driving going that way.

: Okay. So it was a truck.

: Yes.

All right. And you said you heard the squeals of the tire and then what happened?

: That's whenever I came around the corner and I saw them wrestling through the window.

Okay. So you came around this corner?

Uh-huh.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

And you saw who wrestling through the window?

: Uh, I saw the officer and the kid wrestling through the window.

All right. Who's the kid?

Michael Brown.

You know him because of the media?

: Yeah I didn't know him before, just the media.

: Okay.

I've never seen him.

: So you say you saw Michael Brown and the police officer here?

Right here, yeah.

Okay. Tell me what happened?

As I get up to here, I see them wrestling through the window and I try to take my phone out.

: Where is your phone.

: My phone was probably on my lap or something. I remember, because as a matter of fact, I had my phone in my hand. I was trying to call telling her I'm outside, I was going to pick

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

her up.

Okay.

: So I tried to put it on record and the shot came, so I came and I turned, made a lift right here.

: Uh-huh.

: And I pulled right into there.

: Uh-huh.

: And the kid yanked away as I was turning this way and he started running back there.

Can you point on here where the truck was?

The truck was right here.

: Okay.

It was like catty-corner in the street.

Okay.

: The kid was right there going through the window, this is the trunk, this is me, I came this way.

: Uh-huh.

I made a left onto here, parked right there, he started running that away.

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

: Who is they?

: The officer and Michael Brown.

: Okay. Was there another person with Michael Brown? Sorry to keep interrupting you, was there another person with Michael Brown?

: Yeah, there was another person.

: Where was he?

It was a car right behind him stopped, right behind the officer. I didn't see this car until I got right here and that's whenever I saw Dorian duck down on the side of that car.

: Okay. Do you know what kind of car that was?

: It was a white Monte Carlo.

: All right. What kind of car were you diving?

: I was driving a

All right. So what did you see here at the vehicle, at the truck?

I saw them wrestling through the window, the officer and Michael

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

wrestling through the window.

Uh-huh. What do you mean by that?

It appears to me as Michael is pulling off and the officer is pulling in, kind of like a tug of war.

Uh-huh. Did you see hands touching?

I saw Michael's like pushing up against the thing and whenever he yanked off, I saw his hands go like that.

: Did you see the officers hands on Michael Brown at all.

I couldn't see his hands, I just saw he kept trying to pull away, I saw Michael try to pull away.

: He had to be pulling away from something --

Yeah.

Do you know what he was trying to pull away from?

: I guess the officer, I can't say for sure like where the officer's hands was, but I did see them both pulling back and forth.

: Okay.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: So this is where I was when I came across this grass, that is whenever I saw his body jerk right up in here and that's when he turned around and put his hands up. But the cop still, he continued to walk up on him and shoot him.

: Okay. So after you saw, I'm going to call it an altercation, is that okay?

: Uh-huh.

: Here at the vehicle, you saw what happened, how did the officer get out, what did Michael Brown do?

: Okay. At this point whenever I was turning here, this is when Michael yanked away and went that way.

: How did you see that if you were --

: I was still turning.

Just tell me what you saw and don't tell me what you assumed.

: I'll telling you what I saw. This is what I saw, his arm yank away. From that point whenever I was turning this way, I wasn't all the way over here at this point.

: Okay.

: This is what I saw with him

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

right there as I come this way, that's whenever he was running that way, I didn't see the officer get out of the car, but I did see the kid get away and start running. Whenever I saw the officer again, he was coming back behind this way and he was shooting and the kid was probably up that way a little bit.

Okay. And the officer was where again?

: He was coming out of here.

Okay. Michael Brown was where?

: He was up running a little ways up that way.

: Okay. Do you remember how many shots?

I don't.

: Okay. You just heard shots?

I heard several shots.

Did you see the officer fire his weapon?

Yes.

All right. And where was the officer when you saw this?

The officer was outside the car walking up to Michael.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Okay. What was Michael doing?

He has his hands up at that time. The first time I saw his body jerk.

: Uh-huh.

: And then whenever the officer is walking up on him shooting, he was turned around with his hands up and he just went all the way down as the shots hit him.

Uh, could you describe how he had his hand for the recording?

Okay. He had them in the air like this, this way.

Okay. Not quite 90 degrees, but hands even with his head, with his hands even with his head?

: Yeah, about up there.

: Did you hear the officer say anything, did you hear Michael Brown say anything?

: No, I didn't hear anything from either one of them.

Okay. How many shots were fired total?

I don't know.

You don't know.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: I don't know.
But it the multiple shots or one shot.
: Multiple.
: Multiple shots, okay. So let's start from the vehicle again, could you tell me one more time again what you saw?
: From the vehicle?
: Uh-huh.
: As I was pulling up, I saw them wrestling through the window.
: Uh-huh.
: Then the shot was fired from the car.
: Okay. How many shots?
One shot is fired from the car.
: Do you have any idea where the shot went, if it actually hit someone?
No, I don't.
: Okay.
And that's when he yanked away and he started running and I was coming over here. I didn't see the officer getting out of the car, but I did see him running from, like away from

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

the car towards Michael.

: Okay. And at any time did you not see something?

: I didn't see whenever the officer got out of the car, but I did see him by the time he got beyond his car here, right here.

Okay, thank you.

: That was right here.

: Okay. Where were you at that time, were you inside your vehicle or did you get out?

: I got right out of my vehicle, I was parked right here.

: Okay. Where did you go?

: I went up to 's house. As I was walking up, that's whenever I seen him shooting the kid, going down with the shots.

Okay. Where does live?

: She lives right here.

You have your vehicle here?

: Uh-huh.

And then you started walking towards s house here?

: Yeah.

You said you were looking

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

for your phone, you had your phone with you?

: Uh-huh.

What were you doing with your phone while this is going on?

: Well, the first time I was trying to record when the shot came, and I came over here. By the time I was just holding my phone in my hand at that time. I wasn't doing anything with it by the time I came up to 's.

: Okay.

And then I went upstairs and called my fiancee.

: Okay. Who is your fiancee?

: .

Were you scared to get out of your vehicle?

: I was so shocked, I was so shocked, I was trying to see what was going on. So I was like, holy crap, what is going on. The kid was dead, I saw the blood. At first I was like, is he shooting rubber bullets? What is going on.

So I was so shocked that I just got right out to try to see what was going on.

: Uh-huh. Why are you calling him a kid?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Because I don't know him, I don't know him, no.

: I was just curious.

: I'm sorry.

It is not like you're 50, you look very young.

: Yeah.

: Do you have any questions?

Yeah. I just want more clarification of looking at the map.

: Uh-huh.

: When you are coming around the curve, that is when you hear the tires squealing; is that right.

: Uh-huh.

: That's yes, right?

Yes, I'm sorry.

: That's fine. And at that point you don't see anything next to the car; is that correct?

No, I don't.

: And when he came up on the car, you actually, did you stop your car when you came up to it?

Yeah, I stopped.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Okay. So were you facing the car?

: Yes.

: Okay, or the patrol vehicle?

: Yes, the patrol vehicle is like this way, I was coming this way.

: So you're showing you were literally opposite?

: Yes.

: Was there a car in front of you?

No.

: Why did you stop your car?

: Because I saw the cop and the kid wrestling through the window, you don't see that every day.

And what was your view of the police officer and Michael Brown at that point?

: My view was Michael like pulling out of the window and they were like a tug of war.

: So you were basically head on at this point initially?

: Yes.

: And you are still driving; is

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

that right?

: No.

You're sort of out of the car?

: Yeah.

: So you are head-on, so which is clearer to you, the passenger side or the driver's side or equally both?

I say the driver's side because it was like, the car was like this way, but the SUV was like going this way, okay. This is the Chevy was like this and I was like this.

: Okay. And so when you describe what you saw specifically, you saw Michael Brown, he was standing outside the car?

: Yeah.

: Describe his body, how was his body situated?

: It was like, it took like pulling away like, you know. Like, you know how you push off of something, it was more like that.

: Where were his hands?

: At one point I saw his hand like pushing up against the car like coming off.

: Okay. You said both hands?

Yeah, and then whenever I

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

saw him yank away his hand went like that.

: He yanked away. And when you pulled up on them, Michael Brown was already by the car, correct?

: Uh-huh. I didn't see how the thing, the first beginning of it, I didn't see that.

Okay. You didn't see anything of that leading up to it?

: No.

: By the time you pull up, you heard a shot already or no?

No.

Okay. So let's go, you describe Michael Brown had his hands on the outside of the car; is that right?

: Uh-huh.

: Is that yes?

: Yes.

: And is hands on the window sill of the car, on the door or the car?

: Like the side door.

: The driver's side door.

: Yeah.

On the handle of the door, by

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

the door handle or by the window?

He had like this I can describe like the whole time because it was action at like, you know, I can't see every little step, but I did see him pushing off like, you know.

: While this is going on, you said you didn't see this every day, is that when you took out your phone?

I had my phone in my hand. I was trying to get to record, that's when the shot came.

: So you got your phone?

: No, I'm trying to work the recorder.

: I'm trying to figure out if you were watching.

No, I can't, you know, I have to push record on that phone. So I don't know every little thing, I was trying to do that sort of thing.

: That's only fair. I'm just trying to find out what you actually saw. Because you say you see something like that, there were times when you looked down, that's all I'm trying to establish.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Yes.

When you look down, is that when you heard the shot, is that right or no?

: No.

: Okay, explain it.

: I can explain like exactly whenever the shot came, whenever I was about to record, that's when I can't say anything. I saw the bullet.

I'm trying to figure out what you were doing when the shot, when you heard the shot. Were you trying to record, were -- (inaudible)

: I was about to record, I just now heard the shot. I can't say I was looking right at it. I was looking at my phone to try to hit record and I heard a shot and said, oh, let me get out of the way. That's when I went to get out of the way. I saw the kid wrestling, pulling out to the side, I saw the kid run away.

At that point you saw the kid wrestling, yank away after the shot; is that correct?

: Yes.

: As you were driving, did you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

look at Michael Brown at all?

: As I was driving?

Yeah, as you are driving away, did you look over at the police officer and the car?

: No, I went straight to the (inaudible), that's whenever I got out. And I saw the officer come out, I saw Michael run.

: All right, let's go back to when you were driving to the parking lot, okay?

: Uh-huh.

: So from the time you heard the shot and you decided you wanted to get out of there, so you both (inaudible)

Yes.

: During that point that you are driving to the parking lot, you were not looking at Michael Brown and the officer in the police vehicle; is that right?

No, I was not.

: Okay. At any point up to that part, did you notice anything about Michael Brown or any injury of anybody at that point?

: No. Whenever I looked back up, that's whenever there was more shots coming, I saw his body jerk.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Okay. You are pulling into the parking lot?

: Uh-huh.

: You pull into the parking lot, they are not in your vision; is that correct?

: The officer is still in my vision.

: Even as you are pulling into the parking lot?

: Yes, so, whenever I got right here, it is a parking lot. This is my parking spot right here. Right across this grass I can still see, that's when I coming this way, I did see him get out of that truck, I didn't see him coming this way.

: That's what I'm saying, there's a point in there where he is out of your vision as you are driving?

: Yes, I'm on the other side of his car and I can't see the driver's side door at that time.

: Okay. And you park your car in a parking space?

: Yeah.

: Where is the parking space

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

relative to the street, is it parallel, perpendicular, are you facing the street?

: Yes, I am facing the street.

: Here is the parking lot?

: You pull like right up into here, I could still see right over here and then right out.

: At any point are you trying to get your phone out to record?

: I still have the phone ringing. And that time I wasn't trying to record anything and I was in shock.

: Okay. So you pull into the parking lot, what's the next thing you see when you pull into your space?

: When I pull into my space, I see the officer running behind shooting.

: Okay. You didn't see the officer out, correct?

: No.

: So you don't know what happened from there to the time you looked down at your phone initially to the time you pull into the spot, you heard the shot, you didn't see that because you were

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

running into the spot; is that right?

: No, that's not what I'm saying.

: Okay.

: Put down my phone to record, I had to put down the phone at that time to hit the record, that's whenever I heard the shot come so. I get out of the way so I did see the kid yank like this.

I'm sorry, you saw him yank hard?

: Yeah, and he run off.

So you saw the kid run off?

: Yes.

: At that point the officer (inaudible) follow you; is that correct.

: I didn't see exactly when he got out of the car.

So now you are in the parking lot and you parked, what's the next thing you see when you parked?

I saw the officer running.

Okay. You say you saw Michael Brown running also?

Yes, I saw the officer

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

running off shooting and I saw his body jerk.

: Okay. Can you describe anything about the manner in which Michael Brown was running at that point?

: What do you mean, like fast, slow?

For example, did you see where his hand were as he was running?

: No, I can't say where his hand were, I just know he was running.

: Okay. Did you notice Michael Brown had any injuries to his body on him?

No.

Okay. And at this point, when you got out of your car, you park your car, do you hear any other shots?

: Yeah, multiple shots.

: Multiple shots. This is between the time, can you be more specific, between the time you pulled in and parked on this spot, at that time after the first shot, did you hear any shots?

Yes.

: About how many.

I can't say how many shots

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

were fired.

: You got out of your car, is that what was next?

: Yeah.

: At that point is when you see the officer running; is that correct?

Uh-huh.

: You say maybe the officer was firing shots?

Yes.

How do you know?

: I heard him firing shots.

: About how many?

: I don't know. I can't tell you exactly how many shots were fired at all. The only time I just remember that one shot came from the car, after that I can't say how many shots were fired.

Okay.

: Can you say more than two or more than three?

: Yes, it was multiple.

: It was multiple times?

: Yes.

: Okay. And so at some point you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

said Michael Brown stops; is that correct?

Yes.

: Can you describe what you saw, anything about him?

I saw his body jerk, I saw him turn around and put his hands up. He looked like a big tall man, I didn't know he was a kid.

: Okay. When his body jerked, where were his hands?

: It was like oh, like, you know.

And you saw his body jerking?

: Yeah.

: You are kind of demonstrating jerking forward?

Yeah, from behind, yeah from behind jerking.

: Did you notice where his hands were?

: When.

At that point whenever he jerked, did you notice his hands?

That's when he went up and he turned around and he started, I can't say what he was doing in front of him, but at that time he was

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

running. It was really fast though. He wasn't doing anything with his hand, like once his body jerked, it jerked, I can't say where.

: Okay. I was listening to you and you say his body jerk and he started turn around (inaudible)

: He started putting them up as he is turning around.

: Okay. What did the officer do?

He continued to walk up on him and shoot until he goes down.

: Okay. He walked up to Michael Brown shooting, is what you are saying?

He kept walking, he kept walking and shooting until Michael falls down. And he just walked up on him and just stop and shoot.

So the whole time he just kept on shooting?

: Yes.

So as you seem to remember it basically he just continued the shots basically (inaudible).

: Yes.

: Were there any pauses in the shooting?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Yes, there was a pause.

: When.

: I can't say exactly when. Okay so, has one shot and then a couple more shots and then more shots. I can't say like exactly this is happening when the pause happened. Like, I don't know, the shots were coming.

So you are saying Michael Brown turned around, the officer just kind of kept on with it, he kept on shooting.

: Yes.

: And you're saying that the officer came up on Michael Brown and got closer and closer as he was shooting?

: Yes.

: How close did the officer get to Michael Brown?

It was feet away, I can't say exactly how, like the exact measurement of it, but it was like feet away.

: Was it arm's lenth from each other?

: No.

: Further away?

Yeah, further away.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Distance to the wall?
Further away from the wall.
: From me to the wall?
: Uh-huh.
: I'll say probably from me to the wall.
I'm not good with feet or distances.
: Me either.
8 feet, 8 or 9 feet?
: I can't say anything about feet.
: Do you remember anything about the expression of Michael Brown's face was at that time?
: No.
: And so from what you are telling us is that Michael Brown got to that point, stopped, turned around and stayed there because the officer came up on him.
: Yes.
: All right. And this entire time you are watching this, you're outside of your car as you are walking to 's apartment?
: Yes.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Do you have your phone in your hand?

: I know I have my phone in my hand.

Were you trying to call at all while you are there?

I was in shock, I wasn't calling anybody. First call I made was when I got to her.

About the time you see Michael Brown go to the ground, you were getting out of your car and walking to her apartment; is that correct?

: Yes.

: Where were you when you heard the first shot?

In the car.

: Where were you when you heard the second shot?

When I was parking getting out of the car.

Where were you when (inaudible)

: When I heard the last shot and I saw the kid go down I was about right here.

Okay.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

You say these were like (inaudible) shots or they were regular just shots being fired as he was going?

: I would say they were regular shots as they were going. There was a pause probably, but it was like, I don't know like what you're asking, but they were shots.

You heard a group of shots and then a pause and then a group and a pause?

: Yeah, yeah.

: You heard a shot, a shot, shot?

Oh, no, there were groups and then pause groups, yeah.

: What about at the end you said the officer was walking up to him?

: He was just shooting, then he stopped, he was just shooting, then he stopped.

: Okay. Why did the officer stop shooting?

I guess because he went down.

: You saw Michael Brown --

Yeah, I saw him like slap the ground.

: Slow down for a second. When

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

you saw Michael turn around, he stayed where he was and the officer came up to him.

: Uh-huh.

: Is that correct?

: Yes.

: And then after that, the officer, um, (inaudible)

: Yeah.

: If fact, I believe you said you saw the officer go and get on his radio; is that right?

: I didn't just say that.

: No, you didn't. In the past, is it true that you seen --

: Yeah, I saw him touch his radio. I can't say what he said, but I did see him touch the radio and another officer immediately like pulled up right after.

: I want to be clear. Once Michael Brown is on the ground, Officer Wilson did not go over to Michael Brown's body; is that correct?

: No, he did not.

In fact, you didn't see any officer go over to the (inaudible)

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: No, I did not.
: Okay. And you were watching the whole time, correct?
Uh-huh.
: That's a yes, right.
: Yes.
: And you saw Officer Wilson somehow either touch his radio, do something with his radio.
Yes, he touched it.
And this is right after Michael Brown went to the ground?
: Yes.
: And after that you went to s apartment, right?
: Uh-huh.
Is that a yes?
Yes, I'm sorry.
: When you went to s, what did you do when you went up there?
: She was standing on the porch and she had her phone out and she was crying. She was like, I just saw him shoot him. I said I know, I saw it too.
And hen I called my fiancee and I told him

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

what happened. He says you need to call somebody and tell them what you saw.

: And so who did you call?

: So I called the news.

: So your fiancee said you need to call someone and you call the news?

: Uh-huh.

: Why did you call the news?

: Because what I saw wasn't right.

Why did you choose the news as opposed to anybody else, why did you choose the news?

: I think they should know what happened to this kid.

: Who else did you call?

: Um, I think I called my (inaudible) I know I called Channel 2 and Channel 4, and I know I called him back.

Okay. Did you talk with at the time?

We didn't really talk about it, she just said, I just saw him shoot him. I said yeah, I saw it too. There is like pacing back and forth, like what the -- just happened.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Okay. I'm sorry, you did an interview with the St. Louis County Police Department?

Yes.

: In those two hours, can you tell us what you were doing?

In those two hours, I was standing up on the porch and looking around, like people start just coming around. Um, we were just standing on the porch like looking around, what did just happen.

: Were people talking about what they saw?

: We were up on the balcony, and I can't say, and me and was on the balcony. One of the police, they might from the county police, it was the officer standing right there at the bottom of the steps. I said, yeah, I want to talk to somebody.

They said hey, let me (inaudible) Right now I need you to stay up here so we can get this crowd under control.

Did you talk to any of the other neighbors and talk about what you saw?

: No.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Did you talk to at that time?

: Yeah.

: Did you know that there was another person out there?

Uh-huh.

On the street with Michael Brown; is that right?

Yes.

Did you know him?

: No.

: Did you know if knows him?

: No.

: Okay. Had you ever seen either one of them before?

No.

Did you see any other vehicle, you said that you saw this one that was behind the police vehicle, did you see any other vehicles?

: I saw a black vehicle and it was like coming up behind, I don't remember exactly where this vehicle came, right after the shooting where he backed up, it went through one of those driveways.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Okay. It wasn't --

Yeah.

Okay.

I just want to go back to the part where you saw, this is just how the interview, when you first saw the police SUV. You had described before this tussle going on. Were you able to see what the officer was doing?

: I can't see inside the car, I can't see but I can't see fully back and forth.

: When you say tug of war that that's what (inaudible) what was the officer, based upon you saying tug of war, what you actually saw.

It looked like he was pulling in and Michael was trying to pull out.

: Who was playing?

The officer.

: Did you see the officer's hands?

I can't, no, I can't say I saw his hands.

What makes you, I'm not trying to, I just don't understand. What makes you think he was pulling him in?

I saw the kid like pulling

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

away. I saw like him try to pull him in and he actually pulled away, he's not just doing this.

So you saw -- is Michael Brown has two hands on the car, you saw him pushing back; is that right?

Yes.

: Do you see, I mean, is it anybody --

I know for a fact that whenever he was pulling away, he had his shirt like this. (inaudible) I can't say exactly where the officer's hands were, but like they were both pulling.

: So you are showing me when Michael Brown pulled away, (inaudible)

: Yeah, I saw his sleeve like pull, like he was pulling away.

: Did you see any hand pulling him?

I don't remember seeing that.

: So from your vantage point, you say Michael with his hands on the outside of the car and you assume pushing away?

: Uh-huh.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Yes.
Yes.
: And you don't see the officer rose his hands anywhere?
No, I can't remember seeing his hands.
Is there any part of Michael Brown that is inside the vehicle?
: Another side of his head is in the window. They were wrestling back and forth throughout the whole thing.
: Just help me understand this. How is it, you said, his hands up (inaudible)
What do you mean?
: Well, you told me when you saw him they were pulling away.
They're pulling away, he had to be pulling away from something. Something was holding him through the window.
Well, you showed that he was pushing off?
Yeah.
So how do you know he was being pulled in, though, if you can't see somebody pulling in. I'm not trying to argue, I'm just trying to

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

understand what you saw.

Uh-huh.

: Someone pushed away --

: Do you want me to say that I saw the cops hand pulling him in, no.

: I don't want you to say anything.

: No.

: Let me be very clear to you, I want you to say what you know happened and I'm trying to understand it.

: I'm telling you what I know happened. I don't get, okay, saying where were the officer's hands. I can't say where the officer's hands were, but I did see him pulling away. He is pulling away from something because something is pulling him back in. So I can't say exactly where those cop hands was, but I did see tug of war going on through this window.

You didn't see the officer pulling him in, correct?

I didn't see his hands pulling him in.

Okay.

: Well, I think is

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

confused because she said that his head was inside, his hands are pushing away, so how is his head inside and his hands are pushing away?

I don't know exactly, like, I don't know.

I mean, is it bent in the wind?

: Yeah, it is like a bend, like what I showed you the first time. It is like their pulling, he is pulling back.

You are showing me pushing back, maybe we are using different words or the same thing. Are you assuming that somebody was pulling him in or can you tell me that somebody was pulling him in, you see what the difference is?

Yeah, I see what you are saying. So I'm not assuming something.

: When you, yourself, could see him like that?

Uh-huh.

: You see Michael Brown's two hands on the door; is that right?

: Uh-huh.

: Yes.

: Yes.

Okay. And you see, now you see

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

his head, is his head inside the window, outside the window?

It was like, at the time I saw his head in the window, yes. It was like a pull back or something.

: Did his head go into the window so that it disappeared from your view?

: No, like no, it didn't disappear from my view.

: So, I mean, if it is any different than somebody coming over to the car and talking to them, is that what you are saying you saw?

No, I saw like a pull, like a wrestle, I can't say I exactly saw where the cops hands were, but I did see a wrestle.

: I don't understand what wrestle means?

: Like a tussle back and forth.

: Let me ask you this. You see Michael's hands on the doors pushing against the door?

Uh-huh.

: He is pushing himself away

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

from it?

: Yes.

Could you tell whether he was pushing himself away from the door or pushing on the door, was the door closed at the time?

Yeah, the door was closed.

Did you see the door open?

: No, they always had the door closed.

: Could you tell the difference whether he was pushing against the door to keep it closed or pushing himself away from the door, could you tell that?

It was like he was pushing away from the door, like trying to pull off. Like the only time I saw like a tug on Michael is whenever his arm, he was trying to like yank away and like his shirt was like, you know.

: So when you are on the news you told, actually that his whole body stayed out of the vehicle the whole time that you saw him; is that right?

: Uh-huh.

So no part of Michael Brown's body was in the vehicle from what you saw?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: No, like I saw them pulling back and forth. I never seen like his whole body be inside of his vehicle.

Did you see anyone else, like someone walking by, anyone on foot that may have witnessed this?

: No, I don't remember seeing anyone else.

Is that because you were so focused?

: Yeah, what was going on, so I can't say I seen anybody else.

You can't say there was somebody else around?

: Yeah.

: We need to take a break, is that okay?

: Uh-huh.

: Do you mind if we leave the recording on or if we turn it off.

You can leave it on.

MS. ALIZADEH: It is 11:58 a.m. and I paused the recording of the FBI interview of at 40 minutes and 19 seconds because they actually are taking a break in the interview and the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

jurors thought this would be a time we would break for lunch. So at this time we are going to have a break for lunch and let me know how quickly you want to resume. I'll keep you posted on if the witness is here when he's supposed to be here.

(Lunch recess)

MS. WHIRLEY: It is approximately 12:49, we are still on September the 25th, 2014, and we were listening to an interview by the Federal Law Enforcement Department of .

We're going to conclude that interview and then after that, we do have a witness here. His name is . We will talk to and then we will see where we are on time.

Kathi will be joining us in a little bit, so we're at 4019 is where we stopped it and I'm going to resume that interview now.

(Resuming the interview of .)

: We have some more questions, so we have a better understanding, okay?

: Okay.

We are not trying to suggest anything.

We started back at

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

approximately 5041.

: Again, if there is anything mischaracterizing or misunderstanding, definitely help us, okay?

: Uh-huh.

: Where you parked your car, can you describe for us, I mean what you did, when you parked your car.

I got right out of the car and I start walking towards s house to see what was going on.

Sorry, you said you parked your car, got out, before you got out, did you take the keys out of the ignition?

: Uh-huh, yes.

Did you grab anything, did you have any stuff with you, anything like.

: I just got out of my car and grabbed the keys and got right out.

When you got right out, where did you go?

: I start walking towards house, cutting across the grass.

: Did you continue walking as you are looking at what is going on.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Uh-huh.

: Yes.

Yes.

Okay. And did you start going up to, going up to s apartment while this is all going on?

No, by the time I got right over here that is whenever, I got right to this point, that's whenever I saw he was going down, like whenever. Before I got to her first steps, he was already laying on the ground. I saw him next to the ground.

: Okay. Did you go down into the foyer while you were walking?

No.

Can you describe when you saw Michael first begin to turn around, can you describe in as much detail as you can, what he was doing? I know you said he was running.

Yeah.

: But now and then.

His body jerked.

: Okay.

: He was still faced like the opposite way of me, so I just saw his body jerk and

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

then he stopped where he was and turned around and putting his hands up as he was turning.

: When he was running, do you know where his hands were.

No.

Okay. When he stopped, do you know where his hands were with his body (inaudible).

: Uh-huh.

When his hand -- (inaudible).

Whenever he, whenever he jerked, he was like, and then he just like this. (indicating)

His hands starting coming up when he jerked, like when he jerked his hands starting coming up?

: Like, you know, if you jerk like that.

: You are showing almost involuntarily his hands jerk; is that correct?

Yeah.

I don't want to mischaracterize it, but based on what you are showing me happening, the body jerked, like body jerking, like his hands just kind of moved as part of the jerking?

: Yeah.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Okay.

: As he jerked, his hands kind of flew up?

: Yeah, like that.

: Okay. Can you describe, did you see any sort of blood or injury at that point?

: I didn't, I couldn't see. I didn't see blood until when he laid there and started pouring from him. It didn't register to me that he was dead until I saw the blood. I didn't see any of that.

As he was turning around, did he put his hands anywhere on himself?

: No.

: No?

No.

Did you notice anything about his hands or his arms?

That they were, whenever he turned around, no. Only thing I notice that they were up in the air like he just went down like that, he was getting shot it was like huh, huh, huh and he fell to the ground.

: So you are saying, I wanted to see if I can characterize this correctly.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

With the jerking movement, as you just showed us, his hands kind of went up, that kind of involuntary jerking motion?

: Uh-huh.

: It was kind of all one motion as he turned around with his hands up and then fell to the ground; is that right?

No.

: No, okay.

: So when he jerked that's when like whenever, that's what happened where his hands were at. I can't say where his hands was until I saw his jerk and that, that is when I saw like come up. It was involuntary because it was just like a reaction to a jerk. That is whenever he turned around and put his hands up like that.

You show with his palms up, were you able to see his two palms?

: Uh-huh.

: Yes?

: Yes.

: Okay. Was his arms and hands the same level that they were at when you first, when his arms first jerked?

No, it was starting to go

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

up.

: They started going up, you notice something about his palms, you were able to see them, correct?

: Uh-huh.

Yes?

: Yes.

: Was there almost simultaneous as he turned around in that position, then the shots kept going and he started going to the ground?

: Uh-huh. They were like right behind each other.

: Right behind each other.

: Yeah.

: So like one big movement right, the jerking and the turning around and hold them up and he went to the ground.

Yes.

: Was he already kind of going to the ground as his hands were up?

: Once he faced the officer, he started going down once he faced the officer and his hands went up, he just started going down to the ground as the shots was hitting him.

: So do you remember, okay, it

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

was kind of one motion, one series of events.
: Yeah, it was.
Okay.
: Just to be clear for the tape, hands up, you got them basically at shoulder level or your level, something like that?
: Yeah.
: Okay.
: How far did Michael go in this direction?
: About to right here where he fell.
Okay.
: That's as far as he went where he turned and fell.
: Uh-huh.
: That's as far east on Canfield as he went?
: Yes.
: Okay. I'm fine. One thing that struck me earlier, you are talking about afterwards, after you went up on 's balcony and you talked to her for a short time and you said you called your fiancee; is that right?
: Yes.

Electronically signed
9dd825a0-a388-42a0-9d99-70059917d47f

: Was that still on the balcony there?
: Uh-huh.
: When you call your fiancee.
: Yes.
: Did you call the news from the balcony also?
Yes.
: Was with you on the balcony at that time.
: Yes.
: At the time you made those calls?
: Uh-huh.
Okay.
: Is there anything else you want us to know about this?
No, that's all that I know.
: Is there anything that we didn't ask you that we should have asked you about?
: No, I don't think so. I can't think of anything.
: Is there anything that we mischaracterized or we misunderstood, I know we went over with you several times.

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

No.

: I know we've asked a lot of detail here today, that's our job, okay. But you feel like basically we have been fair to you today and basically let you tell us what you know?

I think we tried to make you say something you did want to say?

: I didn't get that part about what you asked me at the truck, did you see this and you asked me different ways.

Okay. I'd like to clarify that. I don't want you to leave thinking we were trying to get you to say something you didn't want to or some misunderstanding.

So tell me about the truck that you were just referring to tell me.

: When you asked me were they pulling, was it a tug of war or did you see the officer's hands. No, I didn't see the officer's hands, but you can tell when somebody is being pulled.

: Okay, that's fair. So you are saying that even though you didn't see what was pulling him, it is your perception that Michael Brown was being pulled?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Yes.

: Do you know what part of him is being pulled?

: No, I don't. It looked like it was his shirt.

: You are talking about that is when he was jerking away, correct?

Yes, I did see the shirt, like this part of the shirt being pulled.

: You are showing the sleeve part?

: Yeah, yeah, whenever he turned his arm, like turning off, he was trying to pull it out. (inaudible)

: His right sleeve?

: Yes.

: Okay. And so what about right before that, were you able to see him being pulled?

: Yeah, I didn't see exactly what was being pulled, but you can tell if somebody is being pulled without seeing what's pulling him.

So your perception from your vantage point that Michael Brown is being pulled?

: Yes.

: You couldn't tell from what

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

part of his body he was being pulled?

: No.

And no part of his body, as far as you could tell, was inside the car?

: No, I can't see, like his hands is like okay, I can't see his hands went all the way into it, but it was just like, you know, like through the window like, like a little back and forth.

: Is Michael Brown's head in the window a little bit is what you are saying?

: Yeah, I can't say, like he didn't go all the way into like that, but it was like a back and forth thing right there through the window.

: Okay.

: You never saw Michael Brown's hands go inside the window?

No, I didn't. I can't say that they didn't, but I didn't see them.

: Is there a point you didn't see the entire thing where it is possible it could have gone in the window, is that fair?

Yes.

: But you didn't see

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

everything that was going on there inside the vehicle?

No, not before, no. I was looking at my phone.

: Right. Looking at your phone and parking as well.

: Yeah.

: So there were portions of this where you actually didn't have eyes on what was going on in street; is that fair?

Yes.

: And after you parked your car, were there other times then, for example, as you are getting out of your car where you may not have had eyes on the street the entire time?

No, wherever I got out of my car, I started walking right toward it, more like I saw it from whenever I saw the officer come from his car, I saw Michael going down.

: I'm talking about where you parked and were getting out.

: As I was getting out, I couldn't see on the other side of that car. I can't say how fast the officer got out of the car and, you know, exactly what he did on that side because I'm

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

on this side, on the passenger side of the vehicle, not the driver's side.

Have we clarified all of that now?

: Yes.

: You feel like we were trying to get you to say something that a you didn't want to say?

: No.

: We treated you fairly?

: Yes.

All right. If at any point weeks, day, months whatever come up, you want to talk to us again and you think there is something we need to know, you want us to know, don't feel like this is one shot and that's it, okay?

Uh-huh.

: You can always call the FBI, call you can have your lawyer call myself or , we are always open to new information from you or anybody else. We don't want you to feel like you lost your opportunity this is it, okay.

Oh, that's fine, thank you.

: Thank you.

: We have to clarify that you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

drew on the map this is where Michael Brown last stood; is that correct?

: Uh-huh.

: Okay. Are you sure?

: The place where he last laid?

: Where he turned around, where he last was?

This was his last place right there where he fell.

: I didn't want to put words in your mouth, I didn't see like you were understanding what I said so. I'm just going to say where Michael Brown last stood; is that correct.

: Uh-huh.

That dot or this rectangle was the vehicle, the truck, the police truck?

: Uh-huh.

Okay. Just going to say police vehicle. And this X was, do you remember?

: I don't remember why I made the X right there.

I think this is what, where you said they were when you were getting out of the vehicle, does that sound correct?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Are you sure? We can leave it blank.

I don't remember why I made this.

That's fine, we just won't identify it. Do you remember what this was?

No.

Okay. All right. So is this okay for me to put these two items.

: Yes.

Okay. Could you sign and date this just anywhere, please?

Okay. Do you have any questions for us?

No, that's it.

: I'm going to stop the recording. The time is 4:16 p.m.

(End of he playing of the interview.)

MS. WHIRLEY: That is the conclusion of the interview with the federal, during the federal investigation. Now it is approximately 1:06 p.m. for us our time. We are preparing for our next witness. Do you have any other announcement?

So I will go get our next witness.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q I'm Sheila Whirley, Kathi Alizadeh is here, both with the prosecuting attorney's office, also all 12 jurors are here, the court reporter and we are now talking with .

A Yes.

Q Could you introduce yourself and spell your name for everyone, please?

A My name is . ,

Q All right. And keep your voice up. You see a microphone, it is not going to make your voice louder, it is just recording, okay?

A Okay.

Q All right. you know why we are here?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Right.
Q This is concerning the Michael Brown shooting?
A Uh-huh.
Q That occurred on August the 9th, 2014; is that correct?
A Yes.
Q It would have been what day, do you recall it happening?
A That was on Saturday.
Q Saturday, okay. Now, you were in that area of the shooting of on the day that it occurred?
A Yes.
Q Where were you, tell us what happened that morning, how did you start your morning on August the 9th that Saturday?
A Um, I was coming from a young lady's house, coming from the back apartments, I think there's, I forgot the actual name it is, but coming from her house.
Q Speak up a little bit.
A Coming from her house, you got the Canfield Apartments.
Q Now, the apartments --
A I mean Canfield Street, making right.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q Okay. We have a map here, I don't know if it captures the area that you are discussing, but can you tell us looking at this map, and here is a pointer, you use it like this, push that button?

A Okay.

Q Which area can you tell from this map where the area is that the apartments are that you were coming from?

A Where, this is West Florissant.

Q This is West Florissant, right?

A Yes.

Q Okay. And that's Canfield Drive?

A This apartment is back over in that way.

Q Okay. So they're not actually on the map, but they're further east?

A Right.

Q From the Canfield Green Apartments?

A Yes, end up this is Canfield, yeah, making a right this way.

Q Okay. You are driving down Canfield Drive?

A Yeah.

Q What kind of car are you in?

A A Monte Carlo, two-door white Monte Carlo.

Q Who is driving?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A

Q You are the passenger?

A Yes.

Q Anyone else in that two-door car?

A No.

Q Okay. So show us your pathway again?

A So end up making a right here, so as we are coming down one of these side streets is like a dead end for right here, and the officer came off one of these streets right here, I think it might have been this one. (indicating)

Q When did you see the officer?

A When we made a right coming down, he basically jumped in front of us.

Q The officer came out onto Canfield Drive?

A Right.

Q Now, before you go further, do you recall approximately what time it was, what time of day?

A Almost 12.

Q Close to noon?

A Uh-huh.

Q And when the officer, you say he jumped in front of you, was he like, did he have red lights and siren on or something appear to be happening?

A No.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q Okay.

A So he came, he got up to the Canfield area, I mean, street or whatnot, he got a little further off going a little faster or whatever, so we coming in behind, that's when kind of, almost got right behind him because he had confronted Mike Brown and his friend Dorian.

Q Okay. For the record, we are using Grand Jury Exhibit 25 when we refer to the map and you are showing us the locations at what point on that map are you saying you guess he confronted Mike Brown and Dorian, where on the map?

A It is like, let's see, it is somewhere right here. (indicating)

Q Okay. And why do you say you guess, do you know or you guess?

A No, I'm saying it is right here.

Q Okay.

A So that's where -- so that's where we are coming down. whatnot. So I guess he was, the police was about right here somewhere, talking to him or whatnot, they didn't comply.

Q How do you -- what did you know, did you hear them talking?

A No, I didn't hear nothing at all.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q You just heard later about them not complying, is that what you are saying?

A I'm saying it was the police stopped.

Q Okay.

A And said something and that's, Mike Brown kind of looked back and just both of them kept walking, him and Dorian. And that's when he came back real fast, Officer Wilson, and kind of catty-corner the car and almost hit Mike Brown, and jump back and that's when we were actually behind the police car, the Monte Carlo.

Q So where would you have been, the Monte Carlo?

A It was like, I know we was like right here being by this sewer, like a little bit in front of, you know, the entrance right here.

Q Okay. And could you pass the car, the police truck, could you pass it?

A No.

Q Did you drive around it?

A No.

Q Okay. So you were blocked?

A Basically, yes.

Q Behind the police car?

A Yeah, and after that, after somehow I

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

couldn't see because it's a tinted window on the back of the truck so, um, somehow Mike Brown ended up by the window or whatnot.

Q Which window?

A The police car.

Q Which window?

A Driver's side.

Q Okay. Driver's side?

A Or whatnot, so the only thing I could see is like under the car.

Q Let me ask you this, was someone with him, you did say Dorian was walking with him?

A Uh-huh.

Q Where was Dorian at this time?

A Um, as he was at the window?

Q Yeah.

A He was like, he was like, right towards, when he was looking at it, I guess I could show you all, I guess he is looking at them in the scuffling, he looked, he kind of tripped over his foot and just, you know, ran off whatever he seen because I couldn't see. I couldn't see and whatnot because the truck was, you know, catty-corner or whatnot.

So from then I was just like seeing Mike Brown feet under the car.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q What was his feet doing?
A Just moving like, you know, back and forth and truck starts shaking like two or three different times.
Q What did it appear to you was going on?
A A scuffle, a scuffle and whatnot.
So from then after that happened I heard like a shot, just a shot, a small shot. It wasn't too loud, it just was a shot.
Q Could you tell where the shot was coming from?
A In front of us.
Q Could you tell --
A The police car.
Q It sounded like it was happening inside the car?
A Yeah.
Q Or outside?
A Well, I know he was outside the car and the police was inside the car, his feet was on the ground, Mr. Wilson's wasn't.
Q But the shot, where did it sound like it was coming from inside or outside the car?
A Inside the car.
Q Okay.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A So from then I end up telling , this don't seem right. After I heard that first shot back up, back up and open your door, open my door, so we don't catch no shot or what else is going to go on.

Q So why did you want the doors open?

A So we could duck.

Q You felt you could duck better if the door was open?

A Yeah.

Q I see. So where does he back up from the police car?

A Yeah.

Q And where was she when she backed up?

A We're kind of like, like this is the sewer right here.

Q Okay.

A We wasn't nowhere like right here where we could turn in, you know, to be kind of like right here.

Q Okay.

A A little bit in front of the sewer or whatnot.

Q Okay.

A So from then, as soon as like we backed

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

up, Mike Brown ran on her side, I meant the driver's side coming from the officer's car, like limping a little bit, gasping for breath.

Q Who was limping?

A Mike Brown. So I think his slipper came off or something like that.

Q His what?

A His shoe, his shoe he had on or something like that, I think it came off. But, um, so that happened, that's when I heard a second shot. That's when we he started ducking, we end up ducking.

Q Well, let's see what better clarity, what was going on when you heard the second shot. So you heard the first shot in the car, what happened once you heard that first shot?

A Back up and open the doors.

Q Okay. And what was happening?

A About when we stopped, that's when Mike Brown was running around her side.

Q The side, the driver's side of the car?

A Of , yes.

Q You saw him running?

A Yeah, like, you know, like scooting off.

Q Okay.

A Not actually running, running, running,

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

like scooting off, walking fast.

Q What was the police officer doing?

A I couldn't see him still.

Q Okay.

A I just heard another shot.

Q You heard another shot?

A Yes.

Q While Mike Brown was kind of scooting or running?

A Yeah, right.

Q Did he have his back to you at that time?

A No, I was looking on his side, I was on in the passenger side, so I'm looking at his side.

Q Okay.

A So his back to the officer.

Q Let me ask the question again, his back was to the officer?

A Uh-huh.

Q Okay. He was not facing the officer when you heard the second shot?

A Huh-uh, no.

Q Okay, go ahead.

A End up, you know, halfway ducking down. So as I'm ducking down, you know, catty-corner from my eye and I see Dorian. Like I don't know how he

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

got from, you know, from over here, you know, going to the side of this street to being all the way over here, I was, I didn't see nothing, none of that.

So the second shot I heard, I end up seeing, ducking down and seeing him like, who is this, you know, and I end up recognizing who it was.

Q Did you know Dorian before that day?

A No.

Q Did he say anything when he came around to the side of the car?

A Huh-uh, not at the time, not yet.

Q Okay. Okay.

A And then I did say like the second shot, said like a good four, five, six seconds, and that's when I see the officer, Mr. Wilson, came the same way as was. You know, he's gasping for breath, had his gun down, just going toward him.

Q Was he running or trotting?

A Just trotting, like huh, you know.

Q Okay.

MS. ALIZADEH: So who's trotting and gasping for breath that you just described?

A Mr. Wilson.

MS. ALIZADEH: The officer?

A The officer.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: Okay, all right.

A So, uh, and then I end up looking out the back window, I guess, coming down the way or whatnot. Like the whole time I don't know, I blanked out or whatnot because I'm not hearing anything, but I didn't hear nothing from the time that they was at the truck. We are both, from the officer's truck to the time he was running and whatnot because I guess he had got down the street some, a little after him or whatnot.

Q (By Ms. Whirley) So the officer was trotting with his gun out?

A Yeah, it was down here.

Q After Mike Brown?

A Yeah.

Q Okay.

A So basically from then I'm looking out the back window, is looking out her little rear view mirror. So I guess they got down the street, you know, got down towards, they still in the yellow line the whole time. So get down, get down a way and Mike Brown kind of swayed and turned around. His hands weren't fully up, he kind of turned around and he was just like that, and then he slid off three more shots and fell on his face. (indicating)

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

Q So the officer shot him while his hands was like this? (indicating)

A Uh-huh.

Q And the way you demonstrated was his hands were --

A Halfway.

Q Like shoulder length?

A Uh-huh.

Q Okay.

MS. ALIZADEH: Can you demonstrate again, I missed it, I was writing.

A Like, uh, I guess, I guess from where the officer was at, he must have said something to him. I couldn't hear that far back, you know. He was probably, he was up by some other cars, so I couldn't hear that far or whatnot. So I guess he end up putting, you know, his gun up and saying something to him, like get down or something.

Q (By Ms. Whirley) You are guessing about that?

A Yeah.

Q You didn't hear that?

A Yeah, I didn't hear nothing the whole time.

Q All right.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A As I guess he said something, you know, if you are looking just to visualize or whatnot, turn around, like slow his hands like slow.

Q Mike Brown?

A He wasn't fully up in the air or nothing like that, he was just like this, and then boom, boom, boom, three more shots and he fell down, hit his face and fell on his arm and hit the ground.

Q When he turned around and raised his hands up shoulder length, did he charge at the officer?

A No, no.

Q Did he move in a threatening way towards the officer?

A Not that I could see, no.

Q You didn't see him threaten the officer?

A No.

Q As if he was coming to do him harm?

A No, the officer wasn't that close, he was not close at all to him.

Q Like how far away would you say the officer was when he turned around with his hands up? Was it longer than what this room allows? I mean, if I'm back here?

A I'd say from here to that corner basically.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q From where you are to the corner?
A Yeah, or from the door to there.
Q So like 15, 20 feet you're saying?
A Yeah.
Q Okay. And that's how far the officer was when he fired the last shots?
A Yes, that I heard.
Q That you heard?
A That I heard.
Q Did Michael Brown stumble toward him in any way or come at him?
A I just seen him drop.
Q Did he move again once he dropped Michael Brown?
A Like I'm in the back seat, like he's on the ground, I can't see no more after that.
Q Okay.
A And unless I got out and whatnot. So from seeing that and whatnot, I got doors are still open. So the first thing Dorian say, can you take me down here? I'm like, hell no.

So prior to what they did at that store, I didn't know nothing about that. You know anybody ask you something like that, you are like no.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q Shots were being fired, you don't know what's going on?

A Right.

Q Is that right?

A I mean, the three shots he dropped or whatever, I'm just saying after that, you know, like messed up or whatnot, he asked to get in the car and take me down here and this and that. I'm like, no, skirt off.

So about the time then the police officer catty-corner right here, so I told her to, you know, leave him where he was at, got up here, we got up here by the police car like right here. On the side is the apartments, you know, catty-corner. So by the time we got up there, other police were coming through, coming from West Florissant indene came like straight at us at first.

Q Was there more than one car?

A It was like, I think it was like three, four, five of them trucks.

Q Okay.

A So they came like straight at us, but then, I guess, one of the other trucks stopped and they turned, they just went on around towards the body.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

So from then, I just told her to gradually go in that grass and we left.

Q So you didn't see what they were doing once the police arrived because you left, right?

A Yeah, we left.

Q Did anyone try to stop you and talk to you about what you may have seen that day?

A No.

Q Okay. All right. So, go ahead.

A Let me say something I just forgot too. So when we got here by the police car, basically we got stopped seeing other officers coming in, I end up getting out, you know, to look back and whatnot.

MS. ALIZADEH: I'm sorry, I couldn't hear what you just said, you ended up getting out?

A Yeah.

MS. ALIZADEH: Okay.

A I seen the other officers was coming in or whatnot, and her getting up beside, you know, of the truck. Because we end up stopping because the police I thought were going to block both sides, but they end up didn't. They came straight at us and they went on around towards the body and whatnot.

And the other officer I end up getting out of the way of him. I looked back and I

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

just seen the officer checking his arms or whatnot. I don't know if was checking for blood splatter or whatever or whatnot.

After that, got in, started to gradually go through the grass and we left. That's why I say at the end.

: Now, when you say he was checking his arms, Officer Wilson was checking his arms?

A Uh-huh.

Okay, all right, thank you.

: . On the map could you indicate to us about how far towards, how far east, I should say, Mike Brown ran before he turned from where he stopped?

A I would say it is like, you know, going up by this way. Where his body was at, that's how far he went. Well, over by this tree, well, not this tree here, but like, you know, a little right there, that area, yeah.

: When you were witnessing this, did you happen to see was it like another car that came behind you as well?

A It was like, I'd say, I'm trying to, you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

know, put in about time. I'd say about, ended up being like two to three cars behind us.

Do you remember like the color any of those cars, what kind of make or model they were?

A I know it was a burgundy car that was back there that a young lady was in.

MS. WHIRLEY: Do you know the young lady?

A Uh-huh, no. In a black truck, that is all I remember.

MS. ALIZADEH: Where was the black truck, behind the burgundy car?

A I think it was in front of that one, I think.

MS. ALIZADEH: Do you know who was directly behind s car, not who, but can you tell me what car was behind s.

A I know it was a smaller car, smaller vehicle. I don't know, it might have been a white or a gray car. It was like a truck and a burgundy car.

MS. ALIZADEH: And where were the truck and burgundy car in relation to the car you were in?

MS. WHIRLEY: Show us on the map?

A Behind, basically, behind us.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: Behind you?

A Yeah. Like I said, it was like a smaller car behind us, I don't really remember what color, it my have been gray or white, but I know that car was a black one and a burgundy one.

MS. ALIZADEH: Let me ask because I know at some point, you and I have talked a little bit about this, right, briefly?

A Uh-huh.

MS. ALIZADEH: You said that as Michael Brown ran past, you turned in the car and watched through the rear, back of the car.

A Yeah, the mirror, yeah, the glass.

MS. ALIZADEH: Through the windshield.

A The back glass.

MS. ALIZADEH: I don't know what you call it, back windshield.

A Uh-huh.

MS. ALIZADEH: So you are looking out the back window of the car, the back windshield?

A Uh-huh.

MS. ALIZADEH: And so when you first turned to look out the back windshield, was there already a car behind you?

A Um, I think it was like one, I think it

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

was like one at the time.

MS. ALIZADEH: You said that was a smaller car?

A Yeah.

MS. ALIZADEH: Now, you also said that there was a truck, like a black truck?

A That was the time that I got out, yeah.

MS. ALIZADEH: Black truck came after?

A Yeah, that was after, it was like still clear out there.

MS. ALIZADEH: Okay. Somebody else had hands up?

: . I was trying to make sure I have this correct. You said that, was it officer Darren Wilson you said that was trotting down the street after Michael Brown and appeared to be gasping for breath?

A Yeah.

With the gun down by his side?

A Towards the ground, it wasn't like up or nothing like that, it was huh, like that.

Okay. Then with Dorian, did Dorian, you said he appeared out of nowhere or something?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yeah, like, I guess, when Mike Brown and the police was tussling.

: Uh-huh.

A As I'm like looking out the car.

: Uh-huh.

A And see, I guess, Mike Brown towards the car, you know, his friend is like right on the side, like on Mike Brown's right. So that's the other side of the street he end up going to. I guess he seen what's going right there because I can't see behind, you know, the police tinted window.

: Okay.

A It is catty-corner. So he ran off somewhere over here.

Okay.

A Like I say, by the time I heard that second shot, ducking and looking, that's when I seen him on the side of me like, like where you come from. You was just going on the other side of the street.

So I don't know if he ran right across the street or went around or something, I don't know.

: Okay.

A I end up seeing him after the second shot.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: So where you are positioned sitting in your vehicle, I don't want to assume this, is your vehicle straight, directly in the lane, you're straight in the lane?

A Yeah.

: The officer is catty-corner?

A Yeah.

Toward the front of your vehicle?

A Uh-huh.

: When you say, when you are looking at the officer's vehicle, are you looking at basically the rear panel, like the trunk area?

A Uh-huh.

: Back glass and the right side or the right rear quarter panel right side of the vehicle?

A Yeah.

: So we are looking at this corner. So you are trying to see through the glass or whatever?

A Yeah, but it is just, you know, fully black tint, so.

: Okay, all right. And so,

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Dorian, if I'm understanding you correctly here, at that point is Dorian, let me say state this correctly, is Dorian and Michael, are they both on the driver's side of the officer's vehicle at that time that you see the feet underneath struggling.

A No, Dorian had been left.

: Dorian had gone?

A Had been left.

: Okay. Dorian was not there. Then when Dorian shows up again, is he at the passenger side of your vehicle?

A Yeah, like two doors, he is like, he is on the side part, you know, ducking down too.

Okay. And you said before, is her name ?

A .

Okay. So was driving, you are in the passenger seat of the Monte Carlo?

A Uh-huh.

Okay. He shows up and says man, you know.

A That's at the end, you know, from me seeing him shoot Mike Brown and, you know, like end up talking, like messed up, whatnot. And first

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

thing he said, can I get in, can you take me down here. I'm like, no, I don't know you.

: Uh-huh.

MS. WHIRLEY: No, you go ahead.

A I didn't.

: You did not know Dorian then?

A No.

Okay. Just some random guy that said, hey, man take me somewhere. I don't know what's going on.

A Yeah, he was probably just scared like. I said, he wasn't getting in no way.

MS. WHIRLEY: So to be clear, the point where Dorian was at the car asking to get in, the shooting had already occurred?

A Right.

MS. WHIRLEY: So before the shooting occurred, was Dorian at, just kneeling by the car without saying anything?

A He didn't say nothing, on the second shot, he didn't say nothing.

MS. WHIRLEY: Was he in a position to see what was going on?

A He was in a position to see everything.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. WHIRLEY: And coming back to your question, when you first saw Dorian and Mike together.

A Uh-huh.

MS. WHIRLEY: They were both walking down the middle of street?

A Uh-huh, on the yellow line.

MS. WHIRLEY: On the yellow line. And the officer, you were behind the officer and he backed up real fast you said?

A Yeah.

MS. WHIRLEY: Almost hit Mike.

A About hit his foot almost.

MS. WHIRLEY: You could see that?

A Uh-huh, he jumped back from it.

MS. WHIRLEY: And was Mike pushing him, preventing him from getting out of the car from your view?

A I couldn't see all of that because the truck was already catty-corner, that's why I was saying how he ended up right by the police officer's car.

MS. WHIRLEY: The officer almost hit him he was so close when he came back.

A Yeah, he just, I don't know if he ran up

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

there and pushed the door, he might have seen it coming open, I don't know, I don't know none of that part.

MS. WHIRLEY: Okay. When the car comes back and Mike Brown is at the door, where is Dorian at that time because you said they were both walking down the street, were they both by the door?

A Probably, well, I got to say exactly.

MS. WHIRLEY: Tell me what you saw, not probably.

A I basically saw him kind of, you know, slow and walking away from, I guess when Mike Brown ended up being at the door, he was basically, I saw him going kind of slow across the street and he ran off real quick. I guess not wanting to be a part of it.

MS. WHIRLEY: Okay.

.

So when the police officer backed up.

A Uh-huh.

: You say he almost hit Michael Brown's foot?

A Uh-huh.

: That's when Dorian ran away?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A No, he didn't, he didn't run then, like I was saying. I was saying Mike Brown somehow ended up by the police door.

: Michael Brown did?

A Yeah.

: At what point did Dorian leave?

A Basically as this is happening, he is gradually slow -- slow across and just end up running, like it wasn't no full-fledge run, like walking, like he run like this.

: So there was nothing going on between the two men or the police officer, it was always Michael Brown and Officer Wilson?

A Not yet, not yet. Like I say, whatever, you know, probably Dorian saw you shut the door on him, I don't know, I couldn't see that.

MS. WHIRLEY: We don't want you to guess, right, just tell us what you can see.

: You can only see their feet?

: I can only see Mike Brown's feet.

: And the car moving?

A Yeah, back and forth, side to side.

Electronically signed b 9dd825a0-a388-42a0-9d99-70059917d47f

: So it obviously was a little bit of a hard --

A Right, right.

: Okay.

: . I had one more question.

MS. ALIZADEH: Sheila interrupted you, that was not right.

MS. WHIRLEY: No, I didn't.

At any time did Dorian position himself, to your knowledge, that you could see, at any time did he position himself at the trunk of your vehicle and between this other vehicle that was parked behind you or that was stopped reportedly behind you?

A The trunk?

The rear part of your vehicle, the trunk end of your vehicle?

A Uh-huh.

: Was Dorian ever positioned there at any time?

A The back of the car we was in.

: Yes?

A No, he was on the side, right on the side.

: On the passenger side?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Basically, like I said, the second shot, he end up ducking, that's when I seen him too. He basically ducking down like this looking, you know, just looking.

: He's like on the passenger side at the rear portion of your vehicle?

A Yeah, like by the tire.

: Okay. Never by the trunk, okay, thank you.

: . How soon would you say the struggle began?

A How long was it I think?

: When you said you saw the police vehicle come back at him at a rapid speed and stop.

A Uh-huh.

: How soon would you say the confrontation started?

A Oh, man, three seconds. No, like from Mike Brown being by the door, about three seconds, might have been two.

: You never heard nothing?

A Not the whole time, music down and everything. I didn't hear stop.

MS. WHIRLEY: Windows down?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Windows down, everything.

: . So from your perspective sitting in the car behind the police vehicle, you know, you said you see feet moving, Michael Brown was a tall man, could you see his head over top of the Tahoe or was it --

A No, because the way the truck is, like I say, it is all tinted windows, big glass windows and you ain't going to see nothing.

MS. ALIZADEH: Like over the roof of the car, could you see his head above the roof of the car?

A No, no.

MS. ALIZADEH: So let me ask you this because that was going to be my question.

A All I'm looking at is tint, that's all I'm looking at.

MS. ALIZADEH: Okay. Imagine this, I mean, we now know how tall Michael Brown was, okay?

A Uh-huh.

MS. ALIZADEH: And at some point, we're going to learn how tall the roof of the Tahoe was, okay?

A Uh-huh.

MS. ALIZADEH: If Mike Brown is taller

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

than the Tahoe's roof, if he is standing there and standing upright.

A Right.

MS. ALIZADEH: Would you have been able to see the top of his head or some part of his?

A No, because where I'm sitting is down here.

MS. ALIZADEH: Is lower?

A Right. Even if he is tall, I wouldn't be able to see him.

MS. WHIRLEY: Because you are in a Monte Carlo, it sits low.

MS. ALIZADEH: So your position is further lower?

A Right, yeah.

: Did you happen to notice where Dorian went after the shooting?

A No. As I told him to go on, we got by the police car, that's when other police came in. Like I say, when I got out, I didn't see him nowhere. I didn't see him on the ground or nothing.

: Forward or backwards, you don't know?

A No.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

MS. ALIZADEH: You can sit down if you want, , we don't mean to make you stand up.

Did you happen to notice to your right there's a parking lot, grassy area, did you notice anybody else in that area right after the shooting or during the shooting, would have been on your right side?

A Like my right side over here. There was like, I just seen somebody in a pink shirt. I don't know from what balcony or exact or whatnot, but somewhere over there, you know, glimpsing, going and looking to the right or whatnot. It wasn't a full fledge of people until when I left.

Up on the ground or parking lot or getting out of the car or right there?

A Uh-huh.

You didn't see anybody?

A No, just people in the apartment like straight ahead over here.

: Okay.

A My eyes was, you know just looking. That's the first thing, you know, when I got out and turned, I just seen pink a shirt.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: You saw somebody on the balcony.

: . So you are saying you drove through that little field to get away?

A Just drove right here on the grass part, where the grass is, went around the police car.

And you didn't see anybody standing in that area watching?

A Huh-uh, no.

MS. WHIRLEY: Were you looking for people?

A Huh-uh, no.

: Somebody could have been there, but you just didn't recognize seeing it?

A Yeah, right.

: You were wanting to go?

A Yeah, exactly, yeah.

When this scuffle was going on, you said you could see Michael Brown's feet kind of moving and shuffling. Did you ever, did it ever appear to you that he stepped back and then went to the car and then stepped back again and went to the car?

A Like, I mean, I guess you can kind of say, what you mean like letting go and coming back?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: No.

A Yeah, like dancing movements. It wasn't like standing still hitting or punching, it was like a dancing, like they was probably just grabbing each other or something, and just moving around, just back and forth.

: Did you hear the shot at the car or did you --

A The first shot?

The first shot.

A Uh-huh. That's when I told her to back-back, open the doors and basically take cover if we hear another one.

: At that point did he turn and run?

A Who?

: Mike Brown, sorry, Mike Brown.

A From the first shot?

: Yeah.

A Like when we back, we back-back, as soon as we stopped, that's when he start coming on s side.

You didn't hear a shot and then he went back to the car and scuffled with the

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

officer?

A No, they was basically still right there. They was still right there after the first shot. And by the time got to we back-back slow, slow, wasn't no fast move back, this was slow. So by the time, I guess, probably the time we back-back, it was probably like what, five or six seconds, that's when end up seeing him running past her door.

: . To clarify, five or six seconds past after the shot before you saw Michael Brown leaving or running, so he might have stayed at the window for a few seconds after the shot?

A Yeah, uh-huh.

. Did you ever see a passenger vehicle, like a Windstar minivan in front of the police vehicle pull up literally nose to nose? Did you see another passenger vehicle? I know you are blocked by the police vehicle, might be difficult to see the other side, did you notice another passenger vehicle approach from the West Florissant side and pull up in front of that police vehicle?

A No, I didn't notice it, no.

MS. ALIZADEH: , when you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

were leaving and you went around the police car.

A Uh-huh.

MS. ALIZADEH: Were there cars on the other side of the police car?

A Coming in?

MS. ALIZADEH: Yeah.

A No.

MS. ALIZADEH: You didn't see any cars?

A No cars coming in the whole time that I seen.

MS. ALIZADEH: Did you drive straight out Canfield to West Florissant?

A Yeah.

MS. ALIZADEH: Did you see anybody standing in the street or in the yards of those houses?

A No, not as I remember.

MS. ALIZADEH: Not that you remember?

A Huh-uh.

MS. ALIZADEH: And I have some other questions, but not kind of at the scene. So let's stick with questions about what happened at the scene if you have any.

MS. WHIRLEY: Anything else at the scene?

MS. ALIZADEH: Okay. So I

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

just, I know you said is driving and after you left the scene, where did you guys go?

A We went up, I told her to take me home, but went up on the side, what's that street, what's that Ferguson, on the side of Ferguson Market, is that Ferguson or something like that?

MS. ALIZADEH: So you went out to West Florissant, then you make a left?

A Made a left and quick right by that store.

MS. ALIZADEH: Okay.

A And went on out to Pagedale.

MS. ALIZADEH: You don't live in Ferguson; is that right?

A No.

Q (By Ms. Alizadeh) Are you familiar with Ferguson, the area?

A Uh, that street, from going through that street, that was about my second time going through that street, well, third time from the incident.

Q Do you know, does live in Northwinds Apartments?

A Yes, I just thought about it, Northwinds, that's the name of it.

Q That's the name?

A Yeah.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Q So you had take you home?
A Uh-huh.
Q And when you went home, who is the first person you told about what you saw?
A When I went home?
Q Well, you went home after, you had her take you home, right?
A Yeah.
Q Did you go home or did you just get out and leave your house?
A No, I went to my house.
Q Right. So when you, after she drops you off, does she stay or does she leave?
A She left.
Q Okay. So now that is gone, who is the first person you told about what you saw?
A My sister.
Q Your sister?
A Uh-huh.
Q Okay. Now, at some point you knew that there were, there was a big disturbance that happened within a few hours of the shooting?
A Right.
Q Did you ever go back down to Canfield and watch what was going on or be a part of that?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A No, huh-uh.
Q No?
A No.
Q What about, and then we know that in days after that there was looting and rioting and protesting, I mean, protestors are one group and the looter and rioters are definitely a different group?
A Right.
Q Did you ever go up there and protest or be involved?
A A week afterwards, but it was in the daytime.
Q In the daytime?
A Daytime, when it was hot.
Q So I guess what I'm getting at is, you actually spoke to the police for the first time on August 22nd?
A Uh-huh.
Q So what was, what was going on between August 9th and August 22nd, like as far as, you knew that there were people saying hands up, people saying no hands up, and you'd seen it?
A Uh-huh.
Q What was going on in your mind about why wouldn't you come forward and tell the police what

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

you saw?

A Just, I don't know, just the thought, I guess, just being there really. I didn't want to get into it, you know.

Q Didn't want to be involved?

A Yeah, just be involved, you know. Just seeing what was going on on TV every day, and this and this, you know, you never know how people react to certain things. Did you know this or you know, you might know much more. So they might could be, you know, after you or not. People are crazy out here, so they might come for you first if you say something.

Q Sure. But at some point you got together with the police, so how is it that the police knew to contact you?

A Um, well, a friend of mine, his name is , his daddy, he knows --

Q You know what, it is hard to hear you when your hands are in front.

A A friend of mine , his daddy knows Mike Brown's people and they wanted to talk to me, I guess, probably to hear about it. I don't remember the man's name though.

Q Did your friend know that you had

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

been there and seen it?
A Yeah, afterwards.
Q Okay. So at this point you had told your friend that you had seen it?
A Yeah.
Q And was friends with Mike Brown's family or people?
A Yeah, so his daddy, I guess friend, whoever he knew, got in contact with some guy and he knew some guy from the NAACP.
Q Okay.
A I guess they gave him my number and then they contacted me and like I said, it took me a couple days from then to even go talk to them.
Q Okay. So other than your sister, and we know you talked to the police on the 22nd, did you ever give a detailed statement to anyone else about what happened?
A No.
Q So no one else, whether it was someone from Mike Brown's family, did you ever meet with people from Mike Brown's family and tell them what you saw?
A No.
Q What about anybody from the NAACP --

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Just and the rest of the people that was with him from St. Louis County.

Q Okay. They met you at the NAACP to take your statement, correct?

A Right.

Q How is it that you got to be at the NAACP?

A Uh, I said my friend daddy knew somebody, who knew somebody, and they contacted me.

Q Your friend dad arranged for that to be a meeting place for you?

A I guess he just wanted me to talk to them because I told them I didn't want to get into it, so I didn't tell them either.

Q And that was, you said he wanted me to talk to them, you mean your friend or your friend dad, who wanted you to talk to them?

A Yeah, I was telling that I was there and told his daddy, his daddy came around, this and this and that, you know, I still didn't say nothing to them. And he end up giving my number to somebody and they end up calling me.

Q Okay.

A The guy from, the from the NAACP.

Q The ?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Uh-huh.
Q And did you ever meet with the attorney that represents Mike Brown's family?
A No.
Q Okay. You mentioned in your statement that you had talked to a person named Attorney ?
A Attorney ?
Q Yeah.
A That was somebody that daddy.
Q Was that
A I just called him
Q Okay.
A Yeah.
Q All right. You didn't give him a detailed statement of what happened, the attorney did you, I mean, was he your attorney or someone else's attorney that you met with?
A I guess that was somebody else's attorney.
Q Okay.
A That was representing them at the time, which I end up giving them a statement because that's where I was going to the NAACP so.
Q So did you give them a statement before you talked to the police or after you talked to the police?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Before.

Q Okay. Did you feel that anybody, whether it be your friends or people from Mike Brown's family or the NAACP or anyone else, do you feel that they were wanting you to say something other than what the truth was or what you saw?

A No. You mean, mix up a story or something?

Q Well, I wanted to know if you felt pressured in some way to come forward and say something?

A No, I just felt like, I didn't want to just not say nothing.

Q Okay.

A So that's why, you know, talk to the NAACP because I know that. I don't know, I just felt, it didn't feel right no more so, and I know people are looking for statements out here. So I just kind of felt, you know, after the stuff started calming down is when I calmed down and kind of realized to say something.

Q So just, so I can also be clear, you said that from the time Mike Brown turned around.

A Uh-huh.

Q That was pretty much at the spot where his

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

body fell on the ground?

A Uh-huh.

Q So he didn't go towards the officer after he turned around?

A No.

Q Okay. And have you been out to Canfield since this happened?

A Um, like I say in the day. I went to like, I don't remember the dates, I know it was two times I basically just stood by McDonald's the time they kept closing right there. And say what, three or four days from then, I went to go to the visual, went to the visual, stood there for a minute and left.

Q What do you mean by looking for the visual?

A No, looking at the visual, you know, the stuff that was in the street.

Q Oh, okay. The memorial?

A The memorial, that's what I meant to say.

Q The memorial they were putting in the street in memory of Mike?

A Uh-huh.

Q Did you ever after dropped you off, have you ever had a conversation with her about what

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

the two of you witnessed?

A Yeah, basically every day from when we see it on TV.

Q Okay.

A I mean, you know, not trying to put things together, but seeing things on the TV that is just crazy stuff going on just back and forth, and back and forth.

Q I'm not trying to suggest you were trying to get your stories together, the reason I ask is hasn't been returning calls. Do you talk to her about that we would like her, you ever talk about coming in and talking about this?

A Yeah, but you know, she works every day, deal with kids every day.

Q Do you think if we could have her come in at a time that it didn't interrupt her work, do you think she would come in or is she just not wanting to be involved, she doesn't return calls?

A I guess, I don't know how she really feels about it now. I haven't just straight up and down asked her.

Q Okay. Do you know anybody else who claims to have seen this that hasn't come forward to the police or anyone?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Huh-uh, I don't know nobody in the Canfield area.

Q Okay.

A I don't know nobody from up there.

MS. ALIZADEH: Anybody else have any questions.

: . You said earlier that you really didn't want to get involved because you felt, I know what you mean, there are crazy people out there.

A Uh-huh.

: Were you afraid of the people, other witnesses or afraid of the police or both, or whatever was your main concern holding you from coming forward?

A No, this stuff is, just the stuff that was going on every day how your mind back and forth. Hopefully.

But you were concerned because your story may have been different than somebody else's and you were afraid that they may have been judgmental towards you?

A Right, judgments, yeah, yeah.

MS. WHIRLEY: Is there another hand?

: You said that

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

you don't live in the Canfield Apartments; is that correct.

A No.

Do you live in Northwinds.

A No, I live in

: You don't live in the particular area. How long has , do you know how long she's stayed there?

A Um, I can't really say a number. I guess, I think she said two years.

: Two years?

A Something like that.

: If I heard, I'm not sure if I heard you correctly, I think your voice is kind of low, she has children as well.

A Yes.

: Is that correct? In speaking with her, I guess you two have a pretty close friendship.

A Uh-huh, yes.

How long have you known her?

A Um, since approximately about a year.

About a year?

A About a year.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Okay.

A Some months.

: In speaking with her, is it that she might be concerned about the safety, her safety and the safety of her children is why maybe she's not coming forward at this point?

A It might be because it is just, thing with her too, she is just trying to get away from there because there is just too much going on.

: Too much going on?

A Yeah. I mean, we talked about it, you know, she said before she wanted to, but I don't know how she really feels about it now.

: I'm sorry, is there a lot of conversation in the air, that okay you know, if you say something, something might happen to you or to your car or whatever, okay, is that the kind of feeling that's going on around there in Ferguson at the time or what?

A I don't know.

: You don't know?

A I don't live over there.

Okay. You don't frequent the area too much any more?

A No, at all.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

Not at all, okay. I can understand that.

MS. ALIZADEH: And has never said anything about being threatened, has she?

A No.

MS. WHIRLEY: When is the last time you talked to her?

A Yesterday when she got off of work.

MS. WHIRLEY: Okay. So you talk to her still frequently?

A Uh-huh.

MS. WHIRLEY: You will let her know we are trying to reach her?

A Yeah, yeah.

MS. WHIRLEY: And what happened, I mean, not what happened, just that we want to talk to her?

A Right.

MS. WHIRLEY: Is there anything that you want to add or tell us, a question that we didn't think to ask or something you feel is important for this grand jury to know?

A No, basically told everything, that's what happened.

MS. WHIRLEY: Okay. We have another question?

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

: Sorry, one more. Again, you said you were sitting in the car, you heard the first gunshot, and can you explain again the second shot you heard fired was when, what was happening when that second shot was fired?

A Oh, okay. When the first shot happened, I told to roll back, open the doors, you know, kind of take for cover, you know, for a thought. So we basically stopped, so Mike Brown came on her side, you know, scooting off or whatnot. I heard a second shot from then. I didn't see the officer or none of that.

I don't know if he was in the car or he might have open his door slightly and shot, I don't know because the car is catty-corner. I couldn't see through the tint. I didn't basically see the scuffle or nothing, I just saw his feet.

MS. ALIZADEH: You opened your door, did open her door?

A Uh-huh, I told her to.

MS. ALIZADEH: And did you get out of the car?

A No.

MS. ALIZADEH: So you both just stayed in the car, but opened the doors.

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Right, uh-huh.

: Go back to the second shot. Did it appear to you that Michael Brown was running when he heard the second shot?

A He was basically, he was basically past door. I don't know if he might have been back by the wheel or just passing her back end, but I just wasn't looking at all directly.

I was basically looking like walking past, heard a second shot, it is kind of ducking. We didn't know where it went or where it was coming or whatnot, yeah.

MS. WHIRLEY: He was traveling away from the officer when you heard the second shot?

A Yeah, yeah.

. How far apart were your car and the police officer's car?

A Um --

MS. ALIZADEH: There is two different distances because they back up.

: Good point. Initially before, you back up, how far apart are your two cars?

A Um, basically feel like, it wasn't bumper

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

to bumper, but say might have been 3 or 4 feet, enough to see up under a SUV, you know.

And then when you guys backed up, be able to back up, how far back did you back up?

A Yeah, probably like 8 feet by then, 7 feet.

: Okay.

MS. ALIZADEH: Now, you brought up another point that I want to ask about. You said you can see underneath the car, and I know it is an SUV and sits up higher, but don't you think, if you were 3 or 5 feet.

A See, I'm the passenger, the car is catty-corner, I can see straight up under there, right up under there. She couldn't see it from her side, she couldn't see like there, right at the feet like I could. I could see, you know, just from looking right up under the SUV.

MS. ALIZADEH: You were looking through the windshield, front windshield when you could see underneath the car.

A You couldn't see through the back windshield, it was tinted.

MS. ALIZADEH: No, no, 's car, you

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

were look through the front windshield?

A Yes.

I just want to make sure I understand what both of those people are trying to get to. When you were looking through the windshield and under the car, you are maybe a foot from the police cruiser?

A Yeah, like I say.

: It wasn't until you backed up that you were about 5 feet from them?

A Yeah.

Then you have a better view of things but then by that time you were trying --

A I mean, like from the get-go, from the get-go from when he pulled back, I can still, I can see from under that truck the movement.

: You can still see, the reason you can only see under the truck was because you are --

A Right, when I was on the passenger side, yeah, uh-huh.

MS. WHIRLEY: Anyone else? Okay. I guess that concludes the question and answer period with .

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

A Yes.

(End of the testimony of .)

MS. WHIRLEY: We're back on the record at 2:20 p.m. on September 25th, 2014. Having heard 's testimony. All 12 grand jurors are present, Kathi Alizadeh and Sheila Whirley and the court reporter.

Now we are going to hear 's recorded statement with a police officer and also I believe someone from the federal investigation was there also. You will hear the different voices. This interview was conducted on August 22nd, but I will go ahead and play it with that little bit of introduction.

MS. ALIZADEH: We're going to pause the recording. Are you ready to play?

MS. WHIRLEY: Yeah, let me bring it up. There we go, that one is up.

MS. ALIZADEH: Enlarge that for a second.

MS. WHIRLEY: Are we ready?

MS. ALIZADEH: Pause the recording.

(Recording is paused.)

(This is the interview of

)

MS. WHIRLEY: The interview concluded at

Electronically signed by 9dd825a0-a388-42a0-9d99-70059917d47f

approximately 3:03 p.m.

MS. ALIZADEH: I just wanted to add that during the playing of the interview, I had marked a map as Grand Jury Exhibit Number 28. And originally I put it up on the screen, but we couldn't do that while it was playing so that kind of went around and I wanted just to make a record that the map that drew on or was used during his interview is Grand Jury Exhibit Number 28.

Did you all have a good chance to look at it?

MS. WHIRLEY: I do want to say when I said that the interview 3:03 p.m., I mean that we stopped watching it today on September 25th, 2014 at 3:03 p.m., or 3:02, whatever time I said. That's all I have.

MS. ALIZADEH: So that's all the witnesses and evidence that we have lined up for today. We were planning on quitting at 3:15, you have 15 minutes more in your day now.

(End of the testimony for September 25, 2014.

GRAND JURY VOLUME VIII

MS. ALIZADEH: Good morning.

(Everyone says good morning.)

MS. ALIZADEH: It is Tuesday, September 30th at 8:32 a.m. Present is myself, Kathi Alizadeh, and Sheila Whirley of St. Louis County Prosecutor's Office. All 12 grand jurors are present as well as the court reporter, who is audio recording and taking down everything that is being said this morning.

I want to give a little pep talk to you as it were. I can only imagine the disruption that this causes in all of your lives and schedules, and I hope you know how appreciative that we are that we have the 12 of you who have agreed, even though maybe your arms were twisted a little bit, but agreed to, you know, devote the time and effort that this matter takes.

Don't think I'm understating it or overstating it to say how important this is. And I know you all, you know, since you're not a jury, there is no admonition that you not watch the news and anything like that, and I know that you can't really avoid seeing things about this in the news and, you know, not only here locally, but as well

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

throughout the country. This is a very public matter and it is very important that we get this right.

And, as you know, Mr. McCulloch made a statement in the very beginning we were going to be as thorough as possible. And that means anybody who says that they saw part of this or knows something about it, is going to be able to be heard.

Even people that are reluctant to come in, we're going to do whatever we can to get them here because it is important that you have all the facts and information.

And I know sometimes it seems like it is very tedious because some of these eyewitnesses have made multiple statements and again, Mr. McCulloch has promised that there wasn't going to be anything that you didn't have the opportunity or weren't able to see or hear, and that means playing all of these statements for you.

And we do that because, obviously, there is times when if a witness makes multiple statements, sometimes over time their statements changes, sometimes dramatically, sometimes only slightly and insignificantly, but I think that those are things that you all have a right to consider

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

when the witness testifies, if they've made previous statements that are different than what maybe they are telling you in the grand jury.

That happens in every case, every time a witness makes a prior statement, that statement can be brought up, as you know well, you said this previously, how come you are changing your story.

And, you know, neither Sheila and I are prepping these witnesses in the way we would if we were having a trial. We try cases, we have our witnesses come in and we talk to them about what is going to happen, we go over what their testimony is going to be, not in the sense like rehearsing, we want to know what they're going to say before they get up there and testify.

And that's just good lawyering. No one would ever expect me to put on a witness in a trial when I didn't know what they were going to say.

But in this case, you know, we don't want to have to, we don't want to in any way influence what these people are going to come forward and say to you. And so we don't do any prepping with any of these witnesses, other than to explain to them what is going to happen when they come in here, the process. So I don't know what they're going to say

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

when they get here.

I mean, I have an idea because they've made prior statements, I assume they are going to say something like they said before, but the reality is, I don't know, and that's why it is important that we play for you those prior statements so that you know what they have said previously and can compare that to what they say today when they testify.

A lot of times, I know it is tedious and it seems redundant, why are we hearing this person say the same thing now three times.

If the person makes the same statement three times, you may consider that when you are deliberating about how that, what that means for that person's credibility, their ability to have observed what they say they saw and recall what they say they saw. Those were all things that I think are important because there are a lot of people that see bits and pieces of what happened that day, and I think you can even see right now how, you know, depending on where you were standing, it affects what maybe you say you saw, and that's human nature too.

So, again, Sheila and I are not worried,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

but very, we're concerned about the speed that this is coming in. We're going to do our best to try to kick it up if we can.

A lot of these eyewitnesses you are going to hear from who have made multiple statements, we expect that hopefully that's going to be less and less and eventually, you know, we'll get through the eyewitnesses, and then you are going to hear from ballistics people, and lab people, and DNA people, and, of course, those witnesses don't have prior recorded statements that we'll have to present to you. They may have reports that you will get copies of, but at any rate, I know that this is tedious. I know you want your lives back, your lives back the way they were.

All I can tell you is that this will be over at some point, this is not indefinite, and we're doing everything we can to try to get through this as quickly as possible.

We were hearing the other day that there is rumors that you all are going to be done this week. I'm here to tell you, no, that's not happening.

Originally, we had made estimates we would get done about the end of October, early November.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

We may go into mid November.

As I said in the beginning, if this takes until January for you all to have what you need to make this decision, then that's what we're going to have to do.

We'll do it as quickly as we can without rushing through it and skipping through things that need to be done.

So that being said, I truly, truly apologize for the disruption in your lives. You all really seem to be a great group of people, I'm so glad you all get along as you do, it would be awful if we had people that, you know, had conflicts and bickering going on. You all seem to be, as best as you can, hanging in there with us.

So, again, Sheila and I thank you for your patience. So that being said, yes.

: I have a question. I try not to watch the news, I try not to read anything about this because I like to have an open mind so I have all the facts that is presented here.

My concern is that, um, my concern is that everybody is saying hurry up, hurry up, hurry up, from what I'm hearing. Hurry up, make a decision,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

hurry up and get this done, hurry up and get that done.

And I know that this information has been disseminated. I know Mr. McCulloch before has said there is a process and this is the process that we have to follow.

Is the NAACP, or these other, you know, coalitions, are they confirming what he is saying to the people of Ferguson? I mean, I don't know if you can comment on that, but.

MS. ALIZADEH: Well, all I can tell you -- : I think everybody needs to rachet it down a little bit and let us do what we can do. I have faith and trust in everybody in here, you know, to make the decision that's appropriate. I'm not saying it is the right decision, I'm not saying it is the wrong decision, but make the decision that's appropriate based on the facts. But is that being disseminated by these groups or whatever to the people there?

MS. ALIZADEH: Well, there has been, as I said, there have been rumors, I think there was someone who had tweeted yesterday, a person of public, a public person that, you know, I hear unverified rumor the grand jury is going to have

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

their decision by Friday. I don't know where they get this stuff. I don't know where that comes from, but I know that last week and yesterday Mr. McCulloch did give interviews to the media.

Last week he gave interviews to several media outlets describing the process. The fact how a grand jury is selected, you know.

My office has nothing to do with how you all are selected. The fact that you were selected way before this even, you know, happened, you know. And then the process of how, you know, when you have regular lives, this is not like a jury in a trial where Monday through Friday from 8:00 to 5:00 you are going to be here until it is done. That's not how it works. In a trial that's how it work, I mean.

We have jurors that we have to tell them in advance this is going to be a two-week trial, this is going to be a three-week trial. But he has made those statements and, you know, I can't, I can't help what goes around in the rumor mill. I don't think we have much control over that.

But I will express to him those thoughts that if any wisdom in trying to bring together some of the people in the various communities who can

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

disseminate that message that, you know, be patient.

I mean, there is that catch phrase people always talk about, rush to judgment. That was a phrase made popular years ago. People keep saying hurry up, hurry up. We're not going to rush to judgment here.

If we wanted to, we could present this case as we do any other case. We could have a detective come in here and tell you what he thinks, you know, the evidence is, and then you all would be making your own decision based on that, but that's not how we've chosen to do this because of the importance of letting all sides be heard in this matter.

So I will talk to Mr. McCulloch about the strategy behind that, that it might be, because we all want everybody to just calm down. It will happen, there will be an answer, but you have to be patient, you have to let the grand jury do their job, you have to let us do our job.

And, you know, the problem is too, we can't tell people how often you're meeting, what days you're meeting, how many witnesses are testifying, because we're prohibited from talking about that.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

And so when people ask questions how often are they meeting or how many hours a week or how many witnesses are they hearing from, we can't answer those questions.

I think just the fact that the questions are asked and we can't answer it, I wonder if that might create even more like, well, why aren't you telling us this.

So I will talk to him and maybe we'll kick that around and we meet daily, except for these days. We usually don't meet on these days, but we meet pretty much every day and talk about what's going on and how we are progressing.

And so yes,

. I'm going to piggyback on her question. I've heard a lot of people talking about, this is people who should know, talking about why don't they just arrest him, and then figure out what's going on, why don't they just take action, do they not understand the process? Is that the problem, or is there a way to bypass this because it seems to me that we're doing what needs to be done and we're doing what's right and people are not seeing that.

MS. ALIZADEH: Well, you know, the one

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

thing I will tell you is that, you know, my friends and neighbors know what I do and they know I'm doing this. And trust me, they are asking me questions all the time.

: I hear you.

MS. ALIZADEH: All I can say is I don't want to talk about it, I don't want to talk about it. I'm just crazy busy, doing what we can, I'm not going to talk about it. I don't want to talk about it. It is like I go home, I still bring work home, I don't want to be talking about it and I shouldn't and I don't. But I do tell them, we're working, you know, we're working hard and so it is just going to take a while before this process is completed.

And, you know, as far as like you saying watching the news and everything, I don't watch the news. I truly don't. I watch the news in the morning so I can see what the weather is, if there is like a traffic accident on the highway on my way in so I need to go a different route.

I don't want to see what's going on, even though I know it's there and I hear about it, because, number one, I just need to have a little, you know, of my personal life that isn't affected by this, but also I just don't want any of that to

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

affect what I'm doing.

I can't worry about what's going on out there because I can't control it. And as Sheila knows and will tell you, I'm a control freak, and I think you all know that.

When I can't control something, I don't want to have, I just have to put that over there. Yeah, I can't listen to too much of this on the news and I can't be concerned, like I said, we were talking yesterday with these rumors, who came up with that, how is that getting out.

But it is like, you know, it is like being in high school. These rumors get started, I have no idea who started them, and then it is like the game of telephone because next thing you know the rumor morphed into something different and we can't worry about that, we can't worry about that.

Just know that we're working behind the scenes every day, hard to get this put together for you guys. We also, I will remind you and press upon you if there is anything that you think that you need that you don't have, and I know that you have made the comment, , previously, about wanting to hear from the private medical examiner that the family Michael Brown had hired. We're

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

looking into that.

You all have asked questions along the way, and trust me, we are not ignoring those questions, we are doing what we can to see. You think there is something we need to know about or hear that we haven't given you, then we're not doing our job and we want to make sure we give you whatever you think you need.

MS. WHIRLEY: Did you have a comment?

: . Last night on the news, I know you just said you don't watch the news, it was stated that Officer Wilson had a case pending, a previous case pending. My question is, how much does that affect what we're going through?

MS. ALIZADEH: It shouldn't affect what you have. I was aware of that. Simply because I saw some cameras out yesterday, and I saw an attorney that was commenting about it and I heard about what it was.

But, you know, up until August 9th, he was an on duty police officer who made traffic stops and arrests and did other things other police officers do and so I would imagine, I've not looked, but I would imagine he has pending cases in our office.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

How those are handled and what comes of those cases shouldn't be your concern. I will tell you that I do not believe, and I will look into this, but I do not believe that he will, I mean, I know he won't be testifying in front of this grand jury any more because you're only hearing this matter.

I don't know that, I can't say for sure he wouldn't be called to court or called to testify on anything else, but I think it is unlikely, but I don't know. I don't know that necessarily will have any impact on what you all are doing.

That's the best I can say about that.

On for today we have a witness here, his name is . He's going to tell you what he knows about this matter and , of course, has made previous statements so we're going to start out by listening to those statements. First statement was done on August 12th, and it was done by the County Police.

And, remember, as I said a lot of times when the police do a statement, then the FBI has to come along and do their own statement, so after we hear the statement by the County Police, we will hear a statement that was done by the FBI.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

You all remember that last time I played that video that purportedly has comments made by , and then I was trying to play the audio back, and I thought then I might not have the right clip. So I straightened that out, so we may play that also later today if we have a gap in things.

We don't want you sitting here with nothing to do. We're going to keep you busy as long as you're willing to work.

you can turn off the recorder. The recording will be paused while we are playing the interview of that was done on August 9th by St. Louis County police detectives and that recording is contained on Grand Jury Exhibit Number 17. And, pause that recording.

(This is the interview of being played at this time.)

MS. ALIZADEH: During the playing of that statement, I passed around to you copies of the map that I marked as Grand Jury Exhibit Number 30.

(Deposition Exhibit Number 30 marked for identification.)

MS. ALIZADEH: Which was a drawing that was done during the statement of It

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

is apparent in the statement that there was another drawing done, I don't know if I have that one, I will have to check and see if I have it and if not, I will get that for you as well today.

Remember, we talked about they were drawing the car and the position of the car or something.

So the next statement is about an hour long as well, so do you all want to take a five-minute break for bathroom and stand up. All right. We will do that. It is 10:09 a.m. How about 10:15, is that enough time?

(Recess)

MS. ALIZADEH: It is 10:21 on September 30th, we took a short break. This is Kathi Alizadeh. Sheila Whirley, as well as all 12 grand jurors and the court reporter. And we are now going to play for you a recorded statement that was done of , who was the gentleman who we just played the statement that he made to the County Police.

This is the statement that he made last week during an FBI interview. I just looked and it appears to an hour and 18 minutes long, and it is cued up and ready to go. If we don't have

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

transcripts as of right now because the statement was only last week.

So if we get transcripts while you're still seated in this matter, I'll get those to you for your review later.

All right. And at this time I will ask you, to pause the recording while we play the recorded statement of

(This is the interview of .)

: Today is September 24th, it is 10:10 a.m. This is Special Agent , I'm here with DOJ trial attorney and USA . And would you state your name, sir?

: , okay.

: , I met you before. (inaudible) My name is and I am with the Civil Rights Division of the Department of Justice, and is a prosecutor here, federal prosecutor based here in St. Louis. So we are working on this investigation with the FBI, and because we know you gave an interview with the County Police, we didn't get a chance to meet you and we wanted to meet you, okay?

: Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: So all your answers need to be out loud because this is being recorded, but if you nod your head or shake your head I'll remind you.

I understand.

: And I'm sure you know this, and I have no doubt that we just want you to know that if you talk, some type of false statement or lie or embellish or exaggerate, it's a crime to make false statements to federal agents, we want you to know that.

: I understand.

: Okay. And we want what you know versus what you assume. So if there is a distinction when you talking about something and you assume it, we want to know what you assumed versus what you, yourself, know, what you heard and saw that today.

: Okay.

: It is natural that you've heard other names and we may need to ask you about that as well, but we want your observation. It is important not to guess, if you guess, let us know.

: Okay.

: If I ask a question, and you answer a question that seems confusing, let us know

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

because if you answer, we'll assume that you understand.

Okay.

: Okay?

: Uh-huh.

: And you know you're at the FBI, and you came through security, but we want to make that you know it is voluntary. So at any point you have had enough, you want to leave, you let us know.

Okay.

: We are not going to force you to stay here.

No problem.

: Do you have any questions of us?

: No.

Just real quick, I want to make sure I have your name spelled right. Can you spell it for me?

: .

: Okay.

:

: Okay, thank you.

: you spoke to County Police back on August 12th. Do you remember

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

speaking to them?

: Yes.

: Okay. So we are, I'm not going to go through your whole account because I know that you are, you already gave that and going to the state grand jury tomorrow, right?

Yes.

: I don't want to make you rehash the whole thing.

Okay.

: and I are with the federal prosecutor's office, we are prosecutors. So we won't have the opportunity to see you tomorrow, so that is why we listened to your recorded statement, we have read the transcript. We just have some specific questions that don't jump out at the recording because we can't see you.

Okay.

: That is what we want to focus on.

: All right.

: There were certain things that you, um, you talked about and when you talk about, you said do this or do that. Do this and do that doesn't come across in a recording and it,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

obviously, won't come across on this recording. But in the beginning when you saw the, the tussle in the car, can you describe for me or show me what you actually saw Michael Brown do and what the police officer were doing?

Well, actually, as I just stated to them, from my porch I can only see from the passenger side.

: Okay.

: I don't know if he had grabbed him or what, but you could see them tussling in the car, they were moving around.

: When you say he grabbed him --

I don't know who grabbed who.

: I know. When you say he?

The police officer.

: Okay.

Because he was walking, he must have said something to him and he was approaching the truck. Then we saw the tussling.

: Let me ask you, you said he must have said something to him, you mean --

: I think the officer said something to him because Michael started walking towards the truck.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Okay. That's what I was going to ask you, what made you say, when you say he, I'm trying to figure out.

I'll make sure I state it.

Okay. I know when you use the expression he must have said something, that's one of those assumptions. When you say that, I want to you to explain that's why you are making that assumption.

Well, I'm assuming he said it because he was approaching the car. I mean, if the officer tells me to stop and come here, I'm coming there, okay.

: Okay.

: I'm going to approach you, I want to talk to you. I'm going to find what is going on.

: That's fine, that makes sense.

But I could see them tussling, you know, and after that is when the first shot rang out.

: Let me ask you about the tussling specifically. I know you said from what your vantage point was, can you describe from your vantage point what Michael Brown's position was?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

He was outside the car door.

: Okay.

: Outside the truck door. He was in one of those big 4x4, not 4x4, SUVs.

: Right.

He was on the outside and the officer was still in the truck.

: And how is Michael Brown's body?

: He was like, he was, I could see the top of his head, he had a hat on.

: Okay.

: I could see the top of his head, and then he dropped down and he disappeared for a minute. Next time I saw his head is when I heard the shot, that's when he popped up.

: Okay.

Okay.

: Were you able to see from your vantage point whether Michael Brown's body was bent over --

: From my vantage point I can say clearly he was not inside that truck. He was partially, maybe his head, was right there at the officer's head.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Okay.

But so for his body being in, no, I couldn't say with 100 percent accuracy that his body was, but I'm quite sure it wasn't.

: Okay. So you don't know for sure?

: No.

: What about his hands?

: They were inside.

: Okay.

: Uh-huh.

: So his hands were inside, just correct me if I say this wrong. Michael Brown hands were inside the car?

: I believe so.

: Okay. You couldn't tell if any part of his like shoulders or anything were in it, is that fair?

: No, no.

: No, you couldn't tell or no they weren't?

I can't tell.

: Okay. Can you tell, you said his head disappeared from view. So do you not know, can you tell whether any part of his head was inside

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the car?

: No.

: No, it didn't or you can't tell?

: No, I can't tell.

Okay, fair enough. Were you able to see any movement that the police officer was making inside the car?

I could see him jerking around.

: Okay.

I could see his body, see his torso, I could see maybe from like the shoulders up, jostling around like they are moving back and forth like this, just like some kind of tug of war or something was going on.

: Okay. Just for the recording won't pick up what you are. You are kind of leaning back and forth in your chair?

Right, they are kind of rocking back and forth, like they were in some type of struggle.

: Okay.

Okay. That you could clearly see that they were struggling, but I could not tell

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

how much of his body was in the truck.
: Okay.
I can't say for certain how much of his body was in the truck.
: That's fair.
: You are referring to Michael Brown?
: Huh?
: How much of Michael Brown's body was in --
How much of Michael Brown's body was in the truck?
: The officer was in the truck at the time?
: Officer was in the truck.
: When you say we, we saw, who are you referring to?
: Had some other family members there on the porch with me.
: Is that your brother and sister-in-law?
: Yes.
: Was there too?
: Yes.
: Okay. And so once the shot

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

rang out and Michael Brown started running, how soon after did the police officer get out of the car?

A matter of seconds.

: Okay. Was it instantly or was there a slight pause?

There was like a slight pause. I would say within two or three seconds, he was coming out.

Okay.

As Michael was running away, the other gentleman, Mike went one way, the other gentleman went the opposite direction.

: The other gentleman was Michael Brown's friend?

Michael Brown's friend.

: Do you know his name?

No, I don't, I don't know him.

: Okay.

: I've seen Michael Brown in the neighborhood, he passed me. Myself and the other lady, we always sit out. I'm collecting Social Security, she's retired, we just sit out and we talk, watch around. And I seen him walk past because he has a friend who stays in an apartment

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

who is just beyond me.

And he would always come by and say, how you doing, sir, how you doing, ma'am, how you all doing, you know, everything else. That's the only contact I had. Other times I may have seen him at the stores in the neighborhood.

: Okay. We are veering off a little bit. Just so I can ask you, you have a friend that, Michael Brown has a friend that lives in the apartment complex?

: I have no idea.

: I thought you just said.

Oh, Michael Brown has a friend that stays, not the one that was with him, I don't know him. Him, I know nothing about.

: I understand that. I just ask you the friend that Michael Brown stays with in the apartment complex, do you know that friend's name?

: It is a female, no, I don't.

: Do you know in which building she lives in?

: Uh --

Here is a map if that helps.

I believe it's, it is

: Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

I think so.
: Do you know which level?
No. Because she was on third floor. I think she moved down, I'm not sure.
: Okay.
I can't say for certain.
: Okay. So back to what we were just talking about, the friend that Michael Brown was with that day, we'll just refer to him as the friend, would that be easier?
: Okay.
: Okay. You said Michael Brown took off running and there was a pause, police officer chased. What was that friend doing?
: After he ran, he disappeared, you couldn't see him. You don't know, we thought he had ran around to the side of the building, but someone is saying and other people was saying one of the reason that I heard and read that he was actually behind the other police truck that was there, he ran behind this other car.
: So not straight?
: So I didn't see him.
: I want to just know, just tell us initially you saw him with Michael Brown,

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

correct?

Right.

: I'm talking about the friend.

Right.

: During the tussle that you described, where was the friend?

Practically on the sidewalk.

: Okay. What was the friend doing?

Just standing there watching what was going on between officer.

: From your vantage point where Michael Brown took off running, what did the friend do?

He ran the opposite way.

Did you see him again?

No.

: So when the police officer took off running after Michael Brown, can you describe, were you able to see his gun?

Let me stop you.

: Sure.

: He did not take off running after Michael.

: Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Excuse me.

: You okay?

I'm having spasms, okay. This is not showing me anything, okay.

If you don't like this map, we'll go with that one.

All right. You are looking at, okay, all right. This is, I can't tell which one is which right here.

: If this doesn't help you, you can --

This is Canfield.

Coming from West Florissant.

Uh-huh.

Coming around. This is the last driveway, okay.

: Okay.

: This is one right here. This driveway right here, okay, his friend went toward West Florissant. Michael ran towards the first driveway which is located where the memorial is on the post.

The officer got out of the truck, came around to the back of the truck.

: Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Assumed his position like this. (indicating)

: And you are showing, was the gun out in the front of you?

: The gun was out like this, he had his hand out, he was in his position and he told, that was after the shot he got out, when he got shot he ran. By the time he got to the edge of the driveway after he crossed the sidewalk, he got on the black part of the driveway he stopped, Michael stopped. He was looking at hisself to see where he was hit, he was doing this, but he had stopped.

The officer, at that time, he had come around to the back, Michael had his back turned to him. He told him stop, but he had already stopped.

Michael turned around to face him and he had his hands shoulder high, just a little bit above his shoulders, but they were out away from his body.

: Okay. Let me just stop you for one second. So you are saying when the officer got out of the vehicle, you are saying he ran around his car and stopped and did not chase after Michael?

: No.

: And when Michael was running

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

away, the officer was not shooting at him; is that correct?

: No, he didn't shoot then.

: Okay.

: He didn't fire, he already had fired one shot when he came around to the back and assumed the position. He yelled at him to stop, which Michael had already stopped, when Michael turned around, he told him again, stop.

: Okay.

Michael took a step off the sidewalk. As soon as his foot hit the street, the officer let loose, wham, wham, wham.

: Okay.

Right.

: So that initial shot though occurred inside the vehicle, correct?

: Correct.

: Okay. So you're saying that the next time any shots were fired was when Michael Brown was facing the officer; is that correct?

: Correct.

: And that was after the officer said stop?

: Right.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: And then he didn't shoot until Michael Brown made a movement?

: Made a movement.

: And the movement was totally opposite, correct?

Right. He took a step to the street. It looked like he was giving up. Because that is what we were saying. He is giving up, he is giving up, you know, we're looking at him, he's giving up. But then as soon as he took a step, he got his foot in the street, he fired three shots.

: All right. Let me ask you about when you said he had his hand up. You had described previously that he was standing, as you said, his hands up around where the shoulders were, his palms were facing him.

: No, they were like this. Palms are facing the officer, they were like this. Indicating)

: Okay.

: You are the police officer, I turned around and I did like this.

: Okay. Show your palms are out?

Right, right.

: Okay. Just so I can

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

understand. From my understanding when the police were interviewed by the County Police, you described he kind of stopped and looked down to his right?

When he stopped at this time, yes. He kind of, when he stepped off, he was still like this, but he had his hands up, he was still trying to find out where he was shot to me.

: And then tell me what makes you say that?

: Because he looked down to his side.

: Okay. You said his right side?

: Yeah, this side, yeah, looking on this right side and then he took a step out. And he had his hands up and as soon as he took that step and got to street, maybe about to, he is a big guy, he could have made it about three steps.

: Let me ask you this, when he's running, he stops in front of the driveway. Based upon your vantage point, you think that he stopped because he was looking at to see where he was shot?

: Yes.

: Okay. So when he did that, at that moment he stopped, where were his hands initially?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Like this, he had them like this. He took them away from his body to see, he was like looking, he was looking.

: All right. That's a little bit different --

No, I told it before, I said when he stopped he was looking, he was like this, his hands were not steady like this, but he had them up to look at because he's a big guy, he had to look and see what was up.

: He was like moving his arms.

Moving his arms to see what was going on.

: You have your palms sort of facing you like he was checking --

Right, he's checking out his own body.

: Okay.

Okay. But when he turned to face the officer he was like this. He had his hands up, palm facing the officer like, okay, you got me. He had already told him to stop.

: All right. I need to just go back and try and (inaudible) a little bit. When he was checking out his body, were you able to see?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

I can't tell.

: Is there anything that stood out to you?

: Nothing stood out to me.

: Okay.

You know.

: And so when he turned around and took that step is when he had his palms out?

Right.

: So right after that when the officer started shooting, what did Michael Brown do?

: After he fired that first round, that first volley. He hit him, he started staggering, he first kind of went back like, pow, from the impact.

: Okay.

And then he started staggering. And he was looking at the officer as he brought his head up, he looked down, oh, God, I've been shot. He looked up at the officer and he was looking at him and he was staggering, he was trying to stay on his feet. And myself and my family is telling him stop, dude, stop, stop, stop.

: Were you actually saying that out loud?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Yes, he couldn't hear us, you know, from where we live.

: I know he couldn't hear you, but were you actually yelling it in hopes?

: Hoping that he would hear but he was staggering. We could see that he was staggering and he took about, I don't know, three or four more steps, but as he was taking his steps forward at that time, the officer took a few steps back, he was still in his spot. When Michael took the other steps and he was staggering, his body was like -- can I stand up, please?

Yeah, absolutely.

Okay. He was standing up, he was shot. He was leaning like this, but his head was like this. And he was standing up staggering, he was trying to stay up on his feet like this.

: Okay.

And he was definitely, we were yelling at him stop, stop, stop. My sister-in-law and said, oh, God, he's getting ready to kill him, he's getting ready to kill him. And no sooner than he said that, no sooner those words came out of their mouth, he was going down, it looks like he was going down. And he

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

let off four more shots pow, pow, pow, pow.

: Okay. When the officer was shooting was when Michael Brown was coming towards him; is that right?

Yeah, he was not charging him, he was defenseless, hands up, he was trying to stay on his feet and you could see that his knees was beginning to buckle, he was going down. When he shot him as he was going down, he hit face first, splat.

Where were his arms when he fell to the ground? You are showing arms at either side of his head?

When his body hit is when I ran up there his arm, one was like, I can't exactly tell on the body, one was like this when he hit down. I guess they moved when he hit the ground, but he was dead on the way down.

Can you picture where his arms were on the ground?

Kind of like.

: I don't want you to guess if you don't know.

No, I can't say for sure. I'm trying to picture it, but to tell you the truth,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

I didn't really want to see it, you know, because when I ran up there and I saw who it was, I'm like, oh, my God. I just saw him earlier this morning.

: I'll get to that in a second, but let me just clarify. So you saw two additional, two volleys of shots --

: Right.

: Correct?

: Right.

: Each time the officer was firing, Michael Brown was coming towards him?

: Yes.

: Okay. And at no time did Michael Brown say anything, correct?

: I could not tell or hear if he did say anything.

: You didn't hear him yell, don't shoot?

No, I didn't.

: Were you able to hear the officer say stop?

Oh, yeah, he was very loud.

: You didn't hear Michael Brown say anything like okay, okay, okay?

No, I didn't hear that.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Okay.

: Listen, I'm dealing with two very excited . One is , and this is the first time seen anything like that and right here.

: Talking in your ear?

Right.

You were able to hear the officer?

: Oh, yeah.

: You didn't hear anything from Michael Brown?

No.

: From your vantage point, you didn't see his mouth moving as though he was saying anything?

My eyes was really focused on the officer because when he started moving, staggering forward, I wanted to see what he was getting read to do cause everybody was like, he is getting ready to kill him.

: Okay.

So I wanted to see what he was getting ready to do, but Michael was staggering. You could see him clearly staggering, you know. And

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

then when he started like he was going down, he fired again and that's when I said, oh, my God, he just killed him.

: Okay. So I just want to (inaudible), when this was all happening, your attention shifted to the officer, correct?

: I could still see Michael, I wanted to see what he was going to do. I had both of them in line of sight.

: Okay. Is it fair to say that Michael was more, just based on how you are describing it and the visual you just gave me, is it fair to say that Michael was more in your peripheral vision at that point?

: Both of them, both of them. From my vantage point, I can see both, okay. But to say, now I'm trying to make this as clear as I can. I can see both of them, but as Michael was staggering toward him, you know, trying to keep his balance, as he was moving forward, you could see, I could see the officer stepping back.

When he took those steps back and Michael was staggering forward, I thought, oh, my God, that's when they said he is getting ready to shoot him. Sure enough, as soon they said that, he let

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

loose.

: That's when you all are yelling stop, stop, stop, you wanted Michael to stop?

Yeah, we wanted Michael to stop. They anticipated in a split second, , he's getting ready to kill him.

: Let me ask you this, . On August 12th, I want to take you through what you said at that time.

You said as he faces the officer, this is Detective asking you this, as he faces the officer, you say that his hands go up to a point where you said about to his shoulders almost.

Right.

: That's when he has his palms sort of facing himself and he's looking over his body?

When he got first shot and he got to the driveway, his hands were up facing himself because he was looking like at himself.

: Right, let me --

When he turned around.

: Uh-huh.

He gave up, his hands was up

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

to the shoulder, that's when he went up facing the officer.

: Okay. You went on to say back on August the 12th, Detective says, your arms are like palms up and hands and fingers are roughly shoulder height, is that fair enough to say?

You say yeah, about close to his shoulder. Do you agree with that?

Yeah, yes.

: With his palms facing towards himself like this?

No, not turned, his hands are like this.

: No, I'm talking about --

They're not, excuse me, what you are saying, the hands are pointed toward him, they were not, I didn't say they were pointed toward him. I said his hands were like this. I described it. I didn't say they were pointed toward him. The only time I said his hands was anywhere near is when he first got shot.

When he turned, they were this way.

: All right. Let me just take you through this, okay, and just see if you agree with this. On August 12th, Detective asked

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

you, your arms are like palms up, and hands and fingers are roughly shoulder height, is that fair enough to say?

You say, yeah, close to his shoulder, right?

Uh-huh.

: And he asked you at somewhat of angle? You say at 35 to 45 degree angle from the body. About like this, and you have the palms up, right?

: Oh, yeah.

: And you say he is standing there, he looks, he looks down looking at his body. That's where you're saying you thought he was looking to see if he was shot?

: Right.

: Okay. And then after that, you go on to say that Detective asked you, Michael Brown is standing facing the officer at this point with his hands at his rib cage. And you say, yeah.

And Detective says hands, palms up, like at his rib cage.

And you say, uh-huh. Does that sound right?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Yeah.

: On basically when Michael Brown, this is what he asked you, Michael Brown is standing facing the officer at this point with his hands at his rib cage, and you say, yeah.

Detective says hands, palms up, and you say uh-huh. Is that the way you recall it today?

Yeah.

: And you go on to say, or Detective asked you, and he was looking down at his body at some point. You already told him he was looking down at his body. Detective says, he was looking down at his body at some point, and you say right, right, uh-huh. Okay. All right.

Is that the way recall it?

Yeah.

: Okay. Just to be clear too, we talked about when you thought that the officer must have said something to Michael Brown because Michael Brown then approached the vehicle, that's when you saw the tussle.

So you actually saw Michael Brown come to the side of the vehicle, he approached the side of the vehicle?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Right, he wasn't that far from me.

: Okay.

His friend was still, when he looped around, Mike was still in the street, his friend had backed up. His friend had actually --

: That's when he goes to the sidewalk?

Yeah, he steps back, you know.

: Let me ask you this. had asked you this a little while ago about, and you sort of were very clear about where everyone was. But she had asked you about when the officer went after Michael, where was his gun at that time, or could you see it. And you corrected her and said, well, he just went to the back of the vehicle and assumed his stance.

: When he came out from around, he must of already pulled it out of his holster as he was coming around.

: And that's what I'm wondering. Could you see that, could you see where the gun was before he assumed his stance?

It was in his hand and he

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

brought it up.

: Okay. Before he brought it up in a stance, it was in his hand.

: It was in his hand.

: You are directing like out by itself?

Right. He's pulling it out and as he came around so he could get a line sight on Michael, he whipped his hand up, gun is already in his hand, put it in his palm and aimed.

: Shortly after that he said stop?

: He said stop. When he said stop, Michael had already stopped.

: Uh-huh.

When he turned around, he said stop again. When Michael took another step, he said stop. As he hit the street, after he said stop, he fired. That's when he started staggering around. You could tell he got hit the way his body jerked, okay. And as he was coming forward, trying to keep his balance, I guess keep from falling, he couldn't stand. He was trying to get hisself in a position, I believe, so that he could stand up.

As he took those steps, the officer took

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

about two, three steps back. As he did that at the same time, he yelled stop again. Michael was then, you could tell he was about ready to fall. At the angle of his body, torso practically straight, knees wobbly, but the torso was almost at a 45 degree angle, his hands are slowly coming down.

: His hands were coming down?

: Right, coming down.

: And he was bent toward the officer?

: He was bent toward the officer.

: Let me stop you there real quick. On August 12th, again, I want to take you back to what you said. Detective asked you where you describe exactly this point, Detective asked you, and where are his hands at this point.

And you say, after he hit him with the three shots, they were down.

Right.

: Detective says, okay, where at?

You say, down beside his body like this. And then he says, you were basically putting your

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

hands down at your side.

And you said, yeah, they, like they were down.

: Right.

: Is that the way you recall it today?

: Right.

: That was after three shots?

: After the three shots.

: Because he was going down?

: Yeah, he was hit. As he was coming forward, he was trying to maintain his balance.

And I know this, I've been shot, all right. I've been shot in the leg, so I know how it is to try to get your balance.

And as I try to make this perfectly clear, his torso was straight, knees wobbly, but his upper torso was bent and he was still, kept his focus on the officer.

: So to be clear, from your vantage point, and I don't want you, I know you were shot so you know how it feels to be wobbly. From what you could actually see, Michael Brown was focused on the officer, correct?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Uh-huh.
He was bent forward, correct?
: Uh-huh.
: Is that yes?
Yes.
: Okay. His arms were at his side at this point?
: Right, right.
: He was moving toward the officer?
Right, very slowly and wobbly.
And the officer had said stop?
Right.
: At that point, Michael Brown hadn't stopped; is that correct?
: It looks like he was falling. He was staggering, he was staggering, trying to stay up. Okay.
He was shot, he was hurt. He was trying to keep up on his feet. He wasn't going toward the officer to try to get to him. He was trying to stand up. He was trying to maintain hisself, but you could see his body was giving out. And the angle his body was, when he told him to stop that

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

last time when he's looking at him and that's when the comments were made, he's getting ready to kill him.

And no sooner than they said that he was going like this, his body was coming like this because he wasn't even looking and he fired. That's the only way he could have hit him in the head, the only way. He was already on his way down. The man was unarmed, you had already put three to four shots in his body.

Granted, he is a big boy, but he was hurt, he was hurt.

: And this is the point right before that, that final shot you refer to --

: Right.

: -- trying to tell him to stop?

Right, right. When he fired off that last volley, he hit down face first. I've got a very hysterical who has never seen anything like that in her life. My sister-in-law is going berserk. My brother and I look, we didn't even see the other officer, he had just moved away.

Our focus, our focus is So when I got , he got his wife and got them, took in

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the apartment, got them calmed down, I came back out, I left and I ran up the street because I wanted to see what happened, not what happened, but to see him, you know, just some visible reason I wanted to see the body. As I got there and close and I saw his face, I knew who it was.

: You talked before too about at that point people started coming out from everywhere?

From everywhere.

: Can you tell us about that, what was going on at that time?

They all, they running out, from my vantage point I can see every apartment on the opposite side of the street. The gentlemen who were working, my apartment, my bedroom, I can see them and the apartment that they are working on and I'm watching them. They are making a lot of noise, but anyway, from the front of my house, I couldn't see them. I knew they were there, I knew they were there. People on my side and my street, no one was there.

The immediate apartment building where he was shot, I couldn't tell if anybody was up there. The apartments that are already in the back of the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

driveway where he was stopped at, where the memorial is, I didn't see anyone on this side of the street in my sight.

The other part I can't see that.

: Just tell me about when you went out there, you know, you mention people coming out from sort of everywhere from the back of the complex.

: From the back of the complex, from everywhere.

: And you talk about August 12th, the one reason you came forward is in your own conscious you wanted to make sure the family got the truth about what really happened, that is why you decided to come forward?

Yes.

: You were concerned about what other people were saying. What were you concerned about?

You have to understand out there, they were looking for anything. Majority of them that came running out from the other sides and the back, those three or four gentlemen that run up, oh, he had his hands up like this.

: Like straight up in the air?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Straight up in the air.

: With his palm facing the officer?

Yeah, we were standing, no. The gentleman that was besides us, the workers, no. We knew that. And then you could see, you have to understand the mentality of some of these young guys. They have nothing to do. If they can latch onto something, they embellish it because they want something to do. This is something that give them, okay, now we have something to do to get into.

I've lived out there off and on for almost years. Majority of them do not work. All they do is sit around and get high all day. That's it, and just talk stupid. And they had that there, when we was standing there, someone at the top of the hill, I had got back to my porch, someone at the top of the hill, my brother and my sister and , I had back on the porch when I came back, fired off some shots. The officers heard it and they started running, okay.

Everyone that was on the other side of the street started pointing, where did it come from, everybody started pointing. We had two people, never seen these people before in my life in the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

whole time I've been out there, came up, you all better not say nothing. You all snitching and all of this and that upset . : They said this to you . They were talking. I was looking at the officers. was down there and I happen to turn when said like what, what. You know, I was like, wait a minute, I said turn around, everybody was still doing this. But she and this other girl had made a point to say something to . To ? Right. : About not snitching? About not snitching. Two females? Yeah, I'm like what? And I told the girls, I tell you what, you all used a very derogatory term, turn around. Everyone is pointing that way, you know. For three days I had to deal with because that shook to the core, just not use to anything like that. : Can you explain this, what prompted these girls to come over to ? Because everybody was

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

pointing, you know, when they heard the shot. I was pointing. Where did it come from. I said right up there.

: Because you were telling the police where the shot came from?

Right, but the thing was, the whole crowd was pointing up to the top of the hill. And I'm like, wait a minute, they single out and wasn't even pointing.

I understand, okay.

: Okay. So the thing is, I live there, when it comes to saying certain things, I've got to protect I don't care. I'm sorry that happened to Michael Brown, I'm sorry for his family's loss, but I have a , that's number one. I don't care about nothing. I really wasn't going to say anything. I really wasn't because I got to protect and scared, was scared for three weeks, she was scared.

: Let me ask you this, before whenever we was talking about people coming out and hands up in the air, you said there were workers nearby who were saying hands in the air?

No, no, no, they didn't say

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

that.

: What did they say?

: They said the same thing I said and my brother did. His arms were shoulder length, just above his shoulders.

: Can you describe these workers?

: They working, they are plumbing, some plumbers.

What they look like physically?

: Younger, white hair gentleman and --

Both white?

Uh-huh.

: But they were actually there with you correcting all of these other younger people?

No, everyone did that. It wasn't until a couple days later, because I saw him when I was out there watching everything going on. I saw him talking to a couple officers, but he was talking to a plain clothes detective and a Ferguson officer, I think, I'm not sure. I couldn't see, but I know he had a blue shirt on, Ferguson wears blue shirts. I assume it was a Ferguson officer and the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

other gentleman was in a suit.

And he was talking to him. The younger guy, he was like, oh, he was going nuts, you know, but the older gentleman was talking about what he saw.

A few days later because he was coming around and doing something on every building. And he gets out, eventually said, yeah, everybody out there talking about the poor man had his hands up in the air. He said, I didn't see that, he said, did you see that? I said, no, I didn't see that. So the young guy say, he was with him, I didn't see it either.

: These are the two white workers that you are talking about?

: Yeah, right.

: They were back there a few days later and talked to you personally?

: They didn't talk to me, just in the course of conversation they were working on our building.

: You were there and had that conversation?

: Right, right. I'm standing there, he come down there and working on the pipe.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

I was barbecuing, that's how the conversation started. And we got, he said, man, I'm so shook up and everything else about this and that. He said, well, it got crazy all of these guys over there, everybody running around, they're talking about the man had his hands all the way up in the air, he didn't. Did you see that? I know you saw it, didn't you? I said, yeah. He said, did you see what I see? I said, yes. He didn't have them all the way up. And we both, at the same time, same position, okay. Young guy quit after that. He said, I'm not coming out here.

: You said there was a lady with you during this conversation?

Older lady, she didn't see the incident though.

: Who is she?

: She's the downstairs lady.

: Was there any other conversation within that day about this?

: No, uh-huh. All he had to do was connect the pipe. They had missed a connection on the pipe and then we got to talking about barbecuing, talking about, started talking about other things. He lived in Jefferson County. He

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

said how bad it is down there, you know. Now I have to come here, stuff happens everywhere.

: Everywhere.

You know, he said, this was crazy, you know.

: Did he have anything else to say about it, anything crazy about it?

No, that's just the way the people reacted.

: Let's go back to that. You first started talking about the two white workers that were there when you first came down.

: Uh-huh.

: People were coming out and saying all kind of things. And you talked about people talking about him having his hands straight up in the air you kind of said, no, that's not what I saw.

Uh-huh.

: Maybe I misunderstood. Did you say also that the workers were down there at the same time saying, no, we didn't see that either at that time?

No, he didn't say that at that time. When I came down after the shots were

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

fired and everything else, I came back down because the crowd was big, it grew in a split second. I walked down to the edge of my driveway and I looked over to see the building, I can see the building they are working on from my bedroom window.

He was talking, as I said, he was talking to a detective because his car was parked up on the grass on my side of street. And another officer in uniform had on a blue shirt. I didn't see the insignias, but I'm just saying that because Ferguson wear that types of collar, that may be a Ferguson officer that I had not talked to that man at all that day.

: Okay.

: I did not speak to him.

: All right. Let's back up a little bit then. When you come down and there are people saying things that you didn't see, how quickly after those last shots were fired was that happening? I mean, where people were actual actually saying things like that?

: After he hit the ground, I would say it took at least about a minute.

: That's when the crowd starts to gather, it was like an instant?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

In a minute, maybe 20, 30, two, three minutes, at least be about 70 or 80, it grew.

: Not just the crowd, but people talking about saying things that didn't happen?

: Right, right. They start embellishing it when the stepfather showed up.

: When, I'm sorry?

The stepfather.

: The stepfather.

He's the first one that I later found out, I didn't know it was the stepfather until a few minutes later when he approached. They had started the tape up and he was trying to get to him. Oh, you know, my God, yeah, he was screaming and hollering. And the officer is trying to calm him down.

And then I saw his cousin, a little girl, she has blond hair, she ran up the street. They all came from Northwinds. That's where the majority of the crowd came from.

When you say they started embellishing, what did you hear?

Oh, the officer ran up behind

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

and shot him in the back.

: That's not true?

Not true.

What else?

: He hads his hand straight up in the air, not true. Then some guy, I don't know who the heck it was, I had never seen him before, he came out of the blue. He was coming out saying that Mike had reached in and got the gun out of his hand, not true.

: You mention on August 12th that after that it was everyone started coming from the back saying, oh, my God, he had his hands up in the air telling him don't shoot, don't shoot, don't shoot. And you said he never uttered a word, right?

: Right.

: Referring to Michael Brown?

I said that I could hear.

: Right, right. Just what you saw and heard.

That I could hear.

: And you went on to say, that's when everyone come back and all of them started saying things, oh, he was on his knees.

Yeah.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: When he shot him, he shot him on his knees?

: Right.

: And then he came by and they said he was lying down and the officer came and shot him in the head.

That was false.

: None of those things happened?

None of those things happened, none of those things.

: I also want to ask you, you said early on when we were talking you saw Michael Brown earlier in the day?

Uh-huh.

: Can you describe your interaction of what you saw?

: Me and the lady was sitting outside, sitting on the step. She was sitting in her chair on the lower level and he come up, instead of going through the driveway, they cut across the grass right there.

: When you say that was he with his friend that he was there during the incident?

: No, he was with some girl. I

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

never seen her before either. And he came through and he say, how you doing, sir, how you doing, ma'am. I said, how you doing. I said, you all doing okay? Yeah. He said all right, looks like it is going to be a good day. All right. And he walked up.

: About what time was that.

About, it was early. It was early. I don't know, probably around 8:00, somewhere after 8:00.

Did you see him at all that morning.

: Next time I saw Michael he was laying on the ground, or the street.

: Have you seen that girl he was walking with, have you seen her since.

: I think I have. I can't say 100 percent sure. I wasn't paying too much attention to her. He was talking to me. You talking to me, I'm looking at your face.

: Do you know her name?

No, no, I don't know.

Let me ask you.

: I don't want to know anybody else.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Let's talk about that. You talk about the things, the crowd grew and the young guys out there saying things that were not true. August 12th, you said something about this, I want to ask you about it. By living out there if you go against what they are saying, you think they might nut you up and go crazy. What do you mean by that?

They had it in their mindset of what happened. They're set. They are looking for a reason to explode because they don't have anything to do.

Why, why look for a reason to explode?

They got nothing else to do. They are running all day, they are drinking and they're getting high all today. We see this all the time.

We have been on Canfield Green apartment management to get all the drugs out of there. Okay. All the time. Northwinds got so bad they put gates up. When the gates up, the crime went up. You know, I don't trust anyone out there.

They all walking around with their pants below their butts and everything else, no T-shirts on and they are so strong they will stand right

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

there in front of you and roll that stuff up.

I had to run two of them off my porch who and came and sit on my porch while and grandkids are inside, I'd been to the doctor's office. (inaudible) They are sitting on my porch, on my chairs rolling up their blunts. That's how it is.

And if they strong enough to do that and they feel you are going up against them, huh-uh, never, I've got I have to protect.

: What would happen to somebody like that?

Oh, shoot, they'll jump you, they'll jump you.

: Do you think that's the general feeling there if someone say something to either us or the local police, goes against what they want, that they will go against them.

I think now as it is getting longer in time, the majority of them in our neighborhood, my community, want the truth. It is that outside forces that are coming in. When they burnt that thing down yesterday, 80 percent of the people were from the city, not from there. Cars were coming in, the parking lots were full. That

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

lets us know immediately this is not Canfield, this is not Ferguson.

: You mention the burning down issue, the memorial?

Yes.

: Did you see that?

Oh, yes.

: What did you see?

: I was standing outside in the morning, I come out every morning, step out, try to smoke a cigarette outside. I stepped outside, there was a gray car and a red car, I mean, a white and black car, sorry, sitting there. A gray, dark gray, charcoal gray car pulled up there, now there's three of them.

The first two, they were taking pictures. In fact, a girl was in the white car, she got out and stood on the driver's side, took a couple pictures, got in. And I saw those two drive off.

The charcoal gray car pulled up beside it. I said, oh, I forgot my cigarette butt, I left it on the kitchen counter. So I walked in, I got it, I came back out, I left and I walked to the other side of the porch, just look around, I like to look around, see the cars and see who is out and

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

everything else. By the time I reach my door step, my front door, he gunned it or she gunned it or they gunned it and the car peeled off.

Next thing I know, whoosh.

: It shot up?

It just blew up and there wasn't no slow flame, it just whoosh.

: You talking about the memorial?

Yes.

: Did you see anybody go other and do anything?

: I didn't see anybody. They could have done anything from the car window. They could have threw something out of the window. But that was definitely to me an accelerant because the way the fire went up, it just went whoosh. It wasn't a slow burn. I mean, they talking about a candle, candle, most of that stuff was wet.

: Okay.

: Most of it was wet.

All right. We are going to leave this running.

I'll talk to myself.

Okay.

: We'll be back in just a

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

minute, thank you.

MS. ALIZADEH: There is no conversation during this break, so I'm going to try to fast forward it, it is not long.

: All right. , I don't think we have much. We don't want to take up a lot of more of your time. We just have a few more questions for you, okay.

My understanding is before we took the break, you talk about one concern you had, obviously, after this shooting occurred, people coming out and saying things that were not true based on what you saw, correct?

Yes.

: One of those things these young men coming out saying that Michael Brown had his hands all the way up in the air like surrendering at the time that the shooting was going on; is that correct?

: Right.

: You didn't see that?

: I did not see that.

: Okay. I just want to clarify that. If I could, I referred you to some of your statement on August 12th and I just want to

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

make sure that I understand your statement then and now, okay. And if you like, I have another copy here, you can refer to if you want to or I can read you these portions, is that fine?

: That's fine.

: Okay. At the bottom of page seven it said, you are referring to Michael Brown, you said that he had like one foot on the grass and one foot on the driveway, which you told us today. And then he turned around and he was like this. So that is why people thought he raised his hands, and I think you are talking there about people claiming that he had his hands raised. You said he did something like this, is that what you are referring to him looking at his body?

Looking at his body. And I stated there they embellish, they embellish.

: Okay.

He had them up, to make it clearer that he was giving up, they went from one, which is what I saw to something that they probably, they assumed he did and stuck them straight up in the air.

: Right, okay.

Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: And so when you were demonstrating that he turned around and he had his hands like this, that is why people thought he raised his hands, you're talking about when he was looking at himself to try to determine whether he was injured?

Right.

Okay. And you said you went on page eight, you said he looked down and then he did this, and he looked at the officer and he walked and he took about three to five steps. He hit him again, pow, pow, pow. So you were demonstrating there again and then as you went on, Detective made an effort to kind of narrate the way you were demonstrating on the tape, do you recall that? Back on August 12th, when you were demonstrating for him he was kind of narrating back to you so it would show up on the tape, do you recall that?

I believe so.

: Okay. On page 17 of your statement you said as he faces the officer, strike that.

Detective asked you as he faces the officer. You say, uh-huh. You say that his hands go up to a point. Where? And you say about to his

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

shoulders almost.

And then you go on to page 18, and you say like this. And Detective says, kind of raised? And you say he had his hands up like this.

And, of course, you can't see that on the tape so the detective narrates and he says, your arms are like palms up, and hands and fingers are roughly shoulder height, is that fair enough to say?

You say, yeah, about close to his shoulder, yes, uh-huh.

Not in the position that you got.

: Okay.

: When I said it, I said like this, not like this. They were close to the shoulder, yeah, about shoulder height.

: About shoulder height?

About shoulder height.

: With palms up?

His hands were out, his arms out away from the body, not like this. His were out like this. Away, they are away from his body.

: Okay.

: Not like this, not like this, not like this, they are away from his body. This is

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

my shoulder, this is exactly how I showed him.
Okay. With the palms up?
: Palms are up.
: All right.
: Nothing, I got nothing, I'm giving up.
: Okay. You say that they are about close to his shoulder and Detective says they are at about somewhat of an angle. And you say, what would you say, a 35 or 45 degree angle from the body.

And you go on to say on page 18, he's standing there and he's looking, he's looking down at his body. And he looks up at the officer and you say, he looks up at the officer and by this time he was standing facing him after he turned around in this position.

On page 19 you say, Detective asked you, Michael Brown is standing facing the officer at this point with his hands at his rib cage. So now his arms are further down, his hands are at his rib cage?

After the shots.
: Okay.
: Someone left out it was after

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the shots.

: I just want to make sure.

The first volley of shots?

After the first volley of shots, his arms came down because he was staggering. Like he was coming, as he got hit like, oh, shoot, he was staggering around, all right.

They had to come down a little bit, they were coming down. Like I said, when they weren't at his body, I didn't say they were next to his body. He asked me a question, I demonstrated and he said something that his narration is not what I showed, okay.

: The narration is not?

: Whatever he wrote, I don't know, he just stated, yes, but his depiction of what I said of what I showed him is incorrect.

: Let me just finish running through it, okay, and we can talk about it.

Okay.

: Bottom of page 19, Detective says, Michael Brown is standing, facing the officer at this point with his hands at his rib cage. And you say, yeah.

And Detective says, hands, palms

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

up, and so they're at his rib cage, palms up.

And then you say well, they weren't up against his rib cage, it was out because he was looking down, slightly away from his body.

: Uh-huh.

: And Detective says that he was looking down at his body at some point.

And you say, right, right, uh-huh.

And then you go on to say on page 20. Detective says, is anybody saying anything at this point?

And you say the officer as he raised his head, he told him to stop. As Michael Brown raised his head, the officer told hold to stop; is that right?

Right.

: And he says, as Michael Brown raises his head? And you said, as he raises his head, he says stop right there. He asked you, the officer says this? And your response was, yeah, he did say stop. And when he left from that fixed spot, then he was walking toward him.

And he asked you, towards the officer?

And you say, towards the officer. When he, as soon as he put his foot on the street, he hit him three

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

times.

And he asked you like, how many steps do you think he took before the officer fired? He said, big boy, he didn't take that many steps, I really couldn't count, yeah.

And so that's the first volley that he has his hands down near his ribs at the time of the first volley?

: Right.

: Okay. I just wanted to make sure of that. That's why I wanted to ask you about this, sir. You know, there were three or four times where Detective , or you went back to when Michael Brown turned around and where his hands were. And on August 12th, I mean, there wasn't even any mention with him having his hands up with his palms facing the officer or all the way up.

: I didn't say, when he turned, his hands was up, he was looking down to see where he was hit.

: Uh-huh.

: His back was turned like this. As he was turning around, still looking, when he faced the officer, there they were.

Above his shoulders now?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

No, they are right by his shoulders, right by his shoulders.

: On the 12th you only describe him as having his palms up toward the sky, right?

No, I did not say that they were pointing up. I said, his hands were up like this. I didn't state palms towards the sky.

: All right.

If you go say that, no, no, no, no, I never said pointed up.

: This isn't something he wrote.

I didn't say pointed up toward the sky.

: Detective asked you, your arms are like palms up and hands --

: Palms up?

: -- with hands or fingers are shoulder height?

Isn't this up?

: Palms up, right?

Is this up? I've got them down like this now, this is my depiction of up, not like this, this is my depiction.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: All right. One thing that concerned me though is that people are coming forward and saying that he had his hands up.

: Above his head.

: Above his head.

: Like this, all the way up.

: All right.

He didn't.

: But consistently as it is described on August 12th, you have your palms up, right? And not facing towards the officer, but palms up, correct?

Right. When he turned to face the officer, his hands were in this position.

: Okay. With his palms facing out, sir, or were the palms facing up?

This is what I consider up.

So you consider this up?

: We need to be able to describe this for the tape, that's --

This is facing forward, to clarify?

Well, he was facing up then facing forward.

Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Not like this. They were facing him, hands u like this is my hands palms facing the officer they weren't like this pointed towards the sky. They were pointed toward him.

: That's what I wanted to ask you is because on August 12th, I mean, you never said anything at any time about his palms actually facing the officer.

I said his hands were up. I never said his palms were facing the sky. I said his hands were up, about shoulder length, arms out away from the body, that's what I said. I'm going to stick with that because that's what I saw.

: Before the first volley though, his hands were coming down towards his rib cage?

Yeah, he was looking for them, he's still looking like. He's searching to see where he was shot. His arms were like this.

: All right. Now you have your palms sort of facing --

Right, like this. He is searching his body and looking at his arms and everything to see where he was shot.

: All right.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: When he turned around and faced the officer, I'm going to say it again, this is what I saw. His hands was up shoulder length, palms facing the officer, not up toward the sky. That is my definition of palm, hands up, okay.

Now, when the people down the street demonstrate they say hands up, they are like this. Not like that, but like this.

: Hands straight up in the air?

Right.

: And that didn't happen?

: No.

And just to clarify there, you were then demonstrating that after he turned around, his hands come back down towards his rib cage and you were demonstrating, I want to make sure this is clear for the tape. If you don't agree with what I say, correct me, and I know that you will.

Uh-huh.

: When his hands come back down, you're demonstrating that his palms are then sort of facing towards himself as he is looking at his body seeing if he is injured?

: Right, still looking, he's

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

looking again.

That was immediately before that first volley of shots?

Right.

: And that was at the time that the Officer Wilson was staying stop.

He had already stopped. He was looking, he was turning around, still looking. The officer said stop, he was turning. Okay. He's doing this, my back is to the officer. He is looking at his body like this. And just as he started turning, the officer said stop and he was still looking.

And then he looked up, and when he was caught looking at the officer, his arm proceeded to go out like this. Palms away from, facing the officer, arms away from the body, palms facing in I give up stance, I give up.

The officer again says stop. He wasn't moving, he took a step up. He stepped out on the street, his hands were still in the exact same position, palms facing up, arms away from the body and he shot him.

: Now, you just said though that before he shot, before that volley, his hands

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

had come back down towards the rib cage.

He came down, right. He still turned around before the shots, he looked up and as he faced the officer, his hands went up. He was still doing this as he was turning, looking at hisself. He was checking his body out to see what was going on it.

As he turned, I'm looking, I'm turning, I'm looking, his hands like this.

: You have your hands and your arms --

Right, like this. It was away from the body, palms are facing like this.

: Palms are facing towards his own body?

Okay. I'm looking up, I see you, you're the officer. His arms went up. That's when I demonstrated to him as I was standing there, okay.

Now, he asked me a question, yes. Hands were up, that's it. This is what I say hands were up. Not this. Every depiction of everything that these people are doing out in the street so far, photographs and T-shirts, hands up. Not palms up, hands up.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: The hands straight up.
Right.
: That's what they are saying.
My definition what I saw his hands were up like this, same way.
: Shoulder height?
But only they were here.
All right. But if I understand correctly, what you said today and what you said on August 12th is, he then takes a step or two forward off that curb.
Uh-huh.
: The officer was saying stop again.
: Uh-huh.
: And at the time of that first volley, his hands had come back down towards his rib cage where again he is looking to see if he had been shot.
I have to say he already had them down. As he turned, he started to face the officer, his hands were up. They didn't come back down again until after the volley was fired.
: The first volley?
: The first volley.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: I know we went over that at length. So now, so tell me (inaudible) if so he's running away, he stops.

: Uh-huh.

: I'm looking around, seeing what's going on. He turns over this shoulder?

No, turn your back, you are looking at yourself.

: I'm looking at myself, okay.

: All right. Now slowly turn to me during the same thing.

: Over this shoulder?

: Whatever. And then as you turn and you turn around and face me, then your hands go like this.

I go like this. A round of shots go off, his hands are still here.

His hands are here and then he steps forward, stop.

As he's turning around, you said going like this, does he take a step forward?

: As he did that, he took a step forward, he said stop, but his hands was up by the time he said stop.

Stop.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

: He took a step, he was out in the street. When his foot hit the street, bam, bam, bam.

: So that's the first. So then where do his hands go?

He is like this, he is like this, they moving down.

He started doing this?

He didn't really tell, but he got hit.

You show it was kind of like a round.

It was like, oh, and then he stopped. And then he was staggering to stay on his feet, I'm staggering to stay on my feet, you're the officer.

Yes.

I'm staggering to stay on my feet and then I raise up like this, my hands are still in this position.

Okay.

All right. I'm staggering, I'm like this, I'm falling forward, I'm just staggering towards you, I'm coming towards you.

: Okay.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: He takes three steps back as he started staggering. He's still in the position. When he started staggering forward, he let loose again.

But he is staggering forward.

That's how he was. He was barely up. He was trying to keep focus on the officer.

: When you say he fell, he didn't hit his knees, he fell face first.

: No, face first.

: The whole time he never moved his hands down like this?

They were coming down as he was falling.

: His hands could have been at his side when he fell?

It could have been.

Okay.

: Let me ask you one more time, they weren't --

: They weren't up under his body.

: You say on August 12th, you said Michael Brown standing facing the officer at

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

this point with his hands at his rib cage or Detective says that and you say, yeah. And he says, hands, palm up and you say uh-huh.

And he was looking, he says he was looking down at his body at some point and you say, right, right.

You said the officer as he raised his head he told him to stop. He asked you, as Michael Brown raised his head. You say as he raises his head, he says stop right there. You say the officer said this. And you say, yeah, he did say stop and he left from that big spot that he was walking towards him.

And he asked you, towards the officer? And you say, toward the officer when he, as soon as he put his foot on the street, he hit him three times.

How many steps do you think he took before the officer fired? You told him you didn't count it.

So what you indicated there was at the time he takes the steps toward the officer, and the officer says stop right there, and then fires that first volley, you say that just before that, Michael Brown is standing, facing the officer at this point

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

with his hands at his rib cage, hands, palms up. So this is while he is looking?

: They are about like this. Yeah, but they're not, they are like this, they are up.

That's fine. On August 12th you said that at the time --

: Right.

: -- the first volley happened, he was facing the officer with his hands at his rib cage hands, palms up. Is that accurate? Is that accurate what you said?

Yes, uh-huh.

: And then that's the first volley of shots?

: First volley.

: Okay, I think I understand. Hands up, no matter how you say it, hands up.

: At his rib cage.

Right, about right in here. He's a big boy.

: Right.

: All right. He had definitely given up.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: The hands are at his rib cage at the time of the first volley of shots?

Right.

: And with his hands, with his hands --

Away from his rib cage, away. Not at his rib cage, away, his arms are still extended.

: Okay. So you have your hands kind of out by your sides now.

Is this my rib cage?

I'm just trying to understand for the tape. Your hands are now, they are lower now, hands down by the side.

All right. (inaudible) The ribs.

: Is it fair to say that at the time of that first volley, Michael Brown is standing, facing the officer, with his hands at his rib cage, hands, palms up. Is that yes?

: I don't like the phrase palms up because when you say palms up, I'm saying his hands are like this.

: all I'm doing is asking about your statement on August 12th.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Okay. I didn't say palms up. Hands up. I never said palms up.

: Okay. Well, repeatedly on August 12th it was palms up.

No, I said hands up, I never said palms up.

: All right, that's fine.

I said hands.

: I don't think we have anything else. I just wanted to clarify that and make sure what we have here, but what you've indicated though is what you said on August 12th was accurate and that is at the time of the first volley he had his hands at his rib cage; is that right?

Yes.

: Okay.

Okay. So the interview is completed 11 (inaudible).

MS. ALIZADEH: Okay. It is 11:33, we just completed playing the recorded statement of that was done by the FBI. Just making a point of saying on the record that they took a break during the interview. And I did fast forward through the break because there was no conversation during that time period, so we went forward to where

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the interview resumed. Would you all agree with that? You heard resume the interview, correct, all right? Everybody is shaking their head, okay.

So we have here. Are we ready to bring him in? Everybody ready?

Anybody need to stand up, go to the bathroom? Let's take a two minute break.

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Would you please state your name and spell it for the court reporter, please?

A .

Q And, , I'm going to walk back here because if I can't hear you, and I have actually not the best hearing in the world, but I know we might not be able to hear you. The microphone that is in front of you does not amplify your voice, it is recording.

So, and if any of you at any time

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

can't hear what he says, you need him to repeat something, please raise your hands.

So, can you tell me how old you are?

A .

Q And where do you live?

A .

Q That's in the Canfield Green Apartment Complex?

A Yes, it is.

Q And how long have you lived there?

A Uh, about years.

Q And back in August of this year you were living there; is that right?

A Yes.

Q And you lived there, I'm not going to ask you the names, but you lived there with ; is that correct?

A Correct.

Q And I'm going to show you, this is a laser pointer. So there is a little button right here and there is a map that is next to the witness stand. It is marked Grand Jury Exhibit 25. We have been using this for the past few meetings.

Do you recognize this as being the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

streets and the buildings that comprise the apartment complex of Canfield Green?

A Yes.

Q Okay. And just to situate yourself, this is Canfield Drive that goes all the way through the apartment complex, correct?

A Correct.

Q I will tell you over in this direction is West Florissant?

A West Florissant.

Q As you are going down Canfield in this direction you are going east and then the Northwinds Apartments are east of the Canfield Apartments, would that help orient you to how this is set up, correct?

A Yes, uh-huh.

Q So now can you use the laser pointer and point to what building you were living in in August?

A Right there. (indicating)

Q Okay. And so just so we can understand these buildings, these are apartments; correct?

A Correct.

Q Do you have to enter the building before you get into your apartment or does each apartment have an exterior door?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A We have a porch, you walk up the steps, I stay on the second floor and I go through the door.

Q So from the outside of the building you walk up exterior steps?

A Yes.

Q And then your front door is on the exterior of the building?

A Correct.

Q And so is there like a little, is it wooden steps?

A Yes.

Q So is there like, uh, you said porch, like a little decking area?

A Yeah, a little small wooden porch.

Q Okay. And that's right where your front door is?

A Yeah, off, go from one side of the building, from one side of the steps all the way up, one continual porch.

Q So where you were pointing before, this little jet out on the roof of the building.

A Yes, there are steps right here. You come around and you go up these steps.

Q Okay.

A This is the overhang right over the steps.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay. So this part is like an overhang that covers the steps from the elements?

A Right, yes.

Q And so you said that the decking or the porch, some people call it a balcony?

A Right.

Q It goes all the length of the building?

A Yeah, right. It spans almost halfway between where I am now where the red dot is and the end of the building, so just to about the middle.

Q Okay. Are there other apartments front doors on this side of the building?

A Mine is on this side, this is this is and the third floor and

Q If this is the west side of the building, there is other front doors is what I'm saying.

A There's one more.

Q Okay. And you all share that balcony then?

A Correct.

Q And you said you are on the second floor?

A Right.

Q So is there another way to get out of the apartment besides the front door?

A No.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q No slider, no glass or anything?
A Well, we have sliding glass doors, excuse me, other than the front door that opens out onto the porch. So we can get a breeze.
Q Okay. So you can go out onto the porch through the sliding glass door?
A Correct.
Q As well as the front door?
A Yes.
Q Okay. And so, um, from when you stand, now, is there any furniture on your porch?
A Yes, I have two chairs and a table.
Q Do you have a habit or just something you like to do is to sit out on the porch?
A Yeah, I like to sit out on the porch early in the morning. Sometimes, especially when the kids are going to school I sit out and keep an eye on them. And I have a neighbor downstairs who lives in the lower level and sometimes her and I sit out and talk, you know, since I'm collecting Social Security, I don't work and she's retired, and keep each other company, just keep an eye out.
Q Okay. And just, again, so I'm clear, does this porch or deck or balcony, whatever we are calling it, does it wrap around to the other side of

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the building?

A No, it doesn't.

Q So when you sit on your chairs, are you north of the little staircase?

A I'm right here. (indicating)

Q Okay. And so from that position when you are on your balcony at that position you have a good shot down Canfield?

A I can see all the way down to this end. Almost right to the bend.

Q Okay. So now, let's talk about the 9th of August. You know the exact times are not important, but this occurs a little after noon on the 9th?

A Yes.

Q Do you remember was there anything that memorable about your day prior to that? Do you remember anything happening or special?

A It was normal. I was watching the gentlemen that were working on this side here. They were making a lot of racket, they were doing a lot of plumbing and excavation over here.

My bedroom window is located on this side, so I can see this building completely and I can see up to about right here from my window.

Q Was home that day?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A Yes, was.

Q Okay. Now, we know that other people arrived at the apartment, but in the morning, was it just you and your home that day?

A Yes.

Q And so just to be clear, from your bedroom window, which you say is on the north side of the building, there is no balcony?

A No.

Q You can't get out of your bedroom from there?

A No.

Q Okay. So, and it was a clear day?

A Yes, it was.

Q Sunny and hot, right?

A Right.

Q Do you have air conditioning in that unit?

A Yes, central air, yes.

Q Pardon me?

A Central air, yes.

Q So would you of had your windows closed, I mean, it is August 9th I would imagine you probably have the AC running?

A Well, we didn't turn it on, we like to keep it off for a while. We will turn it off early

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

in the morning and wait until the temperature rises because can't take the cold that much. So I usually wait until maybe 1:00 or 2:00 and then I will turn on the air when it starts to get hot.

Q When you don't have the air on, do you have the windows open or closed?

A Open.

Q How about the sliding glass door, would that be open, do you have a screen for that slider?

A Sometimes has it open, sometimes doesn't. occupies the living room.

Q Okay.

A That's domain.

Q All right. So, at some point, we know that your brother and his wife come over to you and apartment, correct?

A Correct.

Q But at some point there is something that draws your attention to the street, correct?

A Correct.

Q Whatever it is, and we'll talk about it in a second, whatever draws your attention to the street, is that before or after your brother and his wife get there?

A It is practically simultaneous.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay.

A I was looking out the window and I saw two gentlemen walking down, they were right on the middle line walking down the street. I couldn't overhear, but they were saying something to the workers. They were walking in the very middle of the street, which caught my attention.

I saw my brother's truck coming this way, so I got up to meet him at the door. That's what happened.

Q Okay. You saw two gentlemen walking down the middle of the street you say?

A Right.

Q And they were walking west toward West Canfield?

A Right.

Q I mean West Florissant.

A Yes, towards West Florissant.

Q Just to be clear about this, did you see them walking and then do you see them later in a different position?

A When I, as I saw them pass, I saw my brother's truck coming down, I got up.

Q Did you see --

A By the time I got to the door and opened

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the door, my brother had just pulled in.
Q Okay.
A They were located right about right here. (Indicating).
Q Okay.
A They had progressed past this one driveway and they were right about here, almost close to the next driveway.
Q Okay. And now the two men we're talking about, was one of the men Michael Brown?
A I later found out it was, yes.
Q But it is the same person that you later see get shot in the street?
A Yes.
Q And we know, we've heard from your previous statements that you knew who he was from the complex, but you didn't know his name on that date?
A No, I didn't.
Q And you weren't friends with him other than a polite greeting in passing?
A Yes, he has a friend who lives in this building right here. He would come through every now and then, he would speak to me and the lady downstairs or sometimes I see him at the store, at

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the QuikTrip or any of the other stores. He would always speak to me, I would speak to him.

Q But you recognized him as someone you had seen in the complex?

A Right.

Q What about his friend?

A I had never seen him before.

Q Okay. And Mike Brown, we know is a big guy?

A Yes.

Q He was 6'5" or something like that?

A Yes.

Q And the other gentleman, was he shorter?

A Shorter.

Q Skinnier?

A Thin, dreadlocks I think it was, braids, whatever you call them.

Q And so you saw those two guys walking from, they stopped, you saw them talking to the two construction workers?

A Yeah, kind of slowed down, they were talking to them as they were steadily walking.

Q Okay. So they didn't stop and chat for like 30 minutes or anything like that?

A Not for long, I don't think they stopped

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

that long, no.

Q And at this point, other than you saw them walking down the middle of the street, was there anything that was odd to you?

A No.

Q Nothing?

A Nothing odd, no.

Q And so you see your brother driving his truck down and he pulls onto Caddiefield, does he park and he and his wife get out of the truck?

A He parks, almost immediately as soon as he comes in because right behind him was an officer, excuse me, he was coming in this direction. And my brother got out and heard him say something, I couldn't overhear what he said.

Q Okay. Let me stop. You said your brother got out and you couldn't hear what he said. Are you talking about your brother?

A No.

Q Saying something?

A No, by the time he got to the porch, the truck was coming down, the officer's vehicle was coming this way. By the time my brother got to the porch, he was just past the two guys. He slowed down and then he kind of went a little further and

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

then he backed around and he turned around and he came in, like cut them off.

Q Okay. So let's stop. So your brother has got, what is it a pickup truck or SUV?

A He has a SUV.

Q SUV. So he's coming in from this direction, does he pass this Mike Brown and the other kid walking in the street?

A Yes, he had just passed. He had to pass them when he got to my driveway. They were past my entranceway right there, they were about right here.

Q So your brother goes past them, did he have to go like around them, are they still in the middle of street?

A Yeah.

Q They are still in the middle of the street?

A Right.

Q Your brother then goes this direction and you said you see a police vehicle?

A Right.

Q And is it an SUV?

A Yes, it is.

Q And it is a Ferguson vehicle?

A Yes.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

Q And you see it driving in which direction, coming from here?

A Going this way, going eastbound.

Q When is the first point you notice the Ferguson vehicle, where was it?

A When my brother pulled in, he was about right here. (indicating)

Q And you say he was driving this way?

A Yes.

Q East?

A Right.

Q And then does he pass the two guys that are walking in the street?

A I'm looking, my brother's back there, we looked around, him and his wife. He kind of slowed down and said something. And he had just got maybe a few feet past them, right about here, all right, and they were steadily walking. I couldn't hear from the distance, I couldn't hear anything that they are saying.

Q Okay.

A Next thing we know.

Q Let me stop you. Are you now, where are you in your apartment?

A I'm on the my porch.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q By the front door?
A I'm outside my on the front door right at the railing.
Q Okay. And so you stayed, you couldn't hear if anything was said?
A No.
Q And then what happens next?
A The officer backs his car up and he kind of put the car at an angle with the front pointed, okay. Let me see right here. His car was pointed toward that tree, there is a tree right there if you can see it. And I'm looking at the passenger side, we're looking at the passenger side, we couldn't see the driver's side.
Q So you're saying that the police vehicle was still pointing east?
A Yes, he was still pointing east, sort of east. He was sort of at an angle. I've got a 45 degree angle.
Q But he never turned around in the street?
A No.
Q So he passes the boys and then backs up?
A Yeah, and cuts them off.
Q Okay.
A He cuts in front.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q And then the vehicle stops at somewhat of an angle?

A Yes.

Q Okay. But from your vantage point here, you are seeing the passenger side of the car?

A Yeah, I couldn't see the driver's side. We're looking at the passenger side, and Michael and the gentleman were on this sidewalk, on this side.

Q So, let's be clear --

A No, they were close to the side -- they are on the sidewalk side, but they were still in the street.

Q Were they on the driver's side of the vehicle?

A At that time, when he cut them off, they were both on the driver's side.

Q Okay. So let me ask you, when they were walking down the street, did they stay on the yellow line in the middle of street?

A Yeah, they stayed in the street.

Q But the officer cuts them off?

A Right.

Q And so, but they're on the driver's side of the car at this point?

A Yes, but they are still in the street,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

they're not on the sidewalk, they are still in the street.

Q All right. And so is the officer's vehicle between you and the boys?

A Yes.

Q Now, we know Mike Brown was tall, could you see his head over the roof of the car?

A A little bit, yes.

Q Okay. But did you, was it, what about the smaller guy?

A Couldn't see him.

Q Couldn't see him?

A No.

Q Then why don't you describe what happened next?

A Okay. After the officer stopped and pulled in that position. Michael walked, something he was saying, I don't know what he was saying or whatever. He proceeded to walk towards the officer's truck on the driver's side. They was still located right here. (indicating)

Q Okay.

A Okay. Then my brother noticed, he said wait a minute, looks like they're struggling. We are looking at the car, we can see them tussling,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

all right. His head was above the truck for a moment and then it went below it.

Q Okay.

A All right. And it was still tussling. His friend had backed up a step back on the sidewalk, then we heard a shot. His friend ran this direction, Michael ran to this driveway right here, beside this building.

Q Just so we can be clear, this street is Copper Creek Court?

A Right.

Q So you are saying, you had the pointer, the little laser --

A Right, right here.

Q -- at the corner of Canfield Drive and Copper Creek Court?

A Right, he had ran towards this way. As he's running --

Q He's running east down Canfield?

A As he's running this way, the officer got out of his truck, came around from the back, got to this side where he was now on the driver's side because he had a clear line of Michael over here.

Then he assumed his position with the pistol. As he turned around, as he came around, he

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

was coming up with the gun. He held the gun up like this. (indicating) When he got to here, Michael was standing right on the grass and he was like looking down at his body.

Q Okay. Let me stop you here. At this point have you seen anything in Michael's hands?

A No.

Q When he was stopped, when they were talking down the street, did you see anything in his hands?

A No.

Q How about the other boy, anything in his hands?

A No.

Q They weren't carrying anything that you saw?

A No.

Q And then you said, you know how important some of this gesturing has been, right?

A Uh-huh, right.

Q So they are here to actually witness what you are going to do. And so you say when Michael Brown gets to, is he in the grass actually?

A He's is standing at the very edge. Okay. The driveways are blacktop, he is stopped right at

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

the blacktop right, at the very edge.

Q Okay.

A His back was turned to the officer.

Q Okay.

A And he had his hands like this, like he's looking down at his body to see.

Q Okay. Can I ask you to stand up that will really help them to see what you're doing and he's stopped now?

A He's stopped with his back towards the officer and he stopped and he was doing this. As he was trying to see where he was shot.

Q Okay.

A All right.

Q Uh-huh.

A As he was turning, at that time the officer had already been around to the back of his truck and got into his spot. By the time he got there, while Michael was there, he was slowly turning around and the officer said stop. When Michael turned around, he just put his hands up like this. They were shoulder high, they weren't above his head, but he did have them up. He had them out like this, all right, palms facing him like this.

The officer said stop again. Michael

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

then took a step, a few steps it took for him to get from that blacktop to the street. When he stepped out on the street, the officer said stop one more time and then he fired. He fired three to four shots. When he hit him, he went back. Can I stand?

Q Sure.

A When he hit him he, did like this, and he went like, like his balance -- he started staggering and he looked up at the officer like why.

Q Now, just to be clear, you can't hear him say anything?

A I can't hear him say that, but he's looking at him and he is doing, you know. So then as he's stopped, he's trying to steady, he starts staggering, my brother says, he's not going to stand up, he's getting ready to fall, he's getting ready to fall.

He looks like he was trying to stay on his feet, and he started staggering toward the police officer and he still had his hands up.

At some point between the officer's truck, which by that time this is about 30, 35 feet, when he reached out into the street, he started walking toward the officer, the officer took three steps back and he yelled out stop to Michael again

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

three times.

Michael's steadily walking toward him. More or less to me and to my brothers, he was staggering.

Q Okay. To your brothers, did you have more than one brother?

A Well, I mean my brother. I didn't mean to say brothers, my brother. He was staggering, you know. And as he was staggering forward, his head, his body kind of went down at an angle. He was like this, more or less fighting to stay up. You could see his legs wobbling.

Q Were his hands the way you had them?

A His hands were coming down like this, all right. And he had his head up and he's facing the officer like this and he is steadily moving, and the officer was moving back, stop. He yelled stop the third time, he let off four more shops, but as he was firing, Michael was falling. After he stopped firing, Michael, he went down face first, smack.

When that happened, another police truck SUV pulled in behind him, again, assumed almost that exact same spot. He pulled in almost at the exact same angle.

The officer, when we looked around,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

he was gone, we didn't see him. His friend, we never saw him.

Q When you said we looked around, the officer was gone?

A He left.

Q Are you talking about --

A He didn't drive off, he walked away. He must have walked back to the other officer.

Q Okay. Are you talking about the officer who did the shooting?

A Who fired the hot.

Q Okay. He had walked away from Michael Brown's body?

A Right.

Q Okay.

A He walked back and the other officer was coming towards the driveway. We never saw him. This is when I lost sight of what was going on.

Q Why did you lose sight of what was going on?

A Because freaked out, and sister-in-law freaked out.

Q Did you go inside your apartment?

A No, was standing right at my shoulder.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay.

A Okay. All I did was turn around, was like oh, my God, was about ready to collapse. , oh, I never seen anything like that. That's when my attention turned to My brother's attention turned to his wife. She was standing to right. My attention was to . So when I grabbed to try to calm, because get together and got in, backed up and went in and sat down. I told hold on, I'll be right with you.

My sister-in-law came in and she walked in the door and she was freaking out. She is running all through the house. And when we looked back, we never saw the sight of the other officer. We saw the other police officer walked up to the sidewalk. He stopped right there. And then everyone from this side, from this building, this building, started running up to the front. And then there was a crowd that came from this way.

It is almost like someone had, whatever kids are doing and the crowd is whoosh, came right there, that was it.

Q Okay. Now, you wear glasses I see?

A Yes.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Do you need them for distance or reading or both?
A Both.
Q Did you have them on that day?
A Yes.
Q So when you wear your glasses, would you say your vision is good?
A Yes.
Q Okay. Now, after the officer shot Michael Brown and he went down in the street, did you ever see anybody move Michael Brown's body or than when they took it away?
A No, huh-uh.
Q What about the officer who shot, did you ever see his car move after that?
A No, it stayed in that position the whole time.
Q Okay. And then you know that, did you see later in the day that there were multitude of police officers there?
A Tremendous amount.
Q And did you see that they were doing crime scene work, they're collecting things, they're taking measurements, did you see any of that?
A I saw a few of them. When they got there,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

they put tapes up, can't even see there's a pole and another tree right here. They ran it from here to a pole here, across the street and then there's another tree here. They had almost like boxed it in right there.

While they were doing it, that's when the stepfather, I later found out was the stepfather and his cousin were coming down the street. She was screaming and hollering, and my focus was on the stepfather because I was trying, they was trying to keep him from crossing the tape. He wanted to go over and see his body.

When he got there, I left out of my apartment, went around the street, got right up here where his head was pointing towards this direction to see who he was. I had an idea, but I wasn't sure. When I got there, I saw his face, that's when I noticed who he was. When I saw that, I'm like oh, my God. So I went immediately back. I just wanted to go down there to see.

I'm still worried about and my sister-in-law because they was still freaking out. When I got back, the lady that is downstairs with me and I told her. You know that big guy that we see? We call him the gentle giant. You know the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

gentle giant that comes through? She say, yeah. That's who is laying out in the middle of the street, and then she freaked out.

Q Right, of course.

A Uh-huh.

Q And , I'm not trying to confuse you or have you change your recollection in any way?

A Okay.

Q After this occurred, police officers arrive on the scene and were taking photographs, did you see any of that?

A No, I didn't.

Q Okay. I am going to show you a couple of photographs that were taken and these are photographs that have been identified previously as contained in Grand Jury Exhibit 3. Detective , the crime scene person, had taken these photographs. And I am going to show you what I've marked as Image Number 24.

I didn't mark it, it is already marked as Image Number 24, okay. Now, looking at that image, if I tell you that in this direction the cameraman is facing West Florissant.

A Uh-huh.

Q And this is the officer's vehicle in

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

street, do you see which direction it is facing?

A Yes, it is right there.

Q But it is generally, you're right, it is catty-corner, but it is facing towards West Florissant?

A Right. I'm thinking, see here is the sidewalk. See where it is looking towards me is right down the street.

Q So I'm going to show you Image Number 25, which is a little closer view of that vehicle?

A Yeah, I'm still seeing it's pointing toward the sidewalk from my viewpoint. It is pointing toward the sidewalk.

Q And this direction is West Florissant?

A Correct.

Q Does that change your recollection of which direction the officer's vehicle was facing?

A Yes, it does. This is wrong, this is wrong.

Q You are saying this is wrong and I want to make sure we're clear on. Do you believe that the pictures are wrong?

A From the angle.

Q You think that the pictures are wrong from the angle. Let me see if I can find different

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

pictures from different angles. This is Image Number 18. That's Officer's Wilson car there.

A Okay.

Q This is Number 19, this is Officer Wilson's car?

A Yes, okay. My apartment is on this side. So, yes, that is correct.

Q So does that change your recollection about which direction the car was facing?

A I'm saying, yeah, I still say it was pointed towards the guy, his body. This is the angle, yes, I had it this way. It is that way from my angle from where I'm looking.

Q Okay. So but you still believe that the officer's vehicle came from this direction?

A Right.

Q Okay. And it never turned around in the street?

A I didn't see it turn around.

Q Do you know how the officer's vehicle got --

A He did it, he went past here as he was going, all right. And then he eventually backed up and turned. (indicating)

Q So it backed up?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A Yeah.

Q And so put it in reverse, I assume?

A Right, in reverse and turned around, cut him off because they were still in the middle of the street. When he passed them, he had to get a better angle so he could get closer to them, I guess.

Q Okay.

A So yes, you are right. From my angle, the truck was there.

Q As we're looking at Image Number 29, which is again West Florissant to the right of the picture.

A Uh-huh.

Q This would be the north side of the street?

A Right, this side right here.

Q This side of the street is the north side of the street?

A Right, uh-huh, that's the north side.

Q You are standing on the sidewalk on the north side of the street, that's the passenger side of the vehicle; is that right?

A Right.

Q And your apartment is actually on the south side of the street?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A No, it bends around. See how it bends around? The truck is pointing this way, I'm still looking down toward it, I'm still, I'm looking at the passenger side.

Q Okay. Now, from the point that you saw Michael Brown stop and he turned around, to the point where he eventually fell into the street, can you give me an idea, your best estimate of how far that was?

A I'm only guessing from where the officer was standing the first time he stopped, about 30, 35 feet.

Q Okay.

A I might be off on that.

Q Okay.

A Because you understand also I'm way back here, this.

Q Right here?

A Right here.

Q Okay.

A They are located right here. So to judge the distance from there to there, you know, I may be off from that.

Q Sure. But he runs in this direction, comes to about this corner and turns around. Do you

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

recall when he turned around, did he turn around so that he faced your direction or did he turn the other way clockwise or counterclockwise or do you know?

A He turned over left. So that would be what, counterclockwise, yeah.

Q So if you are the officer and I'm Mike Brown.

A Spin to your left, turn around to your left, like that.

Q So as he turned towards the officer, his back went to you?

A Yes.

Q Okay.

A Uh-huh.

Q Now, you said in a previous statement that when he was looking down, it looked like he might have been looking at his hands.

A Hands or side or whatever, he was trying to look, I said looking at his body to try to see where he was shot.

Q And you said previously that you could see something on his hand?

A Yeah, it looked like he had something from the distance, we weren't quite sure. In fact, we

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

kind of discussed that. I have told the officer it looks like he had something on his hand, but I can't give you 100 percent, I can't say for 100 percent that it was something.

Q Okay.

A Because the distance I'm from him, I can't really tell.

Q Sure.

A You know, that's what I thought.

Q As he turned around and he's turning around away from you to face the officer, then if he's on this corner and you are right here, you're seeing him primarily from behind?

A Right, his back was turned. When he got to the edge of the driveway where your finger is, his back was turned to us and his back was facing our side of the street. He had stopped. This is the street, he stopped and he did like this. And he was turning around like this, you know, on the left side as you turn, that's the way he was turning.

Q He turned to face the officer, was the officer in the street actually?

A Yes, he was at the rear of his vehicle at that time. He had to pull his gun out and he had it in his hand, you know, the defensive spot I guess,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

or whatever they said it is.

Q Michael Brown would have been looking back in this direction?

A He was looking, okay. The officer was standing on this side out in the middle of the street right here. He was looking this direction, not that way.

Q This is the sidewalk right here.

A Well, he is looking out this way because the officer's truck is still in the street. He's at the rear of the truck, he's at the rear of his vehicle.

Q And his vehicle was pretty much in the middle of the road, correct?

A Right.

Q So the officer is in the middle of the road?

A Practically, not in the middle, not in the middle, he's closer to the side, he's closer to the street, to the sidewalk.

Q On the south side?

A Yes.

Q Okay. So when Michael Brown turns, he's looking in this direction?

A Yes, he's trying to see where the officer

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

is.

Q So from that direction, and where your vantage point is, you can't really see his face at that point, correct?

A No, just the side view.

Q Okay. And so you say, you said then at that point his hands go up?

A Yes.

Q And the officer is telling him to stop, but he moves towards the officer?

A Correct.

Q Okay. And if I were to tell you that from this corner of Caddiefield, I'm sorry, Canfield Drive and Copper Creek Court to where Michael Brown's feet were in the street, in other words, when he fell down, okay, and his body laid there.

A All right.

Q From his feet to that corner is 48 feet and 2 inches, does that sound about right?

A I couldn't say for a certainty. If you say that's the measurement, that's what it is. I don't know the distance.

Q Okay.

A I'm not good at that distance.

Q Okay. But you saw him travel, when I say

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

travel, he moved from this corner toward the officer until he was down dead in the street?

A Right.

Q And if that was measured, I don't want you to comment on somebody else's accuracy, if someone measured it and said it was 48 feet and 2 inches?

A I would have to agree.

Q Does that sound about right?

A I would have to agree, but I'm saying from my vantage point from what I thought or assumed, it looks like it was about 35 feet. If it measured that much, then it is.

Q Okay. And as you say he turns around, he puts his hand up and he starts to move toward the officer, you hear the officer tell him to stop?

A Right.

Q And you said he gets two or three steps and the officer shoots pow, pow, pow, three or four times?

A Yeah.

Q And at that point you kind of acted, not acted, I didn't mean to say acted, but you demonstrated that he kind of appeared to have been hit?

A Yes.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Did you see blood on him at that point?

A From my distance we couldn't see it.

Q Okay. And at that point also, I mean, you are seeing him kind of from behind also?

A No, we're looking dead almost to his side. Turn your shoulder facing her, I'm looking at your side.

Q Okay.

A About like that.

Q A full profile?

A I'm looking at his profile.

Q Okay. And then he takes a few more steps toward the officer, I mean, if the measurement is correct, at some point he travels 42, or 48 feet and 2 inches from the corner to where his feet were. But he only moves twice, according to what your recollection is, correct?

A First time when he told him to stop, he moved and stepped out into the street. Then he started to stagger forward, the officer took some steps back. He told him to stop, he yelled stop three times again and after he yelled the third stop he fired again.

Q Okay. Now, after the first round of shots, not in the car, but after Michael Brown

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

turned around and you say you said his hands were in this position. (indicating)

A Yes.

Q Or thereabouts?

A Correct, about shoulder height.

Q After he turned around, now you've said previously that his hand kind of went limp by his sides?

A Yeah, well, they started to come down after he fired off that first volley.

Q Okay.

A He started coming, he was trying to keep himself up. He looked like he was hit, so his hands were naturally coming down.

Q So if you have a profile of him.

A Uh-huh.

Q And his hands are like this, as his hands come down, could it be that his hand went somewhere around his torso? (indicating)

A No, his hands kind of came, they were still out to the side, he was still like this. He was trying to balance hisself, his hands came down about chest or waist. He had his head up looking at him and he was staggering, trying to stay on his feet.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

As he was moving, he was staggering and that's when my sister-in-law and said, oh, my God, he's getting ready to kill him. And that's when the officer was backing up and that's when he fired, I think he yelled stop, excuse me, he fired the next round, next volley.

Q Okay. I'm not going to be so, I'm not going to belabor this too terribly much. Do you recall in your statement with the County Police, you said after he was shot the first time his arms went limp to his side?

A I said his arms were coming down, yes, they were coming down.

Q Okay. And I know you haven't had an opportunity to review your statements and I understand that and your first statement was on August 12th, so this would have been like on a Monday after that shooting happened, 9th, 10th, 11th 12th, no, Tuesday, I guess. So I'm going to show you what has been printed up, and this is a transcript that is of August 12th.

A Okay.

Q Detective , do you remember him?

A Yes.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q And there was another detective, correct?

A Uh-huh.

Q And they spent almost an hour or about an hour talking to you that day. And at some point, I'm going to refer you to page number 21. And you talk about where his hands were after the first volley of shots. And then you say after he hit him with the three shots, they came down?

A Here, and I stood up and I showed him. Like I said, his hands were about right here and they look like he, looks like his hands, like I said in the statement were limp, they were going down.

Q Detective says, okay, where at? And you say, down besides his body like this. So obviously you are demonstrating.

A Yes, coming down. By the time, when I showed him, he asked me where they were, I stood up and showed him that his hands were coming down. They were down almost by his side, they were coming down.

Q And then he says, okay, and you are basically putting your hands down at your side and you say, yeah, they were like they went limp.

A Yeah, they were like this.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay.

A This is the way I demonstrated.

Q Okay. And that's one of the problems because obviously we can't see what you were doing that day.

A Right.

Q And so that's why all of these times people have been asking you, they go into, seems like great lengths to try to describe what you are doing, but for these people, if you would stand up please one more time.

A Okay.

Q As Mike Brown stops.

A Right.

Q At the corner.

A Uh-huh.

Q Do what you say you saw him do with his hands?

A The first time?

Q Yes.

A After the shot was fired from the truck.

Q Yes.

A When he reached right here.

Q Uh-huh.

A His back was turned. He was like this,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

looking at hisself to see what is going on. And he started to turn with his back to me like this, he had his hands up like this, and he looked at the officer. The officer was at the back of his truck, he yells stop.

So Michael took a step from the blacktop to the street, he was walking towards him. He was walking towards him, but he had his hands up like this. (indicating)

When he stepped out into the street, the officer fired three times. When he hit him, he started to stagger around and his hands started, like this coming down, so his hands were going limp and he was staggering toward the officer.

As he was moving towards the officer, the officer was moving back, and the officer told him stop, stop, stop. By the time he said the third stop, Michael was still trying to stay up on his feet. That's when the comments were made behind me, no, he's not going to shoot him again, the man can't even stand on his feet. The next thing I know, he fired the other shots.

He couldn't hardly stand up, so when he fired, he was going down. When I went down and I looked and I'm saying okay, that's the only way he

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

could have hit him in the head. He had to be going down.

Everyone come back from the back said, oh, no, he went down to his knees. He did not go down to his knees. And then they said, the officer walked up to him and shot him in the back of his head. No, that's not what happened, okay. The officer didn't walk over there and say okay, bam, no, he didn't do that.

Michael did not go down on his knees and stand there like that in front of the officer like that. When he shot the last rounds, he went down and he landed face first. Okay. When he hit that ground, that's when my attention went from him to her.

Q Right.

A All right. That's when everyone started running up here making accusations and assumptions they saw this young man lying down in the street. They saw this police car, they saw the other car over here, this other officer on the north side of the street, on the sidewalk, then it went from zero to 100 in a split second. Because the crowd got there and then you had everyone that's on this side here in the immediate building right across from him

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

that everyone over here came out.

It went from whew, it was terrible.

Q And from the time that Michael Brown stopped on that corner until he fell in the street, are we talking about a matter of just a few seconds?

A A few seconds. Again, that incident as I've described from the people coming up, that incident after that first shot, initial shot at the truck when they ran it went from zero to 100 in a split second also. It was slow motion to us, but it was moving.

Q And just backing up briefly and talking about what happened up at the truck. You said that because the truck was pointed toward Northwinds and they're on the driver's side, the car is between you and them, correct?

A Right.

Q And so you can't really see what's going on inside the truck, would that be fair to say?

A No, we couldn't.

Q You said, at some point in the previous statement you said, when the officer fired or when he heard the gunshot, it seemed like he was trying to get him off of him?

A I don't know what was happening in that

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

truck.

Q Okay.

A I could not tell you. I could not see. All we could see was there was some type of disturbance or altercation at the side of that truck, okay. We could not see if the officer got out of the truck and/or Michael they say he got out and Michael pushed him back in. We can't see that because we are on the opposite side.

All I know is that when we heard that shot and his friend went that way and Michael went there, the officer exited his vehicle, came around to the back and assumed the position. That's what we saw.

Q Okay.

A And then after that, whew, they scattered. It went bam, bam, bam, bam, it went so fast.

Q But do you remember on August 12th, again, I'll show you here on a transcript when the officer was asking you, and he's talking about what was happening, what was going on at the car.

A Right.

Q And Detective says, who never exited the car? And you said, the officer. And he says, okay. And you said, he never exited. He shot

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

him to get him off of him, that was your impression on the 12th?

A Right, that's my impression on the 12th.

Q Okay. Has that changed, do you still feel that the officer, in your opinion, it looked look he was trying to get him off of him?

A Whatever was going on in that truck, if Michael had a grip on him or he had a grip on Michael, some way he just felt the only way he can get him out or so that he can get control of the situation was to fire. He fired.

When he came out and he stepped out into that street and he fired the first volley, we figure okay, that's it. We were also yelling at him, and my sister-in-law yelling, stop man, stop, stop, stop.

As he was staggering forward, that's when he said oh, my God, he's getting ready to kill him because he backed up, the officer backed up and then he shot him again.

To this day no one is going to change my mind, if he had not fired that last volley, that young man would have been alive. Because even though he was coming toward him, he had no weapon. His hands were coming down. They were not in front

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

of him they, were to his side.

Q Okay.

A He was staggering, trying to stay on his feet. The only way he could have got shot in the top of his head when he was firing that last round, he was on his way down, he hit him in the top of his head. Eye, top, only way.

Q So in a matter of seconds, you can clearly see that Michael Brown was going down?

A Right.

Q When the second volley went out?

A Right.

Q When the second volley went out.

A That second volley went off, he was coming, you can almost tell his body was going limp because he was like this, he was like this. He was looking up at him, like I'm looking at you and I'm still trying to stay on my feet. Only way he could do was go down, he's top heavy. The man was 290 pounds. (indicating)

Q But from this point to where he moved toward the officer, you would agree if the measurement said 48 feet, that that's about right?

A I said 30, 35, if it says 48, it was 48.

MS. ALIZADEH: Sheila, do you have any

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

questions?

MS. WHIRLEY: Yeah, just for clarification.

Q (By Ms. Whirley) You heard the first shot in the car; is that correct?

A At the car.

Q And when was the next time you heard shots?

A Was when Michael got to this driveway.

Q Okay. So when the shot was fired at the police car, Michael ran?

A Right.

Q Did the officer trot or run after him?

A No, he exited his vehicle, Michael was going in this direction to here. He had to come around so he can get an eye on him. If he went around to this side, I don't think he could have seen him. I mean, if he hadn't of stopped, I don't think he would of had a good line of sight on him.

I think in his mind, the only way he thought maybe he thought he was going to run back the way he came, I don't know.

Q Okay.

A What was going through the officer's mind, I don't know his procedure or what they are trained

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

to do. All I know is he came out of the car and he came around to the back. He was standing at the rear.

Q Okay. Did he shoot at Michael Brown while Michael Brown was running?

A We didn't hear no shots until after he got there and he moved off. When Michael got there, he had already stopped. He stood right there and the officer told him stop.

Q Okay.

A Even though he had already stopped.

Q Okay. So between the time that Michael Brown ran from the police car and Michael was at the intersection of Copper Creek --

A Copper Creek and Canfield.

Q -- and Canfield. You didn't hear any shots fired?

A No.

Q So Michael Brown, he tells Michael Brown to stop?

A Right.

Q Michael Brown had stopped, but his back was to the officer?

A Yes, and he was turning, he was turning as the officer yells stop.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q At the time that his back was to the officer, did it appear to you that he had been shot?

A I assume that he was because his hands was up, he was standing with his back to us, but he was looking at his body. As he was turning, he was still looking down. And, you know, when he yelled stop, his head came up and was looking at the officer, and he did like this. (indicating)

Q Okay. So when he had his back to the officer and he had stopped at that intersection that we just talked about.

A Right here. (indicating)

Q He appeared to be shot to you at that time?

A I assumed he was.

Q Why?

A Because of the proximity of him and the officer at the truck.

Q You felt he must have been shot at the truck?

A Right.

Q Okay. So he turned around and you already demonstrated that he had, he was staggering and he had his hands up, was it in your opinion was he surrendering at that point?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A When he left from here and he was walking toward him, I believe he was giving up.

Q Why?

A Because his hands was up, he was walking toward him. Where was he going to go. The officer was standing there with a gun dead aimed on him.

Q And you never saw a weapon with, you never saw Michael Brown with a weapon?

A No, no.

Q Did you ever see Michael Brown appear to be reaching for a weapon?

A No, no, his arms never went down to reach for his belt, his hands stayed in this position until he stepped off, off of this right here into the street. And then when he got shot, that's when his arms started moving. He was like oh, my God, that's it, okay.

At that time when he fired off that first volley right there, it still didn't look like he was trying to reach for any weapon, he was trying to see what was going on, where he was hit, all right.

As he was coming off of there and fired that next volley, his hands were coming down beside his body. It was like he got hit, that's it.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

He started staggering, he was staggering as he was doing it. As he came, his body, his torso, his legs were straight up, but his torso was almost like at a 45 degree angle with his head came up to look at the officer.

The officer moved back three steps as Michael was walking toward him or staggering toward him, he took about three steps back and he was still yelling. I clearly heard him tell Mike, stop, stop, stop. But you can say that the man was in distress, he was trying to stay on his feet. As he said that, after he said the last stop, he fired.

Q Could you tell, I know you said you are not good with distances, but could you tell how far the officer was from Michael Brown when he fired those last shots?

A After looking at it, again, I'm bad at distances, but I would say at least about 20, 25 feet.

Q 20, 25 feet. Okay. I'm going to walk out and by that I mean I'm going to come where you are in this room.

A Uh-huh.

Q And then I'm going to start going backwards so you can let us know how far, I'm going

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

to be Michael Brown and you will be the officer, okay?

A Okay.

Q So I'm going back, and you let me know when it is the distance that it appears to you how far they were when the officer fired the last shots. Farther than this?

A Close to.

Q Close to this?

A Close, might be a few feet further back. If not 5, less than 5 feet further back.

Q We are talking 15, 20 feet?

A Right.

Q Okay. And in your opinion, right before the officer fired those last shots, well, first let me ask you this, you said that he was going down and that's how you think he got the head shot, how did you know he was shot in the head?

A We went around there, the amount of blood, excuse me, after they covered him up, they put a white sheet over his body, white sheet covered his head. When I went back up there, the sheet had, this is his head, the sheet extended about this far out, about 2, 3 three feet this way, about 3 feet this way. It was completely soaked. Can only come

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

from the head shot.

Q Soaked with blood, the top of it?

A The sheet was soaked. It turned from white to complete red.

Q So you knew he was shot in the head, did you ever --

A I didn't know he was shot in the head.

Q Okay.

A I didn't know he was shot in the head. I assumed he was shot in the head.

Q Got it.

A Later on when it came out that he was shot, because when we looked at myself and a few other people looking at it, they say there was another older gentlemen standing up there and this lady oh, my God, he must have been shot, all that blood. He must have been shot, he must have been shot in the head, you know. That's when they were all up over on this side of the street was saying yeah, he walked up to him, pow.

Q You knew that wasn't right?

A I knew that was wrong.

Q Okay.

A But I wasn't going to say anything because I lived out there years, okay. To go against

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

anything that they have already assumed would be to put , , I'm not in good health. My only concern is . I'm sorry that man got killed, I'm sorry for his family, but I wasn't going to do anything that would jeopardize .

Q Okay.

A That is my main concern. That's why I'm out there.

Q And those last shots, in your opinion, the officer did not have to fire because Michael was already disabled?

A He was already disabled, yes, in my opinion he was already disabled because you could clearly see the man was in distress and was trying to stay on his feet.

Q It does not appear he was charging the officer?

A No, he was not charging.

Q Or threatening the officer?

A He was not threatening, he was staggering toward the officer.

Q Okay.

MS. WHIRLEY: Anybody else questions? : . The last

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

you guys were just talking about. So your opinion right before the last volley of shots, he had lost control of his body when the yelling stop, stop, stop, your opinion is that he couldn't stop because he had lost --

A No, he couldn't stop because he was wobbly, you could see he was trying to stand up. You could see clearly, we could see he was trying to stand up. That's when and them were yelling at him, man, stop, please stop, please stop, he was trying to stand up. Because the way of the angle of his body, he was like bent over with his head up. And you could see almost instantaneously, you can see him going down. You know, that's why everyone sitting up there talking about he went down to his knees he went face first.

: I'm going to say it again, your opinion then is that you felt like he could not stop?

A No.

He could not control his body?

A No, he could not control his body, he had been hit. I don't know how many people in here or if anyone has, but I know I have. I've been shot.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

And when that bullet hits you, you don't immediately feel it. First thing you feel is the heat and when that heat hits you, everything goes haywire.

He could not stand it okay.

: I have a question. When you and Kathi were talking, she indicated it was 48 feet and 2 inches from where he was first shot at the corner to where he was last shot. When he was last shot and fell to the ground we determined that it was about 20 feet, you said 20 to 25 feet, we determined 15 to 20, we are going to split the difference 20 feet, okay. Heated situation, everybody is crazy.

A Uh-huh.

: The officer doesn't know whether or not he has a weapon and Michael Brown is still moving forward.

A Yes, he is he is staggering forward.

: If it took just a few seconds for him to travel 48 feet and 2 inches, it wouldn't take very long for him to travel 20 feet, right?

A Right.

: What do you think the officer should have done?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A After he fired and he was coming --

: He was coming towards him, I know you say he was staggering, but the officer did not know any of these things.

A I don't know their procedures. Okay. They're saying he's coming, he's probably menacing, I've heard all kind of things.

: You can't really see his face though, right?

A I cannot see his face, but I can clearly see his hands were coming down.

: You can see like this?

A He was not coming at him in a menacing way. He was fighting to stay on his feet, he was steadily walking, he's steadily walking.

I understand.

A As he's walking toward him, he's staggering toward him, the officer is backing up. He backed up. All right. Then he fired the last shot. He kept on going, he made a few steps and then bam, he went down now.

Now, I don't know the distance that it was he had moved a certain distance before he fired the last few shots, okay. He staggered, if it took that many steps, then that's what it took,

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

that's what I saw.

: .

A Yes, ma'am.

: You know now that he don't have any weapon, but at that moment when that happened, you don't know if he has a weapon or not?

A I cannot see any weapons in his hand.

: Okay. You don't see it.

A I do not know if he had any on his body, but I didn't see any weapons in his hands.

I understand, sir. I want you to answer me, at that moment you were sure that he didn't have any weapon?

A Yeah.

: You don't see it?

A I don't see hit.

But you are not sure he don't have any weapon?

A Right, that's my assumption, yes.

Your assumption?

A Right.

: I don't mean to pick apart --

A Right, that's what your job is.

But you said in here in

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

your statement on the 12th, you said I'm going to call it or I'm going to say it, I feel like he was executed. From what you are describing to us, you know, the police officer saying stop, stop, stop, and him continuing to move and even moving after he's injured, um, do you still feel that way?

A Yes, because I don't believe he had any weapons on him.

: You don't believe --

A They didn't find any weapons on him. He was hit, he was in distress, he was coming at him and he wasn't coming toward the officer to do any harm, he was trying to stand on his feet.

And the only direction his body could move was forward, all right. He knew he hit him, he know how many shots, but as big as Michael was, I don't know what's going through his mind. I can't read his mind, the officer's mind. Maybe he thought that Michael was coming at him as big as he is, he could still do some harm to him.

Maybe he did.

A That's why he felt like he had to use deadly force. I'm seeing someone who is hit, who is clearly in distress, who cannot stand on his feet, why?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Again, I'm going to go back to what you just said. I just have to know, this is very important. You said you don't know what's going through the officer's mind, maybe he did think he was in distress, you just said that, right?

A Yeah.

He didn't know whether or not --

A He could see that he was in distress.

But he didn't know whether he was in danger?

A He didn't know whether he was coming. He may have assumed that hey, I got this 6'5", 290 pound guy and I already put four bullets in him and he is still coming.

: And he's still moving toward him?

A And he's still moving. But he should have clear sight to see that this man was in distress. He could see that he could not, barely stand on his feet. But to take to fire four more rounds was excessive in my opinion, okay.

: Thank you.

: . Um, you

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

said when the officer exited the vehicle after the first shot is fired what, in your mind, how, can you picture how many seconds it took, he came out, you say, did he come out already, drawn his weapon?

A I can't see him from the driver's side. As he was coming around, you could see the gun in his hand. By the time he got to the back bumper of his truck, it was in this position. He had already unholstered, he had to cause by the time he got to the back of the truck, it was coming up and he got in that stance quick. (indicating)

: If anything would have been in his vision in order to not see Mr. Brown, because you said --

A Well, he had to turn his back to him for a split second because he's coming around from the back of the truck, he's running this way, Michael is going that way, but he came around to the back of the truck.

: Right.

A To get a line of sight on him. So he had for a split second to come around, but as he's coming round, he could see through his windows. He could look through the windows of the truck to see where he is, okay. But when he came around to the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

back, he had a better line of sight, but no obstructions to where no one, these two, three people would not be sitting there, then I gotcha.

But as I'm coming around, I got all of this glass. I can see through the glass, okay. I see which direction you are going in, okay. I'm coming around, I'm looking through the glass. I'm coming around, I'm at the back of the truck, I see where you are, now you are in the front of my truck the officer's side, now I gotcha.

The officer, even though he came around his vehicle, did he ever come at an angle closer because I think I believe I read in your testimony on August the 12th that you said that he had set at angle, like catty-corner --

A When I said at an angle, I was giving the position that the officer was standing in. He wasn't like this, he stood like this. (indicating)

: Right, but then the officer moved closer to curb?

A So his body was at an angle, his body was like this and his truck --

MS. ALIZADEH: Hey, hey, just for the sake of the court reporter, he can't take it down when both of you talk at once.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A Oh, I'm sorry.

MS. ALIZADEH: I'm just, I encourage the question and answer, but it helps him if.

A We don't talk.

MS. ALIZADEH: The question goes and then answer goes, and then the question goes, so he can take it down, sorry.

A I'm sorry.

: I'm sorry.

MS. ALIZADEH: That's all right.

: So the officer is at an angle position to fire?

A Right.

: Okay. He calls stop, stop, was there any other vehicles in his way of vision?

A None.

: Where he had to go around more?

A No.

: To see Mr. Brown?

A No.

: Okay. Did you ever see Dorian once they both broke away from the car?

A Who is Dorian?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

The guy that was with him?

A Oh, I didn't know his name. I never knew his name. No, huh-uh. Once Michael hit that side, we looked back, I didn't know where he went. We assumed, excuse me, that this is the building, we thought he had ran around to the side of the building over here, but in his statements on the news he was behind one of the police trucks. We didn't see that.

I mean, he is a little guy, truck is kind of high, all right. My eyesight was on Michael, for some odd reason we are glued to him, okay. Because as the officer was coming around, we figure that something happened between Mike, we knew Michael was at the truck, we was watching them two.

Him, we didn't see him, he disappeared. He was a little guy, he was gone. Okay, but by the time the officer had gotten around here, there was another truck came down and he got in that spot. There was another police officer truck.

So he says, Dorian said that he was in there, then standing beside one of the police trucks and he was watching the whole thing. I didn't know that. I never knew him, never seen that

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

guy in my life. All the times that I've seen Michael, I've seen him plenty of times walking through the neighborhood, I never saw him with that guy, never.

Did you ever see any other vehicles behind the police SUV?

A No, after that?

: During the shooting?

A Within what, two, three minutes, police cars from everywhere was coming, you know. But before they, as they were coming, it was the crowd of people were coming from everywhere. From up here at Ellison, this is the first street. From there, from all parts of the complex and from Northwinds they are running up there.

The stepfather and them I believe they stayed in Northwinds, he was one of the first ones there. And they started, everyone got on their phones, they were calling and taking pictures, next thing I know there is crowd everywhere, okay.

So that is what I was concentrating on because I didn't know what they were going to do because they were getting crazy, all right. They were hyping themselves up.

: Thank you.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: . Do you have any medical training,

A Okay, no.

: No medical training. You ever serve in the armed services?

A No.

: Anything like that? I'm not saying this to dispute anything that you have to say, I understand that you said that this is your opinion of what you saw that you felt this particular, whatever shots or whatever may have been the cause of Michael Brown's death, and that's clearly from your personal opinion, not from a medical opinion; is that correct?

A Correct.

MS. ALIZADEH: Can I just really quickly want to revisit something. And , you remember when you did this picture or this drawing when Detective was talking to you?

A Yes.

Q (By Ms. Alizadeh) Okay. Now, you have here white car, actually that's Detective 's, he labeled white car.

A Yeah, there was a white car sitting right here at the end of the driveway right here on

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Canfield pointed toward Canfield. I mean, toward West Florissant.

We later found out that this gentleman has a friend that stays back here in the back and when the first shot rang off, that car went this way towards West Florissant. I didn't see it ever again.

Q Okay. But you have on your diagram that the car is actually west of the police vehicle?

A Yeah, it is on this side. All the cars here. The car is here, his car was closer to this driveway down here.

Q All right. So you don't recall the car being on that side of the police car?

A No.

Q West of the car?

A No, it was parked right here. That's what I told him, I said he was sitting right there and after the shot rang off at the truck, he pulled off and sped off.

MS. ALIZADEH: I'm sorry, there was some other hands?

: . when Michael Brown was, let's say at the lamp post, I guess, on the corner of the asphalt, I guess that's

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Copper Creek Court?

A Uh-huh.

: And he turned around. And at one point you mentioned you could see something in his right hand or on his right hand?

A It looked like, looked like he had something on his hand, cause he kept looking at it like this, and he started looking at his body.

: Can you clarify at what point you actually saw that?

A As he turned, and he you could see as he is coming around, he's spinning around, looked like we saw something that was on his hand cause he kept doing like this. He kept looking at hit and then he looked down, he looked at both sides of his body.

So I'm guessing he may have touched hisself to see if there was blood or something cause you could see there was splotches cause he's real dark and then he turned around and he did that, looked up. And as he spun around, and then he says that's it, boom. When he turned around, he had his hands facing the officer, we couldn't see the palms.

: Okay. It was before the first volley of shots?

A Before the first volley.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: Thank you.

A Yes.

: . How far behind the vehicle was the officer when he fired his first volley of shots?

A He was practically catty-corner to the rear corner.

Okay. So then how far was he from the rear bumper when he fired the second volley of shots?

A Maybe three to four steps behind it.

: All right. So he never actually got past his rear bumper?

A No.

: Okay. Thank you.

MS. ALIZADEH: Anyone else have any questions?

thank you. Is there anything that we haven't asked you or anything that you think is important for this grand jury to know before you conclude your testimony?

A No, I think you pretty well covered it.

MS. ALIZADEH: Okay. This will end the testimony of

(This is the end of the testimony of

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

.)

MS. ALIZADEH: Good afternoon, it is 2:07 p.m. on September 30th. We are in the grand jury, present is myself, Kathi Alizadeh and Sheila Whirley, as well as all 12 grand jurors and the court reporter, and we have just gotten back from our lunch break.

I do have two officers who I believe are going to testify this afternoon. One is going to be Detective He's the officer who is the primary case officer investigating this matter. I'm only going, we're not going to get into the entire investigation. I'm simply calling him to ask him some questions about the interview that he had with

And then after that, we will have . If you recall he was the crime scene investigator who went to the Ferguson Police Department, and then followed them to the hospital and actually took pictures of Officer Wilson and then he will testify about seizing other items because we had to interrupt him to get Dr. on, if you recall. Hopefully he will just be like another 30 minutes.

Neither of them are here yet, I assume

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

they're on their way, but so we're going to go ahead and start playing some statements of a witness that we anticipate will be testifying Thursday morning for you. This is, this is Grand Jury Exhibit 31, which is a disc that contains media clips, clips of interviews that were done by a witness whose name is .

I don't know if you recall this is an employee of that she actually was going to pick up. I'm first playing clip one.

As usual, I'm not going to play the clip in its entirety, a lot of these contain comments by the reporter and stuff. I'm starting this at 55 seconds and I will play it to a minute and 15 seconds, so this isn't long at all.

(Clip is being played at this time.)

MS. ALIZADEH: All right. I missed that because I was messing around with this. Does anybody need to see that again? I'll start it again because I didn't have the volume up.

. Can you freeze it too? I'd like to see the view that she had from her balcony a little better.

MS. ALIZADEH: How about I play the whole thing, I go back and freeze it in the middle since

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

some of you didn't hear what was being said. I don't want to stop it in the middle and then we will go back and freeze it.

(Clip is being playing at this time.)

MS. ALIZADEH: So you want me to go back and look at that video again?

Freeze frame it on the intersection and then when we can see that apartment in the background, those two places.

MS. ALIZADEH: Okay, I will do my best.

(Clip is being played at this time.)

: Right there, other time he used the zoom it looked like.

: No, that's not his apartment building that we just heard, right?

MS. ALIZADEH: Now, if you notice in the street and it is easier to see on the screen that there are some items in the street. It tells you it looks like a couple of those traffic cones and then a looks like a crucifix, and I can't tell what that black thing is.

Looks like a statute.

(Playing the clip.)

Can you show us on the aerial view what building she's in?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: She's in . She's number

MS. ALIZADEH: Yeah, she's in this building here. And I believe we will hear in her statements, I believe it is , or at least right here. (indicating)

Any interest in me going back and freezing again? No, all right.

That was a clip that was aired on August 10th, 2014 at 5:30 p.m. on NBC nightly news.

This next clip, or the second clip on the disc, Grand Jury 31 aired at 10:00 p.m. on August 10th, 2014 on KSDK.

I'm going to start it at 137, if I can.

(playing the clip.)

MS. ALIZADEH: I'm going to start it at 136, it is only going to 149, so this is also very, very brief.

(playing the clip.)

MS. ALIZADEH: Anybody want to see that again? Next clip aired on 8/15/2014 on CNN program is New Day. I'm going to start this at 28 seconds and this goes until six minutes and five seconds. So this is a lengthier clip. Starting at 27 seconds.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

(playing the clip).

MS. ALIZADEH: Anybody need to see that again?

Next clip is number four. It aired on August 18th, 2014 at 10:00 a.m. on CNN At This Hour with Berman and Michaela.

I'm going to start the clip at 40 seconds and it will play to four minutes and five seconds.

(Playing the clip.)

MS. ALIZADEH: And then the last clip is clip number five, the fifth clip it aired on August 18th, 2014 at 7:00 p.m. on CNN.

I'm going to play this from the beginning until three minutes, it plays until three minutes.

(Playing the clip.)

MS. ALIZADEH: Anybody need to see any of these clips over again?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Would you state your name and spell it for the court reporter.

A , ,

Q And you're a detective with St. Louis County Police Department?

A Yes, ma'am.

Q And how long have you been with the St. Louis County Police Department?

A Since January of 2002.

Q How long have you been in the detective bureau?

A Since March of 2008.

Q And are you in the Crimes Against Persons Unit?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A Yes, ma'am.
Q And were you in that Crimes Against Persons Unit back in August of this year?
A Yes, ma'am.
Q And are you the primary case officer involved in the investigation of the shooting of Michael Brown?
A Yes, ma'am.
Q And just so we can make clear on the record, the officer involved in that shooting is a Darren Wilson, are you in any way related to Darren Wilson?
A No, ma'am.
Q Have you testified before this grand jury before, I mean, not on this matter, but this grand jury has been working since May, have you testified since May to the grand jury to your knowledge?
A I don't recall.
Q And this is the first time you've testified regarding the shooting investigation in this matter, correct?
A Correct.
Q And I'm not going, we're not going to go into every aspect of your investigation right now. But what I wanted to direct your attention to was an

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

interview that you did on August 12th, 2014 and the subject that you were interviewing was a ?

A That's correct.

Q And that interview was conducted, it began at 1557, would that be 3:57 or what is 1557?

A 3:57 correct.

Q P.m.?

A Yes.

Q And it also was at the New Horizon Seventh Day Christian Church; is that correct?

A That's correct.

Q And how is it that you knew that had some information for police?

A The pastor of the church, Reverend had contacted the St. Louis County Police Department and indicated that one of his church members had information regarding the incident.

Q All right. And so did you make arrangements to interview he was the church member, correct?

A That's correct.

Q You made arrangements to interview him at the church?

A Yes.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q And the grand jury has already heard the statements, so we're not going to go through the statement, but present for the statement was yourself, and then Detective is that correct?

A Correct.

Q Was the reverend or pastor , was he present for that interview?

A He was not.

Q Where in the church did this interview take place?

A It took place in a conference room, right outside of Reverend s office.

Q You had an audio recorder that you used to record the interview that you had that day?

A I did.

Q And, in fact, you have recorded numerous witness statements in relation to your investigation into the shooting of Michael Brown; is that correct?

A Correct.

Q And are almost all of those interviews audio recordings?

A Yes, ma'am.

Q And so did you, were you aware that subsequent to your interview, was

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

interviewed by the FBI and an attorney from the U.S. attorney's office and an attorney from the Department of Justice?

A I was.

Q Now, were you a part of that interview?

A I was not.

Q Were you present for that interview?

A I was not.

Q And so at some point did someone that was involved in that interview contact you about the statement that made during that interview?

A I was contacted, yes.

Q And were you aware that that interview was also audio recorded?

A I was.

Q And have you listened to that interview?

A I have.

Q And have you listened to the interview that you did with him?

A I have.

Q Now, you and I had a conversation, my days are really running together, when is it that you and I got together and talked about this, was it, today's Tuesday, was it Friday or yesterday? I

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

think it was Friday.

A I think Friday.

Q Okay. Actually, you and I speak on a daily basis; is that right?

A That's correct, yes.

Q And I see you at my office or over at DCI almost daily, correct?

A Yes.

Q At some point did you and I have a discussion about how demonstrated the way he saw Michael Brown use his hands during the incident on August 9th?

A We did.

Q And you recall that in the audio interview that you did with , you actually tried to describe how, are you trying to describe what he's demonstrating?

A I'm describing what the actions that he is making, how he's demonstrating his hands are, yes.

Q And when you describe it, do you hear him both after having listened to it, but also live, would he either agree or correct you if it wasn't correct?

A Yes, ma'am, that's correct.

Q And so can you please stand up for us?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A Sure.

Q There's a part of the interview where says as Michael Brown is running away from Officer Wilson, he comes to a point near the corner of Copper Creek Court and Canfield Drive and he stops. And then he does something with his hands that if you recall, describes as if he is looking on his body or on his hands in some manner?

A Yes, ma'am.

Q Does he demonstrate for you during his interview how he was seeing Michael Brown with his hand?

A He does.

Q Can you show the jurors what he showed you Michael Brown was doing?

A Sure. He was seated, but he said that Michael Brown's hands were essentially, I'll describe it palms up with his hands and fingers roughly at shoulder height, elbows not touching his rib cage, but elbows at a natural fall, just as I'm demonstrating to you right now. (indicating)

Q When he did that, did he move his head to, again, demonstrate what he saw Michael Brown doing?

A Did

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q , yes.

A Yes.

Q How was he, do for the grand jurors what you saw doing?

A He described it as more of him looking at his hands and kind of looking at his body. He also made reference to looking down at the right side of his body almost as if Michael Brown was checking himself out.

Q Okay. And then he then describes for you, you can sit down.

A Sure.

Q He describes for you Michael Brown turning around and then moving toward the police officer, correct?

A Correct.

Q And what does he say Michael Brown does with his hands as Michael Brown turns around to move toward the police officer?

A That his hands go down.

Q And he describes Michael Brown being, at least the officer shooting a volley of shots that he believes he hit Michael Brown and appeared to him it hit Michael Brown and that his hands, I believe he uses the word go limp at his sides?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A I believe that is correct, yes.

Q Okay. Now, does he ever describe or demonstrate to you Michael Brown having his hands in front of his torso, whether in his pelvis or belly button region?

A No.

Q Does he ever describe for you or demonstrate to you Michael Brown having his hands in the air at the height of his shoulder or head with his palms facing forward?

A No.

Q Does he ever use words or describe to you that Michael Brown was surrendering?

A Use the word surrendering, no.

Q Are you sure at no time during your interview with him did he demonstrate that Michael Brown's hands were up at his sides with the palms facing away from his Michael Brown's body, facing forward?

A He did not, no.

MS. ALIZADEH: Sheila, do you have any questions?

MS. WHIRLEY: Does anyone else have questions? Because I'm kind of reviewing something.

MS. ALIZADEH: I'll give you time. I'll

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

ask a few more questions as well.

Q (By Ms. Alizadeh) Now, Detective, when you talked to , did he draw a map that you helped him label during the course of your interview?

A He drew a map and also identified various points on it and then during the course of the interview, yes, went back and clarified by labeling those.

Q Is a copy of that Grand Jury Exhibit 30?

A Yes, ma'am.

Q And from his description of, during your interview, did he indicate that Officer Darren Wilson's vehicle came from the direction of West Florissant traveling east on Canfield Drive?

A He did.

Q And did he also indicate to you that Michael Brown and his friend were walking down Canfield Drive toward West Florissant or in a westerly direction?

A I would have to check that. I believe he also said they were walking from West Florissant towards Canfield Green Apartment Complex.

Q Okay. And in your investigation when you arrived, the vehicle that Darren Wilson was in, to

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

your knowledge and information, had it been moved after Officer Wilson stopped it?

A No, ma'am.

Q And is the, I know that the vehicle is somewhat at an angle in the roadway, is the front of the vehicle pointing in a northwesterly direction?

A Primarily, yes.

MS. ALIZADEH: Sheila, have I stalled enough for you to figure out what you want to ask?

: This is The view from, that s balcony, did he have a clear view in your opinion of that whole crime scene?

A Yes, sir.

: Okay.

A Yes, sir.

MS. ALIZADEH: Let me follow-up with that. Detective , have you ever been on 's front porch.

A I have not.

Q (By Ms. Alizadeh) Okay. And we've discussed different points of view and what somebody could see from their vantage point, correct?

A Correct.

Q And if was standing on his

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

balcony, he could see the corner of Canfield Drive and Copper Creek Court, would that be fair to say?

A Yes.

Q And he could look down the street and see the location where the police officer's vehicle eventually was, correct?

A Yes.

Q If Michael Brown had turned around at this corner and walked in a direction down the street toward the officer coming from near the grassy corner toward the middle of the street, would have a straight-on view of Mr. Brown at that point? In other words, could he see his front?

A No.

Q Okay. Would he see directly his back or would he see an angle part of that?

A I would say that he would be able to see a slight angle, but see his back, yes.

Q Mostly his back?

A Right.

Q (By Ms. Whirley) The question I have, I don't know if you have the transcript in front of you, do you?

A I do.

Q On page 34. When you are again clarifying

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

whether his hands were all the way up or not and is saying he didn't have them all the way up, but he did have them all the way up, I'm not sure if that's a typo or not. Are you with me?

A I'm with you.

Q Enough to notice this officer should know he was not threatening him, he was not in imminent danger, the boy was not threating him in any way, he's not charging, he was struggling to stay on his feet.

So he didn't tell you, he never told you he was surrendering that is as you said, correct?

A Correct.

Q But he characterized Michael Brown as not threatening the officer in his opinion?

A Yes, ma'am.

Q Okay. And then he was, his hands, he didn't say he had them all the way up, he did have them all the way up enough for this officer to know that he was not threatening him, did he demonstrate what he meant by that?

A I don't believe he did. I took it that he was still making reference to the same posture that I have previously describe.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Say that again?

A I took it that he was making reference to the same posture that he had previously described to us.

Q As not threatening, his hands were up, but he was not being threatening?

A Correct, the hands that I described earlier, hands up, about shoulder height.

Q Okay. And that was the not threatening gesture you took him to mean?

A Yes, ma'am.

Q Okay.

MS. WHIRLEY: That's all I have.

Q (By Ms. Alizadeh) Detective , if you can refer to page seven. And near the bottom of the page where you get to the point where is telling you about how Michael Brown had ran and then he turned and then in the last paragraph on that page, , referring to Michael Brown says, right at the, he had like one foot on the grass and one foot on the driveway, and then he turned around and then he like, like this. (indicating) So that is why people thought he raised his hands.

Is he gesturing or demonstrating when

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

he says he turned around and he like, like this, was he demonstrating?

A Again, making reference to what I had previously stood up and described.

Q Okay. So when he said, he like, like this, that is why people thought he raised his hands, was he making that same motion that you have already demonstrated?

A Yes, ma'am.

Q Okay.

MS. WHIRLEY: Anybody else have questions? . I guess the whole hands up is he -- when you -- I guess, what would be your definition of hands up, all the way up or would they be like this or like that?

A Well, I mean, obviously the two motions that you made your hands were both up.

Okay. I'm actually reading from, I guess, this is page 18. And you say your arms are like palms up and hands and fingers are roughly shoulder length, is that fair enough to say?

MS. ALIZADEH: It is close to the top of the page.

A So if you would, if you would make

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

reference to page 17 on that, at the bottom of the page. We're discussing, this is kind of when we get into the specifics of it, but he says as he faces the officer, I asked him, his hands go up to a point where? And he says about to his shoulders.

So he's making reference, again, and this is kind of what I'm explaining. He is making reference to his hands or his fingers being roughly shoulder height, which is as how he was describing as I am explaining it here. And then we make reference to his elbows, and kind of like I described to everyone earlier, that his elbows were again, close to his body. I'm not saying touching his body, but close to his body in a position like this. (indicating)

And then it goes on, we again clarify palms are up, hands or fingers are roughly shoulder height, is that fair enough to say? And he says, yeah, about close to his shoulders, yes.

So then again, I'm just clarifying with him that we are kind of, we are talking about almost a plane here that would extend from his shoulders to where his fingers or his hands would be. Did I answer your question?

Okay.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

MS. ALIZADEH: Any other questions?

: . And then to clarify that, would that be sustained for you to say that he had his hands up?

A That he, that was saying that Michael Brown had his hands up.

: Yes.

A Yes, ma'am, that he had his hands in the position I described, yes.

If you said halt, would you consider that that person had his hands up?

MS. ALIZADEH: Well, let me say for the record just so we can make clear on the record you have your palms facing forward when you are doing that, correct?

: Maybe I don't know what hands up is. If someone raised their arms, I would think hands up. I would think regardless if my hands are faced this way, my arms are up, to me that's a stop, you see what I'm saying? To me that's what I'm trying to get clarification.

A Okay. Could you ask the question one more time, please?

: My question is, the way that said the way he saw Mr. Brown raise

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

his hands.

A Yes, ma'am.

: Would that be substantial for you as a police officer to say that you said stop, stop or halt, halt, and a person raised their hands, would that be okay for you to say oh, he had his hands up, a surrender motion?

A I would say it would depend on the situation that I was in.

: I mean, so this would be stop. Is it fair to say that he might have been hurt somewhere where he couldn't raise his hands all the way up?

A Well, I think based off of s statement, he was indicating that Michael Brown was, as I kind of described earlier, that he was checking himself to see if he was injured.

So, yes, when you and I are sitting here having this conversation, are my hands up right now, and I'm am demonstrating what I had previously demonstrated the position that had described to me. So if I'm sitting here like this, are my hands up? Yes, my hands are up.

: . Would you consider there is a distinction between hands up in

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

a surrender situation? Could they be separated? Your hands up in the method you described, that doesn't necessarily 100 percent mean that it would be a surrender, it could be a case by case basis?

A Again, like what I had said earlier, I think every case is different and it would depend on circumstances, yes.

: Yes.

A Yes, sir.

: . And again, in the context of 's first interview with you, this comes right as Michael Brown turns around before this first, there is an initial shot, before the first round of shots, correct?

A Say that one more time, please?

: So when is explaining this to you.

A Sure.

: This whole motion. He is saying this comes before Officer Wilson pursues him and shoots the first rounds of shots, correct?

A Correct.

: That's what I thought.

A Correct.

: . I just want to

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

make sure I understand. Everything that he said from what I can see he is talking about having his hands, palms up, rib cage length, maybe out a little bit and looking at himself searching for injuries?

A Correct.

: There is never anything in here where he puts his arms up to his shoulders with his palms out?

A With his palms out, no, but again, remember as I described, he does his hands. I'm not saying to his shoulders, like palms forward facing, but he does have his hands at shoulder, yes, ma'am at shoulder height.

: Okay.

A But with palms up.

: I'm looking at the line of sight that would have as he is looking at Michael Brown. I don't see how he could see the right side of his right hand from the angle he is at. Seems like he could only probably see the left arm and left hand, would you say that's a fair assessment? I know he is looking down somewhat, maybe he can see something over the shoulder.

A Yeah, I think --

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

: His hands are down and he's a big body man.

A I think it would be very, I wouldn't want to comment on that without having been there.

Yes, ma'am.

: I'm . Do you have cause to study police procedures, not only in other states nationally, but also globally as well.

A Globally, no, ma'am.

Not in other countries whatever?

A No, ma'am.

Because what I was wondering is there a standard norm, would this be a surrender motion or is this normally the surrender motion that you see from?

A Again, I think it would depend, every situation is different and every person is different and I think every person reacts differently.

MS. ALIZADEH: And just to let you know, Detective will probably appear on future dates because there will be other aspects of the investigation that he will be needed to testify to. And since he's readily available, we will just bring

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

him as needed as opposed to try to cover everything at this point.

I'm not trying to say you can't ask him whatever questions you want, but don't feel like you have to ask him all of those questions now because he will be available for later, all right?

Any other questions regarding the statement or anything of that nature?

: Just one. I guess with that position, I guess that position that you had his hands, I guess you could clearly probably see at that time that he was not armed if you got your hands this way?

A I wasn't there, but there was never any indication given that thought he was armed.

: Okay, thank you.

MS. ALIZADEH: That thought he was armed?

A Correct.

MS. ALIZADEH: As opposed to Darren Wilson, whatever was in his mind.

: . I'm going to go a little bit. She was talking about, everybody was talking about, could this be the surrender

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

motion and it would depend on the situation. If the situation were you were holding your hands like this, yet still moving toward somebody, would you consider that a surrender?

A Still moving toward someone?

: Uh-huh.

A No.

It would depend on the situation?

A It would. Obviously, it depends on the situation.

But in theory you would not consider this and moving forward a surrender motion?

A (Nods head.)

MS. ALIZADEH: Anybody else. All right this concludes the testimony for today of Detective

(End of the testimony of Detective)

MS. ALIZADEH: This is Kathi Alizadeh with the prosecutor's office. Present is myself, Sheila Whirley, all 12 grand jurors and the court reporter. We just had a brief break and now we are going to continue with the testimony of Detective

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

of the St. Louis County Police Department.

EXAMINATION

BY MS ALIZADEH:

Q Detective , I will remind you that you were sworn previously on September 9th and that oath is still I in effect, all right?

A Yes, ma'am.

Q Just to get back where we had left off. If you recall he has already given testimony about having photographed Darren Wilson's face and neck areas and that he then also talked about having gone back to the Ferguson Police Department and seizing the gun, and you recall he describes swabbing the gun. And now I think we're going to take up from there and Detective , if you want to sit in that chair.

A Thank you.

Q We will kind of resume where we had left off.

I think previously you testified that when Darren Wilson had left the Ferguson Police Department to go to the hospital, he had draped his uniform shirt over a chair, I believe or do you recall?

A I didn't testify to that.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay. Somebody else did, I'm sorry.
A Yes, ma'am. His uniform shirt and his department issued weapon were still at Ferguson Police Department. He was still wearing his white T-shirt, his brown uniform pants and his boots.
Q And now I recall there was discussion that he didn't have anything to change into so he went back to Ferguson wearing his uniform pants?
A Correct.
Q And his boots and his T-shirt?
A Yes, ma'am.
Q So when you arrived back at Ferguson and you've already testified about the gun and how you found it and then what you did with it, did you also photograph and seize the officer's clothing?
A I did.
Q And I'll show you, you've already testified about the series of photographs that you took in your, in the course of your investigation, which I had previously shown you were contained in Grand Jury Number 10. And I'm going to start up again with Image Number 24. If you can put that on the overhead and explain what that is that you are seeing.
A All right. This is the overall view of

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

the front of the officer's shirt as it appeared when it was handed to me. He had just removed it. It was maintained at the Ferguson Police Department and this is what it looked like when I first seized it when photographing it.

Q So are you actually photographing it at the Ferguson Police Department?

A I am.

Q Okay. And so you've laid the shirt out in that manner?

A Yes.

Q Now, as you lay the shirt out in that way, do you, are you doing a visual examination with your naked eye to see if you see any stains or any tears or any defects in shirt itself?

A Yes.

Q And the manner that you have it laid out right there, did you see any stains or defects or tearings in the fabric of the shirt?

A No, ma'am, not as it appears, no.

Q Okay. Then showing you your Image Number 25. Can you describe what that is?

A That is a close-up view of his name tag.

Q And is there anything that is on the name tag or is there a reason why you got a close-up view

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

of the name tag?

A Other than get a specific view that his name tag, he was wearing it at the time of the incident and that's how he was dressed.

Q And so as you see in the image, the name tag is actually still on the shirt?

A Yes, ma'am.

Q Okay. And then in Image Number 25, is that 25? We just did 25, sorry.

A 26.

Q Image Number 26.

A It is a close-up view of his issued police officer badge from Ferguson Police Department.

Q And again, the reason for that would be just to show it is on his shirt on the day in question?

A Yes.

Q Okay. And again, there's a ball point, looks like a pen that's in the pocket of his shirt?

A Yes, ma'am.

Q Image 27?

A This is an overall view of the back of his shirt.

Q And did you visually examine that?

A I did.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Did you see any stains or tears or defects in that shirt?

A No, ma'am.

Q And Number 28?

A It is an overall view of the pocket that is below his name tag.

Q Now, in this image, is this a breast pocket?

A It is.

Q On the left side of his shirt or over where his heart would be, his left or his right?

A It is over his right.

Q Over his right, all right. Is this the same pocket that had the pen in it?

A No, it was not.

Q So does he have a name tag oh, okay. This is the pocket, I understand. All right. And so did you see anything looking at the shirt in this manner that has any stains or defects?

A Not in this manner, no.

Q I'm going to show you Image Number 29.

A This is next imaging sequence when you flip up that pocket flap, there is a pinkish red mark. So being the sequence would be, we showed you an overall view of the pocket as it was. Now we

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

flipped up the pocket flap and in the next few images and we will go through them, we will get closer and we will put a measuring device in it, a ruler.

Q Now, as you see the pocket flap on the pocket itself, on the other side of the flap there was a button, correct?

A Yes, it is a sewn-on button.

Q And that's just for show, I guess?

A Correct.

Q So the pocket, it connects or attaches by the little Velcro on the corner; is that correct?

A Yes, ma'am.

Q And when you lifted up that flap, did it appear to you that the Velcro was still?

A Attached.

Q Attached?

A Yes.

Q And then there appears to be some paper or something inside the pocket?

A Correct, it is a notebook.

Q Okay. Did you seize that notebook?

A I did not.

Q Didn't you examine it?

A No, I did not.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Did you leave it in the shirt pocket?
A No, ma'am, it was removed.
Q Okay. I'm going to show you Number 30.
A That's a closer view of that pinkish red mark.
Q And Number 31?
A That's a view of the same mark with a measuring device on it.
Q And again, you can pass these around when you have time because it is easier to see, but at the time that you are examining this shirt and looking at it, did you know what that pinkish red substance was?
A I knew it wasn't blood. I do not know what the source was.
Q At the time that you are photographing it, did you know it wasn't blood at that time?
A Correct.
Q So you had already done some kind of --
A Presumptive test.
Q -- test, presumptive test before the photographs?
A Yes, ma'am.
Q Okay. I don't need you to go into detail into the presumptive test, it was a test that you

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

did there at the police department?

A Yes, ma'am.

Q Using tools or equipment or substances that you carry in your crime scene van?

A Correct.

Q And a presumptive test will show you what?

A It is a two-part test. Once you moisten your two swabs with the first agent and then swab this area, you remoisten it with a second reagent. If it turns a bright color of pink, it is presumptive for blood.

It's not positive because that's what -- we can't do that, but I did not get a positive reaction. And based on the color and my training and experience I was pretty confident at the time that it wasn't blood, however, if I'm going to be able to testify to the results of that, then I have to do a presumptive blood test. I can't just automatically say, well, that's not blood.

So that's why we confirm this and did not have a positive reaction with phenolphtaleine. Phenolphtaleine, which is as I explained, a two-part presumptive test. I did not get a positive reaction, so it was not blood.

Q Okay. Now, I'm going to show you your

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Image 32. At this point we have already talked about that he wore the pants back to the police station, did he ultimately remove the pants for you to examine and photograph?

A He did.

Q Is that what we're seeing in this image?

A These are the image of his unform pants that are displayed. Officer Wilson or Darren Wilson did tell me that there was blood on his pants. It is easier to see when you look at these photographs at your convenience, but my orange indicator is pointing to the area which did have red stains on it that was identified by Darren at the time of my investigation.

So the pants were removed, he changed into other clothes, the pants were displayed just like his uniform shirt and for orientation purposes, and that is why I put that orange indicator in there so it draws your eye to the center of the photograph so you know what the focal point of that is.

Q And so that would be on the left leg. Are we looking at the front or the back of his pants?

A It is the front, it is his upper left thigh area.

Q Okay. And then showing you your Image 33.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A That is a closer view of that same area.
Q And then finely, your Image 34.
A Again, it is the same area. Now we have a measuring device in there for scale.
Q Now, did you do a presumptive test on that substance, did you swab that pant leg?
A I did.
Q And what was the result of your presumptive testing?
A That was a positive reaction indicating that it was blood.
Q And the shirt and the pants, were they both seized and packaged by you?
A Yes.
Q Now, regarding the shirt, did you remove the badge and the officer's name tag from the shirt?
A I did.
Q You have already indicated you took the notebook out?
A Yes, ma'am, his personal property and that belonging to the Ferguson Police Department was removed.
Q Okay. And so any further examination of any stains on either the shirt or pants or any other substance that might be on there, that would have

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

been done at the lab by other detectives or other investigators, would that be fair to say?

A Other scientists or technicians?

Q Yes.

A Yes.

Q So you don't do the other testing to determine for sure if it is blood or determine whose blood it is or what the type of the blood is or anything like that?

A No, I do not.

MS. ALIZADEH: Do you have a question?

: No.

Q (By Ms. Alizadeh) You packaged up, you swabbed the gun and packaged that and the round that was left in the gun and the magazine, those were conveyed to the lab as well, correct?

A Correct.

Q And the clothing that you testified about that was packaged and conveyed to the lab, correct?

A Correct.

Q All right. Now, was there anything else that you seized at the Ferguson Police Department?

A I took a control, in essence, DNA sample with what's called buccal swab, B-U-C-C-A-L, is how it's pronounced. As a control for our scientists in

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

our crime lab to immediately have a DNA sample from Darren Wilson that they can compare to make sure, either confirm or dispel or verify whether that blood that we believe to be blood on his uniform pants was his.

So to expedite that process, we take a DNA sample from him that was also seized and submitted.

Q That was also conveyed by you to the crime lab?

A Yes.

Q Okay. Was that the conclusion of your investigation while you were at the Ferguson Police Department?

A At the Ferguson Police Department, yes.

Q Okay. What did you do then, this is all still, we're on the 9th?

A Yes, ma'am.

Q Okay. What did you do after you were finished at the police department?

A I went back to the original scene because I was also tasked with the completion of the processing of the Ferguson Police Department marked Tahoe vehicle. We requested one of our contract towing services to meet me there on scene. I

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

watched him load the vehicle and he was escorted to our crime lab where we have a vehicle processing area.

So when that vehicle was escorted by me, it was unloaded, placed in our processing area and I completed the processing of their police vehicle.

Q So now the jurors have already seen some photographs of the vehicle at the scene, those were not taken by you; is that correct?

A No.

Q Your photographs were at the processing area?

A Correct, 111 South Meramec.

Q Did you do anything to process the vehicle while it was at the scene?

A No, ma'am.

Q So once you got the vehicle towed to the garage where you were going to begin the processing of that vehicle, what did you do?

A Once it was placed into our processing area, the area of concern was the driver's door area. The driver's mirror had been pushed back, it has flexible mirrors that was an area of concern.

There was broken glass inside the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

door. I had already been informed that Darren Wilson had fired a round through the door, so I had a certain defect in the driver's door.

I was requested to fingerprint the outside of the door and also swab for potential DNA sources on the top edge of the door where the window comes out of the door there is a rubber strip there. And also there was some red stains, which we believed to be blood on the inside of the driver's door. So all of that was completed in my investigation.

Q And so initially, and I know you took photographs of the vehicle while it was in your garage?

A Yes.

Q Is that done first or do you do the other testing and investigation first?

A That's done first.

Q The photographing?

A Yes.

Q And so let's start with your first image of the vehicle, which is Number 35.

A This is an overall view of the interior of the driver's door so you can see the entire door panel.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Now, I know we'll see photographs in a few minutes, this white or lighter color marking right here, is that a defect in the panel of the door?

A Yes. That's where the projectile entered the door.

Q All right. Showing you your Image 36.

A This is a closer view of the interior door handle area. You have red stains here, you might have to pass this around.

: . If you could push it down a little bit lower.

MS. ALIZADEH: This might, I don't know if that battery is going dead. All of this area here has red stains on it here and here, all of these darker marks are also red stains. There is a line here. The reflection is such it is difficult for you folks to see, so please look at it later when you folks have the opportunity.

Q (By Ms. Alizadeh) Those red stains that you pointed out, did you suspect that could be blood?

A Yes.

Q And did you do any presumptive testing of the door handle at this time?

A Yes.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Okay. And what was the result of that presumptive testing?

A It was positive.

Q And then did you also swab that area and preserve those swabs and packaged them to send them to the lab?

A I did.

Q And just so we're clear on this, when you do the presumptive testing, you do that by using swabs, correct?

A Yes, a very small area.

Q Okay. Is that the same swab then that you sent to the lab for further testing?

A No.

Q So you do a separate swab?

A Correct.

Q And when you do that second swab, you don't use those same chemicals that you talked about?

A No. When we are taking swabs for DNA, all we use is sterile water. All we do is moisten the tips of the cotton swabs. If it is a dried material, which this was by this time that I was involved in this. So to get a complete sample, all you need to do is moisten the tips of those, swab it

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

and then replace it in the container and then forward it to the crime lab.

Q And then on your Image Number 37.

A That's a closer view of the door handle with those red stains with a measuring device.

Q Image 38?

A Another area on the top sill of the driver's door interior, also red stain again, again with the measuring device.

Q And those are your fingers in the pictures?

A Yes.

Q So you are gloved the whole time you are processing this car; is that correct?

A Always.

Q And then Image Number 39?

A It is just further back toward the door handle, the same area of that door with a scale.

: . Are you also taking fingerprints too?

A Yes, ma'am. We did that on the outside of the door.

: On the outside?

A Yes, ma'am.

: Did you take any on the

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

inside of the leather?

A No, ma'am. That's not a conducive surface for me to get a decent fingerprint evidence. It is rough, there could be some other foreign materials on it when it was cleaned. I really need a decent surface to retrieve that fine ridge detail, that's why I did not fingerprint.

Q (By Ms. Alizadeh) So the exterior of the vehicle would be the painted metal?

A Yes.

Q There's no glass in this window, correct?

A Correct.

Q And the trim that went around the window?

A Yes.

Q Showing you exhibit, or your Image Number 40.

A This is an overall view of that defect where the arm rest meets the door panel. There's a defect in there from earlier, this is just a closer view, going to be a series which we will walk through.

You can also see in this that there is also wet stains here and here and here.

Q Showing you Image Number 41?

A That is a closer view of that same area.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Image Number 42?

A That's a closer view of that same area, specifically the bottom edge with the measuring device.

Q Now, starting with Image Number 43, can you describe what you're seeing and what those things are on the edge of the car. Let's do this.

A As asked, the exterior of that is processed with fingerprint powder. Once I developed latent fingerprint evidence, then those lifts are removed by placing lifting tape on there. We also photograph those latent lifts in place and our system is that there are always, we always use letters on latent lifts and we try to use numbers on evidence.

So every one of those is numbered A through E. and they're always photographed in place.

This was the area that I developed latent fingerprint evidence and so based on the information that I received, that's where we determined to be the best area that they were concerned about as far as retrieving latent fingerprint.

Q Now, the tape that you see in these photographs, when you remove that from the surface

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

of the vehicle, what do you do with that tape in order to preserve it?

A They're placed on what's referred to as a liftback. In essence, it is a bright white card. So you would have contrast or latent fingerprint examiners can compare that to known or ink impressions. Be it from other police officers, Darren Wilson, anyone.

That's how they make those comparisons.

Q You're not the person who makes those comparisons, correct?

A No, ma'am, I'm not a latent examiner.

Q So your job is to search for areas, make a determination of where you might find some latent fingerprint or palm print perhaps?

A Correct.

Q And then you did visualize it by putting that?

A Develop those with fingerprint powder.

Q And then lift them off the surface?

A Correct. And then they're submitted to our fingerprint unit.

Q Okay. And how many lifts did you do in this case?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A I had prints A through E.

Q Did you process any other part of the vehicle for fingerprints?

A No, I did not.

Q I'm going to show you your Image Number 44. Can you describe what we see in there?

A Once we had photographed the outer part of the interior door panel, in order to retrieve that projectile, that door panel was removed.

Also when that projectile went through there, it also damaged part of the inner door skin. And also went through and struck the outside of the door, which I believe another detective had photographed. It looks like a bump.

So once I retrieved that projectile and there is some other documentation there also in the bottom of this, so we have overall view of it. All of that glass I had to sift through in order to retrieve that projectile.

So to tie this into a photographic series, we take an overall view of the door, meaning the source of where we recover the projectile from. We orange triangle by indicator in that pile of glass is where I retrieved the projectile after scooping all of this out from inside of the door.

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

So that is displayed there for you and further sequencing.

Q So when you say you scooped the glass out, was the glass inside this area down?

A All down in there, yes.

Q Down in this area, but behind this metal panel?

A Right.

Q So you had to actually scoop it out with a tool or with your hands?

A My hands.

Q As you scoop it out, are you just dumping it on the ground then or does it fall on the ground there?

A No, I'm taking out small handfuls by small handfuls. I don't want to lose anything else, maybe this projectile fragmented, maybe there are sharp edges to it. So we're very cognizant as far as trying to retrieve as much evidence as we can.

The good thing for me as an investigator is the projectile is pretty much intact. So we didn't have a lot of small, minute pieces of metal that were not directly related to that projectile.

So as I'm doing it, I'm carefully

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

putting in a pile, going through every handful. When I finally retrieved, determine that it was a projectile. It is left right there and we start our sequence as far as taking photographs.

Q So showing you your Image Number 45, what do you see in that image?

A This is an overall view of where that projectile, once it went through that plastic door panel entered the interior metal skin of that door.

Is just an overall view of it. The focal point in the center of the photograph will be right about here, which you will see when you get further into the seats.

Q Image 46?

A This is a closer view of it. The area of concern is right here. (indicating)

Q And so a little clearer, actually, looking at the image with your own eyes.

I guess from the very top of it, maybe at the one or two o'clock position, there is a defect on the metal?

A Yes.

Q Okay. Showing you Number 47?

A That's a closer view with the scale next to it. The area of concern, again, is this upper

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

portion right here. (indicating)

Q So when you could see the car in your garage, could you see that defect that was on the outside of the door?

A Yes, it was pushed out or bowing out.

Q And does the location of that defect correspond with where that mark, the defect was on the my of the insides of the door?

A I would say it is consistent.

Q Okay. You didn't take any measurements to or anything to determine?

A No, ma'am.

Q Okay. All right. Showing you your Image 48.

A This is a closer view, one of a series as far as we orientated originally as far as the source. The interior of the door, we have the pile of glass that I had gone through, the projectile with the orange indicator, and that was just a closer view of the same area with the indicator and projectile.

Q Image 49?

A This is a close-up view of it. Again, the indicator and the projectile recovered hasn't moved. It is just a closer view of it.

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

Q Is that 50?
A It is and this is a closer view now with a scale.
Q And so can you use the laser pointer and point to what we're seeing as the projectile?
A Right here.
Q You recognize that as a spent projectile?
A Yes.
Q So what did you do with that projectile once you found it?
A It was packaged, marked and forwarded to our firearms examiner.
Q And is that the same place where you forwarded the weapon and the pieces of the weapon, the magazine and the spent round?
A Correct.
Q Not spent round, a live round?
A Live round.
Q Okay. Did you do any testing to determine if there was any substance on that spent projectile?
A No, I wouldn't do that. Our firearms examiner would do that.
Q So if there is blood or anything on there that's not something that you would have looked at or tested for?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A No, ma'am.

Q And how about the glass, did you take samples of the glass?

A No.

Q Are you aware does the St. Louis County Crime Laboratory do any testing on glass as far as breaking patterns or matching up broken glass?

A Our crime lab does not do that. They don't do crashing matches, they don't do comparison as far as the chemical make up of the glass, properties of the glass, as far as the matching of the glass.

Q (By Ms. Alizadeh) after you finished processing this vehicle, did you put the vehicle back together?

A No, ma'am.

Q What became of that vehicle?

A It was towed at the request of Chief of the Ferguson Police Department to go back to the Ferguson Police Department.

Q So you didn't put the door panel back on or put anything back together?

A No, ma'am.

Q Did you take any measurements of the vehicle?

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

A No, I did not.

Q Did you have any other investigative things that you did in regard to this investigation into the shooting of Michael Brown?

A No, ma'am.

MS. ALIZADEH: Does anybody have any questions?

Okay that will be it for the testimony of the Detective .

(End of the testimony of Detective)

MS. WHIRLEY: We ready? We're resuming, it is approximately 4:03 p.m. I'm Sheila Whirley, not Shirley Whirley, also Kathi Alizadeh is here, the 12 jurors, and the court reporter. We're going to hear the recording that was an interview with , Detective on August the 9th, 2014. The day that Michael Brown was shot. And this is approximately 2:19 p.m. that the interview was being conducted. And this interview was . And we'll spell , it is spelled . So I'm going it commence now, it is a little less than a hour so should take us up to a good time.

MS. ALIZADEH: We don't need, for the sake

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

of the court reporter, we have provided a transcript to all the jurors, as well to the court reporter, and also at this time we can pause the audio recording while we play this so as not to duplicate things.

MS. WHIRLEY: Okay. This is the playing of the interview of .

(The interview of is being played at this time.)

MS. WHIRLEY: That concludes the recording of It is approximately 4:38 p.m. our time. And her interview went from 2:19 p.m. until I believe 2:52 p.m. on August the 9th of 2014. Do you have anything else, Kathi?

: What was the Grand Jury Number Exhibit?

MS. ALIZADEH: Of the disc?

: Yes.

MS. ALIZADEH: This was Disc Number 24, which has a bunch of different recordings on it. We don't have anything else lined up for today. So I guess we'll let you go at this point. And hopefully, we're going to end at 2:30 on Thursday. So hopefully we'll have our plan is to play another taped statement of which is about another

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

hour. And then hopefully have testify for you and then we have a couple other witnesses coming in so we will hear their statements before they come in as well. So hopefully we will get three eyewitnesses done tomorrow.

MS. WHIRLEY: Thursday.

MS. ALIZADEH: Or Thursday. So we are chugging along. Any questions anybody has or any concerns? And I hear, I'm going to meet with Bob McCulloch about maybe communicating with people out there about the process of the grand jury and why it is not going to be done this Friday and so forth.

: . I think he has done pretty much getting it out there. I think the community leaders need to back him up and confirm what he's saying, I mean. I'm quite sure the process is written somewhere in the book or law books or whatever and it is pretty out there what the process is, they just need to tell, I think, the community to try and get some stability back into the community.

This is what, this is what they're doing, this is what they need to do. I mean, if I were in Michael Brown's or Darren Wilson's shoes, I would want somebody to know everything before you make a

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

decision what happens to me or my life or what I did or what I didn't do.

MS. ALIZADEH: And that was, you know, Mr. McCulloch's, pledge at the very beginning that you all would hear everything. I know it is very tedious at times, but as you are beginning to see, there is a lot of people that see different bits and pieces, a lot of different viewpoints, a lot of different statements and so, you know, it is going to be up to you guys to sift through that. We don't want to leave anything out. Down the road after this decision is made, I don't want somebody saying, well, you didn't call this person.

But as far as the community leaders, you know, that's going to be something that is up to Mr. McCulloch. And as you know, there have been a lot of those same people have called for him to recuse himself and not be the prosecutor on this case. I don't know what kind of communication would happen between them if there would be, but I hear you and I know what you're saying. But ultimately, Sheila and I are we're just doing this part of it, it will be up to Mr. McCulloch to decide how to handles that kind of public relations issue.

MS. WHIRLEY: We will convey it to him

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

though.

MS. ALIZADEH: Okay.

Could you maybe just do a little research too to see if there has and how common it is that a grand jury would release a statement with their ultimate decision at the end? I don't know that we would ever want to, but it might be an option to help calm things or a thought.

MS. ALIZADEH: It is funny that you say that and I think, I don't know if you guys have asked that before. I mean, I have been here 26 years and, um, actually even before Bob McCulloch was the elected prosecutor. And never in my experience, now I know that we have had several grand juries conduct investigations into excessive force involving police officers, whether it be shootings, whether it be homicide or an assault where a person wasn't killed, I'm not aware of ever being a statement released after the grand jury has made its determination.

MS. WHIRLEY: I'm sorry, Kathi, let me make sure I understand. Were you suggesting that a grand juror would make a statement?

: I'm not actually suggesting that we want to, just was wondering if it

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

ever happened or was that in the history of that or kind of like you were going through what the debate time we would also continue if we didn't have a certain number going to look into that. I'm curious as well if there had been any historical point of grand juries doing that. I don't even know if we would even want to.

MS. ALIZADEH: I'm not aware of anything like that ever happening.

: I don't think, one thing, I don't want them to know me or know anything. I don't want anything out there.

Yeah, we would never make a statement with names.

: But for me, I don't want nothing to do with any release, the press, the news.

: Just to be clear, it wouldn't be an individual statement.

: I do the best that I can.

MS. ALIZADEH: I'm not sure what your charge is. I know that the judge read the charge to you as to what your duties and obligations are. I don't know how that extends beyond your term. Like, you know, I know when we have a trial, the jury is told they can't discuss this with anyone, but at the

Electronically signed b 5f0a1bf4-5457-484d-a10e-961a43f62843

conclusion of the trial that admonition is lifted and they're told you can discuss this with whomever you wish or not at all, it is up to you.

I haven't seen what the charge is that the grand jury gets. I don't know that if the grand jury is allowed to talk about this after the fact. I'm not sure about that and we can look into that, but what I'm guessing or I'm thinking, and you all, you know, again, there's nothing written in stone right now, but you are talking about the possibility as the grand jury as a group preparing some kind of formal statement that would accompany your decision. And it wouldn't be like your names would be attached to it, you would agree on some kind of statement that you would want to make about whatever you would want the public to know about that.

I'm not aware of that ever happening and so I'll look into that to see if that's even possible. Obviously, if they say no because your admonition is not lifted after, then you can't talk about your, the process and your deliberations and the evidence that you heard.

So I will look into that.

Thank you.

MS. ALIZADEH: I haven't forgotten about

Electronically signed by 5f0a1bf4-5457-484d-a10e-961a43f62843

the fact that you all are interested in getting some law and we have talked about that too. We just haven't had a lot of time.

We do have another attorney who is going to help us do some of the background research and stuff like that, we just kind of got him. I feel like we have an assistant now. So it will be somebody that can help do some of this background research and go over some things. Give you whatever answers or information you think you, need, okay?

Everybody have a great evening and this concludes the session of this afternoon on September 30.

(End of the September 30, 2014 Grand Jury Proceedings.

GRAND JURY HEARING VOLUME IX

MS. WHIRLEY: I'm Sheila Whirley, of course, Kathi Alizadeh, the 12 grand jurors are here and is here taking town everything we're saying this morning. We are going to start out with the witness that we talked about last time we were together that's .

Before she comes in, however, she is here waiting to give testimony. Before she comes in we're going to listen to a statement that she gave to the federal, during the federal investigation, FBI and U.S. attorney and well a couple of attorneys from the Department of Justice. So we will hear that interview. It is probably in totality an hour and 13, 14 minutes, something like that.

We have the transcript that Kathi will pass out in a moment and she wanted to let everybody know that we just got the transcript, I believe, last night.

MS. ALIZADEH: This morning.

MS. WHIRLEY: This morning. We haven't had a chance to proof it. So as you are listening and you read, if you hear something different than what's printed, what really count is what you hear because that's in 's words.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Someone else is listening and transcribing what she has to say, but the real evidence is the actual statement that she's giving, the audio recorded statement. So with that little bit, is there something wrong?

MS. ALIZADEH: No.

MS. WHIRLEY: They had a break, it is going to be like two different recordings because they take a break and then they come back on a second recording that's only 13 minutes, and the first one is a little over an hour. So with that bit of introduction, we'll stop recording, and then we'll play.

(The interview of is being played at this time.)

MS. WHIRLEY: I didn't say the date is October the 2nd, 2014 and the exhibit that you just heard the audio recording was Grand Jury Exhibit Number 23.

We do have that witness here and it is approximately 12:07 p.m. now. We'd like to go on with the witness. Lunch will be here momentarily, if it is not here already. Can we do the witness and then lunch? Okay.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q Introduce yourself to the jurors and spell your name for the court reporter.

A Okay. Hello everybody. My name is , last name ,

Q And, as you can see I'm standing back here so that when we have a conversation when I ask you questions, you answer, you will speak up loud enough so I could hear you.

A Okay.

Q That way we'll know all the grand jurors can hear you too, okay?

A All right.

Q We've got a map up here and that's Grand Jury Exhibit Number?

MS. ALIZADEH: 25.

MS. WHIRLEY: 25.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q (By Ms. Whirley) You've got a pointer, you know how to use it, right? I'm going to ask you some questions and I want you to be able to show us up on the map, there you go, is that okay?

A Yes.

Q Good, all right. So show us, first of all, where you live currently if it is on the map?

A Right there. (indicating)

Q What's that address?

A , Apartment

Q And that's on, what's the street, is that Canfield Drive?

A Yes, Canfield Drive.

Q And you indicated on the map where that's located, is that like a first, second, third floor?

A Third.

Q It is the third floor. Okay. Now, you know why we're here?

A Yes.

Q This is about the Michael Brown shooting?

A (Nods head.)

Q And that occurred on August 9th of 2014. Do you remember that day pretty well?

A Yes.

Q And that would have been a Saturday,

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

correct?

A Yes, ma'am.

Q Okay. Now, it was somewhere around noon; is that right?

A Yes.

Q Tell us from the beginning what you saw, what you know about the Michael Brown shooting?

A Okay.

Q Speak up loud enough.

A Sure. Start from the beginning of the day or the beginning of everything that I saw?

Q Let's start with the beginning of your day.

A Okay. I woke up that morning, I was waiting to have my boss to come get me for work. We were supposed to be heading out a little ways before that evening, I'm sorry, the afternoon, she called me.

Q I'm sorry, I didn't hear you well. Will you tell us what you were going to do at work that day?

A Oh, no, we were heading off for work.

Q Heading off for work?

A Right.

Q What kind of work do you do?

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

A I'm a sales consultant for

Q And that's the job with , she's your employer?

A Yes.

Q Okay. And what were you going to do that day, on Saturday?

A I don't remember like because the way we work is we go door to door, but I don't remember where exactly where we were headed that day. We were going out to work.

Q You go door to door and do marketing or sales?

A Yes.

Q What are you selling?

A We're technically not selling, it is energy, the regulation of energy through Ameren.

Q Okay, all right. Go ahead.

A Okay. So I was calling her to ask her if I could probably get a ride. I didn't have another ride that day and she was just saying, yeah, that was early, around 8 or 9 o'clock. She said I will be there shortly. I'm waiting for her. I finally get a call from her, I was cleaning my room, which is right there on the very corner.

Q Can you get the light on?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yeah, which is right there on the third corner. So I'm sitting in my room.

Q Here?

A Yeah.

Q Okay.

A I'm sitting in my room and I look down at my phone and I'm getting a call from . At the same time I'm getting a call from her, I hear tires screeching in the middle of the street. We had gotten into a car accident about a couple weeks before that, so that already made me go to check on her, hopefully she didn't hit anybody or she didn't crash or anything like that. So that's what drew my attention outside the window. I then looked out the window and just noticed the police car outside.

Q And where did you notice the police car when you looked out the window, where on the map, show us?

A It is like a police SUV, not a smaller car, a bigger one, it is about right there, sorry.

Q Do it again. If you need to stand up, you can. You don't have to, it is up to you.

A Okay. It is right around there.

Q Okay. That's where you saw the car from your window here?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yes. I had noticed that 's van, it was right around here. I could still see her too.

Q Was she driving when you noticed her or was she parked?

A She was at a standstill.

Q She was in the car, but it wasn't moving?

A Yes.

Q And where was it again?

A Right around here.

Q Okay. There is her car right around there?

A Yes.

Q How was the police car stopped in the street?

A It was in the middle of the street, slanted.

Q Okay. Slanted?

A Slanted towards basically this way.

Q And what street would that be?

A This is West Florissant.

Q So it was facing west?

A Yes, that is West Florissant, it was facing West Florissant.

Q West Florissant, okay. So, and then what?

A Okay. Where was I, I looked out of my

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

window and I saw a glimpse of just the top of a hat.

Q What color?

A It was a red hat.

Q Okay.

A The glimpse of a top of a hat, just next to the vehicle and I just saw a movement, a jerking away movement.

Q A movement of what, the car or person what was the movement?

A It was an arm.

Q It was an arm?

A Yes.

Q Did you later learn whose arm?

A Yes, I later found it was Michael Brown's arm.

Q Michael Brown's arm?

A Yeah.

Q You saw a jerking of the arm?

A Yes.

Q And then what?

A Okay. It was like simultaneously as I'm getting a phone call, I hear the tires screeching and I look out the window and I hear gunshots at the same time. Because this all happened very quickly, this gunshot.

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

I'm looking out my window, it is just a couple, two or three, I'm looking out my window. I notice that they're coming from the exact direction as the police car. I notice that they're coming from the direction, the direction that the police car vehicle, so still right there. It was really loud because it was right outside my window.

Q Okay. You said the shots were coming the direction of the police car?

A Yes.

Q Did you make any assumptions about that?

A I did. I, um, in the beginning stages I did make assumptions. I thought that, couldn't really tell, you couldn't tell, but I thought that maybe a bullet hit the police car, maybe it hit the building into the police car. It was just like, you could hear an extra oomph, you know what I mean?

Q You didn't know what had occurred, but you heard --

A Yeah.

Q -- but you heard the sound of shots?

A Yes.

Q Okay.

A Just right next and that all happened like simultaneously.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Once you heard the shots, what did you notice next?

A I looked away to grab my purse because I was looking for her car, but I noticed it was fine, but I was going to go outside and go to her, but I decided to not go outside because of gunshots outside my door. I grabbed my purse and head back to the windows.

At this moment I'm headed, I'm looking out the window, it is facing towards this street now.

Q This is a different window you are looking out?

A Yes, this is the window from my balcony.

Q Okay.

A A big glass sliding door, it is a window and door you can walk straight out.

Q Were you still inside the apartment though?

A Yes, I was. So I'm at the balcony and I just notice other police officer run down the street, just running, chasing, who knows, he's just running, to me he was running.

Q Could you see who he was running after or why he was running?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A At the time I couldn't, my focus was on this car that was right here in front of my apartment. The car is right there.

Q So what was the proximity of the car to the police car, to the police truck?

A The car, okay, the police car, or the police truck is right here in the middle of the street, somewhere around here. And the other car was like in front of this Canfield Drive sign, so it is just right there, right in front of my window.

Q So right behind the police car?

A Yeah.

Q What kind of car was that?

A It was a Monte Carlo, two-door car.

Q What color was it?

A It was a dark color, it was black or a dark blue car, like a dark, dark blue, but I'm pretty sure it was a black color.

Q Okay. Why did that car draw your attention?

A I saw somebody I recognized like crouching next to the car. It was, I call him DJ, it was Dorian Johnson. He was just crouching next to the car. I originally thought the police, he'd been involved in something and he was hiding, but the

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

police just ran right past the car like not even looking no other directions, ran right past it. So he's just still kneeling and that's when I start to think he must be hiding from the police because there's --

Q So did you hear some more shots after you heard the shots from you thought was in the car, or around the car?

A Yes. As I'm looking down at him, I'm hearing more gunshots.

Q As you are looking down at whom?

A At Dorian and like he's right in front of me. So I'm looking kind of down when I see him.

Q Do you know where the shots are coming from at this point?

A I could tell that it was following the police, so the police was the one shooting the shots. It was like, my eyesight is coming from a car area at first and now it's coming from this way. (indicating)

Q Okay. So there are shots coming, the officer is running, or shots being fired and the officer is running, do you see anybody else at that point?

A No, my um, my vantage point gets blocked

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

off from the police running because he runs behind, how do I explain this, this little small wall right here. He just runs right around there somewhere.

Q So he runs past the wall?

A Yeah.

Q And at that point your vision is blocked, by the way?

A By the officer, yes.

Q How far did you see the officer run to?

A From his car down.

Q Show us where, how far you saw him run?

A If his car was right around this area, he ran straight past the Monte Carlo, straight back where I can't see him any more, about right around here. (indicating)

Q So not quite to the intersection?

A Yeah, not quite all the way over there.

Q Okay. And that's the intersection of Canfield Drive and Copper Creek Court?

A Copper Creek Court.

Q He didn't get to that intersection?

A No.

Q Did you see the officer stop running?

A No.

Q What did you see next, you say he's

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

running?

A Okay. As I'm glancing down and Dorian, I heard the gunshot as I notice the officer running past me. I just glimpse at the officer, I wasn't too much paying attention to him because I'm more thinking about what is going on next to this car. There is also people inside the car and it appears to me like Dorian was going to hop in it and just leave, but that never happened.

I just have a glimpse, what I presume to be a kid, I don't know why I thought it was a kid, but he just looked young, you can tell somebody young. He just turned around at this moment, nothing is blocking any more, and I can see somebody turn around was starting to put their hands like this. (indicating)

Q Before you get to that, where did you see the person, I don't know if you say you saw him stop running or saw him turn around, did you see that person referred to as Michael Brown, did you see Michael Brown stop running or running at all?

A When I, um, saw him, I hadn't known that it was him by the vehicle at first, I didn't draw that connection. By the time I got over here, like I saw it was almost over, basically the color of the

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

hat. There was no person with a hat on over here, never got the connection at first. But I saw him like get out of the blockage. So he was moving towards this way. (indicating)

Q Who?

A Michael.

Q He was moving toward?

A This way. (indicating)

Q This way?

A Yeah.

Q Where was he when you first got sight of him after your vision was blocked by the wall or whatever?

A He was right around here. (indicating)

Q And that car is not related to this case?

A Okay.

Q So where did you see him?

A It was like right around where his car is.

Q At the intersection or not quite the intersection?

A I just say the intersection.

Q So he was closer, some feet away from the intersection of Copper Creek?

A Exactly.

Q On Canfield Drive when you saw him?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yeah.

Q And when you first saw him in this area, was he moving at all, tell us again what he was doing when you first saw him?

A When I first saw him he was coming to a still and turning.

Q So he had been moving?

A Yes, you could tell because --

Q Show us what you saw?

A Okay.

Q If you don't mind, please.

A Sure thing. Okay. He's moving his body this way, can everybody see me? I'm sorry, he's moving his body. I don't know, I couldn't tell, he was most likely running too.

Q Tell us what you saw?

A Okay. This way, this is what I saw basically.

Q Okay.

A At that moment I start hearing just a great deal of shots. I could not say how many shots it was, after that it was a great deal of it.

Q So at the time you demonstrated for us that he was turning around because at first his back was to where you saw the officer running?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yes.
Q And he was turning around facing the officer?
A Yes.
Q Could you see the officer too at that point?
A I still could not see the officer.
Q So the officer now was blocked, but you could see Brown?
A Yes.
Q And he turned around and this has been important and we've heard a lot about hands up, so once again, demonstrate for us turning around and the hands?
A Okay. I saw him turn to his right, turned around, but as he was turning, I'm sorry, he was like this. What I was saying was that I didn't see like a big all the way up there kind of thing, I just saw a turned around kind of right here. (indicating)
Q Kind of shoulder high, hands up?
A Yes.
Q But his palms were like facing the officer?
A Yes.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Did you see any blood?
A I did not see any blood.
Q Did he appear injured to you?
A No, he didn't. Not at that point.
Q And when he was standing there with his hands up, did you see him move at all?
A No, okay, that's the part I want to get to. After that, it was just a lot of gunshots. So at this point, I'm looking out my window. I guess I either glance back at Dorian or I flinch or I do something to where I take my eyes away and next thing I know, he is falling down.

So I never saw him make any more movements except for a lot of shots and he started falling down. He fell on his knees and he hit his face on the ground.

Q When you saw him falling down, did he appear to be at the same spot that he was when you saw him turn around?
A In my recollection he was.
Q When he fell down, where was he?
A Right around the same spot. Right around that area. (indicating)
Q Do you recall how many shots you heard?
A No, ma'am.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q When he turned around?
A No.
Q Did he appear, because you can see him now, right, when he turned around you had full view of him, but not the officer?
A Yes, the officer was blocked.
Q Did he appear to be reaching for anything?
A No, ma'am.
Q Did he touch his waist at all?
A No.
Q So you saw him actually go down?
A Yes.
Q And hit the ground. I don't want you to hit the ground, but can you demonstrate how he went down?
A Okay. But now from my point of view I'm just looking at his knees, but I'm sure it wasn't that slow, but like a fast, knees, boom and falling forward. (indicating)
Q Okay, thank you. Did he move any more after that?
A No.
Q Okay. And what did you do after you saw him fall to the ground?
A Started crying.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Started crying. Okay. And then as you are crying, what happens next? I'm going to get you some napkins.

When you saw him fall, then you say you started crying, then what happened next?

A I just ran to my room where I left my phone and, um, the condition of my phone is incredibly horrible. I dropped it, it was cracked in many spots. You cannot really see the screen, that wasn't my first intention was to get my phone. I just ran back like I have to make this work somehow. I ran back, got my phone and just started recording everything that I saw from that point on.

Q Okay.

A I just hit the record button and have my phone, even though you couldn't tell on the screen, see the screen.

Q Did you call anybody or talk to anybody?

A No, I was too shocked.

Q Okay. And at some point you, I think this maybe --

A I'm sorry, after I left, after like the whole aftermath happened, I did make a couple phone calls, but not like during the whole part where they took the tape up and all of that. I was mainly on

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

my balcony after things started, after an hour or so passed, I started getting phone calls and then making them.

Q How long was it after the shooting did the police contact you for a statement that day?

A Probably about an hour and a half.

Q Okay.

A Two hours.

Q How did they know to contact you?

A Because they saw me and standing right there.

Q Standing?

A On my balcony.

Q At this point you were both standing on the balcony?

A Yeah.

Q Do you remember what you were wearing?

A I had my uniform on. once she came to my balcony, she said we can't be out here with our uniforms on, we have to change shirts. You have a shirt that I can wear? I went in my room and gave her one of my shirts.

MS. ALIZADEH: I'm having trouble hearing you, .

A I'm sorry.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

MS. ALIZADEH: I want the jurors to hear you. It is okay for you to talk in your direction, but can you talk a little louder so I can hear you too.

A Yes, ma'am.

Q (By Ms. Whirley) What color are your work shirts?

A They're anywhere from orange, to blue, to black. I just gave her a normal shirt.

Q What did you have on?

A I put on a black shirt.

Q A black shirt. Did you have on a black shirt before then?

A No.

Q What did you have on before then?

A Before I got dressed, I had on a, pretty sure my blue uniform shirt.

Q You're not sure though?

A I'm pretty sure.

Q Okay. Now --

A She had on the same color.

Q Okay. Dorian Johnson, you mention him, I think you refer to him as DJ?

A Yes.

Q So you know him?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yes.

Q You knew him before this day?

A Yes.

Q How well did you say you know him, did you socialize with him?

A He was the very first person I met when I moved there, like the month before I had moved there. He was just walking down the street. I said, hey, I'm going to be your new neighbor, I'm going to need a friend and we started after that.

Q How long did you live there before this happened?

A From July the 1st, I moved in July the 1st.

Q And this was August the 9th. Now, did you know Michael Brown?

A I did not know that I had met him if that makes sense. Somebody standing outside tells me like hey, this is the guy we were with that one time, you know, kind of thing. I didn't immediately recognize him at all.

Q So do you ever recall whether or not you socialized with him?

A I still don't remember exactly what it was, but the memory of what I was doing that day is

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

in my head, I still don't remember interacting with him.

Q Okay.

A But I know I've been in the same room with him.

Q But somebody told you that he had been in the same place you had been?

A Yeah.

Q Did you remember it then when he told you that?

A I remember the incident, I can't remember him like that.

Q Did you actually talk to him?

A He said I did, but I can't recall the information if we did talk or what we would have talked about and everything.

Q Okay.

A Yeah, somebody had to actually point out to me who it was.

Q Now, at some point do you go outside your balcony, I mean, from the inside of your apartment to the outside on your balcony?

A Uh-huh.

Q Do you go down to the front? And you said yes to that question, right, that you go out to the

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

balcony?

A I believe out of my door, yes.

Q Okay. Let me, I wasn't real clear. At some point did you go out onto your balcony outside?

A Yeah, okay, yes, I was standing on my balcony.

Q My next question was, at some point did you go out of your apartment to the ground outside?

A Yes, later on. We were trapped inside the yellow tape for quite a little bit.

Q Not until the police allowed you to?

A Basically.

Q When you are outside on the balcony, is that where you tape that or recorded, you actually went outside to record?

A Yes.

Q When Michael Brown dropped to the ground, were you inside or outside?

A I was inside.

Q You were inside. I'm going to step back here so you can talk.

A Okay. I was inside.

Q You were inside. What I'm trying to find out, did you see the officer when you went out?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Okay. When I went out my door, there were two officers there at this time.

Q Okay. The first time you went out on your balcony outside, there were two officers there?

A Yes, there was already another officer on the scene by the time I went and got my phone, picked it up and put it on the camera and walked outside, there were two officers there.

Q And that's when you started recording?

A Exactly.

Q You didn't see the officer when Michael Brown was actually shot?

A Exactly.

Q He was out of your view?

A Yes. So I don't know the proximity they were in.

Q That was going to be my question, but you answered it. Now, there's been some discussion about, I'm sure you have heard this, you have been interviewed a few times; is that right?

A Yes.

Q You have given interviews to the media, you've talked to the FBI, to the police?

A Yes.

Q We're trying to make sure we get things

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

clear, probably everybody asking you probably the same type of questions.

At the window, when you first saw Mike Brown at the window, are you sure of what you saw regarding the arm and pulling and that kind of thing?

A Yes, I had made an earlier assumption that he was being pulled because why else would you be jerking from the police.

Q When you say jerking, can you show us what you saw?

A Like just a quick movement, like a quick arm jerk. (indicating)

Q You saw that?

A Yes.

Q Regarding the shots fired before Mike Brown fell down, you recall how many shots you heard?

A No.

Q No?

A Yes, no.

MS. WHIRLEY: Anybody else have any questions? Well, Kathi, let's start with you.

Q (By Ms. Alizadeh) Hi .

A Hello.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q I know you met Sheila before you walked in here, I work with Sheila and so I'm an assistant prosecuting attorney and she and I are both presenting this case to the grand jury, so I haven't had a chance to talk to you; is that right?

A Yes.

Q Okay. I'm going to show you some pictures.

A Okay.

Q I think, you'll see that these are pictures of the scene on that day and they may help you explain where you were in relation to what was going on. So these are pictures that were taken by a detective and are contained in an envelope that I have marked as Grand Jury Exhibit Number 23.

I'm going to show you what has been identified and marked as Image Number 4. Can you see okay or would it be better if you --

A No, I'm okay.

Q You can see that okay?

A Yes.

Q Okay. Does it help if I turn down the lights?

MS. ALIZADEH: Everybody can still see to write, right? There is a little bit of a glare on

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

this, that's not actually like the sun coming up. That's just the way the light shines on the photograph paper.

A Okay.

Q (By Ms. Alizadeh) So you've got a pointer there and I'm going to use one too. But from what I am gathering, this is your building, correct?

A Yes.

Q And you live right up here?

A Yes.

Q So this window right here, is that your bedroom?

A Yes, both of those.

Q Both of these?

A Yes.

Q So you have a window that looks out looking west toward West Florissant and you have a widow in your bedroom that looks out onto Canfield?

A Yes.

Q Now, is this the parking lot where had actually parked her vehicle?

A Yes, that's just, that's not.

Q She pulled in here?

A Yeah. So she wasn't that close, she was over there.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Did she park over there or did she park against your building?

A She parked right here. (indicating)

Q Right there. So she's not parked right along here? (indicating)

A Yes.

Q She's not; is that correct?

A Yes, that's correct.

Q Okay. And so when you first, something drew your attention, there were three things that all happened kind of at the same time. The tires squealing and your phone ringing?

A Yeah.

Q And gunshots, which originally you said three shots is what you heard, is that how you remember it today?

A I remember hearing a couple of shots, two or three, yes.

Q Okay. A couple of shots, does that mean two or does it mean two or three?

A It could have been two or three.

Q Okay. And so when you looked out, is this the window you first looked out?

A Yes.

Q And that's your bedroom?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A I'm sorry, when was calling me, no, I was sitting on my bed.

Q Okay. You said you looked and saw it was calling you?

A Yes.

Q How did you know it was calling you?

A Because , okay, the way my phone is shaped, you can see the right side of the screen, like the very right side. So at the end of her number, I know the last four digits of her number. It was her calling me.

Q Okay. So your phone was on the bed?

A Yes.

Q So did you go over and look at the phone when it was on the bed before you went to the window?

A I picked the phone up and went to the window.

Q Okay. So when you go to the window, you look out and see the police car?

A Yes.

Q I want you to know, at least I can't speak for everyone else, I truly believe you were there and I know you saw things. What we're trying to

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

figure out, because as many people have said, sometimes over time your memory changes or sometimes people influence your memory, not intentionally, but because you sit down and you talk with people about what they saw and those memories kind of become your memories, okay.

So what we're trying to do, and you know that people have asked about various statements you have made in the past. We're just trying to make sure that we understand that this is what you saw and not what you say, you're not saying it because somebody else mentioned it and now you believe it too.

A Yes.

Q Do you understand that?

A Yeah, I get what you're saying.

Q And, you know, are you years old?

A Yes, ma'am.

Q I know what you saw was horrible and it is probably never going to come out of your brain, it will be in there forever and I'm sorry we have to ask you this many detailed questions. It is probably something you don't want to have to think about, but it is important that we get this information, okay?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yes, ma'am.

Q So now when you first look out, you see the police car and you see what direction is the car facing?

A It is facing towards that way. (indicating)

Q Facing towards West Florissant?

A Yes.

Q Now, you know in the FBI interview, the gentleman, Mr. asked you a whole bunch a questions about when you first entered on the day this happened, you said when you first looked out, you saw a police officer get out of the car and running?

A Uh-huh.

Q Do you remember him talking to you about that?

A I remember him mentioning it.

Q Have you had an opportunity to look at the transcript of your prior statement or to listen to it?

A No.

Q Okay. You haven't looked at it or listened to it, so I understand that this might be the first time, but I'm going to show you a

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

transcript. It says it is on August 9th at 2:19 p.m. And it has Detective , do you remember talking to him?

A Yeah.

Q And then you're , correct. It says he starts out by saying that you're at Canfield in an unmarked police vehicle. Were you in his car or in a police car when you made this statement?

A I was in a car.

Q Okay. So now you've given some information about your phone number and so forth. And then you start talking to him around page three about the fact that your boss was going to pick you up. She was going to pick you up and she was headed towards me, do you see that?

A Yes.

Q And then you said here on page three, at the moment I heard a car tire skirrr, like skirrr, like it hurried up and pulled over. At the same time she called me to come outside cause I was waiting on her.

So I saw her, so I looked out the window and I saw the police. And the first thing I saw was, and then the officer interrupts you. I'm

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

going to stop you here for a second, okay.

And then he asked you where was

She was at her van, blah, blah, blah, you were just getting ready to tell him the first thing you saw, he stops and asked you about

A Yes.

Q And then you talk about over in the parking lot, do you see the van? Yes. Where is it? Right behind those officers.

So you are talking about where you see right? She's in the Do you see where I'm leading you down the page?

A Yes.

Q And she's sitting in her van, yes. Okay what happens then. Okay. So she witnesses everything from behind, but I witness it from the top.

You are on the third floor, right?

A Right.

Q I looked outside and saw the police the first thing. The only thing I saw at that moment was, and then he stops you again, right?

A Right.

Q Like you couldn't get those words out. So I'm going to stop you again. And then he's asking

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

you where you were looking outside, top floor, second, I'm sorry, third floor. He's trying to clarify where you are, okay.

And then it says here, you're looking out the window, right? No, this one. You are pointing to him where the windows are, right? Facing towards the police car.

So you are talking about what you knew. And then you get back to, cause I heard the skirrr, and I just assumed it was her and she was calling me. So I was going to grab my things to come outside to go to work.

He says, okay. And then you say, so at the moment where, I mean, before I did, I just looked outside to make sure she was, it was her waiting for me and I saw a police officer.

I don't know name running toward this guy. I didn't see the hassle at first, but I did see him get out of the car and run in a hurry.

The guy was, oh, I'm sorry. I can't remember his name, but it was a friend of a friend of mine and , I think you are talking about, are you talking about Dorian at that point?

A No, I was talking about, they keep telling me I knew --

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q So that is actually not , isn't it?

A Yes.

Q Okay. So he ran and so at that time I came from that window and I ran to the patio right there. I open the blinds and I could see past this corner, so I could see directly there from the blinds.

So there I saw the man running, I kept hearing some gunshots. The lady's window across the apartment complex from mine, her window got shot cause steady shots fired.

So you're talking about the first thing you see is the officer get out of his car and run. And you also mention that I didn't see the hassle at first.

A Yeah, when I was mentioning that, they was saying stuff was going on inside a police car and a lot of stuff. And I was trying to let him know that before the tires screech, I didn't see anything that they were doing before that happened.

Q Okay.

A They said there was stuff going on, and everybody was talking about it and so I did not see those things that they said.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Oh, okay. So on page 7, again, we're talking about how many gunshots do you think you heard and I think that this is initially, okay. Well, I've heard three at first. Like as soon as I heard the skirrr, I heard three gunshots, boom, boom, boom. And then I came to the window and before I could exit my house from the balcony to the actual door, is when I kept hearing more and more shots.

So I was technically trying to say behind, stay behind the door, which is why I could see, um, him getting shot, but I wasn't present for the video to be show cause I was all, I was inside, okay.

And then he asked you some questions about he wants to understand what you are saying. So you look out of that far window and there's s car, right? Right.

And what do you see at that point?

And I saw the man, I'm sorry, by the man, I mean the police officer getting out of his car and running full speed.

So again, when he's asking you, you look out the far window, you see s car, at what did you see at that point? I saw a man

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

running, the police officer.

A That's what I saw.

Q Okay. So if you want to look through this, I can let you, but I don't recall you ever telling the police in your interview on the 9th that you saw anything happen between the officer and Michael Brown at the car?

A And I didn't make that recollection like that at first. I have to sit down and think and process everything that had just happened to me.

Q And certainly that's understandable because, as I said, you're years old, you've just witnessed something that hopefully none of us ever have to see. And I know you were emotional at the time.

Do you they think it's possible that that initial recollection was that you didn't see anything at the car and it was only until after people were talking to you about it then you started to think that maybe you saw what happened at the car?

A No, I know that because I didn't make the recollection because I didn't know those were the same people -- person I was seeing. I know that I hadn't seen Dorian before, I saw him by the 2-door

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

car. I know that after Michael get shot, that was after I know it was Michael, and that was a person without a hat on. And I, you know, couldn't tell who it was him at that time.

Q Okay.

A It was a brief, a very brief meeting anyway.

Q Okay. I'm going to show you a few more images so the jury can kind of see what your actual location is. Again, you see the police car with the tape around it, that's the officer's car, correct?

A Yes.

Q And then this is your building right up here and where you live right there, right?

A Exactly.

Q And so when you come out of the front of your building, we can see this wooden staircase and is the deck right there on the front?

A Yes.

Q Okay. And then I'm going to borrow your thing here. So this thing right here, this kind of like wall, if you're on your deck, does it block your vision from what's going on right here in front of the street?

A No, if I'm right there on my balcony. It

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

only blocks what's kind of to the left of me. If I'm on the left of the balcony on the other side, shortly to the right of me. It doesn't block that much view.

Q I'm going to show you Number 7, and when you were looking out through the blinds, was it out a sliding glass door or was it out an exterior door?

A It was my sliding glass door.

Q Okay. Gee, I wish this wasn't. I'll move it down.

A I might confuse you, I call it a door and a window because you can open it and see out of it, but yes, it is my sliding glass door.

Q Okay. We see in this picture on the third floor is, there's a window and you said that's one of your bedroom windows, correct?

A Yes.

Q And just as we're looking at the picture to the right of that, is that a sliding glass door?

A Yes.

Q And then it leads out to your balcony?

A Yes.

Q And then is there another door?

A Yes, there is another door, yeah, you've seen some of it that was my shadow right in there.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q It is right in there, right?
A Right.
Q So when you were peeking out the blinds, was it out of this sliding glass door or out of here?
A Yeah, it was out of my sliding glass door.
Q Sliding glass door. And so you don't come out until after Michael Brown's been shot, correct?
A Yes.
Q So your entire vantage point once you come to this window, you stay at that window until after Michael Brown's been shot, correct?
A Yes.
Q And so wouldn't you agree if people were running in this direction and if things are moving in this direction, this wall is going to block what you are seeing, isn't it?
A For some partially, yes.
Q Okay. So there's things that you wouldn't have been able to see?
A Yeah, that's true.
Q There's a time period where you don't see anything. And then, you know, when you say you don't see the officer when Michael Brown gets shot, do you think it's because this wall was blocking

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

where he was?

A Yeah, but from where I'm looking out my window.

Q You want that back up?

A Yeah. From where I'm looking out my window, it blocks like a little bit of how the street is shaped. So it blocks from like here, if I'm looking out of my balcony, I can see, that's the right side of it, I can see kind of over the right side. I can still see the left, I can still see what's right in front of me, just a little portion portion of the whole space.

Q Just to be clear, you never came out of that sliding glass door?

A Yes.

Q Okay. I don't show you this picture to upset you, okay. I am going to show you Number 14.

A Okay.

Q This, again, now, I'm going to orient you here because this police vehicle that you see, the middle of the picture, that's not the officer's car?

A Definitely.

Q His car is up here, okay. So you're apartment is right there.

A Yes.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q What's that red dot on right there?
A My balcony.
Q Is that your sliding glass door or is that your front door?
A That's my sliding.
Q Okay. And so, and wherever this picture was taken from, which it looks like it is actually on the sidewalk perhaps?
A Uh-huh.
Q Across the street. If you look in a straight line from where the picture is, you can see into your sliding glass doors, correct?
A Yes.
Q At then this wall at some point would obscure some of your vision westbound a little bit?
A Yes.
Q I just made a note and I want to make sure that I understood this correctly. So you, when you heard the first gunshots, whether it is two or three, and you thought they were coming from the direction of the police car, and then, you were in your bedroom at that point, correct?
A Yes.
Q And then I wrote a note that you just today said I grabbed my purse and headed toward my

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

front window?

A Yes.

Q So where was your purse?

A It was right there on my bed.

Q Okay. So you look out your bedroom window, which we know is the window that faces the west?

A Yeah, I looked out of all of the windows. I looked out both of my room windows and then to the balcony. It was just a peek though.

Q And so you go and grab your purse and then you say you looked out your front window. You talking about the sliding glass door or you talking about the bedroom window that faces Canfield?

A Did you say you, can you repeat that, ma'am?

Q This is just my notes, I want to make sure I wrote it right. I don't know if I did or not. But I have here, grabbed my purse, headed toward my front window.

A Yes, okay, that's when I had grabbed my purse and headed towards the balcony.

Q That is the sliding glass window?

A Yes.

Q So I assume that you leave your bedroom,

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

what's on the inside of the sliding glass door?

A Blinds.

Q No, is it like your family room, kitchen?

A Living room, yes.

Q Living room area, okay. So you go from your bedroom to the living room and then to look out that window?

A Yes.

Q And you also said in your statement to the FBI, or your attorney did, that you had pointed out to someone tire marks in the street where the car had, you know, we heard you say it screeched its tires.

A Exactly.

Q Who did you point those tires mark out to?

A To her and her husband.

Q Your attorney?

A And her husband, yes.

Q So when was that?

A Um, we were making a short video about the bullet that hit the wall across from mine. So we were talking about that and I was just saying the tire mark screech and this is where I heard the car at and where I saw the car, and where the bullet hit the wall and stuff like that.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q And you said in your statement to the FBI that you had made, you had written down everything that you had scene shortly afterwards. How long after it happened did you write everything down?

A Right before or right after I got my attorney. So that wasn't long at all, that was within a week or two weeks of it happening, a week or two weeks, maybe not even that long.

Q And then when they asked you about that statement, you said that you burned it?

A No, I didn't burn it, I got rid of it, I threw it away.

Q You threw it away?

A Yeah.

Q Why did you throw it away?

A Because I become really paranoid. Every day I came home there was a different reporter on my door and everybody knew where I lived at. And I couldn't get one sense of peace at all.

So I was getting calls, my family was getting calls, every day they would come to my door. I started to get paranoid they are going to find this and use this. I got this really bad paranoid feeling, the whole thing was sick to my stomach. I got rid of everything that I had wrote down.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Why didn't you just give it to your attorney?

A Because she didn't, she had already been listening to me, she didn't need it. She was there when I wrote some of it.

Q So she knew that you had made a written recollection of this?

A She had known about one of them that I made.

Q Did she ever read it?

A I'm pretty sure I let her read it, yeah.

Q Do you know if she might of made a copy of it?

A Oh, no, she didn't. As a matter of fact, I don't know if I was reading it to her, but I remember her knowing about it, the little phrases, I'm sorry, like on a little note pad thing.

Q Okay.

A That was the first one I had written. I had written it down multiple times after I started getting paranoid, I didn't do it at all.

Q Okay.

MS. ALIZADEH: I don't have any other questions. Anybody have questions?

: My

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

question is in regards to at the car when you saw Michael Brown jerk away.

A Yes.

You describe it as arm movement, you did see the arm?

A Yes.

: Do you know if that was reaction to the gunshot you heard, he was reacting to a gunshot?

A It may have been.

The timing wise was right?

A Yes, it was almost simultaneous.

Do you know if it was the right arm or left arm that you saw pull away?

A Um, I think, I want to say left arm because in the front how the police car was shaped, that picture is gone. How it was slanted, kind of slanted and I'm looking toward the front. I just see a jerking motion moving backwards, I want to say left arm.

: After he jerked back, did he go forward again and reengage, or was this out of your view?

A I didn't see anything after that. It was a very quick glimpse.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

: Do you know how long after that he tried to run or did you see him actually pull away and run?

A Um, after I saw the little jerking motion is when I was reaching for my purse.

: Thank you.

A You're welcome.

MS. WHIRLEY: Anybody else?

: . After Michael Brown fell, you did continue to observe the scene, correct, you saw them put up the yellow tape and all of that?

A Yes, sir.

: Did you see anything that would indicate that anybody moved or interfered with anything within that taped off area?

A No, no, they wouldn't let anybody near it. There were already two officers right there and another one putting up tape. They were securing and putting the cones down.

: . if I can, I'm just referencing back to the testimony or statement you gave to , Detective the day when you are sitting in the police vehicle, do you remember that?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yeah, yeah, the car, yeah.

: I'm referencing page ten of that transcript.

MS. ALIZADEH: Did I leave that with you up there?

A No, you didn't.

MS. ALIZADEH: You know what, mine has markings on it, if you don't mind markings.

A Thank you. Is this everything?

MS. ALIZADEH: You said page ten?

: Yeah, page 10.

A Okay.

: Go down, I guess fifth paragraph, I guess. Where it says, I'll just read what it says here. It says, you're responding to Detective . You said, yes, she said they shot through the window and, um, the other guy was unarmed because he put his hands up so to be compliant, so this is okay.

So I saw the officer running and by the time I got to the next window, I saw him get down like, arms up and then get shot afterwards.

When you say here I got to the next window, I saw him get down. Okay. Who get down, who is it that you're referring to, do you recall?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A I'm sorry, you said who I was referring to?

: Yeah, uh-huh.

A This sounds odd jumping up, I'm trying to think about what I was talking about.

Okay.

A I don't know, say get down, I might have said, for instance, when I saw him fall.

: Okay.

A That's probably, that's the most likely cause how this paragraph is jumbled, I'm pretty sure I was talking about when I saw him fall when his arms are like that. (indicating)

: So you are referencing Michael Brown; is that correct?

A I was, yes, ma'am.

MS. WHIRLEY: Is there someone else?

I have one other question.

A Sure.

: At any time did you hear the officer yell to Michael or to Dorian or whoever?

A I heard no audio.

: You heard no audio?

A Only gunshots.

: Thank you.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

. We saw a lot of news clips also, including the video you shot on your phone following the incident.

A Okay.

: So my question for you, in the video the two officers, and obviously you witnessed the event, you saw Officer Darren Wilson, how certain are you in the video that you shot of those two officers that the one on the right is Officer Darren Wilson?

A Okay. I'm want to say 99.9 percent certain. They look nothing alike. You can tell one was short and kind of chubby, the other one is tall and more built. He was the only one running and the only one that had left the scene before everybody gathered there.

Between the two people, I'm 100 percent sure between those two people, it was not the guy on left, it was the guy on the right 99.9 percent accuracy.

: Of the two people, are you sure it was Darren Wilson or is that someone who looked more like Darren Wilson? I mean, are you sure when you are taping that was Darren Wilson?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A I'm sure that was Darren Wilson.

: I have another question, this is going back to the interview you gave with the FBI and I'm going to reference page 11 and 12.

A Okay.

: That's not the one.

MS. ALIZADEH: You talking about the FBI interview?

: Yeah.

MS. ALIZADEH: I have one.

And again, I'm confused, that's why I'm asking you these questions.

A Okay.

This is some kind of car accident or something. I just automatically looked right out my window and right now I'm looking out the window to see a police car right in the middle of the street. I see a young man standing, and that's what you said earlier today.

So then you go, I couldn't really tell what was going on. There was a lot of movement, but then you say I'm looking at pull into the driveway after the shot was fired.

Now, the shot fired out the window, so that's my question. Because you go on to say, you

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

gather your purse and some items and at this time Michael is running down the street and Darren is chasing him. So I'm looking at the officer.

I'm really confused by this.

A Uh-huh.

: I just want to know from page ten where you are talking about seeing him doing a lot of movement.

A Okay.

: Is that where you heard the first shot because on the next page I'm looking at pulling into the driveway, a shot was fired.

A Okay. They did all go on at the same time.

: Okay.

A It was like a movement, it was like the window, you are looking out the window and then movement, shot, all of that happening. Out of the corner of my eye I could see just turning.

: It was all simultaneous?

A Exactly. She was already by this point to turn, she was probably, I don't know, she was already right there and she just turned into the lot and --

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

And that's why, , if that shot could have been his hand and then jerked from the shot being fired in the car, these things were all happening at the same time and that's why you thought that?

A Yes.

: Thank you.

A You're welcome.

: When you recorded the video, is that the video of who you think is Darren Wilson, is that the same person you saw getting out of the police vehicle?

A Yes.

: Okay. During your recording of the video, could you tell us what you saw after, I guess, what the police officer was doing after Michael Brown fell to the ground?

A Okay. You want me to tell you what the police officer's doing? Okay. So, while I'm watching him, I'm not really looking at my phone, I'm just looking at the things that happen. I have my phone facing on him so I can get whatever it could get. I'm looking at him just talk to the other officer. They are kind of like just whispering. He didn't look as if he used the same

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

type of protocol as other police officers, if that makes sense.

Like usually okay, I going back to what I saw. I'm looking at him standing here talking to the other officer, he's just standing there looking over the body, just looking like, like just a weird look. Just looking at it. He then just starts pacing back and forth next to the body, not like back and forth, like immediately back and forth, it was just kind of a slow movement while he was looking at the body. He keeps walking and looked backs at the body and then finally just walks away and just leaves. After he walks out of my video, I don't see him any more.

. Did you ever see him make like a radio call?

A Yeah, the officer on the left was the one doing this on his little walkie-talkie or something, which was connected. He was just talking, Darren Wilson was talking to him, probably explaining what was going on. He was just, he was like, I was outside at that point, but I still didn't hear him say anything, I didn't hear the exact words.

: One more question,

. Did he appear to look injured in any way,

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

did you see him grab his face?

A I did not.

Like injured people do?

A Yeah, no, no, no holding of the head, no gripping the body, no having somebody else look at an injury or none of that.

Thank you.

MS. ALIZADEH: But you did see that his face was red?

A When I first was talking to the police officer, I was trying to make the distinction to him, it looked red out of anger.

MS. ALIZADEH: You said you saw his face and it looked red?

A Yeah, as he was running --

MS. ALIZADEH: You were just assuming why it was red, you don't know why it was red, you just saw his face looked red, right?

A Yes, ma'am.

MS. ALIZADEH: Obviously, you've never seen, I assume, you have never seen him before that day, correct?

A Probably not.

MS. ALIZADEH: Whether his face was naturally red --

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Exactly.

MS. ALIZADEH: It was enough you remember seeing it?

A I tried to make the distinction, it did look red out of anger to me. He looked pissed off while he was running. He was running full speed, it could have been the wind making his skin red, it could have been anything, but I did say that it was red.

. And, yeah, we are kind of picky. But later in the interview they asked you about that, and they said it was emotion. Could it have been worry, could it have been fright. You said, yes, it could have been one of those.

A Yes, it could have been.

: It could have been. You, at this point, were you trying to tell the people that were interviewing you that you felt that it was an emotional red, but you don't recall what kind of emotion it was?

A The emotion that I picked up was anger. So she got to telling me it doesn't have to be anger, it could be. I said, you're right, it very well could be anything, but the emotion I picked up was anger.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Thank you.

: Okay. . So you're saying you never saw him grab his face, not once?

A No.

Because he could have been hurt, right?

A Yes, not once.

MS. ALIZADEH: Could you see the officer's head in the vehicle?

A No.

MS. ALIZADEH: To clarify, you're not saying he didn't grab the officer's face, you're saying I couldn't see what was going on in the vehicle, correct?

A Exactly.

MS. ALIZADEH: Are you talking about the officer grabbing his own face?

A He's talking about the aftermath.

: I'm asking did the officer grab his face in a way to indicate he was injured in some kind of way?

A Yeah, no, I didn't see that.

MS. ALIZADEH: Okay, sorry. See how we get confused when we say he and we don't know who we

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

are talking about?

MS. WHIRLEY: Is there more questions? Feel free. If not, I have a question for her. Did you have something?

A I'm sorry, I just want to make a note of something I said earlier. While I was outside filming, I didn't notice the red any more after that as I was looking. And when I was looking back on my videos, I didn't notice the red that I had originally noticed. This is another reason that I presumed it to have been anger.

MS. WHIRLEY: Okay. We've asked you a lot of questions here today. But we may not have asked the question that you wanted us to ask, something you may want us to know. Is there anything else you think it is important for us to know that maybe we didn't ask the question?

A Um --

MS. WHIRLEY: Or you like to tell us?

A Um, no, you already know everything that happened in the aftermath. How troubled people were, that's about it.

MS. WHIRLEY: Talk this way so we can hear you.

A Okay, sorry. I didn't make any, I'm

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

sorry, I'm trying to think of something relevant.

MS. WHIRLEY: You don't have to, you don't have to think of anything. If you had something in your mind we wanted to hear it, but you don't have to say anything if you don't, that's fine. Thank you very much.

One last thing, did you think, did it appear to you that Michael Brown was threatening this officer?

A Not in my point of view because I couldn't see him that many times in a threatening manner toward the police officer at all.

MS. WHIRLEY: At the time that he was shot I'm referring to.

A Oh, no, no.

MS. WHIRLEY: Okay. That's all I have.

A That wasn't an issue.

MS. ALIZADEH: All right.

MS. WHIRLEY: Thank you.

(End of testimony of .)

MS. ALIZADEH: This is Kathi Alizadeh. It is October 2nd, 1:57 p.m. Present is myself and Sheila Whirley, all 12 jurors are present and we had a very brief lunch break, thank you for being brief. We have a couple witnesses that are here. Don't

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

know if we'll get to both of them today. Because they're here and generally our preference is that you would hear the recorded statements first, we're just going to go ahead and put them on and play the recorded statements at a later time just so we can try to get them on and off.

So the witness we'll call is

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Could you please state your name and spell it for the court reporter?

A

Q Now, how old are you?

A

Q And did you grow up in the St. Louis area?

A I did.

Q Are you familiar with the Canfield

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Apartment Complex?

A I am.

Q Okay. Now, just so I can let you know, the court reporter has to take down everything that's being said.

A Okay.

Q And so if you talk before I stop talking, and that's almost like everybody does that, right, it is hard for him to get both down.

A Okay.

Q I'll try not to walk on you and you try not to walk on me and it will make easier for him, okay?

A Okay.

Q You don't live in the Canfield Apartment Complex; is that correct?

A Right.

Q How is it that you're familiar with the complex?

A lives in the area, in the subdivision.

Q All right. And does actually live in an apartment in Canfield Green?

A Yes, does.

Q How long has lived there?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Well over years.
Q Who does live with?
A .
Q ?
A Yes.
Q And so you remember the day of August 9th, correct?
A I do.
Q You married or single?
A Married.
Q What is your wife's name?
A
Q And so that was a Saturday on August 9th. Do you remember anything about the morning that was unusual or anything happening that was different in the morning?
A No, not at all, not where I live.
Q But you had plans that day to go visit ; is that correct?
A Correct.
Q And did you and go to the Canfield Green Apartment Complex?
A We did.
Q Who drove?
A I did.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q And what type of vehicle were you driving?
A I drive a , black.
Q And so that's an ?
A It is.
Q So when you come into the complex or at least on this day, were you coming in off of West Florissant or were you coming in from the back way through the Northwinds Apartments?
A We were coming in off of West Florissant.
Q Just you and your wife in the vehicle?
A Yes.
Q It was a sunny day?
A It was.
Q Was it around noon when you first got to the complex?
A Yes, uh-huh, about 12, 12:30, give or take.
Q And so when you entered the, West Florissant is somewhere over here and I'm referencing Grand Jury Exhibit Number 25, which is a map that shows the roads in the Canfield Green Apartment Complex, but this is Canfield right here, sir, does that help orient you to what you are looking at?
A It does.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q And this would have been over here is West Florissant?
A Uh-huh.
Q And as you are coming down West Florissant, this is a residential neighborhood correct?
A Right.
Q Single family homes?
A Right.
Q Do you see the building that lives in?
A I do.
Q Okay. You have a laser pointer there, they have kind of been cantankerous, sometimes you have to shake them or something. Can you point where the laser pointer?
A Right there. (indicating)
Q The building that you are talking about actually has four different units?
A Uh-huh.
Q You have the laser pointer on, if this is north, okay, so you have the laser pointer on the unit that would be on the northwest side of that building, is that fair to say?
A Correct, uh-huh.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q And what floor does live on?

A The second floor.

Q So when you pulled into the complex, did you notice anything unusual or that drew your attention?

A No, we just drove down the street, just normal on that day. Just pulled into the parking lot and we parked.

Q Did you see any guys walking on the street when you pulled in?

A Um, after we parked, yes, because once I parked we, my wife had made a comment because I saw the police officer's truck driving this way up Canfield.

Q So you're coming in, going east on Canfield, you saw a police officer's truck coming west?

A Yes.

Q So toward you?

A Right.

Q All right. Now, at this point had you seen any kids or when I say kids, I mean, like older teenagers or walking the street?

A No, not at that point. I mean, because I think it was after we probably, right as we parked

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

and maybe I might have passed them coming into the neighborhood and never did pay any attention.

Q Okay. So now when you came down Canfield Drive, did you pass the police vehicle before you turned into the parking area?

A No, we had actually had parked the car and then we came past, right as we were getting out of the vehicle because my wife had just made a statement that we had just got off 70 and we saw another Florissant police SUV, and we was like is that the same truck? And he drove right past and --

Q No lights on?

A No.

Q Was he going like he was going to a call or something?

A No.

Q Speeding?

A No, he was driving the speed limit down the street.

Q Leisurely?

A Uh-huh.

Q Did you have your windows opened or closed?

A My windows were closed because it was hot that day and we had the air on.

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Okay. So now when you are pulling into Canfield on Canfield Drive, do you pull in on this street here?
A Right, uh-huh.
Q Are there parking spaces that are along this edge of the building?
A There are.
Q Is that where you parked?
A Yes.
Q And we've seen pictures of the buildings and everything, these are buildings that you walk up a staircase that's outside of the building to get to the upper floors, correct?
A Correct.
Q So did you notice anything when you, were you carrying anything in your hands when you got out of the car?
A No.
Q No groceries, you didn't have anything that you were getting out of the car?
A No.
Q So what's the first thing as you were getting out of the car and proceeding to the staircase, did anything draw your attention?
A Yes, like I say, me and my wife was going

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

up the steps and then we turned and looked back down Canfield because we saw the officer's truck going down the street. And he stopped in the middle of the street somewhere around, let me see here, around here he stopped his truck around this section right here. (indicating)

Q Okay. Did you actually see him stop his truck?

A Yes, I did.

Q And what happened, what did you see?

A He stopped his truck and then I saw the two gentlemen walking down the street. At that point, I don't know if he said something to them, I guess, or they said something to the officer, and then they kept walking.

Q So now did you hear anything being said?

A No, no.

Q So you are just kind of assuming?

A Right, because he stopped, he stopped his truck and he, I guess he said something to them because they stopped and started talking with him for a brief moment.

Q Okay. So the two guys on foot stopped walking as they were next to the police truck for briefly?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Right.
Q And then they keep walking?
A Right.
Q The same direction they had been?
A Correct.
Q And so did they come from, were they walking east then on Canfield?
A Yes, I'm sorry.
Q And the officer was going west on Canfield, correct? His truck was going in this direction, correct?
A Correct.
Q And so was it about in this area that you saw him first make contact with them?
A Correct.
Q All right. How long, how many minutes or seconds?
A It was about 15 seconds, maybe 20 seconds at the most.
Q Okay. And then when you see the boys start walking again, does the vehicle move any more?
A Yes.
Q What does it do?
A He in turn, as he's talking to the gentlemen, there was another white vehicle pulled up

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

behind him and when the gentlemen started walking down the street, he in turn threw his truck in reverse and pulled it like he was trying to block their way of going back down Canfield.

Q Okay.

A In a way to where he is now facing like towards going up West Florissant at an angle in the middle of the street. So he was kind of like impeding their walkway down the street.

Q Okay. And when he did that, did he block their forward motion?

A Somewhat, yes.

Q What happened then?

A From that point I turned around and I told my wife they're down there struggling. I mean, they're down there fighting or something. And I couldn't tell exactly what was transpiring because the truck, I was on this side of the struck looking at what's going on.

So I couldn't see exactly if the gentleman reached inside his truck or the officer reached and grabbed him or whatever, but the other gentleman he stood down, he ran somewhere.

There was a white car that was behind him. I don't know what happened with the white car,

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

but then he took off, something happened, I heard a gunshot go off inside the struck.

Q Okay. Let me stop you. So are you still outside of the apartment?

A I am.

Q Are you going up the stairs?

A I'm standing on the porch.

Q So on the third floor?

A No, on the second.

Q Second floor, okay. And so from your vantage point here, you're looking down here?

A Correct.

Q Now, when the officer angled his car?

A Uh-huh.

Q When he went in reverse and angled his car is his car between the boys and you?

A Yes.

Q Okay. So can you, so the car is blocking your view of --

A Of the driver's side.

Q The driver, okay. So you can see the back of the vehicle?

A I can see the passenger side of the vehicle and the back of the truck.

Q And so you can't tell what was going on,

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

could you see the truck moving or anything?
A No.
Q Was it rocking or anything that you know?
A I couldn't tell you.
Q What made you think there was a struggle going on?
A Because you could see, I mean, I could see them going back and forth. I mean, I'm standing on the porch at an angle looking down.
Q Okay.
A So I could see something going on, but I can't tell whether or not if he, again, who grabbed who or what have you, I don't know because like I said, the truck was, it happened on the driver's side of the vehicle.
Q Okay. Who was engaged in the struggle, you said there was two boys or gentlemen walking and then the officer that was driving, who among those three were engaged?
A Mr. Brown and the police officer.
Q Okay. Now, did you know Mr. Brown before this day?
A No.
Q But he's the gentleman that was shot and is deceased, correct?

Electronically signed b 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Yes.

Q And when you saw the two boys, did you recognize Mr. Brown?

A No.

Q Okay. Haven't seen him in the complex or anything?

A No.

Q Would you describe him as pretty big guy, tall?

A Yes, from what I saw.

Q And compared to like the other kid he was with, Michael Brown was substantially taller; is that right?

A Yes.

Q He was the one that was at the vehicle struggling with the officer?

A Yes.

Q And then what happened then, you heard a gunshot?

A I heard a gunshot, and about another 20 seconds later, I heard another gunshot go off, or maybe 15 seconds another shot goes off.

Q Okay. Let me stop you. When you heard the first gunshot what, if anything, does Michael Brown do at the vehicle?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A He was still, they were still standing at the door at the window of the vehicle. They were still, I guess, struggling or going back and forth, I don't know.

Q Okay. And then a few seconds go by?

A Uh-huh.

Q And then you heard another gunshot?

A Another second gunshot.

Q What, if anything, did he do after the second?

A He took off running.

Q Which direction did he run?

A He started running down Canfield this direction.

Q Was he running in the street?

A Yes.

Q Or on the sidewalk or the street?

A He was running in the street.

Q Now, at this point are you still on the porch?

A I am.

Q Did you ever go inside s?

A Yes, I did. I stepped inside the door when the first, the first gunshot went off, my family, they ran inside the door and then we came

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

back outside. Because we didn't hear any more shooting, to see what was going on.

Q So let me get this straight, were you inside or outside when the first gunshot went off?

A We were outside when the first gunshot went off.

Q Were you inside or outside when the second gunshot --

A We were inside when the second gunshot went off.

Q Okay. So you run inside, were you fearful because the gunshots were going off?

A Correct.

Q And then you said he took off, meaning Michael Brown took off and started running down Canfield. Were you observing that from the inside of 's apartment or did you come back outside?

A I came back outside.

Q What did you see then as you saw Michael Brown running down Canfield?

A So I saw Mr. Brown running down the street, he ran down the street from the police officer. He stopped right here at this driveway right here and he turned around in the entrance of

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

the driveway about right there on the corner of the driveway.

And he looked down at his hand or at his side, and at that point, the police officer had got out of his vehicle and was pursuing Mr. Brown down the street.

Mr. Brown turned around and was walking back towards the police officer, I guess, they were like 20 meters maybe, 10 meters apart and Mr. Brown had his hands to his sides by his waist up and mister, the officer shot and he shot like six times.

Q Okay. So let me back up. You say as he ran down the street, he stops, meaning Michael Brown?

A Right.

Q And when he stops, is his back to the officer when he stops?

A No.

Q So does he run backwards?

A No, I'm sorry, yes. If he was running, yes, he was running down with his back towards the police officer, yes.

Q Okay. And so you said when he stops, he looks down and looks like he is looking at something

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

or his hands or body or something?

A Right, like he's looking at his hand.

Q Do you recall which hand or both hands?

A If I'm standing on the corner right there where it was, I guess it would have been his left palm.

Q Okay. So everybody can see you since you are seated, do you mind standing up and doing that motion?

A Right. Standing on that corner, like he looked down at his palm, still like looked like this at his palm or something, he looked down.

Q Okay.

A At that point he turned around and started walking back towards the middle of the street and had his hands like this, walking towards the middle of the street.

At that point the police officer was, had already stopped, had his gun drawn and Mr. Brown was walking towards him with his hands like this and he fired. He fired one shot and Mr. Brown took a couple steps and he fired like two or three or four more shots. (indicating)

Q Okay.

A That's when he fell, he fell in the middle

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

of the street.

Q Okay. After the two gunshots that you heard from inside the vehicle what we are assuming, do you think that happened when the officer was still in the vehicle?

A I would assume because I didn't see him out of the vehicle.

Q You saw the first gunshot or you saw, you were outside and looking when the first gunshot went off, but you were inside when the second gunshot went off?

A Correct.

Q Were you looking when the second gunshot went off?

A We were looking out the window.

Q Okay. So was the officer still in the car for the second gunshot?

A Yes, he was.

Q And then Michael Brown takes off running after the second gunshot?

A Uh-huh.

Q And the officer, does he get out of the car?

A He does.

Q And does he run or walk after him?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A He is running.
Q How is he running?
A In like a haste to try to catch him.
Q Do you see his gun?
A I don't believe I did.
Q Okay. So as he gets to about 20 meters?
A Uh-huh.
Q From Mr. Brown is when Mr. Brown turns around?
A Right, and that's when he had his gun drawn.
Q So when you say his gun drawn, the officer's gun?
A Yes.
Q Never saw a gun on Michael Brown, correct?
A No.
Q How was he holding the gun when you saw him with his gun drawn?
A He was in a stance and was holding it like this. (indicating)
Q Okay. And could you hear anybody saying anything?
A No.
Q Didn't hear the officer giving commands?
A From where I was standing on 's

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

porch right here and they were, let's see, about right here, no, I couldn't hear exactly what they were saying, but I could see what was transpiring in front of me.

Q Okay. And so then, was your brother next to you or with you when this was -- when you were watching this?

A It was my brother, my wife and standing on the porch.

Q Altogether?

A Yes.

Q Okay. And so when you say you saw Mike Brown turn around, then would his back be towards you?

A Catty-corner, sideways because like I mentioned, from where he is standing in the driveway, like his side is facing me looking up from here and he's standing at an angle at the driveway looking like this and he looks down to his side and then he starts, the way he was turned, he was turned as though he was facing this way.

Q Okay.

A Going off the street so that's the angle that I had. So when he walked out in the middle of the street with his hands up to his sides, that's

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

when, you know, he took a couple steps and the officer fired.

And me and my wife were like, why is he walking. And he took a couple more steps and the cop, the officer fired like four more shots and that's when he fell.

Q So from the time of the first gunshots in the car until Michael Brown turns around to face the officer, did you hear or see the officer shooting his gun as Michael Brown is running away?

A No.

Q Okay. And so once he turns around, and you said he stopped and he is looking and then he turns around and his hands go into this position? (indicating)

A Yeah, like this. (indicating)

Q So out to his sides, palms facing forward?

A Right.

Q And then he began to move towards the officer?

A Correct.

Q Was the officer still moving?

A He was in a stance, no, he was standing like this facing Mr. Brown.

Q Okay. As Mr. Brown started walking or

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

moving toward the officer, did you say he was walking?

A Yes.

Q Was it in a, I mean, casual walk or was it hurried or do you have any description of it?

A It would be speculation for me to say because I don't know Mr. Brown, I don't know how he walks. I just know he took steps towards the police officer.

Q Okay. But he wasn't running?

A No.

Q He wasn't charging?

A No.

Q Was his body upright at that point?

A It was.

Q And so when he walks towards the officer, did the officer move backwards or forward or to the side?

A From what I could tell he stood still.

Q How about Michael Brown. From the time he ran and stopped and turned around and started in the opposite direction, does he ever, is he always in the street or does he move off the street at some point?

A Well, I mean, again when he ran down the

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

street, he got to right at the edge of the driveway, which is right here. So this is like a water fountain or a fire hydrant or street sign, right there at the corner --

Q Okay.

A -- of the driveway. He stopped right there at the edge of the driveway and then he turned, he turned around, like I mentioned, he stopped, looked at his palm and then he started walking back towards the police officer.

Q From the time he stopped and turned around, and I'm going to ask you to estimate a distance, from where he stopped and turned around until his body came to rest in the street.

A Uh-huh.

Q Can you give my an idea how many feet that was?

A From the sidewalk to the middle of the street, about five, maybe five, 10 yards maybe.

Q Okay. Did you ever see Michael Brown doing anything with his hands around the front of his body?

A No.

Q And so when you're looking at him from your vantage point, you're seeing the left side of

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

his body, correct?

A Correct.

Q Could you clearly see his right hand?

A Yeah, I mean, when he's walking back across the street, he's walking like this. (indicating)

Q Okay.

A He had both his hands like this. (indicating)

Q You didn't see him ever reaching or make a motion toward his waistband?

A No.

Q And then you said there was a round of shots, you said maybe six shots?

A Yes, four to six shots I heard, yes.

Q Okay. And then did you see if Michael Brown was hit, could you tell if he was hit?

A I couldn't, I mean, again, like I mentioned, when the first shot went off, well, the third shot went off when Mike started walking back across the street and he shot. And like I mentioned, me and my wife made the comment, why is he still walking, why is he walking, is he missing him? And then he took like three more steps and he fired like another five, four, five rounds, and

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

that's when he staggered and he fell where he laid in the middle of the street.

Q Okay. And where, can you point on the pointer where he ended up laying in the middle of the street?

A About right here. (indicating)

Q Okay. And now, did you remain at s while the aftermath was going on?

A I did.

Q Did you ever see the officer approach Michael Brown after he went down on the ground?

A He walked over to him and then he turned around and he went back and that's when another police officer, I guess the other police officer started coming into the neighborhood.

Q Did you ever see the officer who did the shooting, did you ever see him on a walkie-talkie or on a radio that was on his shoulder or anything?

A Not that I can remember.

Q And did you ever see anybody, I mean, I know that Michael Brown's body was out on the street for several hours, but did you ever see anybody move his body from one location to another location?

A No.

Q Did you ever see the car that the officer

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

had stopped in, where the altercation initially took place, did you ever see that moved?

A Not that I remember, not that I remember because I think me and my wife, we stayed there about another 35 to 45 minutes after everything happened. And when all the police and everything came down, they taped off the street and everything and, um, then we left, we left.

Q Now, when is it that you were first contacted or first contacted the police?

A I was contacted that evening, that night by a County Police officer.

Q Were you still at Canfield?

A No.

Q How is it that they knew to contact you, do you have any idea?

A My wife had mentioned to and we went, it was actually the night We were at a and there was a gentleman there, I have his card, I can't think of his name right now. But he is an attorney or something for the city or something, but he asked, they were talking about it at the table where we were and he asked us if we didn't mind speaking with a police officer regarding

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

it.

And then I said I really didn't want to get involved in this because I hate I saw what I did. He got on the phone and he called two detectives and they came out that evening about 11:00. And me and told him, kind of somewhat mentioned our story and I gave him my name and address, and he came out and got in contact with us at a later date.

Q So you talked to the officers late in the evening that first day?

A Yes.

Q And then you talked to them again and gave a different, not different, gave a more detailed interview later; is that correct?

A Correct, right.

Q The more detailed interview, were there also FBI agents present?

A When they came and talked to me, no, it was just the two detectives.

Q Okay.

A They came and spoke to me. And then a few nights later, they came back, along with a few other attorneys and another FBI agent, they came and spoke with my wife .

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

Q Okay. Is there anything that you recall about what you saw that day that is important or you think that the jurors should know about?

A (Shakes head.)

Q you are shaking your head no?

A No.

Q How is your eyesight?

A Good.

Q Do you where wear glasses?

A I do for reading.

Q Okay. So distance, you have no difficulty seeing?

A No.

Q How about your hearing?

A My hearing is good.

Q Good.

A Uh-huh.

Q All right.

MS. ALIZADEH: Sheila, do you have any questions?

Q (By Ms. Whirley) When Michael Brown was walking towards the officer, when he first turned around, he started walking, let me make sure I understand. When he first turned around was there a shooting, was he shot then or was he thought when he

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

started walking towards --

A When he started walking back towards the police officer.

Q You couldn't hear anything that was being said?

A I couldn't hear, no.

Q So as he's walking towards the officer, he said he wasn't like running or charging at him?

A Right.

Q Did it seem like he was walking towards the officer to fight, did you get that impression?

A No.

Q Did you get the impression that he was threatening the officer as he walked toward him?

A No.

Q What was your impression of the way he walked toward him?

A Again, like I say, it is hard for me to speculate how Mr. Brown walked because I don't know him.

Q Right --

A I don't know how he's walking, he was just walking, I guess, in a normal pace towards the police officer, that's what I'm saying.

Q I guess what I'm asking is, demeanor, you

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

know how a person, their outward, like if I'm, you know, I'm walking like this, you know?

A I guess he was walking in a demeanor as I give up.

Q That was your impression?

A Yeah.

Q Okay.

MS. WHIRLEY: That's all I have.

MS. ALIZADEH: Just really quickly.

Q (By Ms. Alizadeh) From the time you first saw Michael Brown at the officer's window until Michael Brown was lying in the street, how many minutes or seconds do you think that took?

A I would say probably about five, five minutes, ten minutes at the max, if that. I don't probably like, I'm sorry, it was probably more like probably like five minutes at the max.

MS. ALIZADEH: Okay.

MS. WHIRLEY: Real quickly.

Q (By Ms. Whirley) When Michael Brown was running away from the officer, I think you said you heard maybe a couple shots and then Michael Brown ran?

A Correct.

Q I'm sorry; is that correct?

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

A Correct.

Q Did you hear any shooting while he was running?

A No.

Q Okay. The next time you heard shots was when he turned around?

A Correct.

Q With his hands the way you demonstrated?

A Correct.

MS. WHIRLEY: Okay. Anybody else? When he was walking towards the officer, could you see his face clear enough to see if there was any kind of expression, a blank look, aggressive look or anything?

A No, I could not.

: You could not read his face?

A I could not.

Okay. From the time that this happened until the time that you said

A Uh-huh.

: Is that where, the

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

attendee where the city attorney made contact with you there?

A Uh-huh.

From the time of the incident on August the 9th until the time that you spoke to the police or whatever.

A Uh-huh.

: Do you know what length of time elapsed?

A Yes, this happened about, I guess, about 12:30, 12:40 that afternoon. I didn't speak with anybody until later that night, yes.

: It was the same day?

A It was the same day, yes, ma'am.

: Okay, thank you.

MS. ALIZADEH: But just to be, I'm going to try to make sure I understand. Were you interviewed that night or was it just you spoke to them and said, hey, I saw this and made arrangements to be interviewed later?

A That's exactly, that's what happened. We made arrangements to interview later because, again, we were at and the, he didn't want to really get into that because my wife was still kind of emotional. He didn't want to talk

Electronically signed by 9cb941a5-be4c-432a-b1fc-816dc0e41935

about it.

So they took our name and our phone number and they contacted us at a later date. I think it was like two days or a day later. They came by my home and spoke with me regarding it.

: Could you tell Mr. Brown, I guess his attire, his shorts and shirt, where they sagging, were his pants kind of hanging low or do you remember?

A I don't remember, I don't remember.

: Okay. Did it seem to you when he turned around, did it ever appear to you that he reached up under his shirt?

A No.

MS. ALIZADEH: Anyone else have any more questions?

(End of the testimony of .)

GRAND JURY HEARING VOLUME X

MS. ALIZADEH: Good morning.

(Everyone says good morning.)

MS. ALIZADEH: It is October 6th. This is Kathi Alizadeh with the prosecutor's office. Present is Sheila Whirley with the prosecutor's office. All 12 grand jurors are present here today, as well as , the stenographer, who is taking down and recording matters that are going on today in the grand jury.

It is about 8:39 a.m., and my understanding is we are going to go to about 2:30 today, correct? We have a witness that's here already this morning. Her name is . We heard from her husband, , last week.

She wanted to come in first thing in the morning, so we're going to go ahead and have her testify first, and after her testimony, we will listen to the statement of and . We didn't get a chance to do that last week.

I have a witness scheduled to be here at 1:00 this afternoon. So her name is and she is the fiancee, or girlfriend, I can't

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

remember, of . If you recall, has already testified.

So we'll probably listen to her statement in the morning if we have time. We probably should, and then at this point, we might be done for the day after testifies.

Sheila and I have been talking about trying to schedule your time and make use of your time as best we can. We're running into the issue now that some of these witnesses are not very anxious to come in and meet with you. And so we're going to probably need to be searching for some people and giving them written invitations to appear before you.

So I'm trying desperately to get your day scheduled tomorrow, so I know you are here until 6:00. We want to be able to keep you busy all day.

And then we've got, I've got some witnesses lined up, and then on Thursday we have witnesses lined up too, but as of right now, I don't have necessarily the whole day filled. So we'll try our best. And it may be that we go ahead and call some other witnesses.

We have lab people, we have police officers yet to testify who, obviously, would be

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

easier for us to get here if we need them here.

So, at this point then, we're ready to go. We're going to go ahead and call , of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Good morning, . Can you state your name for the reporter and spell it for the court reporter?

A ,
. ,

Q And, , you're married to is that correct?

A Yes.

Q And how long have you and been married?

A years.

Q And are you, you're familiar with 's family?

A Yes.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Is that correct?
A Uh-huh.
Q You know his brother, ?
A That's my brother-in-law.
Q Your brother-in-law, and then lives is that correct?
A Correct.
Q And they live in Canfield Green Apartment Complex, correct?
A Correct.
Q And how long has lived in the Canfield Green Apartments?
A Um, I'm going to say maybe years. I'm not quite sure. was living there when and I married and met, so we've been actually years, together I'm quite sure years.
Q So as long as you've known ?
A As long as I've known .
Q been there?
A Yes.
Q Has been living with all that time as well?
A Yes, off and on.
Q Off and on. And so do you recall

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Saturday, August 9th, of this year?

A Yes.

Q And in the morning, did anything happen that was noteworthy, was there anything special about the morning prior to you going to the apartment?

A Actually, that was

Q Okay.

A So we went down there before we were preparing to go to the because I wanted to show what I got to wear to the class reunion.

Q Ma'am, the microphone that's in front of you doesn't amplify so you need to speak loud enough so that we can all hear you all the way back here. And please raise your hands if you can't hear her. Did you need her to repeat the last answer she gave anyone? Okay.

So, you were going, you had a plan then that day to go to apartment in the afternoon; is that correct?

A Uh-huh.

Q And so you proceeded to the apartment

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

complex, about what time did you get there to the apartments?

A It was before noon, about maybe 11:30, 11:45, somewhere along in there, I'm not quite sure of the exact time.

Q And who was in the car with you?

A My husband and I.

Q What kind of vehicle were you in?

A I have a , .

Q Who was driving?

A My husband.

Q So when you came into the complex, did you enter the complex off of West Florissant or did you come in the back way through the Northwinds Apartments?

A Off of West Florissant.

Q Okay. So from West Florissant then you turn onto Canfield Drive and go through a residential area before getting to the complex; is that correct?

A Correct, uh-huh.

Q And so we've got a map here that's marked as Grand Jury Exhibit Number 25. And right here, is a laser pointer so you don't have to get up and point. You just press that button,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

hopefully, and that will work.

So do you recognize the map here as familiar to you, the streets and the buildings as far as that being Canfield Green?

A Yeah, pretty much.

Q Okay. If West Florissant is in this direction?

A Uh-huh.

Q So you entered coming down this curve; is that right?

A Correct.

Q Now, this was a Saturday, sunny day, did you see people out and about?

A Um, yeah, I mean, not a lot of people, but the victim, as we came in off of Canfield, he and the other young man were walking in the street. And I said something to my husband in effect, why don't they just get on the sidewalk.

Q Okay. So when you were driving now, this direction is east, okay?

A Uh-huh.

Q That's going east. So you were going east on Canfield Drive?

A Uh-huh.

Q Can you use the laser pointer and show me

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

where you first saw the two men that were walking in the street, where were they when you first saw them?

A Right about right here. (indicating)

Q Okay. So as you came around the curve, you could see them walking in the street?

A Uh-huh.

Q Just the two of them?

A Yes.

Q And when you say they were in the street, were they on the side, in the middle?

A In the middle.

Q Okay. And so did you recognize either of those?

A No, just two kids.

Q Two kids. Now, of course, we now know that one of those kids was Michael Brown. Having now known his identity, do you recall ever having met him?

A No.

Q Or seen him at the apartments?

A No, we don't frequent Canfield. I mean, we go to visit or to take to where needs to go. I don't know anybody in Canfield except for

Q You don't socialize with people from the

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

complex?

A No.

Q And so then the other boy was Dorian Johnson. That name doesn't ring a bell to you?

A No, it does not.

Q Okay. So when you first saw them and in this area where you had pointed, which direction were they walking, were they walking east?

A Yes.

Q And --

A Into the complex.

Q Okay. So as you approach them, you saw their backs?

A The back view of them, correct.

Q And so did you, I imagine you had to go around them or you went around them, correct?

A Uh-huh.

Q Did you honk at them or , not

A

Q Roll down the window and say anything to them?

A No.

Q Did they just appear to be walking?

A They was just walking, I mean, they were

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

doing what kids do. I mean, I live in , so kids don't walk on the sidewalk, they just don't. They have sidewalks but they don't walk on them.

So, I mean, we just kind of chalked it up as them being kids not doing what they're supposed to be doing, I mean, they just do it.

Q Did you notice either of them if they had anything in their hands?

A No, I don't recall.

Q Do you remember what either of them was wearing?

A Um, I'm going to say the victim had on a white T-shirt and khakis. The other young man had on a white T-shirt, I believe, and black pants or black jeans or something.

Q Okay. So the other one is the smaller one, I guess?

A Yes.

Q We'll call the victim, I know you know who eventually was shot is the bigger one, correct?

A Correct, uh-huh.

Q And there was the smaller one?

A Smaller kid, yes.

Q So you said the smaller one had on a black shirt and dark pants?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Dark pants, yeah, or dark jeans or something.

Q Okay. Anything else that you noticed about them that drew your attention?

A No, I mean, like I said, it was a Saturday morning, I mean. They was just walking in the street and I made a note to my husband, why don't they just get on the sidewalk, and that was pretty much it. He didn't say anything, I didn't say anything, we didn't blow, he just kind of went around and did what we needed to do.

Q Okay. Were they walking shoulder to shoulder or one in front of the other, do you remember?

A I mean, I guess side by side, you could say. I mean, just, I mean, when you see kids walking and there was only two of them, so it wasn't like it was a group of children, they were just walking down the street.

Q Okay. So after you pass by them, did you proceed to s apartment building?

A Uh-huh.

Q Can you use the laser pointer and show on the map, do you see where apartment is?

A Is this Caddiefield?

Electronically signed b 5034a60e-6c14-4444-b892-e7b456d8296e

Q This is Caddiefield Road, this is also Caddiefield Road because it goes around like that.

A Can I stand? This is hard for me to do because it's peripheral vision, I'm not used to looking at.

Q Correct, I understand. Do you know the number of unit?

A I think it is this one right here.

Q Okay. So when you proceeded down Canfield Drive, you turned on Caddiefield, did you park in a parking space?

A Right here. This is building, I believe, and would have parked right in here. (indicating)

Q Okay. Now, did you have, do you recall if your windows were up or down?

A That I don't remember. It was hot, I imagine that the air was on. It was hot that day.

Q Okay.

A So the windows were more than likely up.

Q As you drove down Canfield Drive, did you see any vehicles approaching you?

A No.

Q In your direction?

A Huh-uh.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q And so did you, after you parked your car, what's the first thing you noticed going on around here?

A Well, once we were going up the steps, the police car came down going towards West Florissant, and I said to my husband, oh, he's going to stop them and tell them to get on the sidewalk.

Um, and we just kind of proceeded up the steps.

Q Now, earlier you had pointed to this one.

A See, I'm not used to looking at these. So once we got on the landing, the police officer had stopped and said something to them.

Q Now, could you hear what he said?

A No, I'm assuming, I'm not going to say he said, but from the activities that we saw from the porch, he stopped and the kids, the children stopped. I don't know what he said, I didn't hear that, we were too far away to hear. I'm just assuming that he said the same thing I had said to my husband, get on the sidewalk.

Q So now you, the stairs that go up to the apartment unit, those are exterior stairs, correct?

A Correct.

Q So you're going up the stairs and you're

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

still outside and you can see what's going on?

A Uh-huh.

Q What floor did live on?

A There is only three floors. There is the basement and that would be the first floor and then the second floor, or you can say the second floor and then the third.

Q on the top level?

A No, on the second. Well, there is a basement apartment and then apartment. So on, I guess you could say second floor, I don't know how they classify the floors.

Q So there's a unit above ?

A Above , right.

Q All right. So when you're on the porch, this is like a decking area that's right off the front door for unit?

A Uh-huh, a little patio out there.

Q And was out there?

A When we walked up the steps?

Q Yes.

A No, he was inside the apartment.

Q So now you said, can you use the laser pointer and show me when you say you saw the officer stop and talk to the kids, where about were they

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

when you saw that?

A About right here. (indicating)

Q Okay. And so you see the officer stop?

A Uh-huh.

Q Give me an idea, were we talking a matter of seconds or a minute or two that he paused and there was some kind of exchange between those kids?

A It may have been maybe a minute.

Q And then what happened, what did you see happen?

A He said whatever he said, then we heard two gunshots. He was still in the car, the boys were outside of the car. Well, before we heard the gunshots, I don't know what he said or what they said or what the conversation was, but the car was headed west on Caddiefield, on Canfield, and he, I guess, backed the car up and was at an angle.

Q Let me ask you this. The time when he paused that you thought that he might have been saying, hey, get on the sidewalk, or what you assumed he might have said, was that after he backed up?

A No, it was before.

Q Okay. So he stops, pauses for a little bit, and then does the vehicle proceed west on

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Canfield then a little ways?

A Yes, uh-huh.

Q And do the boys, what do the boys do?

A They just were kind of standing there, and, like I said, it happened really fast, but the car was headed east, and then whatever conversation they had, the officer backed the car back, but it was at an angle and that's when we heard two gunshots inside the vehicle.

Q Okay. So when the officer, I think you said east, but you meant west, right?

A I'm sorry.

Q He's going westbound and then he puts it in reverse, backs up, and he's at a little bit of an angle in the street?

A Yes.

Q Did you hear tires squealing or screeching or anything?

A No, it wasn't like it was a chase or anything. I mean, he just, I mean, I don't know what happened, they exchanged words, I'm quite sure, and, you know, you just, I think he kind of whipped the car in reverse so it was at an angle.

Q Okay.

A Not a full complete angle, it was no

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

longer straight.

Q When the first time the officer encountered the boys, were the boys on the driver's side of his car or on the passenger side?

A All the way on the driver's side.

Q When he reversed it around to where it was at an angle, are the boys still on the driver's side?

A Still on the driver's side.

Q So from your vantage point where you were standing, are you looking at the driver's side of the car or the passenger side?

A Driver's side. Well, at the driver's side. We were on that side of the vehicle, I couldn't see what was on the other side of the car.

Q Okay. So then after he comes back, reverses and stops his car at an angle, what do you see happen between the boys and the police officer?

A I didn't see, I just didn't see anything actually happen. We just kind of heard the two gunshots and I told my husband, oh, no, he's shooting, they're shooting.

Q At this point did you know who was shooting?

A No.

Electronically signed b 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay. So you hear two gunshots?

A Uh-huh.

Q Were they in close succession like boom, boom, or was there a pause between the two of them?

A Well, more like a pop, pop.

Q Okay. And so did your attention, was your attention always on the car or were you --

A No, I mean, it was just, like I said, we were walking up the steps and then all of the sudden the car was coming down the street, the kids were coming down the street, and I assume that he did what we probably should have said and told them to get out of street and go on the sidewalk.

I don't know what was said, I'm just assuming.

Q Okay. So after you hear the two gunshots.

A Uh-huh.

Q What do you see happening at the officer's car?

A That's when the victim started running away from the car and the person that was with him, he kind of disappeared. I don't know where, when the two gunshots went off, he kind of hunched and then he just disappeared.

The victim kind of, when he came from

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

on the driver's side, he kind of hid on the back side of the car and that's when he ran, I'm hoping I'm saying this right, there is a grassy area, he kind of ran over this way, he kind of ran this way.

Q Okay. So he's running now east down Canfield?

A Yes, ma'am.

Q And can you tell at this point if he's injured?

A Well, he ran this way and then he kind of got into the grassy area and he kind of stopped and looked down at his hands. I'm assuming there was blood, but he looked down at his hands and then he turned back around, he turned back around and started going back towards the police officer.

Q Okay. Let's stop now.

After you saw, you heard the two gunshots, the victim starts running east on Canfield, the other guy kind of disappears?

A Uh-huh.

Q What's the officer do?

A Well, by that time he's out of the car and he's kind of, I guess, chasing the victim.

Q Okay. Now I'm going to stop you here because you said I guess, chasing?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A He got out of the car.
Q You saw him get out?
A I'm sorry.
Q It's all right. We make these assumptions all the time, you know, that's what we do when we observe things. Oh, it looks like he was doing this. But what is important is, you talk about what you saw.

So the officer gets out of his vehicle. I guess, I'm assuming, from the driver's side?
A Yes, from the driver's side.
Q And so at that point, could you see if he had a gun?
A Yes, he had his gun.
Q And could you see what he was doing with the gun or where his gun was?
A When he got out of the vehicle, he did get out with his gun drawn.
Q Okay.
A And as I said, the victim, he ran towards this grassy area, he stopped and he looked down at his hands and then he proceeded to come back towards the officer.

By the time the officer was out of

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

his car, I'm going to say he was running with his gun drawn.

Q Okay. When you say his gun drawn, I'm going to --

A I could see the gun.

Q That's out of the holster is what it means to me?

A Correct.

Q But there's, was it down at his side, was he running like this? (indicating)

A No.

Q Was running like this? (indicating)

A He had both his hands on the gun.

Q Okay.

A And he was running swiftly or walking fast towards the victim.

Q Okay. And so did you ever observe or hear the officer firing, as he was running after the victim?

A Yes, he did.

Q How many shots did you hear as he was moving towards the victim?

A I'm going to say he fired maybe three to four shots as they were, I guess, walking kind of towards each other.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay. Now, let me stop you then. There is a lot going on in here and, obviously, you know, I hate to say that we have to pick this apart, but we really do.

So as you see him, he's got his gun drawn and he has both hands on it and it's pointed out in front of him, you demonstrated kind of out with your arms straight in front of you and he's moving towards the victim.

A Uh-huh.

Q The victim, you said, stops in this area here, kind of in the grassy area, so he's not on the street any more?

A No.

Q And then he stops and you said that he looks at his hands?

A Uh-huh.

Q Can you stand up and show the grand jurors, because I know you made a motion a couple of times. Show them what he looked like.

A He looked down like this and, I think, I'm going to say it was his right hand, he looked at his hand and then he started walking back towards the police officer. (indicating)

Q Okay. So from your vantage point if he's

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

over here, when he stops, he's somewhat facing your direction, would that be fair to say?

A He was running and he stopped, he looked down and he turned around like this.

Q Could you see anything in his hands?

A No.

Q Okay. So you can go ahead and sit. So did the officer fire his weapon at any time other than in the car, did he fire his weapon before the victim turned around?

A No.

Q Okay. So the victim stops, looks down at his hands?

A Uh-huh.

Q And then turns around. At this point, does the officer fire?

A Yes. Well, he turned around like this and he started moving towards the cop.

Q Okay.

A And then he is standing there, and he just proceeded to shoot.

Q Could you hear either the officer or the victim say anything?

A No, ma'am.

Q So when you saw Mike, well, the victim,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

when you saw him move toward the officer, can you describe his pace, do you understand what I mean by that?

A Uh-huh.

Q Okay.

A I mean, he wasn't running, he just, to me it was slow motion, so he turned around, looked down at his hands.

Q Let me ask you some questions just to help you out through this, okay.

So from the time the victim turns around, is the officer still moving toward him or has the officer stopped?

A He stopped.

Q He'd stopped?

A Uh-huh.

Q Are you good at guessing or judging distances?

A Not really.

Q All right. So let me ask you this --

A He was not this close to him.

Q This is too close?

A Yes.

Q All right. Tell me when you think.

A About right there.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay. So what do you want to guess that to be 20 feet, close to 20 feet. And so after the victim stops and turns around, when he moves in the direction toward the officer, does the officer move?

A Not really, no.

Q Okay. So he stays basically in the spot where he had stopped?

A Uh-huh.

Q And how close then does the victim get to the officer?

A He just kept walking.

Q What were his hands doing as he's walking?

A I'm sorry. He is walking like this and he kept walking, and I asked my husband, why won't he stop.

Q Were you or your husband or anyone else that you can hear yelling anything, that you recall, saying to your husband, why won't he stop?

A Why won't he stop. I asked why does he keep shooting him.

Q So I can be clear about this, the officer did not shoot at him while he was running away from him?

A No, ma'am.

Q He turns around and starts walking back to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

the officer, is that when the officer starts shooting?

A He just, I mean, he was walking back towards him and he started, he started shooting. He just kept shooting, he just kept shooting. And I asked my husband why is he, why won't that boy stop.

Q Do you recall hearing the gunshots in your mind, can you hear them?

A (Nods head.)

Q Was there just one succession of gunshots or were there shots, then a pause and then more shots?

A He shot like maybe three or four times, and he stopped. And then he just started shooting again.

Q When he shot three or four times, did Michael Brown go down to the ground at that point?

A No.

Q He was still standing?

A And so I asked my husband, well, maybe he doesn't have real bullets, maybe they are rubber bullets, he's not stopping, why doesn't he stop shooting.

And, of course, he couldn't answer that because he doesn't know.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q And so after he shot three or four times, and then the victim continues to walk toward the officer, he fires again, the officer shoots again, about how many times for this?

A I'm going to say three times and then that's when he collapsed, he just collapsed to the ground.

Q Was he in the street or on the grass?

A By this time he was in the street.

Q Okay. And when he fell to the ground, did he fall on his back, on his front?

A He fell facedown.

Q Okay. Did you ever see him fall to his knees?

A (Shakes head.)

Q So he just --

A He just kind of toppled over.

Q -- he went straight down. And did the officer continue to fire after he fell on the ground?

A No, he just kind of stopped and kind of froze and just looked.

Q Did you see the officer approach his body?

A He didn't touch him.

Q Okay. And at this point, are there any

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

other police vehicles in the area at this point?

A At this time there was a white car, I don't know what kind of car it was, a white car kind of moved around the police car and then by that time other cars started to arrive.

Q The white car, did it look like a police car or just a white car?

A No, I think it was just a white car on the street.

Q Before it moved around the police officer, where it had it been?

A I don't know, I guess they were coming down the street, but -- and they just kind of went around.

Q Okay.

A The police car.

Q And so was that car moving west on Canfield then? Did you see that car leave the area then or did it just park over here?

A I think it just parked over there.

Q Okay. What about the shorter kid, did you ever see him again?

A No, ma'am.

Q After Michael Brown was down on the ground, did you ever see anyone move his body before

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

it was eventually removed from the seen?

A No.

Q What about the officer's vehicle, did you ever see the officer get back in his vehicle?

A Huh-uh, no.

Q Did you continue to watch after this or did you go inside?

A No, we were standing there and, um, I just said, I told my husband, he just killed that baby.

MS. WHIRLEY: I can't hear, I'm sorry.

A I'm sorry. After that all happened, I just said, I told my husband I said, he just killed him, he just killed that baby. By that time came outside and, of course, years old, just try to tell to go back in the house.

Q (By Ms. Alizadeh) Was your --

A was inside her apartment. There is a patio door, was kind of standing inside the patio door.

Q Had seen some of it, was upset?

A Very.

Q And how about you, you were upset at this point?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yeah, because I had never witnessed anything like that. So, of course, there are a lot of questions to why. I mean, I have a son, I have a son, and they could of --

Q Do you need to take a break?

A (Shakes head.)

Q The --

A I'm sorry.

Q You're doing all right. Just breathe, okay. Take a little water.

What's your son's first name?

A This is why issues like this is why we don't frequent my 's. There is a lot of things going on down there and my son does not go down there unless he's with us. I have a child and that could have been my son, and so that is why it is hard for me.

Q Okay. When you saw the victim turn around and walk toward the officer, and you had demonstrated kind of that his hands were in the same position?

A Uh-huh.

Q And I'm going to describe this, you tell me if I'm describing it accurately, but his hands

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

are, his fingers are pointed toward the ground?
A Yeah.
Q His palms are facing forward?
A Yes.
Q And his arms are slightly bent at the elbows, but to his side?
A Uh-huh.
Q Is that accurate?
A Yes, ma'am.
Q Did his hands, when he turned around, did his hands stay in that position?
A Pretty much.
Q And as he walked toward the officer?
A They stayed.
Q Did they ever go up?
A No.
Q You never saw them go up like this? (indicating)
A No.
Q What about, did you ever see his hands go towards his side or like was he ever --
A No.
Q -- feeling on his abdomen like for?
A No.
Q Never saw that?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A (Shakes head.) He had on a white T-shirt and khaki pants or shorts. He didn't have a hoodie on like most of the kids, he didn't have a hoodie on or anything where he could have did anything like that.

Q Okay. And never heard the officer or him say anything?

A No.

Q Okay. Um, did, when he was walking toward the officer, did you feel, in your opinion, was that in a threatening manner?

A No, he wasn't. He didn't have his hands up fist ball or anything of that nature. I think he was stunned, honestly. He just turned around and he just, like I said, he turned around and he looked at his hand and he turned around and he did like this and he kept walking, he just kept walking toward the officer, he didn't stop.

I asked my husband, why don't he just stop, why don't he just be still, why don't he just stop, and he didn't.

Q Did you ever see the officer get on his radio or talk into a radio, either while he was on the street or back at his car?

A No.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q At some point you saw other policemen come?
A (Nods head.)
Q Did you see them taping off the scene, putting tape up?
A After.
Q Afterwards?
A Yes, ma'am.
Q Did any of those officers move the victim's body?
A No.
Q Did any of those officers move Darren Wilson, the officer who was involved in the shooting, his name is Darren Wilson, I don't know if you knew that, but did you see anybody move Darren Wilson's vehicle?
A No.
Q What kind of car was Darren Wilson driving?
A It's an SUV, I don't know if it is a Blazer, I don't know it is just the regular Ferguson SUV. I don't know, I'm not good at cars, I don't know.
Q Was it clearly marked as a police vehicle?
A Uh-huh, yeah. It had Ferguson Police

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Department on the side in writing.

Q Did you ever notice, were the lights on?

A No.

Q The light bar on top of the car or anything?

A Huh-uh.

Q What about a siren or one of those squawkers, did you here any whoop, or anything like that?

A No.

Q Okay.

MS. ALIZADEH: Does anybody have any questions?

MS. WHIRLEY: I do, yeah.

Q (By Ms. Whirley) Tell me what you meant by things are going on at Canfield Apartments where you won't allow your son to go there without you?

A It is just not an area that I want him in. I mean, it's just a lot of things that go on just, it's not a safe environment.

Q Okay.

A So, I mean.

Q You mean like the other folks that live there?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yeah.
Q Or the police?
A Just the complex in general. I just, it is not safe, it is not somewhere I want him.
Q Okay. Can you tell me where you were on the map when the police first encountered Mike Brown Michael and Dorian Johnson?
A We were walking up the steps, this little patio, porch.
Q You were on porch?
A Uh-huh. And then this is where apartment sits.
Q So were you watching them when the police encountered them or were you walking to the apartment?
A It is open, so you can see whatever is going on on Canfield.
Q And it had your attention because it was the police?
A Uh-huh.
Q And a couple kids in the middle of the street?
A Uh-huh.
Q Okay. Now, you said that the police, show me here on the map where you were when the police,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

after Michael Brown ran from the car, where were you when the police first started firing?

A Right here. We hadn't gone into the apartment.

Q You were still outside?

A Uh-huh.

Q And you were, of course, watching at this point?

A Yes, ma'am.

Q And you have good vision?

A Yes, ma'am. And I have contacts, I'm over , yeah, bifocals, actually, yeah.

Q You could see clearly, there was no impairment for you to see?

A Nothing wrong with my vision, no.

Q Well, I guess you already told us, when Michael Brown and the officer, I guess, he was facing the officer and the officer first started shooting you said about 20 feet?

A Approximately.

Q How far apart they were?

A Yes, ma'am.

Q Did you ever see Michael Brown charging at the officer?

A No.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay.

A I mean, he turned around, and I'm assuming that he was just stunned, that's how it appeared to me. That he looked down at his hands and he saw blood. He turned around and he just started walking back towards the officer.

Q Did it appear that he was surrendering?

A I guess you could say that.

Q You were there?

A I assumed that that's what he was doing, but I couldn't hear words being, between the two people because I don't recall them saying anything, I don't recall.

Q I'm sorry, I'm trying not to talk at the same time. Did it seem like they were talking or words were being exchanged, even though you couldn't hear them?

A I really can't say.

Q Okay.

A To be perfectly honest, I can't say. I would assume and I would hope, but I can't say.

Q Where did you see Michael Brown's body fall after the last shooting?

A He was in the street. I want to say maybe about right here. (indicating)

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay. It looks like to you it is right around Copper Creek Court?

A Yes.

Q And Canfield Drive?

A Yes, ma'am.

Q Was it like east of the intersection? I'm sorry, west of the intersection?

A He was going back towards the police car.

Q Okay. Which was headed west initially?

A West, uh-huh.

Q So west of the intersection. In your opinion, did it appear necessary for the officer to shoot him that last time?

A No.

Q Why?

A Because he had stopped, I mean, he was kind of standing there and he just started boom, boom, boom, and he just fell.

Q Okay. So when you said he had stopped?

A He was just standing there, he wasn't moving, he wasn't running, he wasn't doing anything.

Q So the last round of shots, Michael Brown was not even walking towards the officer?

A No. He walked and then it was like as he was shooting, he just started falling like a domino,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

he just kind of fell.

Q Okay. So explain to me, I don't want to be confused. Why you didn't think it was necessary for him to shoot those last rounds of shots at Michael Brown?

A I just think it was too much. I mean, that's just me being a mother, this being a child, he was not charging at him, he did not have a weapon that I could see, I mean, I guess because these are the question that I asked my husband.

Q Okay.

A I asked him whatever happened to a warning shot, whatever happened to shooting in the ankle or somewhere just to stop him, but he just kept going.

Q Okay.

MS. WHIRLEY: All right, thank you. Any questions?

MS. ALIZADEH: Let me ask a couple more questions,

Q (By Ms. Alizadeh) When you first saw them at the car, after the officer had backed up, did you see any kind of confrontation at the car?

A I don't know what happened inside the vehicle when the first two shots went off.

Q Uh-huh.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A I don't know what was said, I don't know.
Q So at this point Michael Brown, or the victim, is standing outside the driver's window or driver's door, right?
A Yes.
Q And was he close to the vehicle?
A Like right here. (indicating)
Q And you are motioning?
A I'm sorry.
Q It is about an arm's length?
A Uh-huh.
Q Did you notice if any part of his body was inside the vehicle, could you tell?
A No.
Q It wasn't or you couldn't tell?
A I couldn't tell.
Q Okay. So you don't know what was going on between the officer and the victim at the vehicle except that they were up close within?
A In proximity.
Q Close proximity. And then you heard two gunshots?
A Yes, ma'am.
Q And it was after the second gunshot that --

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A He ran.

Q -- he ran?

A Uh-huh.

Q After the first gunshot, did Michael Brown or the victim remain at the driver's window?

A Uh-huh.

Q Or did he back away from the car?

A The shots were like consecutive. It was like boom, boom. I'm like, oh, no, they're shooting. And I sat there because I didn't know who was shooting. And that's when he backed away from the car and started to run, and that's when the officer got out of the car to run after him.

MS. ALIZADEH: All right.

MS. WHIRLEY: Questions?

: . When you said it is not a safe area, if I could get just a little bit more clarification. This is not a safe area. Is there gang activity in the area that you know?

A Honestly, I don't, I don't know. I just don't want my child there. When I say that, it is just that my son is years old, he's , he's a good kid. Things happen, police are always down there. I don't know what goes on.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

I honestly don't go down there at night. So when I say I don't want my child there, he abides by what I tell him and he goes places where I feel he is going to be safe.

I understand.

A I understand that's 's home, I'm not comfortable with him being . I have a daughter, and knows they can come and take out during the day, but it is just too much, it is too much activity, whether it is the residents or police or whatever, I don't want him there.

And as a mother, he does what I tell him to do. So it has nothing to do with that. My mother is a business owner, I don't like for him to go where her business is at night because he's . This is my way of protecting my child as much as I can protect him.

Uh-huh.

A When I say go somewhere, he don't go. He's he drives, he's a good student, but when he leaves my house and he's going somewhere, he needs to give me a phone call.

: Uh-huh.

A And that's what I expect him to do. When

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

he's on his way home, he needs to give me a phone call.

: Uh-huh.

A But that's my way, that's our way of protecting him as much as I possibly can. I don't know what happens there because I don't live there.

: Uh-huh.

A But I don't want him there because it is too much police activity, there is too many people many walking up and down the streets all the time, and I don't know what they do there because I don't live there, but I don't want either one of my kids there. I'm going to tell you how I feel and my husband.

: If I can ask another question being a mother, like you said, of a Do you also advise him to respect --

A Yes.

-- law officers?

A Every time I tell him what to do and he even encountered being stopped by a police officer and it scared him to death because he was not doing anything, this is when he first learned how to drive. He was going to my aunt's house, it was dark and I don't know if you all are familiar with Parker

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Road, there are no lights on Parker, he had his high beams on. The police officer pulled him over and he stopped, he was not disrespectful, he was not belligerent, he pulled out his insurance, his license and the police officer told him, young man, I'm just giving you a warning, turn your high beams off. And my child was so afraid, the officer wanted to know if he needed us to come and pick him up.

So he respects the authority, however, I don't want him to be in a situation where he has to second guess anything that my husband and I have told him about, what he's supposed to do when he's encountered by a person of authority. My child has a 3.5 GPA. He's never been suspended, he's never been in trouble, but it is always that one incident.

When he leaves the house, he's only to have two people in his car outside of his sister. I mean, I mean, I was a teenager, my husband was as well, but we try to train him and teach him to do things that he's supposed to do. But that's not always the case. And when you have other people in your car, you don't know what they have on them. So we've given him as much guidance as we possibly can.

Now whether or not he uses it when he

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

walks out the door, that's another story.

Uh-huh.

MS. ALIZADEH: just to clarify, the officer that pulled over your son, was he a Ferguson officer?

A No, he was a county.

MS. ALIZADEH: Okay. And that encounter went okay?

A He was fine, it just scared him to death.

MS. ALIZADEH: Maybe that's a good thing, right.

A I mean, when he got in the house, he was trembling. I mean, he was shaking, and we were like what is wrong with you. He is like, I got stopped. I'm like, okay. Calm down, but because he knows he has to respect authority. And he just, but I didn't do anything. Which I understand that, but he had his high beams on on a dark road and he could have blinded the other driver.

And, again, like I said, he was , just learning how to drive. It was dark, he figured I turn on the high beams and I will be okay.

MS. ALIZADEH: But the officer wasn't belligerent with your son?

A No, huh-uh.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

MS. ALIZADEH: And just, again, I didn't ask you to make sure, but do you know any Ferguson police officers?

A Um, I don't think he's a Ferguson police officer. One of the coaches for my kids track team, I can't think of the man's name, he was a Ferguson police officer and I believe he's retired.

MS. ALIZADEH: Okay. Did you know Darren Wilson?

A No.

MS. ALIZADEH: Any other questions?

. If you could, take me back to the time when Michael Brown ran into the grassy area as you said, is turning around?

A Uh-huh.

: Before he was shot at by the police officer after running?

A Uh-huh.

And started moving back towards the officers with his hands down like this, both you and have both kind of said that there was a sense of frustration with you why Michael Brown was still moving forward a little bit, sounds like you were both a little frustrated with that. Can you describe that a little?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A I didn't understand why he just didn't stop and maybe get on his knees, just stop moving period. I just didn't understand why he kept going. I mean, I don't know if his parents have talked to him about ten and two and doing certain things when you are stopped.

So, yes, I was frustrated.

Okay.

A I don't honestly think he has been taught what to do and that's just my personal opinion. Again, as I say, I have a son, and so you know, there is certain things that you do and don't do when you are approached by authority. And he just, he just should have stopped. He just should have stopped.

: Do you have any idea or logical guess as to how much distance he covered moving back towards the officer, was it a few steps, was it ten steps?

A No, it was probably maybe ten steps.

: Okay.

A He was close enough to, I think reassure the officer that he was not a threat, that's my --

MS. WHIRLEY: He is what?

A He was close enough where he wasn't a

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

threat. I think when he turned around and his hands are down, I think the officer should have said okay, I mean, I don't know, I don't know what was going through his mind. I don't know what was going through the victim's mind, but again, I was frustrated because he just, I mean, he just should have stopped and I guess, I don't know, he should have did something different than just keep on moving.

: Thank you.

: . The officer, was he moving at that time as Michael Brown was approaching him or maybe when he paused between the two series of shots or at any time?

A He was standing still.

Was the officer moving towards Michael, away from Michael or standing still?

A He was standing still.

Through all the shots he was just standing still?

A Uh-huh.

Okay. Thank you.

I guess at the time when he turned around and he had his

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

hands like this? (indicating)

A Uh-huh.

: You said that, you could see both of his hands?

A Uh-huh.

In your opinion, could the police officer see both of his hands?

A Yeah, honestly, yeah, I believe so.

: Thank you.

: . Could you see Michael Brown's face or was his back to you when he had his hands like? (indicating)

A When he turned around this way, it was his back and then he was looking this way, it was still his back, but you could see his hands out to his side.

And you say he wasn't charging, he was just moving forward?

A I want to say it is almost as if you tell somebody to come here and they're coming, but he just kept walking, he just kept going, he just didn't stop. Even today, I don't know why, I don't understand that and when it was all going on I asked my husband why won't that child just stop.

: I understand. This

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

question is hard for me to ask, okay. This one you said that in your opinion because you're a mother, you felt like it was too much, too many shots, I'm going to ask you if it was your husband or child that was the officer, would you feel the same way?

A Yes, I would.

Okay. Thank you.

A I have to be perfectly honest, this has changed his life, it has changed this child's family's life, everybody's life and it went from 0 to 100. And honestly, I think it was just something that could have been thought through a little bit more because his life has changed, no matter what happens, both of them. It has changed a lot of lives.

: I do, . I just want to make sure that I heard you correctly. You said the last shots were fired, the ones that you feel were excessive, Michael Brown was not walking towards the officer at that time, he had stopped?

A No.

: Okay. Thank you.

: Just one clarification. Were there any other cars besides the white car that you saw that could have been

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

blocking the police officer where he had to walk around to come and show his full body?

A No.

MS. ALIZADEH: Any other questions?

: . At any time did you see Michael Brown reach under his shirt?

A No, I did not.

: Thank you.

MS. ALIZADEH: All right. This will conclude the testimony of Thank you.

(End of the testimony of .)

MS. ALIZADEH: It is October 6th, it is 9:47. We just had a midmorning break. This is Kathi Alizadeh, present also is Sheila Whirley and all 12 grand jurors, as well as the court reporter. We will be playing a couple of recorded statements.

I thought, and Sheila and I decided, we talked, probably make more sense to play s statement first since she just testified and be fresh in your mind. And the first statement is about, well, it is 54 minutes and 32 seconds. It is just under an hour.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

So we will start that, we will cease the audio recording while the statement is playing. And then at the conclusion of that statement, we will play the statement of , which is considerably shorter. Although I don't know how short, I have to find out, all right. So at this time we'll cease the audio recording and begin playing the statement. While the statement is playing, I will pass around Grand Jury Exhibit Number 32.

(Grand Jury Exhibit Number 32 marked for identification.)

MS. ALIZADEH: Which is a map that used during her statement and she made some drawings and labeled some things as the statement is being played. It might be helpful for you to be able to have seen this.

MS. WHIRLEY: Her recording, just for the record, is Grand Jury Exhibit Number 24.

(Interview of is being played at this time.)

MS. ALIZADEH: It is 10:44 a.m. here and so I have passed around Grand Jury Exhibit Number 32. This exhibit, as well as all the others that we've seen and used will be available to you if you

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

want to see it again or at the conclusion of all the evidence, will be made available to all of you again.

We had a change of plans today. The witness for this afternoon left me a message needing to reschedule, so I have now gotten ahold of the firearms examiner who is going to come over at 1:00 or whenever you are done with your lunch break. So he will give his testimony after lunch. I'm going to try to get somebody else. He won't take an hour and a half, but I will try to get another police officer or someone else to come in to round out the rest of the afternoon.

And as of right now, I've got to see what's going on outside of this room. If you want to take a quick break since we will start back up with listening to more statements.

(Recess).

MS. ALIZADEH: It is 10:54, this is Kathi Alizadeh. Sheila Whirley is not in the room, she's just outside. All 12 grand jurors are present, as is , the stenographer, and right now Judge asked her to come over and she needs to address you as a group. There won't be any individual questioning, but she's going to talk to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

you as a group right now, all right.

Neither Sheila nor I will be in the room when she's here to talk to you.

THE COURT: It is Monday, October 6th, and I'm back in front of you mainly because I'm always thinking about you and I have a little bit of information that I want to share with you. And I hope that what I'm here to say will also guide you.

Um, I received some information that some of you, and by the way, I have no names, and you are not at the principal's office right now, you have not been called to the principal's office. I want to assure you about that, but some of you may have done some independent investigation or some research, and I'm here to caution you about that.

Your job, as you know, when I told you when you started here will be to listen to the evidence that you're going to hear and then at some point, you're going to be deliberating.

It's very important that you all come to deliberate, that you are all considering the same evidence. You will each have thoughts about the evidence you've heard, you will each have opinions, but the very important thing to give the decision you make credibility and value is that you are all

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

considering the same information and evidence.

And so I'm here to caution you do not go out and do independent research and investigation. If there is something you want, you tell the prosecutors. They will go and get that for you. And if they can't get it for you, they'll tell you why they can't get it.

Ask for anything you think you need to reach the decision you're going to be reaching, and I can't caution you enough about that.

I think of you often and I think of you because, and I told you this before, I told you at the beginning and I still tell you this, you are the face of our community. This decision is important, you are good people. You collectively are our St. Louis County. We have St. Louis County, that's our community here.

You are, you are the face of our community. Your decision will be the decision of the community because you good people have listened to all of this evidence and then reached your decision.

The decision you reach will be thoughtful, it will be thorough, and it will be based on as much evidence as you ask for and as can be brought to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

you.

And just so you are deliberating and talking back and forth, just so you all know, you're thinking about the same evidence. That's why it is so important that you not do this independent research, independent investigation.

So I'm going to ask you to please, if there's something you have, it has to be shared collectively. I'm going to ask you from this point forward, do not go forward and do anything independent. Ask the prosecutors for it.

I guess I've stated what I really wanted to state, but I have such faith in you. I think you, no matter what the decision is, your decision is going to be the result of a well thought out and conscientious approach to considering it. That's what is provided for in the law. You're going through a very hard task at this time.

But when you go through that task, you should know at the end of the day, and I will know at the end of the day, you have done everything that is provided for under the law in our justice system when grand juries sit, and you have done everything that has been asked of you as a citizen of St. Louis County.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

So my caution to you is if there is anything you want, you tell these prosecutors, they will get you that information. And if they can't, they will tell you why, ask them why. You are certainly free to do that.

But keep yourself safe too. I respect the law and I follow the law and I'm following the law right through to the very end. And, um, I will answer questions that people have because people are free to ask questions in our justice system.

If the press comes to me and ask me questions, I am going to follow the law in that regard. I believe I have followed the law up to this point with regard to any questions from the media, I will continue to do that, but when you do independent investigation, I worry that you keep, that you may expose yourself to dangerous situations, and you may create a situation where people start talking about you and reporting they've seen this, they've seen that, and it may lead to more problems than we could ever imagine.

So please keep your research and investigation here in this room, please keep yourselves safe and please know that you are the very good people of St. Louis County, we are lucky

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

to have in St. Louis County doing this very hard work. Your collective decision when you reach it will be the decision, no matter what it is. I don't know what it is, I'm pretty darn sure you don't know what it is at this point.

That is the decision that our justice system has thought about, provided for in the laws, and will guide you ultimately to making your decision and decide what the next step will be under our justice system.

So it is nice seeing you once again. Thank you for your very hard work. That's all I wanted to say, thank you.

(End of Judge 's statement.)

MS. ALIZADEH: All right. It is 11:04 a.m. on October 6th. This is Kathi Alizadeh, present also is Sheila Whirley, all 12 grand jurors are present as is , the court reporter. We are next going to play a taped statement from

If you recall, he's already testified, I think, last Thursday. We'll hand out the transcripts. And then as usual, we will have pause the recording while the recorded statement is being played and then we'll resume.

I don't have, if there is a map, I don't

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

have it. So I will have to, they talk about doing a map in the statement and I don't remember if they do. If they have a map, then I'll have to get that for you this afternoon.

So pause the recording now, we're going to play from State's Exhibit Number, Grand Jury Exhibit Number 24, which is the disc that contains witness statements, including the statement of

(Interview of is being played at this time.)

MS. ALIZADEH: It is 11:15, we just finished listening to the recorded statement of

Uh, I'm now going to pass out some transcripts and we will listen to the recorded statement of Her statement is also being played on a disc, from a disc that is on Grand Jury Exhibit Number 24. And is going to pause the audio recording while the statement is being played.

(Interview of is being played at this time.)

MS. ALIZADEH: And I believe, although the officer didn't specify, that he starts out in the

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

interview and he says that he is at with , I believe that that is where she lives, which on the map is right here, Building Number . Okay.

And I will also let you know that we have a map that has been put together for you that has the dots on it of every one of the witnesses who are testifying and you will have a legend that will have the number of the witness and then the name.

So eventually when all the witnesses are done testifying, we'll have that and you will be able to go back and say this is where that girl was, this is where that guy was and so forth.

So it will kind of help to pull all of that together, but right now since we haven't heard from all the witnesses and the map is already marked with all the witnesses, we are going to wait until we get all of those people on to testify. So you don't have to worry about trying to remember so much as far as where everybody was because there will be a map given to you that kind of lays that out.

Um, also, there is a recorded statement of that was done on September 30th, by the FBI. And I just got that transcript this weekend, and I haven't got the actual recording yet, but I

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

did talk to the agents this weekend and I'm hoping that they're going to drop off this recording, as well as some other recordings this morning. So I will check during the lunch hour and if I have that recording, then we will listen to that after the lunch hour.

is scheduled first thing in the morning. If we don't get on that this afternoon, we will try to listen to that before she testifies in the morning, okay?

And so we'll just skip that second statement of for now, and the next statement that I'm going to play is a statement of . She's also scheduled to testify tomorrow. And if you recall, is the fiancee of whose already testified. I'm going to pass out, obviously, not obviously, but her statement is very brief as well.

(Interview of was played at this time.)

MS. ALIZADEH: It is 11:28. We just finished playing a recorded statement of , which was played on Grand Jury Exhibit Number 24.

At this time, unfortunately, I don't have

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

anything scheduled, although I do have a witness scheduled for tomorrow. I don't have transcripts printed up yet, let me see if it is on there.

You want to see how long that statement is?

If you want to hang tight, I can try to print out a ten minute statement that will get us closer to the lunch hour. Hopefully it will just take me really quick.

MS. ALIZADEH: And, , if we want to go ahead and pause the audio recording and then we can step out while I'm printing these up. And if you guys want to talk, you are able to do that while we are out of the room, okay.

(Recess)

MS. ALIZADEH: It is October 6th, 2014, it is 11:36. This is Kathi Alizadeh, Sheila Whirley is present, as well as all 12 grand jurors and the court reporter. So we took a brief break while I printed up some transcripts. So we're next going to play for you a recorded statement from a witness whose name is , and I believe that's .

Who is, he's a juvenile. I can't remember how old he is. I am hoping he is going to be able

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

to testify tomorrow, that's the plan. We will go ahead and listen to his statement now and get that out of the way.

His statement is about ten minutes long I think, you said Sheila? And it is also contained on Grand Jury Exhibit Number 24.

(Interview of is being played at this time.)

MS. ALIZADEH: All right. It is 11:48, this concluded the playing of the recorded statement done on August 9th, 2014 of . And so at this time we'll go ahead and begin our lunch break. I think the lunch is supposed to be delivered at noon. So if you all want to just take a break and use the restroom and whatever, or chat amongst yourselves. And then when the food gets here, we'll give, you know, a good amount of time to eat and then you'll just let us know when you are ready to start up after you are eating your lunch.

The next witness I hope is going to be here, he's going to be here like a quarter after noon that is for me to talk to him. We should be able to get going as soon as you're ready. All right. So we'll conclude for the morning.

(Lunch recess taken)

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

MS. ALIZADEH: This is Kathi Alizadeh. It is October 6th at 12:58 p.m. I'm present, as well as Sheila Whirley of the prosecutor's office, all 12 grand jurors are present. We're going to begin the afternoon session. We are going until about 2:30 today. I have had to, we had a witness cancel, so I did my best to get a couple of people in here to make good use of your time for this afternoon.

So the first witness you are going to hear from is And then on his way is another detective, his name is , So hopefully we'll get the two of them in. I apologize if it is not 2:30, then you guys are going to break early today and go on your way because I don't think I can get anybody else in this afternoon.

So if the witness now would be sworn.

,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

BY MS. ALIZADEH:

Q Could you please state your name and spell it for the court reporter?

A , .

Q Um, can you please tell me how you're employed?

A I am a police officer with St. Louis County Police Department, assigned as a firearm and tool mark examiner in the crime laboratory.

Q And so you originally received your training to be a police officer; is that right?

A Yes.

Q When did you become a police officer?

A In early, I'm sorry, 1991. I became an officer commissioned and hired by St. Louis County and have not worked for any other departments.

Q So as a police officer after your graduation from the academy and during your training with the academy, you learned how to use firearms, correct?

A Yes.

Q And then at some point you went from being a uniformed officer to having this specialized area of tool marks and firearms examiner, correct?

A That's correct.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q So can you explain for the jurors, first of all, when is it that you went and got your training for that?

A After four and a half years on patrol, I went into the Crime Scene Unit and was in the Crime Scene Unit for six and a half years.

So approximately 2002 I was assigned in the crime laboratory, trained under other qualified firearm examiners, both on the job and through available training outside the laboratory by firearm manufacturers, ammunition manufacturers, ATF training opportunities, FBI training opportunities and so forth. Completed that training in 2004 and have been an examiner ever since, even becoming the supervisor of the section, I think, two and half, almost three years ago now.

Q So you began in the firearms lab in 2002 you said?

A Yes.

Q So there's, you had approximately two years of training before becoming a firearms examiner?

A A qualified examiner, yes.

Q Now, to be a qualified examiner, do you have to have any type of certification or

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

qualification?

A There are opportunities for certification through an international organization. They're not required, only a small percentage of examiners take that opportunity and I have not, so I am not certified through them, but I have been qualified both in state and federal courts numerous times as the expert witness.

Q So for approximately ten years you've been working solely and strictly as a tool marks and firearms examiner for St. Louis County Police Department?

A That's correct.

Q And can you give me an estimate of how many times you have testified as an expert witness in that area in state and federal courts?

A I wish I had counted them. Truthfully my best estimate would be dozens, not 50, but more than 25.

Q Okay. And in those cases, have you been qualified to testify as an expert in the field of tool marks and firearms examination?

A Yes.

Q So can you explain for the jurors, obviously, firearms and tool marks are two different

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

types of things you might be looking at in this case?

A Uh-huh.

Q The investigation into the shooting of Michael Brown. You were looking at firearms and ballistic materials; is that correct?

A Yes.

Q Okay. So while it might be very interesting to talk about tool marks and what you do with them, let's skip that part of your expertise and we'll go straight to the firearms portion of it, is that all right?

A Very good.

Q Now, in the laboratory setting at St. Louis County Police Department Crime Laboratory, are evidence items submitted to you for you to examine and test?

A Yes, they are.

Q And in this particular case, which is in relation to St. Louis County Police Department's Complaint Number 14-43984, were there items submitted to you for you to examine and test?

A Yes.

Q So first off, let's talk about a weapon. Was there a weapon submitted to you for you to test

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

and examine?

A There was a firearm submitted for my examination, yes.

Q And I say weapon, I guess that's pretty all inclusive. The weapon in particular is a firearm, correct?

A Correct.

Q And you tested that weapon and compared it to some other materials that have been submitted to you?

A That's correct.

Q Did you put your conclusions in a report that you then gave to me?

A I did.

Q All right. And I'm going to show you Grand Jury Exhibit Number 33.

(Grand Jury Exhibit Number 33 marked for identification.)

Q (By Ms. Alizadeh) Is that a copy of a report you made in this case?

A Yes, it is.

Q I'm going to pass this around so everybody can have a copy of that as well. So Officer when you are submitted, in this case, the firearm, what do you do to begin your

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

examination?

A In this particular case, after opening the package to observe the weapon, firearm, I discovered that it had what appeared to be blood on it. In the interest of safety for myself and others that might handle this firearm after me, I cleaned it with bleach to kill any biohazards and remove that apparent blood from the firearm.

Q Okay. So let's back up now. This weapon was submitted to you by Detective is that correct?

A The seizing detective was . From him it went to a secure vault that they have access to for dropping off evidence after hours. That vault is then accessed by Property Control Unit, and in this case , who is the supervisor of the Property Control Unit. Removed it from that vault and brought it to me.

Q So what day did you receive that firearm?

A October 11th of 2014. I'm sorry, did I say October? I meant August, I'm sorry.

Q That would have been a Monday, correct, or maybe. If the 9th was a Saturday, that would make the 11th a Monday?

A That sounds correct.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Can you describe how this weapon, this firearm was packaged and how you first saw it?

A It was packaged in a box that we have specifically on our department for the storage of firearms and it is sealed with evidence tamperproof tape. In other words, if the tape is torn to open the package, you can tell by the tearing of the tape.

And it is also itemized on an evidence receipt that accompanies that box. So its submission has some of the case information and the contents of the box listed thereon.

Q Now, when you received the box, did you examine it to determine whether or not the tape that sealed the box had been tampered with?

A It was sealed when I received it.

Q Had you noticed, or in any case when you noticed that there has been a tear in the evidence tape, would you notify the seizing detective immediately?

A Yes.

Q Okay. So in this case, it appeared to still be intact, correct?

A Yes.

Q Was there anything unusual about the way

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

it was packaged?

A Not to my recollection.

Q Now, there has been testimony from Detective , and I'm just going to ask you to take my word on this, that when he first found the weapon or first got the weapon I'll say, that it had been packaged, so to speak. And he described to the jurors the way that was.

The weapon had been placed in like an evidence envelope and the magazine and live round had been removed from the weapon and the slide had been locked in its back position. Did you see any evidence envelope with the box that you opened up, was there anything like that in there?

A Truthfully, I don't recall, however, that's not unusual. So the answer to your earlier question anything unusual, no, because it's not infrequent that that does occur, especially the firearm being made safe and unloaded and the action locked up and so forth, that is actually a requirement of the laboratory that we not have loaded or unsafe firearms.

Specifically in this case I don't recall an envelope, but if there was in that box, it would still be there today.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q Okay. Whatever the condition it was in was not unusual to you?

A Correct.

Q And, in fact, the St. Louis County Police Department's Crime Laboratory examines firearms and ballistic materials from any police department in St. Louis County that would submit them to you; is that fair to say?

A Yes, including federal agencies, yes.

Q And I would imagine, and I'm not sure, would it be fair to say that just different departments, they may have a different way of packaging a firearm? In other words, they might not use the same box that the county uses and so forth?

A That's absolutely true. In fact, that's why it is not unusual because we have a requirement that the guns be boxed. It is for a safer storage and so forth, easier to store.

Those agencies that will use those envelopes, when they arrive at our lab we will offer them boxes. It is not unusual to have that envelope in that box, no matter how they choose to submit it. Still other agencies will choose boxes very different from our own. Simply whatever they have available because then they meet the requirement of

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

having the firearm boxed.

Q Now, we have also heard testimony from Detective that when he seizes a weapon, in order to package it and submit it for examination, that he would zip tie through the ejection port of the weapon in order to prevent that slide from moving. Did you notice if that had been done in this case?

A I didn't pay particular attention to note, but every firearm is required to have a safety of some sort applied to it for its submission and that is the most common. And, in fact, when I'm done examining, I put on the very same zip tie.

Q And then he also testified that he would use some kind of led identification number seal that he would put on the trigger guard of the weapon to mark it, so to speak, or number it. Is that also something that you use for sealing?

A Absolutely, it's a led tab that has a steel wire coming from it. That led is manufactured for our department with our name on one side and forgive me, our number on one side that is unique. It is an incremental numbering system on those led seals. They are unique so they're not repeated. So that number, when that led wire goes through the

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

trigger back into the led and is crimped on with the led crimper, it embosses St. Louis County on it ideally. Then that is a unique number identifiable to that specific firearm and yes, I am very use to seeing those.

Q All right. So when you first receive that weapon and you look at it, did it appear to be handled properly in your opinion, came to you at least in a condition that didn't raise any suspicions with you?

A Correct, I found it as I would expect to.

Q Okay. So can you describe what this weapon is?

A Yes, it is a pistol. It's made, as you can see on your copies, by Sig Sauer, Incorporated. They're located in Exeter, New Hampshire. This model is a P229 and the caliber of it is .40 Smith & Wesson.

Again, it is a pistol, the finish I call black, that's mainly for the color. Manufacturer's have many different names for their finishing processes. We don't try to keep up with those. We simply try to know what color that finish is. It has six lands and groves with a left twist inside the barrel, and this firearm has serial

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

number 55B003794.

Q All right. The things that you indicated just now about the weapon, are those things you can see in your visual examination of the weapon or did you have to like actually look through some kind of device in order to determine that it had six lands and grooves with a right side twist, I mean, a left-hand twist?

A That is the interior of the barrel. It took some lighting to eliminate that. It can be seen with the naked eye, however, low power magnification is best. I have an eye loop, it is a jeweler's loop, it is only 5X, it is not very much at all. Like a magnifying glass, it is not very much at all. It makes it easier to see. So I can look into the barrel and determine the number of lands and groves and the direction of that twist.

Q In regard to the caliber of the weapon, what does that mean?

A The number is roughly the diameter from the raised area of the land on one side to the raised area of the land on the other side on the interior of the bullet. Interior diameter, if you will.

Q The interior of the barrel?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Of the barrel. However, that's not an exact measurement. There are different tolerances that the manufacturers have. The S & W after that number is Smith & Wesson is what that stands for. They developed that caliber, so .40 Smith & Wesson caliber is a name of this caliber of ammunition that this firearm is designed to fire.

Q All right. And when you say that you cleaned the weapon of blood, did you do any testing on that to determine it was blood?

A The testing of any blood or search for any fingerprints if it was necessary is all done before the firearm comes to me in the laboratory.

Q Okay.

A So I understand that there were some tests done, I don't know specifically what tests nor the results.

Q But you didn't do any yourself?

A That's correct.

Q Okay. And so after, are you familiar with this weapon?

A Yes.

Q Not this particular one, but the Sig Sauer .40 caliber pistol?

A Yes, in fact, it is the same firearm that

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

we are issued as county police officers.

Q All right. And so after having cleaned the firearm, what do you do then to continue your examination of the weapon?

A I then made note of these observations and then began to do some more observations and some simple tests to include determinating the capacity of a magazine that was submitted with the firearm and that was 12.

The firearm has no safety, I took note of that.

Q Is that unusual that a weapon of this type does not have a safety? Is it manufactured without a safety or is it somehow removed from the weapon?

A This firearm and many others have internal safeties and when we speak of a safety, we are referring specifically to an external safety that can be applied by the person possessing the firearm. There are no external safeties on this firearm, but there was never designed to be. It was not removed from this weapon, it is simply not present.

Q Okay. And so then you also indicated there was a magazine submitted with this weapon, correct?

A Yes.

Electronically signed b 5034a60e-6c14-4444-b892-e7b456d8296e

Q Can you describe for the grand jurors what is a magazine, it is not People or Time, obviously, but what was the magazine that was submitted to you?

A Some people call it a clip, but it's that detachable part of the firearm that contains the ammunition. You can load it with as many as you like up to its capacity and in this case as many as 12 live cartridges inside the magazine. The magazine when you desire, when you use your desires, would seep into that firearm and lock into it and contain that ammunition.

The firing cycle, it would take individual cartilages to load and fire from that magazine. And to continue to do so as many times as you fire it until the ammunition supply is exhausted.

Q So the magazine that was submitted to you, was it empty as submitted to you?

A We receive it in both manners, where it is loaded and unloaded. I don't remember at the moment if he unloaded the magazine or not.

Q Do you recall if there were any live rounds that were submitted with this weapon?

A I did have one live cartridge submitted with the magazine and firearm.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q So now I called it a round and you just called it a cartridge. Can you describe for the grand jurors what you mean by a cartridge?

A A cartridge is the unfired ammunition. It is a live cartridge where the primer is ready to be fired, I'm sorry, there is gunpowder contained in the cartridge case. And the bullet is seated in the mouth of that cartridge case. Again, it is unfired.

A round is a interchangeable term if you will, perhaps a layperson's term. It can mean the same thing, but among fire examiners the definition of that is a live cartridge.

Q What else did you note about this weapon that you indicated in your report. You have here trigger pull SA, not applicable. What does that mean?

A Trigger pull single action and next to that is DA, for double action, I put not applicable because I did not test the different trigger pulls that firearm has. It is a measurement taken in pounds. And the reason why I did not report that is because it can vary. One pull of the trigger might be 5 pounds and the next one might be 7 pounds. Unless it becomes a key element in the case, it is simply too variable to have much meaning to me and

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

for me to testify to it. It is seemingly unimportant.

Q So in that case where someone says I was holding the weapon and I barely touched the trigger might be relevant, but in this case it was not; is that correct?

A To my understanding, correct. There is no denial of firing the weapon, there is no question of how long the trigger pull might have been and things of that nature, so it was not recorded.

Q And then CYL and CYL rotation, what do those terms mean?

A CYL is standing for cylinder. And that is for a revolver type weapon, this is a pistol, so it does not have that cylinder, so it is not applicable.

Q All right. And then you described the barrel length in inches; is that correct?

A That's correct, three and three quarter inches.

Q And then muzzle trigger length you have NA, is that because it is a short pistol as opposed to a long gun?

A That's correct. That's more intended for the overall length of firearms. Sometimes that

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

length becomes an issue in the application of statutes. For example, sawed off gun, it has to be a certain length to be legal. And if it is any shorter than that, the measurement would have been taking there.

Q Now, we've described the action of this weapon or firearm as being semiautomatic.

A Yes.

Q What does that mean?

A Semiautomatic pistols fire one bullet, fire one cartridge with each pull of the trigger. So if you pulled that trigger one time, even if you hold it back and don't release it, it is only going to fire the one time. You have to release the trigger then until it resets internally and then if you pull that trigger again, assuming you have more ammunition it would then fire again.

But again, it only fires one time with each pull of the trigger.

Q Now, you described in this case the magazine that was submitted to you as having a capacity of 12 cartridges. Can this weapon, when the magazine is seated in the handle of the weapon, can it have more than 12 cartridges and be fully loaded.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yes. If you were to seat the magazine and work the action of the firearm, open the slide, release the slide, it would feed that top cartridge from the magazine into the chamber of the barrel. If you remove that magazine, and you have 11 in it, if you put another one in it. So it is now again at capacity with 12, reseat that magazine, you now have a total of 13 live cartridges available to be fired in that magazine, I'm sorry, in that firearm without reloading it again.

Q And you identified the cartridge, the live round I called it, but the cartridge that you were submitted, you've listed as one Federal JHP, what does that mean?

A The Federal is the marketed name stamped on the head stamp or on the base, if you will. If you stand that cartridge up on the bottom, it says Federal, that's who markets that ammunition. And JHP stands for Jacketed Hollow Point, that is the style of the bullet that's loaded into that cartridge case.

Q And the cartridge that was submitted to you, is this the type and caliber of a cartridge that could be fired from that weapon?

A It is. I did not note the caliber next to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

that cartridge because it is the same caliber that the firearm is designed to fire. Sometimes ammunition that is submitted differs from the firearm, but I note when it is different here. And because there is no such note. I know that that is a .40 Smith & Wesson caliber cartridge.

Q All right. You also indicated that you had been submitted five bullets. Can you explain what is a bullet, how is a bullet different from a cartridge?

A The cartridge is the combination of all the elements needed to fire a weapon. The primer in the cartridge case that contains the gunpowder and the bullet.

So when you're firing a cartridge, a firing pin strikes the primer, which is a very small explosive. So that sets off that explosion, that miniature explosion sends fire into the open chamber of that cartridge case where the gunpowder is.

So that fire then ignites the gunpowder. It doesn't detonate, which means to burn instantly, it burns rapidly, it deflagrates, which means it creates pressure. So that pressure that is created by the burning gunpowder is the same pressure that pushes the bullet out of that

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

cartridge case through the barrel towards its target.

Q And then the bullet is the piece that comes out of the barrel of the gun and is what we normally think of as a bullet, it is what it shoots at targets or things?

A Correct. In this case, for example, the submitted cartridge is a jacketed hollow point bullet. So that bullet would leave the cartridge case after having been fired, go through the barrel of the firearm. It's designed to make minimal, but contact with the lands and groves in that barrel to impart spin to the bullet so that when it leaves the barrel, it's a spinning bullet in flight now.

The purpose of that is if you think of the analogy of a football, if you throw a spiral football, it will go farther and more accurately then an end over end football. It is the same principles at work here. If the bullet is spinning, it will go farther and more accurately than tumbling. That rifling is what gives it that stability.

Q So the bullet is forced through the barrel of the gun, what happens to then the rest of the cartridge?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A The energy that pushes that bullet out the barrel is equal, but opposite on that cartridge case. And in essence on the gun in the shooter's hand itself. That's the recoil that you see in cowboy movies.

That cartridge case after it has fired that bullet, it is marked in several ways by that firearm. First, as I mentioned the firing pin striking that primer will leave a mark.

The pleasure from the firing process pushing that cartridge case rearward against the breech of the firearm impresses the contours of that breach into the surface of that fired cartridge case.

In this case, speaking of pistols, the action of the firearm is intended to extract that fired cartridge case from the chamber. So there is a little hook on the firearm that grabs the rim of that fired cartridge case and pulls it out, pulls it rearward of that chamber as it is pulled rearward then it is designed to hit what's called an ejector. It is nothing more than a little piece that when that cartridge case is pulled rearward, it hits that ejector to deflect it out of the open side of that slide of the firearm.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

So to answer your question in a short order, after firing the bullet, the cartridge case is ejected from the pistol and then before the action closes, it needs the next cartridge from the magazine to reload it if there is one available.

Q So, what you just described from pulling the trigger and the firing pin hitting the cartridge and the bullet being expelled from the gun and the casing coming out and the next cartridge being loaded up into the firing position, is that called a cycle, is that the firing cycle?

A Yes.

Q And that happens at one pull of the trigger, correct?

A That will happen with each pull of a trigger on a semiautomatic pistol like this.

Q So it doesn't require someone actually pulling the slide back in order to cause the gun to cycle again?

A No, it doesn't. In fact, if you were to that, you would be ejecting a live cartridge and not have as much firing capacity because you would be wasting your ammunition.

Q Can you explain, because there has been testimony perhaps that when this weapon was fired

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

during the incident of August 9th, that the officer pulled the trigger on a couple of different times and the weapon didn't fire. Did you test fire this weapon yourself?

A I did.

Q Was it normal, did it fire normally?

A Yes, I noted no defects at all.

Q Is there anything that you can explain that would have happen that would cause a weapon to not fire the cartridge if on this weapon pulled the trigger back?

A To be clear, you're asking for speculation or generally speaking, correct.

Q Sure, right. I know you don't know what happened in this case.

A Right.

Q I'm just asking you what could possibly be the reasons that you could pull the trigger and the weapon wouldn't fire?

A Okay. Sometimes ammunition is simply bad ammo, maybe the primer doesn't have a priming compound in it. So no matter how many times you strike it, it is not going to fire.

Sometimes a firearm might fail to feed a cartridge from the magazine, so you might try

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

to cycle it and it doesn't feed that cartridge, so there is no cartridge in it to fire.

There are other scenarios if you are successful firing one cartridge, but it fails to extract, in other words, the hook doesn't grab the rim and pull it out or if it fails to eject and it pulls out from that hook, but it doesn't eject before the action closes on it. It might have it standing to where the open end of that fired cartridge case pointing up and out of the gun, they call it a stovepipe, like a stovepipe on the top of your house.

Another factor might be in some way the action is impeded during the firing process. Perhaps unimpeded a firearm and ammunition might all be in perfect working condition, but if there was something blocking the action to where it couldn't cycle freely, then it might cause some of these other events to occur, especially not being able to fire after one shot because it wasn't allowed to cycle enough to feed the next one. There could be many others.

Q Let me ask you a question. In this particular weapon, when you fire it, I don't know that this is the technical term for it, but the

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

hammer, is that a technical term?

A There is a hammer that strikes the firing pin, yes.

Q The hammer, as you can see it externally on the gun when you examine the gun, correct?

A Yes.

Q And when you fire that weapon, does the hammer come back and go forward striking the firing pin?

A That's correct.

Q So if there would be something that would prevent that hammer from moving backwards and forward, would that cause the gun to not fire even though you pulled the trigger, it could?

A Absolutely it could. And that, in fact, would be a scenario where the action of the firearm is impeded. Yes, interference with that hammer and motion of that hammer would prevent the firing pin being struck and firing that cartridge.

Q And then what about, you know, you've described, or I did and you also explain to where the hammer strikes the firing pin, which is basically on the bottom of the bullet, correct?

A It's inline with the primer of the loaded live cartridge, yes.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q If there is something that is in between the hammer and that firing pin, whether it be, you know, but something that would be between that action, could that possibly explain why you pulled the trigger and nothing happened?

A Yes.

Q In other words, if a part of your hand would be in between that firing pin and the hammer, that could prevent the weapon from firing?

A Yes, absolutely.

Q And if that were to have happened, again, pure speculation, but if that were to have happened, and the weapon would not fire, if that obstruction was removed between the hammer and the firing pin, would the weapon then be able to cycle normally after that?

A Misfire.

Q Or would you have to then go ahead and eject that round?

A This firearm you could pull the trigger a second time. If the action is not impeded, it would be expected to fire then. It is not true of all firearms, but this firearm yes.

Q Okay. And if that were to have happened with this firearm, would there be anyway to tell

Electronically signed b 5034a60e-6c14-4444-b892-e7b456d8296e

that simply from your examination of the weapon?

A In the scenario you've described, no. Because there are no marks on that live cartridge for me to observe. In other words, a different scenario, for example, I gave a bad ammunition was my first example. If you tried to fire it once and pulled the trigger again and that firing pin struck that primer a second time and then fired, I would note two firing pin impressions and know that there was more than one attempt to fire it.

But in your scenario, no. There would be no marks made, I would have no indications on what evidence was submitted to me?

Q Now, in this case, let me ask you, you described how the gun was fired from the weapon and you mention that there are marks left on the empty cartridge that is ejected from the ejection port, correct?

A Yes.

Q And there is also markings that are made on the bullet itself as it is forced through the barrel of the gun, correct?

A That's correct.

Q And can you see those markings using a microscope?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yes.
Q Are those markings made by the individual weapon that fires that cartridge?
A The answer is yes and no. And if you'll allow me, let me explain.
Q Okay, go ahead.
A There are what's called class characteristics. The number of the lands and groves and the direction of their twist inside the barrel, as well as the dimension of those lands and groves, that is determined by the manufacturing. They make many, many firearms with those specifications.

So you might have one right after another coming off an assembly line that putting six left .40 caliber barrels out to be put into these pistols. And they're going to have those same class characteristics, they are intended by the manufacturer.

However, as the tool wears during the making of that part, and as the gun is used after it is manufactured and sold, by firing, cleaning, abusing, misuse, etc., there are microscopic qualities in that are called individual characteristics. They're specific. Every one of us, if we were all given the same firearm in this

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

room would treat it the same way and have exactly the same microscopic qualities or individual characteristics in our barrels after a hundred or a thousand rounds as an example.

Are they unique to the weapon? Yes. There are some characteristics that I look for under the microscope to be able to tell one bullet from another, from the source of another or to determine whether or not they came from the same source fire.

Q So in this case, were you able to examine the shell casings that you had been submitted and you had a total of 12; is that correct?

A Yes, that's correct.

Q Were those shell casings the same make and manufacture as the live round that was submitted to you?

A Yes, they're Federal and .40 S & W caliber.

Q Were you able to compare the bullets which are submitted to you, which are five in number, correct?

A Initially five.

Q And one later?

A And one later.

Q On the 11th.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A On the 11th I had five submitted to me. And they indeed were observed to be jacketed hollow point design bullet and .40 caliber, and it had six land and grove impressions with a left twist.

Q And when we're talking about the five bullets, these are spent bullets, correct?

A Right. These are fired. They would not have the lands and groves of the barrel incrust upon them until they're fired through the barrel, yes.

Q Were you able to determine whether or not the five bullets that were submitted to you and the 12 casings that were submitted to you, were you able to draw any conclusions after comparing those items with the firearm that had been submitted to you?

A I was. In test firing the submitted firearm, I retained fired cartridge cases and fired bullets. That's what I microscopically compared to submitted evidence. I was able to determine that all 12 of the submitted fired cartridge cases have a sufficient quantity and quality of those matching individual characteristics for me to conclude that they were fired in this firearm.

Q So just so we're clear, the 12 cartridge cases, they're like we call casings, or what I call casings?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yes.
Q The hollow kind of left over that gets thrown out of the ejection port, correct?
A That is correct.
Q And then were you able to, I see here on page two of your report, you number the bullets as QB 1 through 5, and then you also reference where, where they were discovered. Is this information that you received on the evidence packaging that each bullet was packaged in?
A It may or may not be on the package itself, but I get that directly from the evidence receipt that accompanies that evidence and packaging, yes.
Q So for QB 1, which is a copper jacketed hollow point bullet, .40 caliber, you have here from FPDVEH.108. What does that mean?
A Uh, that is in quotations, because I took it directly from the evidence receipt. And my understanding is that stands for Ferguson Police Department Vehicle Number 108.
Q Okay. And you have here a measure of 158 grams and CSU Number 7. What does that mean?
A The 158 is in grains, we measure in grains. And the CSU stands for Crime Scene Unit and

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

that Number 7 next to that is their item number. So seizing detectives item number was given my laboratory specimen number QB 1. It stands for questionable, by the way. QB stands for questionable cartridge case.

Q And so the QB 2, 3 and 4, you indicate have been from the evidence receipt. It says from Brown's right side of back, right side of chest and right side of head. Those are all spent bullets that were seized by someone else and packaged and according to evidence receipt, were recovered from the body of Michael Brown, would that be what you're indicating?

A It is.

Q And then regarding QB 5, it says from roadway and your information was then that this bullet was received from a roadway or on the street?

A Yes, I had no further description of a specific location. Just what I noted there in the roadway.

Q And so after examining QB 1 through 5, were you able to make any, draw any conclusion about whether those bullets were fired from the weapon that had been submitted to you, the Sig Sauer?

A Yes, I was.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q And what were your conclusions?

A The first one listed specimen QB 1, apparently from Ferguson police vehicle was inconclusive. It had enough damage to its surfaces that I did not have enough of those microscopic characteristics to match to my test shots to determine that it came from the same source.

I did not have enough differences either to think or believe that it came from a different source firearm. So it is inconclusive for number one. However QB 2, 3, 4 and 5 had a sufficient quantity and quality of those matching individual characteristics in the rifling striations that we've talked about for me to conclude that they were indeed fired from this firearm.

Q Now, at a later date you were submitted another evidence item and asked to compare it to your QB, what's the gun called?

A QF 1 or the test shots are TB 1A and B, TC 1A and B, compared with my test shots.

Q Okay. Did you make a report after you examined this additional evidence item?

A I did.

Q And is this a copy of your report?

A It is.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

(Grand Jury Exhibit Number 34 marked for identification.)

Q (By Ms. Alizadeh) And Grand Jury Exhibit Number 34, I made copies of this report for the grand jurors.

So what was the additional item that was submitted to you?

A It was a copper jacketed hollow point bullet fragment. In other words, it was not the complete whole bullet, it was only part of that bullet. I note that it was one side of a bullet, all the way from base to nose. It was part, once part of a .40 caliber bullet. It had six lands and groves with a left twist represented and it was from 2909 Canfield, seized on September 3rd of this year.

Q All right. And you examined this QB 6, your QB 6 and were you able to compare it to the test shots that you fired from the Sig Sauer weapon that was submitted to you back on the 11th of August?

A I did make that comparison, yes.

Q And what, if any, conclusions did you draw from that?

A It had sufficient quantity and quality of those matching individual characteristics for me to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

conclude that this bullet was also fired from this firearm.

Q And the items that you tested and examined in this case, did you repackage them and were those submitted to property control for safekeeping and storage?

A That is the intended destination and, yes, I finished my examination, resealed the packages and put them in our vault on a shelf that is intended for the evidence to be forwarded to property control.

Q And just one more thing because I haven't seen the firearm that we're talking about in this case, but I recall from other cases I've had that sometimes the firearm has orange tape on the end of the barrel, is that still done when you are finished examining a weapon?

A It is. It's an extra measure. We talked about the zip tie earlier, I provide the officers, my department with bright orange zip ties and that is so it is readily visible to anyone that if the firearm is handled openly, especially in court at a later time, that that's highly visible and they know that it's safe.

I add in my lab when my examination

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

is done, I added, my other examiners we add that bright orange tape to the barrel as well. It is nothing more than a visual indicator for you that what is being handled is safe and can't be fired in the state it's in.

Q So that bright orange tape I'm assuming is on the barrel of this gun that was placed there by you?

A Yes.

MS. ALIZADEH: Does anybody have any questions?

MS. WHIRLEY: I have just a couple. You want to go first?

: No.

Q (By Ms. Whirley) That bullet, the copper bullet fragment from 2909 Canfield, was that like a building that it was taken from or would you know?

MS. ALIZADEH: That's the next question.

A I understand it is another apartment in the area, but where inside that building I don't have specific knowledge.

Q (By Ms. Whirley) On first page of Exhibit Number 33, Grand Jury 33, poor condition of residue, what does that mean?

A When I look in the barrel, I simply note

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

is it clean and free of any debris, is there residues. I'm not even certain what those residues might be. Sometimes it is dust from people carrying it, it gets clothing dust in it, sometimes it is from firing it. There is residues left behind. When you fire a cartridge, 100 percent of the gun powder isn't consumed, there is some partial burned and some unburn powders, sometimes they're left in the barrel, sometimes they just fly out of the gun and left in the nearby area.

Residue is simply that there was some debris in that barrel, but the barrel itself was not obstructed. It wasn't heavily fouled with multiple firings and build up of residues, it was simply a small amount of residue.

Q Okay. And the grain, like it's 158.0 grain, 177.0 grain, what does that grain mean, what are we talking about?

A That's a measurement much like grams and ounces and so forth.

Q Of what, though, what are we measuring?

A That is the weight of the bullet.

Q Okay.

A So specimen QB 1, I described as a bullet itself. The full weight of that bullet that was

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

submitted to me was 158 grains.

Q And they're different weights because of what they went through once they were fired?

A Yes, and they're manufactured in different weights by manufacturers. Their starting weight might be, for example, 154 grains, but they might add weight because they retain wall material if they were dug out of the wall or something of that nature.

Or if it is a fragment, you might only have part of the full weight of the bullet. Sometimes that weight helps us determine a caliber, it didn't really come into play in this scenario.

Q The internal safety, what is that on this weapon, you said it has an internal safety?

A Basically what I mean is the parts in the firearm are designed so it cannot be fired unless you pull the trigger. If you drop it, it's not going to fire. If you hit on the hammer, you know, with something, it's not going to fire. It's designed not to go off unless you pull the trigger of that firearm.

Q So this weapon was fired 12 times; is that correct, based on your examination?

A For there to be 12 fired cartridge cases

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

ejected in the area of this firearm as it's alleged, the trigger would of had to have been pulled 12 times.

Q 12 individual times?

A At least, yes.

Q Is that the difference between a semiautomatic and an automatic?

A Yes, an automatic you could hold the trigger back and it will continue firing until you release the trigger. So a fully automatic firearm might fire every cartridge available to it with one pull of the trigger, but this is not that kind weapon.

MS. WHIRLEY: I don't have anything else, thank you.

A You're welcome.

MS. WHIRLEY: Oh, no, I do. One more thing. I'm sorry you guys.

Where it says offense assault on LEW, which is Law Enforcement Officer.

MS. ALIZADEH: LEO.

MS. WHIRLEY: LEO, I'm sorry, which is Law Enforcement Officer.

A Yes.

MS. WHIRLEY: Where does that come, I

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

mean, this is your report, is that some determination you made?

A No, actually, that is some of the, as I mentioned earlier, some of the case information that is provided to us on the evidence receipt that is submitted with the evidence. That case information is entered into our laboratory system, so different areas of the lab know what evidence they have to examine and so forth. And it is auto populated into our reports.

So it was submitted, again, on the evidence receipts that the offense is an assault on a law enforcement officer.

Q (By Ms. Whirley) Okay. You had nothing to do with that being determined?

A That's correct. Now, we will often get receipts from the same incident that might have different offenses listed. We, there's no real rhyme or reason to figuring out which one is accurate because we're not determining what the charges might be. So most often we go with what is either most commonly submitted or what is first submitted.

In this case the copy of receipts that I have most commonly are listing assault of an

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

officer as the offense.

MS. WHIRLEY: That has nothing to do with your examination?

A That's correct. Our examination is done the same way regardless of what that offense is quite honestly. Sometimes there are non-offenses that are submitted to the lab and the examination remains the same.

MS. WHIRLEY: Thank you.

A You're welcome.

: We heard previously about this stovepiping, and how it didn't appear that there was any. Would that have to be taken off, would it have to be repaired for that gun to fire again if that was there?

A Good question. No, there is no physical repair needed for that. Basically the fired cartridge case becomes an obstruction to the action of that firearm. And a practiced user of that firearm can clear that because it's not permanently trapped. It is just kind of pinched in place. So if you pull the slide back and release that pressure, it can fall out or be caused to fall out. And then there is no impairment to the action. So if you let the slide go, the firearm would then

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

again act normally.

: Is that the only type of reason that that firearm wouldn't go, or whatever, that you would be able to see? Like you always talk about if something obstructing like a hand or piece of whatever, the stovepiping is the only thing that you would be able to examine, it is not necessary for you to be able to tell exactly what happened and say it would be able to be fired, am I explaining myself correctly?

A I think I understand your question. Is there any circumstances where a firearm wouldn't function that I could tell, is that basically what you're asking?

: That's right, that you couldn't tell, you couldn't say no, that firearm didn't get stuck.

A No.

: There is no possible way that it would happen that way?

A I could not, you posed a good question. I can't think of a scenario where I could prove that something did not happen in the firing of the firearm.

MS. ALIZADEH: Officer , let me

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

ask you a question.

A Okay.

MS. ALIZADEH: If the, in the firing of the weapon the cartridge has stovepiped and you said it kind of gets caught in that ejection port and the ejection port has a door to it, correct?

A There's an opening in the slide called the ejection port, but not a door per se that closes on that.

Q (By Ms. Alizadeh) Okay. But the cartridge gets caught in between something, correct?

A Basically the barrel itself where it's supposed to feed into, it can get caught against that and then when the slide closes on that, that ejection port is what might hold that fired cartridge case against the barrel to where it is kind of standing up out of there.

Q If that were to have occurred, could you look at that cartridge casing and see marks on it that might indicate that it had been stuck in the gun that way?

A And that's where I was thinking the answer might take me, but is it possible? Yes. However, because those marks are unpredictable, there may be marks on a cartridge case that I can't determine

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

their origin.

So while it very well may have happened and there may be marks from being a stovepipe, it's also quite possible that it is not something that I could conclusively say were from a stovepipe simply because ammunition in a pocket with keys is going to get marked. Ammunition thrown in a drawer is going to roll around. I mean, they get marked in so many ways, same as anybody's jewelry or anything else that we have with a metal surface, it is going to have scratches and so forth to it.

And it's not in a uniform or explainable way for me to determine if it was or was not from that type of event.

Q Okay.

A Does that answer your question?

: Yes, yes.

A Yes, ma'am.

: . You said that when you received the gun from the evidence locker or the supervisor or whatever.

A Uh-huh.

That you saw blood on the gun.

A Okay.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

: This is kind of a two-part question. Tell me where on the gun did you see the blood and you cleaned it off yourself that you've testified; is that correct?

A Yes.

Could you tell me where you saw the blood on the gun and also in the area where the hammer is on the gun?

A Uh-huh.

: Was there any blood or human tissue that you found in that area as well?

A I don't take note of where I see the blood or any tissue because it will have been in photographs before it gets to me. It also goes for other examinations and sampling before it gets to me. So by the time I'm receiving it, all of that other testing and documentation has been completed and I don't have it as a concern in my part of the laboratory. I hope that you will find that answer from other witnesses, but I don't have those.

: Thank you.

A You're welcome. Yes, sir.

: . Going back to the stovepiping, I guess.

A Uh-huh.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

If that was to happen, would that be, would it come out as a bullet or does it come out as a spent casing?

A Good question. It could happen both ways. If the cartridge is fired and extracted out of the barrel and then it attempts to eject it out of the firearm, but it gets caught and trapped before it's able to clear that ejection port, you would have a fired cartridge case and it looks like a chimney or a stovepipe if you will, but if for some reason, and sometimes it is just random and there is no even reproducing it.

If the action fires that cartridge and successfully ejects that fired cartridge case, but it fails to properly feed the live cartridge from the magazine, in other words, it is designed to come up out of the magazine, go up the feed ramp and into the chamber, but if it bounces up off of that, the action can close and trap a live cartridge there as well.

Now, in either scenario, if you have something trapped, as I mentioned with , working the action is all you need to clear that and assuming you have more ammunition, feed the next cartridge and then continue to fire, but what you

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

would have left behind on the ground next to you is different, you would have either the fired cartridge case that was cleared or the live cartridge that was cleared. Does that answer your question?

: Could you demonstrate how you clear a round with that particular firearm?

A Okay. If you grip that firearm, it has a grip and trigger guard, so if your finger is in that trigger guard, it is held pretty much like this.

Above that, on the back of the gun is where the hammer would be, okay, visible, external hammer, all right. So when you pull the trigger, there is single action and double action, only a double action trigger pull, it is a long, heavy trigger pull that also cocks that hammer and then releases it to strike the firing pin, okay.

If you fire like that, this pistol is designed for that slide then to come rearward. As it's coming rearward, the extractor or the hook pulling it rearward towards the ejector, which then hits and ejects it out the open ejection port of the firearm. Whereas that slide comes back, it is cocking the hammer as well, okay. Because this has a single action mode as well.

So that hammer will be locked back

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

when that slide feeds the next cartridge and goes forward. So now you have a loaded cartridge in the chamber already cocked so your trigger pull is designed to be much, much less because you don't have to pull the full weight of it and cock it, you are only pulling enough to release. Okay.

To answer your question specifically, if it were jammed, you would simply maintain your grip on that firearm, most commonly with your other hand, but if it is incapacitate there are other means to do it, but grabbing that slide, taking the pressure off of that jammed live or spent cartridge case and getting it out of the gun and then letting it go, it should feed the next cartridge and being cocked and ready to fire, okay.

Can you talk about when a spent cartridge is ejected, what direction does it eject from the gun up, down, side ways, forward, back, whatever, and then about how far do you expect it to travel before it hits the ground?

A I'm asked that question, I'm sorry.

Is it pretty consistent the cartridges hit about the same area? The first question was direction after the ejection.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A I might actually summarize the answer for the entire question you've asked, because I'm asked question a lot. It differs for every firearm, but since we are talking about a particular make and model here and a specific firearm, I will tell you that it's unpredictable even within a single firearm because you have different elements in play.

For example, if the firearm were even intended to send them in the exact same direction to the exact same distance every time, a simple turning of the firearm at any angle is going to change where those cartridge cases land and how far they go, but they're not designed to do that. They're really only designed to clear that weapon.

So sometimes they'll go good distances, sometimes they'll go short distances, like they're just dribbling out of the gun, sometimes they'll fly over the back of your head, sometimes they'll go to your right, straight up, forward, and things of that nature.

It is such an unreliable factor for determining where someone is positioned, for example, that we don't give any credence to ejection patterning, if you will. There is just too many variables that come into play, especially if you

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

start dealing with a scene that intentionally or even unintentionally has been tampered with is to strong of term. It could be kicked, it could be stepped on, it could be carried by a car tire, it could bounce off of things and so forth. Final positioning of cartridge cases is something that we don't even consider.

: . Cartridge cases are very light, obviously, they bounce around. When they're ejected, they don't just roll, they often come out spinning, flying all of over the place, correct?

A Absolutely.

On a weapon like that with a slide that comes back and what I would say is pretty aggressive if you've ever seen it, it comes back pretty quick, pretty hard.

A Oh, yeah.

: Do you have any guess at what kind of pressure you apply to a slide like that, could you hold a slide like that back if somebody tried to hold the slide, is that possible, or would you expect a lot of damage to your hands, the gun?

A Surprisingly, it doesn't take as much as

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

one would think. And the reason I say that is I'm not going to put my hand in the way. It comes back with a good deal of force. In fact, there are officers, you know, when we're issued these guns and first training on them that if they hold their thumb in the wrong place, you are going to hurt yourself.

Now that said, I have spoken to others who have been brave enough, if that's the right word, to use their thumb to try and hold that slide in place and they have been successful in firing that weapon and preventing it from cycling.

So I don't have any idea, I can't describe what amount of energies and forces it would take to do that, but I know that it can be done.

And that's a little surprise because when you see it, it looks like it comes back with an enormous amount of force.

A Yeah. In fact, what I can tell you is if I don't have a good way to describe this, but I'd rather have my thumb on it and against it and trying to hold it forward then behind it and away from it and not expecting it because it is going to hurt a lot more getting hit like that, than it is going to take to overcome the pressure that it's creating.

I guess even thinking while I'm

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

speaking, the energy that takes that bullet out of the gun, is also equal but opposite rearward and that's the recoil.

So if you think about it, if the gun were to fire without any support from a human being at all, they would go an equal distance apart, but we're overcoming that in holding that gun.

So I'm thinking maybe it wouldn't take so much to prevent that slide from cycling. Suffice it to say, I know it's possible, I know it can be done and there is a wide range of ways to do that.

Do you have any idea what the opening, once cycle through one series, the hammer is now cocked, do you have any idea what the opening is between the back of that slide and the start of that hammer, is there enough to get a finger between, a thumb between there?

A Absolutely, it is a visible amount of distance. In fact, in the training of officers, when I first started a number of years ago, my first duty firearm was a revolver and it had an exposed hammer as well. And part of the training was if we were faced with a revolver or we're to lose our own revolver to someone else, was to jam the meat of our

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

hand into that space so then that gun can't be fired.

So not only are you grabbing the gun, but you are preventing it from being fired back at you. So absolutely is there room to obstruct that whether you intend or not, it could be clothing, it could be whatever. Is there room? Absolutely.

So that raised another question.

A Yes.

So in that case, something were obstructing it other than the stovepiping, you wouldn't have to do this or do this with the slide to make it fire again. You would just have to remove whatever was obstructing that and then fire that without that added step?

A Correct. If you had the hammer obstructed and it did not fire, this firearm is designed to function with another pull of the trigger.

So if that obstruction is removed, it would have then fired. There are firearms that will only give you one opportunity, one pull of the trigger. If it didn't fire, then you have to work that action. This is not that kind of gun. This is one that if it doesn't fire once, pull the trigger,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

pull the trigger, pull the trigger, it might go off later.

: Just to be clear.

A Yes.

: If it were this type of situation, you have to do it this way or use your arm whatever to clear it, but not always. I mean, only for this situation would you have to do that if there was something else obstructing it?

MS. ALIZADEH: You are going like this, you mean the stovepiping situation?

: Yes, the stovepiping situation you would have to --

A Work the action.

-- work the action.

A To clear the obstruction.

: But if anything else you just have to move that from out of the way in order to still fire without, without the slide?

A Without working the action?

: Yes.

A Yes, absolutely correct. For example, he mentioned could you stick a hand between the hammer and the frame and the firing pin.

: You wouldn't have to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

redo.

A If you remove that hand, you're good to go.

MS. WHIRLEY: That stovepiping situation, would you actually lose the cartridge trying to clear it so that you could fire again?

A Well, if it is a fired cartridge case that is obstructing the action, you want to lose it, you want it out of the firearm, so yes.

Q (By Ms. Whirley) If it was feeding and never fired?

A Right, then you have got a live cartridge.

Q You want to clear it because it is in that standing up position, you would lose that cartridge?

A You would lose a live cartridge because it would automatically, it needs to load the next live cartridge. So you want to lose that as well.

Q And in this case you did not find any live cartridges other than the one that was in the chamber. Is that the other witness?

MS. ALIZADEH: That's not how it came to him.

MS. WHIRLEY: There were 12 cartridges that were used when the bullet was gone out of this weapon?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Correct, 12 fired cartridge cases were submitted and one live.

MS. WHIRLEY: That's what I'm asking.

A But I have no live cartridges submitted to me with documentation that they came from outside of the firearm or outside the magazine. In other words, not from the ground and not from the police car.

MS. WHIRLEY: That's what I'm getting at.

A I don't have anything submitted like that.

MS. WHIRLEY: So there is 12 that were fired, and one live?

A Correct.

MS. WHIRLEY: And so in a stovepiping situation when you lose a live cartridge, to clear it to get it to fire the next cartridge.

A Not, there is two different scenarios. If the fired cartridge case failed to eject and got trapped. The firearm might not necessarily have grabbed the next live cartridge to feed it. So in clearing it, you might not lose a live cartridge.

MS. WHIRLEY: But you would have to clear it?

A Yes, you would have to clear that, but if you have, the other scenario is if you failed to

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

feed a live cartridge to clear that, you would definitely lose a live round. Yes.

: . Does a live cartridge have the firing pin strike on it so that it doesn't fire?

A In that scenario it should not --

: I think not.

A -- however, bad ammunition would be a reason a gun might not fire. If it doesn't have a priming compound or any powder in it because the manufacturer, you know, the machine skipped that one, then you very well may have failure to fire. And it wouldn't be a stovepipe situation, but then you would still have to work the action to eject that unfired live cartridge that would have firing pin impressions, although it is still unfired.

But in a stovepipe situation where a live cartridge was suspected to have failed to feed and had to be cleared, I would expect no firing pin impression.

Obviously, a stovepipe situation with a fired cartridge case, yes, I would expect a firing pin impression.

I was trying to figure out if tried to be fired, it did not strike --

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Right.

-- it has been tried to be fired.

A Exactly. In all likelihood it never chambered properly and had no attempt to be fired before it jammed up the gun, which would then, is what I considered the failure to feed.

I don't even know if that cartridge even cycled through, it could have been left in the magazine, came out that way, you wouldn't know?

A Absolutely, I wouldn't be able to tell.

MS. ALIZADEH: Any other questions?

Well, at this time then, this will conclude the testimony of this witness. It is 2:11 p.m. needs to read something.

(End of the testimony of)

MS. ALIZADEH: This is Kathi Alizadeh. October 6th, it's 2:19 p.m. Present is myself, Sheila Whirley and 12 grand jurors. is the stenographer taking down what is being said and audio recording what's being said. And we have one more witness we're going to try to cram in today and that is Detective of the

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

St. Louis County Police Department.

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Could you state your name and spell it for the court reporter, please?

A Detective , it is .

Q How are you employed?

A I am a detective with the Crime Scene Unit for St. Louis County.

Q How long have you been a police officer?

A Eighteen years.

Q And how many of those years have you been working with the crime scene unit?

A Over three.

Q And were you asked, were you asked to take some photographs of Ferguson Police Officer Darren Wilson in the course of the County Police Department's investigation that is documented in Complaint Number 14-43984?

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

A Yes.

Q Okay. And do you recall the day that you took those photographs, the date?

A No, I do not recall the date. I think it was a Tuesday after the shooting.

Q Okay. And I'm going to hand you what I've marked as Grand Jury Exhibit Number 21. This is an envelope that contains some photographs. That's not your handwriting on the front, is it?

A No.

Q Okay. But seeing that there is a date, 8/12/14, do you believe that might be consistent with the date that you took the photographs?

A Yes.

Q Okay. And I'm going to show you then these photographs, these images that are contained in Grand Jury Exhibit Number 21, and each photograph has a computer marking that indicates the number of the image that was taken, correct?

A Correct.

Q And so if you look at each of these images, are they consecutive from number one being the first image, all the way to Image Number 21?

A Yes.

Q And then I'm going to just ask you real

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

quickly to look through these too. Do these appear to be images that you took of Officer Darren Wilson?

A Yes.

Q Do you know where you went to take those pictures?

A It's, it is the office in Overland.

Q That the Fraternal Order of Police?

A Yes.

Q And these pictures appear to be taken inside, inside, correct?

A Yes.

Q Did you use any special lighting when you took this picture?

A Just the flash on my camera.

Q All right. And did you do anything special with the flash in order to insure that the, the image that you were taking was what you would see with the naked eye?

A Yes, I moved it up to the side so items submitted wouldn't bleed out or anything.

Q These images that you took, Images 1 through 21, these are the photographs that you took of Officer Darren Wilson?

A Yes.

Q Okay. And your purpose of taking these

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

photographs, is that to document how his face and neck and head area looked on the day you were taking the photographs?

A Yes.

Q Okay. So we'll go through those later. And then also were you asked another time your Photograph Number 21, is this your placard that you prepared?

A Yes.

Q Does it have the date on it?

A Yes 8/12 of '14.

Q And your DSN ?

A Yes, ma'am.

Q So that tells you you took these photographs on the 12th of August?

A Yes.

Q And then the same thing were you asked to take some photographs on September 3rd of 2014 in relation to the investigation into the shooting of Michael Brown?

A I was asked to take the photographs and retrieve a projectile.

(Grand Jury Exhibit Number 35 marked for identification.)

Q (By Ms. Alizadeh) Okay. And so I'm going

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

to show you Grand Jury Exhibit 35, which is an envelope. Is that your handwriting on the envelope?

A Yes, that is.

Q Okay. And did you examine the photographs that are contained in this envelope?

A Yes, I stamp the back of them.

Q Is there a total of 20 photographs?

A Yes.

Q Okay. And these were the photographs that you took of documenting your investigation on the September, what date did I say?

A 9/3.

Q September 3rd. So you were asked to go where to retrieve an apparent projectile?

A Canfield.

Q And that's in the Ferguson, City of Ferguson, correct?

A Yes.

Q In the Canfield Green Apartment Complex?

A Yes.

Q And so we have an aerial map here, which is Grand Jury Exhibit Number 25, and you said it is 29?

A .

Q Now, this building here Number ,

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

has 2905 and 2909, looks like they're the southern most units?

A Correct.

Q This being south down here. Do you recall was the projectile that you retrieved at this location or was it at that location?

A which that is inverted.

Q So that's what I was getting at. These numbers are in the wrong place?

A Yes.

Q So actually where it says is actually unit ?

A Right.

Q You photographed the exterior of the building?

A Yes.

Q And the place that you retrieved the bullet?

A Yes.

Q The bullet?

A Yes.

Q And so when you arrived there, it was daylight hours?

A Yes.

Q Were you able to see on the exterior

Electronically signed b 5034a60e-6c14-4444-b892-e7b456d8296e

staircase of that building a demarcation or a defect in the wooden staircase that appeared to you that it might be the trail of a bullet?

A Yes.

Q Did you photograph that?

A Yes, I did.

Q And then did you find a defect in the wall of the exterior wall of that building?

A Yes.

Q And I don't have time, you know, I don't have time to turn on that goofy thing, I'm going to show you your Image Number 4. Is that the outside of the building that we're talking about?

A Yes.

Q Okay. And so each, the building and each building actually has this outer kind of wall that is kind of the staircase is behind that wall, would that be fair to say?

A Yes.

Q I don't even know to call that other than it is a wall that's outside of the staircase. And was it in this wall that you saw a defect?

A Yeah, the interior side of it, yes.

Q So on the --

A On the staircase side.

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Q On the stairwell side of that wall. So I'm showing you Image Number 6. Is that a photograph that shows that defect?

A The defect in the wall, yes.

Q Okay. And so when you are looking, and actually you are on the staircase, so you're looking at the inside of that wall, and that would be siding; is that correct?

A Yes.

Q And then you see this little mark right here, did you dig into the defect area?

A Yes, I did.

Q Did you have to remove any siding or did you --

A Yes, I did.

Q And what did you recover inside that siding?

A A projectile.

Q And did you package that projectile?

A Yes, I did.

Q And did you submit that projectile for examination at the St. Louis County Crime Laboratory?

A Yes.

Q Okay. And the Image Number 7 and Image

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

Number 8, do those images show a defect in the wooden railing of that staircase?

A Yes.

Q And does that railing correspond to possibly the path of that bull lit might have taken before hitting the wall?

A Yes.

Q Where you found it?

A Yes.

Q And just really quickly showing you on these images on the wooden railing, which would be coming across right here going into the wall.

Now, when a projectile, if it trailed against that wooden part of the railing, could it change the path or the direction of the projectile as it traveled?

A Yes.

MS. ALIZADEH: Okay. I am certainly not going to keep our juror longer than he has to be here. If anybody has a quick question or two if they can ask it, otherwise, we can bring him back if there is more questions that need to be answered. Anybody have any questions for him?

No. If you think of other questions afterwards after today, I'll get him back here. I

Electronically signed by 5034a60e-6c14-4444-b892-e7b456d8296e

don't want to cut anybody off if there is any inquiry that needs to be made.

GRAND JURY HEARING VOLUME XI

MS. ALIZADEH: Today's date is October 7th, it is 10:15 a.m. This is Kathi Alizadeh with the prosecutor's office. All 12 grand jurors are present this morning, as is the court reporter, , who is taking down the proceedings and also audio recording the testimony of witnesses. Sheila Whirley is here and will be in the room in a minute, but I wanted to just give you an idea of what we expect to happen today.

We're getting a late start because as Roseanne Roseannadanna said, it's always something. So we had some difficulties this morning that we had to hammer out and we do have two witnesses here this morning who are going to testify.

And they will, first one is going to be . He's right out here with Sheila. He's going to be walking in as soon as I give them the high sign and he'll, after his testimony is completed, then we will hear from .

If you recall, she made a statement that was recorded that she made to the County Police, we heard that yesterday. She also made another statement to the FBI, which we'll play after we're done just to give you an opportunity to hear that as

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

well.

And so we also have witnesses lined up for this afternoon. This is just one of those things I never know if people are going to show up at this point. People call me and say, I don't think I can make it now. Well, I call you a cab. So I'm going to do my best to make good use of your time today.

I've got a couple witnesses who are police officers or technicians who I've already notified them to be available if I need to fill a slot if somebody doesn't show up. So hopefully we'll have stuff for you for most of the day today, okay.

Does anybody have anything to bring up, questions before we get started? All right.

,

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Would you go ahead and state your name and spell it for the court reporter?

A My name is

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And how old are you, ?

A .

Q And do you live in the Canfield Apartment Complex?

A Yes, ma'am.

Q How long have you lived there?

A Since .

Q of this year?

A Yes, ma'am.

Q So you were living there back in August of this year, correct?

A Yes, ma'am.

Q I'm going to direct you to this map that I have here, which is marked as Grand Jury Exhibit Number 25. And this is an aerial view of the streets and the buildings that make up the Canfield Green Apartment Complex. Do you recognize the streets and the buildings?

A Yes, ma'am.

Q Can you use the laser pointer and show me what building that, are you living in the same building?

A Yes.

Q Same apartment?

Electronically signed b a65d3976-6902-42dd-9536-f372c261b448

A Same building, same apartment, yes, ma'am.
Q Can you show me with a laser pointer what building you are in?
A I live in , which is here, the top floor,
Q Okay. Now, those buildings, are there three stories to each building, three levels?
A Yes, yes.
Q And so is there a basement level?
A Yes.
Q And so the apartment that's on the ground floor is the second floor?
A Yeah, there is a basement, which you have to go down the stairs to get to and then you have normal level, which is right up the stairs and my level, which is all the way up.
Q Okay. So your unit is is it on the front of the building?
A Yes, it is on the front, yes.
Q So this is Canfield Drive?
A Uh-huh.
Q And out here would be West Florissant?
A West Florissant, yes.
Q So just to help you with the directional, north is this way.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Uh-huh.

Q And south is that way. So would it be fair to say that your unit is on the west side of the building?

A Yes.

Q Okay. And, um, in August were you living with anyone?

A Um, with my now girlfriend.

Q ; is that right?

A Uh-huh.

Q ?

A .

Q How long has lived there with you?

A Since .

Q So she was there living with you back on August 9th as well?

A Yes, ma'am.

Q Okay. For the sake of trying to understand this, you were inside the apartment that day, correct?

A Yes.

Q So there are, are there windows on the west side of that building?

A Yes, there is. My door, there's my living room window which was open at the time and also my

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

bedroom window that's facing the west.

Q Okay. So the door, meaning like the front door?

A Yes.

Q Is there a window in that door?

A No.

Q Okay. And then you have your living room window you said?

A Uh-huh.

Q Is that a sliding glass, is it a slider?

A Yes.

Q So the whole thing is glass?

A Yes, ma'am.

Q And then you have a bedroom window?

A Uh-huh.

Q Is that a slider or a regular window?

A It is a slider.

Q But, I mean, can you walk out of that?

A No, no.

Q What about your living room window?

A Yes.

Q You can walk out of that?

A Uh-huh.

Q So your bedroom window is just a regular window?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

Q Um, are there coverings on your living room and bedroom windows?

A Yes.

Q What kind of window coverings are there?

A Just regular blinds, my living room is vertical, they are little vertical blinds, my bedroom are horizontal.

Q Okay. And typically during the day would you have those blinds open or keep them closed?

A My bedroom, no, but my living room I do tend to keep open.

Q And on August 9th it was a hot day?

A Uh-huh.

Q Would you have had the windows open or closed?

A Open.

Q The windows would be open?

A Uh-huh.

Q You are not running the air conditioner?

A No.

Q And so the morning of the 9th, was there anything unusual that happened or that you saw or anything that you recall special about the day?

A No, that morning I happen to have been at

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

work, but I left work early due to a complication with me and my manager. I left work early, went back home. I made it home around 11:11.

Q What time had you gotten to work, did you get to work like at the middle of the night?

A No, I got to work at 7:00 in the morning.

Q Okay. So you had left your apartment before then to get to work by 7:00?

A Uh-huh.

Q And then you came home and got home about 11?

A Uh-huh.

Q So when you got home at 11, was there anything going on that was special or that you noticed?

A No.

Q And this was a Saturday?

A Uh-huh.

Q And it was a sunny, bright day?

A Uh-huh.

Q People just about, out and about in general?

A Just a normal day. Some people outside, I recall someone barbecuing, just a normal day.

Q Okay. Was home?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.
Q Now, had she been home the whole morning to your knowledge?
A Yes.
Q So she was there when you left for work and then she was there when you got home at 11?
A Uh-huh.
Q When you got home at 11, what was she doing?
A She was still sleeping.
Q Okay. Now, do you all have the same bedroom?
A Yes.
Q So your bedroom window is the same view?
A Uh-huh.
Q If she says in my bedroom windows, that's your bedroom too?
A Uh-huh.
Q And so, uh, and so when you got home at 11, what did you do?
A Um, I started playing games.
Q Video games?
A Yeah, started playing video games.
Q Were you in the living room or bedroom?
A In my living room.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And from, were you playing, was there anybody else in your apartment with you?

A No.

Q Were you online playing with someone on line?

A No.

Q Just playing on your own?

A Just playing on my own.

Q And so did something happen that drew your attention to the outside?

A Yes, I heard shots, I heard gunshots.

Q About how many shots do you recall hearing?

A The first shots I would say around three or four.

Q Were these shots in like a succession, like boom, boom, boom, boom?

A Uh-huh.

Q Or were they like boom, boom, boom?

A No, it was succession.

Q Okay. So there was no real pausing between those shots?

A Huh-uh.

Q All right. Have you heard gunshots before?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

Q So no doubt in your mind when you heard that that was gunshots?

A That was gunshots.

Q You didn't think maybe it was firecrackers or anything?

A At first when I first heard, there were construction workers that happen to have been around here in front of my apartment. I thought it was them at first, but after the third and fourth shot, I realized it was gunshots. I thought they might have been hammers or something. I realized a hammer is not going to be that loud, that's when I realized it was gunshots.

Q So it was louder than you would expect if it were fireworks?

A Yes.

Q Or hammering going on?

A Uh-huh.

Q Now, you said these construction workers, can you use the laser pointer again and point out where they were working that day?

A Yes, the truck was parked here in our lot that I live in, and they were scattered between like the front of this complex and on the side here.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. Do you know those construction workers?

A No, but they had been out there for about a week or so.

Q About a week. Was it the same guys that were there each day?

A Yes.

Q How many workers?

A Two.

Q And did you ever stop and chat with them?

A No.

Q You didn't know them?

A Huh-uh.

Q Were they white or black?

A White.

Q And do you know what they were working on or what they were doing?

A I'm not sure. I know the pipes up under the ground, they were digging around there.

Q Okay. And so from your bedroom window then, I'm sorry, you were in the living room?

A Uh-huh.

Q So after you hear the three or four gunshots, what do you do?

A I get up and walk to the window.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Are you talking about the living room window?

A Yes, my living room window.

Q Were the blinds open or closed?

A They were open.

Q So now when I think of blinds, they can be totally open so that there's nothing covering the window or they can be closed, but they can be adjusted so that you can see out?

A Yes, they were closed.

Q Okay.

A But adjusted so I could see straight outside.

Q Okay. So when you went to the window, were you able to see without moving them or did you move the blinds?

A I was able to see without moving.

Q Did you move the blinds at all?

A No.

Q And so when you looked out the window, what did you see?

A I saw a person holding hisself around here and had a hand up in the air and was, it looked like he was going to a knee or on one knee. I think he was going down to his second knee and he was

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

falling. And from that point is when I seen him get shot and seen his head like jerk back and I seen him do that like three times and that's when he just fell face first. (indicating)

Q Okay. Could you see who was shooting at him?

A I could not see who was shooting at him. My view from here at my apartment I could see the person in the street about here, but my view of what was going on was obstructed by this building.

Q Okay. So when you looked out and you see a person, did you recognize him?

A No.

Q So you hadn't seen him before in the complex or anything that you recall?

A After finding out what was going on, I had in my memory had seen him around the complex, but during the shooting of what I seen, I couldn't recall anybody.

Q He didn't, it didn't mean anything to you when you first saw him?

A No.

Q You didn't recognize him?

A Huh-uh.

Q And we now know that the man who was shot

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

in the street was Michael Brown?

A Mike Brown, uh-huh.

Q Did you see another guy out there, a shorter African-American, darker complected guy?

A From where I seen, Mike Brown was about here. I seen a person run across to here, across this way. (indicating)

Q Okay. Was he African-American?

A Yes, African-American, but I couldn't, him being so far away from me, I couldn't make out any details or facial details or hair or anything.

Q Okay. And how about clothing?

A I couldn't really tell, too far away.

Q Okay. And so he was running, when you first saw him, where was he when you first saw him?

A I just seen him run like, came from out the street and just streaked across this yard here.

Q This is like an open field, right?

A Yes.

Q Without trees or anything, you can see someone that's in this area, correct?

A Uh-huh, yes.

Q And so at the time did you have any idea that he had anything to do with it?

A No, at the time when I seen someone

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

running, I just thought they might have been running away from the gunshots.

Q Okay.

A Just running away from the scene just to be clear to make sure that they didn't get shot and everything.

Q So when you first looked out the window and saw who we now know as Michael Brown.

A Uh-huh.

Q Were you, and you're looking from here and you put the pointer somewhere around this area?

A Yes.

Q Okay. Was his back to you?

A His back was, I would say, to me, but he's like in the middle of the street. And so I see like his side, like his side and his back, yeah.

Q But he's facing?

A He's facing.

Q This direction?

A Yes.

Q So you see him from behind, but you can also see a part of his side?

A Uh-huh.

Q So which side would that have been?

A His right side.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And so from that view you said you saw that he had a hand across his body?

A Uh, he had his left hand across his body.

Q Okay.

A And his right hand was up in the air.

Q Okay. And so just so we can make sure that the jurors understand it and so I can explain it for the record, why don't you stand up.

A Uh-huh.

Q And do that what you just did again?

A His left hand was across his body. (indicating)

Q So you have your left arm about a little below your chest?

A Yes.

Q And almost reaching around to your rib cage on your right side, correct?

A Uh-huh.

Q And then your other hand, do that again?

A His other hand is like up in the air, but like out. (indicating)

Q So you have your arm, elbow is straight?

A Uh-huh.

Q Fingers are facing forward and up a bit?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And I'm going to say that's probably maybe a 45 degree angle?

A Uh-huh.

Q You know, 90 degrees --

A Not straight up, yeah.

Q More like that, okay. All right. And so now when you first demonstrated that when you were sitting there you had your hand like that, it was more bent, the elbow was bent?

A Yeah, when he was up it was out, it was out more.

Q Okay. So why did you do that at first?

A Just showing.

Q Okay. So it's not that Michael Brown changed?

A No, he didn't change.

Q He didn't like go like this and then raise his hand higher?

A No, it was out.

Q The whole time when you first saw him it was like this? (indicating)

A Yes.

Q Which is extended out at a 90 degree angle away from in front of him?

A Yes, ma'am.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And so after, when you first saw him, could you see any blood on him?

A No.

Q Couldn't tell if he was injured or anything?

A No.

Q And so did he move from that place where you saw him?

A No.

Q Never walked forward or backwards or spun around or anything?

A No, he was on his way down, he was on his way down.

Q Okay. So you say that he went down, I don't want to put the words in your mouth and I don't, I can't recall exactly what you said, but you said he went down like to one knee?

A Uh-huh.

Q And is that a yes?

A Yes.

Q Okay. So can you stand up maybe and if you want to walk out here so they can see what you are describing.

A When I looked out the window he was sort of in a position like this with his arm out.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

(indicating)

Q You're on your left knee?

A Uh-huh.

Q And then your right leg, the ball of your foot is on the ground and your knee is bent?

A Uh-huh.

Q Okay. And in that position he had his?

A He had his hand up and he was covering like this side.

Q Okay, okay. You can sit back down. And so now, to get the timeframe, you hear the three or four shots, you look out and that's what you see him going down to one knee. And then do you hear any more shots?

A Yes, I would say another four or five shots.

Q Okay. How much of a pause was there between the first set of shots and the second set of shots you heard?

A I would say maybe 20 seconds, 25 seconds at the most.

Q How long, now, when you heard the first shots, did you, were you sitting on the couch?

A I was sitting on the couch, yes, when I heard the first shots.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Did you stay on the couch and just look out the window or did you get up?

A No, I got up and looked out the window.

Q So we talking a matter of a second or two for you to get up and go look out the window?

A Yeah, I would say around 20 to 25 seconds because at first, I'm sitting there playing the game when I heard the shots. At first I assumed it was the construction workers and then I realized it was gunshots.

At the time when I recognized that it was gunshots, I had just kind of sort of believed that someone had just been shooting or shooting up in the air because I have heard shooting before in Canfield. So I just sort of assumed that it was just something going on, but what kind of made me get up was like everything happened so fast, what kind of made me get up my mind it is like 12:00 in the afternoon, why are people shooting this early. So that made me get up and just look out the window to see what was going on, that's when I seen him down.

Q Okay. And so when you, there may have been 20 to 25 seconds before you actually go out to go to the window and see him?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Uh-huh.
Q And he's in the process of going down to his knee?
A Yes.
Q As you demonstrated, his left knee?
A Yes.
Q And what happens, you said you hear another series of gunshots?
A Uh-huh.
Q Is he still on his knee and with his hand extended in that manner?
A Yes.
Q Or is he going down when you hear more gunshots?
A When I heard the gunshots, the same time I'm hearing the gunshots, I seen his head jerk back and he came back forward and he jerked back again and that's when after that he fell face first on the ground.
Q Okay. And so what were his arms doing during this second series of gunshots?
A During the second series, this is when his arms kind of just fell.
Q Okay.
A When he jerked back at the time of him

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

jerking back, his arms are falling and that's when the shooting stop, he fell on the ground.

Q Okay. And after he fell on the ground, did you see him move any more?

A No.

Q And what did you next see?

A Um, at this time after he fell on the ground is when I called my girlfriend. I said, , someone just got killed out here, someone just got killed.

At the time I'm thinking, I'm looking around. This is when I seen the young man run across the field here and I'm thinking someone just shot someone else or whatever. And it wasn't until I seen around three or four officers come from around the corner of this building is when I realized okay, that's when I say, the police just shot someone, the police just shot someone.

Q But that was an assumption you were making, correct?

A Yes.

Q You didn't see the police officer shoot anybody?

A No, I didn't see a police officer shoot anybody.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Why is it that you would assume the police officer shot somebody?

A Um, because I felt at this time I wasn't sure if Mike Brown had a weapon and anger at the police officer or threatened him, may have caused the police officer to shoot him. It is just me assuming that the police officer being that close to a shooting that fast, that it was conflict between them.

Q I'm sorry. The fact that there were three police officers there very quickly, you drew that conclusion that it was a police officer involved shooting?

A Yes.

Q Or is it after when people were coming out and talking that you then learned that?

A No, it was at that time. Like I said, I just assumed that it was a police shooting.

Q Why wouldn't you think it was this guy because you said you saw him run after the shooting, right?

A Uh-huh.

Q In your mind you don't think man, that guy just shot somebody and run in the field?

A At the time of his running through here, I

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

didn't see any officers in pursuit, so that's why I figure he was just running away from the scene and the officers were on the scene of what happened.

Q Okay. And so you see three officers you say, correct?

A Uh-huh.

Q When you looked out the window, did you notice those two construction guys?

A Yes. When I looked out the window I seen the two construction guys at this point, they were getting in their truck. They had been looking at the incident that was going on. After the shooting stopped, they got in their truck and they left.

Q Okay. That day, did you take any video with your phone?

A No.

Q Or any video camera?

A No.

Q Did you see other people outside after the shooting?

A Yes.

Q Did you see people taking videos?

A Yes.

Q Okay. Did you go outside?

A No, I went outside on my balcony and stood

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

on my balcony.

Q You never came down to the scene or anything?

A No.

Q Um, and so you said you saw three officers?

A Uh-huh.

Q Did you recognize any of the officers?

A No, ma'am.

Q Do you know Darren Wilson?

A No, ma'am.

Q Did you recognize them as Ferguson officers, were they wearing blue shirts or brown shirts?

A Blue shirts.

Q Did you see any police vehicles?

A No, it wasn't until after everything was over I seen police vehicles pull up around here.

Q Okay. So how much after the shooting, how much time elapsed after you saw Michael Brown collapse in the street.

A Uh-huh.

Q Before you saw the three officers?

A Uh, 15, 20 seconds, not too long.

Q Okay. And all three officers appeared

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

together or was it one officer and then another two came after?

A It was, it was one officer at first who came this way from off the street around like in this part of the grass here.

Q Uh-huh.

A I seen two more officers that came around the corner of the building like right off the corner of the building.

Q Okay. So they came around the building separately?

A Yes.

Q And how much time --

A One and then two.

Q How much time between the time you saw the first one come around the corner and when you saw the second one, the two come around the corner?

A Five seconds.

Q Okay. Um, so did you ever see any of the Ferguson officers approach Michael Brown's body?

A No.

Q Did you ever see, other than when they eventually removed the body from the street, did you see anybody move the body?

A No.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. Um, now you testified today that it was after the shooting that you said to hey, come see this, they just killed somebody or something like that?

A Yes.

Q You recall giving a statement previously, correct?

A Yes.

Q And you talked to a couple of female FBI agents?

A Yeah.

Q They come to your house?

A Yes.

Q And did you show them the window that you looked out of and what you saw?

A Yes, uh-huh.

Q And do you remember telling them that it was after the first few shots that you said, hey Emya, they're shooting out here?

A Yeah, as the shooting, as the first shots rang is when I got up to the window and then when I got to the window is when the second shots started to occur is when I called her.

Q Okay. So where was when you heard the first shots?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A She was in the bedroom.

Q And you said that you normally keep the blinds closed?

A Yes.

Q And so when you said to or eventually said, you know, hey, what did you say to her?

A I said, , someone's out here shooting, someone just got killed.

Q And did she come out of the bedroom?

A Yes.

Q Or did she look out the bedroom window to your knowledge?

A To my knowledge she looked out the bedroom window first and then she got up and put some clothes on and then came to the living room where I was standing.

Q Okay. When the FBI agents came to talk to you.

A Uh-huh.

Q Was sitting with you when you talked to them about what you saw?

A Yes.

Q And did you hear the FBI agents talk to ?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Now, did you hear told the FBI agents that she saw at least a part of this incident, correct?

A Yeah.

Q And is it your belief that she did not see part of the incident?

A Yes.

Q Okay. Why is it that you say that?

A Because her being in the bedroom, I'm not sure that she got up fast enough to see and look out the window to see what was going on.

Q So by the time she came out of the bedroom and came to where you were?

A By the time she came to where I was, the shooting was over.

Q Okay.

A Now, I don't believe, she was still sleeping when all of this was occurring, so I'm not absolutely sure that she got up at a time when I first called her name, that she got up and was able to look out the bedroom window and see anything.

Q But you were sitting with her when you heard her tell the FBI agents that she did see Michael Brown get shot?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And, of course, you know, you're not in her head, so whether she saw it or not, we have to ask her that, correct?

A Uh-huh, yes.

Q But you were there when she told the FBI agents that she did see it happen?

A Yes.

Q Okay. And then also do you remember when the FBI agents were talking to you that you said that you watched Michael Brown take a few steps and then he was in the middle of the street?

A I don't recall ever saying he took two or three steps.

Q Your memory today he never moved from the time you saw him to when he went down to the ground. His body obviously moved, but he didn't walk in the street or anything?

A Yes.

Q Okay. So you don't recall telling the -- actually, looks like it was two men that talked to you?

A Yes.

Q That's and , two FBI agents?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Do you recall they talked to you on August 16th?

A Yes.

Q Is that the first time that you talked to any officers or police?

A Yes, those were the first and only time that I talked to them.

Q You don't recall telling those two agents that, um, you observed Michael Brown take a few steps and then he was in the middle of the street, and then Brown dropped to one knee and collapsed face down and he stopped advancing. When he stopped advancing, the shooting stop?

A I don't recall ever telling them that he took a few steps.

Q Okay.

MS. ALIZADEH: Sheila, do you have any questions?

MS. WHIRLEY: Sure. At any time did you talk to the St. Louis County Police Department?

A No.

Q (By Ms. Whirley) Just to the federal FBI agents?

A Yes, ma'am.

Q Do you know if the St. Louis Police

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Department tried to contact you or not?

A I have no idea.

Q You never made contact with them?

A No.

Q They never made contact with you?

A No, ma'am.

Q Okay. If was in the bedroom, is it the bedroom facing west?

A Yes, the bedroom would be about here. (indicating)

Q If you were in that bedroom, would you be able to see what you saw?

A Yes.

Q And where were you, though, when you saw it?

A I was in the living room.

Q Where is the living room?

A The living room would be about close where this extends at.

Q Okay.

A Those are the steps and the living room would be right about the corner.

Q So both the living room and the bedroom face west?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And you said you first heard a few shots and that's what brought your attention to the living room?

A Yes.

Q What were you doing in the living room before the shots occurred?

A Playing my video games.

Q Okay. So you were awake an everything?

A Yes.

Q You weren't taking a nap or anything like that?

A No, ma'am.

Q Okay. It was your impression that was sleeping --

A Sleeping.

Q -- in the bed? Hadn't even gotten dress for the day?

A Not yet, no.

Q Okay. Did you all have any children?

A Yes, my son lives in the house, my stepson, her son.

Q How old is he?

A He will be in December.

Q Was he home that day?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Did he see any of this?
A No.
Q Where was he when all of this was going on?
A He was in the room sitting on the floor watching TV.
Q Okay.
A When that happened.
Q In the same room with you?
A No, with , he was in the bedroom.
Q Okay. He was in the bedroom with ?
A Yes.
Q And was asleep and he was watching TV?
A Uh-huh.
Q Did he run to hear and see what was going on with the shooting?
A He only got excited after me and her got excited about everything that was going on.
Q He wasn't really paying any attention?
A No.
Q Okay. So you hear the shots, you go look and you see and when you see Mike Brown, did you know Mike Brown?
A I didn't know him personally, no.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q But you had seen him around?

A I seen him around the complex. He had friends in the complex, I had seen him.

Q Did you know Dorian Johnson?

A No.

Q When you see him, you don't see him running at any point?

A No.

Q Do you ever see him charging at the officer?

A No.

Q And you said you couldn't actually see the officer?

A I couldn't see the officer, no.

Q You could just see Mike Brown?

A Yes.

Q When you saw Mike Brown, he wasn't running?

A No.

Q Or charging. Did you see a weapon on him?

A No, I couldn't see a weapon, no.

Q Okay. Could you see his hand?

A Yes.

Q Did it look like he was holding anything?

A No.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q It did not?

A No.

Q All right. And when you said he fell on one knee, was he like on the knee for a while or was it as he was falling down, he hit a knee first?

A That's how I was trying -- as he was falling down, he hit his left knee first. And then the second set of shots, and then that's when he was just on the ground.

Q So as he's, okay, some shots have occurred?

A Uh-huh.

Q He's falling down?

A Uh-huh.

Q Kneeling, in a kneeling position, he's falling down?

A Yes.

Q And then another set of shots occur?

A Yes.

Q Okay. So as he's falling down, he's getting shot is what you are saying?

A Yes.

Q But you can't see who is shooting him?

A I can't see who is shooting him, no.

Q Did he appear to be in an altercation with

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

anybody at any point that you were, wait a minute, let me ask the question because he's got to take us one at a time.

A Okay.

Q At any point when you were watching Michael Brown, or the person who was shot, which is Michael Brown, did he appear to be in an altercation with anyone?

A No.

Q Do you know what I mean by altercation?

A A fight or.

Q Yeah, or some type of disagreement or anything?

A No.

Q You never saw anybody but him?

A Just him.

Q Okay.

MS. WHIRLEY: Anybody have questions?

MS. ALIZADEH: I just want one more clarification.

Q (By Ms. Alizadeh) So, do you remember telling the two FBI agents that after you saw Michael Brown collapse in the street, you observed a police officer approach Brown and shortly thereafter, other officers arrived at the scene, do

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

you remember telling them that?

A Not that he approached him, but I seen the officer and then I seen two more officers.

Q Okay. And then do you remember telling the officers that when you had looked out the window, you observed Brown walking toward the direction from which the police officer came?

A No.

Q Okay. All right.

From the moment that you looked out your window and witnessed this and the time when Michael Brown's body hit the ground, about how long of a time frame would you say that was?

A Between me looking out the window and him hitting the ground?

: Yeah.

A I'd say the timeframe, probably about 45 seconds at the most.

Thank you.

Did you ever hear any yelling going on when all of this was going on?

A No, because my window was, the screen part, the door part was closed, I just had my blinds

Electronically signed by Randy Dunn (401-282-321-8891)
a65d3976-6902-42dd-9536-f372c261b448

open, but I could hear the shots, but I didn't hear any yelling or anything.

: You couldn't hear any voices or anything?

A No, sir.

. At the time of the shooting, I know it happened very fast, did you notice what the two construction workers were doing, were they locked on the scene too, do you know?

A Yes, they happen to have been looking at what was going on and then as they were watching, they were loading up their stuff in their truck and they pulled off.

: You think they had a clear view of what?

A I'm not sure how clear their view was, but they were down on the ground, probably had a better view than I did.

MS. WHIRLEY: Show us again on the map where they were?

A They were about here. Their truck was on the lot, one was about here and the other one was about here closer to my building. (indicating)

Q (By Ms. Whirley) Okay. And this was occurring where?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A The shooting was here.

Q Okay, all right. And you think their view was better than yours?

A I'm not sure, I'm not sure what they seen.

Q I'm talking about their view, not what they saw?

A Yeah, I assume them being down closer than I was, I thought they would see more than I would have.

MS. WHIRLEY: Okay. I didn't know if you were done.

: I'm done, thank you.

Could you see Michael Brown's face when this was going on?

A At the time I couldn't see his face, no.

And you said you heard gunshots in Canfield before, did that happen a lot?

A Um, I wouldn't say like a lot, like every night.

Okay.

A But every so often.

So you were there from February to August, would you say you heard it more than once or twice gunshots?

A Five or six.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

: Five or six in that eight months, seven months?

A Actually, two nights before August 9th, the night of August 7th there were gunshots that happened right in front of my building.

: Do you know if those were police involved gunshots?

A No.

: Was it with the residents?

A I think those were residents.

: Okay.

A I was asleep when I heard the shots, the shots woke me up. And so when I looked out the window, there was no one there, but police officers came and looking at the ground. I guess they were picking up shell casings.

: They were investigating a shooting and they weren't involved in it?

A Yes.

: And you said that you had an obstructed view of who was shooting, but you could see the field?

A Yeah.

: Could you see the whole

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

thing?

A No, I couldn't see the whole thing because the building obstructs, but I could see part of the field.

You said you saw a man running?

A Yes.

Which way was he running?

A He was running this way towards the south. (indicating)

So he was running from Canfield?

A From Canfield Drive.

To maybe go to one of these places?

A Yes.

Can you tell me what that man looked like, can you describe him?

A I can't, I don't really have any details.

Okay. Like dark skin, light skin?

A He was black, yes.

: He was black.

A Darker skin than me, I could see it.

: What about his hair, did

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

you see what his hair looked like?

A I couldn't see his hair.

: You couldn't tell if he had a shaved head or dreads or whatever?

A (Shakes head.)

Was he short or tall do you know?

A I couldn't tell you.

: Okay. I'm sorry, one more question.

A You're fine.

: And it is your opinion that you do not believe that saw the actual shooting.

A Yes.

Because of when you called her in?

A Yes.

That's it. Sorry, thank you.

MS. ALIZADEH: I just want to clarify and I'm not sure if I heard you well enough. When you said you saw the man running and you described for the jury the direction, did you say he was running towards his house?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A No, south.

MS. ALIZADEH: Oh, okay. Glad I asked. . Is the bedroom adjacent to the living room, like can you stand in the living room and see through your living room?

A No, no. Like my front door is here, was straight into the living room, then my living room is pretty spacious and then there's a slight hallway and then my bedroom goes in, so it was right next to it, but there's a wall there so I can't see into the bedroom from the living room.

: So are you saying that you just assumed that wasn't up?

A Yes.

: Or did she tell you that oh, I got up when you called me?

A I'm assuming that she wasn't, that she didn't get up fast enough. I heard her get up, I don't think she got up fast enough to see anything that happened.

Did you all have a conversation, you know, what was going on, while everything else was happening outside?

A No, we just kind of sort of were caught in

Electronically signed b a65d3976-6902-42dd-9536-f372c261b448

the moment of what was going on and talking to people and finding out what had happened. We had never really had a conversation about it, no.

At the time that you and , you say you were questioned by the FBI; is that correct?

A Yes, ma'am.

: And the FBI also came to your home; is that correct?

A Yes.

Was there one or two officers?

A Two.

: At that time was your testimony and testimony, even though you are at home together, you were there together in the same room, is that my understanding.

A Yes.

You could hear what was saying and she could hear what you were saying, is that also correct.

A Yes.

Was that both of your testimony, was it recorded as well?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

All right. I think that's about all I have.

MS. WHIRLEY: Let me clear something up, just about what said. You asked about something being recorded; is that right?

: Yes.

MS. WHIRLEY: You had a recorded statement?

A Yes.

MS. WHIRLEY: Okay, all right, go ahead.

MS. ALIZADEH: Let me just clarify. Because, when the FBI came and talked to you, it was two male officers, correct?

A Yes.

MS. ALIZADEH: And that was on August 16th?

A Uh-huh.

MS. ALIZADEH: And they came to your house?

A Yes.

MS. ALIZADEH: And was there when they talked to you?

A Yes.

MS. ALIZADEH: When the FBI talked to , it was two females officers, correct?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

MS. ALIZADEH: So that was on a totally separate day?

A Yes.

MS. ALIZADEH: Were you there will when the two females officers talked to ?

A Yes.

MS. ALIZADEH: They didn't interview on the same day?

A No.

MS. ALIZADEH: But you were present and heard the other person make their statements?

A Yes.

MS. ALIZADEH: And you heard talk to the female FBI agents and say she saw the shooting?

A Yes.

MS. ALIZADEH: And you now know that says that she didn't see it?

A Yes.

MS. ALIZADEH: Have you talked to her about that?

A Um, yes, briefly.

MS. ALIZADEH: Now, I'm just wondering, you know, all the uproar that has happened since this occurred.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

MS. ALIZADEH: You still live in the Canfield Apartment Complex?

A Yes.

MS. ALIZADEH: When you were talking to the FBI agent, did you feel pressured to say things that weren't true?

A No.

MS. ALIZADEH: Is what you told the FBI agent true?

A Yes.

MS. ALIZADEH: To the best of your recollection?

A Yes.

MS. ALIZADEH: And yet what told the FBI agents she is now saying is not true?

A Uh-huh.

MS. ALIZADEH: Is that right?

A Yes.

MS. ALIZADEH: Since the time you were interviewed by the FBI agents until you come in and testify today, have you felt pressure from other people to say something that you're not comfortable saying?

A No.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

MS. ALIZADEH: Okay. What about , has she talked to you about feeling pressure about having to come and testify about that day?

A Feeling pressure as far as me feeling pressure or her feeling pressure?

MS. ALIZADEH: About her, has she told you that she feels pressure?

A She never said that she feels pressure, she sort of told me that she felt, I don't want to say obligated, but so to speak in that sort of way she felt that she needed to say something.

MS. ALIZADEH: When did you first learn that really didn't see this, when did she tell you that she didn't see it?

A A couple days ago.

MS. ALIZADEH: A couple days ago. Now, you know that I talked to about her coming into court and everything?

A Yes.

Q Is it after I contacted her and told her?

A Yes, yes, yes, when you contacted, that's when me and her sort of had a sitdown, okay. You got to go to court and that's when she kind of acknowledged I really didn't, you know, I really don't want to go to court because I really didn't, I

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

don't have any solid evidence of my eyewitness to it.

MS. ALIZADEH: So when she was giving her statement to the two female FBI agents and you were sitting there and listening to her say that, did you believe that she did see it at that time.

A Like I said at the time I was still having my doubts because I wasn't really sure.

Q (By Ms. Alizadeh) But at that time she didn't secretly tell you I didn't really see it, but --

A No.

Q You thought that she was telling the FBI agents the truth?

A Uh-huh.

Q And now she says it wasn't true, correct?

A Yes.

MS. ALIZADEH: Anything else? Okay. That will conclude, needs to say something.

(End of the testimony of .)

MS. ALIZADEH: This is Kathi Alizadeh. It is October 7th at 11:18 a.m. I'm present, Sheila Whirley is present, as well as all 12 grand jurors and the court reporter. And at this time we're going to play a recorded statement for you. It is a

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

statement of that was taken or done by Federal Bureau of Investigation agents and this statement is contained on a disc that I have marked as Grand Jury Exhibit Number 36.

(Deposition Exhibit Number 36 marked for identification.)

Q (By Ms. Alizadeh) It is 21 minutes and 56 seconds in length. I have transcripts that I can pass.

I want to mention during the break before we began recording again, the grand jurors had asked if we could try to get a floor plan of the apartments, and we'll look into that if that can be done. Also I intend, I'm going to try to get some testimony from a witness who, as you heard the last witness, he said that they were interviewed at their home by federal agents. So it's possible that I could get one of them who has been inside the apartment to maybe describe, if we don't have a floor plan available.

And then also there was a question about topography, if there was any maybe topographical maps available. I don't know the answer to that, but we can see if we can find some.

I also advised the grand jurors that

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

we have had some additional investigation done where we had officers go out to the scene as recent as last week and take photographs with a lens that would be as close to what the human eye sees as we can get.

In other words, it is not a zoom lens or anything like that and taking photographs from different vantage points because I gathered from some questions that had been asked previously that this might be a question that you have about, you know, can somebody be in a certain place and see what they are describing that they saw.

So I would probably call to introduce those photos. And as I mentioned before, if we may have a gap today with witnesses who might not appear. And so is standing by ready as one of my fill-in witnesses. So that might be something that we can get to this afternoon.

Also, yesterday, we had talk about taking photographs of Darren Wilson's face and then we also had him talk about taking photographs of him taking a bullet out of the side of one of the buildings.

And so we didn't have time for me to

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

pass those photographs to you yesterday, so at some point today when we maybe have a break where there is no witness available, we'll get those photographs passed around and give you plenty of time to look at those.

Is there anything else or any other questions before we begin the recording?

All right. And at this time I'd ask to pause the audio recording while we're playing the statement of .

(Interview of is being played at this time.)

MS. ALIZADEH: It is 11:44. We just finished listening to a statement of . She's here and are we okay with bringing her on and getting her done so that we can break for lunch after she's testified, is that all right? Okay.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q I'm going to stand back here as best I can, I need you to speak up, okay?

A Okay.

Q So that all the grand jurors can hear you. Introduce yourself to the grand jurors and spell your name for the court reporter, please?

A My name is

Q Okay. And , you know why we're here today, correct?

A Yes.

Q And we're here to talk about the shooting of Michael Brown?

A Uh-huh.

Q And what you know about that?

A Okay.

Q Now, you've given, how many statements

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

have you given regarding this incident?
A Two.
Q And who did you give those statements to?
A To the FBI agents.
Q Both statements were to the FBI agents?
A Yes.
Q And as far as you know, were those statements recorded?
A Yes.
Q Okay. Have you ever talked to the police, the St. Louis County Police about this incident?
A No.
Q Was there any reason why you didn't talk to the police?
A No.
Q I mean, did you not want to talk to the police?
A Huh-uh, because I had already talked to the FBI agents.
Q And the first time you talked to the FBI agent, well, at some point you did talk to the police, didn't you, on the first day that this occurred August the 9th?
A Uh-huh.
Q Do you remember when it occurred on

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Saturday August the 9th?

A Yeah.

Q Did you talk to ?

A There was two.

Q You thought he was an FBI agent?

A Uh-huh.

Q You did talk to someone that same day that it occurred?

A Yeah.

Q A few hours later?

A (Nods head.)

Q And after that, you talked to --

A The two ladies.

Q Two women FBI agents later?

A Uh-huh.

Q At your home?

A Yes.

Q And that would have been on September 30th?

A Yes.

Q So a week or so ago then, right?

A Uh-huh.

Q That was very recent, most recent?

A Yeah.

Q You gave two statements, were both of

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

those statements true?

A No.

Q Okay. We'll start there.

A Okay.

Q So was one true and not the other, or were they both not true? All we're looking for here is the truth. We're not here to embarrass you or to make you feel bad in any way, we just need the truth, this is very important.

A Okay.

Q Okay.

A Um, the statement that I made, it was with what my boyfriend saw. I just felt like I want to be part of something and what I saw was just lying, lying there at the end. I didn't see what I told the FBI what I saw.

Q Okay. And then how did you know what, was ?

A Uh-huh.

Q How did you know what saw?

A Cause when I was in the room, he called me and let me know what was happening and by the time I got to the window, everything was done. And then he just told me what happened because I asked him what happened.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. So that same day before anybody talked to the authorities, he told you what he saw?

A Yeah.

Q All right. And then I guess the police came around to talk to people?

A Yes.

Q That same day. Did they talk to before they talked to you?

A No, they talked to me first because he had left.

Q Okay. He left and did what?

A He went to work.

Q About what time the he leave and go to work?

A Like 7:00, 7:30.

Q Okay. So when the police, according to the information we have, it would have been around 5:00 in the afternoon?

A Uh-huh.

Q Was he there when the police came?

A No.

Q Okay. So he had left before 5:00?

A No, he was there at 5:00.

Q Okay.

A That's when they got his body up about

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

like 5:15.

Q Okay.

A So he was still there.

Q Okay.

A And then his mom picked him up and he left.

Q His mother picked him up and he left around 7:00?

A Uh-huh.

Q The only reason why I'm questioning you on this matter it looked like around 5:06 p.m., would have taken your statement?

A Uh-huh.

Q I'm trying to figure out was at the house at that time when he took your statement?

A No.

Q So could your times be off?

A Probably.

Q Okay.

A Yeah, because he wasn't there, it was just me and my son.

Q You are sure he wasn't there?

A It was just me and my son.

Q Just you and your son?

A Uh-huh.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So what's your son's name?

A

Q okay. So you and were there and the police came?

A Yes.

Q Did you go to them and say, hey, I know something, did you walk out?

A They were going door to door.

Q They were canvassing, going door to door?

A Yes.

Q When they came to you, tell us how that went down?

A They asked me did I see anything? And I told them, yes. And then he gave me what I could write all the stuff and also so he can record what I saw.

Q Okay.

A And he recorded it and then he left.

Q Okay. And you were telling him what you had told, what had told you happened?

A Yes, yes.

Q Okay. So then there was another occasion, well, first of all before I move on, I want to make clear what you did see.

A Uh-huh.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So at what point did you go and see anything that day?

A I was, when I first heard the shots, I was in the room laying down, me and my son. And we just thought it was construction people, they was cutting down our trees and stuff.

And then when yelled that somebody get shot, and so I'm putting on my clothes. And by the time I get to the living room and look out the window, he was already on the ground.

Q He was already on the ground?

A Uh-huh.

Q Did you see any police officers or anything?

A Not at that moment.

Q You just saw him on the ground?

A On the ground.

Q Was he moving on the ground?

A (Shakes head.)

Q Did you keep looking out the window?

A Yes.

Q And this little pen here, see how it works? You push that button there. Show us where you were looking, what apartment you were at when you were looking out the window, can you tell from

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

this map?

A This is my street.

Q You live on Canfield Drive?

A Court.

Q Canfield Court. Point at it with the little pointer, that's fine.

A Mine is right there. (indicating)

Q This is you. So you were looking --

A I'm looking out my balcony to the street.

Q Where did you see the body laying?

A Like right here. (indicating)

Q Okay.

A Right there. That's my driveway, it was driveway it is right there. (indicating)

Q Okay. And so you just saw the body laying?

A Uh-huh.

Q At some point did you see the police arrive or show up?

A Yes. There was like three officers that just came. About that time there was people rushing outside and everything.

Q Was it when you saw the body lying there, you didn't know how long Michael Brown had been laying there?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A No.
Q Because you didn't see him when he fell or anything?
A No.
Q You didn't see him with his hands up or anything?
A No.
Q And you already told us, I don't want to say what you said, I'm going to have to ask you one more time, I want to be real clear. When the police came that first time you told them that you saw, but you really didn't, why did you do that?
A I just wanted to be a part of something and tell them what my boyfriend said because he wasn't there.
Q Okay.
A I didn't know if they was going to come back and try to talk to him, I just wanted his story to be out there.
Q Okay. And you made his story your story?
A Yeah.
Q You didn't tell the police, though, that this is what my boyfriend said he saw?
A No.
Q Did you give them his name to come back

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

and talk to him?

A Uh-huh.

Q Okay. Did you realize when you were contacted by the FBI, what did you think then when they wanted you to tell them what happened, and that would have been, before I move on, this was September 30th?

A I was nervous. I didn't want to say nothing because I knew I really didn't see it, but then one of the ladies was like, I might as well just tell them and let them know what happened because they want to hear it. So I'm like okay, I might as well just keep telling them what I saw, what saw.

Q You didn't tell them that's what saw?

A No.

Q Has anyone threatened you or made you come here and say that you didn't see it when you really did?

A No.

Q Okay. Has anyone coerced you, you know what I mean by coerced, promised you something or said that they're going to do something to somebody in your family if you don't come here and say what

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

you said?

A No.

Q Before?

A No.

Q So it's the absolute truth that you did not see it?

A Yeah.

MS. WHIRLEY: Questions?

MS. ALIZADEH: I have a few.

Q (By Ms. Alizadeh) , on the day that this happened, just a few hours afterwards, Detective came and knocked on your door and said, did you see what happened, anything that happened today? You didn't say, I didn't, but my boyfriend did. You said, I saw it?

A Yes.

Q And so then he said, would you mind telling us what you saw?

A Yes.

Q You are saying you just repeated what your boyfriend had you happened?

A Yes.

Q Did you guys go through that in detail before he left for work to make sure you knew the story?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A No, he just let me know what happened, when he saw the shots being fired.

Q Did you discuss the position of his arms, or how many gunshots there were or anything like that?

A No, I could hear the gunshots, but I couldn't see them like entering his body, I just heard them.

Q I'm sorry, did you and , though, discuss like the positioning of his arms?

A No, he just told me he had his arms up.

Q He didn't tell you that he was grabbing at his side?

A Yeah, he told me everything that he saw from the side. From him kneeling, falling, everything.

Q Okay. So did know then on that day that it happened, did he know that you didn't see it?

A No.

Q Okay. And so several weeks go past and you know that the FBI and the Department of Justice and there are a bunch of people that are trying to get ahold of you because they want to talk to you?

A Uh-huh.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And you knew that, right?
A Yes.
Q And you said you didn't want to talk to them?
A No.
Q And then, but at some point these FBI women came to your house, correct?
A Yes.
Q Now, did they have a warrant for your arrest?
A No.
Q Did they threaten you in any way?
A No.
Q Were they nice?
A Yes.
Q I mean, I've met them, they seem like nice ladies, right?
A Uh-huh, yes.
Q And was home when they were there?
A Yeah.
Q So he was there when they were talking to you, correct?
A Yeah.
Q And this is now several weeks later, you don't take the opportunity to go, well, I really

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

didn't see it, but my boyfriend did. He can tell you what happened, but you didn't do that?

A No.

Q Before you talked to those ladies, they told you, didn't they, if you lie to a federal agent, it is a crime?

A Yes.

Q And you know that, right?

A Yes.

Q And when I called you, I called you last week about coming in and testifying, correct?

A Uh-huh.

Q And you said okay. We made arrangements for you to come in and then you had to reschedule, right?

A Yes.

Q You never told me on the phone, well, you know what, I didn't really see anything, right?

A Uh-huh, yes.

Q And so this morning you and came here and you had an attorney with you?

A Yes.

Q All right. Your attorney advised me that you were going to take the Fifth, in other words, you were going to invoke your right to incriminate

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

yourself?

A Yes.

Q And you had discussions with your attorney about your, he gave you advice and you talked to him. I'm not asking you what you said to him or what your conversation was, but at the conclusion of that you decided that's what you were going to do, right?

A Yes.

Q And then at some point you were aware that I had gotten ahold of the Department of Justice and that the Department of Justice said they would give you immunity?

A Yes.

Q In other words, if you testified today truthfully, they're not going to charge you or try to prosecute you for any charges that may involve giving a false statement to a federal agent, you understand that?

A Yes.

Q Okay. So you are testifying here today based upon the promise by the Department of Justice that they wouldn't, they're not going to prosecute you for that?

A Yes.

Electronically signed by Randy Dunn (401-282-321-8891) a65d3976-6902-42dd-9536-f372c261b448

Q And I talked to you before you came in here today and didn't I tell you that look, it is not a crime per se to lie to a state official, we don't, I told you I wasn't concerned about that, I just wanted you to say what was truthful?

A Uh-huh.

Q Is that what you're doing today?

A Yes.

Q I know Miss Whirley asked you questions about anybody threatening you or pressuring you and you said no; is that right.

A Yes, that's correct.

Q And that includes , correct?

A Yes.

Q Did pressure you into saying, hey, you've got to say what I said happened?

A No.

Q You still live in Canfield Green, correct?

A Yes.

Q I know Miss Whirley asked you questions about anybody threatening you or pressuring you and you said no; is that right.

A Yes, that's correct.

Q And that includes , correct?

A Yes.

Q Did pressure you into saying, hey, you've got to say what I said happened?

A No.

Q You still live in Canfield Green, correct?

A Yes.

Q And you know that there's been a lot of tension, have you felt the tension?

A Yes.

Q You're aware that there's a lot of tension and especially focused right in your neighborhood, correct?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

Q Do you feel pressure, whether or not anybody came flat out that was threatening. I'm not asking you that because you said no, I'm asking did you feel pressure to lie to the federal agents or do you feel pressure to come in here today and say that you didn't see it when in fact you did?

A No.

Q Okay. So you're saying the reason you lied to the federal agents is that you just kind of thought you wanted to be part of it?

A Yes.

Q And that feeling was still continuing when let me ask you this when the federal agents were trying to get you to come in and talk to them, how come you didn't talk to them then if you still wanted to feel like you were a part of it?

A Cause I knew that I was lying and I didn't want to talk to nobody at all.

Q But you know then when they came to your house, that was your opportunity to say, you know, I don't want, I know it is a crime to lie to a federal agent, and I don't want to get myself in trouble. I just want to get, you know what, I don't want to lie, I'm going to tell you right now, I didn't

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

really see it. You didn't do that?
A No, I was going to come in Monday to talk to you and that's when I was going to let you know. And then I had told that I didn't really see nothing and that's when he called the lawyer.
Q Okay. Do you believe me when I told you before you came in here that Miss Whirley and I, all we care about is that we get to the truth.
A Yes.
Q I'm not on anybody's side one way or the other. I told you we want witnesses to give truthful testimony regardless of what that testimony is, it just has to be the truth.
A Uh-huh.
Q Are you saying that your testimony today is truthful?
A Yes.
Q Anything else you want to add or --
A No.
Q -- or state now that you want to get off your chest or anything before we're done here?
A No, I just wanted to be a part of it, I just wanted them to hear what he saw because he wasn't there to let them know, that was it.
Q Well, you know that two federal agents

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

came out and talked to him in August?

A Yeah.

Q So he had already given his statement too?

A I didn't know they was going to come back and talk to me.

Q Do you know anyone else in your community in the same spot that you found yourself in. In other words, that they maybe said something that they knew wasn't truthful, but they said it because either they wanted to be a part of something, or that they felt like they were pressured or they just wanted to go along with what everybody else was saying?

A No.

Q Have you talked to the neighbors in your complex?

A Yes.

Q Do you know anybody else who claims to have seen this?

A No.

Q So you've not had any conversations with somebody who said, yeah, I was looking out my window too, I saw it?

A No.

Q So you don't know if there are people out

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

there who are saying that they saw it, but in fact, didn't see it?

A No, I don't.

Q Okay.

MS. ALIZADEH: I'm done.

MS. WHIRLEY: Questions?

(Lunch recess)

MS. ALIZADEH: All right. Good afternoon. It is October 7th, it is 1:46 p.m. I'm Kathi Alizadeh, present also is Sheila Whirley with the prosecutor's office, all 12 grand jurors are also present, as wells as the court reporter who is taking down what's transpiring in the room and also he is doing an audio recording to record what's being said.

And so the first witness we're going to have for this afternoon is . And he is a chemist with the s St. Louis County Police Department Crime Laboratory. Could you stand up, please?

Do you go by , you're not a detective or police officer, correct?

THE WITNESS: No, is fine.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Could you state your name and spell it for the court reporter, please?

A

Q Can I call you ?

A Sure.

Q And, , where do you work?

A The St. Louis County Police Crime Lab.

Q What do you do for the crime lab?

A I'm a drug chemist.

Q And so what is your educational background that qualifies you to be a drug chemist with the crime laboratory?

A I have a bachelor of science degree in bio medical sciences from formerly known as Southwest Missouri State University.

Q And when did you receive that?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A In May of 1999.
Q All right. And then did you have any other postgraduate work?
A No.
Q And so after you graduated from Missouri State, is it Missouri State?
A It is now Missouri State University.
Q Okay. That's in Springfield?
A Correct.
Q And then after you graduated, did you have any employment other than working for the St. Louis County Crime Laboratory?
A Yes, I did.
Q Where did you work?
A Missouri Statement Highway Patrol Crime Lab.
Q And so were you a chemist with the Missouri State Highway Patrol Crime Lab?
A Yes, our official title is criminalist.
Q Did you do work that was in your field of chemistry?
A Yes, I did.
Q And did you, how long were you with the Highway Patrol Crime Lab?
A Thirteen years.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And after that, where were you employed?

A Then I started with the St. Louis County Police Crime Lab.

Q How many years have you been with the St. Louis County Crime Lab?

A One and a half years.

Q And so do you work as a chemist or a criminalist, but you do work in chemistry and analysis and chemical compounds for the crime laboratory?

A Correct.

Q Are you a certified or post-certified police officer?

A No.

Q Have you ever been a police officer?

A No.

Q Do you have any training as a police officer?

A No.

Q Do you have any certifications or any other, are there any other requirements that you received or passed in order to work in the chemistry county crime lab?

A The county and the Missouri State Highway Patrol Crime Lab as well are accredited, so I work

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

under an accreditation.

Q All right. And so what, without sounding too obvious or moronic I would say, could you describe what chemistry is, the field of forensic chemistry?

A Forensic chemistry is in the drug chemistry, we generally it's powders, liquids, residues, plant material, pharmaceuticals, that we analyze and determine if they have controlled substances in them or not.

Q What about other types of things like, for example, poisons, would you analyze a liquid to determine if it had any kind of poisonous material?

A Not me, no.

Q So if say there was a substance that might be seized in a criminal investigation and it was suspicious that it was arsonic, is that something that you would examine and test?

A Not me.

Q Okay. So your field is strictly regarding the examination and testing of substances to determine whether or not they have contained controlled substances?

A Correct.

Q And controlled substances are drugs?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes, ma'am.

Q Okay. And then everything from prescription drugs to marijuana, to street drugs; is that right?

A Yes.

Q And so did you receive an evidence item in order for you to examine in relation to a St. Louis County investigation that is hopefully, or will be documented under Report Number 2014-43984?

A Yes.

Q What was it that you received to analyze.

A I received a bag that actually I believe was in a plastic container and then a plastic bag containing a plant material substance.

Q Okay. In general now, let's talk about how you get evidence items. How is it that they come to you?

A They are submitted, in this case since this is, this is submitted as a county, St. Louis County case. So it goes through property control division and then property control brings it up to the crime lab.

So it gets entered into the computer, the evidence is then placed into a vault and then --

Q A vault in the crime lab?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yeah.

Q Okay.

A And actually, that's normal procedure. This one, I remember that it went through one of my co-workers. He was getting ready to work the case and I asked him, oh, what do you got there? And he goes, well, this is a case that needs to be worked, a rush case, do you want to do it? And he asked the supervisor, I said, that's fine, I can rush this case.

And he said, let me call the supervisor and the supervisor said yeah, if wants to do the case, that's fine, so I did it.

Q Now, when you began as a chemist or forensic chemist with the County Crime Laboratory, was there like an on-the-job training period or probationary period?

A Yes.

Q And how long did that last?

A Normally it would last six months and probation is one year, but since I had training through the Highway Patrol, it really was about two months here.

Q Okay. And so you were as qualified to examine this evidence item as any other forensic

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

chemist in the lab; is that fair to say?

A Yes.

Q It wasn't like this was your first time doing this?

A No, not at all.

Q Okay. And so when this came in though, it was described or it was explained to you that this was something that they needed to have tested ASAP?

A Yes.

Q When you said it was rush, did you mean rush the test or just that it needed?

A We call them rush cases if it needs to be worked quickly.

Q Okay. But did you rush the test, in other words, did you go through the testing process faster than normal?

A No, I have my own pace.

Q Okay. So you have a wait for testing substances, isn't that fair to say?

A Yes.

Q It can be in the normal scheme of things it could be several weeks or even months before an evidence item that a police department brings in?

A Yes. We have a backlog so, by meaning rush, we were putting this case ahead of other cases

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

that are waiting.

Q Okay. All right. Did you have, when you examined or brought out the evidence that was submitted to you, did it have an evidence sheet with the evidence?

A Yes, it did.

Q Okay. So when you, do you have a copy of that with you?

A Yes, I do.

Q The evidence receipt, we have heard a little testimony from Detective and Detective , who are crime scene investigators, about how they fill out an evidence receipt or an evidence sheet when they seize something. And they've described the chain of custody that must be completed on the bottom of the sheet.

So looking at the copy of the evidence receipt that you had with this evidence item, can you tell from there where this was seized from?

A Oh, it says that, well, it says who the officer is and the department, St. Louis County PD.

Q Okay. The officer who seized the evidence, does it give his name?

A Yes, it does.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And who was he?
A Darren Wilson.
Q So Darren Wilson, actually, let me direct you, Darren Wilson is originally listed as the victim in this case, correct?
A Yes.
Q And then there is a Detective who is actually , a different person?
A Oh, okay, I learned something new.
Q There is a bit of confusion with the two ?
A Okay.
Q It says here location, seized and found. What is the location of where it was seized or found?
A St. Louis County Morgue.
Q And it gives the address 6059 North Hanley, where presumably that's where the morgue is?
A I assume that's what it list.
Q What was the date that it was seized?
A On August 10th, 2014.
Q Who was the seizing officer?
A Detective .
Q Do you know ?
A No.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Don't know him?
A No.
Q So the remarks on the evidence receipt says that the evidence was sent to Property Control?
A Yes.
Q And that's kind of the procedure that you described, isn't it?
A Yes.
Q When a county officer seizes something and packages it, it first goes to Property Control, correct?
A Correct.
Q And then there will be signatures on the chain of custody that show really whose hands this item passes through, correct?
A Correct.
Q Do you know Officer ?
A Yes.
Q Is he an officer in Property Control?
A Yes, he is.
Q Okay. So his receipt that accompanied the evidence shows that at some point it was dropped off to the St. Louis County Crime Laboratory in their vault, correct?
A It doesn't look that it ever hit the

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

vault, it looks like it went from Detective to another person that works in property control and then it went to another drug analysis it and that's when I took it from the drug analyst.

Q From Detective in Property Control, it then went to another officer in Property Control and from there it went to another analyst, drug analyst?

A Yes.

Q Who is that?

A .

Q Is the person you said, hey, what are you working on?

A Yes.

Q So from him signing it the evidence receipt, then it came to be in your possession, correct?

A Yes.

Q When it came to be in your possession or any time you get an evidence item submitted, do you examine the packaging to determine if there is any evidence that has been tampered with?

A Yes, if it looks like it has been tampered, make note of it and make some documentation.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So in this case had you suspected or had you noticed on the packaging that there, for example, that the evidence tape appeared to have been cut open or that there was something odd about the way the evidence was packaged that we might suspect that it was tampered with, would you have noted that in your report?

A I wouldn't note as if, like if there's a piece of evidence from the officer and then maybe they had to go back in and reopen somewhere else, no, I don't note that.

If there was an opening to where it looks like the evidence could get out of the container somehow, or to where somebody could put something in, yes, that would definitely be noted.

Q Okay. And did you note anything of that nature in this case? Was there anything that appeared to you that the actual evidence would have been tampered with?

A No, no note of that.

Q All right. And so after you received this, let me ask you this, what day did you receive this evidence item?

A Um, on August 11th of 2014.

Q And so after you received it and you said

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

it was in a plastic container, a baggy in a plastic container, I can't remember if you said that in here or you said that out there when we were talking?

A In here. So in my report it says one knotted clear plastic bag containing green vegetation. I have a note here that says, specimen Q1, full description above all contained inside sealed plastic container.

Q Okay. And that's how it appeared to you when you first got it; is that right?

A There would also be the outer container as well, which would be the manila envelope that it was in.

Q Once you open the envelope, that's what you saw a sealed plastic container?

A Yes.

Q Is the sealed plastic container the kind of container that crime scene detectives use to put things in when they are packaging them?

A It is what it appeared to me.

Q Okay. And then did you test the substance that was in that baggy?

A Yes, I did.

Q And did you make a report regarding your findings?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes, I did.

(Deposition Exhibit Number 37 marked for identification.)

Q (By Ms. Alizadeh) I'm going to hand you what I've marked as Grand Jury Exhibit Number 37. Is that a copy of report that you made in this case?

A Yes, it is.

Q Okay. I'm going to pass around copies of Grand Jury Exhibit 37.

So, , you list a description on your report, is that what you mentioned earlier, one knotted clear plastic baggy containing green vegetation?

A Yes.

Q Now, having been a chemist for over 11 years at this point, did that substance appear to be familiar to you?

A Yes.

Q What did it look like?

A It looked like marijuana.

Q Was there anything odd about it that you thought this was not your typical marijuana?

A No.

Q All right. And so what's the first thing you do after you receive this knotted plastic baggy,

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

what do you do next?

A I weigh the substance.

Q Do you weigh it in the baggy or remove it from the baggy?

A I remove it from the baggy.

Q And so when you weigh it, you weigh it on a digital scale?

A Yes.

Q And are those scales calibrated on a regular basis to insure their accuracy?

A They're calibrate once a year, they're checked weekly.

Q Okay.

A They're checked with certified weights.

Q So when you weighed the substance that was in the baggy, could you remove all the substance in the baggy, every little leaf and every little --

A As much as I can get out of the bag.

Q And according to your report, you had a weight of 1.589 grams?

A Correct.

Q Can you describe for me maybe using some kind of familiar object, is this smaller than a baseball?

A Yes, a little bit smaller than a baseball.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Not much, though.

Q After you weigh the amount of the marijuana and I see down here in your remarks there is a remark that you include about uncertainty of measurement. Do you all see that in the, close to the bottom? What does that mean, the established uncertainty of measurement due to balance utilized, what does that mean?

A We take into consideration any kind of factor that could make the weight slightly different than the 1.589. We take into consideration things such as the readability of the scale, the linearity of the scale, the stability of the scale, the sensitivity.

And so what we do is over a course of time we will analyze, we will take our weights that we normally have with our certified weights. And we will record, for example, you have a 1 gram weight and our scale reads out to 1.000. If you get a one point 1.001, and during your checking we write down 1.001, then that is documented.

Anything that's different than what the actual weight is, that's considered, there is a standard deviation involved. Calculating that and then you find that we come up with this 1.008 for

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

this balance is the most that that scale would ever be off.

So basically what we are saying here with this K factor of three, we're saying that 997 times out of 1,000, this weight here of 1.589 will be right at 1.589 997 times out of a thousand.

Three of those times it might be 1.589?

Q And it could be .0008?

A Correct.

Q And that's important especially in cases with marijuana and other drugs when there might be a criminal legal implication depending on the weight of the substance?

A I would like to go back about that weight, just to make sure that we're clear on that.

It's possible that those three out of the thousand times could be outside the .008.

Q Okay.

A I think I did missay that. Basically statistics are involved, and we're 95 percent confident that 99.7 percent of this will be within the .008 of that weight.

Q Okay. And in this case, I mean, you know, maybe you don't know, I'll tell you the

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

circumstances of how much this substance weighed is really not important or crucial, this isn't a scenario where we need to have over 35 grams to charge a certain level of offense.

So let me also ask you, when you removed the green vegetation from the baggy, did it appear that it was dry?

A Yes.

Q It wasn't wet or moist or sticky?

A Not that I recall.

Q And so then after you've waited, what do you do next?

A Then I perform a microscopic examination in that we look for characteristic hairs. I look for cystolith and silicotic hairs.

Q Say that again, you look for what?

A Cystolith.

Q Can you spell that for the court reporter?

A C-Y-S-T-O-L-I-T-H, and silicotic hairs, I believe that's S-I-L-I-C-O-T-I-C.

Q Okay. What are these things that you are talking about?

A So cystolith hair, it looks like a bear claw shape, tiny bear claw shape hair. It is characteristics to marijuana plants.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And the other thing that you are looking for, what is that?

A Silicotic, they are more slender like hair. You may find that more on other substances, but knowing that's also on a marijuana plant. It is not as confirming as a cystolith hair.

Q So you are saying hair?

A Hair.

Q But it is not like animal hair or human hair?

A It is a plant hair, it is a cell.

Q Okay?

A A cell, it comes out of the surface of the plant. It is plant cellular material.

Q So this thing that you are looking at in a microscope is, in fact, marijuana, you would expect to see those things?

A Yes.

Q Did you see them in this case?

A Yes, I did.

Q Do you do any further testing?

A I do a modified Duquenois-Levine test.

Q Can you spell that for the court reporter?

A Modified?

Q Well, he can spell modified, what's the

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

other word?

A Duquenois, D-U-Q-U-O-N-I-S -- E-N-O-I-S, I'm sorry. Levine, L-E-V-I-N-E.

Q What is that test?

A That's a chemical color test. That test for cannabinoids and it will turn purple with the presence of marijuana.

Q And did it turn purple when, is it like a reagent that you apply to the plant material?

A Yes, and it did turn purple.

Q Is that a presumptive test?

A Yes.

Q And do you do any confirmative testing after you've done that test?

A No, it confirms marijuana when you use the two test together.

Q Okay. So the microscopic examination which you saw the two hairs that you suspect marijuana and then the color test being positive, you conclude that this is marijuana; is that correct?

A Yes.

Q Now, , what is THC.

A Tetrahydrocannabinol.

Q Is that the active ingredient in marijuana

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

that makes people, that it alters their, I don't know, whatever it does to you?

A Euphoria.

Q Euphoria?

A Yes, psychoactive.

Q Okay, that's a good word, psychoactive. So do you test when you have like what you suspect to be marijuana, do you ever test it to determine how much THC is in this marijuana that you are looking at?

A No, I do not.

Q All right. Do different samples, to your knowledge, different samples or different types of marijuana have different levels of THC?

A I would expect. I've never done one on marijuana.

Q You hear people talking about, oh, marijuana now is so much more stronger than it was back when we were teenagers or whatever. I don't know because I'm not an expert on that, so you believe that it is possible that different marijuana has different THC levels?

A I believe it is.

Q Are you familiar with a process that's done called waxing?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes, waxing is the same as butane hunting oil. Do you want me to describe that?

Q Yes.

A Okay. So what happens in this scenario is someone takes the plant material and they will --

Q So when you say plant material, it is marijuana?

A Marijuana.

Q You can't do this with your lawn clippings?

A No.

Q I guess you could.

A You could, but you probably won't get THC.

Q All right. So we've got some marijuana.

A Yeah, you take marijuana. It is usually in like a cylinder that has a hole in the top, a hole in the bottom. They will take butane, which is a liquid solvent.

Q Is this just common butane that you can get like at the hardware store?

A Yes.

Q Stuff you put in your lighters, the old fashion lighters that you had to put butane in?

A Yes.

Q Can you get the same butane out of like a

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Bic disposable lighters?

A Yeah, I would assume so, yeah.

Q Okay, all right, go ahead.

A So basically as it goes over the plant, gravity takes effect and it will absorb the resinous material, which is concentrated with the THC that will go out the exit hole and into a pan. So you have a nice little surface area there and they let that evaporate off and then you're left with a very sticky substance, which that is high THC content.

MS. WHIRLEY: Which is what the last thing you said about THC.

A Which has a high THC content.

Q (By Ms. Alizadeh) That's sticky substance, is it a combination of the butane and the THC that's been extracted from the marijuana?

A At first until butane evaporates off.

Q Will the butane evaporate off?

A Yes.

Q And so is what your left with almost pure THC?

A I don't know for sure. I haven't done like a quant on that.

Q But it is higher concentration than it would be in the plant itself?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes, definitely.

Q So if you're going to ingest, you know, smoke a marijuana joint, if you consume the same amount in that sticky substance, it would be way more THC than what was in that joint?

A You have taken the volume of plant material, let's say, the size of this paper and you are condensing it down to, you are taking the cannabinoids and you are condensing it down without the plant material matrix and all those steps.

Q Okay. This process that you talked about, is this something like anybody could do if they have the marijuana and then the right materials?

A Sure.

Q And then why do people do this process?

A I'm not really sure.

Q Okay. If someone, do you know how they then will consume or ingest the sticky substance that they've gotten?

A This is pure assumption, but I assume it is just like marijuana, marijuana is commonly smoked and marijuana can be ingested. And there are also those food items that contain marijuana that they come from Colorado and so forth.

Maybe they're finding ways of using

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

the butane hunting oil to put it in those substances so it doesn't look like there is plant material in there.

I've also heard of lollipops that have THC on them. I would assume it would have to come from butane hunting oil, not marijuana. They can't put the marijuana plant in lollipops.

Q So you've heard of people consuming or ingesting this, you are calling it hunting oil?

A Butane hunting oil.

Q Butane hunting oil. You have heard of people ingesting that, correct?

A Heard of it.

Q If one were to ingest that, you would be consuming a higher level of THC than you would if you were to have smoked or ingested the plant material?

A Yes, you would.

MS. ALIZADEH: I don't have anything else.

MS. WHIRLEY: I don't have anything.

If someone is containing the substance that you examined, which was the marijuana, would there be like some type of detection that you could tell that they're on marijuana or using marijuana or would

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

there be like a scent or something like coming from their body, within their skin. You know how you can tell a person is smoking because it is in their skin cells, but could you detect that?

A This is getting out of my expertise, but I have heard that officers are trained to, they know what the smell of marijuana, I've been around marijuana. I know the smell of marijuana myself.

As far as what to look for on a person, I mean, I've heard of like bloodshot eyes, I haven't heard anything about the skin, there probably is, there are probably some things out there.

MS. ALIZADEH: And just so you all know, obviously, we've talked about the fact that there is going to be other witnesses testifying that will at some point maybe have the expertise to explain this to you. We're going to have a toxicologist who testifies about his findings and he'll explain what that means or what he can tell you about that.

And then there also could be some other evidence that makes this make sense to you. It is kind of hard, I can't give you an open statement and tell you why I was asking these particular questions, it might not mean anything to you right

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

now.

You mentioned that the normal procedure that it comes to an intake person and then goes to the vault and it would go to you?

A Correct.

Or somebody in your office, in this instance you said it did not go into the vault?

A No, it did not.

Is that because the rush was put on it, is that the only reason it didn't go to the vault or you wouldn't call this miss handling?

A No, no. Usually when this happens, I hear this on the intercom that, hey, would somebody, a drug chemist come up front. So that means the women who are accepting the evidence up front, there is being a rush requested and they are trying to assign it to a drug chemist right then and there instead.

Instead of putting it in the vault and when you have time to get to it, next on the list. First come first served.

A Basically they want it done right then a there.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

And on the scale, I just want some clarification, you said the most it could be off was 0.008 grams and that's, but then you went back and you said, that it could be outside of that amount three times out of a thousand.

A Yes.

You do try to error on the side of caution, but there is always three out of a thousand could be incorrect?

A Consider the way this was calculated when we determine that we were going to put a K factor of three on it, there's common K factors of two and three. And two is, would be 99 point, I think it is maybe 97 percent. I'm not real sure on that but I do know that K three is higher up, so it is 99.7.

So we're saying statistically we are 95 percent confident that 997 out of a thousand times that if you were to weigh this substance that many times it would be within .008 grams of that actual number we have.

Of the weight that you have listed here?

A Yes.

MS. ALIZADEH: Let me ask a question. I don't know if I was thinking that maybe this is what

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

you were getting at, . I neglected to ask you this, when you looked at this evidence item that you were testing, can you test marijuana to see if there's butane on it?

A I don't think that there's any good way of testing that. My assumption, and this is just purely assumption, since butane would be a liquid, it would be wet, but I think it would be evaporated off at that point.

MS. ALIZADEH: You don't test for it in your lab?

A We don't normally test for it. Butane could be tested on instrumentation. I don't have a procedure, it's never been presented to me to test for it.

MS. ALIZADEH: Okay. So in this case you didn't test this substance to see if it had butane on it?

A No, I did not.

MS. ALIZADEH: And it appeared to you both in its texture and appearance it appeared to you to be dried?

A Yes.

MS. ALIZADEH: And containing no other --

A And if it was wet, I would of made a note

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

of it.

I am going to ask if it did have butane on it, there would either be a sticky substance to the bag, it would be wet, there would be some sort of sticky substance at the bottom of the bag, but because it was dry and it was not wet, you determined just from the appearance of it that it would not be butane in it?

A That would be my assumption, yes.

MS. ALIZADEH: Without any real chemical test, this is just your assumption, correct?

A Just my assumption.

MS. ALIZADEH: And it was not tested at your laboratory to see if there was any butane on it?

A No, there was not.

MS. ALIZADEH: All right. Anyone else?

Do you have any sense for how long this process takes to make the butane from start to finish?

A I wouldn't think it takes very long.

An hour to a day?

A I'm sorry.

An hour to a day?

A I'm not very familiar with how fast butane

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

would evaporate off. Sometimes, I believe I have heard that there have been fires associated and explosions because they may put out an ether odor to it to make the process faster, and yes, you could probably have that done well within an hour depending on how much butane you have to evaporate off.

It is hard for me to say exactly how long that would a take.

MS. ALIZADEH: Anyone else? Sheila?

MS. WHIRLEY: No.

MS. ALIZADEH: This will conclude the testimony of

(End of the testimony of .)

MS. WHIRLEY: October 7th, 2014. It is 2:38 p.m. We are resuming. I'm Sheila Whirley, Kathi Alizadeh stepped out, but she will be rejoining us. The grand jurors are here, also and we have as our next witness, . He'll spell his name for you in just a minute.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q All right. , introduce yourself to the grand jury and spell your name, please?

A My name is

Q All right. , what is your occupation?

A I am a latent examiner for the St. Louis County Police Department.

Q What does latent mean?

A Latent is a term used for fingerprint. Bottom line is a latent kind of refers to a print that is when you touch a surface or object, your print that is left behind is referred to as a latent print.

Q What's a patent print?

A Patent print is a print left like in paint or blood or dirt, if you have some something on your hands or fingers and you touch a surface. For

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

instance, if you have paint on your fingers, you touch the surface and you left your print behind in paint, that's referred to as a patent print.

Q All right. Are you a police officer?

A No, I'm a civilian employee.

Q How long have you been with the St. Louis County Police Department?

A It will be 25 years this coming March.

Q Did you start as a fingerprint examiner?

A No, I did not.

Q How did you start with the department?

A I started in security services as a security officer.

Q And then you moved to fingerprints?

A Correct.

Q What is that department, just the fingerprint section?

A It's a fingerprint unit.

Q Unit, okay. How many people are in the unit?

A A total of ten.

Q What did you have to do to become a fingerprint examiner, what type of training is required?

A I have been through the St. Louis County

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

and the FBI fingerprint print classification. I've been through the St. Louis County Latent Training Program, I am a member of the Missouri and International Association for Identification, which are both associations that provide training throughout, through conferences every year that I attend for training for fingerprints.

I am also a certified latent examiner through the International Association for Identification and I'm also a certified AFIS user through the Missouri State Highway Patrol. And AFIS stands for Automated Fingerprint Identification System.

Q What does AFIS do, I mean, tell us a little bit about AFIS?

A Bottom line is, when a person is fingerprinted, those prints are put into the AFIS system. And then it would be my job to search those prints to see if I can find a match through the AFIS system.

Q Okay. What technical equipment, if any, do you use in your job in doing your latent fingerprint examination?

A With the AFIS, with the AFIS system basically I use magnifying glasses.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So a lot of us we watch CSI and other programs, and we believe that computers somehow generate prints and tell us when there's a match and you see all of these numbers. You've seen these programs, is that the way it is really done?

A Partially yes, partially no.

Q Okay, tell us about it?

A Um, when I search a print, the AFIS system searches the print itself and then it gives me a candidate list. Of the candidate list, the computer is saying, for instance, if it comes back with 20 candidates. The computer says this is the closest thing that we have to what you just searched. And it is up to me to go into each candidate and do a one-to-one comparison to see if it is or is not a match.

So the bottom line is, the computer does not tell you it's a match, it just gives you a candidate list. It is up to the individual person to say this is a match or it is not a match.

Q How do you determine if it is a match?

A I check for the minutia points in each fingerprint. Minutia points or bifurcation, bifurcation, any ridges, ridge dots, ridge islands. And arrangement of these minutia points and each

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

fingerprint is what makes the fingerprint unique to each person.

Q And unlike DNA, which identical twins can have the same DNA, correct? I mean, to your knowledge?

A To my knowledge, yes.

Q Right, I mean, that's kind of common knowledge, not that we know DNA here, but can two people have the same fingerprint?

A No.

Q Okay. And when you talk about the minutia points, are there a number of points you are looking for in making an identification of a fingerprint?

A The St. Louis County Police Department, we have a standard of eight or more points. So basically what that means is, if I get a partial fingerprint on whatever I'm looking at, if I can only find seven or less of these points, we deem that print insufficient. It has to have eight or more for us to say it is good evidence and then we go to the next step.

Q Okay. Any idea how many times you've made a fingerprint identification? I know I didn't tell you to look for that information, but do you have ever a conservative number, have you ever thought

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

about it or looked at it?

A Uh --

Q More than 100?

A Probably hundreds of thousands for the last 21 years, yes.

Q Do you do palm prints also?

A Yes.

Q And tell us a little bit about palm print identification, how do you do that?

A Palm prints are the exact same thing as fingers. Your palms are as unique as your fingers. And actually, so also is the bottom of your toes and the soles of your feet have the same friction ridges and they're as unique as the your palms and your fingers.

Q Is it possible, like for you, right there to sit there and touch every surface of that little table or desk like thing you are sitting at, and not leave fingerprints?

A Yes, it is.

Q And how is that possible?

A There are several factors. The first factor is the person himself. Some people secrete their perspiration. What I mean by that, on your friction ridges you have pores. And you secrete

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

your perspiration through your pores and it coats your ridges. So when you touch something, you could leave your print behind by that means.

Some people don't secrete that much, so they don't have enough moisture on their fingers or palms when they do touch something to leave something behind.

The other factors are the surface itself. Some surfaces are not good to get fingerprints off of. Another factor would be the weather. If I was processing these glasses and they've been sitting outside for the last week or two or three, any type of weather condition, rain, snow, heat, cold could possibly destroy a print that was left on there.

Q And so fingerprints are transferred from the person to the item. It has to do with the moisture in there, on their skin?

A Yes.

Q And some people, like who have very dry skin may not leave a print?

A Yes, that's correct.

Q Okay. So tell us how you compare fingerprints, a latent print with an ink print, how does that work?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A I do a side-by-side with the aid of an magnifying glass and I'm checking for the minutia points, I'm checking for the quality of the minutia points and I just find a specific area to start from and just do my comparison from there.

Q And does someone overlook or oversee what you've done and agree or disagree, or is it just your determination, that's it?

A When I make an identification, yes, it is checked through another latent examiner.

Q Another examiner. That's kind of the standard procedure?

A Yes.

Q Okay. Now, you know why we're here, this is the Michael Brown shooting that we're talking about and you had occasion to check for latent prints; is that correct?

A That is correct.

Q And what did you do in that case?

A I received five latent lifts.

Q At this time let me just pass out some copies of things I have.

(Deposition Exhibit Number 38 marked for identification.)

Q (By Ms. Whirley) Why don't you take one

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

and pass it around. This is what you have before you a copy of your envelope and then the lifts that are inside the envelope?

A That is correct.

Q We will let them get a copy and then we can talk a little bit about it. Are you the only one that worked this case?

A Yes.

Q Okay. You were told specific things to check for?

A Yes.

Q You checked to see if there were fingerprints is what I mean?

A Yes.

Q Were you brought a latent print that belonged to Michael Brown or did he have one in the system or how did you get his prints?

A You mean a fingerprint card?

Q Fingerprint card, yes, I'm sorry.

A They were brought to me from his deceased prints.

Q So tell us about that. Is this something that you've done before is check someone when you've got prints from a deceased individual?

A Yes, I've done that before.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q In what cases, like what type of cases would you be checking a deceased fingerprints?

A On deceased prints is usually, you know, a homicide or suspicious death or a person that is found dead, they do not know their identity and they take their prints and then we check them through the system to see if we can find who they are.

Q So someone at the morgue actually fingerprints the deceased?

A It is usually one of the crime scene detectives from St. Louis County.

Q Okay. Someone from the crime scene and then they provide that to you?

A Correct.

Q For comparison purposes?

A Yes.

Q And in this case, now, everyone has a copy, tell us, first of all, what things were you told, or are you told what to check for, because you don't know what to check for unless someone tells you; is that right?

A That is correct.

Q You are not investigating the case or anything?

A No.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So what were you told to check for prints on?

A Well, when I received the envelope the first thing I do is I check each latent lift, and as I spoke of earlier, I check to see if each, if the latent print, if there is any good latent prints on the lift, if it is has eight or more points.

In the second, if I do find a print that is good, then I will check if we have any victim eliminations. I would see if it is the victim's prints or not. If there is any suspects in the case, if they have something listed as a suspect. If we have him on file, then I'll pull his prints and check them against the good print.

And I do that with each individual lift that I receive.

Q Okay. And the lifts are provided to you by crime scene detectives?

A Yes, that's correct.

Q So they visually, what they see visually is what they consider might be a print and they'll lift it; how does that work?

A That is correct.

Q Okay. All right. So they bring you, and in this case they brought you how many lifts?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Five.

Q Five. Were any of the lifts, did any of the lifts have enough points, and you said you need at least eight to even be sufficient enough to determine if there could be some identification of the print?

A That is correct.

Q Were any of them?

A Yes, three of the five were good enough to make, had eight or more points.

Q That would be, tell us which ones that would be, we have copies here?

A Lift A.

Q Uh-huh.

A Lift B and lift E.

Q So C and D were insufficient to even determine an identification?

A Correct.

Q All right. So going back to what you were told to look for prints on, tell us what that was, what items were you looking for? It is probably on the evidence sheet like, go ahead.

A Are you referring to the lifts or you referring to the evidence sheet?

Q You tell me, let me ask the question. The

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

lifts, were they to, these lifts come from items that's on the evidence sheet?

A No.

Q Tell us where the lifts came from?

A The lifts were delivered to our office by Detective

Q Okay, all right. Were you supposed to be seeing if they were fingerprints on any of these items that are on the evidence receipt?

A On the evidence receipt, yes.

Q Tell us about that, that's what I'm trying to get to.

A Okay, I'm sorry. The evidence receipt was brought in to me by Detective . And it was the gun belt of Officer Wilson, it had handcuffs, your normal belt, the handcuffs, baton holder, the walkie-talkie holder, there was no gun in there, the holster, five keys, handcuff keys, two magazines that, two fully loaded magazines.

Q And this was all on the gun belt?

A That is correct.

Q So the gun belt was brought in to you?

A Yes, it was.

Q Is there anything on here about, what's the spray called, mace, is there anything, was there

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

any mace can or mace holder or anything on this gun belt?

A No, huh-uh, not that I recall.

Q What's on the evidence receipt is supposed to be everything that you looked at correct?

A Correct.

Q All right. So what were you supposed to be doing with this gun belt?

A Uh, I use a chemical called Super Glue on this. Basically what we do with Super Glue is I take all the items, I put it into a Super Glue chamber. Uh, put a little bit of Super Glue in the bottom of a cup, turn on the Super Glue machine. The fumes from the Super Glue will adhere to any prints that are left behind on that surface. And then once the cycle has run through, I will pull out the items, and check to see if there is any latent prints on there.

Q Okay. And you did that on all of the items?

A Yes, I did.

Q And on the three that you had sufficient enough points, a sufficient number of points, were you able to make an identification?

A Can I clarify something?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Yes, please do.

A The evidence, the fingerprints that were good enough to make ID were from the police car, not the gun belt.

Q I see. Copy of this envelope, the five lifts that Detective dusted and lifted, that's where the good prints were.

Q Okay.

A Of the items brought to me that I processed, were no identifiable prints.

Q Okay. And did you have, just to make sure I'm clear, were you not supposed to check the Michael Brown prints that were lifted, right? You had a sample of his prints, correct?

A Yes, but when you say lifted, it is more fingerprinted.

Q Fingerprinted, thank you.

A Uh-huh.

Q You were not asked to compare Michael Brown's fingerprints with the officer's gun belt?

A I was if there was any good prints to compare it to and there was none.

Q There were no good prints?

A On the gun belt.

Q Got it. I'm going to reiterate just to

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

make it clear. There were no fingerprints that were of sufficient number, as you talked about, to make any kind of comparison; is that correct?

A That is correct.

Q On the gun belt?

A That is correct.

Q You would call that negative prints?

A Yes.

Q That doesn't necessarily mean there were no prints, it just means there wasn't enough for you to make an identification?

A That is correct.

Q Okay. Now, for the car, which is what this represents; is that right?

A That is correct.

Q Okay. So let's talk about the car. Where prints were lifted, is that the exterior left front door?

A Yes.

Q All right. And this is where there were three prints that had sufficient number to make an identification?

A That is correct.

Q Who did the prints come back to?

A On Lift A, I was able to identify Officer

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Wilson's print. Lift B and E are good evidence, but have not been identified to anyone as of today.

Q Okay.

A Lifts C and D are insufficient.

Q So on lift B and E, they did not come back as identifying Michael Brown?

A That is correct.

Q Okay.

MS. WHIRLEY: Questions?

. So these tests, you talked a little bit maybe about the life expectancy of the print. If it is not identified as Darren or Michael Brown, how long or how much earlier do you think those would have lasted? Say it would have happened that morning, would it be something from a previous day or any thoughts if those are not those two prints, when those might have been put there, any idea?

A Really, no idea. On cars it is very difficult because, and I don't know how the Ferguson Police Department, how they, how their cars, how many guys go in and out of their cars or if they share their cars. It is kind of difficult to say.

: Thanks.

MS. WHIRLEY: Anyone else?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Did you say what date you did your examine?

A On which one, ma'am?

The car.

A I received, I did my examination on August 11th.

11th?

A Yes, ma'am.

The prints were lifted the day of, correct, or no?

A On the envelope he has August the 9th as the date. I don't know if that's, sometimes that's the date they do it, sometimes that's the date of the occurrence. Detective is the one who filled this out. August 9th is the date that he has in the corner here. Like I said, it is either the date of the occurrence of the offense or it is the date that he actually processed the car.

So lifts B and E were good prints, but they did not match but you had prints of Michael Brown?

A That is correct.

. And they also didn't match the police officer or you would have put that on, right?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A That is correct.

Have you run those two prints through AFIS to see if they match anybody that would have been on the scene?

A Yes, I have.

And they didn't match anybody that could have been there?

A No.

And I doubt we have any reason to suspect, but as Dorian Johnson was present, do we have the ability to test for his prints to see if those are his? Maybe that's not a question for you.

MS. WHIRLEY: Dorian Johnson, was he tested against?

A I was not given that name to check.

Thank you.

MS. WHIRLEY: .

Would his prints be in AFIS if he had been arrested at some point?

A Yes, they would. There is something on the AFIS system, the AFIS system is not perfect. It is only about a 65 percent hit rate. So, in other words, I'm in the AFIS system. If I leave my print behind and I search that print, 65 percent of time

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

it is going to hit and 35 percent it is not going to hit. The factors that come into play, and the biggest factor, the two biggest factors of that is quality of the latent print.

If I touch something on my tip and I leave enough minutia points of eight or more in order for that to be a good print and I search that, now when I got fingerprinted. They may not have fingerprinted my tip. So that tip may not be in there. So there's factors that do come into play.

The bottom line is, the system is not perfect. Just because the person is in the system and I search a print knowing, if I know that person is in the system, it still may not hit.

The only way to say whether or not these two that were evidence, could be, that were real good prints, but not Michael Brown's, to see if those were Dorian Johnson's would be to fingerprint him?

A That is correct, to check his prints.

MS. WHIRLEY: Or if you had a card, you would just need to look at it visually. You could not count on AFIS?

A Correct.

MS. WHIRLEY: You could do a visual

Electronically signed by Randy Dunn (401-282-321-8891) a65d3976-6902-42dd-9536-f372c261b448

comparison?

A I would do a one-to-one comparison on it. Do you know what percentage of the population are nonsecretors?

A I have no idea. Did they ever give you the gun to fingerprint the gun?

A No, ma'am. Never.

MS. WHIRLEY: Do you know if anyone was asked to fingerprint the gun, is this something you would know?

A I don't know off the stop of my head. I would think that they would bring it to -- since they brought the gun belt and everything down, I think they would bring the gun to me, but I don't know that. Just to comment on a question for you, but I do remember that they specifically went the DNA route.

MS. WHIRLEY: Anyone else?

Kathi, since you don't know what we've covered. I don't know if you have any additional questions though.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

MS. ALIZADEH: I do not.
MS. WHIRLEY: Okay. Anything else before we let go? I thank you so much,
(End of testimony.)
MS. ALIZADEH: This October 7th at 3:21 p.m. I'm present, as well as Sheila Whirley, and 12 grand jurors are present, as well as , the court reporter. And we've had a little break and I just want to put on the record that during the break there was some discussion, but it was primarily about logistics and scheduling and planning. There was really nothing discussed that had to do with any substance of the case and the evidence that has been presented.
Would you all agree with that, we didn't talk about the evidence?
(All indicate yes.)
MS. ALIZADEH: So for now we are going to resume this afternoon and we would first start off by playing a statement by a witness named
I expect that she will be here a little later this afternoon. And this is a statement that made to County Police officers on August 13th, and the statement is recorded and contained on Grand Jury Exhibit Number 24.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

MS. WHIRLEY: It says August 11th on here.

MS. ALIZADEH: Make sure you all have a statement that has August 11th on it.

So everybody has their transcript? And at this time, if you will pause the recording. We will then begin playing the recorded statement.

(Playing the interview of)

MS. ALIZADEH: It is 3:51 p.m. on October 7th. We just finished listening to the recorded statement from Does anybody need to hear that or a portion of it over again? I really, as you all notice it was, I would say poor quality recording. Difficult to hear at times.

So if there is a time when you want to review that again, you have difficulty hearing that, just let me know, all right.

And now we're going to play another recorded statement for you. And this is the statement of . And this statement was done on August 13th and it is about 21 minutes, a little over 21 minutes long. And at this time I'm going to hand out the transcripts for this statement. So this statement is recorded and

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

contained in a file on the disc that is marked Grand Jury Exhibit Number 24. At this time, , go ahead and pause the audio recording while we listen to the tape statement.

(Playing the audio recorded statement of)

MS. ALIZADEH: It is 4:15 p.m. and we just finished playing a statement of . We have another statement that we can start playing. I'm not sure if the are here yet and we also have another witness who might be here, but do you all need to take a break?

(Recess)

MS. ALIZADEH: Next statement is about 23 minutes. It is the 7th of October. We just took a brief break. This is Kathi Alizadeh, present is Sheila Whirley and all 12 grand jurors and the court reporter.

So I have learned during the break that one of our witnesses who the cab was to pick her up at 4:00 says that she, she missed the cab, so we sent the cab back for her. I don't know if she's gotten on the cab or not, but we're going to go ahead and play a taped statement now. There's also are supposed to be on there way.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

She told me she was off work at 4:00. So I said as soon as, you get off a little earlier great, as soon as you get off, come here.

So hopefully this will be about 23 minutes. We will play this statement and I will tell you that if nobody is here by then, that we'll probably just recess. I can't say for sure these people are even on their way.

So I'm going to pass out a transcript of the statement of Witness 34, which was done on September 3rd.

Everybody has the transcript. if you will pause the audio recording.

In getting ready to listen to this transcript, I mentioned that the witness name is Witness 34. This is another witness that I anticipate we will be referring to as a number as is very fearful for his safety if his identity is known.

So when you transcribe this, I will ask you, , to use a number for the witness that we will assign once I figure out what number will be.

And then we will also have to have that somehow edited out of the audio so that these

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

audiotapes, name is not used.

So we're not recording now, but in the future I'll refer to as witness number blank, which I've got to look at my list and see what number would be. So at this time we'll go ahead and play the recording. And this recording is on Grand Jury Exhibit 24.

(Interview of Witness 34 is being played at this time.)

MS. WHIRLEY: The recording of Witness 34 is completed and it is approximately 5:09 p.m., our time on October the 7th, 2014. We're going to just pause the recording. I'm going to see if there are any witnesses that we have planned that have arrived at this time.

(Recess)

MS. ALIZADEH: It is 5:18. This is Kathi Alizadeh, Sheila Whirley is here, all 12 jurors and , the court reporter, who is taking down everything that is being said. And we have our next witness here to testify.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

, of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

Q Could you please state your name and spell it for the court reporter?

A , last name , .

Q Okay. You have a very nice, clear voice.

A Thank you.

Q So you're doing a good job making sure everybody can hear us. The microphone isn't going to amplify, it is just recording. So just keep your voice up.

I'm going to direct you over here. This is a map that we have and it is labeled Grand Jury Exhibit Number 25. I don't know why this is crooked, but it is. So do you recognize the roads and the buildings that are on this map?

A Yes, ma'am.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. So let's, we're going to use this laser pointer as we're talking about things on the map. And you can use that to point so that you don't have to get up and move around and the grand jurors can see what you are pointing at, okay?

A Yes, ma'am.

Q how old are you?

A years old.

Q And are you married or single?

A Single.

Q Are you do you have fiancee?

A Yes, I have a fiancee.

Q Who is that?

A

Q And do you live with ?

A Yes, ma'am.

Q And how long have you two been living together?

A We have been staying together now for about four years, three and a half, four years.

Q Do you and live in the Canfield Green Apartment Complex?

A Yes, ma'am.

Q So you were both living there in August of this year?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes, ma'am.
Q Okay. Now, can you point on the laser pointer the building that you and live in?
A (Indicating.)
Q You are directing it to Building Number ?
A Yes, ma'am.
Q This number, is that the number of your apartment unit?
A Yes, ma'am.
Q So this would be on the south end of, the south side of the building. If this way is south, that's on the south side of the building, correct?
A Yes, ma'am.
Q What floor are you on?
A The second floor.
Q And is that, so you have one floor above you?
A One floor above me, correct.
Q And we've heard testimony about the stairs and the balconies and the staircase that's outside of your apartment?
A Yes, ma'am.
Q All right. So let's take you back to the morning of August 9th. Anything special or unusual happen in the morning or was it just an ordinary

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Saturday morning?

A It was an ordinary Saturday morning.

Q And were you home?

A Yes, ma'am.

Q And was home?

A Yes, ma'am.

Q Now, you have a child?

A I have boys.

Q Okay. Were they all home?

A Yes, ma'am.

Q Just give me the age range?

A

Q Okay. And so somewhere around noon of that day, what were you doing?

A Around noon that day I was in the kitchen on my cell phone and I was eating lunch.

Q All right. And so was home at that time?

A Yes, was home.

Q And what, if anything, happened that changed, you know, your attention?

A Because there was a knock on my front door and being that I was woke, I went to open up the door and saw it was friend at the door. So I went in the bedroom to wake up to tell

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

him that he had a visitor at the door. He got up, put on him some clothes and he was outside maybe five minutes. Then he turned around and came back in the house.

Q Okay. So did you stay inside the house when he went outside?

A Yes, ma'am.

Q Were you in the kitchen, did you say?

A Yes, ma'am, I was in the kitchen.

Q Okay. So from the kitchen can you see outside of your apartment?

A No, ma'am.

Q Okay. So when he went outside, he was out there about five minutes and then he came back in?

A Yes, ma'am.

Q Did his friend come in with him?

A No, ma'am.

Q Who was the friend, do you know him?

A His name, yeah, he's been over to the apartment a couple of times. All I know is his first name is

Q Okay. And so after came back, what happened?

A came back, he walked through the living room and went into the bedroom. Now, I was

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

in the kitchen on the phone and I heard him scream my name, but I wasn't paying him any attention because I was in on the phone talking to my sister. So then he screamed my name a second time, they're outside shooting.

So by this time I run out my kitchen to the living room to look out my patio door. And as I looked out the patio door, I saw the officer standing outside his vehicle with his gun in his hand and I saw a black male running away from the officer.

Q Okay. So let me stop you here.

A Okay.

Q When you heard say, they're shooting.

A Uh-huh.

Q Did you hear any gunshots before he said that?

A No, because I wasn't paying any attention to what was going on outside. I was in the kitchen on my phone, I was on the phone.

Q Now, this was August 9th?

A Correct.

Q And as I recall, it was a hot day that day?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Uh-huh.

Q Would you have your windows open or closed?

A The window was closed because we had the AC on.

Q Okay. And so was in the bedroom you said?

A Correct.

Q They're shooting?

A Correct.

Q And then you get up and you go outside onto the balcony?

A No, I get up when he said, they're shooting, I go from the kitchen to the living room and looked out my patio blinds.

Q Okay.

A Yeah.

Q And so we heard some testimony about how these apartment units are sliding glass doors?

A Yes, ma'am.

Q And then it has vertical blinds?

A Correct.

Q So did you have to open the blinds to see out?

A No, I just pulled them apart like this and

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

looked out through the blinds.

Q And so from where you were standing on your second floor apartment.

A Uh-huh.

Q On the front of the building?

A Uh-huh.

Q Could you see down to this area on Canfield?

A Yes, ma'am.

Q And did you see the police vehicle?

A Yes, ma'am.

Q What kind of car was it?

A It was an SUV truck.

Q Okay. And when you first looked, you said the officer was already out of the car?

A Correct.

Q So you didn't hear or see anything that happened before you saw that?

A Correct.

Q And you saw the officer, you said he had his gun drawn?

A Correct.

Q And I don't know what that means, so can you stand up and demonstrate for the jurors what you mean when you say he had his gun drawn?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A When I looked out the patio window, the officer had his gun like this, had his finger on the trigger, he was holding it just like this. (indicating)

Q Okay. So you can sit down. Where was the officer when you saw him?

A He was standing right there on the driver's side like right by his door, his door was open. So he's standing like a little bit past his door, the driver's side door.

Q Do you recall which direction his car was facing on Canfield Drive?

A His vehicle was facing like going deeper into the apartments.

Q So his vehicle was facing this direction? (indicating)

A Correct.

Q So the front of his vehicle was here? (indicating)

A Correct.

Q So you're saying that his driver's door was open?

A Correct.

Q So, was it from your position then, you can see the driver's side of that vehicle?

Electronically signed by Randy Dunn (401-282-321-8891)
a65d3976-6902-42dd-9536-f372c261b448

A Correct.
Q And he's standing outside the driver's door?
A Correct.
Q And now you said you saw a young man running away?
A Correct.
Q Did you recognize him?
A No.
Q Haven't seen him before that day?
A No, ma'am.
Q Did you see any other people in the area?
A Yes. I saw another shorter African-American male. At this time the police vehicle was facing, was facing this way and there was a white Monte Carlo facing, they was going the opposite way. The other black male was on the passenger side of the white Monte Carlo and he was down like this. (indicating)

He had dreads, I say like right here, and as I'm looking, and then by then I come out my apartment just to get a closer look. And I see the black male that was behind the white vehicle. He jumps inside the white car and the white Monte Carlo goes up the street.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. So the black male that you saw running away.

A Correct.

Q Where was he in relation to the police car when you first saw him?

A He was like, okay, the police vehicle is like here. He was like a good little distance away from the vehicle. (indicating)

Q Okay. So if the vehicle can you use the pointer and show where the vehicle was, police vehicle?

A The police vehicle was like right, like right in here. (indicating)

Q Okay. Now, I'm going to put my finger where you had the pointer?

A Uh-huh.

Q Show with the pointer where the boy that was running, where was he when you first saw him?

A When I first saw him he was probably like right here from where I could see him. (indicating)

Q And the officer was still at his driver's door?

A Correct, he was, the officer had his vehicle (sic) in his hand and he was taking large steps towards the guy as he was running.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So you see the officer moving in the direction that the guy was running?

A That the guy was running, yes, ma'am.

Q When you say the guy was running, is this like a full-out run or is this a jog?

A Like a jog, yes, ma'am.

Q Okay. So what do you see next happen?

A So then as I see the guy get out, like he disappeared. I didn't see him any more.

Q Which guy?

A The big one.

Q Okay. So we know that man's name now is Michael Brown?

A Michael Brown, correct.

Q You didn't know it then?

A Correct.

Q So we'll go ahead and call him Michael Brown since we know who he is now.

A Yes, ma'am.

Q So he disappears from your view?

A He disappears from my view. So by this time I come out my front door and I'm now standing on my patio.

Q Now, at this point have you heard any gunshots?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.
Q When did you first hear gunshots?
A I started hearing the gunshots, when I looked out the patio and I saw the officer walking, taking big steps and shooting, that's when I open up my front door and I came out onto my patio.
Q Okay. So you're saying as he was moving towards Michael Brown.
A He was firing.
Q He was firing. How many gunshots did you hear fired?
A I heard three shots. And that's what made me come out on my patio. So as I come out on my patio, I see that the victim, okay, I see that Mike Brown can no longer be seen. As I come out on my patio, I finally see Mike Brown walking like this with his hands up. He's now walking towards the officer.
Q You didn't see him turn around?
A No.
Q Okay. So from where you first saw him.
A Uh-huh.
Q With the laser pointer where you first saw him when he had his hands up?
A He was maybe like right here where this

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

car is at. (indicating)

Q Okay. And so you said he was facing the officer at that point?

A He's now facing the officer with his hands up like this. (indicating)

Q Okay. Do your hand the way his hands were?

A (Indicating)

Q So, for the record, you've got your upper arms are somewhat parallel to the floor and you've got your palms, out fingers are pointing skyward or up to the ceiling and your hands are about the level of the side of your head?

A Correct.

Q Okay. Go ahead and sit down.

And so did you see, what did you see happen then?

A As Mike Brown is walking toward the officer, he's started taking big steps toward him and he opened shot, pulled the trigger.

Q You see Mike Brown walking towards the officer?

A Correct.

Q How many steps did you watch him walk?

A Maybe a good four or five steps.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And how would you describe how he was walking? Was he walking quickly was he casually walking?

A He was casually walking as if he had got shot and he started feeling the pain or something like that, where like he couldn't, you know, pick up his pace because of the shot.

Q Did you see that he had been shot?

A Yes.

Q How did you know he had been shot?

A Because as the officer is shooting, I assumed that it was, he was being tased because I've never witnessed anyone being shot. And I asked my fiancee is that, I'm like, he's being tased, right, why isn't he falling. That's not tased, that's gunshot because I've never seen anyone get shot.

Q So are you saying that that conversation was while this was going on?

A Right.

Q What makes you say that you saw that he was shot?

A Because as, as the officer is shooting, like you see, like I guess like little smoke or whatever it was that as the bullets was hitting him, you saw like the little smoke coming from his chest.

Electronically signed b a65d3976-6902-42dd-9536-f372c261b448

That's why I assumed he was being tased. Because I guess looking at movies and seeing people get shot and they automatically fall, that was my first time ever seeing someone being shot like that close. So I assumed that he was being tased.

Q So as you see him getting shot or you see what you've described that you think that's the bullets hitting him.

A Uh-huh.

Q He continues to walk toward the officer?

A At this time it is like his steps were ceasing as, you know, he was about ready to fall over.

Q And what was the officer doing, was he standing still or was he moving?

A He was steady moving --

Q Steady movie in what direction?

A Towards Mike Brown.

Q How close did he get to Mike Brown?

A I say he was maybe a good, maybe 10 feet away from him.

Q Okay.

A And then he shot. And then, you know Mike Brown, he fell face down to the pavement.

Q All right. And you said you had come

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

outside at this point?
A Correct.
Q Did you hear anybody saying anything?
A No.
Q You couldn't hear, is it because you could not hear because of your distance?
A I couldn't, right, I couldn't hear what was being said as far as like if the officer was saying anything to Mike Brown, I didn't hear any of that.
Q After Mike Brown fell onto the pavement?
A Uh-huh.
Q Did you stay outside and continue to watch?
A Yes, ma'am.
Q Did you see anybody move his body other than when it eventually was removed?
A No.
Q Okay. How about the police car, did you see anybody move the police cars?
A Yes.
Q When did that happen?
A That happened right after Mike Brown fell and another officer, another Ferguson cop car pulled up.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q So what did the officer do after Mike Brown fell?

A He walked over to him and he did this, and he stepped back. (indicating)

Q Did you see him talking on his radio or anything?

A No.

Q Did he go back to his car?

A No.

Q All right. Did you ever see him go back to his car?

A No.

Q And then other officers came?

A Yes, ma'am.

Q And eventually his vehicle was towed away?

A Correct.

Q Did you see anybody move it before it was towed away?

A No.

Q So it stayed in that same spot?

A Uh-huh.

Q Um, and so now just to clarify, you have, you talked to the police --

A Correct.

Q -- first. On the day that this happened;

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

is that right, yes?

A I don't think it was the day that it happened, I think it was a couple days later.

Q Okay. Do you remember the officers, when you first talked to the officers, did they come to your house?

A Yes.

Q Okay. Was this because you told them that you had seen something or were they doing like knocking on doors?

A They was knocking on doors.

Q Okay.

A To see who all was at home.

Q Okay. And so if, when they talk to you, did they tape record your statement?

A Yes, ma'am.

Q If they said the date on the recording, would you think that that's probably the date that it happened?

A Correct.

Q So we're going to trust the recording as to what date that was, okay?

A Yes, ma'am.

Q And so you spoke to the officers for just a few minutes briefly on that day; is that right?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Correct.
Q Was there anything that you left out when you spoke to the officers?
A No, ma'am.
Q You don't recall?
A No, ma'am, I don't recall.
Q And so when you talked to the officers on the day that this happened.
A Uh-huh.
Q Well, you know what I would have to, I need a moment. Let me ask you to wrap up my questions and then we'll see if anybody else has questions.
A Yes, ma'am.
Q So after this happened, and you spoke to the officers, since then, did you speak to other investigators?
A I talked to the FBI.
Q Okay. And did you go to them or did they come to you?
A They came to me.
Q To your house?
A Yes, ma'am.
Q And did they record your statement?
A Yes, ma'am.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. How long did you talk to them?
A It was only, it was a couple of minutes.
Q Okay. And is what your telling today the best of your recollection?
A Yes, ma'am.
Q Did you ever see anything in Michael Brown's hands?
A No, ma'am.
Q Did you ever see him holding his side?
A Yes.
Q Okay. So then you haven't mentioned that?
A Yes. He had his hands up and as he, the officer steady taking big steps shooting at him, his hand goes like this and he holds his side as he has been hit. The officer shot again and that's when he collapsed and fell onto the ground. (indicating)
Q Okay. So when he was going down and collapsing, his arms were not up any more?
A No, ma'am, they were now, he was holding his side.
Q Okay. Do you know the other guy that ran away and got in the car and left, do you know who that is?
A No, ma'am.
Q Never seen him before?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A No, ma'am.

Q Have you and Michael talked about, after it happened I imagine you guys talk about it?

A Uh-huh.

Q Oh, my God, can you believe what we just saw?

A Uh-huh.

Q Have you talked about it in detail?

A No, ma'am.

Q Did he tell you what he saw?

A No, he didn't. He was affected by it and then I was affected, and that my kids was affected. And beings that my kids was so young, we try not to discuss that in the household around the kids because we want them to get that out of their mind and be kids.

MS. ALIZADEH: Sure, okay. Sheila, do you have any questions?

MS. WHIRLEY: Yeah.

Q (By Ms. Whirley) Before you saw him running, did you hear any shots fired?

A No, ma'am.

Q Okay. So you first heard shots fired when you saw him running?

A Yes, ma'am.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q And the officer was pursuing him shooting at his back?

A Yes, ma'am.

Q All right. And you did not see him turn around; is that right?

A No.

Q So the next thing you saw was what?

A I did not see him turn around and then when I finally open up my front door and go out onto my patio, I saw him with his hands up and he's now facing the officer and he's walking towards the officer with his hands up.

Q So his hands were up above his head?

A No, it was more like this. (indicating)

Q Okay. Kind of parallel with his head?

A Correct.

Q Okay. Now, when you first talked to the police back, August 9th is the date that we have. It was a few hours after this had occurred.

A Okay.

Q There is no mention about his hands being up. What do you think about that, why you didn't tell the police on that day?

A I did tell the officers that his hands was up.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. The recording, and we have a copy of the recorded statement there's a transcript, there's nothing in there that talks about his hands being up. You do recall telling him?
A Uh-huh.
Q You clearly remember that?
A Yes, ma'am.
Q And when he had his hands up, there wasn't anything in his hands you said?
A No, ma'am.
Q And how far away was he from the officer when he turned around and he had his hands up, how far away?
A He was probably about 20, 15 feet away.
Q 15, 20 feet away?
A Uh-huh.
Q And he has his hands up and you said the officer start shooting?
A The officer was constantly walking, taking large steps towards him with his gun in his hand, steady firing.
Q Okay. And when did you meet with the FBI?
A I want to say a couple days to a week afterwards.
Q Okay. And that was recorded I heard you

Electronically signed b a65d3976-6902-42dd-9536-f372c261b448

say earlier?
A Yes.
Q And you told them about the hands up?
A Uh-huh.
Q So when he shot him, I guess first it was 20 feet away you say when it started?
A Uh-huh.
Q And then Mike Brown is walking towards him after he shoots him?
A Uh-huh.
Q And he is doing what at that point when he's walking towards him?
A He's walking towards him with his hands up and then I guess as the officer is constantly shooting him, one of the shots must have hit him in the side and then he grabbed his side like this. The officer steady shoot and then he just falls over onto the pavement.
Q Okay. So you never saw him run towards the officer?
A No, ma'am.
Q Or charge at the officer?
A No, ma'am.
Q Did he ever look like he was a threat in your opinion to the officer?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A No, ma'am.
Q Did it appear to you that the officer needed to keep shooting --
A No, ma'am.
Q In order to protect himself?
A No, ma'am.
Q You didn't see it that way?
A No, ma'am.
Q Okay. Questions.

MS. ALIZADEH: I just want to clear up one more thing, When you spoke to the officer on the day this happened.

A Uh-huh.

MS. ALIZADEH: And, again, the grand jurors have the transcript and they will be able to listen to the tapes again. If you did not mention anything about his hands being up on that day, and you don't mention anything about his hands going to his side as if he were shot, do you think that it is possible that now you believe that that's a memory because you've heard people talk about that?

A No, ma'am.
Q At the end of your interview on that day, the officer said is there anything you want to add to this statement? And you said that when the guy,

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

once he tipped over, he hit the pavement, you saw his body like flinching like he was trying to get up. And after that he stopped moving and the officer stepped back away from the body and that was that?

A Yes.

Q That was it?

A Uh-huh.

Q So today you said the officer stepped toward the body and looked over the body?

A Right, as he shot the last time and Mike Brown fell to the ground, he did this and then he stepped away. (indicating)

Q Okay.

MS. ALIZADEH: Anybody have questions? Tell me again when he was, when Michael Brown was shot the second time, he had his hands up?

A Correct.

You assume that he might have been wounded on the side?

A Uh-huh.

Did both hands go down to the wound or just one?

A Yes, both.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

So what I'm doing with both hands here on my right side, is that representative? (indicating)

A Yes, sir.

Thank you.

A You're welcome.

THE COURT: Anybody else?

Just to be clear. The last shots that the police officer took.

A Uh-huh.

Michael Brown's hands were not in here, they were down here. (indicating)

A Correct.

I'm looking at the transcript that we have here. I just want to read a little part of it. While standing there looking, I assume, I figure that they had tased him, he was going down, but then when I talked to my fiancee he said it was actually gunshots, and like he shot him two more times. That's when the guy tipped over.

A Uh-huh.

The officer walked up, shot him three more times and the dude just tipped over head first and his head smashed into the pavement.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Are you telling us that, it sounds like you are saying in this transcript that the guy tipped over and after he shot him more when he was tipped over.

A No.

No, that is not.

A No, ma'am.

Thank you.

A You're welcome.

MS. WHIRLEY: Just to make sure I'm clear now.

So he shot, his hands were up, he shot, he does this and he's tipping over and then he's being shot again?

A No, his hands was up, he was shot, he did this, and the officer shot again and then he just fell, and his face hit the ground. (indicating)

MS. WHIRLEY: Do you know how many times the officer shot total?

A No, ma'am.

MS. WHIRLEY: Do you know how many times he shot on the last occasion before he tipped over?

A Maybe about three times.

MS. WHIRLEY: Okay.

You said

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

you saw Dorian duck down by the white Monte Carlo?

A Uh-huh.

MS. ALIZADEH: Just to clarify, she didn't know his name?

A I don't know his name.

I'm sorry.

MS. ALIZADEH: I'm not saying she can't know his name. The guy, we know his name is Dorian.

Oh, okay. And my question is, when you saw him duck down, were you coming out of your patio at the time when you did not see him any more?

A No, I was standing on my patio, that's how I know that he got inside the white Monte Carlo and the Monte Carlo went up the street.

So you actually saw him get into the car?

A I saw the driver door open and he did this, got in it, the door closed and the car went up the street.

You were outside on your patio at the time?

A I was outside on my patio.

Okay.

MS. WHIRLEY: Now, we see that you wear

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

glasses?

A Yes, ma'am.

MS. WHIRLEY: Do you wear them for distance or for near sight?

A Near sight.

MS. WHIRLEY: Is your vision corrected with the glasses.

A Yes, ma'am.

MS. WHIRLEY: Were you wearing glasses when you were looking at all this?

A Yes, ma'am.

MS. WHIRLEY: Was there anything to impair your vision or impair you from seeing what you told us here today?

A No, my kids were out, by this, when I open up the door to go out onto the patio, my boys came outside. So I'm kind of like trying to pull them back away from the patio and pull them back into the house just so they won't be seeing and hearing all of this stuff that was going on.

MS. WHIRLEY: So you were distracted a little bit with your boys?

A Correct.

MS. WHIRLEY: During what period of time was this when you were working with your boys, what

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

was going on?

A This was as the officer is shooting and as his hands, Mike Brown hands is up and the officer is shooting, I'm trying to pull my boys back because I've never been around anything with shooting, I didn't know if the bullets would --

MS. WHIRLEY: We certainly understand that. I just wanted to know did you miss anything when you were pulling the boys back?

A That could possibly be true. Because I'm trying to see what's going on in the streets, but at the same time I'm trying to pull my kids away from the patio and back in the house to keep them from witnessing and seeing and hearing what is going on as well.

MS. WHIRLEY: Is everything you told us what you witnessed --

A Yes, ma'am.

MS. WHIRLEY: -- and not something you heard. Is everything --

A Everything that I said to today is what I witnessed, yes, ma'am.

One more question. You didn't feel like he was moving in an aggressive manner. Could you see Michael Brown's

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

face?

A No, I couldn't see his face.

You couldn't see his face?

A No, ma'am.

Thank you.

A You're welcome.

MS. ALIZADEH: Anything?

(End of the testimony of)

of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. WHIRLEY:

Q Would you please introduce yourself to the grand jurors and spell your name, please?

A My name is

Q All right. now, do you live in the Canfield Green Apartments?

A No.

Q Okay. Do you know anybody that lives

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

there?

A I know two people that live there.

Q Who is that?

A Um, one is that stays like on the back end of it and one of stay there.

Q You may notice we have a map here, does that map kind of look like Canfield?

A Pretty much.

Q You can recognize places on this map and here is a pen that you can use. You point that button and the red light appears. So I'll ask you a few questions about that in just a moment.

So you live, not in the Canfield Green Apartments?

A No, ma'am.

Q Now you know why we are here today, we are here about the shooting of Michael Brown, right?

A Uh-huh.

Q On August the 9th you were obviously at the Canfield Green Apartments; is that right?

A Yeah.

Q What were you doing there?

A I was bringing one of ,

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

was bringing it back that day.

Q So your was with you. Who was with you, were you in a car?

A I was in a van, it was me, my husband, two of my daughters and my granddaughter.

Q Okay. So there is five people in the van?

A Yes.

Q And had yours husband

A

Q What color was your van?

A It's

Q So what route did you take going to Canfield. This is West Florissant, right?

A Uh-huh.

Q So what was your route, show us with the pen?

A I came through here and I stopped here.

Q When you stopped here, is this when you saw whatever you saw?

A Pretty much. It was probably a little bit further up.

Q Which way?

A It was probably about around here. (indicating)

Q Okay. When you are at this location, what

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

did you see?

A Well, when I was coming around here, I heard like about two or three gunshots.

Q Were you driving?

A Yes.

Q Okay.

A So at first I thought it was firecrackers, but when we got around, I seen a police car, I can't be sure, it was like about somewhere in between here, I think the police car may have been.

Q What direction was the place car facing?

A It was facing towards me.

Q West Florissant?

A Yes, it was facing toward West Florissant.

Q Was it driving?

A It wasn't driving, it was sitting still.

Q And what position was the car in?

A It was like pulled off to the side a little bit, it wasn't directly coming down the street, it was like pulled off into the side by the sidewalk.

Q Like was it blocking the road?

A No, it wasn't blocking the road.

Q So you could drive straight by without having to go around it?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yes.

Q Okay. So is anybody in the car in the police car?

A Well, at the time I wasn't really looking in the car. I was looking at the person standing by the car.

Q Who was the person standing by the car?

A I don't know who the person, I didn't know who the person was, I just knew it was an African-American male standing at the car.

Q What did you see while the male was standing at the car?

A He looked like pretty much had his hands directly pretty much in front of him standing at the car looking like he was just talking. I couldn't tell what was going on, he was standing at the car.

Q He was standing at the police car. Where at the police car?

A He was standing at the driver's door.

Q At the driver's door. Was he inside, like leaning inside?

A He was just like standing bent down towards the door.

Q Okay. Did it appear the window was down?

A Yes.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Did it appear someone was in the car, you said you couldn't tell?

A I kind of figured it was someone in the car because he was standing there with the window open looking down into the car.

Q Into the police car. Did that seem strange to you?

A No.

Q Why not?

A Because I figure that he either was talking to the officer or the officer was talking to him.

Q Okay. So you didn't see anything that looked aggressive like fighting or tussling or anything like that?

A Well because of the gunshots I thought that he was either shooting at the cop or something was going on or something might have been going on around in the area. So I just, when I first seen the police car and after hearing the shots I was like kind of leery about going any further.

Q So you say you saw the shots?

A No, I didn't see them, I heard them.

Q I'm sorry, you heard the shots, so thank you for correcting me. And then you saw the black

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

male at the driver's side door of the police car?
A Yes.
Q But you couldn't see his hands?
A No.
Q But you didn't see any movement?
A No, he was just pretty much just standing there and then he kind of, um, started backing away from it and stuff at first. I thought he slung something away, but I couldn't be sure if that's what I saw right now.
Q Okay.
A Because I couldn't remember that.
Q When you heard the shot, was he still standing at the police car in the driver's door?
A I'm not exactly sure because like I said, we heard the shots. I heard the shots when we were like about right, when we was coming around the bend around that corner. I didn't hear anything when I actually got a visual of what was going, you know, people standing there.
Q And how many shots did you hear when you were coming in this way?
A It was at least about two or three.
Q Two or three. Okay. So you heard the shots and then when you got up and a little closer

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

and you saw the police car, you say you saw this black male at the driver's side window?

A Yes.

Q So that was before you heard the, well, you heard the shots and then after you heard the shots, you saw the male at the window?

A Yes.

Q And then what did you see?

A Um, after that, like I say, he backed away from the car and he, um, he was like standing there for a minute and then he took off running.

Q Okay.

A He was running away from West Florissant.

Q Which way was he running, show me?

A He was, um, I don't know exactly where it was at. He started running back this way. (indicating)

Q Was he running in the street?

A Yes.

Q Okay. And what did, what else did you see after you saw him running?

A After he took off running, I was watching the police officer get out of the car. He got out of the car and closed the door and then he started running after that guy.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Did you see anything in the police officer's hand?

A Yes, he had his gun drawn and it was down to his side.

Q When you said drawn and down to his side, can you explain that for me?

A It wasn't in the holster.

Q Okay.

A It was just in his --

Q You mind demonstrating how he had it drawn?

A He was trying to get out of the car, he looked like he was having a little bit of difficulty getting out of the car at first and then he started running. I can't remember if it was the left or right, but I know he had it down to the side and his other hand was up like this running. So he was running towards the guy with the gun in his hand, not in the holster.

Q Okay. Can you describe the guy that he was running after?

A Um, he was kind of heavy set black guy.

Q Okay.

A He had on shorts, looked like he had on socks with flip flops and a big shirt.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. And you've heard, I'm sure the news and this is Mike Brown that you're talking about.

A No, I don't watch the news.

Q Oh, that's right you said you don't want television; is that right?

A I don't want television. I didn't know his name until like I seen it on the internet.

Q Okay. But that's the same guy you thinking?

A Uh-huh.

Q Okay. Where were you when you seen them run?

A Same spot. I was in the car right around here where the light pole is. I was like pretty much, because I know there was a tree in front of us and there was a girl standing next to us because I remember when I got ready to leave, I turned into the driveway.

Q Uh-huh. At the time you saw them, were you facing the police car?

A Yes.

Q Because you were on your way inside?

A Yes.

Q To do something

A Uh-huh.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay. So when you see him running, is he firing a weapon at that time, you say his gun is out, the police officer, is he firing at the individual running?

A No, he couldn't, if he was running with it down by his side down.

Q Well, at any time did he change that position and start firing?

A He didn't start, I didn't see him fire, I didn't even hear the gunshots until later.

Q And what was happening when you heard the gunshots?

A When I heard the gunshots and saw him firing his weapon, he was, Michael had stopped, he had stopped. He threw his hands up and then he put his hands down, Michael turned around and then he started running, he kind of shuffled back and forth a little bit like he was confused or something. And then he started running towards my car, he started running back towards us.

The officer had ran, he was running after him. He had stopped, I heard him say get down about two or three times and he kind of veered off to the side a little bit, but he still was aiming his gun at the guy, at Michael. And he after, he

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

held his gun out at him, he was aiming the gun at him, he was telling him to get down. And like I said, Michael was shuffling back and forth like he was confused and then he started running and that's when I started hearing him shoot.

Q While he was running toward the officer?

A Kind of towards the officer. I couldn't be sure if he was running exactly towards the officer or just trying to run past him.

Q But he was running in the officer's direction?

A He was running pretty much our direction. The officer was pretty much between us and Michael.

Q And the officer was saying stop or get down?

A Get down.

Q And could you hear Michael say anything?

A I didn't hear him say anything. He was trying to run. He was running and he had his hands down in like a running stance.

Q Look like he was charging at the officer?

A I couldn't be sure if he was trying to charge the officer or run past him.

Q Okay. It was unclear to you. Did he look like he was threatening the officer?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Well, like I say, I couldn't be sure if he was trying to threaten him, like I said.

Q I mean, a person, a reasonable person just looking at it, would you think in your mind?

A I thought he was trying to charge him at first because the only thing I kept saying was is he crazy? Why don't he just stop instead of running because if somebody is pulling a gun on you, first thing I would think is to drop down on the ground and not try to look like I'm going to attack 'em, but that was my opinion.

Q So it looked to you like he could be attacking him?

A He looked like, he looked like he could have been attacking him or the officer could have felt like he was attacking him.

Q I want you to tell me what your impression was as you looked at it?

A I was looking at it, I could not be sure. Like I said the officer, he was like off to the side a little bit and Michael was probably, he was like standing here shuffling back and forth, and he took, he just started running. I don't know if he was trying to come towards the officer or if he was just trying to run past him.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q Okay.

A I couldn't tell you.

Q All right. And one last thing and then I'll turn it over. When you talked about him having his hands up, at what point did he have his hands up?

A He put his hands up when he stopped. He kind of like threw his hands up, like I can't do this no more. He just threw his hands up and he turned around and he kind of put his hands down and he was like shuffling. He didn't have his arms up while he was shuffling, he was just shuffling back and forth.

Q When you say shuffling, can you show me? I'm sorry.

A He was like, he was like. Just doing like this, shuffling back and forth like he didn't know what else to do. He was just shuffling back and forth. (indicating)

Q Where were his hands?

A He was like to the side, just doing, you know, hand gestures. They wasn't up like this or anything. They was just down like, you know.

Q Did he look like he was hit by any of the bullets?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A I didn't see, I couldn't tell that.
Q You couldn't see any blood or anything?
A I didn't hear any of the gunshots until he started running.
Q Okay. When he started running toward the officer?
A Uh-huh.
Q So he was doing the shuffling before he came toward the officer?
A Yes, right before he started returning, he started shuffling back and forth.
Q Okay. And that's when you heard the shots?
A I heard the gunshots. He told him, before he shot him he told him to get down again, and Michael had started running. And that's when I started hearing the gunshots.
Q Okay. So how many shots do you think you heard total?
A I know at least about three or four. I remember hearing three or four shots.
Q Two initially, and you were driving in --
A Two or three.
Q Two or three, Michael is at the car with the officer?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Yeah.
Q And then Michael runs?
A Uh-huh.
Q And when he turns around and the officer tells him to get down, that's when you hear more shots, the three more shots?
A When he started running.
Q When he started running towards the officer?
A Yes.
Q Did you hear any more shots?
A Um, I couldn't tell you how many shots I heard, but I remember seeing a blood splatter coming around by his face.
Q At what point did you see that?
A That was like right before he started stumbling because he kept coming and the officer kept shooting and I remember the blood splatter. I seen the spray of blood come out of somewhere around his face and then he started to stumble.
Q Was the officer still shooting then?
A Um, I couldn't tell you if he kept shooting, but I know that when he hit the ground, he wasn't still shooting.
Q Okay.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A I didn't see him shoot any more. I know he kind of put his gun down. I could see him radioing. I seen him grab like the radio on his shoulder and then he, um, that's pretty much when I decided it was time for me to turn around.

Q Okay. So you left at that point?

A I was trying to, but it was like two police SUVs started coming past me after that. They was coming down the street. I was looking to make sure there wasn't anybody coming around me. So I was trying, because I had my family in the car, I didn't want to get hit by anything, so I was watching. I looked in the side mirror to see if anybody was coming and I seen the two police SUVs coming, and I stopped. And after they passed by, I watched a little longer and I went around.

I went up this driveway right here and I went around this way because I didn't know, this is the first time I had ever been over there. So I didn't know that this came back out this way. (indicating)

Q Okay.

A So at that point we didn't know what else was going to happen. We stopped at and came out and asked what was going on.

Electronically signed b a65d3976-6902-42dd-9536-f372c261b448

And I'm like, did you hear something? And we like, we were like telling the police had just shot a guy out there. After that we just got back in the car and we came back. I didn't get out of the car, we was just sitting there for a few minutes to see what was going to happen. We pulled right back out and started down the street.

Q And you left?

A Yes.

Q So you didn't talk to the police that day?

A Huh-uh.

Q How did the police know to contact you?

A I can't remember.

Q If you --

A I think I called them.

Q You called the police?

A I called the police and told them that I had saw the shooting and.

Q And then you met with them at or somewhere?

A Yeah, I met with them at

Q Okay, all right. Based on what you saw, did it appear that the officer had to shoot him to protect himself?

A I don't know.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

Q You don't have an opinion about that?
A I don't have an opinion about that because I couldn't tell whether or not the guy was charging. I wasn't as close to him as the officer, I wasn't as close to the scene as the officer and Mike was so, I don't know what he could have been thinking. I don't know if he was thinking that he was trying to charge him or not.
Q And when you saw him shoot him, the last shots to be fired when you saw the blood spray, how far did it seem that the officer and Mike Brown were apart from each other?
A About as far as me and you are.
Q Oh, okay. This close? (indicating)
A Uh-huh.
Q And we're like less tan 10 feet apart okay.
A Yeah, because he was pretty much staying back away from him. Mike was pretty much bigger, he was a little bit bigger than the cop was.
MS. WHIRLEY: Okay, all right. Thank you. That's all I have. Kathi?
MS. ALIZADEH: Just a couple. Ma'am, did you ever watch, I know you don't watch TV, did you ever hear or did anybody ever talk to you about the

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

autopsy report?

A I think I heard about it, but I'm not really sure what it was about because I didn't try, I probably felt like I was going to be asked questions about it eventually, but since I didn't really, that was like pretty much nothing that I really witnessed, so I didn't really pay attention to it.

Q So to this day, do you know where Michael Brown was shot on his body?

A I heard that it was in his arm and in his head.

Q Okay. And you heard that where?

A Everywhere.

Q Okay.

A Anywhere, and I did see a couple of things on the internet.

Q Okay. From the time that Michael Brown turned around and until the time he eventually collapsed in the street.

A Uh-huh.

Q Can you give me an idea, I know how close they ultimately got, but how far did he travel?

A I couldn't really tell you because it looked like from where I was standing, where I was

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

sitting, I'm in the car, I'm trying to think. I'm not even exactly sure. I think that where his body landed was like right about here. (indicating)

Q Okay.

A This is so hard to tell, especially not being there.

Q Do you know about where he was when he turned around?

A It was almost to like the end, I'm not sure if it was the end of this street or what, I can't remember.

Q Okay. When you say this street, I didn't see the pointer?

A He hadn't made it around. He hadn't made it around this corner, I know that it had to be within this same stretch right here. (indicating)

Q Okay.

A Because I could see him clearly.

Q If you are saying his body was here, that's where he collapsed, so he was someplace west of that and then he ran east?

A Uh-huh.

Q And you don't have any good idea of like if I keep walking back if you're going to say stop if you want to say how far he ran?

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A I think he ran a pretty good distance.

Q Okay. Farther than I can walk back?

A Um, I can't think right now. I don't even remember how far it was.

Q Okay.

A Only thing I can remember is hearing the gunshot, seeing him being shot and it was just like, it was surprising.

Q Okay.

MS. ALIZADEH: I don't have anything else.

MS. WHIRLEY: Anything else?

: You said he had his hands up for a brief moment?

A He had his hands up when he stopped, when he was running away from the officer. I don't know if he got tired or what, but he threw his hands up.

Were they like this or were they like this? (indicating)

A Up in the air just like that. (indicating)

Okay. That's it.

. With it being a hot, summer afternoon, were your windows, did you have your air on were your windows up?

A No, I like my windows down because I have

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

people in the back seat and I think what happened was, as a matter of fact I knew I didn't have them up because, um, it wasn't that hot because it was before noon when we left. It was around noon when we got there and it wasn't that hot that time of day.

And one more thing. Do you remember if the sirens was on the police car?

A On which police car? The one that the officer was in?

Yes.

A No, it was just sitting there.

MS. ALIZADEH: Anyone else?

MS. WHIRLEY: Was it a car or was it a truck?

A Oh, it was a car that the officer was in.

MS. WHIRLEY: That you saw Michael Brown standing next to?

A Yes, it was a car.

MS. WHIRLEY: When you say car, when I say truck, I'm talking SUV or was it a car?

A It was a car.

MS. WHIRLEY: It was not an SUV?

A No, it was a car.

MS. WHIRLEY: Okay.

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

A Because I remember him getting up out of it.

MS. WHIRLEY: Do you know what kind of car it was?

A You mean make and model?

MS. WHIRLEY: Yeah.

A No.

MS. WHIRLEY: Okay. That's all right.

A It was a white police car with the blue police sign.

MS. WHIRLEY: It was not like a SUV like a Ford Explorer or --

A No, because that's what came past me when I was sitting there.

MS. WHIRLEY: You know what a SUV is?

A Uh-huh.

MS. WHIRLEY: And it was not a SUV that you saw Michael Brown standing next to?

A No.

MS. WHIRLEY: When he was talking at the police car?

A No.

MS. WHIRLEY: Okay.

You said he had trouble getting out of the car, the police officer,

Electronically signed by a65d3976-6902-42dd-9536-f372c261b448

can you describe what you saw?

A He was just looking like he was, he had opened the door and was trying to get out of the car. I didn't know what was going on, I figure he might have been disoriented. I don't know what was going on, I couldn't tell you what was happening. All I know is he looked like he was coming out of the car and he got up and yeah, he did close the door behind him and he took off running. All right. Did you ever see anybody else by the car?

A No. The only other people that I was looking, I seen were pretty much just bystanders and watching everything.

MS. WHIRLEY: That concludes the testimony of

(End of the testimony of

GRAND JURY HEARING VOLUME XII

MS. ALIZADEH: Good morning.

(Everyone says good morning.)

MS. ALIZADEH: Let's see, Monday, October 13th, at 8:38 a.m. This is Kathi Alizadeh with the prosecutor's office, present is Sheila Whirley, all 12 grand jurors are present, as is , the court reporter. He's taking down what is being said and recording, audio recording.

So for today, the first witness, let me back up a little bit and talk about scheduling. There was a question brought up, I think it might have been during a break we had last week about whether or not three days a week was helpful or if it was not very productive. And so Sheila and I have talked about it, as well as with some of our investigators.

You know, as I mentioned to you that some of these people are reluctant to come in and that means going out and serving them subpoenas and even then, that's not a guarantee they're going to show up.

We have been lucky so far. We have been able to get the people in, but, you know, every day

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

is going to be a challenge. We talked about it and first of all we felt that it was, it was going to be problematic for us to try to corral or wrangle up enough people to fill three days of your time.

Neither Sheila nor I wants you sitting here. I know you have taken out from your personal lives and from your jobs and it is just really wrong for us to waste your time for you to sit here for two hours when we don't have anything scheduled for you or anything to put on.

I think the two day a week is going to be better, hopefully we will use that time productively.

Another reason for it is because we have doing the transcripts and we need those done as quickly as possible, because there's another investigation going on, that as you know, there's a federal investigation that's kind of parallel to ours. And doesn't just work when he's in the room with us, he goes home and he works to try to transcribe everything that is going on. And news to me, he mentioned the other day one hour of testimony may take him three hours to transcribe.

He's working diligently to try to get these transcripts out. And when we have back to

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

back days, he's not able to work on the transcripts and the three days a week, we're finding he's not able to keep up with the transcripts the way we need them.

Another reason is, you know, once this case is concluded and given to you for your deliberation, once, assuming you arrive at a decision, we don't want to have to delay that decision for two or three weeks while we're waiting for the transcripts to be done.

So he's, , trying to do those as we go so we can keep up on those. So we felt that that was another reason why the two day a week would be better for just our purposes and getting this done efficiently and as quickly as possible.

So I think the word went out to you last week after we canceled Thursday, that we also are canceling tomorrow, but we do have witnesses lined up for all day today, assuming they show up and then we have witnesses lined up for all day Thursday. Including, you know, we're going to hear statements when we're not having witnesses boom, boom, boom there will be times that you are listening to statements of witnesses that we anticipate that are going to be called.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

So with that being said, thank you for, did they already do the rest of October?

MS. WHIRLEY: How far, the 16th?

MS. ALIZADEH: Today, this week is today and Thursday. I don't know if we have the next two weeks actually written in stone. So if you guys, I've got a calendar in my office, but is that completed for the month.

No jury duty on the 30th. We have it up through the 28th, that's three days.

: We need to talk about it.

We need to confirm it.

MS. ALIZADEH: Yeah, why don't you all keep in mind two days a week is going to be the best way to go during your lunch break, and something you can kind of talk about your schedules and redo the calendar as you have.

I will tell you that whatever days you pick, like I said, we are going to work with those. Doesn't matter to me, however, I do believe that it can be helpful for us if at least one of those days at least till 5:00. We've found that there are witnesses who have said, you know, well, I can't be here till 4:00 because my kids off the bus and blah, blah, blah.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

We understand that these people are witnesses, you know. They happen to be, what they may feel now is at the wrong place at the wrong time. So, I'm trying my best, especially the ones that are cooperative, to work with them if they have, you know, work or child issues that, you know, we'll get you here, when does your son get off the bus. Okay. How about if we have the cab pick you up at 3:00, get you here at 3:30 that way we can get some of these people on.

So when you do your schedule, I know that a lot of these days you have a 2:30 cutoff because of work and that's fine, but if there is a day during the week that you can go till 5:00, that might be a good second day for us because then we can maybe accommodate some witnesses that need to work later.

Is there anything else that anybody had to bring up or talk about before we get started?

All right. So today we are going to hear first . We heard from his wife last Tuesday. And he was here with her, we didn't have time to get to him. You've already heard his recorded statement so we will call him as our first witness.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

We also have , she has a couple of statements that we will play before she testifies. One of them is very brief, like three minutes long, but the other one I have to tell you we just got because it was the result of a federal interview.

I can't remember if it was done by the FBI or Department of Justice, but we have that, we have the recording of that, but I don't have a transcript of that. So we'll just listen to the recording of that statement before she testifies.

And then we have a witness that's scheduled to be here at 1:00 in the afternoon. His name is . He's made a number of statements as well.

So after testifies, we'll go on with the statements, recording statement for the next witness, all right.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

, of lawful age, having been first duly sworn to testify the truth, the whole truth, and nothing but the truth in the case aforesaid, deposes and says in reply to oral interrogatories, propounded as follows, to-wit:

EXAMINATION

THE WITNESS: I want to be sure that I understood what it was.

BY MS. ALIZADEH:

Q Would you state your name and spell it for the court reporter, please?

A It is one , please, in .

Q Mr. , good morning.

A Good morning.

Q We've met before. I'm Kathi Alizadeh and you know that I'm one of the prosecuting attorneys who is putting on the grand jury investigation with Sheila Whirley as well, right?

A Yes.

Q And I know you were here last week and you and your wife came in, and I apologize that we didn't have time to get to you, but you were good enough to come in today. So we will get you out of

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

here as soon as we can, okay?

A Sure.

Q The microphone that's in front of you, does not amplify your voice. So just make sure you keep your voice up so we can hear you all the way back here.

A Okay. Most people tend to tell me to tone it down because I project. So I don't think that will be a problem.

Q Okay. You've got a nice voice there, everybody will raise their hand and let you know if they can't hear you or need you to repeat something.

Sir, how old are you?

A .

Q And are you married?

A Yes, I am.

Q Who are you married to?

A .

Q And do you and have any children together?

A We have,

.

Q Okay. So what is your biological child?

A They're .

Q What is her name?

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

A There's

.

Q And those are your step or biological?

A Those are my biological.

is my stepdaughter.

Q Okay. So you --

A

Q You and , and who is the other daughter?

A and she's our youngest and is my stepdaughter.

Q And are , are they both adults or are they minors?

A They are all adults. The youngest is currently years old.

Q And are you familiar with the Canfield Green Apartment Complex?

A Only that I've ridden out there a couple of occasions with the family. has a friend who lives there.

Q So you don't have live in the complex?

A No, I live in north St. Louis.

Q And none of your family lives in the complex, correct?

A No, they do not.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

Q Okay. And so do you recall the morning of August 9th of this year?

A The day of the shooting?

Q Yes.

A Yes, I do.

Q Was there anything special or unusual about that morning?

A We were taking

And as we were driving down Canfield toward the complex, we heard what first sounded like overly loud fireworks. And we looked up, saw the flashing red and blue lights.

At this point I noticed the officer and a large black man, about my size, who appeared to be pointing a gun. I believe they were having a shootout at the time, I believe they were having a shootout. And the young black man appeared to be pointing in our direction and I was afraid for my family at the time.

Q Okay. Let me stop you.

A Uh-huh.

Q And we're going to start --

A Sure.

Q -- at the very beginning. So you were

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

going into the complex, do you remember what time, approximately, what time of day it was?

A It was bright and sunny, that's all I can remember.

Q Do you remember this being a Saturday?

A Uh, at this point, no, I don't remember what day of the week it was.

Q Okay. And so were you in a vehicle?

A My wife's .

Q And who was driving?

A My wife.

Q Where were you in the car?

A Front passenger.

Q Were there any other people in the van with you?

A and I believe two of the grandchildren, but I don't recall which two.

Q Are the grandchildren, are they minors?

A They are minors. The oldest one is .

Q Okay. And so you said you were coming into the complex, was driving into the complex?

A Yes, she was. We were in traffic.

Q And do you remember, I'm going to direct

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

your attention to Grand Jury Exhibit Number 25, which is an aerial view of the streets and buildings that comprise the complex?

A Which way is Florissant?

Q So what I'm going to tell you is that this is north, up is north?

A Okay.

Q And so if you were to see that this is Canfield Drive that goes through the complex, if you continue on here you are going to West Florissant?

A Okay, okay. We were coming from Florissant down the drive.

Q Okay.

A Our destination was this parking area back here behind one of these two houses. We always pull up from the back, so I'm not sure which house it is, but lives in one of these houses. (indicating)

Q Here, let me have you, let me show you here, this is a laser pointer. So instead of having you stretch yourself, you can use that?

A Okay, sure.

Q So you were in the van and you were coming east on Canfield?

A Yeah. This curve here is, we were coming,

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

we were on this curve when we heard the first shots, which called our attention to it. And we began scanning the distance down the hill here looking for the source of the, looking for the source of the sound.

Q Okay. Now, let me tell you and remind you that I know that you had other people in your vehicle.

A Yes.

Q And I know they all saw things as well.

A Uh-huh.

Q What is important is that you testify about what you saw.

A Right.

Q And what you heard and observed as opposed to if maybe you and your wife?

A Right.

Q Or your daughters talked about this later and they talked about what they saw.

A I understand.

Q You're saying we did this and we were scanning the area, what is important is what you did.

A Right.

Q Okay. So as the vehicle comes to this

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

bend, which is at the northwest corner of the map, right around Coppercreek Road, you said that having heard what you believed to be fireworks?

A Right. They sounded a little too loud for fireworks.

Q Okay.

A And looking down further down the street, I saw the lights from the squad car.

Q Okay. So let me stop you. Get some details before we get to that point.

A All right.

Q Were your van windows up or down or do you recall?

A Um, a couple of inches. I like the fresh air, but I don't like the wind blowing in my ear when we drive. It is usually cracked two or three inches.

Q Okay. Do you recall would you of had the radio on or music playing?

A No radio, but I had four adults and two children in the car

There was a lot of noise.

Q A lot of chatter?

A Yes.

Q Okay. So, and then how is your hearing,

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

Mr.

A My hearing is pretty good.

Q What about eyesight, do you wear glasses?

A I do not wearing glasses. I have trouble reading, uh, I have trouble reading street signs when we're driving.

Q Okay.

A But other than that, I don't have any problem. I can read, uh, united we fall, divided we -- united we stand, divided we fall is kind of fuzzy on the seal.

Q Okay.

A I can see the MDCCXX, the roman numerals at the bottom. I don't wear glasses.

Q Okay. So now, as you come around the bend and you said that you looked down, kind of scan down Canfield, which at that point as you are coming around is kind of a straight shot, correct?

A Right.

Q And you see, you said you see a squad car?

A Now, I do not, I still don't know for sure. I didn't recall when I gave my first statement, whether it was a car or an SUV. I didn't pay that much attention to the vehicle, but I saw the lights.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

Q Okay. So lights meaning like the light bar on top of the car?

A Right, the red and blues.

Q You saw those were going off?

A Yes.

Q And what did you see as far as people at and/or around the vehicle, please vehicle?

A Um, I saw people, residents and citizens coming from various different directions. I saw the officer out of his vehicle, I didn't see him exit his vehicle. When I first seen the officer, he was already, uh, several feet from his vehicle.

Q Okay. So can you use the pointer and point to where you believe you first saw the vehicle, not where you were, but where was the police vehicle?

A There's an image of a vehicle on your map here and it is near that one, it is near this side road here in between this one and this side road here. (indicating)

It was in this area here. (indicating)

Q Okay. So was the vehicle when you first observed it, was it moving or was it stationary?

A Stationary.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

Q Okay. Did you ever see it move after that?

A No, I didn't.

Q Okay. So when you came around, you said you saw the officer and he was already out of the vehicle?

A Yes, with his back to me.

Q And you said he was a ways away from the car?

A Yes.

Q So in what directional was he away from the car?

A He was down the street because he was moving down the road away from his vehicle. The officer was near the yellow line.

The vehicle was about 45 degrees from the curb and the officer was out near the yellow line moving down the road away from the vehicle.

Q Okay. So when you say the vehicle was about 45 degrees away from the curb, do you mean that the vehicle was angled or do you mean that it was, I don't understand?

A It had been like it had been pulled in and the right front wheel was at the curb and the vehicle was about 45 degrees, like it had been

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

parked at an angle.

Q Okay. So it wasn't in the lane as if, you know, if you were driving down that street, you would be going straight down the lane?

A You will have to see people parked at an angle on Sundays out in front of churches, it was at an angle by the curb.

Q Was the officer's vehicle blocking the road so that other vehicles could not go past?

A Uh --

Q Or do you know? Don't guess if you don't know.

A I don't think it was blocking. I'm not positive, but I don't believe it was blocking the road. It was closer to the curb.

Q Okay. So you said when you first saw the officer, he was, his back was toward you?

A Yes.

Q And he was moving away from you?

A He was moving away from us toward the guy that he was shooting at. I first seen the officer, the officer was between me and the guy he was shooting at. The officer was facing the other guy and guy that he was, I'm sorry, I don't know what to call the other guy.

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

Q We now know that the person who died was named Michael Brown.

A Okay.

Q So it is okay --

A Mr. Brown.

Q And just to be clear, so you didn't know Mr. Brown before that day?

A No, I did not.

Q And is that the bigger black gentleman that you described having seen?

A Yes, the one that was shot.

Q Okay. So let's back up for a second so when you see the officer.

A Uh-huh.

Q You said he's a ways away from the car with his back towards you and he's moving away from you.

A Yes.

Q So are you good at distances?

A Not that good.

Q Okay. Can you give me an idea how many feet or car lengths or a football field?

A A car length, maybe two, between them or between us.

Q Between the officer's vehicle and where

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

you first saw the officer you said he was aways from his car?

A Not more than a car length from his vehicle.

Q Okay.

A A couple of strides.

Q And when you say he was moving away from you, can you describe how he was moving? Was he running, was he walking, was he walking quickly, jogging?

A Uh, a trot, a brisk trot.

Q Did you see at that time if he had a gun in his hand?

A I couldn't see what he had in his hands, his back was to me.

Q Okay. And so, now as you look and you said you saw the officer, did you also, when you first looked, could you also see Michael Brown?

A Yes, my first, that was my first view of Michael Brown. He was in direct line just past the officer and he was pointing in our direction.

Q Okay. So he was facing in this direction?

A Yes, ma'am.

Q Okay. So the first time you saw him, you saw his front?

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

A Yes.
Q Okay. You never saw the back of him?
A No, I did not.
Q Okay.
A He appeared to be pointing directly at the vehicle we were in, he was pointing at the officer in the officer's direction and because of our point of view, he appeared to be pointing at us.
Q Okay. Did you see anything in his hands or anything that he was doing with his hands?
A I believe I saw a flash of light off of something.
Q Okay. And now you had mentioned earlier, and I believe in your statement as well, you said at first you thought he had a gun?
A Yes, that was my belief.
Q So that was an impression you got --
A Yeah, I was scared the bullets were going to start coming through the windshield.
Q Now, let's back up just a bit. When you were coming around that bend and you heard what you now know are gunshots, how many shots do you think you heard?
A Three or four.
Q Okay. And then when you saw, you first

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

saw the officer, did you see him after you heard the gunshots?

A After.

Q After, okay. So when you saw the officer and he's moving away from you, could you tell was he firing a weapon as he was moving away from you?

A Uh, the next shot I heard was after Michael Brown started running, the officer fired and I saw Michael Brown stagger and fling his arms out. At which point he turned around and came back toward the officer.

Q Okay. Now, let's back up. When you first see Michael Brown, he's facing the officer?

A Yes.

Q And you said it appeared that he was pointing?

A He looked like he was pointing at us, yes.

Q Can you stand up and show the grand jurors how you saw what it looked like he was doing?

A He's about my size, young black guy and he looked like he was pointing. I can't tell one finger or two, I can't tell what he had in his hand, but I thought I saw a glint. I believe it was a gun.

Q Okay. Now, when you saw him, when you

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

first saw him, was he moving or was he standing still or standing in place?

A I'm not certain.

Q Okay. As you then come around the bend and you see this, describe for me, you can sit down, we'll go through this again step by step, but describe for me what you see next happened?

A Well, after seeing him and the officer and seeing him point and getting this impression that he was going to start shooting in our direction, uh, like that, Mr. Brown spun and started to run away down the street going this direction.

Q Okay. So that would be east down Canfield?

A Yes, down Canfield away from Florissant and away from our vehicle. At which point the officer fired one shot and I saw Mr. Brown stagger.

Q Okay. Let's back up now then. You had said when you saw the officer he was, his back was to you, he's moving ago way from --

A Moving away from us, moving toward Mr. Brown.

Q And you said he was near the yellow line?

A Yes.

Q Where was Michael Brown standing when you

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

first saw him? Was he in the street, was he in the grass?

A Out in the middle of the street.

Q Okay. And what was the distance when you first saw them between Michael Brown and the officer?

A Uh, perhaps the length of this courtroom.

Q Okay. So maybe --

A From me to the flag.

Q Okay.

A 15, 20 feet.

Q Okay. And so then you say you saw Michael Brown, he was pointing when you first saw him?

A Right.

Q You saw him spin around?

A Spin and run.

Q And run where?

A Down the street.

Q So he stayed in the street?

A Um, he might have been angling toward this side of the street, but he was running straight down the center of the street that's turning, so, he was running straight away from us.

Q Okay. When you saw him, did you notice how he was dressed, and I mean, Michael Brown, did

Electronically signed by 66f1a392-4758-4fae-ac94-36933ab8f7e1

you pay any attention?

A Blue jeans, white T-shirt, tennis shoes.

Q And so, and you said you thought you saw a glint in his hand, but did you see anything once he turned around and was running, did you notice anything in his hands?

A I thought I saw him throw something or lose something when the officer wounded him and he, when he was wounded, he flung his arms out and spun back around. And I thought something might have flung from his hands. I wasn't certain at the time I gave my original statement. This was an impression that I got that I thought he may or may not have lost what he had in his hand.

Q Okay. Could you tell when you first saw Michael Brown, did he have a hat on?

A I don't remember a hat at all.

Q Okay. And so you say that he was running away from the officer and the officer was, you said a fast trot, I think?

A A trot or a jog.

Q A jog?

A He was trying to close the distance.

Q And when the officer was running, after Michael Brown spun around and started to run east

down Canfield Drive, did the officer fire at him?

A Yes.

Q And then you said, you had said something about Michael Brown being wounded.

A Yeah, when Mr. Brown was running away from the officer, one shot was fired. Mr. Brown staggered a little to the left and his arms went out. It looked to me like he was shot in the left leg or low on the left side and he spun around.

Q Did you see any blood coming from him?

A No, I wasn't close enough to see blood.

Q So it was just by the way he reacted that you thought he was shot?

A The way his body jerked.

Q Okay. And so you say he spun around, so when he spun around, was he facing the officer at that point?

A He spun 180 degrees and came back toward the officer.

Q All right. When you say he came back toward the officer?

A Several steps back toward the officer.

Q Okay. Now, can you stand up again, sorry, up down, up down.

A That's okay.

Q It is like church.
A It's all right.
Q So can you describe for me when you say he spun around and he flung his hands out.
A Yeah.
Q Show the grand jurors what you mean by that?
A Okay. Pardon me. His left leg kind of jerked a little and his arms went out as he was running. He kind of, and he came about. (indicating)
Q Okay.
A He continued the turn.
Q Now, you're doing something with your hands, is that what he was doing?
A His arms came down.
Q Okay.
A After he completed, after he completed his turn and recovered his balance, his arms came down.
Q Okay.
A And he proceeded to take several steps toward the officer with his arms down.
Q Okay. And did you, so at this point when you say down, do you mean at his side?
A I mean hanging loosely at his sides.

Q And the steps that he took toward the officer, can you describe how he was doing that, walking, walking quickly, running?

A Walking.

Q Walking?

A Yeah.

Q And about how many steps did he take toward the officer?

A He got three, maybe four steps.

Q From where he had turned around?

A Yes, he had gotten three, maybe four steps.

Q Was the officer still going toward him?

A Yes, they were still closing the distance.

Q Okay. Did you hear anybody saying anything at all during this time?

A At this point lots of bystanders had started screaming, but I couldn't make out what they were saying.
